It is the policy of the Federal Highway Administration to encourage the States to fully utilize the authority contained in 23 U.S.C. 321(b) and 321(c) to provide continuing education of State and local employees engaged or to be engaged in Federal-aid highway work.

§ 260.405 Application procedures.

(a) The State in making applications for education and training funds is encouraged to establish a program, for the fiscal year, outlining the use of such funds.

(b) Application for Federal-aid funds to be used for educational and training activities must be made to the Division Administrator in one of the following ways:

(1) The State, having established its education and training goals, may submit Forms PR-1, "Federal-Aid Program Data", for each class of funds to be utilized and Forms FHWA-1421, "Request for Use of Federal-Aid Highway Funds for Individual Education of Training" or FHWA-1422, "Request for Use of Federal-Aid Highway Funds for Group Education or Training" at the beginning of the fiscal year; or

(2) The State, having some educational and training goals but not desiring to specify individual programs, may submit Forms PR-1 for each class of funds to be utilized at the beginning of the fiscal year and Forms FHWA-1421 or FHWA-1422 on an individual basis throughout the year as the need for education and training activities arise; or

(3) The State may submit Forms PR-1 for each class of funds to be utilized and Forms FHWA-1421 or FHWA 1422 throughout the year as the need for education and training programs arise.

§ 260.407 Approval criteria.

(a) Subject to the availability of funds, as determined by the Division Administrator, the following criteria shall be observed by the Division Administrator in determining whether to approve each separate course or training proposal:

(1) The existence of a student-instructor relationship in which a planned routine of instruction will be followed training objectives.

(2) The existence of a training environment that will accomplish the training objectives.

(3) The existence of a program or schedule of planned activity to be followed.

(4) Assurance that Federal fund participation in the cost of the training will not exceed 70 percent of the cost of tuition or other direct education expenses, which expenses shall not include travel, subsistence or salaries of the trainees.

(b) The Division Administrator's approval, as indicated on the submitted forms, shall constitute his authorization to proceed with the requested training.

§ 260.409 Funding and reimbursement.

(a) Education and training funds are made available from Federal-aid funds which are designated to meet specified State needs. These classes of funds, and amounts made available from each class for education and training, are reflected by apportionment data distributed by the FHWA.

(b) Established Federal-aid reimbursement procedures will be followed by the division and State offices, including execution of a Federal-aid project agreement, FHWA Form PR-2.

§ 260.411 Prohibition against discrimination.

The Civil Rights Act of 1964 (43 U.S.C. 2000d–2000d-4), the Department of Transportation implementing regulations (49 CFR Part 21), and the State assurances executed pursuant thereto are applicable to all activities receiving financial assistance through the Federal Highway Administration.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes Made in Determinations of the City of Oldsmar, Florida, Base Flood Elevations

On June 25, 1976, at 41 FR 26405, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Oldsmar, Florida.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Oldsmar, Florida. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 120250A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor Robert L. Williams, P.O. Box 100, Oldsmar, Florida 33557.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Oldsmar, Florida Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Oldsmar, Florida map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes Made in Determinations of Brevard County, Florida, Base Flood Elevations

On June 25, 1976, at 41 FR 26402, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of Brevard County, Florida.

The Federal Insurance Administrator, after consultation with the Chief Executive Officer of the community, has determined that modification of the base (100-year) flood elevations of some locations in Brevard County, Florida, is appropriate. These modified elevations are currently in effect and amend the Flood Insurance Rate Map. A revised rate map will be published as soon as possible. The modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 125092B and must be used for all new policies and renewals.

The changes in base flood elevations are as follows:

Previous FIA zones (as on map)	Previous base flood elevations (as on map) (MSL) (feet)	New FIA zones	New base flood elevations (MSL) (feet)
V5	7	V7	8

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any person having knowledge or wishing to comment on these changes should immediately notify:

Mr. James Ford, Brevard County Planning and Zoning Commission, 2575 North Courtenay Parkway, Merritt Island, Florida 32952.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 23, 1976.

H. B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-2134]

PART 1916—CONSULTATION WITH LOCAL OFFICIALS

Changes Made in Determinations of the City of Atlanta, Georgia, Base Flood Elevations

On June 25, 1976, at 41 FR 26406, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of the City of Atlanta, Georgia.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in the City of Atlanta, Georgia. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

For rating purposes, the new community number is 135157A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mayor Maynard Jackson, 68 Mitchell Street, Atlanta, Georgia 30303.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the City of Atlanta, Georgia Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the City of Atlanta, Georgia map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

[Docket No. FI-2134]

PART 1916—HOUSING AND URBAN DEVELOPMENT

Changes Made in Determinations of Alexandria, Virginia, Base Flood Elevations

On June 25, 1976, at 41 FR 26418, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas. The list included Flood Insurance Rate Maps for portions of Alexandria, Virginia.

The Federal Insurance Administration, after consultation with the Chief Executive Officer of the community, has determined that it is appropriate to modify the base (100-year) flood elevations of some locations in Alexandria. These modified elevations are currently in effect and amend the Flood Insurance Rate Map, which was in effect prior to this determination. A revised rate map will be published as soon as possible. The modifications are made pursuant to Section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended, (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90-448) 42 U.S.C. 4001-4128, and 24 CFR Part 1916.

V41N195 OCT 6 76 UMI

For rating purposes, the new community number is 515519A, and must be used for all new policies and renewals.

Under the above-mentioned Acts of 1968 and 1973, the Administrator must develop criteria for flood plain management. In order for the community to continue participation in the National Flood Insurance Program, the community must use the modified elevations to carry out the flood plain management measures of the Program. These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and contents.

From the date of this notice, any person has 90 days in which he can request through the community that the Federal Insurance Administrator reconsider the changes. Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data. All interested parties are on notice that until the 90-day period elapses, the Administrator's new determination of elevations may itself be changed.

Any persons having knowledge or wishing to comment on these changes should immediately notify:

Mr. David L. Cook, Director, Department of Transportation and Environmental Services, City of Alexandria, 125 North Royal Street, Alexandria, Virginia 22314.

Also, at this location is the map showing the new base flood elevations. This map is a copy of the one that will be printed. The numerous changes made in the base flood elevations on the Alexandria Flood Insurance Rate Map make it administratively infeasible to publish in this notice all of the base flood elevation changes contained on the Alexandria map.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 23, 1976.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

[T.D. ATF–33]

PART 301—PROCEDURE AND ADMINISTRATION

PART 601—STATEMENT OF PROCEDURAL RULES

Reorganization of the Bureau of Alcohol, Tobacco and Firearms; Change of Titles

A basic reorganization of the structure of the Bureau of Alcohol, Tobacco and Firearms was announced by the Department of the Treasury on August 30, 1976. The reorganization primarily affects the criminal enforcement function and organization of the Bureau.

One of the major features of the reorganization is elimination of the position of Regional Director and associated regional criminal enforcement staffs. The Regional Director currently functions as the Bureau's chief regional official. Accordingly, duties performed by the Regional Director will be assumed by other regional and field officials.

Furthermore, straight line management systems for regional and field functions are implemented by assigning direct line authority over:

(1) Special agents in charge to the Assistant Director (Criminal Enforcement);

(2) Regional regulatory administrators (formerly assistant regional directors, regulatory enforcement) to the Assistant Director (Regulatory Enforcement);

(3) Regional Administrative Officers to the Assistant Director (Administration); and

(4) Chiefs of Field Laboratories to the Assistant Director (Technical and Scientific Services).

Therefore, the terms "Assistant Regional Commissioner (Alcohol, Tobacco and Firearms)" or "Regional Director" wherever used in Part 601 of Subchapter H shall mean the "special agent in charge" or the "regional regulatory administrator in the Bureau of Alcohol, Tobacco and Firearms".

The term "Assistant Regional Commissioner (Alcohol and Tobacco Tax)" or "Assistant Regional Commissioner (Alcohol, Tobacco and Firearms)" wherever used in §§ 301.6091–1, 301.6311–1, 301.6402–2, and 301.6404–1 of Subchapter F shall mean the "regional regulatory administrator in the Bureau of Alcohol, Tobacco and Firearms".

The term "Assistant Regional Commissioner (Alcohol, Tobacco and Firearms)" wherever used in §§ 301.7321–1, 301.7322–1, and 301.7328–1 of Subchapter F shall mean the "special agent in charge in the Bureau of Alcohol, Tobacco and Firearms".

The term "Assistant Regional Commissioner (Alcohol, Tobacco and Firearms)" wherever used in § 301.9000–1 of Subchapter F shall mean the "special agent in charge," the "regional regulatory administrator," the "regional administrative officer," or the "chief, field laboratory in the Bureau of Alcohol, Tobacco and Firearms."

Because this Treasury decision is administrative in nature and merely effects an internal reorganization, it is found unnecessary to issue this Treasury decision with notice and public procedure under 5 U.S.C. 553(b).

This Treasury decision will be effective December 1, 1976.

Signed: September 28, 1976.

REX D. DAVIS,
Director.

Approved: October 1, 1976.

JERRY THOMAS,
Under Secretary of the Treasury.

[FR Doc.76–29304 Filed 10–5–76;8:45 am]

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS, DEPARTMENT OF THE TREASURY

[T.D. ATF–32]

BUREAU REORGANIZATION

Change of Titles

A basic reorganization of the structure of the Bureau of Alcohol, Tobacco and Firearms was announced by the Department of the Treasury on August 30, 1976. The reorganization primarily affects the criminal enforcement function and organization of the Bureau.

One of the major features of the reorganization is elimination of the position of Regional Director and associated regional criminal enforcement staffs. The Regional Director currently functions as the Bureau's chief regional official. Accordingly, duties performed by the Regional Director will be assumed by other regional and field officials.

Furthermore, straight line management systems for regional and field functions are implemented by assigning direct authority over:

(1) Special agents in charge to the Assistant Director (Criminal Enforcement);

(2) Regional regulatory administrators (formerly assistant regional directors, regulatory enforcement)—to the Assistant Director (Regulatory Enforcement);

(3) Regional Administrative Officers to the Assistant Director (Administration); and

(4) Chiefs of Field Laboratories to the Assistant Director (Technical and Scientific Services).

Therefore, the terms "Assistant Regional Commissioner" or "Regional Director" wherever used in 27 CFR Parts 1, 4, 5, 7, 18, 170, 178, 179, 181, 186, 194, 195, 196, 197, 200, 201, 211, 212, 213, 231, 240, 245, 250, 251, 252, 270, 275, 285, 290, 295, and 296 and Subpart F of Part 173 shall mean the "regional regulatory administrator".

The term "Assistant Regional Commissioner" wherever used in Subparts C and D of 27 CFR Part 173 shall mean the "special agent in charge".

The term "Regional Director" wherever used in 27 CFR Part 70 shall mean the "special agent in charge" or the "regional regulatory administrator".

The term "Regional Director" wherever used in 27 CFR Part 71 shall mean the "special agent in charge", the "regional regulatory administrator", the "regional administrative officer", or the "chief, field laboratory".

The term "Regional Director" wherever used in 27 CFR Part 72 shall mean the "regional administrative officer".

Because this Treasury decision is administrative in nature and merely effects an internal reorganization, it is found unnecessary to issue this Treasury decision with notice and public procedure under 5 U.S.C. 553(b).

This Treasury decision will become effective December 1, 1976.

Signed: September 28, 1976.

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 36—LOAN GUARANTY

Acceptable Sale and Leasing Restrictions

On page 14198 of the FEDERAL REGISTER of April 2, 1976, there was published a notice of proposed regulatory development to amend § 36.4350(b)(5). The proposed amendment provided that a condominium estate would not fail to qualify as security for a Veterans Administration guaranteed loan because of the existence of a restriction on leasing for periods of less than six months or a first option to purchase under certain limited conditions.

Twenty-five comments on the proposal have been received. Insofar as the restriction on leasing is concerned the comments were all generally favorable, although there were some suggestions to use a different time span. All commentators agreed that preserving the residential homeownership characteristic of individual condominiums was important and provisions which would avoid the possibility of the condominium units being used for transient or resort type hotel accommodations were desirable. Recognizing that various different time spans, whether for a shorter or longer time, all have some merit it has been determined that the original permissive restriction of prohibiting leases of less than six months without association approval will well serve the purpose of limiting the possibility of transient occupancy while at the same time not be unduly restrictive on the owner's right to use and enjoy the property. Therefore the allowable, but not mandatory, less than six-month restriction is being adopted.

On the issue of the first option to purchase there was a divergence of opinion expressed. Several writers expressed strong approval based on the high density style of living and the required ability to bear the burden of the assessments to assure the financial stability of the association. Others addressed themselves to the problem of existing condominiums whose documents contained provisions unacceptable under present regulations but which would qualify under the proposed change. These writers pointed out the impossibility from a practical viewpoint of changing existing recorded documents in many cases, primarily because of requirements for the affirmative consent of a high percentage of the unit owners. In addition, the cost and time involved may make a change economically impracticable in some cases. Writers favored the proposed change because it would open an existing supply of housing to veterans. Several comments addressed the need to standardize the requirements of VA, Department of Housing and Urban Development, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and others interested or concerned with financing housing units so that once a project or condominium regime qualifies for one agency's purposes it would not be subjected to conflicting requirements from some other source. It was pointed out that the proposed change would possibly be in conflict with title requirements of the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation and the Department of Housing and Urban Development. Finally, several writers stated that while the permissible first option to purchase was not on its face discriminatory, it could be used for such purposes.

In light of the cogent comments received it has been determined that the proposed amendment, insofar as it relates to the first option to purchase, should be modified. As to condominium regimes established on or after the effective date of this revision, enabling documents which contain any limitation upon a unit owner's right to convey the unit to a party of the owner's choice (right of first refusal) will preclude the condominium from qualifying for VA guaranteed financing. The VA has been assured that this provision is in line with Federal National Mortgage Association and Federal Home Loan Mortgage Corporation requirements generally and therefore reduces the possibility of conflicting requirements.

The VA is also concerned that eligible veterans should not be precluded from a currently existing inventory of available housing. As indicated, many condominiums established by documents now of record for practicable purposes cannot be changed. Many of these were established prior to VA's entry into the condominium housing field and were formed without consideration of an application being made to VA for acceptance since VA had no such program at that time. These documents, in many instances, were apparently drafted pro forma from previously used and accepted formats. To preclude this housing supply from the VA program and deny veterans the right to use their entitlement to acquire a unit from this source would, in VA's opinion, not be in the best interests of veterans. Therefore as to condominiums established by the recording to the enabling documents prior to the effective date of this revision, a first option to purchase on certain limited conditions as set forth in the revised regulation will not preclude qualifying as security for a VA guaranteed loan.

In addition, at this time VA is further amending § 36.4350 so that limitations on an owner's right to sell, other than in condominiums, will likewise cause that property to fail to qualify as security for a guaranteed or insured loan. Thus, on and after the effective date of this amendment, all estates in real property, insofar as restrictions on the power to sell will be treated alike, i.e., no restrictions on the owner's right to sell will be acceptable.

In order to reduce any possible adverse result this change may have on documents currently in process the effective date will be December 1, 1976.

It is hereby certified that the economic and inflationary impacts of this process the effective date will be December 1, 1976.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A–107.

Approved: September 30, 1976.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

In § 36.4350, paragraph (b)(5) is revised to read as follows:

§ 36.4350 Estate of veteran in real property.

* * * * * *

(b) Any such property or estate will not fail to comply with the requirements of paragraph (a) of this section by reason of the following:

* * * * * *

(5) Sale and lease restrictions:

(i) Except as to condominiums, the right in any grantor or cotenant in the chain of title, or a successor of either, to purchase for cash, which right was established by an instrument recorded prior to December 1, 1976, and by the terms thereof is exercisable only if—

(*a*) An owner elects to sell,

(*b*) The option price is not less than the price at which the then owner is willing to sell to another, and

(*c*) Exercised within 30 days after notice is mailed by registered mail to the address of optionee last known to the then owner of the then owner's election to sell, stating the price and the identity of the proposed vendee;

(ii) A condominium estate established by the filing for record of the Master Deed, or other enabling document, on or before December 1, 1976, will not fail to comply with the requirements of paragraph (a) of this section by reason of:

(*a*) Prohibition against leasing a unit for a period of less than 6 months.

(*b*) The existence of a right of first option to purchase or right to provide a substitute buyer reserved to the condominium association provided such option or right is exercisable only if:

(*1*) An owner elects to sell,

(*2*) The option price is not less than the price at which the then owner is willing to sell to another,

(*3*) The terms and conditions under which the option price is to be paid are identical to or are not less favorable to the owner than the terms and conditions under which the owner was willing to sell to the owner's prospective buyer, and

(*4*) Notice of the association's decision to exercise the option must be mailed to the owner by registered or certified mail within 30 days after notice is mailed by

V 41 195 OCT 6 76 UMI

registered or certified mail to the address of the association last known to the owner of the owner's election to sell, stating the price, terms of sale, and the identity of the proposed vendee.

(5) Any property subject to a restriction on the owner's right to convey to any party of the owner's choice, which restriction is established by a document recorded on or after December 1, 1976, will not qualify as security for a guaranteed or insured loan. A prohibition or restriction on leasing an individual unit in a condominium will not cause the condominium estate to fail to qualify as security for such loan, provided the restriction is limited to periods of less than 6 months.

* * * * *

Provided, That the limitations on the quantum or quality of the estate or property that are indicated in this paragraph, insofar as they may materially affect the value of the property for the purpose for which it is used, are taken into account in the appraisal of reasonable value required by 38 U.S.C. ch. 37.

Title 39—Postal Service

CHAPTER I—UNITED STATES POSTAL SERVICE

PART 601—PROCUREMENT OF PROPERTY AND SERVICES

Miscellaneous Amendments to Postal Contracting Manual

The Postal Contracting Manual, which has been incorporated by reference in the FEDERAL REGISTER (see 39 CFR 601.100), has been amended by the issuance of Transmittal Letter 21, dated September 13, 1976.

In accordance with 39 CFR 601.105 notice of these changes is hereby published in the FEDERAL REGISTER as an amendment to that section and the text of the changes is filed with the Director, Office of the Federal Register. Subscribers to the basic Manual will receive these amendments from the Government Printing Office. (For other availability of the Postal Contracting Manual, see 39 CFR 601.104.)

Description of these amendments to the Postal Contracting Manual follows:

SECTION 19—MAIL TRANSPORTATION CONTRACTING

1. Paragraph 19–103.1 has been revised to permit deviations to mail transportation and related contractual services by the Director, Transportation Services Office.

2. Paragraph 19–117.3 has been revised: (i) To permit the Director, Transportation Services Office, to resolve disputes between regional offices; and (ii) to change the title of regional official.

3. Paragraph 19–117.5 has been revised to update delegations of authority to the Assistant Postmaster General, Logistics Department; Director, Transportation Services Office, Logistics Department; Regional General Managers, Logistics Divisions; and to change titles of regional officials.

4. Paragraph 19–117.6 has been revised: (i) To permit the Director, Transportation Services Office, to approve awards in excess of authority delegated to regional general managers and; (ii) to change titles of regional officials.

5. Paragraphs 19–117.8, 19–117.93, 19–125.1(a), 19–125.2, 19–125.3, 19–125.7, and 19–125.3 have been revised to change titles of regional officials.

6. Paragraph 19–118.11 has been revised to delete the requirement for bonding of renewal highway contracts.

7. Paragraph 19–125.3(a) has been revised to require that administrative officers advise the inspector-in-charge of nonreceipt of screening results, rather than the personnel security officer.

8. Paragraph 19–125.3(c) has been revised to restrict the authority for denying access to mail to the general manager, logistics division.

9. Paragraph 19–128.1 has been revised to require that, if a contract is bonded, a copy of any assignment or reassignment of claim be provided to the surety.

10. Paragraphs 19–125.3(b), 19–128.2 (ii) and (iii), 19–312.3–.6, 19–316 through 19–316.23, and 19–317 have been revised for purposes of clarity.

11. Paragraph 19–128.2(c) has been revised to require that the next higher level of contracting authority to the contracting officer authorize subcontracts and that the contractor provide a notarized statement of the value of any equipment sold to a subcontractor.

12. Paragraph 19–130.881(M) has been revised to delete the requirement that a bid be rejected for failure by the bidder to complete and submit a cost worksheet with his bid.

13. Paragraph 19–131.23(b) has been revised to limit the circumstances under which the Assistant Postmaster General, Logistics Department, will be requested to grant approval for negotiation after advertising to those instances where he is, in fact, the next higher level of contracting authority to the contracting officer.

14. Paragraphs 19–310.6 (b), (c), and (d) have been revised to delete all references to surety bond requirements as surety bonds are no longer required for renewal contracts.

15. Paragraph 19–312.1(c) has been deleted.

16. Paragraph 19–314.2 (e), (f), 3(a) and 4(c) have been revised to delete all references to surety when contract is not bonded, as bonds are no longer required on renewal contracts.

17. Paragraphs 19–810.33 through 19–810.34 have been revised to be consistent with revised paragraph 19–132, to provide a definition of extra trips for contract air taxi service, and to establish policy and procedures for contract air taxi service.

18. Paragraphs 19–412.3–.5, 19–1012.32 and .33 have been revised to be consistent with revised paragraph 19–132.

19. The following revised forms have been included in section 19. They are available from the area supply centers, and shall be used in lieu of previous editions.

(1) Form 7407, August 1976—*Basic Transportation Services Contract General Provisions.*

(2) Form 7435, August 1976—*Solicitation for Transportation Services Contract.*

(3) Form 7445, August 1976—*Inquiry Concerning Renewal of Transportation Services Contract.*

(4) Form 7451, August 1976—*Air Taxi Contract General Revisions.*

(5) Form 7456, August 1976—*Air Taxi Service Cost Worksheet.*

(6) Form 7457, August 1976—*Air Taxi Service Route Adjustment Request.*

(7) Form 7465, August 1976—*Transportation Services Subcontract.*

(8) Form 7467, August 1976—*Proposal and Contract for Emergency Service.*

(9) Form 7468, August 1976—*Transportation Service Bid and Proposal and Contract (with Bond).*

(10) Form 7485, August 1976—*Air Taxi Contract Information and Instructions.*

(11) Current editions of the following forms have also been included:

(a) Form 7440—*Contract Route Service.*

(b) Form 7447—*Transportation Services Renewal Contract.*

(c) Form 7453—*Air Taxi Service—Aircraft Modifications.*

(d) Form 7464—*Cost Statement (Short Form—Highway Transportation Contracts).*

The remainder of the changes are minor, editorial, or technical in nature.

In consideration of the foregoing, 39 CFR 601.105 is amended by adding the following to § 601.105, effective immediately:

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—LAND RESOURCE MANAGEMENT (2000)

PART 2650—ALASKA NATIVE SELECTIONS

Waiver of Regulations

This order extends until December 31, 1976, the application filing date contained in 43 CFR 2653.4(b) for selections pursuant to section 14(h) (1) and (2) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 704).

Statement of consideration. The Alaska Federation of Natives, Inc., on behalf of the Alaska Native community, has requested a waiver of the regulations to extend the time for making selections under section 14(h) (1) and (2) of the ANCSA. The Alaska Federation of Natives, Inc., made such a request in order that Native corporations may have an opportunity to correct certain section 14(h) (1) and (2) selections which were filed improperly.

The Department has studied this request and has concluded that an extention to December 31, 1976, to make, correct or modify section 14(h) (1) or (2) selections is warranted. At the time such selections are filed or refiled, land must be available for selection under section 14(h) (1) or (2) of the ANCSA and 43 CFR 2653. The filing must also be in compliance with the regulations in effect on the date of the filing. Any selection presently on file not meeting the two proceeding conditions must be refiled.

It is therefore ordered, as authorized by the terms of 43 CFR 2650.0–8 and in accordance with the aforementioned conditions, that the effective date with respect to the filing deadline in 43 CFR 2653.4(b) for selections under section 14(h) (1) and (2) of the ANCSA is extended to December 31, 1976.

THOMAS S. KLEPPE,
Secretary of the Interior.

SEPTEMBER 30, 1976.

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5603]

ALASKA

Withdrawal of Lands in Aid of Legislation

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described lands are hereby withdrawn from settlement, entry, location or disposal under the public land laws, including the mining and mineral leasing laws, and from selection by the State of Alaska under the Alaska Statehood Act, 72 Stat. 339, but not from disposal under the Alaska Native Claims Settlement Act, as amended (hereinafter referred to as the Act), and reserved for the purpose of implementing the provisions of the Act:

COPPER RIVER MERIDIAN

T. 29 S., R. 58 through 60 E.
T. 30 S., R. 58 through 60 E.
T. 31 S., R. 58 through 60 E.

2. Prior to the conveyance of any of the lands withdrawn by this order, the lands shall be subject to administration by the Secretary of the Interior or Agriculture, as appropriate, under applicable laws and regulations and their authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

THOMAS S. KLEPPE,
Secretary of the Interior.

SEPTEMBER 30, 1976.

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 177—FEDERAL, STATE AND PRIVATE PROGRAMS OF LOW-INTEREST LOANS TO VOCATIONAL STUDENTS AND STUDENTS IN INSTITUTIONS OF HIGHER EDUCATION

Special Allowances

Subparagraph (3) of Section 177.4(c), Special Allowances, which deals with the payment to lenders of the allowances authorized by section 2 of the "Emergency Insured Student Loan Act of 1969" (Public Law 91–95) is amended to provide for the payment of such an allowance for the period July 1, 1976, through September 30, 1976, inclusive.

In light of the directives in the Emergency Insured Student Loan Act of 1969 with respect to the factors that the Secretary of Health, Education, and Welfare is to consider and the officials with whom he is to consult in setting the rate of the special allowance, and since a comment period would cause delay of at least 30 days, following each quarterly 3-month period, it has been determined pursuant to 5 U.S.C. 553 that the solicitation of comment as to the rate of the special allowance for any particular quarter is both impracticable and contrary to the public interest.

It is hereby certified that this proposed rule has been screened pursuant to Executive Order No. 11821, and does not require an Inflationary Impact Evaluation.

Effective Date. Pursuant to section 431 (d) of the General Education Provisions Act, as amended (20 U.S.C. 1232(d)), these regulations have been transmitted to the Congress concurrently with the publication in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

In § 177.4 paragraph (c)(3)(xxix) is added as follows:

§ 177.4 Payment of interest benefits, administrative cost allowances and special allowance.

* * * * *

(c) * * *

* * * * *

(3) * * *

* * * * *

(xxix) For the period July 1, 1976, through September 30, 1976, inclusive, a special allowance is authorized to be paid in an amount equal to the rate of 1⅞ percent per annum of the average unpaid balance of disbursed principal of eligible loans.

(Sec. 2, 83 Stat. 141.)

(Catalog of Federal Domestic Assistance No. 13.460 Guaranteed Student Loan Program.)

Dated: September 27, 1976.

WILLIAM F. PIERCE,
Acting U.S. Commissioner of Education.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Editorial Order No. 42558]

AMATEUR RADIO SERVICE

Civil Emergency Service

In the matter of editorial amendment of Parts 1, 2, and 97 of the Commission's rules concerning the Radio Amateur Civil Emergency Service (RACES). Adopted: September 29, 1976; released: October 5, 1976.

1. On February 19, 1976, the Commission released its Report and Order in Docket 19723, FCC 76–130, 41 FR 8780 (1976), substantially revising its Rules concerning the Radio Amateur Civil Emergency Service (RACES). In our Report and Order in Docket 19723 we stated we were adopting the proposals in our Notice of Proposed Rule Making in Docket 19723, FCC 73–40, 38 FR 10467 (1973), essentially as proposed, and the Report and Order did in fact adopt the proposed Rules with few, if any, changes.

V41N195 OCT 6 76 UMI

2. By this Order we are amending certain other sections of Parts 1, 2, and 97 of the Rules to ensure their consistency with the new Rules concerning RACES already approved by the Commission. Specifically, in its Report and Order in Docket 19723 the Commission eliminated the requirement for filing FCC Forms 481 and 482 to obtain a RACES station authorization, and we are deleting these FCC Forms from the list of forms contained in § 1.922 of the Rules. We are also amending §§ 1.922 and 1.926 of the Rules to reflect the requirement found in § 97.173(a) of the Rules that new and renewed RACES station license applications are to be submitted on FCC Form 610–B. Our Report and Order in Docket 19723 abolished the use of tactical call signs by RACES stations, and we are therefore deleting such call signs from the list of other forms of identification of stations found in § 2.303 of the Rules.

3. In our Report and Order in Docket 19723 we made all authorized frequencies and emissions presently available to the Amateur Radio Service also available to RACES on a shared basis. The frequency limitations previously imposed on RACES operations by former § 97.193 of the Rules were made to apply only in those emergencies requiring invocation of the President's War Emergency Powers under section 606 of the Communications Act of 1934, as amended. In both the Notice of Proposed Rule Making and Report and Order in Docket 19723, however, the frequency bands 3500–3510 kHz and 3510–3516 kHz, both of which appeared in former § 97.193 of the Rules, were inadvertently omitted. We are therefore amending § 97.185 of the Rules to include these frequency bands.

4. Authority for these amendments appears in sections 4(i), 5(d), and 303 of the Communications Act of 1934, as amended, and § 0.231 of the Commission's Rules. Because the amendments adopted herein are editorial in character, designed solely to achieve consistency in the Commission's Rules, the prior notice and public procedure provisions of the Administrative Procedure Act, 5 U.S.C. 553, are not applicable.

5. Accordingly, in view of the foregoing, *It is ordered* That Parts 1, 2, and 97 of the Commission's Rules are amended as set forth below effective October 14, 1976.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

FEDERAL COMMUNICATIONS COMMISSION,
R. D. LICHTWARDT,
Executive Director.

Parts 1, 2, and 97 of Chapter 1 of Title 47 of the Code of Federal Regulations are amended as follows:

1. In § 1.922, the list of items is amended as follows:

§ 1.922 Forms to be used.

FCC form	*Title*
• • • • •	
481 ----------	[Deleted]
482 ----------	[Deleted]
• • • • •	
610–B ---------	Application for Amateur Club, Military Recreation, or Radio Amateur Civil Emergency Service Station license.
• • • • •	

2. In § 1.926, paragraph (b)(3) is deleted and designated [Reserved], and paragraphs (b)(1) and (b)(4) are revised as follows:

§ 1.926 Application for renewal of license.

• • • • •

(b)(1) Applications for renewal of an amateur operator license (with the exception of an amateur club, military recreation, or Radio Amateur Civil Emergency Service station licenses), or a combined amateur operator/station license shall be filed on FCC Form 610.

• • • • •

(3) [Reserved]

(4) Applications for renewal of an amateur club, military recreation, or Radio Amateur Civil Emergency Service station license shall be filed on FCC Form 610–B.

• • • • •

3. In § 2.303 the table is amended as follows:

§ 2.303 Other forms of identification of stations.

• • • • •

Class of station	*Identification other than assigned call sign*
• • •	• • •
Amateur (RACES) ----------	[Deleted]

4. In § 97.185 paragraph (b) is revised and the table is amended as follows:

§ 97.185 Frequencies available.

• • • • •

(b) In event of an emergency which necessitates the invoking of the President's War Emergency Powers under the provisions of § 606 of the Communications Act of 1934, as amended, unless otherwise modified or directed, RACES stations and amateur radio stations participating in RACES will be limited in operation to the following:

FREQUENCY OR FREQUENCY BANDS

kHz	*Limitations*
• • •	• • •
1975–2000 ----------	1
3500–3510 ----------	
3510–3516 ----------	4
3516–3550 ----------	2, 4
3984–4000 ----------	
• • • • •	

[FR Doc.76-29281 Filed 10-5-76;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1, Amdt. 1–121]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Deputy Under Secretary

The purpose of this amendment is to delete all references to the Deputy Under Secretary for Budget and Program Review and to revise the delegations of authority to the Deputy Under Secretary.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing Part 1 of Title 49, Code of Federal Regulations is amended as follows:

1. In § 1.22, paragraph (a) is amended by deleting therefrom the term "Deputy Under Secretary for Budget and Program Review,"; paragraph (b) is amended by adding at the end thereof the following new sentence: "The Office of Planning and Program Review and the Office of Budget report to the Deputy Under Secretary."; paragraph (c) is revoked; and paragraphs (d) through (j) are redesignated paragraphs (c) through (i), respectively.

2. In § 1.23(a), the second sentence is revised to read as follows: "The Deputy Under Secretary assists the Secretary and the Deputy Secretary in the performance of these responsibilities."

3. Section 1.64 is revised to read as follows:

§ 1.64 Delegations to the Deputy Under Secretary.

The Deputy Under Secretary is delegated authority to—

(a) Exercise day-to-day operating management responsibility over the Office of Planning and Program Review and the Office of Budget.

(b) Direct and manage the Departmental planning-programming-budgeting activities.

(c) Request apportionment or reapportionment of funds by the Office of Management and Budget, provided no request for apportionment or reapportionment which anticipates the need for a supplemental appropriation shall be submitted to the Office of Management and Budget without appropriate certification by the Secretary.

(d) Issue allotments or allocations of funds to components of the Department.

(e) Authorize and approve official travel and transportation for himself and staff members of the Immediate Office of the Secretary, including authority to sign and approve related travel orders and travel vouchers, but not including requests for overseas travel.

(f) Issue monetary authorizations for use of reception and representation funds.

(g) Act for the Secretary and Deputy Secretary with respect to certain budgetary and administrative matters relating to the Immediate Office of the Secretary.

4. Appendix A of Title 49, Code of Federal Regulations, is amended by deleting the words "for Budget and Program Review" following the words "The Deputy Under Secretary" in section 1 thereof.

Effective date: This amendment is effective October 6, 1976.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)))

Issued in Washington, D.C., on October 1, 1976.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

[FR Doc.76-29385 Filed 10-5-76;8:45 am]

CHAPTER II—FEDERAL RAILROAD ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. RSFC–5, Notice 2]

PART 215—RAILROAD FREIGHT CAR SAFETY STANDARDS

Initial Periodic Inspection of Railroad Freight Cars

On May 6, 1976, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (41 FR 18685) stating that the Federal Railroad Administration (FRA) was considering an amendment to Part 215, Freight Car Safety Standards. The proposed amendment would extend the period allowed for completion of the initial periodic inspection of freight cars required by § 215.25 of the standards (49 CFR 215.25) and make conforming amendments to related sections.

Interested persons were invited to participate in the rulemaking proceeding by submitting written comments before June 30, 1976. Twenty-four commenters, representing various trade associations, private owners of freight cars, lessees of privately owned freight cars and shippers responded to this notice. The written comments generally voiced support for the concept of extending the period allowed for completing these initial inspections but the commenters did raise a number of issues concerning certain aspects of the FRA proposal. These issues will be discussed in the context of the relevant regulatory provision. After considering all of these comments, FRA has decided that the proposed amendment should be adopted with some changes.

The Administrator has evaluated the adoption of this regulation in accordance with the policies of the Department of Transportation which were stated in the public notice published on April 16, 1976, in the FEDERAL REGISTER (41 FR 16200). The purpose for amending this regulation, as noted in the notice of proposed rulemaking, was to respond to problems being encountered by various parties that were attempting to complete the initial periodic inspection within the current time constraints of the existing regulation. The amendments being adopted, which only serve to provide additional time to accomplish this task, will not alter in any significant fashion the costs or benefits associated with the existing regulation. Therefore, the Administrator has determined that the adoption of these amendments will have such a minimal impact that an evaluation of the effects of this regulation is not warranted.

In the NPRM, FRA proposed that the completion for the initial periodic inspection of freight cars would be extended for two years until December 31, 1978, except for specified equipment which would receive only a one year extension of the completion date. The comments, which FRA received, raised issues concerning both the one and two year provisions.

A variety of commenters objected that this two year extension would not provide for a uniform application of these regulations to all freight car owners. The private owners of freight cars, the lessees of privately owned freight cars, four trade associations and a shipper contended that a four year extension of time is needed. These commenters noted that only a small percentage of this segment of the freight car fleet has been inspected to date. In their view that situation has been caused by the unwillingness of the railroads to inspect privately owned freight cars until the railroads have inspected their own freight cars and the absence of authorized contract or private shop facilities which could perform periodic inspection work. Consequently, these parties argue that they will have only a two year time period to accomplish the same type of workload that the railroads have been able to spread over a four year time period. These parties expressed concern that a disastrous disruption of the normal distribution of numerous commodities, particularly those transported by tank car, will occur unless FRA provides an additional two year extension to the current proposal.

The FRA addressed this issue in the preamble to the NPRM and has again considered these arguments. FRA still believes that only a two year extension of the date within which freight cars must receive their initial periodic inspection is warranted. In reaching this conclusion FRA has noted that the commenters, who advocated a four year extension and detailed their ownership, indicated that they own or control approximately 26,000 freight cars in a fleet of privately owned freight cars that numbers about 300,000 cars. Furthermore, two commenters from this group, a major chemical company and an owner of a small fleet of tank cars, specifically advised that they intend and expect to complete the required inspection within the time frame proposed in the notice. FRA has decided therefore, to adopt the two year extension proposed in the notice.

Three of the commenters who responded to this notice included in their comments requests for a limited waiver of the provision requiring that freight cars receive their initial periodic inspection. These commenters indicated that they would be unable to complete their required inspection work under the current regulatory provision or the proposed change. FRA will respond to these requests by treating these comments as petitions for a waiver filed in accordance with 49 CFR Part 211. After providing for a public notice concerning each request, FRA will determine whether the public interest is served by granting a waiver and whether such a waiver is consistent with railroad safety.

In the NPRM, FRA also proposed that the completion date for initial periodic inspection of certain freight cars would be extended until December 31, 1977. This proposal, which would provide only a one year extension for freight cars built prior to January 1, 1957 and for cars used to transport materials assigned the class of "Flammable Gas", "Poison A" or "Class A Explosive", was the subject of a wide variety of comments.

The portion of the proposed change that would require cars built prior to January 1, 1957 to receive their initial periodic inspection before December 31, 1977 was objected to by five commenters. In general the commenters urged that no differentiation should be made between cars that are twenty or more years of age and those that are newer for the purpose of this regulatory provision. The commenters expressed concern that this provision, if adopted, could adversely affect the ability of the industry to accomplish the inspection of the entire fleet of freight cars since it would mean that two periodic inspection programs must be undertaken. These commenters also are concerned that this approach could result in higher utilization of the older, less efficient, cars which generally have lower capacity and less specialized equipment. The commenters noted that the newer cars are carrying the bulk of the freight, whereas the older cars are stored until the volume of traffic rises to such a level that these cars are needed for service.

The portion of the proposed change that would require cars used to transport materials assigned the hazard class of "Flammable Gas" was objected to by eleven commenters. These commenters noted that the tank cars used to transport the materials in this category generally have not been receiving the required periodic inspection since these cars are generally privately owned. As noted above there are several related reasons for the fact that only a small percentage of privately owned freight cars have been inspected to date. The commenters indicate that it will not be possible to accomplish the inspection of these tank cars in this time frame. Furthermore, even an attempt to comply will result in enormous disruption of the normal distribution of the type of commodities carried by these cars since there are often no other cars available to take the place of these specialized cars when they currently are removed from service

V41195 OCT 6 76 UMI

for repair or inspection work. Many of these commenters indicated that in their judgment a four year extension is warranted for all private cars in general and these tank cars in particular. Several commenters expressed agreement with the concept that these cars should be examined on a priority basis and two commenters specifically endorsed the FRA proposal.

The portion of the proposed change that would require cars used to transport materials assigned the hazard class of "Poison A" or "Class A Explosive" was endorsed by four commenters. No commenters objected to this requirement.

After considering all of these comments FRA has decided to delete from the final rule that portion of the proposed rule which would have required that cars built prior to January 1, 1957 receive their initial periodic inspection before December 31, 1977. FRA has also decided to delete from the final rule the similar portion of the proposed rule that applied to freight cars used to transport "Flammable Gas". FRA stated in the NPRM that it was aware of the problems faced by the private car owners and lessees. That problem appears to be of sufficient magnitude to warrant providing a full two years for the completion of inspection effort on freight cars used to transport commodities assigned the hazard class of "Flammable Gas". Likewise, FRA has accepted the opinion of the commenters that differentiation between the deadlines for inspection of 20 year old cars and newer cars could impair the inspection of the entire fleet. Nevertheless, FRA encourages the owners of the two classes of cars to give high priority in scheduling this equipment for the initial periodic inspection.

The FRA has retained in the final rule, the portion of the proposed rule which requires that after December 31, 1977, cars used to transport materials assigned the hazard class of "Poison A" and "Class A Explosive" must be cars that have received their initial periodic inspection.

In summary, no new issues have been raised by the commenters. Each of the issues was basically covered by the notice of proposed rulemaking. The modifications of the proposed rule which will delete the portions of the proposal that were particularly troublesome to the commenters and the resolution of the problems surrounding the periodic inspection of privately owned freight cars should permit the completion of all initial periodic inspections before January 1, 1979.

In consideration of the foregoing, Chapter II to Title 49, Code of Federal Regulations, Part 215 is amended as follows:

1. By revising the introductory portion of paragraph (b), paragraph (c) (7) and paragraph (e) (1) (i) of § 215.11 to read as follows:

§ 215.11 Stenciling.

* * * * *

(b) After December 31, 1974, each railroad freight car described in § 215.225 (a) which has received its initial periodic inspection under § 215.25 or which the railroad knows, or has notice, that it is described under § 215.225, and after December 31, 1978, every car described in § 215.225(a), must be stenciled or otherwise display in clearly legible letters on each side as follows:

* * * * * *

(c) * * *

(7) After December 31, 1978, except for a car originally constructed or reconditioned within the period required by § 215.25 for periodic inspection, the symbol "INSP" followed by—

* * * * *

(e) * * *

(1) * * *

(i) After December 31, 1978, inspected as prescribed by § 215.27 unless stenciling or other display under paragraph (c) (7) of this section indicates that the car otherwise complies with the inspection requirements of § 215.25; and

* * * * * *

2. By revising § 215.25 to read as follows:

§ 215.25 Periodic inspection required.

(a) After December 31, 1977, a railroad may not operate a railroad freight car to transport materials assigned the hazard class of "Poison A" or "Class A Explosive" in § 172.101 of Chapter I of this title unless—

(1) In the case of cars other than high utilization cars, the car was inspected as prescribed by § 215.27 within the preceding 48 months or was originally constructed or reconditioned within the preceding 96 months; and

(2) In the case of high utilization cars, the car was inspected as prescribed by § 215.27 within the preceding 12 months or was originally constructed or reconditioned within the preceding 24 months. However, a high utilization car for which a railroad maintains and makes available to the Federal Railroad Administration a mileage record sufficient to show that the car traveled less than 25,000 miles during the preceding 12 months may be operated if that car meets the inspection requirements of paragraph (a) (1) of this section and is stenciled in accordance with § 215.11(c)(6).

(b) After December 31, 1978, a railroad may not operate a railroad freight car unless—

(1) In the case of cars other than high utilization cars, the car was inspected as prescribed by § 215.27 within the preceding 48 months or was originally constructed or reconditioned within the preceding 96 months; and

(2) In the case of high utilization cars, the car was inspected as prescribed by § 215.27 within the preceding 12 months or was originally constructed or reconditioned within the preceding 24 months. However, a high utilization car for which a railroad maintains and makes available to the Federal Railroad Administration a mileage record sufficient to show that the car traveled less than 25,000 miles during the preceding 12 months may be operated if that car meets the inspection requirements of paragraph (a) (1) of this section and is stenciled in accordance with § 215.11(a)(6).

(c) For the purpose of this section, a "high utilization car" is a car—

(1) Specifically equipped to carry trucks, automobiles, containers, trailers, or removable trailer bodies for the transportation of freight; or

(2) Assigned to a train which operates in a continuous round trip cycle between the same two points.

(d) Before June 1, 1974, each railroad that is in operation on January 1, 1974, and has in service railroad freight cars to which this part applies shall submit to the Federal Railroad Administrator for approval under § 215.29 three copies of a program to bring all those cars into compliance with paragraphs (a) and (b) of this section by January 1, 1977. Each railroad that commences operations after January 1, 1974, shall submit a program to the Administrator for approval at least 90 days before the date it commences operations. Each program submitted to the Administrator for approval must include procedures to be followed by inspection personnel to assure compliance with all applicable requirements of this part.

3. By revising § 215.223(c) to read as follows:

§ 215.223 Prohibited cars.

* * * * *

(c) December 31, 1978.

4. By revising the introductory portion of paragraph (b) of § 215.225 to read as follows:

§ 215.225 Restricted cars.

* * * * *

(b) Subject to the requirements of paragraph (d) of this section, a railroad may operate railroad freight cars described in paragraph (a) of this section only under conditions approved by the Federal Railroad Administrator, after December 31, 1974, if the car has received its initial periodic inspection under § 215.25 or the railroad knows or has notice that the car is equipped with the design or component; or December 31, 1978. Petitions for approval must be submitted to the Administrator in triplicate at least 90 days before the date the approval is requested to become effective. Each petition for approval must state:

* * * * *

(Sec. 202, 84 Stat. 971, (45 U.S.C. 481) and § 1.49(n) of the regulations of the Secretary of Transportation 49 CFR 1.49(n).)

This amendment is effective November 15, 1976.

Issued in Washington, D.C., on September 29, 1976.

ASAPH H. HALL,
Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER C—ACCOUNTS, RECORDS, AND REPORTS

[Ex Parte No. 285; Investigation and Suspension Docket No. 8701]

PART 1254—MAINTENANCE OF RECORDS PERTAINING TO DEMURRAGE, DETENTION, AND OTHER RELATED ACCESSORIAL CHARGES BY RAIL COMMON CARRIERS OF PROPERTY

Notification of Unloaded Car, by Consignee to Railroad

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 15th day of September 1976,

Upon consideration of the record in the title proceeding, including the Notice of Proposed Rulemaking and Order of July 24, 1972 (37 FR 18085), the statements of facts, arguments, and views filed by respondent railroads and their agents, by the Bureau of Enforcement of this Commission, and by interested persons including weighing, inspection and demurrage bureaus, shippers, and governmental agencies, and the replies thereto; and upon consideration of the record in the embraced proceeding including the report and order of the Commission entered December 8, 1972, and the order entered October 10, 1973;

It appearing, That the rule proposed in the embraced proceeding and currently effective, as amended herein, has been shown to be just and reasonable;

It further appearing, That in view of the evidence, including the proposed amendment to the tariff proposal at issue in Investigation and Suspension Docket No. 8701, *supra*, which is fully discussed in our report entered on the same date as this order and made a part hereof, and for the reasons stated in said report, certain regulations should be prescribed and the embraced proceeding should be discontinued;

Wherefore:

It is ordered, That Subchapter C, Chapter X, Title 49 of the Code of Federal Regulations be, and it is hereby, amended by the addition of Part 1254 as set forth below.

It is further ordered, That the respondents in the embraced proceeding be, and they are hereby, notified and required to cancel the schedules under investigation herein on or before 45 days from the date of service of this order, upon not less than 1 day's notice to this Commission and to the general public by filing and posting in the manner prescribed by the Commission under section 6 of the Interstate Commerce Act, without prejudice to the filing upon not less than 15 days' notice of schedules in conformity with the findings herein.

It is further ordered, That this order shall become effective 30 days from the date of service, and shall remain in full force and effect until modified or revoked in whole or in part by further order of the Commission.

It is further ordered, That compliance with the regulations prescribed herein shall be within 90 days from the service date of this order;

It is further ordered, That a copy of this order shall be served on all parties hereto.

It is further ordered, That the regulations adopted herein be published in the FEDERAL REGISTER and in the Code of Federal Regulations.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Interstate Commerce Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

ROBERT L. OSWALD,
Secretary.

Amend Title 49 of the Code of Federal Regulations, Chapter X, Subchapter C, by adding new Part 1254 as follows:

Sec.
1254.01 General applicability.
1254.02 Records pertaining to freight cars.
1254.03 Demurrage and other detention of railroad freight cars.
1254.04 Disability rule.
1254.05 Detention of highway trailers and containers when moving on trailer-on-flatcar or container-on-flatcar rates or charges named in tariffs lawfully on file with the Interstate Commerce Commission.
1254.06 Exceptions.

AUTHORITY: The provisions of this Part 1254 are issued under 49 U.S.C. 1(4), 1(5), 1(6), 1(11), 1(13), 1(14), 1(15), 1(17), 1(21), 6(7), 13(4), 15(1), 20(1), 20(5), and 20(8), and 5 U.S.C. 553 and 559.

§ 1254.01 General applicability.

The rules and regulations of this part apply to demurrage, detention, and other related accessorial services for which rules, rates, or charges are named by common carriers of property by railroad in tariffs lawfully on file with the Interstate Commerce Commission.

§ 1254.02 Records pertaining to freight cars.

Every common carrier of property by railroad subject to the Interstate Commission Act shall make and maintain for each open station at which freight cars are loaded, unloaded, or held awaiting instructions from the shipper, records of all movements of freight cars which will readily show, with respect to each shipment, sufficient information to assess applicable freight charges and charges for detention, demurrage, storage, switching, weighing, inspection, car rental, refrigeration, whether included in regular detention, demurrage, storage, switching, rately stated, stopoff, reconsigning, or diversion charges, loading charges, and charges for other accessorial services, and support the granting of special allowances to shippers when such allowances are authorized by tariffs lawfully in effect. The above-described records shall be separately maintained for each base station and for each satellite or nonagency station assigned to it.

§ 1254.03 Demurrage and other detention of railroad freight cars.

(a) *Car report.* Every common carrier by railroad subject to the Interstate Commerce Act shall cause to be made, on a daily basis, a report which shall contain the following information:

(1) the date and time cars are placed at or removed from tracks serving each industry location of each consignor or consignee, including but not limited to industrial sidings, industrial interchange tracks, and public delivery (team) tracks;

(2) the engine number or train identification;

(3) the name of the employee making the report;

(4) the initial and number of each railroad freight car, and whether it was loaded or empty at the time placed or removed;

(5) whether each car was placed or removed; and

(6) the identification, by name or number, of each siding or team track and the spot location thereon.

The original of the report shall be forwarded at the end of each day to the employee or office maintaining demurrage records. This report need not be made by a terminal carrier acting as agent for a line-haul carrier provided that the report is made by the line-haul carrier.

(b) *Track checks.* Every common carrier by railroad subject to the Interstate Commerce Act shall cause to be made, by a qualified employee or agent, spot track checks. Track checks shall include a visual inspection which shall be made as near to 7:00 a.m. as possible, but not before, and which shall be completed by 11:59 a.m. Track checks shall be made of all locations at which cars are loaded, unloaded, or held awaiting instructions from shippers, including, but not limited to, industry sidings, industrial interchange tracks, holding tracks, inspection tracks, and public delivery (team) tracks. The following information shall be recorded and maintained:

(1) the date and time the track check is made;

(2) the name of the station;

(3) the name of the employee performing the check;

(4) the identification, by name or number, of each siding or track checked;

(5) the initial and number of each railroad freight car checked; and

(6) the status of the car at the time checked; that is, whether loaded, partially loaded or unloaded, or empty, and whether located (spotted) at a position accessible for loading or unloading.

Track checks shall be made on a regular basis but not in the same routine manner so that consignees and consignors can anticipate when they will be made. Track checks shall be made as frequently as is necessary to assure that sufficient information is available to the carrier to enable it to assess and collect all appli-

V41195 OCT 6 76 UMI

cable charges and to assure the accuracy of information gathered and maintained in any automated or other data system.

(c) *Notification of unloading.* When a shipper or consignee furnishes notification to the carrier that a car is unloaded and available to the railroad and tariff provisions which provide that cars may be released from demurrage by means of telephone notification are lawfully on file with the Interstate Commerce Commission, the carrier shall record the following information with respect to each car released from demurrage by telephone notification:

(1) Name of shipper or consignee;

(2) Name of shipper's or consignee's employee giving such notification;

(3) Name of the carrier's employee receiving the notification;

(4) Car initial and number;

(5) Date and time notification is given to the railroad.

(d) *Notification of arrival, actual placement, or constructive placement.* Notification of arrival, actual placement, or constructive placement shall be given in writing by the carrier to the shipper or consignee with a copy thereof retained by the carrier. If by tariff exception a carrier provides for telephone notification of arrival, actual placement, or constructive placement of cars instead of written notification, the carrier shall maintain a record of the said telephone notification which shall include the following information:

(1) Name of the carrier's employee giving such notification;

(2) Name of the shipper or consignee receiving such notification;

(3) Name of the shipper's or consignee's employee receiving the notification;

(4) Car initial and number;

(5) Date and time notification is given to the shipper or consignee.

(e) *Car orders.* Car orders shall be recorded by the carriers in the manner required by rule 15 of the Code of Car Service Rules as prescribed by this Commission in Ex Parte No. 241 (49 CFR 1033.15). Where the carrier accepts written car orders from shippers, unsigned or undated car orders shall not be accepted.

(f) *Straight plan demurrage record.* A straight plan demurrage record shall be made by the carrier to record the status of all cars located within the jurisdiction of each agency station, except as otherwise provided in rules 1254.03 (g) and (h).

(g) *Average agreement demurrage record.* An average agreement demurrage record shall be kept by the carrier to record the status of all cars located within the jurisdiction of each agency station where prior average agreement contracts have been entered into between consignees or consignors, as the case may be, and the carrier pursuant to the provisions of applicable tariffs lawfully on file with this Commission.

(h) *Special detention records.* Special detention records shall be made by the carrier wherever special detention rules are named as an exception to the general demurrage rules in applicable tariffs governing the application of a particular rate or charge on a specific type of freight shipment.

(i) *Recording of tariff authority for special charges.* All shipping orders, bills of lading, waybills, and freight bills covering shipments subject to special detention rules, mechanical refrigeration charges, or other charges based on the detention of freight cars shall include a reference to the applicable tariff and item numbers naming the detention or refrigeration charges. The carrier shall record these references on the indicated documents at the time the shipment originates, if liability for such charges is known at that time. If the carrier does not know whether shipments will be subject to such charges at the point of origin, but liability therefore should subsequently arise, the carrier shall at that later time enter the applicable tariff references on the bills of lading or other shipping documents prepared at origin, or alternatively, shall execute and complete whatever supplemental documentation and billing is necessary to insure the assessment and collection of these charges, and shall indicate thereon the applicable tariff and item numbers on which such charges are based, in the manner prescribed in this rule.

(j) *Presentation of demurrage, detention, or refrigeration bills.* All bills for demurrage assessed against cars subject to straight plan demurrage, special detention, or refrigeration services computed on a time basis, shall be presented within 48 hours, exclusive of Saturdays, Sundays, and holidays, of the release of the individual cars. All bills for demurrage assessed on an average agreement basis shall be presented within 15 calendar days of the close of the month during which the demurrage accrued.

(k) *Preparation of bills at central points.* When carriers prepare bills for freight charges, demurrage, detention, storage, switching, refrigeration, weighing inspection, car rentals, stopoff, reconsigning, diversion, loading, or other accessorial services, or where carriers grant special allowances to shippers subject to tariff provisions lawfully in effect, at central billing or accounting points, copies of such bills or allowances shall be maintained by the carrier, and shall be available for inspection, at the same location at which are also maintained all other reports and records required to be made and maintained under this part.

§ 1254.04 Disability rule.

Common carriers of property by railroad subject to the jurisdiction of the Interstate Commerce Act shall make no allowance for weather interference, carrier or shipper error, strike interference, frozen or congealed lading, bunching of cars, runaround, or other disability conditions unless a claim is made therefor in writing by the consignor or consignee, as the case may be, and then only in compliance with the provisions of applicable tariffs lawfully filed with this Commission. Under no circumstances shall any such allowance be made or given unless the claim therefor is approved in writing by the officer of the carrier responsible for the proper assessment and/or collection of demurrage or other detention charges, or his authorized agent.

§ 1254.05 Detention of highway trailers and containers when moving on trailer-on-flatcar or container-on-flatcar rates or charges named in tariffs lawfully on file with the Interstate Commerce Commission.

Every common carrier of property by railroad subject to the Interstate Commerce Act shall make and maintain at each carrier facility where either highway trailers or containers transported in trailer-on-flatcar service (TOFC) or container-on-flatcar service (COFC) are received or delivered to shippers, shippers' agents, freight forwarders, or are exchanged or interchanged with either private, contract, or common motor carriers, including local drayage or cartage motor carriers, or by highway with other railroads, a record of all movements of highway trailers or containers which will readily show, with respect to each shipment, the information necessary to assess applicable freight charges and charges for detention; trailer-yard storage; drayage; trailer or container rentals; refrigeration, whether included in regular detention charges or separately stated; split pickup or delivery; delivery service; helper service; and other accessorial services.

§ 1254.06 Exceptions.

Nothing in this part shall apply to cars moving subject to Freight Tariff No. 8 Series (car demurrage rules on cars at coal mines); cars handled at ocean or Great Lakes ports when moving subject to special port demurrage rules named in tariffs lawfully on file with this Commission; nor on cars moving subject to Item 30 Series of General Car Demurrage Tariff No. 4 Series.

[FR Doc.76-29371 Filed 10-5-76;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Opening of Barnegat National Wildlife Refuge, New Jersey, to Hunting of Migratory Game Birds

On August 27, 1976, there was published in the FEDERAL REGISTER (41 FR 36211) a notice of proposed rulemaking adding Barnegat National Wildlife Refuge, New Jersey, to the list of refuge areas which are open for the hunting of migratory game birds. This list is published at 50 CFR 32.11. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulation.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director has determined that the opening of Barnegat National Wildlife Refuge to public hunting would not be contrary to the provisions of law applicable to the area, would be compatible with the principles of sound wildlife management, would be in the public interest and would not be detrimental to the objectives for which the area was established.

The public was provided a 30-day comment period and was advised that an environmental assessment had been prepared on the proposal and was available for public inspection.

Two comments were received on the proposed rulemaking. One comment strongly supported the proposal. The other letter opposing the proposed hunt, expressed several concerns.

The two major concerns were: The conflicts with other public use activities and the potential killing and wounding of nongame species, especially raptors.

The Service has determined that the zoning by space and time requirements of various public use activities, reduces the conflicts to generally acceptable levels. The killing and wounding of nongame species is recognized. However, the loss of an individual or individuals of protected species results in only the temporary reduction in the population, and there are not known cases where regulations permitting migratory bird hunting have resulted in the long-term decrease in a protected species population level.

The number of endangered birds killed by migratory bird hunters is unknown; however, some loss is assumed to result from their activity because of known losses in intensively monitored species. From this information and with normal losses due to natural causes, it is concluded that losses from hunters are not likely to affect long-term perpetuation of any endangered species.

Based on the preceding and an evaluation of the environmental assessment, it has been determined that the hunting of migratory game birds on Barnegat National Wildlife Refuge, New Jersey, is not a major Federal action which would significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The preparation of an environmental impact statement on the proposed action is, therefore, not required.

Because of the time limitations involved with the rapid approach of the State hunting season which opens October 9, and that it would be contrary to the public interest to delay the opening of the refuge, the U.S. Fish and Wildlife Service has concluded that "good cause" exists within the meaning of section 553(d)(3) of the Administrative Procedure Act to expedite the implementation of this rulemaking. Therefore, this rule will become effective on October 9, 1976.

Accordingly, the proposed rule is hereby adopted without change and § 32.11 is amended as set forth below:

§ 32.11 List of open areas; migratory game birds.

NEW JERSEY

BARNEGAT NATIONAL WILDLIFE REFUGE

Effective Date: October 9, 1976.

Dated: October 1, 1976.

LYNN A. GREENWALT,
Director, U.S. Fish and Wildlife Service.

[FR Doc.76-29285 Filed 10-5-76;8:45 am]

PART 32—HUNTING

Bear River Migratory Bird Refuge, Utah

The following special regulation is issued and is effective on October 6, 1976.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

UTAH

BEAR RIVER MIGRATORY BIRD REFUGE

Public hunting of pheasants on the Bear River Migratory Bird Refuge, Utah, is permitted from November 6 through December 5, 1976, inclusive, but only on the area designated by signs as open to hunting. This open area, comprising 9,495 acres, is delineated on maps and shown as "Area A" which are available at refuge headquarters, Brigham City, Utah, and from the Area Office, Fish and Wildlife Service, Federal Building, Salt Lake City, Utah, 84138. Hunting shall be in accordance with all applicable State regulations governing the hunting of pheasants subject to the following special conditions:

(1) *Steel shot.* The exclusive use of steel shot is required on all days in Area "A" for the entire season. Possession of lead shot on the refuge hunting area is prohibited.

(2) *Roads.* No hunting is permitted from roadways or within 100 yards of roadways.

(3) *Hunter Check Station.* Each hunter who enters Area "A" is required to register at the checking station and check out before leaving the refuge.

(4) *Parking.* Hunters may park cars only at designated areas within the refuge.

(5) *Routes of Travel.* To reach open hunting area, travel is permitted on foot or bicycle from refuge checking station over roads between Units 1 and 2 and Units 2 and 3.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 5, 1976.

NED I. PEABODY,
Refuge Manager, Bear River Migratory Bird Refuge, Brigham City, Utah.

SEPTEMBER 29, 1976.

[FR Doc.76-29295 Filed 10-5-76;8:45 am]

PART 32—HUNTING

Wassaw Island National Wildlife Refuge, Georgia

The following special regulations are issued and are effective on November 11, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

GEORGIA

WASSAW ISLAND NATIONAL WILDLIFE REFUGE

Public hunting for deer and raccoon on Wassaw Island National Wildlife Refuge, Georgia, is permitted on the area designated as Wassaw Island proper excluding that area known as the "Home Parcel." This open area, comprising 1,705 acres, is delineated on a map available at Refuge Headquarters, Route 1, Hardeeville, South Carolina 29927, and from the office of the Regional Director, U.S. Fish and Wildlife Service, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of deer and raccoon, subject to the following special conditions:

(1) Season: November 11, 12, and 13, 1976.

(2) Bag limit: Two deer of either sex.

(3) During the periods from daylight to 9:30 a.m. and from 3:30 p.m. until sunset daily all hunters must remain on stands.

(4) Weapons: Archery equipment in accordance with State regulations. Firearms prohibited.

(5) Dogs are prohibited.

(6) Camping and fires authorized only in designated area on Pine Island.

(7) Permit holders must check in at Wassaw Refuge Headquarters and leave their boats at the refuge dock.

(8) The refuge will be closed to all forms of public use except hunting from November 11–13, 1976.

(9) Participants may not enter the refuge more than one day prior to the hunt. Hunters will be restricted to the camping area until the morning of November 11, 1976.

(10) Each hunter under age 17 must be under the close supervision of an adult. For safety reasons, the ratio should be one adult to one juvenile but in no case should one adult have more than two juveniles under his/her supervision.

(11) Blazing, driving spikes in, painting, applying tape to, or damaging trees and shrubbery in any manner is prohibited. Hunting stands which will damage trees are not allowed.

(12) A refuge permit is required to hunt and camp. Permits are non-transferrable.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part

V41195 OCT 6 76 UMI

32, and are effective through November 13, 1976.

CRAYTON J. LANKFORD,
Acting Regional Director,
U.S. Fish and Wildlife Service.

SEPTEMBER 28, 1976.

[FR Doc.76-29293 Filed 10-5-76;8:45 am]

PART 33—SPORT FISHING

Bear River Migratory Bird Refuge, Utah

The following special regulation is issued and is effective on October 6, 1976.

§ 33.5 **Special regulations; sport fishing; for individual wildlife refuge areas.**

UTAH

BEAR RIVER MIGRATORY BIRD REFUGE

Sport fishing on the Bear River Migratory Bird Refuge, Utah, is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 10 acres, are delineated on maps available at refuge headquarters, Brigham City, Utah, and from the Area Office, Fish and Wildlife Service, Federal Building, Salt Lake City, Utah 84138. Sport fishing extends from January 1 through December 31, 1977, inclusive, in accordance with all applicable State regulations subject to the following special conditions:

(1) The use of boats is prohibited below the river control gates at refuge headquarters.

(2) Fishermen are required to register at the refuge office upon entering the refuge.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1977.

NED I. PEABODY,
Refuge Manager, Bear River Migratory Bird Refuge, Brigham City, Utah.

SEPTEMBER 29, 1976.

[FR Doc.76-29294 Filed 10-5-76;8:45 am]

PART 32—HUNTING

Barnegat National Wildlife Refuge, N.J.

The following special regulations are issued and are effective from October 6, 1976 through January 31, 1977.

§ 32.12 **Special regulations; migratory game birds; for individual wildlife refuge areas.**

NEW JERSEY

BARNEGAT NATIONAL WILDLIFE REFUGE

Public hunting of rails, gallinules, waterfowl and coots on the Barnegat National Wildlife Refuge, New Jersey, is permitted during established State and Federal seasons on only those areas designated by signs as open to hunting.

These open areas are delineated on maps available at refuge headquarters, Oceanville, New Jersey, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

Hunting shall be in accordance with State and Federal regulations covering the hunting of migratory game birds subject to the following special conditions:

(1) On opening days, Saturdays and holidays a Federal permit will be required.

(2) No permanent blinds or pit blinds may be constructed.

(3) The use of steel shot ammunition on the refuge hunting area is required—shotshell limit 25 rounds per hunter per day. No person may have more than 25 steel shotshells or any lead shotshells in their possession while hunting waterfowl.

(4) Hunters, when requested by Federal or State enforcement officers must display for inspection all game, hunting equipment, and ammunition.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, as set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1977.

G. C. BALZER, JR.,
Acting Regional Director, U.S.
Fish and Wildlife Service.

SEPTEMBER 24, 1976.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 32]

HUNTING

Opening of Hillside National Wildlife Refuge, Mississippi, to Hunting of Upland Game

Notice is hereby given that it is proposed that 50 CFR Part 32 be amended by the addition of the Hillside National Wildlife Refuge, Mississippi, to the list of refuge areas open for the hunting of upland game, which is published at 50 CFR 32.21.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United States Fish and Wildlife Service at DM 242.1.1, the Director may open refuge areas to public hunting upon a determination that it would be in accordance with provisions of all laws applicable to the area, would be compatible with the principles of sound wildlife management, would otherwise be in the public interest and that such use is compatible with the major purposes for which such areas were established. As a general rule, most areas within the National Wildlife Refuge System are closed to hunting until officially opened by regulations. It is the purpose of this rulemaking to allow the hunting of upland game on Hillside National Wildlife Refuge, which is presently prohibited.

Furthermore, pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C), an environmental assessment has been prepared on this proposal which will help determine whether this rulemaking constitutes a major federal action sigificantly affecting the human environment. A copy of this assessment is available at the address below.

Special circumstances are involved in the promulgation of this rulemaking which limit the time which the Service can allow for public comment. Specifically, because of budget limitations, the refuge was only recently posted and the public informed through news releases that the area was closed to trespass. It was not intended, however, to permanently close the area to regulated use such as the proposed hunting program. The State upland game season begins October 2, 1976. The proposed hunt appears to be noncontroversial and is strongly supported by the State. The Service has determined that it would be contrary to the public interest to delay the opening any longer than necessary and the comment period is therefore shortened to 10 days.

Nevertheless, it is the policy of the Department of the Interior whenever practicable to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons may submit written comments, suggestions or objections regarding the proposal to the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240, by October 11, 1976. All relevant comments received will be considered by the Director prior to the issuance of a final rulemaking.

Accordingly, it is proposed to amend § 32.21 in Title 50 of the Code of Federal Regulations as set forth below:

§ 32.21 **List of open areas; upland game.**

MISSISSIPPI

HILLSIDE NATIONAL WILDLIFE REFUGE

Dated: October 1, 1976.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[50 CFR Part 216]

MARINE MAMMAL PROTECTION ACT OF 1972

Definition of "Optimum Sustainable Population"

The National Marine Fisheries Service has recently completed extensive consultations with persons knowledgeable in the field of population dynamics, both within and without the Agency, and as a result of such consultation, proposes to clarify the term "optimum sustainable population," appearing in section 3(9) of the Marine Mammal Protection Act, by amending its regulations as follows.

Accordingly, it is proposed to amend § 216.3 of 50 CFR, Chapter II by adding the following after the definition of "native village or town" and before the definition of "pregnant": "Optimum sustainable population" means, with respect to any population stock, the number of animals which will result in the maximum productivity of the population or the species, keeping in mind the optimum carrying capacity of the habitat and the health of the ecosystem of which they form a constituent element. "Optimum sustainable population" is a range of population sizes between that population at which a given stock or species realizes its maximum net productivity and that population which is the largest supportable on the average within the ecosystem. Net productivity is the difference between reproduction and natural mortality. Maximum net productivity occurs at that population level at which the given stock or species adds the maximum number of animals to the population on a sustainable basis.

Public comment on this proposal may be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235. Comments received on or before November 5, 1976, will be considered before the proposal is adopted as final.

Dated: September 30, 1976.

JACK W. GEHRINGER,
Deputy Director, National
Marine Fisheries Service.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 50]

[FRL 626-1]

MEASUREMENT OF PHOTOCHEMICAL OXIDANTS IN THE ATMOSPHERE

Calibration of Reference Methods

The Environmental Protection Agency (EPA) is considering proposal of certain amendments to Appendix D of 40 CFR Part 50, which specifies a measurement principle and calibration procedure for the measurement of photochemical oxidants in the atmosphere. Specifically in question is the prescribed calibration procedure, which is based on determination of ozone (O_3) with 1% neutral-buffered potassium iodide (NBKI). Subsequent to the promulgation of this calibration procedure on April 30, 1971 (36 FR 8186), evidence has accumulated which indicates that there are shortcomings with the NBKI procedure as presently specified, and that a revised version of the potassium iodide procedure or one or more other calibration procedures may be substantially superior to the current procedure. Accordingly, EPA intends to study and evaluate several alternative procedures for calibration of reference methods for photochemical oxidants (see Appendix A to this notice). If the results of these evaluations so indicate, EPA further intends to amend Appendix D of 40 CFR Part 50 to revise the NBKI procedure or to replace it with one or more alternative procedures. Technically, this would constitute a partial "supersession" of reference methods for photochemical oxidants under 40 CFR 53.16 ("Supersession of Reference Methods"), promulgated on March 17, 1976 (41 FR 11252). This course of action and the reasons for it are explained

V41195 OCT 6 76 UMI

more fully below. Comments on any aspect of this matter are solicited. Note that the following is not proposed rulemaking, but merely an advance notice of intent; if rulemaking appears to be appropriate, a notice of proposed rulemaking will be published in a later issue of the FEDERAL REGISTER.

BACKGROUND

When EPA first promulgated the regulations now codified as 40 CFR Part 50 on April 30, 1971 (36 FR 8186), the NBKI calibration procedure specified in Appendix D to that part was considered to be the best available procedure for calibration of methods for measuring photochemical oxidants. Since then, considerable evidence has accumulated to indicate that the NBKI procedure, particularly when used under typical field conditions, results in significant degrees of bias, variability, or both. For example, in June 1974 the "California Air Resources Board Bulletin"(1) reported discrepancies of 25–35% between a 2% NBKI procedure (similar to the EPA-specified 1% NBKI procedure) and a 2% unbuffered postassium iodide titrimetric procedure. This led directly to other studies by EPA(2,3) and the California Air Resources Board(4) which indicated discrepancies and considerable variability between the 1% NBKI procedure and newly developed procedures based on gas phase titration (GPT) and ultraviolet absorption (UV).

As a result of these and other findings, a critical evaluation of the 1% NBKI procedure was conducted by EPA(5). The results indicated the procedure to be vulnerable to error in three major areas: (1) Type of absorber used, (2) purity of potassium iodide, and (3) time for maximum color development. These systematic errors can result in interlaboratory method variability as suggested by the results of an earlier collaborative study(6) in which a significant negative bias of 16 to 37 percent was reported.

Another possible source of the variability observed was identified as ambiguities in the description of the NBKI procedure as it appears in Appendix D of 40 CFR Part 50. In an effort to reduce variability due to this cause, EPA prepared and distributed through its Regional Offices a memorandum dated April 14, 1975, entitled "Clarification of Reference Method for Photochemical Oxidants."(7) In general, this memorandum was not intended to revise the procedure specified in Appendix D but simply to set forth EPA's interpretation of ambiguous provisions in Appendix D, to offer technical guidance on some points not explicitly addressed in Appendix D, and in these ways to help users obtain more uniform, precise, and accurate results with the procedure. For the convenience of users who wish to be guided by the memorandum pending the eventual revision or replacement of the NBKI procedure contemplated by this notice, interpretive and technical guidance based on this memorandum appears in Attachment B of this Notice. Although better results can be obtained with the current NBKI procedure by following the guidance provided in Appendix B of this notice, the procedure still appears to have considerable variability, particularly when used under typical field conditions. This variability limits the accuracy and precision of analyzers calibrated with the NBKI procedure and suggests the desirability of revising it or replacing it with one or more superior procedures.

It should be emphasized that EPA believes the problems discussed above are due specifically to deficiencies in the NBKI calibration procedure and not to deficiencies in the measurement principle (chemiluminescent reaction of O_3 with ethylene) specified in 40 CFR Part 50, Appendix D. Any comments suggesting replacement of that measurement principle should be directed to EPA in accordance with 40 CFR 53.16, promulgated March 17, 1976 (41 FR 11252), entitled "Supersession of Reference Methods."

OZONE CALIBRATION STANDARDS

Calibration of O_3 analyzers is complicated by the lack of Standard Reference Materials (SRM's) for O_3 analogous to those available from and certified by the National Bureau of Standards for sulfur dioxide (SO_2), nitric oxide (NO), and carbon monoxide (CO). The instability of O_3 prohibits the storage of O_3 standards for any practical length of time. Therefore, standard samples of O_3 in air for calibration of O_3 analyzers must be generated and analyzed at the time and place of use. Typically, O_3 concentrations are generated by means of a stable O_3 generator. These concentrations are assayed by some technique to determine the magnitude of the O_3 concentration and then used to calibrate the analyzer. The O_3 assay procedure may be based on one of several different primary standards. In the case of the NBKI procedure, the primary standard is arsenious oxide. Gas phase titration (GPT) procedures (see Attachment A) are based on an NO standard traceable to an NO SRM. Ultraviolet (UV) absorption procedures (Attachment A) are based on the well-established absorption coefficient of ozone at 254 nm.

Ideally, an O_3 analyzer should be calibrated in accordance with a procedure such as one of those given in Attachment A, where the generated O_3 concentrations are individually assayed at the time of the calibration. However, when the O_3 analyzer is located at a site where such an ideal calibration procedure is impractical to carry out, the O_3 analyzer could be calibrated with a transfer standard. One possible type of transfer standard is a stable, accurately calibrated ozone generator. Another type could be a stable, accurately calibrated ozone analyzer (used to assay the output of an ozone generator at the site). Any transfer standard used would have to be calibrated in accordance with Appendix D of 40 CFR Part 50 and would have to meet yet-to-be determined specifications as to stability, ruggedness, and repeatability. However such transfer standards would provide an important alternative to the otherwise required use of a procedure specified in Appendix D at field locations. This would permit consideration of more accurate and precise albeit more complex and expensive procedures for inclusion in Appendix D.

COMPARISON OF NBKI PROCEDURE WITH GPT AND UV PROCEDURES

As noted earlier, GPT techniques are based on an NO standard and UV techniques are based on the ultraviolet absorption coefficient of O_3. These standards are independent from each other and from the arsenious oxide standard used in the NBKI procedure. Calibration procedures based on GPT and UV, similar to the procedures in Attachment A, exhibit consistently good results. (4,8,9,10) A typical comparison by Paur, et al.(8) showed a regression equation slope of 1.001±0.007 for GPT versus UV photometry at O_3 concentration from 0.1 to 0.8 ppm. This demonstrates the very good precision in both procedures as well as the excellent agreement between the two entirely independent standards.

TABLE 1.—*Comparison of NBKI determinations with UV photometry or gas phase titration (GPT)*

Study	Referee procedure	Ratio [1]	O_3 concentration range (parts per million)	Relative humidity (percent)
Baumgardner et al.(2)	GPT	1.01±0.04	0.1–0.5	~0
Baumgardner, Paur(3)	GPT	1.05± .03	0.4	~0
Do.(3)	GPT	1.12± .04	0.4	40–60
CARB, El Monte(4)	UV	1.25	0.1–0.8	~50
Hodgeson(9)	UV	1.11± .01	0.05–10.0	~0
Beard(5)	GPT	1.08± .02	0.08–0.8	~0
Smith(11)	GPT	1.11± .02	0.2–0.4	~0

[1] Ratio of NBKI to referee procedure; tolerance limits are based on ±1 standard deviation.

In contrast, the results of several studies(2,3,4,5,6,9,11) by EPA and other laboratories comparing the 1% NBKI procedure with GPT and UV procedures are shown in Table 1. Here a substantially lower precision (greater variability) and evidence of positive bias can be seen. Since the GPT and UV procedures agree well with each other, the bias (ratio) errors are apparently in the NBKI procedure. Also, the bias varies considerably from one study to another, which suggests some sort of unknown laboratory-dependent variability. All of these data were obtained under carefully controlled conditions; in normal usage the 1% NBKI procedure may well be less precise than is suggested by Table 1.

Based on the evidence shown above indicating the apparent superiority of calibration procedures based on GPT and UV over the NBKI procedure, EPA intends to consider revising the NBKI procedure or replacing it with one or more alternative procedures as soon as testing and evaluation of candidate procedures can be completed.

INTENDED COURSE OF ACTION

EPA intends to pursue the course of action described below to determine whether the existing NBKI procedure should be revised or replaced by a new calibration procedure or procedures for measuring photochemical oxidants. Several preliminary steps have already been taken or are being taken with the publication of this notice. These are: (1) Compilation of available evidence of weaknesses in the NBKI procedure; (2) compilation of available data on performance, comparability, and suitability of alternate calibration procedures; (3) tentative selection of the best alternative procedures; (4) preparation of detailed working drafts of each of the alternative procedures based on latest available information; (5) publication of drafts of the alternative procedures (see Appendix A) and solicitation of comments and data; and (6) publication of interim technical guidance to improve the NBKI procedure, based on the EPA memorandum(7) referred to previously (see Attachment B).

Subsequent to these steps, EPA intends to undertake a comprehensive study of each of the alternative procedures set forth in Appendix A as well as any other procedures which appear favorable.[1] These studies will includes both laboratory and field evaluations and will investigate such aspects as the specification of critical parameters, overall accuracy, suitability for field and laboratory use, complexity, cost of equipment, and comparability. An important part of these studies will be the evaluation of comments and other information submitted by user agencies and other interested persons. Also to be considered are the advantages and ramifications of prescribing two or more calibration procedures rather than one.

If the results of these evaluations so indicate, EPA intends to propose appropriate amendments as necessary to Appendix D of 40 CFR Part 50 to revise the 1% NBKI procedure or to replace it with one or more alternate procedures. If any of the procedures set forth in Attachment A are selected for such proposed rulemaking, those procedures will be revised as appropriate based on the evaluations, comments, and any other available information. The revised procedures will then be published in the FEDERAL REGISTER as a proposed amendment to Part 50 and interested persons or agencies will again be afforded an opportunity to comment on the proposed procedures or on any part of the proposed amendment to Part 50. Following consideration of any comments or information received pertinent to this proposed amendment, the amendment would be revised as appropriate and promulgated by republication in the FEDERAL REGISTER.

As indicated previously, this course of action would technically constitute a partial "supersession" of reference methods for photochemical oxidants under 40 CFR 53.16 ("Supersession of Reference Methods"), promulgated on March 17, 1976 (41 FR 11252). This would ordinarily require cancellation of existing reference and equivalent method designations applicable to methods of measuring photochemical oxidants (see 40 CFR 53.16(e)). In this case, however, the only change contemplated in Appendix D is revision or replacement of the calibration procedure presently specified. This would not affect the design or performance characteristics of existing reference methods for oxidants, although it would require appropriate changes in the applicable operation manuals. Accordingly, rather than proposing to cancel the designations applicable to such methods, EPA would propose to provide a reasonable time for the manufacturers to revise their operation manuals, for EPA to review and approve the revised manuals, and for users of such methods to obtain and follow the revised manuals. This would presumably avoid the necessity of cancelling any of the existing reference method designations. Because no equivalent methods have been designated as yet, the question of cancelling equivalent method designations may not arise.

It should also be noted that certain criteria govern supersession of reference methods under 40 CFR 53.16, including, for example, the potential economic consequences of such action for State and local air pollution control agencies (see 40 CFR 53.16 (a) and (b)). Although comments on these considerations may be premature pending publication of a notice of proposed rulemaking in this matter, any such comments are invited and will be carefully considered.

ALTERNATE PROCEDURES UNDER CONSIDERATION

As noted earlier, Attachment A contains several alternate O_3 calibration procedures. These procedures, as they appear in Attachment A below and as they would be structured if included in Part 50, are written to provide only the formal procedure and essential technical specifications necessary for (1) experienced users to carry out the procedure adequately and (2) equipment manufacturers to produce suitable apparatus for such procedures. For less experienced users who require additional information, EPA intends to publish supplemental guidance for each procedure in the form of "Technical Support Documents." These supplemental documents will provide background and explanatory information on the procedure, the rationale for the specifications, and detailed guidance on how to set up a practical apparatus to carry out the procedure. This approach (separate publication of specifications and supplemental information) has been used in the recently proposed calibration procedure applicable to reference methods for NO_2 (FEDERAL REGISTER, Vol. 41, March 17, 1976, page 11258). Comments on this approach are specifically solicited.

Each of the alternative procedures presented in Appendix A below has certain advantages and disadvantages. For example, Alternative A (GPT with excess NO) is relatively well developed and a similar procedure will likely be in common use for calibration of NO_2 analyzers (40 FR 11258, March 17, 1976). The procedure is based on available NO standards, which can serve double duty in generating NO_2 standards as well. However, the procedure requires an NO analyzer, which may not be readily available when calibrating O_3 analyzers. In addition, the procedure is somewhat complex and requires accurate measurement of several gas flow rates.

The ultraviolet procedure (Alternative B) has the advantage that the procedure is quite easy to carry out, uses a physical measurement, and requires no other gases or critical flow measurements. The measurement is based on the absorption coefficient of O_3 at 254 nm, which has been well established by independent determinations. However, the procedure as applied to the calibration of O_3 analyzers is relatively new and not in general use in the air monitoring community and has not been used extensively to measure ozone in the sub-ppm range needed for ambient ozone analyzer calibration. Relatively little field experience has been accumulated.

The procedure in Alternative C (GPT with excess ozone) is similar to Alternative A but has the advantage that it does not require an NO analyzer. However, this procedure may be more difficult to carry out than Alterantive A, and is still under development.

EPA wishes to emphasize that the procedures appearing in Attachment A below are presented only for the purpose of soliciting comments. Some sections of the procedures are untested or still under development and the Technical Support Documents associated with the procedures have not yet been prepared.

INTERIM USE OF NBKI AND OTHER CALIBRATION PROCEDURES

During the period from the time of the publication of this notice until the final promulgation of appropriate amendments to Appendix D of 40 CFR Part 50, air monitoring agencies are strongly encouraged to follow EPA's interpretation of the NBKI calibration procedure, as reflected in Attachment B of this notice, to calibrate ozone analyzers used for purposes of air quality surveillance under 40 CFR 51.17(a). If followed carefully, EPA's supplemental guidance should minimize some of the variations which have been encountered. The use of other interpretations of the procedures is strongly discouraged. No attempts should be made to correct or adjust previously obtained data because the deficiencies of the 1% NBKI calibra-

[1] Since this notice was written, EPA has learned of a new potassium iodide procedure (using a boric acid buffer) which shows great potential as a candidate alternative procedure and which will be included in the intended studies.

V41195 CFR 6 76 UMI

tion procedure are not consistent from one laboratory to another, making the determination of an acceptable adjustment factor applicable to all data impractical.

Agencies which conduct special air monitoring studies or otherwise collect data for purposes other than 40 CFR 51.17(a) and consider the 1% NBKI procedure inadequate for their needs are encouraged to use a calibration procedure similar to one of the alternative procedures described in Attachment B of this Notice. Such agencies are invited to participate in the evaluation of these procedures by submitting to EPA information obtained from their use of the procedures. Where possible, this information should include details of the procedure as used by the agency, traceability of standards, and the comparability of the data obtained to data obtained by following EPA's interpretation of the 1% NBKI procedure, as reflected in Attachment B of this notice.

Interim Applications for Equivalent Method Determinations

By definition, reference methods for measuring photochemical oxidants must be calibrated by the procedure described in Part 50, Appendix D (see 40 CFR 53.1(e), 53.2(b)). Until such time as that appendix is amended, the 1% NBKI procedure must be the basis for such reference method calibrations. As noted earlier, EPA strongly encourages users to follow EPA's interpretation of the procedure as reflected in Attachment B of this notice.

By contrast, equivalent methods need not be calibrated by the 1% NBKI procedure. However, to be designated as an equivalent method, a candidate method must demonstrate a consistent relationship to a reference method in accordance with the requirements of Part 53 (see 40 CFR 53.3). Since the reference method used for the required tests must be calibrated with the NBKI procedure, there is a possibility that a candidate method calibrated by other means may fail the tests due to possible bias or variability in the NBKI procedure, even when EPA's interpretation of it is followed.

Revision or replacement of the 1% NBKI procedure, as contemplated by this notice, should eliminate the above problem. In the interim, if a candidate equivalent method fails the Part 53 consistent relationship tests and the failure appears to result from this problem, EPA suggests that the applicant consider modification of the candidate method to prescribe the 1% NBKI calibration procedure as interpreted by EPA.

Effect on National Ambient Air Quality Standard for Photochemical Oxidants

EPA has considered the question whether a change in the calibration procedure might affect either the validity or magnitude of the national primary and secondary ambient air quality standard for photochemical oxidants. Currently, EPA believes that revision of the existing NBKI procedure or replacing it with one or more of the alternative procedures given in Attachment A of this notice would require no revision of the standard for the following reasons. While a number of the studies comparing NBKI with GPT and UV show a positive bias, at least one study (6)[2] shows a negative bias. In any event, because of the variability in the NBKI procedure, the exact magnitude of any bias which may exist cannot accurately be determined. Thus no precise quantitative factor is available for use as a basis for revision of the standard. (For the same reason, no factor is available to "correct" or "adjust" previously obtained data.) On the other hand, the comparative studies suggest that the bias between the NBKI procedure and the GPT and UV procedures does not exceed about 10 percent. This degree of bias is not sufficient to warrant revision of the standard and is adequately accounted for within the margin of safety included in the standard at the time of promulgation (36 FR 8186, April 30, 1971). EPA will continue to study health and other effects related to ozone and other photochemical oxidants, using any new calibration procedures which may be promulgated. If any evidence becomes available to indicate that revision of the standard should be considered, EPA will address the issue at that time.

Comments on any of the alternative calibration procedures presented in Appendix A below or on any aspect of EPA's intended action in this matter, including suggestions that procedures other than those described in Attachement A be investigated, are solicited from interested persons or agencies. Such written comments should be submitted in triplicate to the Director, Environmental Monitoring and Support Laboratory, Department E, MD–76, Research Triangle Park, North Carolina 27711. All relevant comments postmarked on or before November 22, 1976, will be considered. All comments received will be available for public inspection during normal business hours at the address specified above as well as at the EPA Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, SW, Washington, DC 20460.

Wilson K. Talley,
Assistant Administrator
for Research and Development.

[2] While this collaborative study included both the chemiluminescent measurement principle as well as the NBKI calibration procedure, extensive experience with chemiluminescent analyzers suggests that substantial bias in the measurement principle is very unlikely. Thus, the bias reported probably arises in the NBKI calibration procedure.

Attachment A

ALTERNATE A—TENTATIVE CALIBRATION PROCEDURE USING GPT WITH EXCESS NO

ALTERNATE B—TENTATIVE CALIBRATION PROCEDURE USING UV PHOTOMETRY

ALTERNATE C—TENTATIVE CALIBRATION PROCEDUBE USING GPT WITH EXCESS O_3

Alternate A—Tentative Calibration Procedure Using Gas Phase Titration With Excess NO

Major equipment required: Stable ozone generator, Chemiluminescent NO analyzer, with strip chart recorder, NO concentration standard.

1. *Principle.* 1.1 The calibration procedure is based upon the rapid gas phase reaction between nitric oxide (NO) and ozone (O_3) as described by the following equation:(*1*)

$$NO+O_3 \rightarrow NO_2+O_2 \quad (1)$$

When O_3 is added to excess NO in a dynamic system, the decrease in NO concentration is equal to the concentration of O_3 added. The NO is obtained from a standard NO cylinder and O_3 is produced by a stable O_3 generator. A chemiluminescence NO analyzer is used to measure the change in NO concentration. The concentration of O_3 added may be varied to obtain calibration concentrations over the range desired. The dynamic system is designed to produce locally high concentrations of NO and O_3 in the reaction chamber, with subsequent dilution, to insure complete O_3 reaction with relatively small chamber volumes.

1.2 This procedure may be used either to calibrate an O_3 analyzer directly, or (more commonly) to calibrate an O_3 generator. In the latter case, the O_3 generator is normally used immediately after calibration and without physical movement, and is recalibrated prior to each use. If the O_3 generator is to be used at other times without recalibration or at other locations as a transfer standard, it must meet the requirements and specifications set forth in Reference (*2*), "Transfer Standards for Ozone Concentrations."

1.3 When this procedure is used directly to calibrate an O_3 analyzer, the O_3 concentration is first established by gas phase titration, then the NO flow is diverted to allow the O_3 concentration to pass to the output manifold.

2. *Apparatus.* Figure 1, a schematic of a typical GPT apparatus, shows the suggested configuration of the components listed below. All connections between components in the calibration system downstream from the O_3 generator should be glass or Teflon®. Additional information regarding the assembly of a GPT calibration apparatus is given in Reference (*3*).

2.1 *Air flow controllers.* Devices capable of maintaining constant air flow within ±2%.

2.2 *No flow controller.* A device capable of maintaining constant NO flow within ±2%. Component parts in contact with the NO must be of a non-reactive material.

2.3 *Air flowmeters.* Properly calibrated flowmeters capable of measuring and monitoring air flows within ±2%.

2.4 *NO flowmeter.* A properly calibrated flowmeter capable of measuring and monitoring NO flows within ±2%. (Rotameters have been reported to operate unreliably when measuring low NO flows and are not recommended.)

2.5 *Pressure regulator for standard NO clylnder.* This regulator must have non-reactive internal parts and a suitable delivery pressure.

2.6 *Ozone generator.* Capable of generating stable levels of O_3 over the range and flow rates required (see 4).

2.7 *Reaction chamber.* A glass chamber for the quantitative reaction of O_3 with excess NO. The chamber should be of sufficient volume (V_{RC}) such that the residence time (t_R) is as specified in 4. For practical reasons, t_R should be less than 2 minutes.

2.8 *Mixing chamber.* A glass chamber of proper design to provide thorough mixing of reaction products and diluent air. The residence time is not critical when the dynamic parameter specifications given in 4 are met.

2.9 *Output manifold.* The output manifold should be constructed of glass or Teflon® of sufficient diameter to insure a minimum pressure drop at the analyzer connection. The system must have a vent designed to insure atmospheric pressure at the manifold and to prevent ambient air from entering the manifold.

2.10 *Chemiluminescence NO analyzer.* The NO channel of a chemiluminescence $NO/NO_2/NO_x$ analyzer which essentially meets the (proposed) performance requirements for reference and equivalent methods for NO_2 (Federal Register, Vol. 41, March 17, 1976, page 11264) may be used.

3. *Reagents.* 3.1 *NO concentration standard.* Cylinder containing 50 to 100 ppm NO in N_2. This standard must be traceable to a National Bureau of Standards NO in N_2 Standard Reference Material (SRM 1683 or SRM 1684) or NO_2 Standard Reference Material (SRM 1629). The cylinder (working standard) should be recertified on a regular basis as determined by the local quality control program (See Reference (*3*).)

3.2 *Zero air.* Air, free of contaminants which will cause a detectable response on the NO or O_3 analyzer or which might react with either NO or O_3 in the gas phase titration. A procedure for generating zero air is given in Reference (*3*). When calibrating a transfer standard, zero air should be obtained from an ambient air source, as other sources of air may vary in oxygen content, which would affect the accuracy of the transfer standard.

4. *Dynamic parameter specifications.* 4.1 The residence time (t_R) in the reaction chamber and the gas flows (F_O and F_{NO}) (see Figure 1) must be adjusted according to the following relationships:

$$P_R=[NO]_{RC}\times t_R \geq 3.75 \text{ ppm-minutes} \quad (2)$$

$$[NO]_{RC}=[NO]_{STD}\left(\frac{F_{NO}}{F_O+F_{NO}}\right) \quad (3)$$

$$t_R=\frac{V_{RC}}{F_O+F_{NO}}<2 \text{ minutes} \quad (4)$$

where:

P_R=Dynamic specification, determined empirically, to insure complete reaction of the available O_3, ppm-minutes

$[NO]_{RC}$=NO concentration in the reaction chamber, ppm

t_R=Residence time in the reaction chamber, minutes

$[NO]_{STD}$=Concentration of the undiluted NO standard, ppm

F_{NO}=NO flow, scm³/min

F_O=Ozone generator air flow, scm³/min

V_{RC}=Volume of the reaction chamber, scm³

4.2 These parameters may be selected according to the following sequence:

(a) Determine F_T, the total flow required at the output mainfold (F_T=analyzer(s) demand plus 10% to 50% excess).

(b) Establish [NO]OUT as the highest NO concentration (ppm) which will be required at the output manifold. [NO]OUT should be approximately equivalent to 90% of the upper range limit (URL) of the O_3 concentration range to be covered.

(c) Determine F_{NO} as

$$F_{NO}=\frac{[NO]_{OUT}\times F_T}{[NO]_{STD}} \quad (5)$$

(d) Select a convenient or available reaction chamber volume. Initially, a trial V_{RC} may be selected to be in the range of approximately 200 to 500 scm³.

(e) Compute F_O as

$$F_O=\sqrt{\frac{[NO]_{STD}\times F_{NO}\times V_{RC}}{3.75}}-F_{NO} \quad (6)$$

(f) Compute t_R as

$$t_R=\frac{V_{RC}}{F_O+F_{NO}} \quad (7)$$

Verify that t_R<2 minutes. If not, select a reaction chamber with a smaller V_{RC}.

(g) Compute F_D as

$$F_D=F_T-F_O-F_{NO} \quad (8)$$

where:

F_D=Diluent air flow, scm³/min

(h) If F_O turns out to be impractical for the desired system, select a reaction chamber having a different V_{RC} and recompute F_O and F_D. For a more detailed discussion of these requirements and other related considerations as well as example calculations, refer to Reference (*3*).

5. *Procedure.* 5.1 Assemble a dynamic calibration system such as shown in Figure 1.

5.2 Establish the dynamic parameters as indicated in 4.

5.3 Insure that all flowmeters are properly calibrated under the conditions of use against a reliable standard such as a soap-bubble meter or wet-test meter traceable to NBS. All volumetric flowrates should be corrected to 25° C and 760 torr. A detailed discussion on proper calibration of flowmeters is given in Reference (*3*).

5.4 Precautions must be taken to remove O_3 and other contaminants from the NO pressure regulator and delivery system prior to the start of calibration to avoid any conversion of the standard NO to NO_2. Failure to do so can cause significant errors in calibration. This problem may be minimized by (1) carefully evacuating the regulator, when possible, after the regulator has been connected to the cylinder and before opening the cylinder valve; (2) thoroughly flushing the regulator and delivery system with NO after opening the cylinder valve; (3) not removing the regulator from the cylinder between calibrations unless absolutely necessary. Further discussion of these procedures is given in Reference (*3*).

5.5 Adjust the diluent air and O_3 generator air flows to obtain the flows determined in step 4.2. The total air flow must exceed the total demand of the analyzer(s) connected to the output manifold to insure that no ambient air is pulled into the manifold vent.

5.6 Calibration of the NO analyzer. 5.6.1 Allow sufficient time for the NO analyzer to warm-up and stabilize.

5.6.2 Allow the NO analyzer to sample zero air until a stable NO response is obtained, and make the proper zero adjustments.

5.6.3 Adjust F_{NO} to obtain output concentration of approximately 80% of the upper range limit (URL) of the NO range. The exact concentration is calculated from:

$$[NO]_{OUT}=\frac{F_{NO}\times[NO]_{STD}}{F_{NO}+F_O+F_D} \quad (9)$$

where:

$[NO]_{OUT}$=Diluted NO concentration at the output manifold, ppm

Sample this NO concentration until the NO analyzer response has stabilized. Adjust the NO span control to obtain a convenient recorder response as indicated below:

recorder response (percent scale)

$$=\frac{[NO]_{OUT}}{URL}\times 100 \quad (10)$$

where:

URL=Upper range limit of the NO analyzer, ppm

Record the NO concentration and the analyzer response. The NO analyzer should be spanned to the same range as that of the O_3 analyzer to be calibrated. If substantial adjustment of the span control is necessary, it may be necessary to recheck the zero and span adjustments by repeating steps 5.6.2. and 5.6.3.

5.6.4 Generate several additional NO concentrations (at least five are suggested to verify linearity) by decreasing F_{NO} or increasing F_O. For each NO concentration, calculate the exact NO concentration generated using equation (9) and record the analyzer response. Plot the analyzer response versus the calculated NO concentration and draw the NO calibration curve. This plot should be linear. For subsequent calibrations, this curve may be verified with a two-point calibration.

5.7 *Calibration of the ozone generator.* 5.7.1. Adjust F_O, F_{NO}, and F_D as determined in step 4.2 and generate an NO concentration near 90% of the URL of the NO range. Using the NO analyzer and calibration curve obtained in step 5.6.4, measure and record this NO concentration as $[NO]_{orig}$.

5.7.2 Adjust the O_3 generator to generate sufficient O_3 to produce a decrease in NO concentration equivalent to approximately 80% of the URL. The O_3 concentration must not exceed 90% of the available NO concentration.

5.7.3 Calculate the corresponding O_3 concentration as

$$[O_3]_{OUT}=([NO]_{orig}-[NO]_{rem})\cdot\left(\frac{F_O+F_{NO}+F_D}{F_O+F_D}\right) \quad (11)$$

where:

$[O_3]_{OUT}$=O_3 concentration at the output manifold when F_{NO}=0, ppm

$[NO]_{orig}$=Original NO concentration, ppm

$[NO]_{rem}$=NO concentration remaining after addition of O_3, ppm

Record this O_3 concentration and the corresponding generator settings.

5.7.4 Adjust the O_3 generator settings to obtain other O_3 concentrations over the desired range, using equation (11) to calculate the corresponding O_3 concentrations (5 or more calibration points are recommended). Plot the O_3 concentration versus the generator settings and draw the O_3 generator calibration curve.

5.8 *Calibration of the ozone analyzer.* 5.8.1 Allow sufficient time for the O_3 analyzer to warm-up and stabilize.

5.8.2 Allow the O_3 analyzer to sample zero air until a stable response is obtained and adjust the O_3 analyzer's zero control. Offsetting the analyzer's zero adjustment to +5% of scale is recommended to facilitate observing negative zero drift. Record the stable zero air response as "Z".

5.8.3 Using the O_3 generator as calibrated above, and the same F_O and F_D, generate an O_3 concentration near 80% of the desired URL of the analyzer.

5.8.4 Allow the O_3 analyzer to sample this O_3 concentration until a stable response is obtained. Adjust the analyzer's span control to obtain a convenient recorder response as indicated below:

recorder response (percent scale)

$$=\left(\frac{[O_3]_{OUT}}{URL}\times 100\right)+Z \quad (12)$$

where:

URL=Upper range limit of the O_3 analyzer, ppm

Z=Recorder response with zero air, % scale

Record the O_3 concentration and the analyzer response. If substantial adjustment of the span control is necessary, recheck the zero and span adjustments by repeating steps 5.8.2 and 5.8.4.

5.8.5 Generate several other O_3 concentrations (at least 5 others are recommended) over the scale range of the analyzer by adjusting the O_3 generator settings (preferably the same settings as used in step 5.7.4). For each O_3 concentration, allow for a stable analyzer response, then record the response and the corresponding O_3 concentration.

5.8.6 Plot the O_3 analyzer responses versus the corresponding O_3 concentrations and draw the O_3 analyzer's calibration curve or calculate the appropriate response factor.

5.8.7 *Option 1:* The various O_3 concentrations required in step 5.8.5 may be obtained by dilution of the O_3 concentration generated in step 5.8.3. In this case, F_D is increased to various values to decrease the O_3 output concentration, which is calculated as

$$[O_3]'_{OUT}=[O_3]_{OUT}\left(\frac{F_O+F_D}{F_O+F'_D}\right) \quad (13)$$

V41I195 OCT 6 76 UMI

where:
F_D = The new diluent air flow, scm³/min.
Since only one O_3 generator setting is used, the generator need be calibrated only at that setting. Or, $[O_3]_{OUT}$ may be calculated from equation (11) without actually calibrating the O_3 generator, if the setting is not changed from that used in steps 5.7.2 and 5.7.3.

5.8.8 *Option; 2* The O_3 analyzer may be calibrated "directly" by GPT without intermediate calibration of the O_3 generator and without changing F_D. Under this option, the various O_3 concentrations required for calibration in steps 5.8.4 and 5.8.5 are obtained by adjusting the O_3 generator settings. For each such adjustment, the O_3 concentration is first established by GPT using equation (11). Then the NO flow is diverted to allow the O_3 to be delivered to the output manifold and sampled by the analyzer.

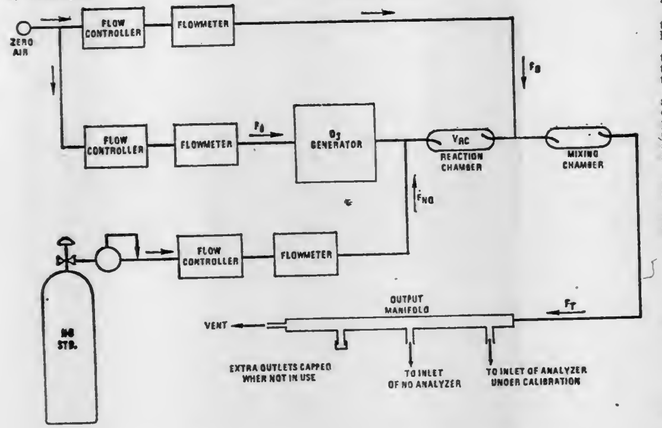

Figure 1. Schematic diagram of a typical GPT calibration system.

Alternate B—Tentative Calibration Procedure Using Ultraviolet Photometry

Major Equipment Required: Stable ozone generator, UV photometer.

1. *Principle.* 1.1 The calibration procedure is based on the photometric measurement of ozone (O_3). The concentration of O_3 in an absorption cell is determined from a measurement of the amount of 254 nm light absorbed by the sample. This determination requires knowledge of the absorption coefficient (α) of O_3, the length (l) of the optical path through the sample, and the transmittance (T) of the sample at 254 nm. The transmittance is defined as the ratio I/I_0, where I is the intensity of light which passes through the cell and reaches the detector when the cell contains a sample and I_0 is the intensity of light which passes through the cell and reaches the detector when the cell is evacuated or contains some reference material. It is assumed that all conditions of the system, except for the contents of the absorption cell, are identical during measurement of I and I_0. The quantities defined above are related by the Beer-Lambert absorption law:

$$T = I/I_0 = e^{-\alpha c l} \quad (1)$$

where:
$c = O_3$ concentration, ppm

The absorption coefficient of O_3 at 254 nm is approximately 3.10×10^{-4} ppm^{-1} cm^{-1} (*1,2,3,4,5*).

A stable O_3 generator is used to produce O_3 concentrations over the range required. Each O_3 concentration is determined by measuring T in a photometer of known pathlength, l. The O_3 concentration is calculated from:

$$c = -\frac{1}{\alpha l} \ln T \quad (2)$$

1.2 This procedure may be used either to calibrate an O_3 analyzer directly, or to calibrate a reproducible O_3 generator. When the procedure is used directly, the O_3 analyzer under calibration and the photometer are allowed to sample O_3 concentrations simultaneously. If the O_3 generator is calibrated prior to the O_3 analyzer, it must meet the requirements and specifications set forth in Reference (*6*), "Transfer Standards for Ozone Concentrations".

2. *Apparatus.* Figure 1, a schematic of a typical dynamic calibration system, shows the suggested configuration of the components listed below. All connections between components in the calibration system

Figure 1. Schematic diagram of a typical GPT calibration system.

should be glass or Teflon®. Additional information regarding the assembly of a UV photometric calibration apparatus is given in Reference 7.

2.1 *Air flow controllers.* Devices capable of maintaining constant air flow within ±2%.

2.2 *Ozone generator.* Device capable of generating stable levels of O_3 over the required concentration range.

2.3 *Output manifold.* The output manifold should be constructed of glass or Teflon®, and be of sufficient diameter to insure a minimum pressure drop at the analyzer connection. The system must have a vent designed to insure atmospheric pressure at the manifold and to prevent ambient air from entering the manifold.

2.4 *Two-way valve.* Manually actuated, air actuated, or solenoid valve of Teflon® construction.

2.5 *Photometer.* The photometer consists of a low-pressure mercury discharge lamp, collimation optics (optional), an absorption cell, a detector, and signal processing electronics. The length of the light path through the absorption cell must be known with an accuracy of at least 99.5%. The fractional error in the measurement of an O_3 concentration is related to the fractional error in the transmittance measurement by the expression:

$$\frac{dc}{c} = -\frac{dT}{T \ln T} \quad (3)$$

The photometer must be constructed in such a fashion that the standard deviation of the transmittance measurement at a given O_3 concentration causes the standard deviation of the concentration measurement to be no more than 0.005 ppm or 3% of the concentration, whichever is the greater amount.

3. *Reagents*—3.1 *Zero Air.* Air, free of contaminants which will cause a detectable response on the O_3 analyzer. The air should also be free of NO, C_2H_4, and other species which react with O_3. A procedure for generating zero air is given in Reference (*7*). When calibrating a transfer standard, zero air should be obtained from an ambient source, as other sources may vary in oxygen content, which would affect the accuracy of the transfer standard.

4. *Procedure.* 4.1 Assemble a dynamic calibration system such as shown in Figure 1.

4.2 Adjust the flowrate through the photometer absorption cell, F_P, to a convenient value so that the cell can be flushed in a reasonably short period of time (2 l/min is a typical flow). The time required for flushing is related to the precision of the measurement since photometer drift increases with time.

4.3 Adjust the flowrate through the O_3, generator F_O, to a value at least 1 l/min greater than the total flowrate required by the photometer and the analyzer(s) under calibration.

4.4 Adjust the flowrate of zero air, F_Z, to a value at least 1 l/min greater than the flowrate required by the photometer.

4.5 Allow sufficient time for the O_3 analyzer and the photometer to warm-up and stabilize.

4.6 Allow the O_3 analyzer to sample zero air until a stable response is obtained and adjust the O_3 analyzers zero control. Offsetting the analyzer's zero adjustment to +5% of scale is recommended to facilitate observing negative zero drift. Record the stable zero air response as "Z".

4.7 Adjust the O_3 generator to produce an O_3 concentration of approximately 80% of the desired upper range limit (URL) of the O_3 analyzer.

4.8 Allow the O_3 analyzer to sample this O_3 concentration until a stable response is obtained. During the same time, actuate the two-way valve to allow the photometer to sample this O_3 concentration.

4.9 Record the temperature and pressure of the sample in the photometer absorption cell. (The photometer may be easily constructed in such a manner that the pressure of the sample is within a few tenths of a percent of ambient pressure. When using such a photometer the ambient atmospheric pressure provides a sufficiently accurate measurement of sample pressure.)

4.10 When the O_3 analyzer response has stabilized and the photometer absorption cell is thoroughly flushed, record the measured value of I.

4.11 Actuate the two-way valve to allow the photometer to sample zero air until the absorption cell is thoroughly flushed and record the measured value of I_0.

4.12 Calculate the O_3 concentration from:

$$[O_3]_{OUT} = \left(-\frac{1}{\alpha l} \ln \frac{I}{I_0}\right)\left(\frac{T}{273}\right)\left(\frac{760}{P}\right) \quad (4)$$

where:
$[O_3]_{OUT}$ = O_3 concentration, ppm
α = Absorption coefficient of O_3 at 254 nm = 3.10×10^{-4} ppm^{-1}cm^{-1}
l = Optical pathlength, cm
T = Sample temperature, °K
p = Sample pressure, torr

4.13 Adjust the O_3 analyzer's span control to obtain a convenient recorder response as indicated below:

$$\text{recorder response (percent scale)} = \left(\frac{[O_3]_{OUT}}{URL} \times 100\right) + Z \quad (5)$$

where:
URL = Upper range limit of the O_3 analyzer, ppm
Z = Recorder response with zero air % scale

Record the O_3 concentration and the analyzer response. If substantial adjustment of the span control is necessary, recheck the zero and span adjustments by repeating steps 4.6 and 4.13.

4.14 Generate several other O_3 concentrations (at least 5 others are recommended) over the scale range of the O_3 analyzer by adjusting the O_3 generator settings. Determine each O_3 concentration with the photometer using the procedure given above (steps 4.8 through 4.12). For each O_3 concentration, record the O_3 analyzer response and the corresponding O_3 analyze concentration.

4.15 Plot the O_3 analyzer responses versus the corresponding O_3 concentrations and draw the O_3 analyzer's calibration curve or calculate the appropriate response factor.

4.16 *Option 1:* The various O_3 concentrations required in step 4.14 may be obtained by dilution of the O_3 concentration generated in step 4.7. With this option accurate flow measurements are required. The dynamic calibration system must be modified as shown in Figure 2 to allow for dilution air to be metered in downstream of the O_3 generator. A mixing chamber between the O_3 generator and the output manifold is also required. The flowrate through the O_3 generator (F_O) and the dilution air flowrate (F_D) are measured with a reliable standard traceable to *NBS*. Each O_3 concentration generated by dilution is calculated from:

$$[O_3]'_{OUT} = [O_3]_{OUT}\left(\frac{F_O}{F_O + F_D}\right) \quad (6)$$

where:
$[O_3]'_{OUT}$ = Diluted O_3 concentration, ppm
F_O = Flowrate through the O_3 generator, scm³/min
F_D = Diluent air flowrate, scm³/min

4.17 *Option 2:* An O_3 generator may be calibrated using the photometric procedure and then used as a transfer standard if it meets the requirements and specifications set forth in Reference (*6*). With this option the O_3 generator output is calibrated at an accurately known flowrate through the O_3 generator (F_O). The O_3 generator is subsequently used with this same flowrate to calibrate

the O_3 analyzer. Since the O_3 output of the generator is dependent on the oxygen content of the zero air, the oxygen content in the zero air during calibration of the generator must be the same as in the zero air used during calibration of the O_3 analyzer. Purified ambient air is recommended and a procedure for zero air generation is given in Reference (*7*).

Alternate C—Tentative Calibration Procedure Using Gas Phase Titration With Excess O_3

Major Equipment Required: Stable ozone generator, NO concentration standard.

1. *Principle.* 1.1 The calibration procedure is based upon the rapid gas phase reaction between ozone (O_3) and nitric oxide (NO) in accordance with the following equation: (*1*)

$$NO + O_3 \rightarrow NO_2 + O_2 \quad (1)$$

The quantitative nature of this reaction is such that the amounts of NO and O_3 reacted are equivalent. Nitric oxide is added to O_3 in a dynamic system, and the chemiluminescent O_3 analyzer under calibration is used as in indicator of changes in O_3 concentration. The decrease in O_3 response observed on the uncalibrated O_3 analyzer is equivalent to the concentration of NO added. By measuring this decrease in response and the initial response, the O_3 concentration can be determined. Additional O_3 calibration concentrations are generated by a dilution technique. The dynamic system is designed to produce locally high concentrations of O_3 and NO in the reaction chamber, with subsequent dilution, to insure complete NO reaction with relatively small chamber volumes.

2. *Apparatus.* Figure 1, a schematic of a typical GPT apparatus, shows the suggested configuration of the components listed below. All connections between components in the calibration system downstream from the O_3 generator should be glass or Teflon®. Additional information regarding the assembly of a GPT calibration apparatus is given in Reference (*2*).

2.1 *Air flow controllers.* Devices capable of maintaining constant air flow within ±2%.

2.2 *NO flow controller.* A device capable of maintaining constant NO flow within ±2%. Component parts in contact with the NO must be of a non-reactive material.

2.3 *Air flowmeters.* Properly calibrated flowmeters capable of measuring and monitoring air flows within ±2%.

2.4 *NO flowmeter.* A properly calibrated flowmeter capable of measuring and monitoring NO flows within ±2%. (Rotameters have been reported to operate unreliably when measuring low NO flows and are not recommended.)

2.5 *Pressure regulator for standard NO cylinder.* This regulator must have non-reactive internal parts and a suitable delivery pressure.

2.6 *Ozone generator.* Capable of generating a stable level of O_3 at the flow rates required (see 4).

2.7 *Reaction chamber.* A glass chamber for the quantitative reaction of NO with excess O_3. The chamber should be of sufficient volume (V_{RC}) such that the residence time (t_R) is as specified in 4.

2.8 *Mixing chamber.* A glass chamber of proper design to provide thorough mixing of reaction products and diluent air. The residence time is not critical when the dynamic parameter specifications given in 4 are met.

2.9 *Output manifold.* The output manifold should be constructed of glass or Teflon® of sufficient diameter to insure a minimum pressure drop at the analyzer connection. The system must have a vent designed to insure atmospheric pressure at the manifold and to prevent ambient air from entering the manifold.

3. *Reagents*—3.1 *NO concentration standard.* Cylinder containing 50 to 100 ppm NO in N_2. The cylinder must be traceable to a National Bureau of Standards NO in N_2 Standard Reference Material (SRM 1683 or SRM 1684) or NO_2 Standard Reference Material (SRM 1629). The cylinder (working standard) should be recertified on a regular basis as determined by the local quality control program (See Reference (*2*).)

3.2 *Zero Air.* Air, free of contaminants which will cause a detectable response on the O_3 analyzer or which might react with either NO or O_3 in the gas phase titration. A procedure for generating zero air is given in Reference (*2*).

4. *Dynamic parameter specifications.* 4.1 The residence time (t_R) in the reaction chamber and the gas flows (F_O and F_{NO}) (see Figure 1) must be adjusted according to the following relationships:

$$P_R = [O_3]_{RC} \times t_R = 1.5 \text{ ppm-minutes} \quad (2)$$

$$[O_3]_{RC} = [O_3]_{OUT}\left(\frac{F_T}{F_O + F_{NO}}\right) \quad (3)$$

$$t_R = \frac{V_{RC}}{F_O + F_{NO}} \quad (4)$$

where:
P_R = Dynamic specification, determined empirically, to insure complete reaction of NO, ppm-minutes
$[O_3]_{RC}$ = O_3 concentration in the reaction chamber, ppm
t_R = Residence time in the reaction chamber, minutes
$[O_3]_{OUT}$ = 80% URL concentration of O_3 at the output manifold, ppm
F_T = Total flow at the output manifold, scm³/min
F_O = Ozone generator air flow, scm³/min
F_{NO} = NO flow, scm³/min
V_{RC} = Volume of the reaction chamber, scm³

4.2 These parameters may be selected according to the following sequence:

(a) Determine F_T, the total flow required at the output manifold (F_T = analyzer(s) demand plus 10% to 50% excess).

V41I195 OCT 6 76 UMI

(b) Determine $[O_3]_{OUT}$ as the 80% URL (upper range limit) concentration required at the output manifold.
(c) Determine F_{NO} as

$$F_{NO}=\frac{0.8\times[O_3]_{OUT}\times F_T}{[NO]_{STD}} \quad (5)$$

where:
$[NO]_{STD}$ = Concentration of the undiluted NO standard, ppm

(d) Select a convenient or available reaction chamber volume. Initially, a trial V_{RC} may be selected to be in the range of approximately 300 to 1500 cm^3.
(e) Compute F_O as

$$F_O=\sqrt{\frac{[O_3]_{OUT}\times F_T\times V_{RC}}{1.5}}-F_{NO} \quad (6)$$

(f) Compute t_R as

$$t_R=\frac{V_{RC}}{F_O+F_{NO}} \quad (7)$$

(g) Compute F_D as

$$F_D=F_T-F_O-F_{NO} \quad (8)$$

where:
F_D = Diluent air flow, scm^3/min.
(h) If F_O turns out to be impractical for the desired system, select a reaction chamber having a different V_{RC} and recompute F_O and F_D. For a more detailed discussion of these requirements and other related considerations as well as example calculations, refer to Reference (2). A procedure for the initial checkout of the GPT system and the dynamic parameter specifications given above is also included in Reference (2).
5. *Procedure.* 5.1 Assemble a dynamic calibration system such as shown in Figure 1.
5.2 Establish the dynamic parameters as indicated in 4.
5.3 Insure that all flowmeters are properly calibrated under the conditions of use against a reliable standard such as a soap-bubble meter or wet-test meter traceable to NBS. All volumetric flowrates should be corrected to 25° C and 760 torr. A detailed discussion on proper calibration of flowmeters is given in Reference (2).
5.4 Precautions must be taken to remove O_3 and other contaminants from the NO pressure regulator and delivery system prior to the start of calibration to avoid any conversion of the standard NO to NO_2. Failure to do so can cause significant errors in calibration. This problem may be minimized by (1) carefully evacuating the regulator, when possible, after the regulator has been connected to the cylinder and before opening the cylinder valve; (2) thoroughly flushing the regulator and delivery system with NO after opening the cylinder valve; (3) not removing the regulator from the cylinder between calibrations unless absolutely necessary. Further discussion of these procedures is given in Reference (2).
5.5 Allow sufficient time for the O_3 analyzer to warm-up and stabilize. Adjust the diluent air and O_3 generator air flows to obtain the flows determined in step 4.2. The total air flow must exceed the demand of the analyzer under calibration to insure that no ambient air is pulled into the manifold vent. Allow the O_3 analyzer to sample zero air until a stable response is obtained and adjust the analyzer's zero control. Offsetting the analyzer's zero adjustment to +5% of scale is recommended to facilitate observing negative zero drift. Record the stable zero air response as "Z".
5.6 Adjust the O_3 generator to generate an O_3 concentration of approximately 80% of the URL as measured on the uncalibrated O_3 analyzer. When the response has stabilized, record as I_0 (corrected for zero offset, Z).
5.7 Turn the NO flow on and adjust until the O_3 analyzer response has been decreased by 75–80 percent of its original value. For example, if I_0=80 percent of the URL, the NO flow should be adjusted to give a resultant analyzer response of 16–20 percent of the URL. When the resultant response has stabilized, record as I (corrected for zero offset, Z).
5.8 Measure the NO flow and record as F_{NO}.
5.9 Calculate the exact NO concentration from:

$$[NO]=\frac{F_{NO}\times[NO]_{STD}}{F_{NO}+F_O+F_D} \quad (9)$$

where:
[NO]=Diluted NO concentration, ppm
5.10 Calculate the O_3 concentration from:

$$[O_3]_{OUT}=\frac{I_0}{\left(I_0\times\frac{F_O+F_D}{F_{NO}+F_O+F_D}\right)-I}\times[NO] \quad (10)$$

$$\simeq\simeq\frac{I_0}{I_0-I}\times[NO] \quad (11)$$

where:
$[O_3]_{OUT}$ = O_3 concentration, ppm
I_0 = Original O_3 analyzer response, % chart (corrected for zero offset, Z)
I = Resultant O_3 analyzer response after addition of NO, % chart (corrected for zero offset, Z) The correction for flow dilution by NO shown in equation (10) is usually small and may be ignored by using equation (11).]
5.11 Remove the NO flow. The O_3 analyzer response should return to its original value.
5.12 Adjust the analyzer's span control to obtain a convenient recorder response as indicated below:

$$\text{recorder response (percent scale)}=\left(\frac{[O_3]_{OUT}}{URL}\times 100\right)+Z \quad (12)$$

where:
URL = Upper range limit of the O_3 analyzer, ppm
Z = Recorder response with zero air, % scale

Record the O_3 concentration and the analyzer response. If substantial adjustment of the span control is necessary, it may be necessary to recheck the zero and span adjustments by repeating steps 5.5 and 5.12. If the O_3 concentration calculated above is outside the desired range of the analyzer, span the analyzer on the next higher range and then repeat the entire procedure (steps 5.5 through 5.12) on the desired range.
5.13 Calculate the O_3 concentration produced by the O_3 generator from:

$$[O_3]_{GEN}=[O_3]_{OUT}\left(\frac{F_O+F_D}{F_O}\right) \quad (13)$$

where:
$[O_3]_{GEN}$ = O_3 concentration produced by the O_3 generator, ppm

5.14 Generate several other O_3 concentrations (at least 4 are suggested) by increasing F_D, the diluent air flow. Calculate the diluted O_3 concentrations from:

$$[O_3]'_{OUT}=[O_3]_{GEN}\left(\frac{F_O}{F_O+F'_D}\right)$$

where:
$[O_3]'_{OUT}$ = Diluted O_3 concentration, ppm
F'_D = The new diluent air flow, scm^3/min

5.15 Allow the O_3 analyzer to sample each diluted O_3 concentration until a stable response is obtained. For each concentration, record the analyzer response and the corresponding O_3 concentration.
5.16 Plot the O_3 analyzer responses versus the corresponding O_3 concentrations and draw the O_3 analyzer's calibration curve or calculate the appropriate response factor.

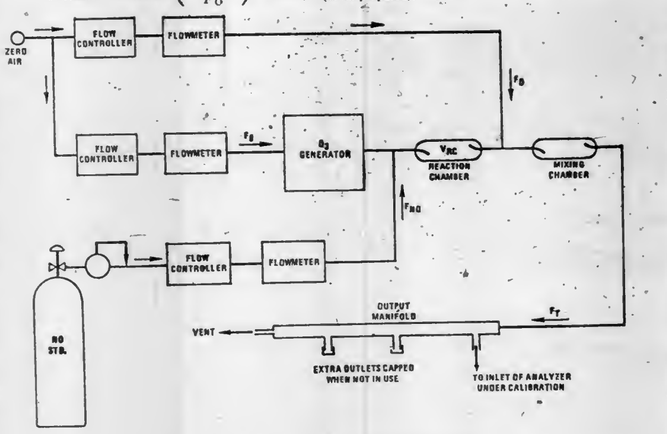

Figure 1. Schematic diagram of a typical GPT calibration system.

ATTACHMENT B—TECHNICAL GUIDANCE FOR OBTAINING IMPROVED PRECISION AND ACCURACY IN USING THE OZONE CALIBRATION PROCEDURE GIVEN IN 40 CFR PART 50, APPENDIX D

The reference method calibration procedure specified in Appendix D of 40 CFR Part 50 allows a moderate degree of flexibility in a number of its provisions. This flexibility arises because some of the equipment and procedural specifications are given in terms which tend to be general or subject to interpretation, rather than highly specific. Such general-type specifications permit variations to accommodate operator preferences and available equipment. However these variations compromise, to some extent, the precision and accuracy of the resulting ozone measurements.

Within certain somewhat general specifications prescribed in Appendix D of 40 CFR Part 50, it is possible to obtain improved precision and accuracy by following more detailed and restrictive procedures. These augmentative procedures and instructions are set forth below for those who wish to obtain improved results. While use of these additional instructions is not required, EPA recommends that they be followed where improved uniformity and accuracy are desired.

1. Section 5.10.1 indicates that "all-glass impingers as shown in Figure D4 are recommended." It is obvious that the intent of this specification is not to exclusively limit the type of absorber used to the exact type or shape shown in Figure D4. A number of other all-glass absorbers are available and are permissible under the intent of section 5.10.1. EPA now believes that the best uniformity and accuracy are obtained by the use of a type of absorber referred to as a "midget impinger". Specifications for this midget impinger are given in Figure B-1.

2. Section 6 indicates the reagents which are required to carry out the procedure. Greater uniformity and accuracy may be obtained if the following reagents are specified as "ACS Reagent Grade": potassium iodide (KI), potassium dihydrogen phosphate (KH_2PO_4), disodium hydrogen phosphate (Na_2HPO_4), sodium hydroxide (NaOH), sulfuric acid (95% to 98% H_2SO_4), starch (soluble), mercuric iodide (HgI_2), iodine (resublimed I_2), and sodium bicarbonate ($NaHCO_3$).

3. Section 6.5 specifies the use of either anhydrous disodium hydrogen phosphate (Na_2HPO_4) or the dodecahydrate salt ($Na_2HPO_4{\cdot}12H_2O$). However the heptahydrate form of this compound ($Na_2HPO_4{\cdot}7H_2O$) is more stable and thus provides improved precision. Since all three of these forms of the compound are absolutely equivalent chemically, the heptahydrate form is recommended. The equivalent quantity of $Na_2HPO_4{\cdot}7H_2O$ is 26.8 grams.

4. Section 6.5 specifies the use of potassium iodide (KI). Some sources of KI—even ACS Reagent Grade—have been reported to contain small amounts of reducing agents. Such impurities can cause an iodine demand which could cause a significant measurement error. Best accuracy is thus obtained with KI which has no significant iodine demand. To determine if this specification is being met, plot the I_2 absorbance (y-axis) versus total μg O_3 (x-axis) calibration curve in Section 8.1.2 as follows:

Plot the five points obtained for the 0.5, 1, 2, 3, and 4 ml of I_2. Do not include zero as a point. Draw the curve or use linear regression analysis. If the intercept is significantly different from zero, the KI has an I_2 demand and should be discarded. Typical intercepts obtained at NARC/RTP are between +0.08 and −0.20 μg O_3. Typical slopes obtained for the I_2 vs Absorbance are between 19.57 and 18.77 μg O_3/Absorbance Units.

5. Section 6.2 specifies "cylinder air, dry grade". This specification is rather ambiguous, but it seems clear that the intent is to require air of a clean, dry, and uniform quality. Air from sources other than compressed gas cylinders can certainly meet and exceed these requirements. Thus this specification can be interpreted to include any source of clean, dry, uniform air. But again, greater precision can be realized if additional specifications are applied to the air. In particular, the air must also be essentially free of ozone, NO, NO_2, reactive hydrocarbons, and any other interferent which may cause a positive or negative bias. While it is not practical to attempt to analyze the air for presence of these various interferents, the following ultra above additional requirements may be produced by appropriate treatment as described below. Either compressed ambient air or cylinder air may be treated. The air is first passed through silica gel for drying, then it is treated with ozone to convert any NO to NO_2. Finally, the air is passed through 6–14 mesh activated carbon and 6–16 mesh type 4A molecular sieve to remove NO_2 and hydrocarbons.

NOTE.—The oxygen content of cylinder air may vary from 18% to 22%, which can cause changes in the calibration of ozone generators. If cylinder air is used, recalibration of the ozone generator with each new cylinder of air is recommended.

6. Sections 8.1.1, 8.2.2.1, and 8.2.2.2 all require measurement of the iodine absorbance "immediately." Best precision is obtained when these measurements are made within 3 minutes after obtaining the material to be measured.

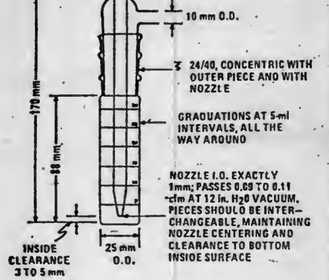

Figure B - 1.

[FR Doc.76-29279 Filed 10-5-76;8:45 am]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Parts 563 and 570]

[No. 76-758]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Federal Insurance Reserve Accounts

SEPTEMBER 30, 1976.

The Federal Home Loan Bank Board proposes to amend Parts 563 and 570 of the Rules and Regulations for Insurance of Accounts (12 CFR Parts 563 and 570) for purposes of clarification and to permit more flexible management of Federal insurance reserve accounts.

Present § 563.11(a) requires insured institutions to establish a Federal insurance reserve account (FIR) to be used solely to absorb losses; prohibits payment of interst or dividends on savings accounts therefrom; and permits an insured State-chartered institution to permanently designate as part of its FIR any reserve account which, under State law, may only be used to absorb losses. Evidence of such designation must be filed with the Corporation.

The proposed revisions to paragraph (a) would describe the establishment and composition of the FIR in subparagraph (a)(1), and the use thereof in paragraph (a)(2). Paragraph (a)(1) would clarify that the FIR must be established and maintained according to §§ 563.12 and 563.13 of this Part. Although the FIR would continue to include permanently designated State loss reserve accounts, other components would henceforth be limited to transfers from net income or net worth accounts other than capital stock or paid-in surplus under conditions specified in proposed paragraph (b) of this section. The Board has determined that pledged savings accounts (presently eligible for earmarking as FIR) will no longer be included in the temporary earmarking category because of the infrequency of applications therefor, and to provide uniformity in loss absorption characteristics among funds comprising FIR.

In the matter of amendment § 64.702 of the Commission rules and regulations, (Computer Inquiry).

1. We have under consideration:

(a) A request filed September 10, 1976, by COMSAT General Corporation (COMSAT GENERAL) that the Commission issue a procedural order with respect to the service of pleadings on participants in the Computer Inquiry;[1]

(b) A motion for extension of time filed on September 20, 1976 by International Business Machines Corporation (IBM), pursuant to § 1.46 of the Commission's rules and regulations, requesting an extension of time for the filing of comments in the Computer Inquiry.

2. COMSAT GENERAL anticipates that extensive comments and replies will be filed in this proceeding by numerous companies from the communications and data processing industries. It submits that identifying all participants and obtaining copies of their filings could be a time consuming and onerous procedure for interested parties, resulting potentially in the protraction of pleading cycles and delay in final Commission action. Accordingly, it requests that the Commission require all parties planning to participate in the Computer Inquiry to file a notice of such intention with the Commission.

3. This procedure would serve the convenience of the interested parties and, at the same time, be conducive to expeditious administration in this proceeding. Accordingly, we will require all parties who intend to participate in the Computer Inquiry to file a notice of their intention with the Commission. Subsequent thereto, the Commission will publish a list of the participants and their addresses in a public notice, and the participants filing pleadings in this proceeding shall serve on each party listed, a copy of all pleadings filed with the Commission.

4. In addition, IBM maintains that the proposed changes in the structure of the computer rules would substantially affect presently unregulated competitive service offerings. IBM states that it intends to submit an analysis showing the extent to which presently unregulated offerings would be affected by the proposed amendments as well as a discussion of the desirability of any such changes. It states, however, that it would not be possible for IBM to complete such an analysis in the time allotted by the Commission. It requests, therefore, that the time for filing comments in this proceeding be extended for at least 90 days, until January 10, 1977, and that the time for reply comments be extended 45 days, until February 24, 1977.

5. In view of the complexity and possible impact that the proposed amendment to § 64.702 might have on regulated common carriers and the non regulated data processing industry, IBM's request for an extension of time appears reasonable.

6. *Accordingly, it is hereby ordered,* Pursuant to § 0.303 of the Commission's Rules on Delegations of Authority, that IBM's request for an extension of time for the filing of all comments in the Computer Inquiry (Docket No. 20828) is granted.

7. *It is further ordered,* That comments in this proceeding shall be filed on or before January 10, 1977, and reply comments shall be filed on or before February 24, 1977.

8. *It is further ordered,* That interested parties intending to participate in the Computer Inquiry shall file a notice of such intent with the Commission by November 1, 1976 stating the name and address of the individual on whom pleadings in this proceeding are to be served.

FEDERAL COMMUNICATIONS COMMISSION,
JOSEPH A. MARINO,
Deputy Chief,
Common Carrier Bureau.

[FR Doc.76-29279 Filed 10-5-76;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 64]

[Docket No. 20828]

PARTICIPATION IN DATA PROCESSING BY COMMUNICATIONS COMMON CARRIERS

Memorandum Opinion and Order Regarding Computer Inquiry

Adopted: September 30, 1976; Released: October 4, 1976.

[1] Notice of Inquiry and Proposed Rulemaking, FCC 76-745, released August 9, 1976 (Docket No. 20828) (41 FR 33563).

V41N195 OCT 6 76 UMI

New paragraph (a)(2) would preserve the ban against payment of interest or dividends on savings accounts from the FIR, clarify that the FIR may be used to establish specific loss reserves or valuation allowances, and permit transfers of amounts from the FIR to other reserve accounts under conditions prescribed in proposed paragraph (e) of this section.

Present paragraph (b)(1) of § 563.11, which permits temporary earmarking of specified net worth accounts with approval of the Corporation, would be revoked and replaced by new paragraph (b)(1) which would permit, with Corporation approval, temporary earmarking as part of an insured insitution's FIR any amount of capital stock or paid-in surplus allowed by State law to be used solely for absorbing losses or establishing specific loss reserves of valuation allowances. The proposal would also provide that Corporation approval would be given only if there is no legal restriction or condition precedent to reduction of the balance available (represented by such stock or paid-in surplus) to absorb losses, and would not be given to meet the requirement in § 563.13(a)(1) that an insured institution must meet its 5 percent benchmark without averaging on one closing date before the 26th anniversary of its insurance of accounts. Additionally, an institution would have to terminate such earmarking as soo nas FIR requirements could be met pursuant to one or more of the other provisions of this section.

New paragraph (b)(2) would retain and modify the provision delegating the Corporation's authority to the Director of the Office of Examinations and Supervision for approval or disapproval of temporary earmarking to conform to the proposed revision of paragraph (b)(1).

Present paragraphs (c) and (d) of this section, describing the general reserves of Federal associations and adjustment for negative net worth account balances, respectively, would be retained; new paragraphs (e), (f) and (g) would be added.

Proposed paragraph (e) of this section would allow insured institutions which have exceeded their required § 563.13(a) FIR levels to release excess amounts therefrom by, terminating existing temporary earmarking of capital stock or paid-in surplus, or if none, then by transferring such excess to other net worth accounts. It is noted that an institution which has met the five percent requirement of § 563.13(a) may not reduce its FIR below that level.

Proposed new paragraph (f) would require insured institutions to maintain clear corporate and accounting records of all components of their FIR for inclusion in semiannual reports to the Corporation as well as reports to the public.

New paragraph (g) would allow (from the date of adoption of these amendments) an institution to transfer previously earmarked accounts to the FIR, or to release such accounts without prior Corporation approval, so long as the FIR balance continues to meet the required § 563.13 (a) level, with recordkeeping of such release or transfer required.

Section 563.13 sets forth requirements for amounts and maintenance of FIR and net worth accounts. The Board proposes to expand this section to include two new paragraphs. Present paragraphs (a)(1) and (a)(2) would not change in substance. Paragraph (a)(2) would be redesignated as paragraph (a)(3). New paragraph (a)(2) would state FIR requirements for the resulting institution in merger situations where one or more of the merging institutions has been insured less than 20 years. This new provision would include definitions of the terms "merger", "merging institutions", and "resulting institution" in paragraph (a)(2)(i). Paragraph (a)(2)(ii) would derive the applicable FIR requirement either by dividing the merging institutions' combined required reserves on the most recent annual closing date by those institutions' aggregate savings and checking account balances on such date, or by averaging such aggregate account balances. The resulting percentage, rounded to the next higher one quarter of one percent (unless already an exact multiple thereof), would be compared with the percentages in the table in paragraph (a)(1) to obtain the corresponding anniversary year for the resulting institution.

New paragraph (a)(4), as proposed, would allow an insured institution to meet its 5% "without averaging" benchmark under § 563.13(a) by a retroactive transfer from retained earnings to the FIR on a selected prior annual closing date, if the institution could have met that benchmark requirement then as well as on all subsequent closing dates prior to the actual transfer. This new provision reflects the Board's recognition of the need for flexibility in meeting the 5% benchmark when fluctuations in the general economy produce periods of high savings inflow and concurrent low operating profits creating business hardship for institutions which must meet the 5% benchmark during such periods.

Present § 563.14 prohibits an insured institution's payment of dividends and interest on savings accounts if the institution's FIR is reduced below its required level by recognizing losses chargeable to the FIR, unless prior written approval is obtained from the Corporation. This section also provides Corporation approval for such payment by an institution which has: (1) been insured at least 20 years, (2) met its 5 percent benchmark, and (3) provided for transfer to FIR of at least 25 percent of net income. The proposal would replace these three requirements with one—that an institution have sufficient surplus and undivided profits to meet interest or dividend payments. This new requirement is intended to liberalize and make uniform the condition under which dividends or interest may be paid. Additionally, the proposal would change the phrase "recognized losses chargeable" to "identifiable losses chargeable" to the FIR to clarify that impending losses are to be absorbed by some net worth account (including the FIR) as soon as the probability of loss has been ascertained.

The Board also takes this opportunity to propose to revoke § 570.3, which would become obsolete should the proposed amendments to § 563.11 be adopted, and to revoke paragraph (c) of § 570.4, which refers to an obsolete provision of the regulations.

Accordingly, the Board hereby proposes to amend § 563.11 by revising paragraph (a), revoking paragraph (b) and adding new paragraphs (b), (e), (f) and (g); to amend § 563.13 by redesignating existing paragraph (a)(2) as (a)(3) and adding new paragraphs (a)(2) and (a)(4); to revoke § 570.3 and paragraph (c) of § 570.4; and to amend § 563.14 to read as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552, by November 15, 1976, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address.

1. Revise paragraphs (a), (b), (e), (f) and (g) of § 563.11 to read as follows:

§ 563.11 Federal Insurance Reserve.

(a) *Establishment, composition, and use of FIR.* (1) *Establishment and composition of account.* Each insured institution shall establish and maintain a Federal insurance reserve account in accordance with Sections 563.12 and 563.13 of this Part. Each insured institution's Federal insurance reserve account may be composed of:

(i) Transfers to such account from the institution's net income or from net worth accounts other than capital stock and paid-in surplus, plus

(ii) All of any loss reserve account established by a State-chartered institution pursuant to State law, which by specific and appropriate corporate action, evidence of which is filed with the Corporation, such institution has permanently designated as part of its Federal insurance reserve account, plus

(iii) Those portions of such institution's capital stock or paid-in surplus which the institution has temporarily earmarked as part of its Federal insurance reserve account in accordance with paragraph (b) of this section.

(2) *Use of account.* Except as otherwise provided in paragraph (e) of this section, an insured institution may use its Federal insurance reserve account (including all earmarked accounts) solely for the purpose of absorbing losses or establishing specific loss reserves or valuation allowances. No insured institution may pay interest or dividends on savings from its Federal insurance reserve account.

(b)(1) *Temporary earmarking of capital stock and paid-in surplus.* An insured institution with a temporarily inadequate Federal insurance reserve account and no balance in any of its other net worth accounts availble for transfer to its Federal insurance reserve account under paragraph (a)(1)(i) of this section may, by specific and appropriate corporate action and with the prior written approval of the Corporation, temporarily earmark as part of its Federal insurance reserve account any amount

of capital stock or paid-in surplus permitted by State law to be used at any time solely for absorbing losses or for establishing specific loss reserves or valuation allowances. Corporation approval of such temporary earmarking will only be given if there is no legal restriction or condition precedent to reduction of the balance available (represented by such stock or paid-in surplus) to absorb losses. Corporation approval will not be given to meet the requirement in § 563.13(a)(1) that an insured institution meet the 5 percent requirement on any one closing date prior to the 26th anniversary of its insurance of accounts. An insured institution which has temporarily earmarked capital stock or paid-in surplus as part of its Federal insurance reserve pursuant to this paragraph shall terminate such earmarking as soon as it can satisfy Federal insurance reserve requirements pursuant to one or more of the other provisions of this section.

(2) The Director of the Office of Examinations and Supervision is authorized to approve or disapprove earmarking under paragraph (b)(1) of this section on behalf of the Corporation. Such Director is also authorized to delegate to any Deputy Director of the Office of Examinations and Supervision the authority conferred by this paragraph (b)(2) under such circumstances and subject to such limitations as the Director may prescribe.

(c) * * *

(d) * * *

(e) *Release of Federal insurance reserve.* If an insured institution has a Federal insurance reserve account balance exceeding the level required by § 563.13(a) of this Part at the close of business on its most recent annual closing date, such excess may be released, first by termination of temporary earmarking of capital stock or paid-in surplus, then by transfers to any of such institution's other net worth accounts. An insured institution which has met the 5 percent requirement of § 563.13(a) of this Part may not reduce its Federal insurance reserve below that level.

(f) *Reporting of Federal insurance reserve.* Each insured institution shall maintain corporate and accounting records which at all times clearly show the accounts or portions of accounts (including those temporarily earmarked pursuant to paragraph (b) of this section) and the amounts thereof included as part of its Federal insurance reserve account under subparagraph (a)(1) of this section. Each insured institution in each semiannual report of financial condition to the Corporation shall appropriately identify and report the total of its accounts included in its Federal insurance reserve account. In all reports to the public the total of an institution's net worth accounts stated as a reserve for losses or general reserves shall not be less than the amount held as its Federal insurance reserve.

(g) *Prior Provisions.* Effective [date of adoption of this regulation], accounts earmarked under prior provisions of this section may be transferred to an insured institution's Federal insurance reserve account or released from temporary earmarking with prior approval of the Corporation: *Provided*, however, that the balance remaining in the Federal insurance reserve account meets the requirements of § 563.13(a). Clear records shall be kept of all transfers or release from earmarking.

2. Revise (a)(2) and (a)(4) of § 563.13 to read as follows:

§ 563.13 Required amounts and maintenance of Federal insurance reserve and net worth.

(a) *Federal insurance reserve requirements.* (1) *Minimum required amounts.*

* * * * * *

(2)(i) *Requirements upon merger.* The following reserve requirements apply to mergers of one or more insured institutions. The term "merger" includes consolidations and bulk purchases of assets in exchange for assumptions of savings accounts and other liabilities; "merging institution" means any institution absorbed by merger; and "resulting institution" means the institution which continues its corporate existence after absorbing one or more merging institutions.

(ii) A resulting institution's reserve requirements under paragraph (a)(1) of this section are determined either by dividing the merging institutions' combined required reserves on the most recent annual closing date by such institutions' aggregate savings and checking account balances on such date, or by averaging such aggregate account balances on such closing date and on one or more of the 4 immediately preceding annual closing dates, provided all such dates are consecutive. A resulting percentage which is not an exact multiple of one quarter of one percent shall be increased to the next higher one quarter of one percent. This resulting percentage, or 5 percent, whichever is lower, shall be compared with the percentages in the table in paragraph (a)(1) of this section to obtain the resulting institution's anniversary year, which shall begin on the merger date.

(3) *Maintenance of minimum level.*

* * * * * *

(4) *Retroactive transfer.* An insured institution with insufficient retained earnings available for transfer to its Federal insurance reserve account to meet the 5 percent requirement of § 563.13(a) may select a previous annual closing date for the purpose of a retroactive transfer from retained earnings to the Federal insurance reserve account if such retained earnings (exclusive of temporarily earmarked accounts) were sufficient to have met such 5 percent requirement on that previous date and on all subsequent annual closing dates prior to the actual transfer. Clear records supporting such transfer shall be maintained.

3. Revise § 563.14 to read as follows:

§ 563.14 Payment of dividends and interest where losses are chargeable to the FIR.

Except upon prior written approval of the Corporation, no insured institution with identifiable losses chargeable to its Federal insurance reserve account may declare dividends or pay interest on savings accounts unless such account, after deduction of identified losses, at least equals the amount required under § 563.13(a). The Corporation hereby approves the declaration of dividends or payment of interest on savings accounts by any such institution which has sufficient surplus and undivided profits to meet such dividend or interest payments.

4. Revoke § 570.3 as follows:

§ 570.3 Reserves: Federal insurance reserve: transfers from; undivided profits.

[Revoked]

5. Revoke § 570.4(c) as follows:

§ 570.4 Net Worth.

* * * * *

(c) [Revoked]

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. 1725, 1726, 1730); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR 1943–48 Comp. 1071.)

By the Federal Home Loan Bank Board.

RONALD A. SNIDER,
Assistant Secretary.

FEDERAL MARITIME COMMISSION

[46 CFR Part 502]

[Docket No. 76-49; General Order 16]

MISCELLANEOUS AMENDMENTS TO RULES OF PRACTICE AND PROCEDURE

Enlargement of Time To File Comments

Notice of proposed rulemaking was published in this proceeding September 20, 1976 (41 FR 40504-40505). Council of European and Japanese National Shipowners' Association has requested a 60 day enlargement of time to comment. While a certain enlargement of time is warranted under the circumstances, the requested enlargement appears to be excessive. Accordingly, time within which comments may be filed is enlarged to and including November 15, 1976.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-29327 Filed 10-5-76;8:45 am]

POSTAL SERVICE

[39 CFR Part 111]

OFFICIAL MAIL

Contractor Use

Under the provisions of 39 CFR 111.3 the Postal Service proposes to revise the restrictions contained in 137.231e and 137.242 of the Postal Service Manual concerning the use of the "postage and fees paid" and "penalty" indicia for official mail. Under existing regulations, Government contractors may be furnished official envelopes and labels for convenience in submitting official information, or for delivery of official matter. In order to prevent the misuse of such envelopes and labels, the proposed regulations establish a licensing procedure to govern this use of official mail.

In recognition of the essential Government interests served by certain

V 41 N 195 OCT 6 76 UMI

contractors authorized to mail matter on behalf of Federal agencies, the proposed regulations allow a Government agency to apply for a special permit under which it may authorize printer-mailer contractors to use official envelopes and labels to mail, on behalf of the agency, matter printed at Government expense. Similarly, the proposed regulations allow a Government agency to apply for a special permit under which it may authorize other contractors to use official envelopes and labels for a specified time, or on a specific contract-by-contract basis. Unauthorized contractor use of official envelopes will not be allowed, and an agency will be granted a permit to authorize contractor use of official envelopes only after the agency has made adequate reimbursement arrangements with the Manager, Government Revenue and Examination Branch, Finance Department, United States Postal Service.

The proposed regulations also contain special information provisions to insure that the Postal Service receives adequate compensation for services provided to contractors and other private users of official envelopes and labels. Under the proposal, printer-mailer contractors, other contractors, and Government agencies will furnish information concerning contractor use of official envelopes in the manner and in the form directed by the Manager, Government Revenue and Examination Branch, Finance Department.

Interested agencies and persons who wish to do so may submit written data, views, or arguments concerning the proposed regulations to the Manager, Government Revenue and Examination Branch, Finance Department, United States Postal Service, Washington, D.C. 20260. All comments received on or before November 8, 1976, will be considered by the Postal Service prior to taking action on the proposed regulations.

Accordingly, although exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed amendments of the Postal Service Manual:

PART 137—OFFICIAL MAIL

1. Section 137.231e of the Postal Service Manual is revised to read as follows:

.231 *Postage and fees paid.*

* * * * *

e. Printed envelopes or labels marked "Postage and Fees Paid (name of department or agency)" and bearing the return address of a Federal Government office or officer may be furnished to persons or concerns for convenience in submitting information for official purposes, or for delivery of official matter, subject to the following:

(1) Except as provided in 137.231e(2), e(3), and e(4), an office or officer authorized to use the official mail privilege may not loan or furnish "Postage and Fees Paid" envelopes or labels to any private person, concern, or organization, or permit the use of such envelopes or labels for private benefit.

(2) An office or officer authorized to use the official mail privilege may furnish printed reply envelopes and labels, marked "Postage and Fees Paid (name of department or agency)" and preaddressed to a Federal Government office or officer, to a person, concern, or organization for convenience in submitting information for official purposes. Reply envelopes and labels may not be furnished for the transmission of merchandise, or to enable a person, concern, or organization to send without prepayment of postage report or other information primarily related to the business or benefit of any person, concern, or organization not listed in 137.231a above.

(3) An office or officer authorized to use the official mail privilege may request the Manager, Government Revenue and Examination Branch, Finance Department, to issue a permit for that office or officer to authorize printer-mailer contractors to use envelopes and labels marked "Postage and Fees Paid (name of department or agency)" to mail, on behalf of that office or officer, matter printed at Government expense. Any office or officer requesting a permit must furnish with the request all information the Manager considers necessary.

(4) An office or officer authorized to use the official mail privilege may request the Manager, Government Revenue and Examination Branch, Finance Department, to issue a permit for that office or officer to authorize non-printer-mailer contractors to use envelopes and labels marked "Postage and Fees Paid (name of department or agency)" for the delivery of official matter for a specified time, or in the performance of specific contracts with the office or officer. Any office or officer requesting a permit must furnish with the request all information the Manager considers necessary.

(5) The Manager, Government Revenue and Examination Branch, Finance Department, or his designee, shall review each request under 137.231e(3) or e(4) and permit the office or officer to authorize contractor use of official envelopes and labels for a period of one year if he determines that the office or officer has made adequate arrangements to reimburse the Postal Service for mail service provided to contractors. In making this determination, the Manager, or his designee, shall consider factors including, but not limited to, the following:

(a) Any relevant misuse of the official mail privilege, including previous contractor use of "Postage and Fees Paid" envelopes or labels for the transmission of nonofficial matter;

(b) The quality of previous compliance with official mail reimbursement instructions issued by the Manager under 137.21, including the accuracy of methods for estimating or measuring the volume of official mail;

(c) The practicability of obtaining adequate information to insure full reimbursement for the proposed contractor use of official mail; and

(d) The relative costs and benefits of the proposed contractor use of official mail to the Postal Service and to the office or officer involved.

(6) Official envelopes and labels used by any persons, concern, organization, or contractor, as provided in 137.231e(2), e(3), and e(4) must bear the printed return address of one of the authorized departments or agencies listed in 137.231a over the words "Official Business". No return name and address of a private person, concern, organization, or contractor may be shown. When a special service is required, the envelope or label must be preprinted with the type of special service desired. Users of official envelopes and labels may not add their own markings for these services.

(7) Offices and officers authorized to use the official mail privilege must reimburse the Postal Service for the private use of official envelopes and labels under 137.231e(2), e(3), and e(4), as provided in instructions issued and administered by the Manager, Government Revenue and Examination Branch, Finance Department. Federal Government offices and officers, and any contractors authorized by them to use official envelopes and labels, shall promptly furnish, in the manner and form requested, all information, including but not limited to contractor name, points and dates of mailing, classes, quantities, and single-piece weights of mail matter, the Manager considers necessary to insure accurate reimbursement to the Postal Service for private use of official envelopes and labels.

2. Section 137.242 of the Postal Service Manual is revised to read as follows:

.24 *Use.*

* * * * *

.242 Any office or officer authorized to use the official mail privilege may furnish self-addressed envelopes or labels to persons or concerns for their convenience in submitting official information desired by any U.S. Government department or agency. Reply envelopes may not be furnished to bidders, or to enable a private person or concern to send without prepayment of postage reports or other information primarily related to the business or benefit of any person, concern, or organization not listed in 137.231a above. An office or officer may request the Manager, Government Revenue and Examination Branch, Finance Department, to issue a permit for that office or officer to authorize contractors to use official envelopes and labels as provided in 137.231e.

An appropriate amendment to 39 CFR 111.3 to reflect these changes will be published after adoption of the proposal.

(39 U.S.C. 401, 3201, 3206, 3209.)

LOUIS A. COX,
General Counsel.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Federal Law Enforcement Training Center

PRIVACY ACT OF 1974

Adoption of Systems of Records

On August 4, 1976, the Federal Law Enforcement Training Center published for comment by interested persons (41 FR 32614) proposals on two systems of records: FLETC 002 (revised) and FLETC 004 (new).

No comments were received. Accordingly, both systems are adopted as proposed and are republished below.

Dated: September 27, 1976.

ARTHUR F. BRANDSTATTER,
Director, Federal Law Enforcement Training Center.

TREASURY/FLETC 00.002

System name: FLETC Trainee Records and FLETC Instructor Records—Treasury/FLETC.

System location: FLETC Office of Administration, Administration Building, Glynco, Georgia 31520.

Categories and individuals covered by the system: Any person who officially attends a formal FLETC training program and all instructors engaged in teaching the FLETC training programs.

Categories of records in the system: Trainee records: personal background information supplied by the trainee; grades and performance evaluation, student advisory form and relevant public health records. Instructor records: personal background information supplied by the instructor, and teaching qualifications. All records described in this system are other than records described and reported by the Civil Service Commission on behalf of all agencies.

Authority for maintenance of the system: 5 U.S.C. 301, 5 U.S.C. 4101–4118, Executive Order 11348, Treasury Order No. 217 (Revision 1) dated July 1, 1970, and Memorandum of Understanding for the Sponsorship and Operation of the Consolidated Federal Law Enforcement Training Center, dated September 30, 1970.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure upon request to the individual himself, the individual's parent agency, and to any other agency or organization at the request of the individual.

To the Civil Service Commission concerning pay, leave, benefits, retirement deductions, and other information necessary for the Commission to carry out its government-wide personnel management functions. For additional routine uses; see Appendix AA, 40 FR 56419–56420, December 2, 1975.

Policies and practices for storing, retrieving, accessing, retaining and disposing of records in the system:

Storage: Magnetic disc storage except for health records which are maintained on paper files.

Retrievability: Name and class number.

Safeguards: Access to these systems of records will be controlled by software and hardware procedures. Software will be used to ensure, in all technically feasible ways, that data cannot be made available to unauthorized persons. User—identifiers and passwords will be used where feasible to protect the data. Physical security will protect all terminals and magnetic disc files from access by unauthorized persons. Offices will be locked except when authorized persons are present.

Retention and disposal: Disposition not yet authorized by the National Archives and Records Service. A formal request is in progress, proposing destruction in annual increments five years from the end of the calendar year in which the record was created. Should the disposition ultimately approved be materially different from the one outlined here, further notice will be made in this publication.

System manager's address: Assistant Director for Administration, Office of Administration, Administration Building, FLETC, Glynco, Georgia 31520.

Notification procedure: The individual must provide full name, social security number, date of birth, parent agency, type of course and approximate dates of attendance to the system manager.

Record access procedures: By written request to the system manager.

Contesting record procedures: By written request to the system manager.

Record source categories: Trainees. The trainee himself and members of the staff responsible for grading, rating or evaluating the trainee.

Instructors. The instructor himself and staff members responsible for upgrading the instructor's teaching qualifications.

TREASURY/FLETC 00.004

System name: FLETC Employee Records—Treasury/FLETC.

System location: FLETC, Office of Administration, Administration Building, Glynco, Georgia 31520.

Categories of individuals covered by the system: Employees, Past Employees, Employee Prospects, Contract Personnel.

Categories of records in the system: Personnel, Health, Training, Vehicle Registration, Equal Employment Opportunity, Locator Cards, Identification Records, and Equipment Control Rosters, consisting of records other than those described and reported by the Civil Service Commission on behalf of all agencies.

Authority for maintenance of the system: 5 U.S.C. 301, 5 U.S.C. 4101 et seq., Executive Order No. 11348, April 20, 1967, Treasury Order 217 (Revision 1), dated July 1, 1970.

Routine uses of records maintained in the system and the purposes of such uses: Personnel recruitment and management, management of health unit, vehicle control, equipment control, equal employment opportunity program. Disclosure to the individual himself and the individual's parent agency. Health records to the U.S. Department of Labor and the U.S. Department of Health, Education, and Welfare as required by regulation. To the Civil Service Commission concerning pay, leave, benefits, retirement deductions, and other information necessary for the Commission to carry out its government-wide personnel management functions. For additional routine uses, see Appendix AA, 40 FR 56419–56420, December 2, 1975.

Policies and practices for storing, retrieving, and disposing of records in the System:

Storage: Paper files.

Retrievability: Name.

Safeguards: Physical security, personnel screening and security check lists are all used to prevent unauthorized disclosure of records.

Retention and disposal: Disposition as prescribed by the schedules attached to Treasury Directives Manual chapter TD 80, Section 05.B, 5–12–76, except for health records covered by the General Service Administration's General Records Schedule 1 (GRS 1):

Personnel records	Schedule 1	Item 9	1 yr.
Health records	GRS 1	21	6 yr.
Training records	Schedule 1	25c	1 yr.
Vehicle records	11	4a	3 mo.
Equal Employment Opportunity records	1	20b	1 yr.
Locator records	11	4a	3 mo.
Identification records	11	4a	3 mo.
Equipment control records:			
Property pass files	18	10	3 mo.
Lost, stolen, and found files	18	13b	1 yr.
Key files	18	14b	3 mo.

V41 1955 OCT 6 76 UMI

System manager and address: Assistant Director for Administration, Office of Administration, Administration Building, FLETC, Glynco, Georgia 31520.

Notification Procedure: The individual must provide full name, date of birth, and dates of employment with the Center to the system manager.

Record access procedures: By written request to the system manager.

Contesting record procedures: By written request to the system manager.

Record source categories: The employee on whom the record is maintained, prior employers, and FLETC.

Internal Revenue Service

IMPLEMENTATION OF THE TAX REFORM ACT OF 1976

Invitation for Suggestions

The recent enactment of the Tax Reform Act of 1976 (Pub. L. 94-455) will cause a massive undertaking by the Internal Revenue Service to provide guidance to the public for compliance and to its own personnel for administration. As in the past, such actions will include the revision of forms and instructions, the revision of publications and booklets furnished to the public, the drafting of new and amended regulations, and the issuance of news releases. In order to best serve the public, the Internal Revenue Service would appreciate receiving suggestions for actions that should be taken and comments for contents of forms, instructions, regulations, etc. Such suggestions or comments should be submitted in writing (preferably three copies), as follows:

(1) Suggestions for publications and for the content of forms and instructions relating thereto should be sent to the Commissioner of Internal Revenue, Attention: T:FP, Washington, D.C. 20224.

(2) Suggestions for regulations should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224.

(3) Suggestions for news releases and other actions should be submitted to the Commissioner of Internal Revenue, Attention: PR:L, Washington, D.C. 20224.

Designations of material as confidential or not to be disclosed, contained in suggestions or comments, will not be accepted. Thus, persons submitting written suggestions or comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public.

Suggestions and comments should be submitted as soon as possible. In order to fulfill its obligations to the public on a timely basis, the Internal Revenue Service will not delay completing any pending or contemplated action in order to await the receipt of suggestions or comments.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

OCTOBER 4, 1976.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

FOLSOM DISTRICT MULTIPLE USE ADVISORY BOARD

Meeting

Notice is hereby given that the Folsom District Multiple Use Advisory Board of the Bureau of Land Management will meet at the Cameron Park Country Club, 3201 Royal Drive, Shingle Springs, California 96582, on October 26, 1976, at 10 am.

The meeting will be devoted to committee work in the development of recommendations on off-road vehicle regulations, grazing regulations, the South Yuba River Recreation Management Plan, the Fresno-San Benito Management Framework Plan and consideration by the full Board of such recommendations.

The meeting will be open to the public. Time will be made available beginning at 8 am on October 27 for brief statements by members of the public; such statements should be limited to matters set forth in the agenda. Those wishing to make oral statements should inform the District manager at the address listed below. Written statements should be filed for the Boards' consideration by submitting them at the meeting or mailing in advance to the Bureau of Land Management at the address listed below.

Further information concerning the meeting may be obtained from Alan P. Thomson, District Manager, Bureau of Land Management, 63 Natoma Street, Folsom, California 95630. Telephone (916) 985-4474.

Minutes of the meeting will be available at the Folsom District Office for public inspection and copying thirty days after the meeting.

ALAN P. THOMSON,
District Manager.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

DR. KENNETH S. NORRIS

Issuance of Permit for Marine Mammals

On July 12, 1976, notice was published in the FEDERAL REGISTER (41 FR 28566), as clarified on August 18, 1976 (41 FR 35008), that an application had been filed with the National Marine Fisheries Service by Dr. Kenneth S. Norris, University of California, Santa Cruz, Santa Cruz, California 95064, for a scientific research permit to take by inadvertent killing up to 340 porpoises, and to take by tagging up to 590 porpoises, and conduct research on the behavior of porpoises in the yellowfin tuna fishery.

It was estimated that porpoises of the following species might be killed during the proposed research:

Spotted dolphin (*Stenella attenuata*)
Spinner dolphin (*Stenella longirostris*)
Common dolphin (*Delphinus delphis*)
Striped dolphin (*Stenella coeruleoalba*)
Bottlenosed dolphin (*Tursiops truncatus*)
Risso's dolphin (*Grampus griseus*)
Short-finned pilot whale (*Globicephala macrorhynchus*)
Rough toother dolphin (*Steno bredanensis*)
Fraser's dolphin (*Lagenodelphis hosei*)
Pygmy killer whale (*Feresa attenuata*)
Melon-headed whale (*Peponocephala electra*)

Notice is hereby given that, on September 27, 1976 and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit for the above described activities to Dr. Kenneth S. Norris, University of California, Santa Cruz, subject to certain conditions set forth herein.

Marine mammals taken as authorized by this Permit will be counted as part of the total number of porpoises which may be taken under quotas prescribed by § 216.24 of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216) which addresses taking and related acts incidental to commercial fishing operations.

This Permit is available for review by interested persons in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street N.W., Washington, D.C.

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731

Dated: September 27, 1976.

JACK W. GEHRINGER,
National Marine Fisheries Service.

[FR Doc.76-29271 Filed 10-5-76;8:45 am]

MYSTIC MARINELIFE AQUARIUM

Receipt of Application for Public Display Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for public display as authorized by the Marine Mammals Protection Act of 1972 (16 U.S.C. 1361-1407), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Mystic Marinelife Aquarium, Mystic, Connecticut 06355, to take five (5) California sea lions (*Zalophus californianus*), three (3) Northern elephant seals (*Mirounga angustirostris*), and two (2) grey seals (*Halichoerus grypus*) for public display.

If available the California sea lions will be chosen from beached or stranded animals nursed back to health by an approved facility.

Otherwise, the animals will be collected by a professional collector by use of hoop or snare nets in areas authorized by the State of California and National Marine Fisheries Service.

The Northern elephant seals will be chosen from beached and stranded stocks held by an approved facility.

The grey seals will be captured by a professional collector in Nova Scotia on Sable Island, the Basque Islands, or the Strait of Canso by means of hoop or seine nets.

The animals will be transported to the Mystic facility by commercial-aircraft and truck.

The requested animals will be housed with other pinnipeds in a new complex consisting of 3 large open pools. Two of the 3 pools, 1600 square feet by 5:5 feet deep and 2250 square feet by 8 feet deep will be used for the requested pinnipeds. Both pools provide a haul-out area of 890 square feet and 1340 square feet, respectively.

In addition there is an enclosed salt water holding pool 100 square feet by 4 feet deep.

The facility is a profit making organization open daily to the public with an estimated 600,000 annual visitors.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above described application have been inspected by a licensed veterinarian, who has certified that such arrangements and facilities are adequate to provide for the well being of the marine mammals involved.

Documents submitted in connection with the above application are available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building 14 Elm Street, Gloucester, Massachusetts 01930.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before November 5, 1976. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: September 30, 1976.

HARVEY M. HUTCHINGS,
Acting Associate, Director for Resource Management, National Fisheries Service.

[FR Doc.76-29269 Filed 10-5-76;8:45 am]

STEVEN L. SWARTZ

Receipt of Application for Scientific Research Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take marine mammals for scientific research as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216).

Mr. Steven L. Swartz, Field Associate, San Diego Society of Natural History, 1592 Sunset Cliffs, San Diego, California 92107, to conduct studies on gray whales (*Eschrichtius robustus*) in San Ignacio Lagoon, Baja California, Mexico.

The study will entail behavioral observations of the gray whale made from a 20 foot tower located near the mouth of the lagoon, observations from various other shore stations and, observations from small rubber boats powered with outboard engines. Included in the observations will be encounters between gray whales and commercial whale-watching boats.

The proposed research is directed toward developing observational techniques for the study of the gray whale in its winter range and provide documentation of encounters between gray whales and commercial whale-watch boats, in addition to collecting data on the distribution and abundance of whales in the lagoon area.

The gray whale (*Eschrichtius robustus*) is on the United States List of Endangered Species. It has been determined that this application is not under the provisions of the Endangered Species Act of 1973 in that the work is to be conducted in the territorial waters of another nation. The Applicant has received a permit from the Government of Mexico to conduct this study.

Documents submitted in connection with this application are available for review in the folowing offices:

Director, National Marine Fisheries Service, 3800 Whitehaven Street, NW., Washington, D.C.

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Interested parties may submit written data or views, or requests for a public hearing on this application to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before November 5, 1976. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: September 28, 1976.

HARVEY M. HUTCHINGS,
Acting Associate Director for Resource Management, National Marine Fisheries Service.

PRIVACY ACT OF 1974

Systems of Records and Notice of Proposed Routine Uses Therefor

Pursuant to the Privacy Act of 1974 (Public Law 93-579) as prescribed in 5 U.S.C. 552a(e)(4), the following new and modified notices of systems of records that are maintained by the Department of Health, Education, and Welfare are published as set forth below. The modification consists of an additional routine use to provide for disclosure to state audit agencies, as specified in the notice. This addition pertains to two sys-

V41 I195 OCT 6 76 UM

tems, namely, Claims Folders and Post-adjudicative Records of Applicants and Beneficiaries for Social Security Administration Benefits HEW SSA, SSA PO RSI 0175.04 and Initial and Continuing Disability Determination File HEW SSA, SSA PO DI 0275.02. These systems are currently ongoing and the additional information in the notices is indicated by italics. In addition, the new notice for Service Officer Demonstration Project HEW SSA, SSA EA IRPC 0176.00 is presented. A new system report was filed for the new system with the Director, Office of Management and Budget, the Speaker of the House, the President of the Senate, and the Chairman of the Privacy Protection Study Commission on August 5, 1976.

Prior to the final adoption of the proposed new and additional routine uses of these notices, consideration in accordance with the requirements of 5 U.S.C. 552a(e)(11) will be given to comments which are submitted in writing on or before November 5, 1976. Comments should be addressed to the Director, Fair Information Practice Staff, Department of Health, Education, and Welfare, 200 Independence Avenue, SW., Washington, D.C. 20201. Comments received will be available for inspection in Room 526E, South Portal Building, at the above address.

Dated: September 30, 1976.

THOMAS S. MCFEE,
Acting Assistant Secretary for Administration and Management.

SSA–PO–DI–0275.02

System name: Initial and Continuing Disability Determination File HEW SSA.

Security class: None.

System location: Each Disability Determination Services office. The name and address for each State is shown in Appendix B.

Categories of individuals covered by the system: Applicants for disability insurance and black lung benefits and applicants for Supplemental Security Income alleging a disability on whom the Disability Determination Services had made an initial determination and all such beneficiaries on whom the Disability Determination Service has made a determination of continuance (or non-continuance) of disability.

Categories of records in the system: Name and social security number of wage earner, claimant's name and address, sex, date of birth, race, marital status, number of children (if applicable), alleged onset date of disability, diagnosis, beginning and ending of prescribed period of disability, quarters of coverage under Social Security Act, basis for determination, vocational background information, number of years in occupation, education level, reexamination date (if applicable), and date of application. Also, name and title of persons making or reviewing the determination, and certain administrative data. These records are snap-out type forms having multiple carbon copies. One of these copies, designated as the "State Agency Copy", is retained by the Disability Determination Service (formerly known as State agencies).

Authority for maintenance of the system: 5 U.S.C. 301, 20 U.S.C. 923(b) Sections 221, 1633, or 1634 of the Social Security Act, and 42 U.S.C. 421, 1833, 1834 under which each State may enter into an agreement with the Secretary of Health, Education, and Welfare to make determinations as to disability with respect to individuals within that State.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disability Determination Services claims personnel utilize the information after the claims file itself has left the possession of the Disability Determination Service for responding to subsequent inquiries from the claimant, a treating physician, or a component of the Social Security Administration.

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

State audit agencies utilize this information for verifying proper expenditure of Federal funds by the State in support of the Disability Determination Service (DDS).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system.

Storage: Carbon copies of Forms SSA–831 and SSA–833 are maintained in sectionalized files.

Retrievability: Filed by social security number or alphabetically by the claimant or beneficiary's name depending on Disability Determination Service preference.

Safeguards (access controls): Assessible only to Disability Determination Service personnel and subject to the restrictions on disclosures under 5 U.S.C. 552(b)(6), 21 U.S.C. 1175, 42 U.S.C. 1306.

Retention and disposal: May vary from State to State according to the preference, but generally each State destroys its files over a period varying from 6 months to 36 months unless held in an inactive storage under security measures for a longer period.

System manager(s) and address: Assistant Regional Commissioner, Disability Insurance, at the address shown in Appendix B.

Notification procedure: Disability determination Services Administrator, Disability Determination Services, c/o State in which the individual resides and/or information is likely to be maintained. See Appendix B. Requester should furnish identifying information: name, social security number, address.

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notification and access procedure are in accordance with Department Regulations (45 CFR, 5b.6) FEDERAL REGISTER, October 8, 1975, page 47411).

Record access procedures: Same as notification procedures. Requesters should also reasonably specify the record contents being sought. (These access procedures are in accordance with Department Regulations (45 CFR, Sec. 5b.5(a)(2)) FEDERAL REGISTER, October 8, 1975, page 47410).

Contesting record procedures: Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR Sec. 5b.7) FEDERAL REGISTER, October 8, 1975, page 47411).

Record source categories: These records summarize information contained in the file folder, which was obtained from the individual or someone acting on the individual's behalf and from the individual's physician, or a physician performing a consultative examination or from hospitals and other treatment sources.

Systems exempted from certain provisions of the act: None.

SSA PO RSI 0175.04

System name: Claims Folders and Post-Adjudicative Records of Applicants and Beneficiaries for Social Security Administration Benefits HEW SSA.

Security class: None.

System location: Retirement and survivors Insurance Claims; Claims folders are maintained primarily in the Retirement and Survivors Insurance Program Service Centers and the Division of International Operations (see Appendix A). Disability Insurance Claims; Bureau of Disability Insurance (see Appendix B) or Division of International Operations (see Appendix A). Black Lung Claims; Bureau of Disability Insurance (see Appendix B). Supplemental Security Income Claims: Claims for benefits based on age—Retirement and Survivors Insurance Program centers (see Appendix A). Claims for Disability or Blind: Benefits—Bureau of Disability Insurance (see Appendix B). In addition, claims folders are transferred to numerous other locations throughout the Social Security Administration, and infrequently may be temporarily transferred to other Federal agencies (Department of Justice, or Office of the General Counsel, Department of Health, Education, and Welfare). The disability claims folders are also transferred to State agencies for disability and vocational rehabilitation determinations (see Appendix B). The claims folders are generally set up in district or branch offices when claims for benefits are filed. They are retained there until all development has been completed, then are transferred to the appropriate reviewing office as set out above. Supplemental security income claims folders are held in district or branch offices pending establishment of a payment record, or until the appeal period, in a denied claim situation, has expired. The folders are then transferred to the reviewing office. For district or

branch office information, see Appendix F.

Categories of individuals covered by the system: Claimants for retirement, survivors, disability, health insurance, or black lung benefits or supplemental security income payments.

Categories of records in the system: The claims folder is established when a claim for benefits is filed. It contains applications for benefits, earnings record information established and maintained by the Social Security Administration, documents supporting factors of entitlement and continuing eligibility, payment documentation, and correspondence to and from claimants and/or representatives. It may also contain data collected as a result of inquiries or complaints; and evaluation and measurement study of effectiveness of claims policies. Separate files may be maintained of certain actions which are entered directly into the computer processes. These relate to report of changes of address, work status, and other post-adjudicative reports.

Authority for maintenance of the system: Payment of benefits is directed by the following sections: Sections 202(a)–(i), 223, 226, 228, and 1611 of the Social Security Act and Section 411 of the Federal Coal Mine and Health Safety Act.

Routine uses of record maintained in the system, including categories of users and the purposes of such uses: Routine uses for disclosure may be to:

a. Third party contacts by the Social Security Administration (without the consent of the individual to whom the information pertains) in situations where the party to be contacted has, or is expected to have, information relating to the individual's capability to manage his affairs or his eligibility for or entitlement to benefits under the social security program when:

(1) The individual is unable to provide the information being sought (an individual is considered to be unable to provide certain types of information when any of the following conditions exist: individual is incapable or of questionable mental capability, cannot read or write, cannot afford the cost of obtaining the information, a language barrier exists, or the custodian of the information will not, as a matter of policy, provide it to the individual), or

(2) The data are needed to establish the validity of evidence or to verify the accuracy of information presented by the individual, and it concerns one or more of the following: the individual's eligibility to benefits under a social security program; the amount of a benefit payment; any case in which the evidence is being reviewed as a result of suspected abuse or fraud, concern for program integrity, or for quality appraisal, or evaluation and measurement system activities.

b. Third party contacts by the Social Security Administration where necessary to establish or verify information provided by representatives payees or payee applicants.

c. A person (or persons) on the rolls when a claim is filed by an individual which is adverse to the person on the rolls; that is:

(1) An award of benefits to a new claimant precludes an award to a prior claimant; or

(2) An award of benefits to a new claimant will reduce the benefit payments to the individual(s) on the rolls; only for information concerning the facts relevant to the interests of each party in a claim.

d. Employers or former employers for correcting or reconstructing earnings records and for social security tax purposes only.

e. The Treasury Department for collecting social security taxes or as otherwise pertinent to tax and benefit payment provisions of the Social Security Act, (including social security number verification services), for investigating alleged theft, forgery, or unlawful negotiation of social security checks, and for purposes of garnishment to provide child support or alimony in accordance with a properly executed garnishment action in accordance with 47 U.S.C. 659.

f. The United States Postal Service for investigating alleged forgery or theft of social security checks.

g. The Department of Justice for investigating and prosecuting violations of the Social Security Act to which criminal penalties attach, for representing the Secretary, and for investigating issues of fraud by agency officers or employees, or violation of civil rights.

h. The Department of State and the Veterans' Administration Regional Office Phillippines for administering provisions of the Social Security Act in foreign countries through facilities and services of those agencies.

i. The Railroad Retirement Board for administering provisions of the Railroad Retirement and Social Security Act relating to railroad employment.

j. The Veterans' Administration for the purpose of administering 38 U.S.C. 412 (special payments to certain survivors of uninsured persons who die after 1956 while on active duty, active duty for training, or inactive duty training, or who die after 1956 due to a service-connected disability incurred after September 15, 1940).

k. The Department of Labor for administering provisions of Title IV of the Federal Coal Mine Health and Safety Act.

l. The Bureau of Census when it performs as a collecting agent or data processor for research and statistical purposes directly relating to the Social Security Act.

m. The Department of the Treasury, Office of Tax Analysis, for studying the effects of income taxes and taxes on earnings.

n. The Civil Service Commission for study of the relationship of civil service annuities to minimum social security benefits, and the effects on the trust fund.

o. State social security administrators for administration of agreements pursuant to section 218 (State and local).

p. State Welfare Departments for administering Sections 205(c)(2)(B)(i)(II) and 402(a)(25) of the Social Security Act requiring information about assigned social security numbers for Aid to Families with Dependent Children program purposes only.

q. State Welfare Department pursuant to agreements with the Social Security Administration for administration of State supplementation payments, for determinations of eligibility for Medicaid per section 1634, for enrollment of welfare recipients for medical insurance under Section 1843 of the Social Security Act, and for conducting independent quality assurance reviews of supplemental security income recipient records, provided that the agreement for Federal administration of the supplementation provides for such an independent review.

r. State Vocational Rehabilitation agencies for rehabilitation services.

s. State audit agencies for auditing State supplementation payments and Medicaid eligibility considerations.

t. Professional Standards Review Organizations (PSRO) and State Licensing Boards for review of unethical practices or nonprofessional conduct as provided in section 1165.

u. Providers and suppliers of services directly or dealing through fiscal intermediaries or carriers for administation of provisions of title XVIII.

v. Private medical and vocational consultants for use in making preparation for, or evaluating the results of, consultative medical examinations or vocational assessments which they were engaged to perform by the Social Security Administration or a State agency acting in accord with sections 221 or 1633.

w. Energy Resources Development Administration for their study of the long-term effects of low-level radiation exposure.

x. Specified business and other community members and Federal, State, and local agencies for verification of eligibility for benefits under section 1631(e).

y. Institutions or facilities approved for treatment of drug addicts or alcoholics as a condition of the individual's eligibility for payment under section 1611e and as authorized by regulations issued by the Special Action Office for Drug Abuse Prevention.

z. Contractors under contract to the Social Security Administration for the performance of research and statistical activities directly relating to the Social Security Act.

aa. Applicants, claimants, prospective applicants or claimants, other than the data subject, their authorized representatives or representative payees to the extent necessary to pursue social security claims and receive and account for benefit payments.

bb. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of the individual.

cc. State audit agencies for verifying proper expenditures of Federal funds by the State in support of the Disability Determination Service (DDS).

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

V41N195 OCT 6 76 UM

Storage: Claims folders are maintained in file cabinets by service area as set out in Location above.

Retrievability: Filed in numerical sequence by social security number. The folders are used throughout the Social Security Administration for the purposes of determining, organizing, and maintaining documents for making normal determination as to eligibility to benefits, the amount of benefits, reviewing containing documents for making normal administrative review processes, and to ensure that proper adjustments are made based on events affecting entitlement. The folder may be referred to State Disability Determination Sections or Vocational Rehabilitation Agencies in disability cases. They may also be used for quality review, evaluation, and measurement studies, and other statistical and research purposes.

The claims folder constitutes the basic record for payments and determinations under the Social Security Act and the Federal Coal Mine Health and Safety Act (black lung). Data are used to produce and maintain the master beneficiary record system (see Systems Notice) which is the automated payment system for retirement, survivors, and disability benefits; the supplemental security income automated system for the aged, blind, and disabled payments; the black lung payment process for black lung claims; and the Health Insurance and Billing and Collection Master record system for Hospital and supplementary medical (medicare) insurance benefits.

This paper file is controlled by the Social Security Administration Claims Control System while the claim is pending development for adjudication in the district or branch office, and by the Case Control System once the folder has been transferred to the reviewing office (program centers. Division of International Operations, or the Bureau of Disability Insurance).

Safeguards (access controls): Claims folders are protected through limited access to Social Security Administration records, limited employee access to need to know. All employees are instructed in Social Security Administration confidentiality rules as a part of their initial orientation training.

Retention and disposal: The claims folder is maintained in the reviewing office until the social security number becomes inactive (no one is entitled to benefits). It is then transferred for storage to the Federal Archives and Records Center to await destruction based on predetermined destruction dates; 5-year retention-no record of surviving potential beneficiaries; 20-year retention-withdrawn claims, claims disallowed or lump-sum death payments only; and 55-year retention-potential future claimants indicated in the file. When a subsequent claim is filed on the social security number the claim is recalled from the Records Center. Similarly, the claims files may be recalled from the Records Center at any time by the Social Security Administration as necessary in the administration of the social security programs.

System manager(s) and address (include ZIP Code):

Director, Bureau of Retirement and Survivors Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.
Director, Bureau of Supplemental Security Income, 6401 Security Boulevard, Baltimore, Maryland 21235.
Director, Bureau of Disability Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.
Director, Bureau of Health Insurance, 6401 Security Boulevard, Baltimore, Maryland 21235.

Notification procedure: Contact the most convenient social security office (see Appendix F for address and telephone information).

An individual who requests notification of or access to a medical record shall, at the time the request is made, designate in writing a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion. (These notifications and access procedures are in accordance with Department Regulations (45 CFR, 5b.6) FEDERAL REGISTER, October 8, 1975, page 47410).

Record access procedures: In order to find out if this system contains information about him, an individual may contact the most convenient social security office in person or in writing. The inquirer should provide his name, social security number, identify the type of claim he filed (retirement, survivors, disability, health insurance, black lung, special minimum payments, or supplemental security income) (if more than one claim was filed, each should be identified); whether he is or has been receiving benefits; whether payments are being received under his own social security number, and if not, the name and social security number under which received; if benefits have not been received, the approximate date and the place the claim was filed; and his return address or his telephone number.

Contesting record procedures: If upon review of the record, the individual wishes to contest any part of it, he may do so at the same office where he accessed the record. Contact the official at the address specified under notification procedures above, and reasonably identify the record and specify the information to be contested. (These procedures are in accordance with Department Regulations (45 CFR, Sec. 5b.7 FEDERAL REGISTER, October 8, 1975, page 47411).

Record source categories: This information is obtained from the claimants, accumulated by the Social Security Administration from reports of employers or self-employed individuals, various local, State, and Federal agencies, claimant representatives and other sources to support factors of entitlement and continuing eligibilities.

Systems exempted from certain provisions of the Act: None.

SSA EA IRPC 0176.00

System name: Service Officer Demonstration project—HEW, SSA.

Security class (if none, so state): None.

System location: Service Officers' offices, Boston, Massachusetts; Atlanta, Georgia; Seattle, Washington; Dallas, Texas.

Office of the contractor, name and address not yet determined.

Categories of individuals covered by the system: Members of the public who contact the Service Officers about their social security related problems or complaints or who call to ask questions about social security.

Categories of records in the system: Detailed record of contact, relevant information assembled by the Service Officer, survey questionnaires administered to persons contacting the Service Officers and to eligible persons who don't use their services.

Authority for maintenance of the system: Section 205(a), Social Security Act (42USC405(a)).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Records maintained by the Service officer will be used to document contacts, and resulting follow-up activities by the Service Officer in regards to these contacts. A contractor will conduct surveys of probability samples of users, non-users, etc. The survey data collected will be for statistical reasons. Also, the contractor will process Service Officer generated forms for historical data, statistical and sampling purposes. Therefore, routine disclosure will be made to the contractor.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Service Officer generated forms, survey questionnaires, computer tape and cards.

Retrievability: By name and/or social security number, date of contact with Service Officer.

Safeguards (access controls): The records are subject to the same rules and safeguards as all other records created and maintained by SSA. Information collected by the Service Officers can be made available to SSA personnel on a need-to-know basis. All personnel having access to records will be notified of criminal sanctions for unauthorized disclosure on individuals. The contractor will delete identifying information from statistical data tapes. Statistical survey information collected by the contractor will in no way influence a person's entitlement to present or future benefits. The contractor will permit authorized personnel to have access to the data.

Retention and disposal: If a claims folder exists for an individual, duplicates of any Service Officer generated records for that person will be put into his or her claims folder. In all other instances, information containing a personal identifier which may be retained by the Service Officer will be destroyed at the conclusion of the demonstration period.

System manager(s) and address (include zip code):

Director, Office of Intergovernmental Relations and Public Concerns, Office of External Affairs, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235.

Notification procedure: For purposes of notification, write the systems manager: He will need name, social security number and date of contact with the Service Officer, and compliance with regulations on verification of identity. Furnishing the social security number is voluntary but it will make searching for the individual's record easier and avoid delay.

Record access procedures: Same as notification procedure in item 11.

Contesting record procedures: Same as notification procedure in item 11.

Record source categories: The Master Beneficiary Record, the Supplemental Security Income Record, persons contacting the Service Officer, collateral sources, statistical surveys, as well as claims folders and other records maintained by SSA Program Service Centers, District Offices, and other SSA components.

Systems exempted from certain provisions of the act (if none, so state): None.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-365]

MISSOURI

Emergency Declaration and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on September 24, 1976, the President declared an emergency as follows:

I have determined that the impact of a drought on the State of Missouri is of sufficient severity and magnitude to warrant a declaration of an emergency under Pub. L. 93-288. I therefore declare that such an emergency exists in the State of Missouri. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Francis X. Tobin, FDAA Region VII, to act as the Federal Coordinating Officer for this declared emergency.

I do hereby determine the following areas to have been adversely affected by this declared emergency:

The Counties of:

Adair	Knox
Andrew	Laclede
Audrain	Lafayette
Bates	Lincoln
Benton	Linn
Boone	Livingston
Buchanan	Macon
Butler	Maries
Caldwell	Marion
Calloway	Miller
Camden	Moniteau
Carroll	Monroe
Cass	Montgomery
Chariton	Morgan
Clark	Nodaway
Clay	Osage
Clinton	Pettis
Cole	Phelps
Cooper	Pike
Crawford	Platte
Dallas	Pulaski
Daviess	Ralls
De Kalb	Randolph
Dent	Ray
Franklin	St. Charles
Gasconade	St. Clair
Gentry	St. Louis
Grundy	Saline
Harrison	Schuyler
Henry	Shannon
Hickory	Shelby
Howard	Warren
Jackson	Washington
Jefferson	Worth
Johnson	Wright

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: September 24, 1976.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[OST Docket No. 36; Notice 76-12]

BOARD FOR CORRECTION OF MILITARY RECORDS OF THE COAST GUARD

Delegation of Authority of the Chairman

Pending the designation of an acting Chairman or until further notice, the Executive Secretary of the Department of Transportation Board for Correction of Military Records of the Coast Guard is hereby delegated authority to exercise the functions of the Chairman of the Board.

Effective date. This delegation is effective October 1, 1976.

(10 U.S.C. 1552; (49 U.S.C. 1655(b).)

Issued in Washington, D.C., on October 1, 1976.

WILLIAM T. COLEMAN, Jr.,
Secretary of Transportation.

CIVIL AERONAUTICS BOARD

[Dockets 24582 and 29132]

ALLEGHENY AIRLINES, INC. AND PIEDMONT AVIATION, INC.

Order Consolidating and Setting Applications for Hearing in Accordance With Subpart M Procedures

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of September, 1976.

On April 21, 1975, Allegheny Airlines, Inc. filed a revised application,[1] pursuant to Subpart M of the Board's Rules of Practice, requesting an amendment of its certificate of public convenience and necessity for Route 97 so as to permit the carrier to provide, on a subsidy-ineligible basis, nonstop service between Cincinnati, Ohio, and Washington, D.C.[2] By Order 76-3-105, March 16, 1976, the Board set Allegheny's application for further proceedings pursuant to the provisions of Subpart M.

Answers in support of Allegheny's application have been filed by the Philadelphia, Parties[3] and the Cincinnati Parties.[4] Answers in opposition to Allegheny's application have been filed by American Airlines, Trans World Airlines, and Piedmont Aviation. American, Allegheny, and the Cincinnati Parties have filed replies to the answers.

On April 12, 1976, Piedmont filed an application (Docket 29132) requesting amendment of its certificate of public convenience and necessity for Route 87 so as to authorize it to engage in nonstop air transportation between Washington and Cincinnati, and a motion to consolidate that application with Allegheny's application in Docket 24582. An answer in support of Piedmont's application has been filed by the Norfolk Port and Industrial Authority. American and Allegheny have filed answers in opposition to Piedmont's application and motion to consolidate, and Piedmont has filed a consolidated reply to those answers.

Upon consideration of the pleadings and all the relevant facts, the Board has determined that Allegheny's application should be set for hearing under the procedures prescribed by Subpart M, and that the application of Piedmont in Docket 29132 should be consolidated with Allegheny's application in Docket 24582.

[1] Allegheny originally filed for the authority in issue on June 30, 1972. Further procedural steps with respect to that application were stayed pursuant to Order 72-7-46, July 14, 1972. Allegheny's revised application was filed in response to Order 75-3-14, March 6, 1975.

[2] Allegheny's current Cincinnati-Washington authority is subject to a one-stop restriction. Allegheny's certificate does, however, permit nonstop service between Cincinnati and Baltimore, and Allegheny currently provides such service.

[3] The City of Philadelphia and the Greater Philadelphia Chamber of Commerce.

[4] The City of Cincinnati, the Greater Cincinnati Chamber of Commerce, and the Kenton County Airport Board.

V41N195 OCT 6 76 UM

As Allegheny has not submitted sufficient information for us to determine the environmental consequences of its application, we will require Allegheny to file the information set forth in Part 312 of the Board's Procedural Regulations within 25 days of the date of adoption of this order.

Accordingly, it is ordered That: 1. The application of Allegheny Airlines in Docket 24582 be and it hereby is set for hearing before an administrative law judge of the Board at a time and place to be hereinafter designated, as the orderly administration of the Board's docket permits;

2. The motion of Piedmont Aviation to consolidate its application in Docket 29132 with Allegheny Airlines' application in Docket 24582 be and it hereby is granted; and

3. Allegheny Airlines shall file an environmental evaluation pursuant to section 312.12 of the Board's Procedural Regulations within 25 days of adoption of this order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-29311 Filed 10-5-76;8:45 am]

[Docket 29666; Order 76-10-3]

BRITISH AIRWAYS

Transatlantic Specific Commodity Rates

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 1st day of October, 1976.

By tariff revisions filed September 3, 1976, for effectiveness October 3, 1976, British Airways proposes reduced rates for specific commodity item no. 4316 (data processing equipment) from New York to London and Glasgow. The rates, at 94 cents per kilogram, would apply to shipments with a minimum weight of 2,000 kgs. In justification for its filing, British Airways asserts that these rates are necessary to prevent diversion of U.S.-U.K. shipments to indirect routings via continental European points using New York-Paris and New York-Frankfurt high-weightbreak (34,000 and 42,500 kgs.) freight-all-kinds (FAK) rates with a surface backhaul to the U.K.

A complaint requesting suspension pending investigation of the rates has been filed by Seaboard World Airlines, Inc. (Seaboard). Seaboard alleges that computer equipment is a high value commodity which does not require reduced rates to attract more air traffic; that the proposed 2,000 kg. rates reflect a six-percent reduction from existing 1,000-kg. rates for this item, and are unreasonably low compared to rates for similar high-value commodities; that the proposed rates are clearly uneconomic based on a New York-London yield of 24.7 cents per revenue ton-mile (rtm) compared to Seaboard's transatlantic costs of 25.4 cents per rtm for the first quarter, 1976; that comparing the proposed commodity rates with the existing FAK rates is unrealistic since the former are for loose cargo while the latter are container rates and require a minimum density of 10 lbs/cu.ft.; and that, as Seaboard can best determine based on surface rate data available to it in its New York offices, the proposed rates would undercut the combination of U.S.-Europe FAK rates plus Europe-U.K. surface rates they are purported to match.

Upon consideration of all relevant matters, the Board finds that the complaint does not set forth sufficient facts to warrant investigation of the proposal, and consequently the request for suspension will be denied and the complaint dismissed.

It does not appear unlikely that shipments of U.S.-U.K. data processing equipment are subject to diversion via third countries using a surface backhaul, considering the volume in which this commodity moves; the disparity between the current item 4316 specific commodity rate ($1.00 pr kg., New York-London/Glasgow) and the high-weightbreak FAK rates (71.79 to 73.89 cents per kg., New York to Paris or Frankfurt and other German points); and the availability of significant all-cargo capacity, including B747-F equipment, to France and Germany. Seaboard has not presented sufficient evidence to refute British Airways' contention that such diversion is, in fact occuring.[1] In presenting an example of a FAK/surface rate combination which Seaboard alleges would be greater than the proposed commodity rate, the carrier has relied solely on a combination over Frankfurt, although the New York-Paris FAK rates are lower than the New York-Frankfurt FAK rates (71.79 versus 73.70 cents per kg. at 42,500 kgs., for example). Because Paris is considerably closer to London than is Frankfurt, the Paris-London surface rate would also be lower than the Frankfurt-London surface rate, and thus Paris would be the more logical combination point. We note further that Cologne and Dusseldorf, which are also closer to London than is Frankfurt and hence presumably take a lesser surface rate to London, are common-rated with Frankfurt for the FAK rates from New York.

As to the reasonableness of the proposed rate levels *per se*, we note that in its analysis of British Airways' 94 cents-per-kg. proposal Seaboard relies solely on the resulting yield as it applies to New York-London but ignores the proposed New York-Glasgow yield of 26.6 cents per rtm which is over seven percent higher and compares favorably with Seaboard's stated cost of 25.4 cents per rtm. British Airways indicates that Glasgow is th primary destination point, not London. Seaboard also compares the proposed rates with the FAK rates which, as noted, are container rates for very high weightbreaks and presumably reflect cost savings not available under the 2,000 kg. bulk commodity rates proposed by British Airways. Were this a case where the filing carrier was simply attempting to match a container rate with a commodity rate which did not reflect the same cost savings, we would be inclined to view the matter in a different light. However, the reasonableness of the FAK rates is currently under investigation and as indicated above there is a likelihood of diversion of U.S.-U.K. traffic via circuitous third country routings; in these circumstances we are reluctant to deny British Airways the opportunity to compete for this U.S.-U.K. traffic. At the same time, the Board expects that in the future all carriers making allegations about diversion of traffic via third country routings will be more forthcoming with accurate, verifiable data on all surface and/or air rates involved in the alleged combinations.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404 and 1002 thereof,

It is ordered that: The complaint of Seaboard World Airlines, Inc., in Docket 29666 be and hereby is dismissed.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-29312 Filed 10-5-76;8:45 am]

[Docket 28744]

CONTINENTAL AIR LINES, INC.

Segment 3, Route 29 Service

Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on November 16, 1976, at 9:30 am (local time), in the City Council Chambers, City Administration Office, 1301 Sixth Street, Wichita Falls, Texas, before the undersigned administrative law judge.

For information concerning the issues involved and other details in this proceeding, interested persons are referred to the prehearing conference report served on August 17, 1976, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., September 30, 1976.

FRANK M. WHITING,
Administrative Law Judge.

[FR Doc.76-29310 Filed 10-5-76;8:45 am]

[Docket 21950; Order 76-9-163]

UNITED AIR LINES, INC.

Intercarrier Discussion Authority; Order Extending Discussion Authority and Amending Requirements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of September, 1976.

[1] Additionally, to the extent that diversion via France or Germany occurs, Seaboard would not necessarily be aware of it since shipments consigned to the shipper's own agent or to a forwarder in France or Germany would be on-forwarded to London after having passed out of Seaboard's control.

[5] Piedmont has submitted an environmental evaluation for its proposed service in its answer to Allegheny's application.

On August 14, 1976, Congress enacted the *Department of Transportation and Related Agencies Act of 1977*.[1] Section 318 of that Act states:

> Such funds as may be necessary shall be utilized from the appropriations hereinabove made available to the Federal Aviation Administration and to the Civil Aeronautics Board for the preparation of a plan to coordinate as promptly as possible the use of Midway Airport with O'Hare Airport in Chicago, Illinois, for service by airline carriers in order to relieve air traffic congestion and to promote air safety in that area.

Intercarrier discussions regarding the expansion of service at Midway Airport were first authorized by the Board by Order 70-4-40, dated April 8, 1970. Initially, the participants to these discussions were limited to those carriers serving O'Hare Airport (although those carriers serving Chicago only through Midway Airport were permitted to attend as observers), and the scope of the discussions was limited to the proposed transfer of flights from O'Hare to Midway. At the time, the Board found that these discussions were in the public interest in that increased service to Midway would increase the convenience of air travel for a substantial portion of Chicago's local and connecting market and might also alleviate crowded conditions at O'Hare. Moreover, it was concluded that it was unlikely that these desirable results could come from unilateral carrier action.

Pursuant to the above authorization, an agreement was reached whereby the number of daily departures at Midway was increased from 38 to 83 in September of 1970. Although the Board approved this agreement (see Order 70-7-123, dated July 27, 1970), it expressed concern that substantially more flights had not been transferred to Midway and indicated that the carriers had a responsibility in the public interest to increase Midway frequency levels further.

By Order 72-10-85, dated October 26, 1972, the Board authorized a reopening of the Midway discussions and in so doing broadened the basis for these discussions to include the discussion of a "clean-slate" of flights into and out of Midway, as well as the transfer of existing flights from O'Hare. In these discussions, the Board permitted the carriers to disclose traffic data regarding operations at both Midway and O'Hare, including connecting passenger information. However, the Board prohibited discussions aimed at precluding or limiting service at Midway or any other airport.

Thereafter, by Order 73-7-11, dated July 5, 1973, the Midway discussion authority was broadened to include matters dealing with possible limitations on the quantity of service offered at O'Hare as a means of enhancing the pattern of service operated at Midway Airport.[2] However, the carriers were unsuccessful in formulating a scheme aimed at increasing scheduled activity at Midway Airport. Indeed, the economic conditions facing the airline industry in general and the fuel situation at that time, in particular, caused a decrease in the number of scheduled departures at Midway to a level well below that which existed when the discussions first began.[3]

On February 27, 1976, United Air Lines, Inc. (United), petitioned for issuance of an order authorizing the reopening of intercarrier discussions concerning the expansion of service at Midway Airport among those carriers presently serving Chicago through Midway and/or O'Hare International Airports. In its petition, United advised the Board that the Mayor of Chicago recently met with representatives of all the scheduled carriers authorized to serve Chicago and requested that they attempt once again to expand service and schedules at Midway.

In view of the foregoing, United requested that an order be issued authorizing a reopening of the Midway Airport discussions for a period of 90 days. Consistent with the Board's prior authorizations in this regard, United asked that all scheduled carriers authorized to serve Chicago be permitted to participate; that these carriers be permitted to disclose traffic data concerning operations at both Midway and O'Hare, including connecting passenger information; and that the authority permit discussion aimed at producing a workable inter-connecting flight system at Midway, including possible limitations on the quantity of service offered at O'Hare as a means of enhancing the pattern of service operated at Midway Airport.

By Order 76-4-6, dated April 1, 1976, the Board authorized a reopening of intercarrier discussions regarding the expansion of service at Midway Airport for a 90-day period. Subsequently, by Order 76-7-7, dated July 2, 1976, the authority to hold discussions was extended for an additional 90-day period.

Pursuant to this authorization the carriers have held several meetings and United has advised that they have reached general agreement on the following points: (1) the schedules operated in the 1972–1974 period were, with a few exceptions, not profitable; (2) if the 1972–1974 schedules were to be resumed immediately, they would probably be less successful than they were originally; (3) no carrier has information that would induce it to provide Midway schedules in the near term; (4) Midway must be served relatively soon if the airport is to be available for future needs; (5) a Midway schedule pattern must make sense to the carriers and to their customers so that some success, and thus service stability, can be achieved; (6) Midway schedules should be based primarily on local traffic destined to and from Chicago—connecting business may develop but it will not be significant to the design of the basic pattern; and (7) little information about Chicago airport preferences is available and thus, the inducements required to shift present travelers from O'Hare to Midway and the resulting percentage of customers who would be expected to use Midway flights are unknown.

In an effort to shed some light on the latter point, the City of Chicago, through its consultant, and the carriers have undertaken an economic study, the objective of which is a determination of whether sufficient numbers of passengers who now use O'Hare would use Midway and under what circumstances. Within this broad objective, the carriers hope that a definition of passenger motivations, needs, wants, expectations and travel patterns can be determined. The carriers have agreed that a three-phase investigation is in order. It is expected that the initial phase of the study will be completed by September 22, with accomplishment of all phases by December 1, 1976. By the latter date, then, the carriers should have sufficient data on which to base a decision regarding the transfer of flights to Midway.

It appears to the Board that the long-term success of any transfer of flights from O'Hare to Midway must be based upon economic incentives. One of the major problems in the transfer of operations from O'Hare to Midway is the passenger preference for the wide variety of connecting services available at O'Hare. It is these connecting passengers who, along with local traffic, combine to permit economic operations. Without this larger volume of connecting passengers, the economic results of scheduled service at O'Hare would deteriorate. The carriers and the community now apparently recognize this fact and are actively seeking to identify and quantify the economic incentives involved. Therefore, we believe the present carrier discussions hold forth the best opportunity to achieve a long-term solution to the O'Hare-Midway problem.

On the other hand, Congress has expressed its concern with the overall O'Hare-Midway situation and has directed the Board to prepare a plan to coordinate, as promptly as possible, the carrier use of Midway with O'Hare in order to relieve air traffic congestion and to promote air safety in that area. The carriers now feel that they will have by December 1, 1976, the information necessary to make a decision regarding the transfer of flights to Midway. However, assuming the answer is affirmative, a further period of time will be necessary before a plan can actually evolve. Accordingly, upon consideration of all relevant facts, it is concluded that an extension of the instant authority to hold discussions is in the public interest, and it will therefore be extended through January 14, 1977, subject generally to the conditions imposed in previous orders. We shall, in addition, require special reports apprising the Board of the carriers' actions on the matter.

Accordingly, it is ordered that: 1. Authority to engage in intercarrier discussions concerning service to Midway Airport be and it hereby is granted, subject to the following conditions:

[1] Pub. L. 94-387.

[2] The Board indicated, however, that any discussions of flight limitations at O'Hare should deal only with aggregate movements and should not focus on any particular markets or segments.

[3] At the present time Delta Air Lines is the only scheduled carrier providing service at Midway Airport. During the second quarter of 1976, Delta performed 157 of 158 scheduled departures.

V41I195 OCT 76 UM

(a) Participation in these discussions shall be open to all scheduled air carriers authorized to serve Chicago;

(b) This authorization shall not be construed to include any discussions of rates, fares, charges, or in-flight or other services offered in connection with air transportation;

(c) The authority granted herein shall not be construed as authorizing discussion of any limitation upon services which may be offered at Midway or any other airport at Chicago or elsewhere;

(d) The Civil Aeronautics Board, the Mayor of the City of Chicago, representatives of the Department of Aviation of the City of Chicago and the Chicago Association of Commerce and Industry, and representatives of any other government agency or person expressing an interest shall be permitted to attend the discussions as observers;

(e) The discussions shall be held in Washington, D.C., or Chicago, Ill., and a notice of each meeting shall be served on all parties eligible to participate therein and on those persons named in (d) above, at least 7 calendar days prior to such meeting;

(f) The air carrier participants in these discussions shall file with the Board's Docket Section:

i. Within 14 days after the close of each meeting, including meetings of any special committees or groups, three copies of transcripts of the meetings (copies of the transcripts shall be made available promptly for purchase by the persons named in (d) above); and

ii. By November 3 and December 3, 1976, and January 5, 1977, three copies of a statement outlining as of the end of the previous month the status of the three-phase investigation, the carriers' conclusions on the data produced by the study, the timetable for such future actions as are contemplated, and a summary of any other pertinent information;

(g) Any agreement reached as a result of these discussions shall be filed with the Board for prior approval under § 412 of the Federal Aviation Act, and a copy thereof shall be served on the parties to the discussions and on those persons named in (d) above; and

(h) The relief granted herein shall expire on January 14, 1977;

2. Copies of this order shall be served on all scheduled carriers authorized to serve the City of Chicago, the Mayor of the City of Chicago, the Department of Aviation of the City of Chicago, and the United States Departments of Transportation and Justice, the Federal Aviation Administration, the United States Postal Service, and the Bureau of Customs;

3. The authority granted herein may be revoked or modified at any time by the Board without notice of hearing;

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[1]

PHYLLIS T. KAYLOR,
Secretary.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA-1550-D]

HIGH PERFORMANCE FUEL LABORATORY, HANFORD RESERVATION, RICHLAND, WASHINGTON

Availability of Draft Environmental Statement

Notice is hereby given that the Energy Research and Development Administration (ERDA) has issued the Draft Environmental Statement, ERDA-1550-D, High Performance Fuel Laboratory (HPFL), Hanford Reservation, Benton County, Richland, Washington, pursuant to ERDA's implementation of the National Environmental Policy Act of 1969. The statement was prepared in support of the project which has been included in the ERDA Fiscal Year 1977 Appropriations Act. The statement addresses the potential environmental impacts associated with the construction and operation of the HPFL which will be a pilot scale facility used to support the fuels development effort in the liquid metal fast breeder reactor program.

Copies of the draft environmental statement have been distributed for review and comment to appropriate Federal, Washington State and local agencies and organizations and individuals who are known to have an interest in the project. Copies of the statement are available for public inspection in the ERDA public document rooms at:

ERDA Headquarters, 20 Massachusetts Avenue, NW., Washington, D.C.
Albuquerque Operations Office, Kirtland Air Force Base East, Albuquerque, New Mexico.
Chicago Operations Office, 9800 South Cass Avenue, Argonne, Illinois.
Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho.
Nevada Operations Office, 2753 South Highland Drive, Las Vegas, Nevada.
Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee.
Richland Operations Office, Federal Building, Richland, Washington.
San Francisco Operations Office, 1333 Broadway, Oakland, California.
Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

Comments and views concerning the draft environmental statement are requested from other interested agencies, organizations and individuals. Single copies of the statement will be furnished for review and comment upon request addressed to W. H. Pennington, Director, Office of NEPA Coordination, Mail Station E-201, Energy Research and Development Administration, Washington, D.C., 20545, (301) 353-4241. Comments should be sent to the same address.

In accordance with the guidelines of the Council on Environmental Quality, those submitting comments on the draft environmental statement should endeavor to make their comments as specific, substantive, and factual as possible without undue attention to matters of form in the impact statement. However, it would assist in the review of comments if the comments were organized in a manner consistent with the structure of the draft environmental statement. Emphasis should be placed specifically on the assessment of the environmental impacts of the proposed project, and the acceptability of those impacts on the quality of the environment, particularly as contrasted with the impacts of reasonable alternatives to the proposed action. Commenting entities may recommend modifications and/or new alternatives that will enhance environmental quality and avoid or minimize adverse environmental impacts.

Copies of comments received on the draft environmental statement will be placed in the above referenced public document rooms for inspection and will be considered in the preparation of the final environmental statement if received on or before December 6, 1976.

Dated at Germantown, Md., this 30th day of September 1976.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,
Assistant Administrator for Environment and Safety.

FARM CREDIT ADMINISTRATION

[Farm Credit Administration Order No. 795]

SECRETARY TO THE GOVERNOR, SECRETARY AND LEGAL ASSISTANT, AND SECRETARY

Delegation of Authority to Authenticate Documents, Certify Official Records, and Affix Seal

SEPTEMBER 30, 1976.

1. Helen E. McWilliams, Secretary to the Governor, P. Patricia Bonnefond, Secretary, and Legal Assistant, and Barbara V. Mitchell, Secretary, severally and not jointly, are authorized and empowered:

(a) To execute and issue under the seal of the Farm Credit Administration, statements (1) authenticating copies of, or excerpts from, official records and files of the Farm Credit Administration; (2) certifying, on the basis of the records of the Farm Credit Administration, the effective periods of regulations, orders, instructions, and regulatory announcements; and (3) certifying, on the basis of the records of the Farm Credit Administration, the appointment, qualification, and continuance in office of any officer or employee of the Farm Credit Administration, or any conservator or receiver acting under the supervision or direction of the Farm Credit Administration.

(b) To sign official documents and to affix the seal of the Farm Credit Administration thereon for the purpose of attesting the signatures of officials of the Farm Credit Administration.

2. The provisions of this order shall be effective October 1, 1976, and on that date shall supersede Farm Credit Administration Order No. 786, dated May 2, 1975, 40 FR 19873.

W. M. HARDING,
Governor,
Farm Credit Administration.

FEDERAL ENERGY ADMINISTRATION

ENERGY CONSERVATION CONTINGENCY PLANS

Emergency Boiler Combustion Efficiency Requirements Plan; Negative Determination of Environmental Impact

The Federal action considered is the submittal of an energy conservation contingency plan for potential implementation during a severe energy supply interruption. This plan is submitted to Congress for approval as authorized under Title II, Part A, section 201 and 202 of the Energy Policy and Conservation Act, 42 U.S.C. 6261, 6262.

The Emergency Boiler Combustion Efficiency Requirements Plan requires boiler owners with boilers of a specific size to operate within FEA standards of combustion efficiency.

Based upon the environmental assessment of the impact that would result from implementation of this plan during a severe energy supply interruption, the Federal Energy Administration (FEA) has determined that this action will not be a "major Federal action significantly affecting the quality of the human environment" (Section 102(2)(C), National Environmental Policy Act, 42, U.S.C. 4332(2)(C)).

Single copies of the environmental assessment of the energy conservation contingency plan are available upon request from the FEA Office of Communications and Public Affairs, Room 2134, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the environmental assessment will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessment to Executive Communications, Box IU, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment—Emergency Boiler Combustion Efficiency Requirements Plan." Fifteen copies should be submitted. All comments should be received by FEA by October 27, 1976, in order to receive full consideration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., September 30, 1976.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Administration.

[FR Doc.76-29243 Filed 10-1-76;9:30 am]

ENERGY CONSERVATION CONTINGENCY PLANS

Emergency Commuter Parking Management and Carpooling Incentives Plan; Negative Determination of Environmental Impact

The Federal action considered is the submittal of an energy conservation contingency plan for potential implementation during a severe energy supply interruption. This plan is submitted to Congress for approval as authorized under Title II, Part A, sections 201 and 202 of the Energy Policy and Conservation Act, 42 U.S.C. 6261, 6262.

The Emergency Commuter Parking Management and Carpooling Incentives Plan restricts and curtails the available inventory of parking spaces for commuter vehicles and thereby discourages the use of single occupancy vehicles for commuter travel. This measure, directed at both commercial and employer provided parking, is expected to cause a decrease in total commuter vehicle miles traveled.

Based upon the environmental assessment of the impact that would result from implementation of this plan during a severe energy supply interruption, the Federal Energy Administration (FEA) has determined that this action will not be a "major Federal action significantly affecting the quality of the human environment" (Section 102(2)(C), National Environmental Policy Act, 42 U.S.C. 4332(2)(C)).

Single copies of the environmental assessment on the energy conservation contingency plan are available upon request from the FEA Office of Communications and Public Affairs, Room 2134, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the environmental assessment will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessment to Executive Communications, Box IW, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Emergency Commuter Parking Management and Carpooling Incentives Plan." Fifteen copies should be submitted. All comments should be received by FEA by October 27, 1976, in order to receive full consideration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

Issued in Washington, D.C., September 30, 1976.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Administration.

[FR Doc.76-29246 Filed 10-1-76;9:30 am]

ENERGY CONSERVATION CONTINGENCY PLANS

Emergency Heating, Cooling, and Hot Water Restrictions Plan; Negative Determination of Environmental Impact

The Federal action considered is the submittal of an energy conservation contingency plan for potential implementation during a severe energy supply interruption. This plan is submitted to Congress for approval as authorized under Title II, Part A, sections 201 and 202 of the Energy Policy and Conservation Act, 42 U.S.C. 6261, 6262.

The Emergency Heating, Cooling, and Hot Water Restrictions Plan requires public, commercial, and industrial building owner/operators to: (1) maintain thermostats for heating at no higher than 65° F and for cooling at no lower than 80° F and (2) maintain thermostats at no higher than 105° F for heated water used for personal consumption.

Based upon the environmental assessment of the impact that would result from implementation of this plan during a severe energy supply interruption, the Federal Energy Administration (FEA)

V41 I195 OCT 6 76 UMI

has determined that this action will not be a "major Federal action significantly affecting the quality of the human environment" (Section 102(2)(C), National Environmental Policy Act, 42, U.S.C. 4332(2)(C)).

Single copies of the environmental assessment on the Emergency Heating, Cooling, and Hot Water Restrictions Plan are available upon request from the FEA Office of Communications and Public Affairs, Room 2134, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the environmental assessment will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessment to Executive Communications, Box IX, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment, Emergency Heating, Cooling, and Hot Water Restrictions Plan." Fifteen copies should be submitted. All comments should be received by FEA by October 27, 1976, in order to receive full consideration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to that determination.

MICHAEL F. BUTLER,
General Counsel,
Federal Energy Administration.

[FR Doc.76-29245 Filed 10-1-76;9:30 am]

ENERGY CONSERVATION CONTINGENCY PLANS

Emergency Restrictions on Illuminated Advertising and Certain Gas Lighting Plan; Negative Determination of Environmental Impact

The Federal action considered is the submittal of an energy conservation contingency plan for potential implementation during a severe energy supply interruption. This plan is submitted to Congress for approval as authorized under Title II, Part A, section 201 and 202 of the Energy Policy and Conservation Act, 42 U.S.C. 6261, 6262.

The Emergency Restrictions on Illuminated Advertising and Certain Gas Lighting Plan provides for various restrictions on the use of natural gas for outdoor lighting and the use of natural gas or electricity for illumination of advertising signs and window displays.

Based upon the environmental assessment of the impact that would result from implementation of this plan during a severe energy supply interruption, the Federal Energy Administration (FEA) has determined that this action will not be a "major Federal action significantly affecting the quality of the human environment" (Section 102(2)(C), National Environmental Policy Act, 42 U.S.C. 4332(2)(C)).

Single copies of the environmental assessment on the energy conservation contingency plan are available upon request from the FEA Office of Communications and Public Affairs, Room 2134, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461. Copies of the environmental assessment will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessment to Executive Communications, Box IT, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment, Emergency Restrictions on Illuminated Advertising and Certain Gas Lighting Plan." ENERGY CONSERVATION CONTINGENCY PLANS

Emergency Weekend Gasoline and Diesel Fuel Retail Distribution Restrictions Plan; Negative Determination of Environmental Impact

The Federal action considered is the submittal of an energy conservation contingency plan for potential implementation during a severe energy supply interruption. This plan is submitted to Congress for approval as authorized under Title II, Part A, section 201 and 202 of the Energy Policy and Conservation Act, 42 U.S.C. 6261, 6262.

The Emergency Weekend Gasoline and Diesel Fuel Retail Distribution Restrictions Plan provides for restrictions on the sale of gasoline and diesel fuel on weekends during hours to be specified by FEA at the time of implementation. Commercial and emergency vehicles are exempt from this restriction.

Based upon the environmental assessment of the impact that would result from implementation of this plan during a severe energy supply interruption, the Federal Energy Administration (FEA) has determined that this action will not be a "major Federal action significantly affecting the quality of the human environment" (Section 102 (2)(C), National Environmental Policy Act, 42 U.S.C. 4332(2)(C)).

Single copies of the environmental assessment on the energy conservation contingency plan are available upon request from the FEA Office of Communications and Public Affairs, Room 2134, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461. Copies of the environmental assessment will also be available for public review in the FEA Information Access Reading Room, Room 2107, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, between 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays.

Interested persons are invited to submit data, views or arguments with respect to the environmental assessment to Executive Communications, Box IV, Room 3309, Federal Energy Administration, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461.

Comments should be identified on the outside of the envelope and on documents submitted to FEA Executive Communications with the designation, "Environmental Assessment—Emergency Weekend Gasoline and Diesel Fuel Retail Distribution Restrictions Plan." FEDERAL MARITIME COMMISSION

MOORE-MCCORMACK LINES, INC. AND PRUDENTIAL LINES, INC.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, NY., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before October 26, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Hubert F. Carr, Vice President, Secretary & General Counsel, Moore-McCormack Lines, Incorporated, Two Broadway, New York, New York 10004.

Agreement No. 10263, between Moore-McCormack Lines, Incorporated (Moore-mac) and Prudential Lines, Inc. (PLI), is an agency agreement whereby Moore-mac appoints PLI to act as its agent in the States of California, Washington, Oregon, Idaho, Nevada, New Mexico, Montana and Utah and the Canadian Province of British Columbia on the terms and conditions and to the extent set forth therein.

Dated: October 1, 1976.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-29326 Filed 10-5-76;8:45 am]

MED-GULF CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before October 26, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Stanley O. Sher, Esquire, Billig, Sher & Jones, P.C., Suite 300, 2033 K Street, NW., Washington, D.C. 20006.

Agreement No. 9522-28, among the members of the above-named conference modifies the basic agreement by abolishing the present rate committee covering Puerto Rican traffic. It further establishes two (2) separate Puerto Rican rate committees—one from Spanish ports, including ports north of Portugal, and the other, from ports in the balance of the agreement's European geographic scope. It further clarifies the scope of several advisory committees and deletes one advisory committee.

Dated: October 1, 1976.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP76-526]

EL PASO NATURAL GAS CO.

Application

SEPTEMBER 29, 1976.

Take notice that on September 17, 1976, El Paso Natural Gas Company (Applicant), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP76-526 an application pursuant to Section 7(c) of the Natural Gas Act and § 157.7(b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1977, and operation of gas-purchase facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to enable Applicant to act with reasonable dispatch in constructing facilities to connect the facilities of an independent producer or other similar seller, authorized to make a sale for resale of natural gas in interstate commerce, with the system of Applicant or the system of another natural gas company authorized to transport natural gas for the account of or exchange natural gas with Applicant.

Applicant states that the total cost of construction of all facilities would not exceed $5,000,000 and that no single project would exceed a cost of $1,250,000. It is stated that the projects would be financed from internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in ac-

V41I195 OCT 6 76 UMI

cordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. ER76-404 and ER76-658]

IOWA POWER & LIGHT CO.

Tariff Change

SEPTEMBER 28, 1976.

Take notice that Iowa Power and Light Company, on September 13, 1976, tendered for filing proposed changes in its FPC Electric Service Tariff, Volume No. IV, Rate No. 811, for jurisdictional sales and service to the cities of Carlisle and Neola, Iowa, incorporating a revised Energy Cost Adjustment which eliminates the accrual of a reserve established for paying costs of replacement power for power purchased from the Nebraska Public Power District's Cooper Nuclear Station. The Company has requested that the Commission waive its normal 30-day notice requirement and allow this tariff change to be accepted for filing, and to be suspended until September 20, 1976, when it shall become effective subject to refund under the same terms and conditions as set forth in the Commission's Order Accepting For Filing and Suspending Proposed Rates issued July 15, 1976, in this docket.

Copies of the filing were served upon the public utility's jurisdictional customers and the Iowa State Commerce Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 12, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29366 Filed 10-5-76;8:45 am]

[Docket No. ES76-80]

IOWA PUBLIC SERVICE CO.

Application

SEPTEMBER 28, 1976.

Take notice that on September 22, 1976, Iowa Public Service Company (Applicant) filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of up to 55,000 shares of Common Stock (par value $5 per share) in connection with the operation of the Employees' Stock Ownership Plan of Iowa Public Service Company and Participating Subsidiaries (the "Plan") and the related Employees' Stock Ownership Trust of Iowa Public Service Company and Participating Subsidiaries (the "Trust").

Applicant is incorporated under the laws of the State of Iowa, with its principal business office in Sioux City, Iowa, and is engaged in the electric utility business in northwestern, north central and east central Iowa and a few small communities in South Dakota.

Under the Plan, the Company and its Participating Subsidiaries will, in each calendar year, contribute cash or common stock of the Company having an aggregate value equal to 1% of the amount of their investment in property for which investment tax credit has been claimed by the Company and its subsidiaries that adopt the Plan (the "Participating Subsidiaries") in their consolidated Federal income tax return for that year. Such cash and common stock will be held in trust under the Trust for the benefit of employees of the Company and its Participating Subsidiaries who are qualified to participate in the Plan. Generally, each employee who has been employed at least three years and who is at least twenty-five years of age, automatically participates in the Plan. Cash contributed under the Plan is to be primarily invested in common stock of the Company and it is intended that such common stock will be newly issued shares. However, the Company presently anticipates that it will ordinarily contribute common stock rather than cash to the Plan. In addition, cash dividends paid on the common stock of the Company held in the Trust, in excess at certain expenses of the Trust, will be reinvested in additional shares of the common stock of the Company. Such additional shares will also be newly issued shares.

It is anticipated that the operation of the Plan through 1977 will require the issuance of up to 55,000 shares of authorized but unissued common stock of the Company. Under the Plan, the value of each share of common stock contributed to the Plan, or purchased by the Trust from the Company with the proceeds of cash contributions, will be an amount equal to the average of closing prices of the Company's common stock on the New York Stock Exchange for the twenty consecutive trading days immediately preceding the date such stock is transferred to the Trust. Other purchases by the Trust of the Company's common stock, for example, from the proceeds of cash dividends received, must be made at fair market value. It is anticipated that such purchases will be made from the Company from an amount equal to the average of the high and low sales prices for the Company's common stock on the New York Stock Exchange on the day the purchase is made (or the next preceding day on which the New York Stock Exchange is open, if it is closed on that day) or, if no trading occurs in the Company's common stock on such day, an amount equal to the average of the reported bid and asked prices for the Company's common stock on such day.

Applicant proposes to use the proceeds from the issuance of the Common Stock to secure funds for construction purposes and to meet expenditures for its construction program and for other corporate purposes.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 12, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ES76-79]

PACIFIC POWER & LIGHT CO.

Application

SEPTEMBER 28, 1976.

Take notice that on September 21, 1976, Pacific Power & Light Company (Applicant), a Maine corporation, qualified to transact business in the states of Oregon, Wyoming, Washington, California, Montana and Idaho, with its principal business office at Portland, Oregon, filed an application with the Federal Power Commission, pursuant to Section 204 of the Federal Power Act, seeking an order authorizing it to issue not to exceed $50,000,000 in aggregate principal amount of its First Mortgage Bonds (New Bonds).

The New Bonds are to be issued under and pursuant to Applicant's presently existing Mortgage and Deed of Trust, dated as of July 1, 1947, to Morgan Guaranty Trust Company of New York and R. E. Sparrow, as Trustees, as previously supplemented by thirty supplemental indentures and as proposed to be supplemented by a Supplemental Indenture. The New Bonds will bear interest from December 1, 1976, at a rate per annum to be fixed and will mature on such date or dates as may be determined by Applicant's Board of Directors.

Applicant proposes to sell the New Bonds at competitive bidding in accordance with the applicable requirements of § 34.1a of the Commission's Regulations.

Net proceeds from the issuance and sale of the New Bonds will be used to repay short-term notes prior to or as they mature and to finance, in part, Applicant's construction program.

Any person desiring to be heard or to make any protest with reference to said application should, on or before October 21, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. E-8882, ER76-381 and ER 76-687]

PUBLIC SERVICE COMPANY OF COLORADO

Filing of Settlement Agreement and Motion for Approval Thereof

SEPTEMBER 27, 1976.

Take notice that on September 13, 1976, the Public Service Company of Colorado (PSCC) tendered for filing a Stipulation and Agreement of Settlement in the above-referenced dockets, and a motion for Commission approval thereof. PSCC states that approval of the Agreement would dispose of all issues raised in these dockets in their entirety.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 8, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29369 Filed 10-5-76;8:45 am]

[Docket No. RP73-92 (PGA76-4)]

RATON NATURAL GAS CO.

Change in Rates

SEPTEMBER 29, 1976.

Take notice that Ration Natural Gas Company (Raton) on September 20, 1976, tendered for filing, proposed changes in its FPC Gas Tariff, Volume No. 1, consisting of Twelfth Revised Sheet No. 3a. The change in rates is for jurisdictional Gas Service.

Raton states that the instant notice of change in rates is occasioned solely by, and will compensate Raton only for, increases in the cost of gas purchased from Colorado Interstate Gas Company (CIG). The tracking of CIG gas cost increase of $0.23 per MCF of Demand and 8.57¢ per MCF of Commodity results in increased rates to $1.36 per MCF Demand and 80.19¢ per MCF Commodity. The annual revenue increase by reason of the tracking amounts to $115,326.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29364 Filed 10-5-76;8:45 am]

[Docket No. E-9568]

ST. JOSEPH LIGHT & POWER CO.

Audit of Books

HISTORY OF THE CASE

SEPTEMBER 29, 1976.

By letter dated April 15, 1970, the St. Joseph Light and Power Company of Missouri was notified by the Chief Accountant of the Federal Power Commission that the Division of Audits intended to begin an examination of the books and records of the Company on or about May 4, 1970.

The Company responded in a letter dated April 24, 1970, stating that it did "not acknowledge authority for any regulation of these public utility operations by the Federal Power Commission." Adopting the opinion of its counsel, the Company maintained that it was not a "public utility" under the Federal Power Act.

The Company made its disclaimer at that time on the basis of the following assertions:

(1) That it owned no property outside of the State of Missouri and did business solely within such state;

(2) That it made no sales at wholesale for resale either inside or outside the State of Missouri;

(3) That the company was not a member of any power pool;

(4) That the company purchased no firm power from other suppliers, either inside or outside the State of Missouri; and

(5) That no question of wholesale contracts or rates was involved.

An in house review has revealed the following:

1. St. Joseph does not make sales of electric energy for resale to any municipal systems or distribution cooperatives, it does however exchange electricity with interconnected utilities.

2. St. Joseph maintains several direct interconnections with utilities in adjacent states, including one with Omaha Public Power District (OPPD) at the Missouri-Nebraska boundary at 345kv. In its 1975 FPC Form No. 12 St. Joseph reports that it delivered to Omaha Public Power District (Omaha) 158,734,000 kwh and received from Omaha 1,009,686,000 kwh across the state line.

3. St. Joseph has indirect interconnections with other states through its interconnections within the state of Missouri.

4. St. Joseph filed rate schedules or certificates of concurrence to rate schedules filed by others, covering energy transactions at the various interconnections it maintains.[1]

The Company has not submitted to an FPC audit to date and has been advised once again, by a letter dated April 1, 1976, that the Commission intends to conduct an examination of its books and records. In its response of April 7, 1976, the Company continues to claim nonjurisdictional status. We are aware of no significant change in St. Joseph's operating structure occurring since 1970.

JURISDICTION UNDER SECTION 201(b)

Section 201(b) of the Federal Power Act grants jurisdiction to the FPC over "the transmission of electric energy in interstate commerce * * * and the sale of electric energy at wholesale in interstate commerce * * *" Utilities subject to our jurisdiction are required to comply with the rules and regulations of the Federal Power Commission, including the obliga-

[1] See Supplement No. 11 to St. Joseph FPC Rate Schedule No. 12, filed 9/2/76, concurred in by Iowa Power and Light Company.

V41195 OCT 6 76 UM

tion to submit to periodic audits of their books and records.

As we indicated earlier, St. Joseph has several direct interconnections with utilites in other states. It is clearly engaged in the transmission and sale of electric energy in interstate commerce. *Florida Power & Light*, 404 U.S. 453 (1972), affirmed this Commission's position that our jurisdiction extends to utilities even indirectly interconnected with utilities in other states. Our jurisdiction over utilities directly interconnected across state boundaries is well established. The Supreme Court discusses this point in *Florida Power & Light*, supra:

If FP&L were directly involved in power exchanges with Georgia, there would be no serious question about the resolution of this case. Section 201 of the Federal Power Act owes its origin to the determination of this Court that a direct transfer of power from a utility in Rhode Island to a utility in Massachusetts is in interstate commerce. See *Public Utilities Commission* v. *Attleboro Steam & Electric Co.* 273 U.S. 83, 475 ct. 294, 71 L. Ed. 549(1947). 'Part II [of the Act] is a direct result of Attleboro.' [Citation omitted] There can be no doubt whether § 201 achieves its end and fills the 'Attleboro gap' by giving the FPC jurisdiction over direct exchanges. [citation omitted] *Florida Power & Light*, supra at 458.

St. Joseph has maintained that it is an intrastate operation and should not be subject to federal regulation, yet the legislative history of the Federal Power Act shows that Congress anticipated that "federal accounting requirements would apply to utilities predominantly engaged in local business subject to state regulation." *Florida Power & Light Company*, 37 FPC 544, 555 (1967). Furthermore, our jurisdiction does not depend upon the actual volume flowing in interstate commerce, *Connecticut Light and Power Company* v. *Federal Power Commission*, 324 U.S. 515, 535–536 (1945), though a considerable amount of electric energy must pass between states over St. Joseph's numerous direct interconnections. The foundation for our assertion of jurisdiction could hardly rest on firmer grounds.

The Commission finds: (1) St. Joseph Light and Power Company is a public utility within the meaning of section 201 of the Federal Power Act, subject to the jurisdiction of the Commission.

(2) In view of the foregoing, it is necessary and appropriate for the purposes of the administration of the Federal Power Act, particularly section 201 and 301 thereof, that St. Joseph Light and Power Company be directed to produce all accounts, records of cost accounting procedures, correspondence, memoranda, papers, books and other records as the Commission's Rules and Regulations may prescribe as necessary and appropriate for the audit of St. Joseph Light and Power Company's public utility operations.

The Commission orders: (A) Pursuant to sections 201, 301 and 307 of the Federal Power Act, we command the St. Joseph Light and Power Company, that all business and excuses being laid aside, that you produce at your corporate headquarters at St. Joseph, Missouri, for examination by the Staff of the Federal Power Commission the following described books, papers, documents and tangible things on or before November 23, 1976.

All accounts, records of cost accounting procedures, correspondence, memoranda, papers, books and other records which are germane to an audit of the original cost of plant to December 31, 1975.

(B) And all other accounts, correspondence, memoranda, papers, books and other records in your custody or power relevant to the audit. And for failure to produce the aforesaid documents the Commission will invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the production of books, papers, correspondence, memoranda, contracts, agreements, and other records.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29340 Filed 10-5-76;8:45 am]

[Docket No. CP76-521]

TEXAS GAS TRANSMISSION CORP.

Application

SEPTEMBER 29, 1976.

Take notice that on September 15, 1976, Texas Gas Transmission Corporation (Applicant), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP76-521 an application pursuant to Section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of natural gas for The Anaconda Company, Aluminum Division (Anaconda), an existing industrial customer of Louisville Gas and Electric Company (Louisville), one of Applicant's resale customers, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to transport for two years on an interruptible basis up to 100 Mcf of gas per day and up to 36,500 Mcf on an annual basis for Anaconda. It is stated that Anaconda has entered into a contract with Par Oil Corporation (Par) for the purchase of natural gas for $1.50 per Mcf at 15.025 psia for the first contract year and an additional 3.0 cents for the second contract year, such gas to be produced from certain leasehold interests presently owned or controlled by Par in Athens Field, Claiborne Parish, Louisiana. The gas, it is shown, would be delivered to Applicant at an existing meter station near the site of Block Valve No. 1 on Applicant's Sharon-Carthage 20-inch pipeline in Claiborne Parish, Louisiana, and Applicant would redeliver up to 100 Mcf per day to its existing point or points of delivery with Louisville for the account of Anaconda.

Applicant maintains that in no event would it be obligated to deliver on any day an aggregate amount of more than the contract demand of 239,706 Mcf of gas through all points of delivery of Applicant to Louisville. It is stated that Louisville has agreed to accept up to 100 Mcf per day to be transported and delivered by Applicant to Louisville for the account of Anaconda.

Applicant proposes to charge 18.37 cents per Mcf at 14.73 psia for the transportation service and would retain 9.0 percent of the volumes received for compressor fuel and line loss makeup.

Applicant states that since the volumes to be transported under this and any similar transportation agreements with customers of distributors, when added to any volumes being transported for the distributors themselves and the distribution customers' scheduled daily deliveries, would not exceed the contract entitlement of the distributors from Applicant, there exists sufficient pipeline capacity to perform the service on a peak day, average day, and annual basis. Further, it is indicated that the proposed transportation service would have no impact on Applicant's ability to provide systemwide deliveries for Priority 1 markets.

Applicant maintains that, as advised by Par, if the subject natural gas is not sold to Anaconda, it would be sold to an intrastate pipeline or to a direct consumer located in Louisiana, and therefore Applicant does not consider the subject natural gas to be available to it for purchase.

Applicant states that the gas to be transported as described herein would be used as fuel at Anaconda's Louisville Laminating Plant, which supplies laminated foil lining and packaging material for food packaging and oil and frozen juice containers. Applicant maintains that Anaconda has spent $50,000 in a research effort to develop technology for the conversion to a fuel oil but to date has had no success.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in acordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29362 Filed 10-5-76;8:45 am]

[Docket No. ES76-73]

UTAH POWER & LIGHT CO.

Application

SEPTEMBER 29, 1976.

Take notice that on September 23, 1976 Utah Power & Light Company (Applicant) filed an application with the Federal Power Commission seeking an order pursuant to Section 204 and any other applicable Section of the Federal Power Act authorizing the Company, without competitive bidding, to issue and pledge not more than $50,000,000 in principal amount of its First Mortgage Bonds pursuant to proposed financial arrangements with Emery County, Utah (County), whereby (1) the County will issue and sell not more than $50,000,000 in principal amount of its Revenue Bonds, pursuant to negotiations with underwriters who will reoffer the Revenue Bonds to the public, (2) the County will lease from the Company certain pollution control facilities being installed at two of the Company's steam electric generating units now under construction in the County for a rental equal to the proceeds from the sale of the Revenue Bonds, (3) the County will sublease the pollution control facilities to the Company for subrentals sufficient to pay the principal of, and premium, if any, and interest on, the Revenue Bonds and incidental expenses, and (4) the Company will issue and pledge to the trustee under the indenture pursuant to which the Revenue Bonds are proposed to be issued a new series of its First Mortgage Bonds in principal amount equal to the principal amount of, and having terms parallel to, the Revenue Bonds.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 18, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

LEGAL SERVICES CORPORATION

EVERGREEN LEGAL SERVICES

Grants and Contracts

SEPTEMBER 30, 1976.

The Legal Services Corporation was established pursuant to the Legal Services Corporation Act of 1974, Pub. L. 93-355, 88 Stat. 378, 42 U.S.C. 2996-2996*l*. Section 1007(f) provides: "At least thirty days prior to the approval of any grant application or prior to entering into a contract or prior to the initiation of any other project, the Corporation shall announce publicly, and shall notify the Governor and the State Bar Association of any State where legal assistance will thereby be initiated, of such grant, contract, or project • • •."

The Legal Services Corporation hereby announces publicly that it is considering the application for grant submitted by Evergreen Legal Services of Seattle, Washington.

Additional information may be obtained by writing the Legal Services Corporation, 733 Fifteenth Street, NW., Suite 700, Washington, D.C. 20005.

THOMAS EHRLICH,
President.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 76-87]

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON AERODYNAMICS AND CONFIGURATIONS

Meeting

The NASA Research and Technology Advisory Council Committee on Aerodynamics and Configurations will meet on October 27-29, 1976, at the NASA Dryden

V41 1995 OCT 6 76 UM

Flight Research Center, Edwards, California, 93523. The meeting will be held in Conference Room 2090 of Building 4800. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 25 persons. All visitors must report to the Dryden Flight Research Center Receptionist in Building 4800.

The NASA Research and Technology Advisory Council Committee on Aerodynamics and Configurations serves in an advisory capacity only. There are 17 members. The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact Mr. William S. Aiken, Jr., Area Code 202, 755–2400.

OCTOBER 27, 1976

Time	Topic
9:00 a.m.	Report of the chairman (purpose: to summarize action taken at the July 1976 meeting of the Research and Technology Advisory Council).
9:30 a.m.	Report of the executive secretary (purpose: to brief the committee on recent or proposed changes in NASA organization and in pertinent aeronautics programs).
10:30 a.m.	Ground effect test techniques (purpose: to describe methods of determining the effect of the ground on the aerodynamics of aircraft configurations and typical recent results).
12:30 p.m.	Tour of Dryden Flight Research Center Hangar (purpose: to view the flight hardware referred to in presentations during the meeting).
1:30 p.m.	Status of Highly-Maneuverable Aircraft Technology (HiMAT) and other Remotely-Piloted Vehicle (RPV) programs (purpose: to summarize plans for and results from RPV programs including HiMAT, Firebee II, and the oblique wing).
2:45 p.m.	Correlation of wind-tunnel model and flight-test results (purpose: to inform the committee of recent results indicating the capability of predicting full-scale flight characteristics from wind-tunnel model tests).
3:45 p.m.	Proposed program for Comprehensive Aerodynamic Prediction of Aircraft (CAPAIR) (purpose: to summarize a plan to integrate theoretical and experimental capabilities and provide accurate and complete predictions of aircraft aerodynamics for industry and government users).
4:10 p.m.	Report on Advanced Medium STOL Transport (AMST) and Quiet Short-Haul Research Aircraft (QSRA) programs (purpose: to brief the committee on recent developments in the AMST and QSRA programs).

OCTOBER 28, 1976

Time	Topic
8:30 a.m.	Airframe/Propulsion System Integration program review (purpose: to inform the committee of progress on recently-initiated integration programs including that on two-dimensional, axisymmetric nozzles).
9:50 a.m.	Summary of Proposed Missile Aerodynamics program (purpose: to bring the committee up to date on plans to expand the missile aerodynamic program at the Langley Research Center).
10:30 a.m.	Discussion of NASA Center written reports (purpose: to provide elaboration on items included in the previously-distributed written reports on pertinent aeronautical research areas prepared by the Ames, Langley, and Lewis Research Centers).
12:30 p.m.	Visit to Air Force Advanced Medium STOL Transport (AMST) Hangars (purpose: to examine aircraft being tested in the AMST program).
1:30 p.m.	Member reports on items of interest (purpose: to provide elaboration on items included in the previously-distributed written reports provided by individual members of the committee).
3:15 p.m.	Working group sessions on basic technology, Conventional Take-off and Landing (CTOL), and Vertical and Short Take-off and Landing (V/STOL) aircraft (purpose: to develop draft position statements and recommendations pertaining to the focus and scope of the technical programs reviewed earlier).

OCTOBER 29, 1976

Time	Topic
9:00 a.m.	Committee review of working group reports (purpose: to review inputs from the three working groups and prepare final position statements and recommendations for consideration by the NASA Research and Technology Advisory Council).
10:45 a.m.	Discussion of agenda items for the next meeting (purpose: to obtain and discuss members' suggestions for potential agenda for the next meeting).
11:30 a.m.	Adjournment.

SEPTEMBER 30, 1976.

JOHN M. COULTER,
Acting Assistant Administrator for DOD and Interagency Affairs National Aeronautics and Space Administration.

[FR Doc.76-29264 Filed 10-5-76;8:46 am]

[Notice (76-86)]

RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON SPACE PROPULSION & POWER

Meeting

The NASA Research and Technology Advisory Council Committee on Space Propulsion and Power will meet October 27 and 28, 1976, at the Jet Propulsion Laboratory, 4800 Oak Grove Drive, Pasadena, California. The meeting will be held in Room 186–128. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room which is about 25 persons. All visitors must register at the reception desk in Room 186–128.

The NASA Research and Technology Advisory Council Committee on Space Propulsion and Power serves in an advisory capacity only. There are 16 members on this Committee. The following list sets forth the approved agenda and schedule for the October 27–28, 1976, meeting of the Committee on Space Propulsion and Power. For further information, please contact Mr. James Lazar, Area Code 202, 755–3280.

OCTOBER 27, 1976

Time	Topic
8:30 a.m.	Opening remarks (purpose: to welcome members and discuss agenda).
8:45 a.m.	Status of solar electric propulsion development program and auxiliary electric propulsion flight experiment (purpose: to brief committee members on NASA's decision concerning the development of solar electric propulsion including phase A study efforts planned for fiscal year 1977 and to brief committee members on the status of a space experiment to flight test an auxiliary electric propulsion system).
9:30 a.m.	Solar sailing review (purpose: to brief committee members on the potential applications of solar sailing for solar system exploration missions and to brief committee members on the status of solar sailing technology).

Time	Topic
10:15 a.m.	Space storable propulsion systems technology program review (purpose: to brief committee members on the space storable propulsion systems technology program).
11:00 a.m.	Advanced solid propulsion and pyrotechnic technology program review (purpose: to brief committee members on the advanced solid propulsion and pyrotechnic technology program).
1:00 p.m.	NASA thermionic research and technology program review (purpose: to brief committee members on the NASA thermionics research and technology program).
2:15 p.m.	NASA nickel cadmium battery program review (purpose: to brief committee members on the NASA nickel cadmium battery program).
3:00 p.m.	Office of aeronautics and space technology's preliminary space propulsion and power program goals and objectives review (purpose: to brief committee members on the goals and objectives of the space propulsion and power program and the implications of these goals and objectives).

OCTOBER 28, 1976

Time	Topic
8:30 p.m.	Preliminary space propulsion and power program goals and objectives review (continued).
9:30 a.m.	Discussion of major issues and preliminary space propulsion and power program goals and objectives (purpose: to establish committee positions on major issues and to establish committee positions on the preliminary goals and objectives of the space propulsion and power program).
12:00 noon	Plans for next meeting (purpose: to set a date and place for the next committee meeting and to discuss possible agenda items).
12:30 p.m.	Adjournment.

JOHN M. COULTER,
Acting Assistant Administrator for DOD and Interagency Affairs, National Aeronautics and Space, Administration.

SEPTEMBER 29, 1976.

NATIONAL ENDOWMENT FOR THE ARTS AND THE HUMANITIES

ADVISORY COMMITTEE RESEARCH GRANTS PANEL

Meeting

SEPTEMBER 29, 1976.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463) notice is hereby given that a meeting of the Research Grants Panel will be held at 806 15th Street NW., Washington, D.C. 20506, in room 1130, from 9 a.m. to 5:30 p.m. on October 21, 1976.

The purpose of the meeting is to review General Research applications in the field of State, Local and Regional History submitted to the National Endowment for the Humanities for projects beginning after April 1, 1977.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call area code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR SENSORY PHYSIOLOGY AND PERCEPTION

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, the National Scence Foundation announces the following meeting:

Name: Advisory Panel for Sensory Physiology and Perception.
Date and Time: October 25 and 26, 1976; 9 am–5 pm each day.
Place: National Science Foundation, 1800 G Street NW, Washington, D.C., Room 338.
Type of meeting: Closed.
Contact Person: Dr. Terrence R. Dolan, Program Director for Sensory Physiology and Perception, Room 320, National Science Foundation, Washington, D.C., Telephone: (202) 634–1624.
Purpose of Panel: To provide advice and recommendations concerning support for research in sensory physiology and perception.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close Meeting: This determination was made by the Committee pursuant to provisions of section 10(d) of Pub. L. 92–463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

SEPTEMBER 30, 1976.

FEDERAL SCIENTIFIC AND TECHNICAL INFORMATION MANAGERS

Meeting

The next meeting of the Federal Scientific and Technical Information Managers will be held on Wednesday, October 27, 1976, from 9:30 am–12 noon, at the National Science Foundation, 1800 G Street, NW., Conference Room 543. The theme of this meeting will be the "Programs of U.S. National Commissions in the Information Area: Any Relevance for Improving Federal STI Operations?"

V41 I195 O76 76 UMI

These meetings, sponsored by the National Science Foundation, provide a forum for the interchange of information concerning common problems and coordination in the areas of Federal scientific and technical information and communications.

These meetings are designed solely for the benefit of Federal employees and officers, and do not fall under the provisions of the Federal Advisory Committee Act (Pub. L. 92–463). However, this meeting is believed to be of sufficient importance and interest to the public to be announced in the FEDERAL REGISTER.

Any persons wishing to attend this meeting or requiring further information should notify Mr. Andrew A. Aines, Division of Science Information, National Science Foundation, 1800 G Street, NW., Washington, DC 20550, telephone: (202) 632–5836.

LEE G. BURCHINAL,
Director,
Division of Science Information.

SMALL BUSINESS ADMINISTRATION

[License No. 02/02–0317]

BOHLEN CAPITAL CORP.

Issuance of License To Operate as a Small Business Investment Company

On August 25, 1976, a Notice of Application for a license as a Small Business Investment Company was published in the FEDERAL REGISTER (41 FR 35912) stating that an Application had been filed with the Small Business Administration (SBA) pursuant to §107.102 of the Regulations governing small business investment companies (13 CFR 107.102 (1976)) for a license as a small business investment company by Bohlen Capital Corporation, 30 East 42nd Street, New York, New York 10017.

Interested parties were given until the close of business September 9, 1976, to submit their comments to SBA. No comments were received.

Notice is hereby given that, pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended, after having considered the application and all other pertinent information and the facts with regard thereto, SBA on September 24, 1976, issued License No. 02/02–0317 to Bohlen Capital Corporation to operate as a Small Business Investment Company.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: September 27, 1976.

GERALD L. FEIGEN,
Acting Deputy Associate
Administrator for Investment.

[Declaration of Disaster Loan Area No. 1276]

CALIFORNIA

Declaration of Disaster Area

As a result of the President's declaration, I find that Imperial and Riverside counties, and adjacent counties within the State of California, constitute a disaster area because of damage resulting from severe storms and flooding beginning on September 10, 1976. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on November 22, 1976, and for economic injury until the close of business on June 21, 1977, at:

Small Business Administration, District Office, 350 S. Figueroa Street, 6th Floor, Los Angeles, California 90071.
Small Business Administration, 880 Front Street, Federal Building Room 4–S–33, San Diego, California 92188.

or other locally announced locations.

Dated: September 27, 1976.

LOUIS F. LAUN,
Acting Administrator.

VETERANS ADMINISTRATION

ADVISORY COMMITTEE ON CEMETERIES AND MEMORIALS

Meeting

The Veterans Administration gives notice that a meeting of the Administrator's Advisory Committee on Cemeteries and Memorials, authorized by section 1001, title 38, United States Code, will be held at Union Center Plaza, Room 9517, 941 North Capitol Street, NE., Washington, DC, on October 29, 1976, at 10 a.m. The meeting will be open to the public.

Those wishing to attend should contact Mrs. Charlotte Withers in the office of the Director, National Cemetery System, Veterans Administration Central Office, 810 Vermont Avenue, NW., Washington, DC 20420 (phone 202–389–5211) not later than October 28, 1976. Any interested person may attend, appear before, or file a statement with the committee. Individuals wishing to make oral statements should please indicate this in a letter to Mrs. Withers in which they fully identify themselves and state the organization or association they represent or are speaking for. Written statements should be filed with Mrs. Withers at the Washington address prior to the meeting. Oral statements will be heard only between 3 pm and 4 pm on October 29, 1976.

Dated: September 30, 1976.

R. L. ROUDEBUSH,
Administrator.

[FR Doc.76–29305 Filed 10–5–76;8:45 am]

DEPARTMENT OF LABOR

Employment and Training Administration

JOB CORPS CENTER, GLENMONT, N.Y.

Decision Not To Issue Environmental Impact Statement

Notice is hereby given that pursuant to the Code of Federal Regulations, Title 40, Chapter V, Part 1500 the Department of Labor has determined that an environmental impact statement is not required in order to establish a Job Corps Center at Our Lady of Angels Seminary in Glenmont, New York. Reasons for this determination are set forth below.

The proposed New York Job Corps Center will be a training center with residential and educational facilities for 275 disadvanted young men and women, ages 16 through 21 who need and can benefit from intensive employment related services. The function of the center and the staff of approximately 100 will be to provide skill training in selected vocational courses and continuing and/or remedial education in academic subjects.

The center will be a self-contained facility on a ridge on the westerly slope of the Valley of the Hudson River, approximately four miles from Albany. The facility consists of approximately 11 buildings constructed on concrete and steel with brick exterior walls. The campus is located on a 240 acre wooded tract, next to a commerical area, with no more than 14 families living within four miles of the grounds.

The proposed Job Corps Center at Our Lady of Angels is not one of "major Federal actions significantly affecting the quality of the human environment" within the meaning of § 1500.6(c). The intended purpose is the same as the use of the site by the previous occupants, specifically residential living and instruction in an educational institution.

Sewage facilities are planned to include the installation of an aeration tank and establishment of a settlement area. Provision will be made for chlorination of the effluent. Effluent will be discharged into a basin.

Two wells on the property more than adequately meet the volume requirements and standards for water supply. A third well, chemically treated, will be used as a back-up.

Noise will not be a factor since the center will be located in brick buildings off a highway in an isolated area on 244 acres with abundant trees.

Furthermore, the center will be operated in compliance with 29 CFR 97a.116, the standard Job Corps procedures on environmental health, which include:

(a) Center Directors adhere to Federal, State and local regulations concerning environmental health. Routine environmental health inspections of dormitories, food preparation and serving areas, and water waste treatment facilities, will be performed at least once a week by the center physician or his designee. The Center Director will also arrange for formal environmental health inspections by qualified non-center personnel.

(b) The water supply:

(1) It will be adequate for the center's needs, and shall satisfy the latest U.S. Public Health Services Regulations on Drinking Water Standards (42 CFR 72.201–207).

(2) In case of any construction or renovation of the water supply system, design, specifications, and construction procedures will be conducted in compliance with regulations of State and local or other health authorities and their approval.

(3) The Center Director will maintain records which shall show the amount of water treated, amount of chlorine used, daily free chlorine residual, and other data pursuant to standards set by the EPA and local authorities pertaining to water treatment. The Center Director will arrange for all necessary bacterial and chemical tests to be performed by State and local health authorities with the exception of the daily routine residual chlorine test which shall be done by center staff.

(4) The Job Corps center will comply with the water quality and related standards of the State and with the standards established by the Federal Water Pollution Control Act, 33 U.S.C. 1151 et seq.; by Executive Order 11752; 3 CFR 380, (1974) and by the Environmental Protection Agency.

(5) The Center Director will see that septic tanks are inspected by appropriate non-center personnel at least once a year.

(6) The installation will be designed, operated, and maintained so as to conform to Federal air quality standards, including those found in Executive Order 11752, 3 CFR 380, (1974) and at 40 CFR, Part 76.

(c) Food handling practices shall meet local and United States Public Health Department Standards; all meat products shall meet U.S. Department of Agriculture standards; and pesticides shall not be used where food is prepared or served.

(d) Insecticides will be used only in conformance with State and Federal pesticide laws including the regulations of the Environmental Protection Agency.

Signed at Washington, DC this 4th day of October, 1976.

PIERCE A. QUINLAN,
Administrator, Office of Comprehensive Employment Development.

[FR Doc.76–29586 Filed 10–5–76;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice No. 162]

ASSIGNMENT OF HEARINGS

OCTOBER 1, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 107295 (Sub No. 821), Pre-Fab Transit Co., now being assigned November 2, 1976 (1 day), at New York, New York, in a hearing room to be later designated.
MC 142083, Specialty Carrier, Inc., now being assigned November 18, 1976, at the Offices of the Interstate Commerce Commission in Washington, D.C.
MC 139089 (Sub No. 5), Freeport Transport, Inc., now being assigned November 18, 1976, at the Offices of the Interstate Commerce Commission in Washington, D.C.
MC 61592 (Sub 378), Jenkins Truck Line, Inc., and MC–F 12693, Jenkins Truck Line, Inc.—Merger—Ratliff & Ratliff, Inc., now being assigned November 16, 1976, at the Offices of the Interstate Commerce Commission in Washington, D.C.
MC–F–12858, A & B Freight Line, Inc.—Purchase—SMS Transportation Company and MC 120364 (Sub-No. 12), A & B Freight Line, Inc., application dismissed.
MC 11207 Sub 369, Deaton, Inc., now being assigned November 15, 1976 (1 day), at Birmingham, Ala., in a hearing room to be later designated.
MC 121664 Sub 12, G. A. Hornady, Cecil M. Hornady, & B. C. Hornady DBA Hornady Brothers Truck Line, now being assigned November 16, 1976 (2 days), at Birmingham, Ala., in a hearing room to be later designated.
MC 11207 Sub 368, Deaton, Inc., MC 73165 Sub 382, Eagle Motor Lines, Inc., and MC 136828 Sub 5, Cox & Shay Inc., now being assigned November 18, 1976 (2 days), at Birmingham, Ala., in a hearing room to be later designated.
MC 69492 (Sub-No. 50), Henry Edwards d/b/a Henry Edwards Trucking Company, has been continued to October 28, 1976 (2 days) at Nashville, Tennessee; in Room C1–125, Tennessee Public Service Commission, Cordell Hull Building.
MC 136987 (Sub 13), Remington Freight Lines, Inc., now being assigned December 10, 1976 (1 day), at Chicago, Illinois, in a hearing room to be designated.
MC 133146 (Sub 15), International Transportation Service, Inc., now being assigned December 9, 1976 (1 day), at Chicago, Illinois, in a hearing room to be later designated.
MC 133689 (Sub-No. 70), Overland Express, Inc., now assigned November 3, 1976 at Madison, Wisconsin; will be held in Room 404, Hill Farms State Office Building, 4802 Sheboygan Avenue.
MC 135197 (Sub No. 8), Leeser Transportation, Inc., now being assigned November 4, 1976 (1 day), at Kansas City, Missouri, in a hearing room to be later designated.
MC 142060 (Sub No. 1), Nash Trucks, Inc., now being assigned November 5, 1976 (1 day), at Kansas City, Missouri, in a hearing room to be later designated.

ROBERT L. OSWALD,
Secretary.

[Notice No. 131]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

OCTOBER 1, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than October 21, 1976. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 531 (Sub-No. 342 TA), filed September 24, 1976. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, P.O. Box 14048, Houston, Tex. 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tung oil*, in bulk, in tank vehicles, from Elizabeth and Weehawken, N.J., to Dallas, Tex., for 180 days. Applicant has also

V41195 OCT 6 76 UMI

filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: P.V.O. International, World Trade Center, San Francisco, Calif. 94111. Send protests to: John F. Mensing, District Supervisor, Interstate Commerce Commission, 8610 Federal Bldg., 515 Rusk, Houston, Tex. 77002.

No. MC 4705 (Sub-No. 3 TA), filed September 24, 1976. Applicant: LAWRENCE NEPPL TRUCKING, INC., Halbur, Iowa 51444. Applicant's representative: James M. Hodge, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soybean oil*, in bulk, in tank vehicles, from the facilities of Farmers Cooperative Association, at or near Ralston, Iowa, to Terre Haute, Ind., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Wayne Seaman, General Manager, Farmers Co-operative Association, Ralston, Iowa 51459. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Suite 620, 110 N. 14th St., Omaha, Nebr. 68102.

No. MC 16903 (Sub-No. 45 TA), filed September 21, 1976. Applicant: MOON FREIGHT LINES, INC., 120 W. Grimes, P.O. Box 1275, Bloomington, Ind. 47401. Applicant's representative: Donald W. Smith, Suite 2465, One Indiana Square, Indianapolis, Ind. 46204. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications and Letter Notices

OCTOBER 1, 1976.

APPLICATIONS

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in opposition with the Interstate Commerce Commission on or before November 5, 1976. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 113855 (Sub-No. 356G), filed August 9, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal and metal articles*, (A) between points in Wisconsin, on the one hand, and, on the other points in Indiana, Minnesota, Kentucky, Ohio, West Virginia, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland (except points west of Interstate Highway 81), Virginia (except points west and north of a line beginning at the Virginia-Maryland State line along Interstate Highway 81, thence along Interstate 81 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line), North Carolina (except points west of U.S. Highway 321), the District of Columbia, the following described portions of Pennsylvania: Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazelton, Pa., and mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 19 near Rose Point, Pa., thence along U.S. Highway 19 to junction unnumbered highway near Portersville, Pa., thence along unnumbered highway via Prospect, Pa., to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, Pa., thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 997, and thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa.

Thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Northumberland, Montour, and Columbia Counties, Pa.), and the following described territory in Illinois; that part of Illinois lying south of U.S. Highway 6 and on, north, and west of a line beginning at Quincy, Ill., and extending along Illinois Highway 104 to junction U.S. Highway 66, thence northward along U.S. Highway 66 to junction Illinois Highway 53 (formerly alternate U.S. Highway 66) at or near Gardner, Ill., thence along Illinois Highway 53 to junction U.S. Highway 66 at a point approximately 10 miles northeast of Plainfield, Ill., and thence along U.S. Highway 66 to Chicago, Ill. The purpose of this filing is to eliminate the gateways of any points of the Minnesota-Wisconsin State line, Elgin, Ill., Scranton, Reading, and Hazleton, Pa., points in Ohio, and Davenport, Iowa.

(B) Between points in Minnesota, on the one hand, and, on the other, points in Indiana, Ohio, Kentucky, West Virginia, Virginia (except points west and north of a line beginning at the Virginia-Maryland State line along Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line), Maryland (except points west of Interstate Highway 81), Delaware, New Jersey, New York, Massachusetts, Connecticut, Rhode Island, North Carolina (except points west of U.S. Highway 321), the District of Columbia, the following described portions of Pennsylvania: Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazleton, Pa., and mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 19 near Rose Point, Pa., thence along U.S. Highway 19 to junction unnumbered highway near Portersville, Pa., thence along unnumbered highway via Prospect, Pa., to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, Pa., thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 997, and thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified, points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Montour, Northumberland, and Columbia Counties, Pa. The purpose of this filing is to eliminate the gateways of Elgin, Ill., points in Ohio, any point on the Minnesota-Wisconsin State line, and any points in Minnesota within 25 miles of the Wisconsin-Minnesota State line or the Iowa-Minnesota State line.

(C) Between points in Illinois on, north, and west of a line beginning at Quincy, Ill., and extending along Illinois Highway 104 to junction U.S. Highway 66, thence northward along U.S. Highway 66 to junction Illinois Highway 53 (formerly alternate U.S. Highway 66), at or near Gardner, Ill., thence along Illinois Highway 53 to junction U.S. Highway 66 at a point approximately 10 miles northeast of Plainfield, Ill., and thence along U.S. Highway 66 to Chicago, Ill., on the one hand, and, on the other, points in Minnesota, Indiana, Kentucky, Ohio, West Virginia, Virginia (except points west and north of a line beginning at the Virginia-Maryland State line along Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 220 to the Virginia-North Carolina State line), North Carolina (except points west of U.S. Highway 321), Mary-

V41I195 OCT 6 76 UM

land (except points west of Interstate Highway 81), New Jersey, Delaware, New York, Connecticut, Massachusetts, Rhode Island, the District of Columbia and the following described portions of Pennsylvania: Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazleton, Pa., and mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 19 near Rose Point, Pa., thence along U.S. Highway 19 to junction unnumbered highway near Portersville, Pa., thence along unnumbered highway via Prospect, Pa., to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, Pa., thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 997, and thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified, points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa., thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery, and Philadelphia Counties, Pa.), and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Montour, Northumberland, and Columbia Counties, Pa. The purpose of this filing is to eliminate the gateways of Elgin, Ill., points in Ohio, any point on the Minnesota-Wisconsin State line and Davenport, Iowa.

(D) Between points in Iowa on and north of a line beginning at the Iowa-Illinois State line and extending along U.S. Highway 6 to junction unnumbered highway (formerly portion U.S. Highway 6), thence along unnumbered highway through Victor and Brooklyn, Iowa to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Iowa Highway 90 (formerly portion of U.S. Highway 6), thence along Iowa Highway 90 through Colfax, Iowa to Des Moines, Iowa on and east of U.S. Highway 65 from Des Moines, to the Iowa-Minnesota State line, on the one hand, and, on the other, points in Minnesota, Indiana, Ohio, Kentucky, West Virginia, Virginia (except points west and north of a line beginning at the Virginia-Maryland State line along Interstate Highway 81, thence along Interstate Highway 81 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line), North Carolina (except points west of U.S. Highway 321), Maryland (except points west of Interstate Highway 81), Delaware, New Jersey, New York, Massachusetts, Rhode Island, Connecticut, the District of Columbia, the following described portions of Pennsylvania: Scranton, Reading, Allentown, Harrisburg, Lancaster, and Hazleton, Pa., and mines in that part of Pennsylvania south and west of a line beginning at the Pennsylvania-Ohio State line and extending along U.S. Highway 224 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 19 near Rose Point, Pa., thence along U.S. Highway 19 to junction unnumbered highway near Portersville, Pa., thence along unnumbered highway via Prospect, Pa., to junction U.S. Highway 422, thence along U.S. Highway 422 to Ebensburg, Pa., thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction Pennsylvania Highway 641 (formerly Pennsylvania Highway 433), thence along Pennsylvania Highway 641 to junction Pennsylvania Highway 997, and thence along Pennsylvania Highway 997 to the Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified, points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line and extending along unnumbered highway (formerly portion U.S. Highway 15) to junction Business U.S. Highway 15, near Fairplay, Pa.

Thence along Business U.S. Highway 15 through Gettysburg, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to junction unnumbered highway (formerly portion U.S. Highway 15), thence along unnumbered highway through Clear Spring, Pa., to junction U.S. Highway 15, thence along U.S. Highway 15 to the Pennsylvania-New York State line (except points in Berks, Bucks, Chester, Delaware, Montgomery and Philadelphia Counties, Pa., and points in Pennsylvania on and east of the above described line in Adams, York, Cumberland, Perry, Dauphin, Lebanon, and Lancaster Counties, Pa., and points in Pennsylvania on and east of U.S. Highway 15 and north of the East Branch of the Susquehanna River in Tioga, Bradford, Lycoming, Sullivan, Union, Snyder, Montour, Northumberland, and Columbia Counties, Pa., points in Illinois south of U.S. Highway 6 and on, north, and west of a line beginning at Quincy, Ill., and extending along Illinois Highway 104 to junction U.S. Highway 66, thence northward along U.S. Highway 66 to junction Illinois Highway 53 (formerly alternate U.S. Highway 66) at or near Gardner, Ill., thence along Illinois Highway 53 to junction U.S. Highway 66 at a point approximately 10 miles northeast of Plainfield, Ill., and thence along U.S. Highway 66 to Chicago, Ill., restricted to service at points in Indiana, Ohio, Kentucky, West Virginia, Virginia, North Carolina, Maryland, Delaware, New Jersey, New York, Connecticut, Massachusetts, Rhode Island, the described portions of Pennsylvania and Illinois south of U.S. Highway 6 and on, north and west of a line beginning at Quincy, Ill., and extending along Illinois Highway 104 to junction U.S. Highway 66, thence northward along U.S. Highway 66 to junction Illinois Highway 53 (formerly alternate U.S. Highway 66) at or near Gardner, Ill., thence along Illinois Highway 53 to junction U.S. Highway 66 at a point approximately 10 miles northeast of Plainfield, Ill., and thence along U.S. Highway 66 to Chicago, Ill. The purpose of this filing is to eliminate the gateways of Elgin, Ill., points in Ohio, and Davenport, Iowa.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before October 18, 1976. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 40215 (Sub-No. E9), filed May 17, 1974. Applicant: RICHARDSON TRANSFER & STORAGE CO., INC., 246 N. 5th St., Salina, Kans. 67401. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) from points in Illinois to points in Arizona, those points in Arkansas on and west of a line beginning at the Missouri-Arkansas State line and extending along U.S. Highway 62 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Arkansas-Louisiana State line, California, Colorado; (b) from points in Illinois on, south and east of a line beginning at the Iowa-Illinois State line and extending along U.S. Highway 136 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in Idaho, Kansas, those points in Missouri on and west of a line beginning at the Missouri-Iowa State line and extending along U.S. Highway 69 to junction Missouri Highway 13, to junction Missouri Highway 18, to junction U.S. Highway 71, thence along U.S. Highway 71 to the Missouri-Arkansas State line; (c) from points in Illinois on and south of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 136 to junction Illinois Highway 9, to junction U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Illinois State line, to points in Nebraska, New Mexico, Nevada; (d) from points in Illinois on and south of a line beginning at the Missouri-Illinois State line and extending along Illinois Highway 177 to junction Illinois Highway 15, thence along Illinois Highway 15 to the Illinois-Indiana State line, to points in Oklahoma, Utah; (e) from points in Illinois on and south of a line beginning at the Missouri-Illinois State line to junction U.S. Highway 67, to junction Illinois Highway 16, to junction U.S. Highway 66, to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, to points in Wyoming. The purpose of this filing is to eliminate the gateways of Garden City, Kans., Galena, Kans., Joplin, Mo., Topeka, Kans., Kansas City, Mo., and Kansas City, Kans.

No. MC 40215 (Sub-No. E10), filed May 17, 1974. Applicant: RICHARDSON TRANSFER & STORAGE CO., INC., 246 N. 5th St., Salina, Kans. 67401. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Indiana to points in Arizona, California, Colorado, those points in Idaho on and south of a line beginning at the Montana-Idaho State line and extending along U.S. Highway 93 to junction Idaho State Highway 21, to junction Idaho State Highway 52, thence along Idaho State Highway 52 to the Idaho-Oregon State line, Iowa, Kansas; (b) from points in Indiana on and south of a line beginning at the Illinois-Indiana State line, and extending along U.S. Highway 36 to the Indiana-Ohio State line, to points in Nebraska, those points in Missouri on and west of a line beginning at the Missouri-Iowa State line and extending along U.S. Highway 68 to junction Missouri State Highway 13 to junction U.S. Highway 54, to junction U.S. Highway 71, thence along U.S. Highway 71 to the Missouri-Arkansas State line, Nevada, New Mexico, those points in Oklahoma on and north of a line beginning at the Arkansas-Oklahoma State line, and extending along Oklahoma State Highway 83 to junction U.S. Highway 271, thence along U.S. Highway 271, to the Oklahoma-Texas State line; (c) from points in Indiana on and south of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 150 to the Indiana-Kentucky State line, to points in South Dakota on and west and south of a line beginning at the North Dakota-South Dakota State line and extending along South Dakota Highway 37, to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Iowa State line; (d) from points in Indiana, on and north of a line beginning at the Illinois-Indiana State line, and extending along U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Ohio State line to points in Texas, Utah; (e) from points in Indiana on and south of a line, beginning at the Illinois-Indiana State line and extending along Interstate Highway 70 to the Indiana-Ohio State line to points in Wyoming. The purpose of this filing is to eliminate the gateways of Garden City, Kans., Topeka, Kans., Kansas City, Mo., Galena, Kans., Kansas City, Kans., Manhattan, Kans., Arkansas City, Kans.

No. MC 40215 (Sub-No. E14), filed May 17, 1974. Applicant: RICHARDSON TRANSFER & STORAGE CO., INC., 246 N. 5th St., Salina, Kans. 67401. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) from points in Louisiana to points in Colorado, to those points in Iowa on and west of a line beginning at the Minnesota-Iowa State line, and extending along U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line, Kansas to those points in Minnesota on and west of a line beginning at the International Boundary line between the United States and Canada and extending along U.S. Highway 35 to the Minnesota-Iowa State line, Nebraska, South Dakota; (b) from points in Louisiana on and west and south of a line beginning at the Arkansas-Louisiana State line, and extending along U.S. Highway 165 to junction Louisiana State Highway I to junction Louisiana State Highway 10, thence along Louisiana State Highway 10 to the Louisiana-Mississippi State line, to points in Missouri on and west of a line beginning at the Missouri-Iowa State line, and extending along U.S. Highway 63 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateways of Garden City, Kans., Independence, Kans., to Manhattan, Kans, Wichita and Salina, Kans., Galena, Kans., Kansas City Kans.

No. MC 113855 (Sub-No. E460), filed May 30, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marian Rd. SE., Rochester, Minn. 55901. Applicant's representative: Michael E. Miller, 502 First Nat'l Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Street sweeping machines* (except those which require the use of special equipment), in flatbed trailers only (A) from points in California (except Los Angeles, Orange, San Diego, San Mateo, Santa Clara, Alameda, Contra Costa, Marin, Sacramento, and San Joaquin Counties), to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, District of Columbia, Delaware, Michigan, and New York. (B) from points in California north and east of Marin, Sacramento, Contra Costa, San Joaquin, Mono, and Tuolumne Counties, and points in Santa Cruz, Stanislaus, and San Francisco counties, to points in Indiana, Kentucky, South Carolina, North Carolina, points in Tennessee on and east of Interstate Highway 65, points in Florida east of Jefferson County, points in Alabama on and north of Alabama Highway 10, points in Virginia on and east of U.S. Highway 52, and points in Georgia on and north of U.S. Highway 280 and on and east of Interstate Highway 75. (C) from points in Tuolumne, Mariposa, Merced, Madera, Fresno, Tulare, Kings, Santa Barbara, San Luis Obispo, Monterey, San Benito, Mono, and Inyo Counties, Calif., to points in North Carolina, Indiana, points in Virginia on and east of U.S. Highway 52 and points in Kentucky on and east of U.S. Highway 231. (D) from points in Kern and Ventura Counties, Calif., and those points in San Bernardino and Riverside counties on and west of U.S. Highway 395, to points in Illinois on and north of U.S. Highway 36 and on and east of U.S. Highway 67, points in Indiana on and north of U.S. Highway 150, those points in North Carolina and Virginia on and east of U.S. Highway 52, and points in Kentucky on, east and north of a line beginning at the Kentucky-Indiana State line and extending along Kentucky Highway 61 to junction Kentucky Highway 80, to junction U.S. Highway 421 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114019 (Sub-No. E448), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, (except in bulk), (1) from Rouseville, Reno and Oil City, Pa., to points in Colorado, (the plant site of Pennzoil at Maryland Heights, Mo.)*; (2) from points in that part of West Virginia within 2 miles of the Ohio River, northerly from Sistersville, West Virginia and Fly, Ohio and extending to junction U.S. Highway 40 at Martins Ferry, Ohio, and Wheeling, W. Va., to points in Colorado (Belmont County, Ohio (except Martins Ferry, Bridgeport, Bellaire and Powhatan Point, Ohio); St. Marys, W. Va. and the plantsite of Pennzoil at Maryland Heights, Mo.)* North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Arkansas, Wisconsin, Illinois, and Indiana (Belmont County, Ohio and St. Marys, W. Va.)* The purpose of this filing is to eliminate the gateway of those marked with asterisks.

No. MC 114019 (Sub-No. E449), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629.

V41195 OCT 6 76 UM

Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transportings *Frozen foods*, and foods not frozen, when transported in the same vehicle with frozen foods, in vehicles equipped with mechanical refrigeration, (a) from points in Illinois and points in that part of Indiana on and west of a line beginning at Lake Michigan, thence along U.S. Highway 421 to junction U.S. Highway 231 to the Indiana-Kentucky State line, to points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island; (Chicago, Ill.)*; (b) from points in that part of Illinois on and north of U.S. Highway 36, to points in New Jersey (except points in the New York, N.Y. and Philadelphia, Pa., Commercial Zone); (c) from points in Cook County, Ill., to points in North Dakota, South Dakota, Nebraska, Iowa (Chicago, Ill.)*; (d) from points in that part of Ohio on and east of a line beginning at the Ohio-Kentucky State line, thence along U.S. Highway 23 to the junction of U.S. Highway 25, to the Ohio-Michigan State line, points in Pennsylvania and New York, and those points in New Jersey in the New York, N.Y., and Philadelphia, Pa., Commercial Zones as defined by the Commission, to points in North Dakota, South Dakota, Nebraska, Iowa (Chicago, Ill.*)*, and Minnesota (Chicago, Ill. and Muscatine, Iowa*). The purpose of this filing is to eliminate the gateways marked with asterisks.

No. MC 115311 (Sub- No. E1), filed May 13, 1974. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Millidgeville, Ga. 30106. Applicant's representative: Paul M. Daniell, Suite 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, rough and dressed (except plywood and veneer), from points in Florida, to points in Tennessee on and east of a line beginning at the Tennessee-Georgia State line and extending along Tennessee Highway 60 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Tennessee-Kentucky State line. The purpose of this filing is to eliminate the gateway of points in Georgia on, north and east of a line beginning at the Savannah, Ga. and extending along U.S. Highway 80 to Macon, Ga., thence along U.S. Highway 129 to Blairsville, Ga. and thence along Georgia Highway 11 to the Georgia-North Carolina State line.

No. MC 115311 (Sub-No. E3), filed May 13, 1974. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Millidgeville, Ga. 30106. Applicant's representative: Paul M. Daniell, Suite 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, rough and dressed (except plywood and veneer), from points in Florida, on and east of the Apalachicola River, to points in Tennessee on and bounded by a line beginning at the Georgia-Tennessee State line and extending along U.S. Highway 27 to junction Tennessee Highway 60, thence along Tennessee Highway 60 to the Georgia-Tennessee State line, thence west along the Georgia-Tennessee State line to the point of beginning. The purpose of this filing is to eliminate the gateway of points in Georgia on, north and east of a line beginning at Savannah, Ga. and extending along U.S. Highway 80 to Macon, Ga., thence along U.S. Highway 129 to Blairsville, Ga. and thence along Georgia Highway 11 to the Georgia-North Carolina State line.

No. MC 115311 (Sub-No. E4), filed May 13, 1974. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Millidgeville, Ga. 30106. Applicant's representative: Paul M. Daniell, Suite 1600 First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, rough and dressed (except plywood and veneer), from points in Florida, to points in Yadkin, Davidson, Guilford, Almance, Davie, Randolph and Chatham Counties, N.C. The purpose of this filing is to eliminate the gateway of Athens, Ga.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Notice No. 130]

MOTOR CARRIERS TEMPORARY AUTHORITY APPLICATIONS

SEPTEMBER 30, 1976.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an appliction may be filed with the field official named in the FEDERAL REGISTER publication no later than October 21, 1976. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTORS CARRIERS OF PROPERTY

No. MC 20992 (Sub-No. 38TA), filed September 21, 1976. Applicant: DOTSETH TRUCK LINE, INC., Knapp, Wis. 54749. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shippers: Medi-Physics, Inc., 900 Durham Ave., South Plainfield, N.J. 07080. Malinckrodt, Inc., 463 Barell Ave., Carlstadt, N.J. 07072. New England Nuclear, Atomlight Place, North Billerica, Mass. 01862. Send protests to: Maria B. Kejss, Transportation Assistant, Interstate Commerce Commission, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 141810 (Sub-No. 2TA), filed September 23, 1976. Applicant: PORTER & KELIN TRANSPORT LTD., 241 Schoolhouse Road, Coquitlam, B.C., Canada. Applicant's representative: Robert G. Gleason, Evergreen Bldg., Suite 217, 15 S. Grady Way, Renton, Wash. 98055. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Building materials and lumber*, between points in Oregon and Washington west of the Cascade Mountain range, to points on the International Boundary between the United States and Canada and British Columbia and Alberta, Canada, at or near Blaine, Sumas and Oroville, Wash., and Eastport, Idaho, on traffic originating at or destined to Vancouver, B.C., Edmonton and Calgary, Alberta, Canada under a continuing contract with Cascade Imperial Mills Ltd., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Cascade Imperial Mills Ltd., 1250 Richards St., Vancouver, B.C., Canada V6B 4H7. Send protests to: L.D. Boone, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 858 Federal Bldg., Seattle, Wash, 98174.

No. MC 142423 (Sub-No. 1TA), filed September 20, 1976. Applicant: BIG D CARTAGE, INC., 28091 Kingberry Drive, Mt. Clemens, Mich. 48043. Applicant's representative: Robert E. McFarland, 999 W. Big Beaver Road, Suite 1002, Troy, Mich. 48084. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes,

V41N195 OCT 6 76 UM

transporting: *Malt beverages*, from Milwaukee, Wis., to points in Macomb County, Mich., with *empty containers* on return, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Vic Wertz Distributing Co., General Manager, Mitch Housey, 40585 Production Drive, Mt. Clemens, Mich. 48043. Send protests to: James A. Augustyn, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1110 Broderick Tower, 10 Witherell Ave., Detroit, Mich. 48226.

No. MC 142435 (Sub-No. 1TA), filed September 21, 1976. Applicant: BRUMMETT ENTERPRISES, INC., 855 Boling St., P.O. Box 9831, Jackson, Miss. 39206. Applicant's representative: Fred W. Johnson, Jr., 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and furnishings* for motels, in room modular concept, from Hinds County, Miss., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Massachusetts, Michigan, Minnesota, Missouri, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, Wisconsin, and the District of Columbia, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Holiday Inns, Inc., 3796 Lamar Ave., Memphis, Tenn. 38118. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission, Room 212, 145 East Amite Bldg., Jackson, Miss. 39201.

No. MC 142451 (Sub-No. 1TA), filed September 21, 1976. Applicant: JAMES L. SMITH AND JERRY ATTKISSON, doing business as SMITH AND ATTKISSON TRUCKING COMPANY, Route 2, Columbia, Tenn. 38401. Applicant's representative: James N. Clay, III, 2700 Sterick Bldg., Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Silica Gravel*, in bulk, in dump vehicles, from points in Franklin County, Ala., to points in Maury County, Tenn., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Stauffer Chemical Company, Nyala Farm Road, Westport, Conn. 06880. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Suite A-422, U.S. Courthouse, 801 Broadway, Nashville, Tenn. 37203.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Ex Parte No. 284]

PERISHABLE COMMODITIES

Investigation Into the Need for Defining Reasonable Dispatch

SEPTEMBER 29, 1976.

Present: A. Daniel O'Neal, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, including the report and order of April 8, 1976 (351 I.C.C. 812), in which (a) certain regulations (49 CFR Part 1038) were conditionally adopted; (b) all interested persons were given an opportunity to show cause, if any there may be, why such regulations should not be made operative and effective; and (c) all parties to this proceeding and all other persons interested in the safe and expeditious transportation of perishable commodities were invited to participate in a shipper-carrier conference for the purpose of identifying problems and exploring possible long-term solutions therefor; and

It appearing, That all pleadings and comments of the parties identified in the appendix hereto, which were submitted in connection with the conditionally adopted regulations referred to in (a) above, have been given due consideration; and that the consensus of said parties is (1) that the regulations referred to should not be made operative and effective at this time, and (2) that a shipper-carrier conference of the nature proposed in the report should be convened;

It further appearing, That in view of the opposition to the conditionally adopted regulations, their taking effect should be postponed until further order of this Commission; and that this Commission therefore should proceed to convene a shipper-carrier conference for the purposes referred to in the report and order of April 8, 1976; and good cause appearing therefor:

It is ordered, That the effective date of the regulations conditionally adopted in this proceeding be, and it is hereby, postponed until further order of this Commission.

It is further ordered, That a shipper-carrier conference be, and it is hereby, called for the purposes described in the report and order of April 8, 1976. Date of commencement of the conference and location of the conference room will be by subsequent notice.

It is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

Dated at Washington, D.C., this 28th day of September, 1976.

By the Commission, Commissioner O'Neal.

ROBERT L. OSWALD,
Secretary.

APPENDIX

The names of those who submitted comments on the regulations conditionally adopted in this proceeding are listed below. Names indented are those of parties who filed joint statements with parties listed immediately above them.

PART II:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

■

COMPREHENSIVE PLANNING ASSISTANCE

Review and Approval Process

VOL. 41 NO. 195 OCT 6 76 UM

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

[24 CFR Part 600]

[Docket No. R-76-310]

COMPREHENSIVE PLANNING ASSISTANCE

Review and Approval Process

Notice is hereby given that the Department ("HUD") proposes to amend Chapter VI of Title 24 of the Code of Federal Regulations by amending §§ 600.7(c), 600.65(a) and (b), and 600.67(c) and by adding a new §§ 600.73 to Subpart B—Special Requirements. The new section is added for the purpose of establishing a process whereby an applicant may request approval of the land use and housing elements in its comprehensive plan. Section 701(c) of the Housing Act of 1954 as amended by the Housing and Community Development Act of 1974 provides that a recipient of 701 assistance must carry out an ongoing comprehensive planning process which includes the development of a comprehensive plan which shall include, as a minimum, a housing element and a land use element. Section 701(d) provides that HUD shall make no 701 grant after August 22, 1977, unless HUD is satisfied that an applicant's comprehensive plan includes the housing and land use elements required by Section 701(c). Part 600, 24 CFR was published on August 22, 1975, at 40 FR 36856.

The new section includes:

1. A requirement for submission of a summary statement describing how the requirements of the regulations relating to the land use and housing elements have been satisfied;

2. A requirement for submission of documents evidencing completion of all activities necessary to satisfy the requirements of the regulations relating to the land use and housing elements;

3. A requirement for endorsement of the land use and housing elements by the chief executive officer;

4. A requirement for the submission of the documentation relating to the land use and housing elements to State and regional or metropolitan clearinghouses at least 45 days prior to submission to HUD;

5. A requirement for coordination of the land use element with those programs of HUD and other Federal programs impacting the use of land;

6. A listing of the principal criteria to be considered in the development and HUD review of the housing and land use elements;

7. A requirement for certification by the applicant's chief executive officer that the housing and land use elements are consistent with each other;

8. Identification of HUD officials responsible for approvals and disapprovals of the land use and housing elements;

9. A requirement for certification by new applicants concerning prior participation in the 701 program;

10. Requirements for minimum elements for the State review and approval process to be used in assessing the land use and housing elements of substate applicants; and

11. Provision for HUD review and concurrence on all state actions on housing and land use elements of substate applicants applying to the State on a voluntary basis.

The amendment to § 600.7(c) clarifies the definition of chief executive officer with respect to states and areawide planning organizations.

The amendments to § 600.65(a) and (b) add a requirement that applicants incorporate HUD environmental policies and standards impacting the use of land and provide a statement indicating any proposed deviations from HUD environmental policies and standards.

The amendment to § 600.67(c) adds a definition of "new applicants" after August 22, 1977 for the purpose of making the determination whether an applicant has received a prior 701 grant.

Interested persons are invited to participate in the proposed rulemaking by submitting such written statements or comments as they may desire on or before November 8, 1976. Communications should refer to docket number and date and should be filed with the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, D.C. 20410. Copies of comments submitted will be available during business hours, both before and after the specified closing date, at the above address, for examination by interested persons.

A finding of inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A finding that this regulation is not subject to inflation impact statement requirements has also been made in accordance with HUD procedures. A copy of these findings will be available for public inspection during regular business hours in the Office of the Rules Docket Clerk at the above address.

(Sec. 701, Housing Act of 1954, 68 Stat. 640; (40 U.S.C. 461); Secretary's delegation of authority published at 36 FR 5004, effective March 8, 1971.)

Accordingly, it is proposed that 24 CFR Part 600 be amended as follows:

1. The table of contents is amended by adding a new § 600.73 as follows:

Sec.
600.73 Land use and housing elements: Review and approval process.

2. In § 600.7, paragraph (c) is revised as follows:

§ 600.7 Definitions.

• • • • • •

(c) "Chief Executive Officer" means the elected official, or the legally designated official, who has the primary responsibility for the conduct of the governmental affairs of a state, unit of general local government or areawide planning organization. Examples of the "Chief Executive Officer" of a state, unit of general local government or an areawide planning organization may be: The governor of a state; the elected mayor of a municipality; the elected county executive of a county; the chairman of a county commission or board in a county that has no elected county executive; the official designated pursuant to law by the governing body of the unit of general local government; the chairman, governor, chief, or president (as the case may be) of an Indian tribe or Alaskan native village; and the highest policy officer of an areawide planning organization.

• • • • • •

3. In § 600.65, paragraphs (a) (5) and (b) (1) (viii) are added as follows:

§ 600.65 Environmental requirements.

• • • • • •

(a) • • •

(5) Incorporate HUD environmental policies and standards impacting the use of land including those for flood plain management (24 CFR Part 1910), noise abatement and control (Circular 1390.2) and others established from time to time.

(b) • • •

(1) • • •

(viii) A statement indicating any proposed deviations from HUD environmental policies and standards impacting the use of land including those for flood plain management, noise abatement and control and others established from time to time. Measures to achieve conformity and mitigation shall be identified and discussed.

• • • • • •

4. In § 600.67, paragraph (c) is amended by adding the paragraph below after the present paragraph under (c):

§ 600.67 Comprehensive planning requirements.

• • • • • •

(c) *Limitations.* • • •

For the purpose of making the determination whether an applicant has received a prior 701 grant, a 701 grant is defined as (1) the use of 701 funds by or on behalf of a recipient who provides all or a portion of the non-Federal match, or (2) the use of 701 funds to support a recipient's staff regardless of who provides the non-Federal match. Services, financed in whole or in part with 701 funds, provided at no cost to recipients are not considered grants.

5. A new § 600.73 is added to read as follows:

§ 600.73 Land use and housing elements: Review and approval process.

Compliance by applicants, identified in § 600.25 (a) through (f), with the housing and land use elements required by § 600.67(b), and more particularly described in §§ 600.70 and 600.72, shall be determined in accordance with the following:

(a) *Request for approval.* The request for approval shall be by letter from the applicant's chief executive officer. The approval request shall include the following:

(1) Summary statement.

(2) Documents, including coordination mechanisms, implementation tools and environmental and historic preservation assessments, which constitute the element.

(3) A statement by the chief executive officer that the summary statement and documents represent the policy of the chief executive for the jurisdiction with respect to the subject element.

(4) A statement that the CZM program and the land use element are consistent with each other, if applicable.

(5) A statement that the EPA 208 program and the 701 program are, or will be, consistent with each other, if applicable.

(6) A statement that the land use and housing elements are consistent with each other.

(7) A copy of the letter or other document used to transmit the land use and/or housing elements to the legislative body.

(8) A copy of the state and regional or metropolitan clearinghouses comments.

(9) A statement indicating any proposed deviations from HUD environmental policies and standards impacting the use of land.

(b) *Summary statement.* Each applicant shall submit a summary statement, prepared in accordance with paragraph (c) of this section describing how it has complied with the statutory land use and housing element requirements of §§ 600.67(b), 600.70 and 600.72. This summary statement will serve as the primary basis for review by HUD or by the State (in the case of applicants applying to the state for grant assistance) to determine the acceptability of the housing and land use elements. To facilitate review, HUD or the state may also require an oral presentation of data relating to the elements. Applicants may initiate informal consultation with HUD or the state prior to formal submission.

(c) *Summary statement contents.* The summary statement shall contain a brief description of how each requirement of the land use and housing elements have been satisfied including citations to the supporting reports and documents. The requirements should be addressed individually as follows:

(1) *Land use and housing elements. All applicants.* Section § 600.67(b) concerning broad goals, annual objectives, programs designed to accomplish the objectives and procedures and criteria to be used in evaluating programs and activities to determine whether the objectives are being met.

(2) *Land use element*—(i) *States and areawides.* Section 600.72(b) (1) through (4).

(ii) *Large cities, urban counties and localities.* Section 600.72(c) (1) through (4).

(3) *Housing element*—(i) *All applicants.* Section 600.70(a) (1) through (4).

(ii) *States.* Section 600.70(b) (1).

(iii) *Areawide planning organizations.* Section 600.70(b) (2) (i) and (ii).

(iv) *Large cities, urban counties and localities.* Section 600.70(b) (3) (i) through (iii).

(4) *Environmental assessment: All applicants.* Section 600.65(b) (1) (i) through (viii).

(5) *Historic preservation assessment. All applicants.* Section 600.66(d) (1) (i) through (vi).

(d) *Documentation.* Documents, including coordination mechanisms, implementation tools and environmental and historic preservation assessments, shall be submitted with a request for approval of a land use or housing element.

(e) *Endorsement.* The summary statement and documents shall be transmitted to HUD by a letter from the applicant's chief executive officer. The transmittal letter shall include a statement that the summary report and documents represent the policy of the chief executive officer for the jurisdiction with respect to the element in question.

(f) *Interagency coordination.* Pursuant to § 600.67(d), the following procedures must be followed where a state or areawide planning organization is participating in the Coastal Zone Management (CZM) program or Environmental Protection Agency Areawide Waste Treatment Management Planning Assistance (208) program.

(1) *CZM Program participants.* CZM program participants shall include a copy of the completed CZM management program with the submission of its land use element documentation and a statement signed by the chief executive officer that the CZM program and the land use element are consistent with each other or if the CZM program has not been completed that it will be made consistent with the 701 land use element.

(2) *EPA 208 Program participants.* States and areawide planning organizations shall include with the submission of their land use documentation a statement, signed by the chief executive officer, that the land use element prepared to fulfill the requirements of the 701 program, and the EPA (208) program are identical or consistent or that they are inconsistent including the reasons therefore and the steps planned to achieve consistency or if the EPA (208) plan has not been completed that efforts will be made to make it consistent with the 701 land use element.

(g) *Land use and housing element consistency.* The land use and housing element documentation shall include a statement signed by the chief executive officer indicating that the land use and housing elements are consistent with each other. In the event the elements are not submitted simultaneously, the first element submitted need not contain any statement of consistency. When the second element is submitted the chief executive officer shall include a signed statement that such element is consistent with the element previously submitted.

(h) *Notifications.* The following notifications shall be carried out prior to a formal request to HUD to approve a land use or housing element.

(1) *Legislative notification.* The chief executive officer shall submit the summary statement and documents to the legislative body by letter or other appropriate means. The transmittal shall identify areas of potential legislative action and indicate that the summary statement and documents are being submitted to HUD in satisfaction of HUD's land use and/or housing element requirements. In the case of areawide planning organizations, the summary statement and documents shall be approved by the policy body and be officially transmitted to member jurisdictions. The transmittal letter shall identify areas of potential municipal or county legislative or other action and indicate that the summary statement and documents are being submitted to HUD in satisfaction of HUD's land use and/or housing element requirements.

(2) *Clearinghouse notification.* The summary report and documents shall be submitted for review and comment to the state and regional or metropolitan clearinghouses having jurisdiction at least 45 days prior to submission to HUD.

(i) *Review Criteria.* HUD review shall be based principally on the extent to which the applicant meets or exceeds the requirements applicable to the land use and housing elements, as found in:

(1) Section 600.67(b)—Comprehensive plan requirements establishing general requirements applicable to the requisite elements;

(2) Section 600.70—Required housing element describing the components of the housing element;

(3) Section 600.72—Required land use element describing the components of the land use element;

(4) Section 600.65—Environmental requirements describing the environmental assessment required for developmental plans or policies including land use and housing plans and policies. The assessment must encompass the entire element including any portions developed with other Federal or local funds.

(5) Section 600.66—Historic preservation requirements describing the historic preservation assessment required for plans or policies for development which may impact National Register properties including land use and housing plans and policies. The assessments must encompass the entire element including any portions developed with other Federal or local funds.

(j) *Approval and Disapproval.* Approvals and disapprovals shall be made my the HUD Officer designated in the delegations of authority published in the FEDERAL REGISTER.

(1) *Approvals.* Approvals shall be based upon a finding that all of the requirements applicable to the land use and housing elements required of recipients have been met.

(2) *Disapprovals.* A disapproval action shall clearly delineate the reasons for disapproval and specify what corrective actions shall be necessary to obtain approval.

(k) *Timing of Approvals.* Requests for approval may be submitted at the convenience of the applicant. In order to insure continuity in on-going programs, requests for approval after August 22, 1977 should be submitted to HUD at least 90

V41N195 OCT 6 76 UM

days prior to the end of the recipient's project period.

(l) *Certification by new applicants.* New applicants applying directly to HUD or to the State after August 22, 1977 shall submit a certification that they have never received a prior grant.

(m) *State review and approval process.* Pursuant to § 600.115(c), the State overall program design shall describe the review and approval process to be used in determining substate compliance with all program requirements, including the two required elements. Approvals and disapprovals shall be made by the person designated by law or by the governor for approving substate grants. At a minimum the State process shall include:

(1) Chief executive endorsement;

(2) Clearinghouse review and comment;

(3) Interagency coordination;

(4) Compliance with all applicable requirements of this Part;

(5) A clear statement of the reasons for any disapprovals; and

(6) An adequate record of all actions taken.

(n) *HUD review of State approvals of required elements.* HUD, in evaluating State administrative performance, shall review and concur in all State actions on substate plan elements for an applicant applying to the State on a voluntary basis pursuant to § 600.120(j); A state may not award any grants to such an applicant after August 22, 1977 until HUD concurrence has been obtained. When mutually agreeable between HUD and the State, a joint review and approval process may be established to facilitate the review of substate plain elements for applicants applying to the state on a voluntary basis. For monitoring purposes HUD will also selectively review state actions on applicants required to apply to the state.

(o) *Biennial review.* Each applicant whose land use and housing elements are approved pursuant to this section shall submit biennially beginning no later than two years from the date that the last element was approved:

(1) An evaluation of the progress made by it during the previous two years in meeting objectives set forth in its plan, and

(2) A description of any changes in the goals or objectives of the plan.

Issued at Washington, D.C., September 29, 1976.

WARREN H. BUTLER,
Deputy Assistant Secretary for Community Planning and Development.

WEDNESDAY, OCTOBER 6, 1976

PART III:

CONSUMER PRODUCT SAFETY COMMISSION

■

LEAD-BASED PAINT

Consumer Products; Proposed Promulgation and Revocation of Regulation; Extension of Comment Periods

Hearing: Safe Level Determination

V41N195 OCT 6 76 UM

CONSUMER PRODUCT SAFETY COMMISSION

[16 CFR Part 1150]

LEAD-BASED PAINT AND CERTAIN CONSUMER PRODUCTS BEARING LEAD-BASED PAINT

Banned Hazardous Products; Extension of Date for Filing Comments; Extension of Date for Promulgating Rule or Withdrawing Proposed Rule

The purpose of this notice is to announce the extension until April 1, 1977, of the period of time within which the Consumer Product Safety Commission is required to either promulgate or withdraw the consumer product safety rule regarding lead-based paint proposed on August 10, 1976. This notice also announces that the period of time for submitting written comments on the August 10 proposal is extended until October 26, 1976.

In the FEDERAL REGISTER of August 10, 1976 (41 FR 33637), the Commission proposed to establish a regulation (16 CFR Part 1150) under sections 8 and 9 of the Consumer Product Safety Act (15 U.S.C. 2057, 2058) to declare as banned hazardous products (1) lead-containing paint and similar surface-coating materials containing more than a safe level of lead, (2) toys and other articles intended for use by children bearing lead-containing paint or other similar surface-coating materials containing more than a safe level of lead, and (3) articles of furniture bearing lead-containing paint or other similar surface-coating materials containing more than a safe level of lead. An oral hearing on the matter at which all interested persons were given the opportunity to testify was conducted on September 13, 1976. The last date for filing written comments on the proposal was September 24, 1976.

The determination of a safe level of lead will be made in accordance with a separate proceeding under the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4801 et seq.), as amended (Pub. L. 94-317). This proceeding was also commenced by an announcement in the FEDERAL REGISTER on August 10, 1976, 41 FR 33636, and the period of time for filing written comments relating to that proceeding has also been extended from September 24, 1976 until October 26, 1976 by FR Doc. 76-29321 appearing in this issue of the FEDERAL REGISTER.

As provided in section 9 of the Consumer Product Safety Act, whenever the Commission proposes a rule declaring a product to be a banned hazardous product, it must, within 60 days after publication of the proposal, (1) promulgate the consumer product safety rule if the appropriate findings are made, or (2) withdraw the proposal if it determines that the the rule is not reasonably necessary or not in the public interest. The 60-day period, however, may be extended for good cause if the Commission publishes its reasons for the extension in the FEDERAL REGISTER. In the case of the August 10 proposal, the 60th day falls on October 9, 1976.

With respect to promulgating or withdrawing the consumer product safety rule proposed on August 10, the Commission believes that a reasonable date for publication of the appropriate FEDERAL REGISTER notice is April 1, 1977. As indicated in the August 10 proposal, the Commission intends to establish the maximum level of lead in paint under the Consumer Product Safety Act rule at the level determined to be a safe level under the LBPPPA. Therefore, since the determination under the LBPPPA is required to be made after consideration of available information, including the recommendations of several specific agencies and organizations, and after providing the opportunity for an oral hearing, an extension of the period until April 1 is necessary to permit the Commission to first consider the information available with respect to determining a safe level of lead in paint. Thereafter, the Commission must consider available information with respect to the findings necessary for promulgating the proposed consumer product safety rule. Additional time will also be required to consider and respond to the comments submitted on the proposal and to draft the FEDERAL REGISTER notice establishing the rule.

Regarding the period of time for submitting written comments and information relating to the consumer product safety rule proposed on August 10, the Commission (as in the matter of extending the comment period in the LBPPPA proceeding from September 24 until October 26, 1976, announced elsewhere in this issue of the FEDERAL REGISTER) is also extending the comment period in the instant proceeding until October 26, based on a request submitted by the National Paint and Coatings Association. This is to ensure that the information available is as complete as possible.

Accordingly, pursuant to provisions of the Consumer Product Safety Act (secs. 8, 9, 86 Stat. 1215-17; 15 U.S.C. 2057, 2058), the Commission, for good cause, as stated above, extends the period of time within which it must promulgate or withdraw the consumer product safety rule (16 CFR Part 1150) proposed in the FEDERAL REGISTER of August 10, 1976 (41 FR 33637) until April 1, 1977.

Interested persons may submit written material relevant to the proposal, including data, views, and arguments, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, before the close of business, October 26, 1976. Received submissions may be inspected in the Office of the Secretary, 3rd Floor, 1111 18th Street NW., Washington, D.C., during working hours Monday through Friday.

Dated: October 1, 1976.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

CERTAIN LEAD-CONTAINING PAINT; TOYS AND OTHER ARTICLES BEARING SUCH PAINT INTENDED FOR USE BY CHILDREN

Proposed Revocation of Regulation; Extension of Time for Submitting Comments

The purpose of this notice is to announce that the comment period on the proceeding to revoke a regulation (16 CFR 1500.17(a)(6)) under the Federal Hazardous Substances Act (FHSA), (15 U.S.C. 1261 *et seq.*), declaring certain lead-containing paint, and toys or other articles intended for use by children bearing such paint, to be banned hazardous substances, has been extended from September 24, 1976, until October 26, 1976.

A notice was published in the FEDERAL REGISTER of August 10, 1976 (41 FR 33636), commencing a proceeding under recent amendments (Pub. L. 94-317) to the Lead-Based Paint Poisoning Prevention Act (LBPPPA) (42 U.S.C. 4801 *et seq.*) for a determination by the Consumer Product Safety Commission of a safe level of lead in paint for residential uses. On the same date a notice was also published proposing a consumer product safety rule under the Consumer Product Safety Act (CPSA) to declare as banned hazardous products paint, similar surface-coating materials, toys, articles intended for use by children, and articles of furniture, containing or bearing lead or paint or other similar surface-coating materials with lead in excess of the level determined safe under the LBPPPA. Since the proposal under the Consumer Product Safety Act would, if promulgated, supplant the FHSA lead paint regulation, a proposal was also published on August 10 (41 FR 33640) to revoke the regulation simultaneous with the promulgation of the consumer product safety rule.

Elsewhere in this issue of the FEDERAL REGISTER, (FR Doc. 76-29322, Proposed Rules and FR Doc. 76-29321, notices) notices have been published extending the period of time for the filing of written comments and information on the LBPPPA and CPSA proceedings from September 24, 1976, until October 26, 1976. This extension was based upon a request submitted by the National Paint and Coatings Association for additional time to submit information. Since the proposed revocation of the regulation under the FHSA is directly related to the proceedings under the LBPPPA and CPSA, it is appropriate to extend the comment period on the FHSA proposal from September 24, 1976, until October 26, 1976, as well.

Accordingly, pursuant to provisions of the Federal Hazardous Substances Act (sec. 2(f)(1)(A), (q), 74 Stat. 372, 374, as amended by 80 Stat. 1304-05; (15 U.S.C. 1261(f)(1)(A), (q))) and the Federal Food, Drug, and Cosmetic Act (sec. 701(e), (f), (g), 52 Stat. 1055-56, as amended 70 Stat. 919, 72 Stat. 948; (21 U.S.C. 371(e), (f), (g)) and under authority vested in the Commission by the Consumer Product Safety Act (sec. 30(a), 86 Stat. 1231; 15 U.S.C. 2079(a)), the Commission extends the period of time for submitting written comments on the proposal of August 10, 1976 (41 FR 33640), to revoke 16 CFR 1500.17(a)(6), until October 26, 1976.

Interested persons are invited to submit, on or before October 26, 1976 written comments, regarding this proposal. Written comments and any accompanying data or material should be submitted preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the Office of the Secretary, 3rd floor, 1111 18th Street N.W., Washington, D.C. during working hours Monday through Friday.

Dated: October 1, 1976.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

V 41 1995 OCT 6 76 UM

CONSUMER PRODUCT SAFETY COMMISSION

LEAD-BASED PAINT

Proceeding To Determine Safe Level; Extension of Comment Period

The purpose of this notice is to announce that the comment period on the proceeding to determine a safe level of lead in paint has been extended from September 24, 1976, until October 26, 1976.

On August 10, 1976, the Consumer Product Safety Commission published a notice in the FEDERAL REGISTER (41 FR 33636) commencing a proceeding under recent amendments (Pub. L. 94–317) to the Lead-Based Paint Poisoning Prevention Act (LBPPPA) (42 U.S.C. 4801 *et seq.*) to determine a safe level of lead in paint for residential uses.

Under the amended LBPPPA the Commission has been directed to determine whether a level of lead in paint which is greater than 0.06 percent, but not over 0.5 percent, is safe. If the Commission makes such a determination the definition of the term "lead-based paint," with respect to paint manufactured after the expiration of the 6-month period beginning on the date of the Commission's determination, means paint containing by weight (calculated as lead metal) in the total non-volatile content of the paint, or the equivalent measure of lead in the dried film of paint already applied, or both, more than the level of lead determined by the Commission to be safe.

If the definition of the term "lead-based paint" has not been established by a Commission determination the term means, with respect to paint which is manufactured after June 22, 1977, paint containing more than 0.06 percent lead by weight. The present definition of the term "lead-based paint" is paint containing more than 0.5 percent lead by weight.

The amended LBPPPA specifies that the Commission determination of a safe level of lead in paint is to be made before December 23, 1976, and is to be based on all available data and information after providing an opportunity for an oral hearing and after considering recommendations of the Secretary of Health, Education, and Welfare (including those of the Center for Disease Control) and of the National Academy of Sciences.

The oral hearing in this matter was conducted on September 13, 1976, and a transcript was made which is available for inspection at the Office of the Secretary, 3rd floor, 1111 18th Street N.W., Washington, D.C. The recommendations of the Department of Health, Education, and Welfare and the National Academy of Sciences as well as other comments and information pertaining to the matter have also been received and are available for inspection in the Office of the Secretary.

The last date for the submission of written information and comments regarding this proceeding had been established by the Commission and announced in the FEDERAL REGISTER notice of August 10, 1976, as September 24, 1976. The National Paint and Coatings Association, however, representatives of which testified at the oral hearing on September 13, has requested that the comment period be extended to provide additional time to submit responses to questions presented at the hearing by counsel for Consumers Union and certain other information. The Commission, after considering this request, believes that it is desirable to have the record for decision as complete as possible, and has therefore decided to extend the comment period to October 26, 1976 for all interested parties. An extension of the comment period to this date is reasonable because it will permit all available information to be evaluated by the Commission prior to its December 22, 1976 deadline for a decision on a safe level of lead in paint.

Accordingly, interested persons may submit relevant written material, including data, views, and arguments, preferably in five copies, addressed to the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, before the close of business, October 26, 1976. Received submissions may be inspected in the Office of the Secretary, 3rd floor, 1111 18th St. N.W., Washington, D.C., during working hours Monday through Friday.

Dated: October 1, 1976.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

PART IV:

FEDERAL ELECTION COMMISSION

POLICY STATEMENTS ON CONTRIBUTIONS

INDEX TO MULTICANDIDATE COMMITTEES

V41 I195 OCT 6 76 UM

FEDERAL ELECTION COMMISSION

[Notice 1976-46]

CONTRIBUTIONS TO POLITICAL COMMITTEES MAKING INDEPENDENT EXPENDITURES ON BEHALF OF A CLEARLY IDENTIFIED CANDIDATE

Policy Statement

The Commission today publishes a policy statement concerning application of the contribution limits in 2 U.S.C. 441a to persons who make contributions to a political committee which makes independent expenditures on behalf of at least one Federal candidate. Also published with this policy statement is a recent response of the Commission to an Advisory Opinion Request which concerns one factual situation involving application of this policy.

Dated: October 1, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

The Commission's proposed regulations, § 110.1(h), provide that a person may contribute $1,000 per election to a candidate (or $5,000 if the contributor is a qualified multicandidate political committee), and also contribute to a political committee which has supported, or anticipates supporting that candidate without violating the contribution limitations contained in 2 U.S.C. 441a(a)(1)(A) and (2)(A): *Provided,* (i) The recipient political committee is not the candidate's principal campaign committee or other authorized committee or a single candidate committee, and (ii) the contributor does not give to the committee with the knowledge that a substantial portion of the contributor's funds will be contributed by the committee to that candidate or expended on behalf of the candidate. Thus, if the donor had contributed the applicable maximum contribution to the candidate, and the requirements of § 110.1(h) were not met, the donor could not contribute any amount to the political committee with respect to the same election. See the Commission's response to Advisory Opinion Request 1976-20 (published as an appendix to this statement). If the political committee satisfied the requirements of § 110.1(h) it could accept, as "any • • • political committee," contributions not exceeding $5,000 per year from both individuals and multicandidate political committees, 2 U.S.C. 441a(a)(1)(C) and (2)(C), including such contributions from those persons who had given their maximum contribution to a candidate the political committee supports.

In the case of the general election campaign of presidential candidates who have accepted full public funding, 26 U.S.C. 9003(b) prohibits the acceptance of a contribution in any amount "by such candidates or any of their authorized committees." The Commission concludes that this section would not prohibit an unauthorized committee making independent expenditures on behalf of such a presidential candidate from accepting contributions limited to $1,000 from an individual donor, or $5,000 from a multicandidate political committee. Although contributions to such an unauthorized committee are made for the benefit of the candidate and therefore counted against the donor's contribution limit to the candidate, the contribution is given, not to the candidate, but to the unauthorized committee. Hence, there is no prohibited acceptance of the contribution by the presidential candidate or any authorized committees of that candidate.

Contributions, by definition, are made for the purpose of influencing a Federal election. That the contribution is made to a committee making independent expenditures does not remve the "purpose" from the contribution. Therefore, the $5,000 and $25,000 contribution limitations apply to contributions made to committees making independent expenditures, and if the committee were a single candidate committee contributions to it would be limited to $1,000 per election, or $5,000 if the donor were a multicandidate political committee (assuming the donor had given no contribution to the candidate the committee supports).

It is further the view of the Commission that expenditures made on behalf of a clearly identified candidate by or through any person who is, or has been, authorized to raise or expend funds; who is, or has been, an officer or an authorized committee of that candidate; or who is, or has been receiving any form of compensation or reimbursement from the candidate, the candidate's committee or agent is presumptively not independent, see § 109.1(b)(4) of the proposed regulations.

This policy statement is being issued on an interim basis for guidance to candidates and committees pending final issuance by the Commission of regulations. Proposed regulations were submitted to the Congress on August 3, 1976, and published in the FEDERAL REGISTER of August 25. They may be prescribed only after expiration of thirty legislative days from the date received by Congress and only if neither the House nor the Senate has disapproved the proposed regulations during that period.

Re: AOR 1976-20
MR. CHARLES H. BREECHER,
Delaware Volunteers for Reagan,
133 Columbia Avenue,
Rehoboth Beach, Del. 19971

AUGUST 17, 1976.

DEAR MR. BREECHER: This responds to your request of May 15, 1976, for an opinion regarding the application of contribution limits of the Federal Election Campaign Act of 1971, as amended ("the Act"), to donations by any person to an unauthorized political committee.

We regret the delay in answering your inquiry, but, subsequent to the Supreme Court's decision in "Buckley v. Valeo," 424 U.S. 1 (1976), the Commission was required to suspend the issuance of advisory opinions until after the date of its reconstitution. Moreover, 2 U.S.C. 437f, as amended by the Federal Election Campaign Act Amendments of 1976, now requires the Commission to formulate its rules of general applicability by proposing formal regulations, rather than by the advisory opinion process. The Commission has recently approved proposed regulations for transmittal to Congress which directly relate to the issues raised in your request.

You state you are treasurer of an unauthorized political committee, Delaware Volunteers for Reagan, and you ask whether contributions to this committee are subject to any limitation under the Act. 2 U.S.C. 431(d) defines a "political committee" as any committee (whether or not authorized) which receives contributions or makes expenditures in excess of $1,000 during a calendar year; "contributions" and "expenditures" are gifts or payments made for the purpose of influencing a Federal candidate's election, see §§ 431(e) and (f). Under 2 U.S.C. 441a(a)(1)(C) and (a)(2)(C) persons[1] and multi-candidate political committees are limited to contributions not in excess of $5,000 in any calendar year to "any • • • political committee." Therefore, as a general rule a committee within the definition of § 431(d) that is neither an authorized candidate committee nor a committee established by a national party, may accept contributions from any one *person* not in excess of $5,000 per calendar year and any contribution from an *individual* would be applied against his or her $25,000 annual contribution limitation contained in 2 U.S.C. 441a(a)(3). However, under the circumstances discussed below, donors to your committee will be regarded as making contributions to the single candidate supported by your committee and thus subject to the $1,000 limit in 2 U.S.C. 441a(a)(1), or $5,000 if the donor is a qualified multi-candidate committee, 2 U.S.C. 441a(a)(2).

Your request raises the question whether persons who have already contributed their maximum amount under the Act to Governor Reagan may contribute *any* amount to Delaware Volunteers for Reagan, which though an unauthorized political committee, is apparently supporting only his candidacy. 2 U.S.C. 441a(a)(1)(A) places a $1,000 per election limit on contributions by persons "to a Federal candidate." Furthermore, in addition to direct contributions to the candidate, contributions are considered to be made "to" a candidate if they are contributions made to an authorized political committee of the candidate (section 441a(a)(7)(A); expenditures made in consultation with or at the suggestion of the candidate (section 441a(a)(7)(B)(i)); or contributions made either directly or indirectly on behalf of a particular candidate (section 441a(a)(8)).

The above statutory provisions were designed to enforce the limitations on contributions upheld by the Supreme Court in Buckley by closing loopholes that would otherwise allow a contributor to give his maximum permissible contribution directly to a candidate, and then indirectly contribute additional funds to the same candidate, by either making expenditures himself in cooperation with the candidate, or by contributing to a political committee which is solely supporting the same candidate. The Joint Explanatory Statement of the Committee of Conference, in explaining the above provisions, stated:

The conferees also agree that the same limitations on contributions that apply to a

[1] "Person" is defined in 2 U.S.C. 431(h), and includes an individual, partnership, committee and any other organization or group of persons.

candidate shall also apply to a committee making expenditures solely on behalf of such candidate.

• • • • •

This definition [of "contribution"] distinguishes between independent expressions of an individual's views and the use of an individual's resources to aid a candidate in a manner indistinguishable in substance from the direct payment of cash to a candidate. Conference Report, No. 94-1057, pp. 58, 59, April 28, 1976.

The Commission's proposed regulations reflect this Congressional intent in § 110.1(h), by stating that a person may contribute to a candidate and also contribute to a political committee supporting the candidate so long as (1) the political committee is not an authorized committee of the candidate or a single candidate committee supporting only the same candidate; (2) the contributor does not give with the knowledge that a substantial portion will be contributed to or expended on behalf of that candidate; and (3) the contributor does not retain control over the funds. Thus, the Delaware Volunteers for Reagan could not accept contributions from persons who had already contributed their maximum amount to Governor Reagan, one of his authorized political committees, or another committee supporting only Governor Reagan's candidacy, since contributions to a single candidate political committee are clearly made "on behalf of" the candidate supported by the committee.

You raise the question whether contributions to an unauthorized political committee should be treated as independent expenditures, and thus subject to no limitation pursuant to Buckley. The Supreme Court struck down expenditure limitations, holding them violative of the First Amendment right of freedom of speech, but found limitations on contributions were constitutional:

A limitation on the amount of money a person may give to a candidate or campaign organization thus involves little direct restraint on his political communication, for it permit the symbolic expression of support evidenced by a contribution but does not in any way infringe the contributor's freedom to discuss candidates and issues. 96 S. Ct. 612, at 636.

The focus of the Court was on the constitutional right to "vigorous advocacy" by an individual or organization; however, this right did not include donations to another person or organization to communicate for the original "speaker." Under Buckley, the 1976 Amendments to the Federal Election Campaign Act of 1971, and the Commission's proposed regulations, Part 109, a person or organization is subject to no limitation on "independent[2] expenditures"[3] made for or against Federal candidates. The right to "speak one's mind" is thus unimpaired. However, when the speaker chooses to contribute to another person or organization, the Court's rationale for upholding contribution limits comes into play, and the Act's limits would apply to this activity.

In summary, it would be permissible under the Act for a person to do either of the following things, but only one: (1) contribute $1,000 per election directly to a Federal candidate or the candidate's authorized committees, (2) contribute $1,000 per election to an unauthorized single candidate committee that makes independent expenditures on behalf of the candidate.[3] A person may contribute $5,000 during a calendar year to a political committee other than the type described in (1) and (2) only if the conditions in § 110.1(h) of the proposed regulations are satisfied. In any event, the person may also make unlimited independent expenditures from his or her personal funds to influence the nomination or election of the candidate. The foregoing conclusions relating to the limits on contributions to an unauthorized single candidate committee shall only apply with respect to contributions made by the donor after July 30, 1976, the date the Commission approved § 110.1(h) of the proposed regulations.

This response relates to your opinion request but may be regarded as informational only and not as an advisory opinion since it is based in part on proposed regulations of the Commission which must be submitted to Congress. The proposed regulations may be prescribed in final form by the Commission only if not disapproved either by the House or the Senate within thirty legislative days from the date received by them. 2 U.S.C. 438(c). The proposed regulations were submitted to Congress on August 3, 1976. It is the Commission's view that no enforcement or compliance action should be initiated in this matter if the actions of the political committee you represent conform to the conclusions and views stated in this letter.

Sincerely yours,

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

[Notice 1976-50]

FAMILY MEMBER CONTRIBUTION LIMITS IN LIGHT OF BUCKLEY v. VALCO AND THE 1976 AMENDMENTS TO THE FEDERAL ELECTION CAMPAIGN ACT OF 1971

Policy Statement

The Commission today publishes a policy statement concerning application of the contribution limits in 2 U.S.C. 441a to contributions made by members of a candidate's immediate family to the related candidate. The policy statement summarizes the legal developments with respect to this issue beginning with the enactment of the 1974 Amendments to the Federal Election Campaign Act of 1971 and concluding with the effect of the 1976 Amendments. As an appendix to the policy statement, the Commission also publishes two advisory opinions relating to this issue, AO 1975-65 and AO 1976-26.

Dated: OCTOBER 1, 1976.

VERNON W. THOMSON,
Chairman for the
Federal Election Commission.

The Commission issues this policy statement under authority granted it by 437c(b)(1) and 437d(a)(9) of Title 2, United States Code, in response to the uncertainty which exists concerning the correct contribution limits for members of a Federal candidate's immediate family.

The applicable limitation on the amount an immediate family member could contribute to a Federal candidate has changed during the period between the enactment of the 1974 and 1976 Amendments to the Federal Election Campaign Act of 1971. Title 18, United States Code 608(a)(1) permitted a candidate to "make expenditures from his personal funds, or the personal funds of his immediate family" up to the amount designated for the Federal office sought. This language was interpreted by the United States Court of Appeals, in August 1975, as replacing the 608(b)(1) $1,000 individual contribution limitation for members of a candidate's immediate family. "Buckley v. Valeo," 519 F. 2d 821, 854 (1975). The Commission adopted the appellate court's interpretation in Advisory Opinion 1975-65 (40 FR 58393, December 16, 1975), which held that an immediate family member could lawfully contribute in excess of $1,000 to a related candidate, so long as his or her total yearly contributions did not exceed $25,000, the annual aggregate limitation on contributions by an individual contained in 18 U.S.C. § 608(b)(3) [now codified as 2 U.S.C. 441a(a)(3)].

Subsequently, on January 30, 1976 the Supreme Court held in "Buckley v. Valeo," 424 U.S. 1, that the expenditure limitations in sections 608(a), 608(c) and 608(e) of Title 18, United States Code were unconstitutional. The Court upheld the limitations on contributions[1] to a Federal candidate, however, and in footnote 57 of the opinion reviewed the legislative history of the individual contribution limitation. The Court strongly suggested that Congress intended such family members to be subject to the $1,000 per election individual limitation on contributions to a Federal candidate.

The $1,000 individual contribution limitation on family members was clearly incorporated into the 1976 Amendments, which went into effect on May 11, 1976. Now codified at 2 U.S.C. 441a(a)(1)(A), the limitation states: "No person shall make contributions to any candidate and his authorized political committees with respect to any election for Federal office which, in the aggregate, exceed $1,000." As further evidence of congressional intent, the Commission notes the following language in the Joint Explanatory Statement of the Committee of Conference (Conference Report, No. 94-1057, p. 73): "The conference substitute does not in any way disturb the $1,000 contribution limit applicable to all individuals, *including the immediate family of a candidate.*" (Emphasis added.) Section 110.10(b) of the Commission's proposed regulations, involving expenditures by candidates, illustrates the application of this limita-

[2] "Independent expenditure" is defined as an expenditure by a person expressly advocating the election or defeat of a clearly identified candidate which is made without cooperation or consultation with any candidate, and which is not made in concert with, or at the request of any candidate, 2 U.S.C. § 431(p).

[3] If the person is a multi-candidate committee under 2 U.S.C. § 441a(a)(4) the applicable amount is $5,000 rather than $1,000.

[1] $1,000 from a person, 2 U.S.C. 441a(a)(1)(A); $5,000 from a multicandidate political committee, 2 U.S.C. 441a(a)(2)(A); and $25,000 annual aggregate by an individual, 2 U.S.C. 441a(a)(3).

V41 1995 OCT 6 76 UMI

tion to family member contributions, by defining "personal funds," in part, as "any assets to which at the time he or she became a candidate the candidate had legal and rightful title * * * and which the candidate had legal right of access to or control over, including funds from immediate family members." (Emphasis added.) It is thus clear that family members are now limited to contributions not in excess of $1,000 per election to related Federal candidates.

In summary, prior to the cited Buckley decision, immediate family members could contribute not in excess of $25,000 to a related Federal candidate; after May 11, 1976 they were limited by the 1976 Amendments to $1,000. During the period between January 30 and May 11, 1976, the law was sufficiently unclear that the Commission will not require refund of any contribution in excess of $1,000 per election, so long as it was within the donor's $25,000 annual contribution limitation. See Advisory Opinion 1976–26. These contributions would be charged, however, against the individual's $1,000 per election contribution limitation after May 11, 1976, since Congress merely incorporated the $1,000 limitation from the 1964 Amendments into the 1976 Amendments. For purposes of this policy an individual's contribution limits with respect to each election would be aggregated. For example, the individual who gave more than $2,000 (or $3,000 if a runoff election was required) to a related candidate in April 1976 could not make any additional contribution after May 11 with respect to any 1976 election in which the candidate was entered or to retire an outstanding debt of that candidate from any 1976 election.

ADVISORY OPINION 1975–65

CONTRIBUTION FROM IMMEDIATE FAMILY FOR SENATE CAMPAIGN

This advisory opinion is rendered under 2 U.S.C. § 437f, in response to a request for an advisory opinion from Congressman Alphonzo Bell which was published as AOR 1975–65 in the FEDERAL REGISTER, September 18, 1975 (40 FR 43162). Interested parties were given an opportunity to submit written comments regarding the request, but none were received.

Representative Bell presents two issues for determination by the Commission: (1) whether the spouses of his children and his wife's brother, sister and parents are members of his "immediate family" for the purpose of limits on contributions from family funds; (2) whether a member of a candidate's immediate family may contribute up to $1,000 (18 U.S.C. § 608(b)(1)) once the candidate has reached the ceiling on permissible expenditures from his or her family's personal funds.

I. MEMBERS OF IMMEDIATE FAMILY

18 U.S.C. § 608(a)(1) provides in pertinent part that:

> No candidate may make expenditures from his personal funds, or the personal funds of his immediate family, in connection with his campaigns during any calendar year for nomination for election, or for election to Federal office in excess of, in the aggregate—
>
> (A) $50,000, in the case of a candidate for the office of President or Vice President of the United States;
>
> (B) $35,000, in the case of a candidate for the office of Senator * * * or
>
> (C) $25,000, in the case of a candidate for the office of Representative * * *.

For the purposes of these limitations on contributions/expenditures from personal funds, the term "immediate family" has been unambiguously defined. According to the explicit language of § 603(a)(2),

> "immediate family" means a candidate's spouse, and any child, parent, grandparent, brother or sister of the candidate, and the spouses of such persons.

Therefore, the brother, sister and parents of Representative Bell's wife are not regarded as members of his "immediate family," whereas the spouses of his children come within the purview of § 603(a)(2).

II. CONFLICT OF 18 U.S.C. §§ 608(a)(1) AND 608(b)(1)

Regarding the second issue raised, it is the opinion of the Commission that an immediate family member may contribute more than $1,000 to the related Federal candidate, provided the member does not exceed the $25,000 aggregate limit on contributions by an individual [18 U.S.C. § 608(b)(3)] and, that the candidate does not surpass the ceiling on contributions and/or expenditures from personal or family funds [18 U.S.C. § 608(a)(1)].

On its face, the language of § 608(a)(1) clearly supports the view of the Commission. A candidate is permitted to make campaign expenditures no greater than the amount designated for the office sought "from his personal funds, *or the personal funds of his immediate family* * * *" The Appellate Court in *Buckley* v. *Valeo*, 510 F.2d 821, at 854 (D.C. Cir., 1975), upheld § 608(a) against constitutional challenge, interpreting it as serving "to relax the $1,000 per candidate contribution limit for a candidate and his immediate family."

§ 608(a) does not relax the $25,000 ceiling on all contributions in a calendar year, however. Each donation of a family member to the campaign of a related candidate must be credited against the § 608(b)(3) limit. A family member who has already made contributions aggregating $25,000 may not, therefore, contribute further to the related candidate.

A candidate, however, is not restricted by the § 608(b)(3) ceiling in drawing monies from personal funds in connection with his/her own campaigns. The language of § 608(a) on its face clearly overrides the application of the $25,000 aggregate contribution limits of § 608(b)(3) as to candidates for the offices of President, Vice President, Senator, or Representative from a state which is entitled to only one Representative [18 U.S.C. § 608(a)(1)(A)–(B)].

After a candidate reaches the appropriate § 608(a) aggregate limit, further contributions by any immediate family member are prohibited. If any family member wishes to further contribute to the candidate or to the candidate's campaign committee, the candidate or another family member who has previously given should request a refund in the same amount from the principal campaign committee in order not to violate § 608(a).

This advisory opinion is issued on an interim basis pending promulgation by the Commission of rules and regulations or policy statements of general applicability.

FEDERAL ELECTION COMMISSION,
Washington, D.C., September 20, 1976.

WAYNE C. MCGARVEY,
Treasurer, Neil Rolde for U.S. Congress, Post Office Box 3786, Portland, Maine 04104.

DEAR MR. MCGARVEY: This letter responds to your letter of April 29, 1976, requesting an opinion reconciling the apparent conflict between Advisory Opinion 1975–65, FEDERAL REGISTER (40 FR 58393, December 16, 1975), and the Supreme Court's discussion of contributions by family members in *Buckley* v. *Valeo*, 424 U.S. 1 (1976).

We regret the delay in answering your inquiry, but subsequent to the Supreme Court's decision in *Buckley* v. *Valeo*, 424 U.S. 1 (1976), the Commission was required to suspend the issuance of advisory opinions until after the date of its reconstitution. Moreover, 2 U.S.C. 437f, as amended by the Federal Election Campaign Act Amendments of 1976, now requires the Commission to formulate its rules of general applicability by proposing formal regulations, rather than by the advisory opinion process. Proposed regulations were sent to the Congress on August 3, 1976.

In AO 1975–65, the Commission concluded that an immediate family member [as defined previously in 18 U.S.C. 608(a)(2)] could contribute more than $1,000 to a related Federal candidate provided that the member did not exceed the $25,000 aggregate limit on contributions by an individual in a calendar year and that the candidate did not surpass the ceiling upon contributions and/or expenditures from personal or family funds [18 U.S.C. 608(a)(1)]. We note that contributions on October 9, 1975, and November 10, 1975, totalling $3,500 were made to the Rolde for Congress Committee by the candidate's father within the period of time in which AO 1975–65 represened the prevailing interpretation of § 608(a). If the $3,500 did not cause Mr. L. Robert Rolde, the candidate's father, to exceed his $25,000 annual contribution ceiling (2 U.S.C. 441a(a)(3)) then the contributions would comport with the Commission's understanding of 18 U.S.C. 608(a) before *Buckley*.

In its opinion in *Buckley*, issued January 30, 1976, the Supreme Court invalidated the ceilings in § 608(a) on campaign expenditures from the candidate's personal funds. Furthermore, in footnote 57, the Court noted, with approval, language from the Conference Report on the 1974 Amendments to the Act which applied the $1,000 limitation on contributions to any candidate [previously 18 U.S.C. 608(b)(1)] to donations by family members.

It is the intent of the conferees that members of the immediate family of any candidate shall be subject to the contribution limitations established by this legislation. If a candidate for office of Senator, for example, already is in a position to exercise control over funds of a member of his immediate family before he becomes a candidate, then he could draw upon these funds up to the limit of $35,000. If, however, the candidate did not have access to or control over such funds at the time he became a candidate, the immediate family member would not be permitted to grant access or control to the candidate in amounts up to $35,000, if the immediate family member intends that such amounts are to be used in the campaign of the candidate. The immediate family member would be permitted merely to make contributions to the candidate in amounts no greater than $1,000 for each election involved. H. Rep. No. 93–1438, p. 58 (1974).

This treatment of expenditures from a candidate's personal funds and of contributions by immediate family members is essentially reflected in the Commission's proposal regulations. I direct you particularly to § 110.10 (copy enclosed) which defines a candidate's "personal funds," from which he/she may spend without limit, as the total assets over which the candidate had, prior to candidacy, both legal and rightful title and access and control.

We understand that L. Robert Rolde, the candidate's father, contributed $2,000 on March 12, 1976, (i.e., after the Supreme Court's prevailing interpretation that the $1,000 limit applied to contributions from immediate family members). Although in excess of the limits now clearly applicable to contributions from members of a candidate's immediate family, the Commission concludes, in view of the uncertainty of the law in this respect during the period between January 30, 1976 and May 11, 1976 (the effective date of the 1976 Amendments), that contributions made during that period by immediate family members need not be returned if they are otherwise in conformity to the holding in AO 1975–65. However, such contributions would be counted against the limits now held to be applicable to family members under the 1976 Amendments and the proposed regulations. This means that L. Robert Rolde could make no further contribution to the candidate with respect to any primary or general election in 1976.

This response constitutes an advisory opinion concerning the application of a general rule of law stated in the Act to the specific factual situation set forth in your request. See 2 U.S.C. § 437f.

Sincerely yours,

VERNON W. THOMSON,
Chairman for the Federal Election Commission.

Enclosure.

[Notice 1976–51]

MULTICANDIDATE COMMITTEES

Index

The Federal Election Commission today publishes an Index of "Multicandidate Political Committees," which is defined by 2 U.S.C. 441a(a)(4) of the Federal Election Campaign Act of 1971, as amended, to mean a political committee:

> * * * registered under section 433 for a period not less than 6 months, which has received contributions from more than 50 persons, and, except for any State political party organizations, has made contributions to 5 or more candidates for Federal office.

This Multicandidate Committee list is derived from a review of the reports and statements filed with the Commission, the General Accounting Office, the Clerk of the House, and the Secretary of the Senate, since April 7, 1972. Please note that all committees which had met the qualifications for Multicandidate Committee status prior to January 1, 1975, are determined to have been qualified as of January 1, 1975, the effective date of the 1974 amendments to the Federal Election Campaign Act.

This index does not in any way treat the question of affiliation between political committees, multicandidate or otherwise. (See FEC Proposed Regulations Section 110.3, 41 FR 35949 August 25, 1976.) A consolidated index specifically identifying the status of such affiliated committees will be published at a later date.

The Commission is publishing this Index as prescribed by 2 U.S.C. 438(a)(6), requiring periodic publications in the FEDERAL REGISTER of an Index of Multicandidate Committees, including the date of registration of such committees and the committees' dates of qualification under FEDERAL REGISTER on a periodic basis. Additional copies of this Index are available from the Commission for $0.25 per copy.

Any person who believes that a committee not included on this Index has, in fact, met the qualifications for multicandidate status should so advise the Commission in writing and provide documentation as appropriate, so that the Commission can correct or update its records.

PARA PERSONA DE HABLA ESPANOL

Si usted tiene dificultades en entender el indice, escriba a Federal Election Commission, 1325 K Street, NW, Washington, DC 20463

Dated: October 1, 1976.

VERNON W. THOMSON,
Chairman,
Federal Election Commission.

V41 I195 OCT 6 76 UM

VOL 41 196 OCT 7 76 UM

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
NRC	USDA/ASCS		NRC	USDA/ASCS
DOT/COAST GUARD	USDA/APHIS		DOT/COAST GUARD	USDA/APHIS
DOT/NHTSA	USDA/FNS		DOT/NHTSA	USDA/FNS
DOT/FAA	USDA/REA		DOT/FAA	USDA/REA
DOT/OHMO	CSC		DOT/OHMO	CSC
DOT/OPSO	LABOR		DOT/OPSO	LABOR

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523-3240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

INFORMATION AND ASSISTANCE

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PETROLEUM ALLOCATION AND PRICE REGULATIONS

Exemption of Naphthas, Gas Oils and "Other Products" From the Mandatory Petroleum Allocation and Price Regulations; Corrections

On July 20, 1976, the Federal Energy Administration ("FEA") issued an amendment providing generally for the exemption of naphthas, gas oils and "other products" from the price and allocation regulations. (41 FR 30096, July 22, 1976) The exemption was effective September 1, 1976 since the amendment was not disapproved by either house of Congress within the prescribed review period under the procedures set forth in section 551 of the Energy Policy and Conservation Act.

This amendment is issued to correct minor errors and omissions in the July 20 amendment and to amend certain pricing provisions incidentally affected to account more precisely for the exemption.

I. "B_i'" FACTOR

In exempting naphthas, gas oils, and certain "other products" in the July 20 amendment, FEA inadvertently failed to correct part of the definition of the "B_i'" factor in § 212.83(c)(2)(iii)(D) of the refiners' price formulae. The definition formerly referred only to costs of purchased *covered* products, but with the exemption from the regulations of a significant gasoline feedstock, naphtha, the reference is no longer appropriate. The costs of all products which are purchased and refined or blended in producing a currently covered product and the costs of which were includable before any deregulation actions were taken are properly includable in the costs of that currently covered product and are so included in this amendment.

II. DEFINITION OF "ADDITIVE"

In addition, in exempting the various covered products, FEA created an ambiguity in the refiners' price formulae as to the treatment of products which are purchased and added to or blended with crude oil or covered products during the refining process and which were formerly covered products. Under the current language of § 212.83(c)(2), such products might conceivably be treated either as included within the "B" factor as purchased products, as intended by FEA, or as "additives" as part of "increased non-product costs." The definition of "additives" should properly make clear that it continues to include only those products which were never covered products and is accordingly so revised.

III. NATURAL GAS LIQUIDS

The July 20 amendment added § 212.56 to Subpart C of Part 212, setting forth which general refinery products had been exempted (by that or earlier amendments). Section 212.56 (and also § 212.83 and § 212.93, as then amended) described these products as all general refinery products other than propane, butane, natural gasoline and aviation gasoline; omitted from that listing were natural gas liquids ("NGL's"). The July 20 amendment did not purport to exempt NGL's; nor had they been exempted in any previous amendment. This amendment corrects the listing in each of the above-named sections. For added clarity, § 212.56 as adopted today sets forth those general refinery products which are and which are not exempt from Part 212 and a new § 212.57 is added to include No. 2 oils among the listed exempt products of Subpart C. The exemption had previously been made effective by a revision in the definition of "covered products."

IV. OTHER TECHNICAL CHANGES

In the July 20 amendment, certain of the revised sections were misnumbered. This amendment incorporates the technical changes necessary to place the amended sections in the proper sequential order with the correct designations. In each case set forth in the next paragraph, the language of the July 20 amended sections is retained; only the designations are changed.

Specifically, the technical changes include the following: First, the amendatory language of 10 CFR 210.35 is redesignated to reflect the addition of paragraphs (d), (e), and (f), rather than the addition of paragraphs (c), (d), and (e) as were added in the July 20 amendment. Secondly, the amendatory language of 10 CFR 211.1 is renumbered to reflect the addition of subparagraphs (7) and (8) to paragraph (b) rather than the addition of paragraphs (6) and (7) as were added in the July 20 amendment. Finally, the amendatory language of 10 CFR 212.93 is redesignated to reflect the addition of subclause (1)(2)(i)(C) rather than the addition of subclause (1)(2)(ii)(B) or subclause (1)(2)(i)(B), either of which, because of ambiguous amendatory language, could be understood to have been added in the July 20 amendment.

V. EFFECTIVE DATE

This amendment is only interpretive in nature and is intended to correct inadvertent omissions or technical errors in the regulations. The Federal Energy Administration finds that good cause exists to issue this amendment, effective as of September 1, 1976, without notice, opportunity for comment, or delay in the effective date of the amendment.

This amendment is a mere extension and refinement of the amendment issued July 20, 1976, and is consistent with and does not change the substance of the original amendment. Before that rule was promulgated, a hearing was scheduled and written comments were solicited. Many oral and written comments were received and those comments have been taken into account in the promulgation of this amendment. The notice and hearing requirements of Subsections 7(i)(1)(B) and (C) of the Federal Energy Administration Act of 1974 (Pub. L. 93–295 as amended by Pub. L. 94–385) have therefore already been satisfied and a further opportunity for the presentation of oral and written views is unnecessary.

In addition, because the present amendment is not a significant departure from the July 20 amendment, the requisite findings have been made and procedures followed pursuant to Sections 455 and 551 of the Energy Policy and Conservation Act (Pub. L. 94–163) and Section 12 of the Emergency Petroleum Allocation Act of 1973 (Pub. L. 93–159 as amended by Pub. L. 94–163 and Pub. L. 94–385).

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended, Pub. L. 93–511, Pub. L. 94–99, Pub. L. 94–133, Pub. L. 94–163, and Pub. L. 94–385; Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended, Pub. L. 94–385; Energy Policy and Conservation Act, Pub. L. 94–163, as amended, Pub. L. 94–385; E.O. 11790, 39 FR 23185.)

Issued in Washington, D.C., October 1, 1976, effective September 1, 1976.

DAVID G. WILSON,
Acting General Counsel.

PART 210—GENERAL ALLOCATION AND PRICE RULES

1. Section 210.35 is revised by adding paragraphs (d), (e) and (f) as follows:

§ 210.35 Exempted products.

• • • • • •

(d) (1) Naphthas as defined in § 211.182 of this chapter are exempt from the provisions of Part 211 of this chapter except as pertains to allocation of naphtha for synthetic natural gas plant feedstock use.

(2) Naphthas as defined in § 212.31 of this chapter are exempt from the provisions of Part 212 of this chapter.

V41 1976 OCT 7 76 UM

(e) (1) Gas oils as defined in § 211.182 of this chapter are exempt from the provisions of Part 211 of this chapter.

(2) Gas oil as defined in § 212.31 of this chapter is exempt from the provisions of Part 212 of this chapter.

(f) (1) Other products as defined in § 211.202 of this chapter are exempt from the provisions of Part 211 of this chapter.

(2) Benzene, greases, hexane, lubricant base oil stocks, lubricants, special naphthas (solvents), toluene, unfinished oils, xylene and other finished products, as those terms are defined in § 212.31 of this chapter are exempt from the provisions of Part 212 of this chapter.

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

2. Section 211.1 is amended in paragraph (b) by adding new subparagraphs (7) and (8) as follows:

§ 211.1 Scope.

(b) • • •

(7) Notwithstanding the provisions of Subpart J of this part, naphthas and gas oils are excluded from this part except with respect to the use of naphtha for synthetic natural gas plant feedstock pursuant to §§ 211.183 and 211.29.

(8) Notwithstanding the provisions of Subpart K of this part, other products as defined in § 211.202 of this part are excluded from this part.

PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

3. Section 212.56 is revised to read as follows:

§ 212.56 General refinery products.

(a) The following general refinery products are exempt from the provisions of this part: benzene, gas oil, greases, hexane, kerosene, lubricant base oil stocks, lubricants, naphthas, No. 1 heating oil, No. 1–D diesel fuel, residual fuel oil, special naphthas (solvents), toluene, unfinished oils, xylene, and other finished products.

(b) The following general refinery products are not exempt from the provisions of this part: aviation gasoline, butane, natural gas liquids, natural gasoline, and propane.

4. Section 212.57 is added to read as follows:

§ 212.57 No. 2 oils.

The prices charged for No. 2 oils are exempt.

5. The definition of "$B_i{}^t$" in § 212.83 (c) (2) (iii) (D) is hereby amended to read as follows:

§ 212.83 Price rule.

(c) *Allocation of increased costs.*

(2) *Formulae.*

(iii) *Definitions.*

(D) *The "B" factor.*

$$B_i = B_i{}^t + B_i{}^p + B_i{}^r$$

"B_i" [definition unchanged]

$$B_i{}^t = c_i{}^t - c_i{}^o - Y_i\ (q_i{}^t - q_i{}^o)$$

"$B_i{}^t$" is the total increased cost of the specific product or products of the type "$_i$" purchased or landed in the period "t", provided such cost is not included in computing "A_i". The cost of a specific covered product or products of the type "$_i$" shall include the costs of a product or products not of the type "$_i$" that was a covered product as of May 31, 1976, that is purchased and refined or blended, and that is attributable to the production of the covered products of the type "$_i$". The cost and quantity of products purchased or landed that are consumed as refinery fuel shall be excluded from this amount.

Where:

$c_i{}^o$ = [definition unchanged]
$c_i{}^t$ = [definition unchanged]
$q_i{}^o$ = [definition unchanged]
$q_i{}^t$ = [definition unchanged]
Y_i = [definition unchanged]
"$B_i{}^p$" [definition unchanged]
"$B_i{}^r$" [definition unchanged]

6. Section 212.83(c) (2) (iii) (E) (III) is hereby amended by revising the definition of "additive" as follows:

§ 212.83 Price rule.

(c) *Allocation of increased costs.*

(2) *Formulae.*

(iii) *Definitions.*

(E) *The "N" factor.*

(III) *Additive cost increases.*

"Additive" means those materials and compounds including catalysts and process chemicals, which were not covered products as of May 31, 1976 and which are added to or blended with crude oil or covered products during the refinery process.

7. Section 212.93 is amended in clause (i) of subparagraph (2) of paragraph (l) to add subclause (C) as follows:

§ 212.93 Price rule.

(l) *Reallocation of increased product costs among products.*

(2) • • •

(i) • • •

(C) Beginning on July 1, 1976, no increased costs for general refinery products other than propane, butane, natural gasoline, natural gas liquids, and aviation gasoline may be reallocated to maximum allowable prices for any other covered product.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 76-EA-53; Amdt. 39-2738]

PART 39—AIRWORTHINESS DIRECTIVES

Bellanca Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to issue an airworthiness directive applicable to Bellanca type airplanes.

There had been reports of deterioration in the wooden wing spars of the subject aircraft due to the collection of water in the inboard wing area. On July 14, 1976, an emergency airmail directive was sent to all owners of the subject airplanes in view of the hazard to air safety. That hazard still exists.

Since this deficiency can exist or develop in aircraft of similar type design, an airworthiness directive is being issued which will require a repetitive inspection for deterioration. Thus, in view of the hazard, notice and public procedure hereon are unnecessary and the rule may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation Regulations is amended by issuing a new airworthiness directive as follows:

Applies to Bellanca CH, CH–300 Pacemaker, 300–W Pacemaker, CH–400 Skyrocket, E Pacemaker, F. Skyrocket, 14–9, 14–9L, 14–12F–3, 14–13, 14–13–2, 14–3–3, 14–13–3–3W, 31–42 Pacemaker Aircraft, certificated in all categories.

To prevent failure of forward or aft wing spars due to wood decay caused by water collecting in the wing, accomplish the following: Prior to the next flight after receipt of this AD unless already accomplished, and at each annual inspection thereafter, perform the following or an approved equivalent inspection:

(a) Using a blunt tool (e.g. screwdriver handle) tap along the entire length of the upper and lower skin directly over the front and rear spars starting inboard of the root rib. A decayed area will emit a sound that has a discernible difference in quality in comparison to an undecayed section. Fabric covered wings can be inspected by depressing the fabric over the spar prior to tapping. A suspected area must be inspected visually through available skin access holes, or cut outs in the skin. The front face of the rear spar and the front spar must also be checked by inserting an awl through the drain holes on the lower surface of the wing and tapping.

(b) Using a light and mirror, inspect the interior of the wings for moisture, water stains, pooled dust or dirt which may indicate previously collected water, wood discoloration, woodchecks, delamination of surfaces and corrosion of metallic surfaces. The inspection will include among other areas:

1. Inboard of root rib including the ends of front and rear spar and spar attachment and the inside surface of top and bottom skin and root rib.

2. Forward face of front spar visible through gap between fuselage and lower wing surface.

3. Forward face of rear spar to root rib, visible through gap between fuselage and lower wing surface.

4. Aft face of rear spar, visible through lightening holes or cut-outs after flaps are removed. For airplanes not equipped with flaps a skin cut-out on the bottom wing may be used.

5. Flap stops for airplanes so equipped.

6. Forward face of front spar in the vicinity of landing light for airplanes so equipped.

7. The plywood wing skin interior for airplanes so equipped.

8. Interior of wing at trailing edge where fabric terminates including the area around the flaps for airplanes so equipped.

9. Inspect for restriction in all drain holes in wing bottom surface.

10. Inspect the seal (e.g. fabric fillet, channel rubber with compatible sealant etc.) at the intersection of the fuselage and top wing skin leading edge fairing.

11. Inspect for serviceability of the seal (e.g. doped fabric fillet, silicone rubber sealant, etc.) between the fuel tank scupper and wing skin.

12. The spar butt ends.

(c) On the exterior surfaces of the wing, inspect for any damage that may allow water entry such as cracks or breaks in the paint, bubbles, discoloration, boils, soft spots or other evidence of fabric deterioration or fabric delamination from wood skin. Include in the inspection the wing root area, top and bottom surfaces of front and rear spars inboard of landing gear, wing walk area for airplanes so equipped and the top and bottom of the fuel tank area.

(d) If any defects set forth in paragraphs (b) and (c) are detected, repairs must be accomplished in accordance with FAA-approved standard practice AC 43–13–1A or an equivalent repair approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, prior to further flight, except that the airplane may be flown in accordance with FAR 21.197 to a base where the repair can be performed.

(e) All skins that are cut out in accordance with paragraph (a) must be repaired in accordance with paragraph (d).

This amendment is effective October 8, 1976, and was effective upon receipt for all recipients of the airmail directive of July 14, 1976.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Jamaica, N.J., on September 24, 1976.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.76-29138 Filed 10-6-76;8:45 am]

[Docket No. 76-NW-20-AD; Amdt. 39-2740]

PART 39—AIRWORTHINESS DIRECTIVES

Soloy Turbine Converted Hiller UH–12D and UH–12E Helicopters

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on September 8, 1976, and made effective immediately as to all known United States operators of Soloy Turbine Converted Hiller UH–12D and UH–12E Helicopters. The directive imposes a limitation prohibiting flight in outside air temperatures of 32 degrees F. or below until certain modifications have been performed to the engine control cables.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of the Federal Aviation Regulations.

HILLER AVIATION. Applies to Model UH–12D and UH–12E Helicopters which have been converted to turbine power in accordance with Soloy Conversions, Limited, STC Nos. SH177WE and SH178WE respectively certificated in all categories. Compliance required as indicated.

To prevent loss of helicopter control due to freezing of the governor cable, throttle cable, and/or anti-ice cable accomplish the following:

(A) Within 15 days time in service after the receipt of this telegraphic AD, install a placard in view of the pilot which states: "Flight in outside air temperature of 32 degrees F. or lower is prohibited."

(B) Within 60 days time in service after the receipt of this telegraphic AD, perform the modifications contained in Soloy Conversions, Ltd., Service Bulletin 01–560 dated September 3, 1976, or later FAA approved revisions.

(C) The operation restriction prescribed in (A) above may be discontinued and the placard may be removed when the control cable modifications required by (B) above have been completed.

(D) Equivalent procedures may be approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region, upon the submission of adequate substantiating data.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Soloy Conversions, Limited, P.O. Box 60, Chehalis, Washington 98532. These documents may also be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective on October 7, 1976, for all persons except those to whom it was made effective immediately by telegram dated September 8, 1976.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)).)

Issued in Seattle, Wash., September 24, 1976.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1976.

C. B. WALK, JR.,
Director, Northwest Region.

[FR Doc.76-29137 Filed 10-6-76;8:45 am]

[Airspace Docket No. 76-GL-25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 32240 of the FEDERAL REGISTER dated August 7, 1976, the Federal Aviation Administration published a notice of proposed rulemaking which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Peoria, Illinois.

Interested persons were given thirty days to submit written comments, suggestions, or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., December 30, 1976.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348), sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)).)

Issued in Des Plaines, Ill., on September 15, 1976.

JOHN M. CYROCKI,
Director, Great Lakes Region.

In § 71.181 (41 FR 440), the following transition area is amended to read:

PEORIA, ILLINOIS

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 40°54' N., longitude 89°59' W., to latitude 40°53' N., longitude 89°33' W., to latitude 40°49' N., longitude 89°29' W., to latitude 40°23' N., longitude 89°34' W., to latitude 40°26' N., longitude 90°07' W., to latitude 40°34' N., longitude 90°11' W., to latitude 40°47' N., longitude 90°08' W., to point of beginning.

[FR Doc.76-29136 Filed 10-6-76;8:45 am]

[Airspace Docket No. 76-SW-50]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area; Correction

On January 2, 1976, FR Doc. No. 75–34219 was published in the FEDERAL REGISTER (41 FR 300). Section 71.181 contained, in part, a description of the Batesville, Ark., 700-foot transition area.

A review of the document revealed that the geographical coordinates describing the location of the Batesville Regional Airport are in error. The coordinates should be latitude 35°43'44" N., longitude 91°38'32" W., in lieu of latitude 35°43'00" N., longitude 91°38'00" W., as shown in the document. Action is taken herein to effect this correction.

As this correction is editorial in nature and imposes no additional burden on any person or persons, notice and public procedures are not considered necessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is

V41 I196 OCT 7 76 UMI

amended, effective immediately, as hereinafter set forth.

In § 71.181 (41 FR 440), the Batesville, Ark., transition area is amended by changing the coordinates of the Batesville Regional Airport to latitude 35°43'-44'' N., longitude 91°38'32'' W.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Texas, on September 21, 1976.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.76-29135 Filed 10-6-76;8:45 am]

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-971, Amdt. 53]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Minimum Rates for Logair and Quicktrans Domestic Cargo Charters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., October 1, 1976.

By ER-959, July 15, 1976, the Board established minimum final rates for Logair and Quicktrans domestic cargo charters performed by air carriers for the Department of Defense (DOD) and set forth its intention to monitor fuel price changes and provide appropriate minimum rate adjustments for significant fuel price fluctuations based on a methodology similar to that employed for foreign and overseas MAC services.[1]

In light of the price increases in military-supplied fuel effective October 1, 1976, of approximately 18 percent for JP-4 and 8 percent for JP-5,[2] the Board has evaluated the impact of these prices and the latest available commercial fuel prices—as at September 1, 1976—on the minimum rates for Logair and Quicktrans services established in Part 288 of its Economic Regulations (14 CFR Part 288).

The Appendix [3] sets forth the results of our computations, based upon the application of the "active stations" methodology to the commercial fuel consumption reported for the quarter ended June 30, 1976; and the rate impact for the changes in current average fuel prices from that reflected in the base rates. Accordingly, we will establish the fuel surcharge increments applicable to the base linehaul rates effective October 1, 1976, as follows: (a) for the common-rated DC-9-32/L-188C Logair and Quicktrans rates—7.46 and 3.45 percent, respectively; (b) for the L-100-30 Logair and Quicktrans rates—5.02 and 2.52 percent, respectively; and, (c) for the DC-8-32/61/63 Logair and Quicktrans rates—7.81 and 4.12 percent, respectively.

In view of the need for a fuel surcharge to the minimum rates set forth in Part 288, we find good cause exists to make the within amendments effective on less than thirty (30) days' notice.

In consideration of the foregoing, the Board hereby amends Part 288 of its Economic Regulations (14 CFR Part 288) effective October 1, 1976, as follows:

Amend § 288.7(b)(2) by adding an additional proviso at the end of subparagraph, the amended paragraph to read as follows:

§ 288.7 Reasonable level of compensation.

• • • • • •

(b) • • •
(2) • • •

Provided, further, That effective October 1, 1976, the minimum linehaul rates per great-circle statute mile and ton-mile, specified in paragraph (b) (1) and (2) of this section, respectively, shall be increased by the following surcharges: (i) for DC-9-32/L-188C aircraft in Logair and Quicktrans services—7.46 and 3.45 percent, respectively; (ii) for L-100-30 aircraft in Logair and Quicktrans services—5.02 and 2.52 percent, respectively; and, (iii) for DC-8-32/61/63 aircraft in Logair and Quicktrans services—7.81 and 4.12 percent, respectively.

(Secs. 204, 403, and 416 of the Federal Aviation Act of 1958, as amended; 72 Stats. 743, 758, and 771, as amended; 49 U.S.C. 1324, 1373, and 1386.)

Effective: October 1, 1976.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-29530 Filed 10-6-76;8:45 am]

[Reg. ER-972, Amdt. 54]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Fuel Prices for MAC Air Transportation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., October 1, 1976.

In accordance with established methodology, the Board has completed its quarterly review of commercial fuel prices for foreign and overseas MAC air transportation services as of September 1, 1976, and military fuel prices effective October 1, 1976; and is herein establishing surcharge provisions in Part 288 of its Economic Regulations (14 CFR Part 288) applicable to the rates established for those services.[1]

Appendices A and B [2] set forth the results of our computations of reported fuel price changes for commercial fuels as at September 1, 1976, and the military fuel price increases effective October 1, 1976,[3] based upon the application of the "active stations" methodology to the fuel consumption reported for the quarter ended June 30, 1976; and the rate impact for the changes in current average fuel prices from that reflected in the prior surcharge amendments. Inasmuch as the ER-962 rates incorporate the then current fuel surcharges established by ER-955, July 1, 1976, the provisos to § 288.7 which specified those surcharges were unnecessary and, therefore, were eliminated. Accordingly we will establish the fuel surcharge rates applicable to the current interim final rates, effective October 1, 1976, as follows: (a) long-range Category B and Category A rate—2.79 percent; (b) Pacific interisland short-range Category B rate—3.57 percent; and (c) "all other" short range Category B rate—3.57 percent.

In view of the continuing need for a fuel surcharge to the minimum rates set forth in Part 288, we find good cause exists to make the within amendments effective on less than thirty (30) days' notice.

In consideration of the foregoing, the Board hereby amends Part 288 of its Economic Regulations (14 CFR Part 288) effective October 1, 1976, as follows:

1. Amend § 288.7(a) by amending subparagraph (2) by revising the proviso following the table as follows:

§ 288.7 [Amended]

• • • • • •

(a) • • •
(2) • • •

Provided, That subject to the provisions of § 288.8, the minimum rates set forth above shall not be applicable to passengers or cargo carried on a particular trip in excess of the amount that the contract calls for DOD to supply and the carrier to provide space: *And provided further,* That if a carrier performs a one-way charter flight carrying nonmilitary traffic for a nonmilitary user, the carrier may charter the return flight on that aircraft to DOD at a published one-way charter tariff rate that is in fact available to the general public for equivalent services: *Provided, however,* That effective October 1, 1976, the total minimum compensation pursuant to the rates set forth in subparagraph (1) above for

[1] ER-959, at 5.

[2] Since we were just informally advised of these military fuel price increases on September 24, 1976, the date for comments to our proposed changes in fuel surcharge procedure and methodology; the Board is issuing this fuel surcharge amendment under its established procedure to expedite responsive action to the precipitous changes in military fuel prices so as to provide immediate rate relief to the MAC carriers.

[3] The Appendix was filed as part of the original document.

[1] ER-962, effective August 3, 1976.

[2] Appendices A and B are filed as a part of the original document.

[3] Since we were just informally advised of these military fuel price increases of approximately 18% for JP-4 and 8% for JP-5 on September 24, 1976, the date for comments to our proposed changes in fuel surcharge procedure and methodology; the Board is issuing this fuel surcharge amendment under its established procedure to expedite responsive action to the precipitous changes in military fuel prices so as to provide immediate rate relief to the MAC carriers.

[4] Base price per gallon, base fuel costs as a percent of total economic cost and weighting factors—see Appendix A notes 2, 3 and 4.

(1) services performed with regular jet, wide-bodied jet and DC-8-61/63 aircraft, and (ii) Pacific interisland services performed with B-727 aircraft, and (iii) all other services performed with B-727 aircraft shall be increased by surcharges of 2.79 percent, 3.57 percent, and 3.57 percent, respectively.[5]

2. Amend § 288.7(d) (1) and (2) proviso reading as follows:

• • • • • •

(d) • • •
(2) • • •

Provided, That effective October 1, 1976, the total minimum compensation pursuant to the rates specified in subparagraphs (1) and (2) of this paragraph shall be increased by a surcharge of 2.79 percent.

• • • • • •

(Secs. 204, 403, and 416 of the Federal Aviation Act of 1958, as amended; 49 U.S.C. 1324, 1373, and 1386.)

Effective: October 1, 1976.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76-29531 Filed 10-6-76;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 371—GENERAL LICENSES

PART 377—SHORT SUPPLY CONTROLS

Export Controls on Petroleum and Petroleum Products

I. PURPOSE OF BULLETIN; WAIVER OF PROPOSED RULEMAKING PROCEDURES; INVITATION FOR COMMENT

Export Administration Bulletin No. 159, published in the FEDERAL REGISTER on July 9, 1976 (41 FR 28258), announced the continuation of export controls on petroleum and petroleum products for the Third Quarter 1976 and found that such controls were appropriate and consistent with the national interest and the purposes of the Energy Policy and Conservation Act ("EPCA") (Pub. L. 94-163). The Bulletin also announced that additional regulations were being prepared by the Department pursuant to EPCA and the Naval Petroleum Reserves Production Act of 1976 ("NPRPA") (Pub. L. 94-258). Although the Bulletin invited interested persons to submit written comments on the export controls extended in the Bulletin, no comments have been received.

The Department of Commerce continues to have under review its export control policies relevant to petroleum and other energy-related commodities in light of relevant statutory authorities, including EPCA, and current and projected supply/demand situations related to such commodities. It is anticipated that such review will be completed in the near future and will result in the publication of additional or amended regulations, including regulations relating to exports of natural gas. To the extent that proposed rulemaking procedures will not impair the Department's ability to carry out its statutory responsibilities in a timely and effective manner, it is the Department's intention to publish any such new or amended regulations in proposed form and provide interested persons an opportunity to comment thereon.

In the interim, pursuant to the authorities vested in the Department of Commerce and having consulted with other interested Federal agencies, the Department hereby adopts regulations which generally accomplish the following: (a) Continue the existing controls over the export of petroleum and petroleum products for the Fourth Quarter 1976; (b) establish export controls on two additional petroleum products; (c) establish procedures to implement the export restriction contained in NPRPA; and (d) clarify the Department's regulations dealing with exports of crude oil and partially-refined petroleum.

The requirements for notice of proposed rulemaking and opportunity for comment have been waived by the Department (a) because it has found that compliance with such procedures would seriously impair the Department's ability to impose effective and timely controls on naphtha and petroleum coke and to maintain the controls on petroleum and petroleum products currently in effect, (b) because the interim regulations implementing the export restrictions contained in NPRPA are promulgated under the procedures of the Export Administration Act of 1969, as amended, and are therefore exempt from such requirements, and (c) as otherwise authorized in 5 U.S.C. section 553. The Department has also determined that in order to implement the controls announced herein in an effective and timely manner these regulations will be effective as of 11:59 p.m., e.d.t., September 30, 1976.

Written comments regarding the regulations announced herein are solicited on a continuing basis. Interested parties and government agencies are encouraged to submit written comments, views, or data concerning the regulations promulgated hereby to the United States Department of Commerce, Office of Export Administration, P.O. Box 7138, Ben Franklin Station, Washington, D.C. 20044. All submissions regarding the interim regulations implementing the restrictions contained in the NPRPA, received on or before October 31, 1976, will be considered prior to the promulgation of final regulations on the subject.

(Sec. 4, Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403); E.O. 11533, 13 CFR 538 (1971), 50 U.S.C. App. 2403 nt. (Supp. IV, 1974), as amended by E.O. 11907, 41 FR 9085 (1976); sec. 103, Pub. L. 94-163, 89 Stat. 871 (42 U.S.C. 6212); Sec. 2, E.O. 11912, 41 FR 15825 (1976); sec. 201, Pub. L. 94-258, 90 Stat. 307 (10 U.S.C. 7420); sec. 101, Pub. L. 93-153 (30 U.S.C. 156); Department Organization Order 10-3, dated Nov. 17, 1975, 40 FR 58876 (1975), as amended; and Domestic and International Business Administration Organization and Function Order 46-1, dated November 17, 1975, 40 FR 59764 (1975), as amended)

II. CLARIFICATION OF REGULATIONS APPLICABLE TO THE EXPORT OF CRUDE PETROLEUM

Although exports of crude oil and partially-refined petroleum will continue to be subject to the restrictions currently in effect over such commodities, the regulations have been revised in order to clarify the effect thereon of EPCA and NPRPA.

Generally, exports of crude and partially-refined petroleum will be authorized only when they are consistent with the national interest and the purposes of EPCA.

In addition to meeting these criteria, exports of crude or partially-refined petroleum may be authorized only when (a) the export will be temporary for convenience or increased efficiency of transportation across an adjacent foreign state and reenters the United States, or (b) the export involves an exchange in similar quantity for convenience or increased efficiency of transportation for an equal or greater quantity of the same commodity, or (c) the crude petroleum was not produced from the Naval Petroleum Reserves, and was not and will not be transported by pipeline over rights-of-way granted pursuant to section 28 of the Mineral Leasing Act of 1920, and the export will directly result in an exchange for an equal or greater quantity of other petroleum commodities, which will be sold at prices no higher than would have resulted from the domestic refining of the crude petroleum to be exported and, for compelling economic or technological reasons beyond the control of the applicant, the crude or partially-refined petroleum cannot be reasonably processed within the United States.

Exports of crude or partially refined petroleum *that is* produced from the Naval Petroleum Reserves *or that is* transported by pipeline over federal-rights-of-way, as described above, *may* also be authorized if the President makes and publishes an express finding that the export will not diminish the total quality or quantity of petroleum available to the United States, and is in the national interest and is in accord with the Export Administration Act of 1969, as amended.

III. METHOD OF LICENSING EXPORTS OF NAVAL PETROLEUM RESERVE COMMODITIES

NPRPA prohibits exports of "petroleum" produced from the Naval Petroleum Reserves, except such "petroleum" which is either exchanged in similar quantities for convenience or increased efficiency of transportation with persons or the government of an adjacent foreign state, or which is temporarily exported for convenience or increased effi-

[5] The surcharge provisions for services performed with B-727 aircraft will be applied to all other common-rated aircraft types.

V41 1976 OCT 7 76 UM

ciency of transportation across parts of an adjacent foreign state and reenters the United States. Other exports may be authorized by the President pursuant to an express published finding. The Act defines "petroleum" as including "crude oil, gases (including natural gas), natural gasoline, and other related hydrocarbons, oil shale, and the products of any such resources".

The Department has identified certain petroleum and petroleum products which have been construed to fall within the definition of "petroleum" as contained in NPRPA. Certain of the commodities identified are currently subject to export restrictions, and require a validated license for export. Others may currently be exported under General License. Thus in order to implement the provisions of NPRPA the Department has amended its regulations to prohibit exports of the identified commodities (both those that heretofore were exportable under General License and those that required a validated license for export) unless:

(a) The exporter is able to establish by documentary evidence, as described in these regulations, that the commodity was not produced from the Naval Petroleum Reserves or derived therefrom; or

(b) The commodity is being exported (i) temporarily for convenience or increased efficiency of transportation across parts of an adjacent foreign state and will reenter the United States or (ii) as part of an exchange in similar quantity for convenience or increased efficiency of transportation with persons or the government of an adjacent foreign state or (iii) pursuant to an express, published Presidential finding that the export will not diminish the total quality and quantity of petroleum available to the United States and that it is in the national interest and in accord with the Export Administration Act of 1969, as amended; and

(c) A validated license has been issued, if required.

For purposes of establishing the origin of commodities to be exported, which were derived from raw materials originating from the Naval Petroleum Reserves, it is necessary for an exporter to establish only that the total products of that refinery or petrochemical plant in which such commodities were processed which will be exported within the following 90-day period do not exceed that portion of the refinery's or plant's total product output attributable to the non-Naval Petroleum Reserve raw materials used in that refinery or plant within the preceding 90 days.

General License GLV is revised to implement this policy and a new General License G–NNR is established to permit the export of certain petroleum products that are not produced from a Naval Petroleum Reserve. General License G–DEST may no longer be used for the export of commodities in Petroleum Commodity Group Q as established herein. If an exporter is unable to establish that the commodity did not originate from the Naval Petroleum Reserves, then the export may only be authorized pursuant to paragraph (b) above and only under a validated license.

Exporters are cautioned that the Office of Export Administration may, in appropriate cases, conduct audits of exporters' records in order to verify the presence in those records of documentation establishing the non-Naval Petroleum Reserves origin of any "petroleum" covered by a Shipper's Export Declaration showing that it was exported under either General License G–NNR or GLV.

IV. EXTENSION OF EXPORT CONTROLS ON PETROLEUM AND PETROLEUM AND PETROLEUM PRODUCTS FOR THE FOURTH QUARTER 1976 AND TO COVER NAPHTHA AND PETROLEUM COKE

The Department has reviewed the supply/demand situation with respect to domestic availability of those energy products now subject to export controls. Based upon this review and consultations with FEA and other appropriate agencies, the Department has determined that export controls on petroleum and petroleum products must be continued. Accordingly, the present controls over the export of petroleum and petroleum products are hereby continued for the Fourth Quarter 1976. The Fourth Quarter export quotas for such products are announced herein.

Further, the Department has determined that export controls must be extended to cover naphtha in order: (a) To assure that partly-refined petroleum and gasoline blending agents now subject to export controls under Petroleum Commodity Groups A and C, respectively, are not inadvertently exported outside the restrictions intended to apply to such commodities, and (b) to limit exports of these scarce commodities to their historic levels. Similarly, the Department has decided to extend validated licensing controls to cover petroleum coke, both calcined and uncalcined, in order to assure: (a) That exports of this commodity are for non-energy use, or (b) that exports of this commodity do not increase to the extent additional coke manufacture becomes expedient at the expense of liquid energy materials.

The Department has found that the controls announced herein are appropriate and consistent with the national interest and applicable statutes.

Accordingly, effective 11:59 p.m., e.d.t., September 30, 1976, naphtha and naphtha solvent (Schedule B Nos. 332.9110 and 521.4022), and petroleum coke, calcined (Schedule B No. 332.9410), and petroleum coke, except calcined (Schedule B No. 332.9420), will require a validated license for export. Petroleum coke, both calcined and uncalcined, will be subject to validated licensing but not quota restriction, and applications to export it will be considered upon receipt of a sworn affidavit setting forth the proposed non-energy end use, name, location and type of facility of the end user, or that the quantity of this commodity to be exported for energy use does not exceed the applicant's average quarterly exports of such commodity for energy use during the period January 1, 1974–June 30, 1976.

Naphthas, on the other hand, will be subject to quantitative restriction for export, with quotas established at historical levels based upon exporters' past participation in the export trade in these commodities during the base period January 1, 1974 through June 30, 1976. In order to receive shares of the quotas to be established for the export of naphthas, an exporter must submit, for each such commodity, a statement, in duplicate, on Form DIB–669P—"Past Participation Statement",[1] to the Office of Export Administration, U.S. Department of Commerce, P.O. Box 7138, Ben Franklin Station, Washington, D.C., 20044. These statements must be signed by an authorized representative of the exporter, and must be actually received by such office no later than October 31, 1976, if the exporter is to receive shares of the quotas to be established for the Fourth Quarter 1976. (see § 377.6(a)) Such statement shall indicate (separately by Schedule B Number, month of export, and country of destination) the quantities of naphtha which the exporter exported to each such country during each calendar month of 1974, 1975 and during the first six months of 1976..

The statements will be deemed confidential information under section 7(c) of the Export Administration Act of 1969, as amended.

Exporters are cautioned that the Office of Export Administration may compare statements of past participation against Shipper's Export Declarations on file with the U.S. Bureau of the Census for confirmation of exporter identity as well as the data with respect to destinations, export quantities, and the Schedule B classification of past exports. In appropriate cases, audits will be made of exporters' records, including the firm's copies of Shipper's Export Declarations, Bills of Lading, and/or Waybills, Invoices, Letters of Credit, and other documents. It will be recalled that in 1975 the Department conducted such audits of the records of all exporters of petroleum commodities then subject to quota controls.

Pending the establishment of quotas and the issuance of letters of quota participation, applications to export naphthas, if accompanied by the required documentation, will be issued for the unshipped balance of contracts calling for delivery prior to December 31, 1976. However, quantities licensed under this

[1] Exporters may continue to use the old Form DIB–669P—"Petroleum Products—Past Participation Statement" changing the dates printed thereon so as to correspond with the dates of the base period for these commodities established in Supplement No. 2 to Part 377 as revised herein, until present supplies are exhausted. Thereafter they should use the new Form DIB–669P—"Past Participation Statement". The use of Form DIB 669P has been approved by the Office of Management and Budget through September, 1981.

procedure will be charged against any quota allocations which the exporter hereafter receives. Export quotas for these commodities are established in Supplement No. 2 to Part 377 as revised herein. Exporters will be advised of their individual quota allocations by letter following receipt and evaluation of their Past Participation Statements.

V. ELIMINATION OF VALUE OF DISPOSABLE CONTAINERS TO QUALIFY FOR USE OF GENERAL LICENSE—GLV

The regulations are revised to permit the exclusion of the value of disposable containers in applying GLV value limits. Although the total value of disposable containers and their contents must continue to be shown on the Shipper's Export Declaration, the value of the containers and the value of the contained commodities may be listed separately, and only the contents need be considered in determining whether or not the particular export shipment falls within the applicable GLV value limit.

VI. SAVING CLAUSE

Shipments of commodities removed from general license as a result of changes set forth herein which were on dock for lading, on lighter, laden aboard an exporting carrier, or in transit to a port of export pursuant to actual orders for export prior to 11:59 p.m., e.d.t. September 30, 1976, may be exported under the previous general license provisions up to and including October 13, 1976. Any such shipment not laden aboard the exporting carrier on or before October 13, 1976, requires a validated license for export.

Accordingly, the Export Administration Regulations (15 CFR Part 368 et seq.) are revised as follows:

1. Section 371.5 is amended by revising paragraph (b)(1) and adding a new paragraph (d) as follows:

§ 371.5 General License GLV; shipments of limited value.

* * * * *

(b) * * *

(1) *"Net Value"*. The actual selling price of the commodity included in a single entry on the Commodity Control List, less shipping charges, or the current market price of the commodity to the same type of purchaser in the United States, whichever is the larger. In determining the actual selling price or the current market price of the commodity, the value of non-reusable containers in which the commodity is being exported may be excluded. Where the total value of the non-reusable containers and their contents must be shown on Shipper's Export Declarations under one Schedule B Number, the exporter, in effecting a shipment under General License GLV, shall indicate the "net value" of the contained commodity immediately below the description of the commodity.

* * * * *

(d) *Exception.* The provisions of this § 371.5 do not apply to the commodities listed in Supplement No. 3 to Part 377 of this chapter unless, in addition to meeting the other requirements of this § 371.5, the exporter, prior to exporting such commodity, has assembled the documentary evidence described in § 371.16 establishing that the commodity was not produced from a Naval Petroleum Reserve.

2. Part 371 is amended by adding the following new section:

§ 371.16 General license G–NNR: Shipments of certain non-Naval reserve petroleum commodities.

(a) A general license designated G–NNR is established, subject to the provisions of this § 371.16, authorizing the export of any commodity listed in Petroleum Commodity Group Q (See Supplement No. 2 to Part 377 of this chapter) to any destination in Country Groups Q, T, V, W, and Y, and Canada provided that both of the following conditions are met: (1) The commodity is not included in an entry on the Commodity Control List for which the Export Control Commodity number is followed by the code letter "A"; and (2) The exporter must, prior to the export of a commodity under this General License G–NNR, have assembled documentary evidence establishing that the commodity was not produced from a Naval Petroleum Reserve. Such documentary evidence may take the form of the affidavit prescribed in § 377.6(e)(1)(iv) of this chapter, or it may consist of other documentation establishing the factual data to be covered in such affidavit. The exporter shall retain such documentary evidence in his files for the period prescribed in § 387.11(e) of this chapter, and is put on notice that the Office of Export Administration will, in appropriate cases, conduct audits of exporters' files to determine that such documentary evidence is available covering each export of a commodity listed in Supplement No. 3 which was made under a Shipper's Export Declaration showing General License G–NNR as the authority for the export. Any commodity listed in Petroleum Commodity Group Q which does not meet the conditions for export under General License G–NNR or GLV may only be exported under a validated license issued pursuant to § 377.6(d)(6) of this chapter.

3. Section 377.1(a) is revised as follows:

§ 377.1 General provisions.

(a) *Statutory requirements.* The Export Administration Act of 1969, as amended, requires the control of commodities to the extent necessary to protect the domestic economy from the excessive drain of scarce materials and to reduce the serious inflationary impact of foreign demand. The Energy Policy and Conservation Act contains mandatory and discretionary authority to control exports of energy and energy-related commodities as may be necessary to achieve the purposes of that Act. Furthermore, the Trans-Alaska Pipeline Authorization Act, amending section 28 (u) of the Mineral Leasing Act of 1920, and the Naval Petroleum Reserves Production Act of 1976 contain specific restrictions on the export of certain petroleum and petroleum products. These stautory requirements are implemented chiefly by the provisions set forth below, under the procedures of the Export Administration Act of 1969, including the enforcement and penalty provisions thereof.

* * * * *

4. Section 377.6 is amended as follows:

a. Paragraphs (a), (c), (d)(1) are revised;

b. Subparagraphs (6), (7), and (8) are added to paragraph (d);

c. Subdivision (iv) is added to paragraph (e)(1);

d. Paragraph (e)(2) is revised;

e. Paragraph (e)(7) is added and paragraph (g) is revised to read as follows:

§ 377.6 Petroleum and petroleum products.

(a) *Statement of past participation.* Shares of quarterly quotas for the petroleum commodities listed in Supplement No. 2 as subject to quota restriction are, pursuant to the rules of this section, assigned to exporters who have submitted Form DIB–669P, Past Participation Statement, covering their exports of such commodities during the base period established for such commodities in Supplement No. 2 to this Part 377. To be considered for shares in any particular calendar quarter and, automatically, in all subsequent quarters, exporters must have timely filed a properly executed statement in accordance with the provisions of this paragraph and § 377.2. Such statements must be actually received by the Office of Export Administration, P.O. Box 7138, Ben Franklin Station, Washington, D.C. 20044, by the 17th day of the month prior to the start of a calendar quarter in order to be considered timely filed with respect to the allocation of quotas for such quarter and all succeeding quarters; except that statements of past participation for purposes of allocation of Fourth Quarter 1976 quota shares for Petroleum Commodity Group N will be accepted until October 31, 1976. Forms not received by the dates specified herein will be held over until the succeeding quarter in the event quotas are established therefor. The statement on Form DIB–669P shall indicate (separately for each foreign country of destination, including Canada) the quantities (in the units specified in Supplement No. 2) of each petroleum commodity, by Schedule B number, that the exporter exported to each such country during each calendar month of the applicable base period. The statement must be signed by the exporter or his authorized representative. A separate Form DIB–669P shall be submitted for each of the petroleum commodity Schedule B classifications for which the exporter is seeking a quota share.

For purposes of the statement, a party normally shall be considered to have

V41I196 OCT 7 76 UMI

been the exporter with respect to those shipments during the base period for which such party was named as the exporter on the Shipper's Export Declaration (Commerce Form 7525–V) filed in accordance with Part 386 of this chapter.

• • • • •

(c) *Letters of quota participation (Groups B, C, D, E, F, G, K, L, M, and N).* Each exporter who submitted statements of past participation pursuant to the provisions of paragraph (a) of this section shall be eligible to receive shares of the quotas for each quarter against which he will be eligible to apply for licenses to export commodities in Petroleum Commodity Groups B, C, D, E, F, G, K, L, M, and N as established in Supplement No. 2 to this Part 377. Such shares will be determined by the Office of Export Administration pursuant to the provisions of Section 377.2. The base period used for quota determinations is indicated in Supplement No. 2 to this Part 377. Quota shares are based on an exporter's base period exports to specified foreign destinations and, for destinations for which separate quotas have not been established, to "all other countries" (which are for this purpose treated as a single entity). Each eligible exporter shall, upon appropriate verification, be issued a letter of quota participation, and (if appropriate) a revised letter of quota participation, for each quarter, which shall indicate for each of the petroleum commodity groups referred to above for which the exporter is eligible to apply for validated licenses, the total quantity in Schedule B units (e.g., barrels of 42 gallons, pounds, etc.) of his quota share for specific foreign country destinations and for "all other countries". A stated quota share for a specified foreign country destination may be used only for shipment to such country. A quota share for "all other countries" may be used only for shipment to a country or countries not specifically identified in Supplement No. 2 as a destination for which a separate quota has been provided.

(d) *Issuance of export licenses*—(1) *Group A.* The export from the United States of crude petroleum and partly refined petroleum is prohibited, except as provided in this subparagraph. An application for a validated license to export a commodity from Petroleum Commodity Group A, as established in Supplement No. 2 to this Part 377, will be considered under the provisions of this subparagraph if submitted with supporting documentation as required by paragraph (e)(1) of this section, to the Office of Export Administration, U.S. Department of Commerce, Washington, D.C. 20230, within the time limits specified in Supplement No. 2. Such a license may be issued if it is established to the satisfaction of the Office of Export Administration that such export is consistent with the national interest and the purposes of the Energy Policy and Conservation Act and, in addition, one of the following conditions is met:

(i) The export will be temporary, the commodity being exported for convenience or increased efficiency of transportation across parts of an adacent foreign state and shall reenter the United States in the same form; or

(ii) The export will result directly in the importation into the United States of an equal or greater quantity of that same commodity, such transaction being carried out for convenience or increased efficiency of transportation; or

(iii) If the crude or partially refined petroleum was produced from a Naval Petroleum Reserve or if it has been or will be transported by pipeline over a right-of-way granted pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), the President makes and publishes an express finding that the export(s) will not diminish the total quality or quantity of petroleum available to the United States and that such export(s) are in the national interest and are in accord with the Export Administration Act of 1969, as amended; or

(iv) The commodity was not produced from the Naval Petroleum Reserves and was not and will not be transported by pipeline over rights-of-way granted pursuant to section 28 of the Mineral Leasing Act of 1920, and such commodity will be exported as part of an overall transaction which will result directly in the importation into the United States of a quantity and quality of commodities from Petroleum Commodity Groups other than Group A which is not less than the quantity and quality of such commodities which would be derived from the refining of the commodity for which an export license is sought, and the commodities imported into the United States as part of this overall transaction will be sold at prices no higher than the lowest price at which they could have been reasonably sold had the export not taken place and the Group A commodity been refined at the nearest U.S. refinery capable of processing it within a reasonable period of time, and for compelling economic or technological reasons, beyond the control of the applicant, the Group A commodity cannot reasonably be processed within the United States.

• • • • •

(5) Exception for national security or foreign policy reasons. When the Secretary of State, in consultation with the Secretary of Defense, as appropriate, has recommended that exports of petroleum or petroleum products be authorized for overriding foreign policy and/or national security reasons, and the Secretary of Commerce has determined that such exports are consonant with the purposes of the Energy Policy and Conservation Act, applications to export such commodities—except crude oil which has been or will be transported by pipeline over rights-of-way granted pursuant to section 28 of the Mineral Leasing Act of 1920 and petroleum and petroleum products produced from the Naval Petroleum Reserves—as defined in paragraph (d)(6) of this section and listed in Supplement No. 3 to this Part 377—will be considered without regard to established quotas or other provisions of these regulations. With respect to crude oil transported by pipeline over federal rights-of way and petroleum and petroleum products produced from the Naval Petroleum Reserves, exports will be authorized only upon authorization from the President, as described in this § 377.6.

(6) Petroleum and Petroleum Products Produced from the Naval Petroleum Reserves or Which Have Been Exchanged Therefor:

(i) The export of those commodities listed in Supplement No. 3 to this Part 377 which were produced or derived from the Naval Petroleum Reserves or which became available for export as a result of an exchange of a Naval Petroleum Reserves-produced or derived commodity, is prohibited pursuant to the provisions of 10 U.S.C. 7430(e) except as provided in this § 377.6.

(ii) Applications for a validated license to export those commodities listed in Supplement No. 3 to this Part 377 which were produced or derived from the Naval Petroleum Reserves, or which became available for export as a result of an exchange for a Naval Petroleum Reserves-produced or derived commodity, other than a commodity belonging to Petroleum Commodity Group A which is subject to the provisions of paragraph (d)(1) of this section, will be considered under the provisions of this subparagraph if submitted with the supporting documentation required by paragraph (e)(6) of this section. A validated license to export such a commodity may be issued only if it is demonstrated to the satisfaction of the Office of Export Administration [1]:

(*A*) That the commodity will be exchanged in similar quantity for convenience or increased efficiency of transportation with persons or the government of an adjacent foreign state, or

(*B*) that the commodity is being exported temporarily for convenience or increased efficiency of transportation across parts of an adjacent foreign state and will reenter the United States, or if

(c) the President has made and published an express finding that such export will not diminish the total quality or quantity of petroleum available to the United States and that such export is in the national interest and is in accord with the Export Administration Act of 1969, as amended.

(7) *Group N.* An application for a validated license to export a commodity from Petroleum Commodity Group N as established in Supplement No. 2 will be considered if submitted with supporting documentation as required by paragraph (e)(2) of this section by the date specified in Supplement No. 2 but only to the extent of such exporter's quota shares for such commodities. Pending establishment of an exporter's quota shares,

[1] Natural gas, and liquified natural gas (L.N.G.) and synthetic natural gas commingled with natural gas (Schedule B No. 341.-1010) require export authorization from the U.S. Federal Power Commission. See § 370.-10(g).

in accordance with paragraph (a) of this section, licenses may be issued for the unfilled balance of contracts calling for delivery prior to December 31, 1976. However, all such licenses issued to an exporter under this licensing system prior to establishment of such exporter's quota shares shall be charged against the quota shares subsequently established for that exporter.

(8) *Group P.* Applications for validated licenses to export a commodity from Petroleum Commodity Group P as established in Supplement No. 2 will be considered without regard to quota limitation if accompanied by the supporting documentation required by paragraph (e)(7) of this section and submitted by the date specified in Supplement No. 2.

(e) • • •

(1) • • •

(iv) A sworn affidavit, signed by an authorized representative of the exporter, reading as follows:

AFFIDAVIT

I, _____, _____ of
(name) (title)
_____: hereby certify that the
(company)
_____ bbls. of _____
I propose to export from the United States were *not* produced from a Naval Petroleum Reserve nor were they derived from any crude oil, gases of all kinds (including natural gas, hydrogen, carbon dioxide, helium, and any others), natural gasoline, and other related hydrocarbons (tar sands, asphalt, propane, butane etc.) or oil shale produced from a Naval Petroleum Reserve, or, if they are the product of a refinery or petrochemical plant utilizing as raw material any resource produced from a Naval Petroleum Reserve, the quantity of the products I propose to export, together with all other products produced in that refinery or petrochemical plant which are to be exported during the next 90 days, do not exceed that portion of the total products of that refinery or petrochemical plant attributable to the non-Naval Petroleum Reserve raw materials used in that plant during the preceding 90 days. Nor did the petroleum commodities I propose to export become available for export as a result of an exchange for a Naval Petroleum Reserves—produced resource or a product(s) derived therefrom as described above.

To the extent that I do not have personal knowledge of the foregoing, I have addressed appropriate inquiries to the producer of the commodity(ies) to be exported, and have been assured by him that these statements are correct. The individual making such representations to me, his position with and the identity of the producer firm, and the date on which he communicated such assurances to me are as follows:

Name _____
Title _____
Company _____
Date _____

_____
(Signature)

(2) *Groups B, C, D, E, F, G, K, L, M, and N.* An application for a validated license to export a commodity from Petroleum Commodity Groups B, C, D, E, F, G, K, L, M, and N must be submitted with the same documentation required by paragraph (e)(1) of this section, except that the affidavit described in paragraph (e)(1)(iii) of this section is not required.

• • • • •

(6) *Petroleum and Petroleum Products produced from the Naval Petroleum Reserves or exchanged therefor.* An application for a validated license to export petroleum or a petroleum product(s) as defined in § 377.6(d)(6) and listed in Supplement No. 3 to this Part 377, must be accompanied by the same documentation required by paragraph (e)(1) of this section, except that the affidavits described in subdivisions (iii) and (iv) shall not be required. In addition, however, the application must be accompanied by a sworn affidavit, signed by the exporter or his authorized representative, together with such supporting evidence as may be appropriate, setting forth either the facts necessary to establish that the conditions prescribed in paragraph (d)(6)(ii) (A) or (B) of this section have been met or the reasons why the exporter believes that the President should be asked to make and publish an express finding that the proposed export will not diminish the total quality or quantity of petroleum available to the United States, and that such export is in the national interest and is in accord with the Export Administration Act of 1969, as amended. In addition to the foregoing, an application for a validated license to export a commodity subject to this subsection whose Export Control Commodity number preceding the Commodity Description in the Commodity Control List (§ 399.1 hereof) is followed by the code letter "A", must be accompanied also by the documentation required by Part 375 of this chapter.

(7) *Group P.* An application for a validated license to export a commodity from Commodity Group P must be submitted with the same documentation required by paragraph (e)(2) of this section, and with the following:

(i) An independent inspector's certificate of analysis of the product to be exported. And,

(ii) A statement, in affidavit format, which either (a) sets forth the name, location, and type of facility of the ultimate end user, and describes in specificity, the nature of the intended non-energy end use; or (b) certifies that the total quantity of this commodity which the applicant has submitted during the current calendar quarter, does not exceed the applicant's average quarterly exports of such commodity during the period January 1, 1974–June 30, 1976.

• • • • • •

(g) *Validity period.* Any license issued pursuant to this section, except those authorizing the export of a Group A commodity, will expire no later than 30 days from the end of the calendar quarter in which it is issued. Requests for extension of the validity period of such licenses will normally not be entertained. A license authorizing the export of a Group A commodity may be issued for a longer period and will remain valid until the date of expiration shown on its face.

• • • • • •

17. Supplement No. 2 to Part 377 is revised as follows:

Petroleum and petroleum products subject to short supply licensing controls

Schedule B No.	Commodity description	Unit of quantity
	Petroleum licensed only in accordance with sec. 377.6(d)(1)	
	GROUP A	
331.0100	Crude petroleum, including tar sands	Barrel.
331.0200	Petroleum partly refined for further refining	Do.
	Petroleum products subject to validated licensing and historical quotas	
	GROUP B	
332.1015	Aviation gasoline	Barrel.
	GROUP C	
332.1030	Gasoline, n.e.c.	Do.
332.1050	Gasoline blending agents, hydrocarbon compounds only, n.e.c.	Do.
	GROUP D	
332.2010	Kerosene, except kerosense-type jet fuel	Do.
	GROUP E	
332.2020	Jet fuel	Do.
	GROUP F	
332.3000	Distillate fuel oils	Do.
	GROUP G	
332.4000	Residual fuel oils	Do.
	GROUP K	
341.1025	Butane	Do.
	GROUP L	
341.1030	Propane	Do.

V41N196 OCT 7 76 UMI

Schedule B No.	Commodity description	Unit of quantity
	GROUP M	
341.1040	Natural gas liquids, including LPG, n.e.c.	Do.
	GROUP N	
332.9110	Naphtha, mineral spirits, solvents, and other finished light petroleum products, n.e.c.	Do.
521.4022	Naphtha solvent	Pound.
	Petroleum products subject to validated licensing but not quotas	
	GROUP H	
332.9160	Carbon black feedstock oil	Barrel.
	GROUP J	
341.1010	Synthetic natural gas[1]	1,000 ft³.
341.2000	Gas, manufactured	1,000 ft³.
	GROUP P	
332.9410	Petroleum coke, calcined	Short ton.
332.9420	Petroleum coke, except calcined	Do.
	Petroleum products subject to provisions of either sec. 371.16 or sec. 377.6(d)(6)	
	GROUP Q	
332.5005	Aviation engine lubricating oil, except jet engine lubricating oil	Barrel.
332.5010	Jet engine lubricating oil	Do.
332.5015	Automotive, diesel, and marine engine lubricating oil	Do.
332.5020	Turbine lubricating oil, including marine	Do.
332.5025	Automotive gear oils	Do.
332.5030	Red and pale oils	Do.
332.5035	Bright stock	Do.
332.5040	Black oils	Do.
332.5045	Steam cylinder oils	Do.
332.5050	Lubricating oils, n.e.c.	Dollar value.
332.5055	Lubricating greases	Pound.
332.6100	Petroleum jelly, petrolatum	Do.
332.6210	Microcrystalline wax	Do.
332.6220	Paraffin wax, crystalline, fully refined	Do.
332.6230	Paraffin wax, crystalline, except fully refined	Do.
362.9120	Insulating or transformer oils	Barrel.
362.9130	Quenching and cutting oils	Do.
362.9140	White mineral oils	Do.
332.9180	Other nonlubricating and nonfuel petroleum oils, n.e.c.	De.
332.9210	Coal-tar asphaltum	Short ton.
332.9220	Pitch, from petroleum refining	Do.
332.9300	Pitch coke	Do.
332.9510	Petroleum asphalt	Do.
332.9520	Petroleum and shale oil residues, n.e.c.	Do.
332.9610	Paving mixtures, bituminous, based on asphalt and petroleum	Dollar value.
332.9620	Asphalt and tar coatings, cements, and pitches	Do.
512.0901	Butylene	Pound.
512.0902	Acetylene	1,000 ft.³
512.0903	Ethylene	Pound.
512.0905	Propylene	Do
512.0916	Methanol, including natural	Gallon.
512.0964	Isoprene	Pound.
512.0991	Butadiene	Do.
513.1305	Helium and mixtures containing helium	Cnt. cubic feet.
513.1350	Hydrogen and rare gases, n.e.c.	1,000 ft.³
513.3880	Carbon monoxide and carbon dioxide	Dollar value.
515.2000	Deuterium	Do.
513.6110	Ammonia (anhydrous or in aqueous solution) fertilizer grade	Cnt. Short ton.
513.6120	Ammonia (anhydrous or in aqueous solution) except fertilizer grade	Cnt. Short ton.
521.4010	Benzene, crude	Gallon.
521.4020	Toluene, crude	Do.
521.4027	Xylenes, n.e.c.	Pound.
521.4040	Mineral tar and tar oils, chemicals, and crude products from coal, petroleum, and natural gas, n.e.c.	Do.

[1] Natural gas, and liquefied natural gas (LNG) and synthetic natural gas commingled with natural gas (schedule B No. 341.1010) require export authorization from the U.S. Federal Power Commission. See sec. 370.10(g).

QUANTITIES.—Report commodities in schedule B units as indicated above; where an asterisk appears, report quantity in units commonly used in the trade. Groups A, B, C, D, E, F, G, H, K, and M in barrels of 42 gal; group J in 1,000 ft³; group P in short tons; and schedule B No. 332.9110 of group N in barrels of 42 gal and schedule B No. 521.4022 of group N in pounds.

BASE PERIODS.—Commodity groups B, C, D, E, F, and G: Jan. 1, 1971 through June 30, 1973; commodity groups K, L, and M: Oct. 1, through Dec. 31, 1972; commodity group N: Jan. 1, 1974 through June 30, 1976.

SHIPPING TOLERANCE.—10 pct.

SUBMISSION DATES.—*Applications against historical quotas:* Not prior to the beginning of the applicable quarter and received in the Office of Export Administration not later than the close of business on the 10th day prior to the end of the applicable quarter. *Applications for hardship and all commodities subject to validated licensing but not historical quotas:* At any time.

COUNTRY QUOTAS: FOURTH QUARTER 1976

COUNTRY QUOTAS FOR GROUP B

(Schedule B No. 332.1015, aviation gasoline)

Country:	Quota (barrels)
Bahamas	1,676
Belgium	78
Bolivia	2,761
Cameroon	65
Canada	3,818

18. The following Supplement No. 3 is added to Part 377:

PETROLEUM AND PETROLEUM PRODUCTS INCLUDED IN THE DEFINITION OF "PETROLEUM" UNDER THE NAVAL PETROLEUM RESERVES PRODUCTION ACT OF 1976[1]

Schedule B number	Commodity description
331.0100	Crude petroleum, including tar sands.
331.0200	Petroleum partly refined for further refining.
332.1015	Aviation gasoline.
332.1030	Gasoline, n.e.c.
332.1050	Gasoline blending agents, hydrocarbon compounds only, n.e.c.
332.2010	Kerosene, except kerosene-type jet fuel.
332.2020	Jet fuel.
332.3000	Distillate fuel oils.
332.4000	Residual fuel oils.
332.5005	Aviation engine lubricating oil, except jet engine lubricating oil.
332.5010	Jet engine lubricating oil.
332.5015	Automotive, diesel and marine engine lubricating oil.
332.5020	Turbine lubricating oil including marine.
332.5025	Automotive gear oils.
332.5030	Red and pale oils.
332.5035	Bright stock.
332.5040	Black oils.
332.5045	Steam cylinder oils.
332.5050	Lubricating oils, n.e.c.
332.5055	Lubricating greases.
332.6100	Petroleum jelly, petrolatum.
332.6210	Microcrystalline wax.
332.6220	Paraffin wax, crystalline, fully refined.
332.6230	Paraffin wax, crystalline, except fully refined.
332.9110	Naphtha, mineral spirits, solvents and other finished light petroleum products, n.e.c.
332.9120	Insulating or transformer oils.
332.9130	Quenching and cutting oils.
332.9140	White mineral oils.
332.9160	Carbon black feedstock oil.
332.9180	Other non-lubricating and non-fuel petroleum oils, n.e.c.
332.9210	Coal-tar asphaltum.
332.9220	Pitch, from petroleum refining.
332.9300	Pitch coke.
332.9410	Petroleum coke, calcined.
332.9420	Petroleum coke, except calcined.
332.9510	Petroleum asphalt.
332.9520	Petroleum and shale oil residues, n.e.c.
332.9610	Paving mixtures, bituminous, based on asphalt and petroleum.
332.9620	Asphalt and tar coatings, cements and pitches.
341.1010	Natural gas.[2]
341.1025	Butane.
341.1030	Propane.
341.1040	Natural gas liquids, including L.P.G., n.e.c.
512.0901	Butylene.
512.0902	Acetylene.
512.0903	Ethylene.
512.0905	Propylene.
512.0916	Methanol, including natural.
512.0964	Isoprene.
512.0991	Butadiene.
513.1305	Helium and mixtures containing helium.
513.1350	Hydrogen and rare gases, n.e.c.
513.3880	Carbon monoxide and carbon dioxide.
513.6110	Ammonia (anhydrous or in aqueous solution) fertilizer grade.
513.6120	Ammonia (anhydrous or in aqueous solution) except fertilizer grade.
515.2000	Deuterium.
521.4010	Benzene, crude.
521.4020	Toluene, crude.
521.4022	Naphtha solvent.
521.4027	Xylenes, n.e.c.
521.4040	Mineral tar and tar oils, chemicals and crude products from coal, petroleum and natural gas, n.e.c.

Applications to export the above will be considered only in accordance with Section 377.

Effective date of action: September 30, 1976.

RAUER H. MEYER,
Director, Office of Export Administration.

[FR Doc.76-29202 Filed 9-30-76;4:15 pm]

[1] Those petroleum and petroleum products whose export is prohibited if produced on a Naval Petroleum Reserve or if they are the product of a resource produced thereon. See Section 377.

[2] Natural gas, and liquified natural gas (L.N.G.) and synthetic natural gas commingled with natural gas (Schedule B No. 341.1010) require export authorization from the U.S. Federal Power Commission. See § 370.10(g).

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING, FEDERAL HOUSING COMMISSIONER

[Docket No. R-76-422]

PART 202—CLASS 3 PROPERTY IMPROVEMENT LOANS

Revocation of Part

The Department of Housing and Urban Development is revoking Part 202 of Subchapter B. This part authorized insurance of lending institutions against losses incurred in making loans for construction of new homes with maturity terms not in excess of 20 years and 5 months.

Section 101 of Pub. L. 475, 81st Congress (81 Pub. L. 475) amended Title I of the National Housing Act (12 U.S.C. 1703) by repealing the authorization for this part, effective March 1, 1950.

There are no longer any loans outstanding under this Part.

Notice and public procedure are unnecessary under the provisions of 5 U.S.C. 553(b) since authority for the Part has been terminated and publication for the 30 day period specified in 5 U.S.C. 553(d) is unnecessary and good cause exists for making the revocation effective October 7, 1976.

(Sec. 7(d) 79 Stat. 670 (42 U.S.C. 3535(d)); Sec. 2, 48 Stat. 1246, 12 U.S.C. 1703 as amended by P.L. 81-475.)

Accordingly, 24 CFR Part 202 is hereby revoked.

Issued at Washington, D.C., October 1, 1976.

JAMES L. YOUNG,
Assistant Secretary for Housing, Federal Housing Commissioner.

[FR Doc.76-29448 Filed 10-6-76;8:45 am]

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-1063]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Town of Federalsburg, Md.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the Town of Federalsburg, Maryland under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at Town Hall, Federalsburg, Maryland 21632.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Marshyhope Creek	Penn Railroad	14	1,820	100
	Central Ave.	15	880	310

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[FR Doc.76-29339 Filed 10-6-76;8:45 am]

[Docket No. FI-2009]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Town of Mansfield, Mass.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the Town of Mansfield, Massachusetts under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to Section 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with Section 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at Town Hall, West Street, Mansfield, Massachusetts 02048.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Hodges Brook	Oak St.	126	20	110
Wading River	Otis St.	123	85	405
	Balcolm St.	128	100	545
	Williams St.	146	170	120
	West St.	153	80	80
Canoe River	Mill St.	110	970	20
	Bridge at trailer park	114	115	165
Rumford River	Main St.	105	45	40
	Willow St.	129	45	760
	Spring St.	137	405	50
	West St.	146	25	50
	High St.	156	225	60
	Church St.	159	165	45
	County St.	172	180	280

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.

Issued: September 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[FR Doc.76-29338 Filed 10-6-76;8:45 am]

[Docket No. FI-1148]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the Town of Newbury, Mass.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the Town of Newbury, Massachusetts under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at Town Hall, 25 High Road, Newbury, Massachusetts 01950.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Atlantic Ocean and Plum Island Sound.	Old Point Rd.	10	(1)	(1)
	Sunset Dr.	10	(1)	(1)
	Plum Island Turnpike	10	(1)	(1)
Parker River (tidal)	Boston & Maine RR.	9	(2)	2,000
	Newburyport Turnpike	9	100	1,200
	Middle St.	9	1,600	100
	Hay St.	9	600	100
	Hanover St.	9	50	750

[1] Entire road within corporate limits.
[2] To corporate limits.

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Vassar, Mich.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Vassar, Michigan under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 287 East Huron Street, Vassar, Michigan 48768.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Cass River	Pere Marquette R.R.	631	20	20
	Huron St.	633	200	20
	New York Central R.R.	634	20	20

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42

U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Coon Rapids, Minn.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Coon Rapids under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with §1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 1313 Coon Rapids Boulevard, Coon Rapids, Minnesota 55433.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurance) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of St. Cloud, Minn.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of St. Cloud, Minnesota under § 1917.8 of Title 24 of the Code of Federal Regulations.

V41196 OCT 7 76 UMI

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 314 St. Germaini Street, St. Cloud, Minnesota 56301.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Mississippi River	10th St. bridge	989	60	70

Title 32—National Defense

CHAPTER XVI—SELECTIVE SERVICE SYSTEM

PART 1608—PUBLIC INFORMATION

Request for and Disclosure of Information

Whereas, on August 31, 1976, the Director of Selective Service published a notice of proposed amendments to Selective Service Regulations 41 FR 36669 of August 31, 1976; and

Whereas more than thirty days have elapsed subsequent to such publication during which period comments from the public have been received and considered. No change in the proposed amendment is made.

Several of the amendments reflect the recent changes of address of the National Headquarters, Selective Service System. Additional and alternate places where information may be obtained are also stated.

Section 1608.13 is revised in the interest of clarity.

Section 1608.18 is revised to authorize the legal representative of a deceased as well as an incompetent person to obtain information from the record of the person to whom it pertains. The authority of the Director now stated in paragraph (d) of this section would be eliminated.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sections 451 et seq.) and § 1604.1 of Selective Service Regulations (32 CFR 1604.1), the Selective Service Regulations constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulation, are hereby amended, effective October 7, 1976, as follows:

Section 1608.4 *Available information* is amended as follows: Paragraph (c) is amended and paragraph (i) is added to read as follows:

§ 1608.4 Available information.

* * * * * *

(c) The Registrants Processing Manual may be inspected at any office of the Selective Service System including the National Headquarters.

(i) Whenever an office referred to in this section is closed, the request for information that otherwise would be submitted to it should be submitted to the National Headquarters, Selective Service System, 600 E Street, NW., Washington, D.C. 20435.

Paragraph (b), § 1608.5, *Places where information may be obtained* is amended and paragraph (d) is added to read as follows:

§ 1608.5 Places where information may be obtained.

* * * * * *

(b) Requests for information concerning the national administration of the Military Selective Service Act should be directed to the National Headquarters, Selective Service System, 600 E Street, NW., Washington, D.C. 20435.

* * * * * *

(d) Whenever an office referred to in this section is closed, the request for in-

formation that otherwise would be submitted to it should be submitted to the National Headquarters, Selective Service System, 600 E Street, NW., Washington, D.C. 20435.

Paragraph (b), § 1608.9 *Review of denials of requests for information* is amended to read as follows:

§ 1608.9 Review of denials of requests for information.

• • • • •

(b) A requester whose request for information or documents has not been satisfied may appeal to the Director of Selective Service, 600 E Street, NW., Washington, D.C. 20435.

Section 1608.13 *Disclosure of requested information to individuals* is amended to read as follows:

§ 1608.13 Disclosure of requested information to the individual to whom it pertains.

Information contained in records maintained on a specific individual and the records pertaining to such individual will be disclosed to or may be examined by the individual to whom it pertains without charge. Copies of such records will be provided to the individual to whom the records pertain upon payment of the fees prescribed in § 1608.22.

Section 1608.18 *Disclosure of record to person other than the individual to whom it pertains* is amended to read as follows:

§ 1608.18 Disclosure of record to persons other than the individual to whom it pertains.

(a) Information contained in records in a registrant's file and records pertaining to a specific individual may be disclosed or furnished to, or examined by, the following in addition to the individual to whom they pertain:

(1) His legal representative duly appointed by a court of competent jurisdiction because of his demise or incompetence.

(2) Any person upon submission to the employee responsible for the system of records of the written consent of the individual to whom the record pertains. The authorization must bear a date not earlier than six months prior to the day of its submission to the Selective Service System and the signature of the individual concerned.

(3) All personnel of the Selective Service System engaged in carrying out the functions of the Selective Service System who have a need for the record in performance of their duties.

(4) A U.S. Attorney and his duly authorized representative including agents of the Federal Bureau of Investigation, whenever a registrant has been reported to the U.S. Attorney for prosecution for violating the Military Selective Service Act or the rules, regulations, or directions made pursuant thereto.

(b) No information shall be disclosed or furnished to, or examined by, any person under the provisions of this section, until such person has been properly identified as entitled to obtain such information.

BYRON V. PEPITONE,
Director.

Title 41—Public Contracts and Property Management

CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 3-4—SPECIAL TYPES AND METHODS OF PROCUREMENT

Contracts Under the Indian Self-Determination Act—Indian Preference in Training and Employment; Amendment

Notice is given that the Assistant Secretary for Health, Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, hereby amends sections 3-4.6013 and 3-4.6014, as set out below.

Final regulations governing contracts under section 103 of the Indian Self-Determination Act, P.L. 93-638, 25 U.S.C. 450g were published in the FEDERAL REGISTER on November 14, 1975, adding a new Subpart I to the Indian Health regulations at 42 CFR Part 36 and adding a new Subpart 3-4.60 to the Department's Procurement regulations at 41 CFR Part 3-4. (See 40 FR 53147 and 40 FR 53123 respectively).

Section 36.221 of the above referenced Subpart I, 42 CFR Part 36 requires contracts awarded under the authority of the Indian Self-Determination Act to incorporate a stated clause on Indian Preference in Training and Employment "which is also set forth in 41 CFR 3-4.6013 and 3-4.6014." The required clause, referred to in 41 CFR 3-4.6013 as Clause No. 29, Indian Preference in Training and Employment, was inadvertently omitted from the provisions of that section published on November 14, 1975, at 40 FR 53131. The purpose of this amendment is to correct this error by adding the required clause to section 3-4.6013.

The provisions of 41 CFR 3-4.6013, containing a proposed clause 29 on Indian Preference in Training and Employment, were published as a Notice of Proposed Rulemaking on September 15, 1975, at 40 F.R. 42675, and final regulations, which inadvertently omitted this clause while retaining its listing in the index, were published, in accordance with the requirements of section 107 of P.L. 93-638, 25 U.S.C. 450k and 5 U.S.C. 553. In addition, the Indian preference clause contained in 3-4.6014 (clause 17) is not identical in language with the clause quoted in section 36.221. Clause 17 is revised accordingly to conform to the language of section 36.221. Redundant material in section 3-4.6013 is also deleted.

Since these amendments correct inadvertent omissions and variations and will not in any way change the rights and obligations of any member of the public, the requirements of section 107(c) of P.L. 93-638, 25 U.S.C. 450k(c) governing amendments to regulations under the Indian Self-Determination Act are found to be satisfied. For the same reasons, issuance of this amendment as a Notice of Proposed Rulemaking is found to be impracticable, unnecessary, and contrary to the public interest and good cause exists for making the amendment immediately effective upon publication in the FEDERAL REGISTER.

Accordingly, pursuant to the authority of sections 103 and 107 of P.L. 93-638, 25 U.S.C. 450g and 450k, section 3 of P.L. 83-568, 42 U.S.C. 2003; and 40 U.S.C. 486(c), section 3-4.6013 and section 3-4.6014 of 41 CFR Part 3-4 are amended as set out below.

Effective date: These amendments shall become effective on October 7, 1976.

Dated: September 8, 1976.

THEODORE COOPER,
Assistant Secretary for Health.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary.

1. Section 3-4.6013 is amended by adding the following language immediately after clause 28:

§ 3-4.6013 General Provisions for Cost Reimbursement Contracts Under the Indian Self-Determination Act (P.L. 93-638), Title I.

• • • • •

Clause No. 29—Indian Preference in Training and Employment.

(a) The Contractor shall give preference in employment for all work performed under the contract, including subcontracts thereunder, to qualified Indians regardless of age, religion, or sex, and to the extent feasible consistent with the efficient performance of the contract, provide employment and training opportunities to Indians, regardless of age, religion, or sex, that are not fully qualified to perform under the contract. The Contractor shall comply with any Indian preference requirements established by the tribe receiving services under the contract to the extent that such requirements are consistent with the purpose and intent of this paragraph.

(b) If the Contractor or any of its subcontractors is unable to fill its employment openings after giving full consideration to Indians as required in paragraph (a) above, these employment openings may then be filled by other than Indians under the conditions set forth in the Equal Opportunity clause of this contract.

(c) The Contractor agrees to include this clause or one similar thereto in all subcontracts issued under the contract.

• • • • •

b. The first reference to clause 28 which immediately follows clause 27 is deleted in its entirety.

2. Clause 17 of 3-4.6014 is amended to read as follows:

§ 3-4.6014 General Provisions for Fixed-Price Contracts Under the Indian Self-Determination Act.

• • • • •

Clause No. 17. Indian Preference in Training and Employment.

(a) The Contractor shall give preference in employment for all work performed under the contract, including subcontracts thereunder, to qualified Indians regardless of age, religion, or sex, and to the extent feasible consistent with the efficient performance of the contract, provide employment and training opportunities to Indians, regardless of age, religion, or sex, that are not fully qualified to perform under the contract. The Contractor shall comply with any Indian preference requirements established by the tribe receiving services under the contract to the extent that such requirements are consistent with the purpose and intent of this paragraph.

(a) If the Contractor or any of its subcontractors is unable to fill its employment openings after giving full consideration to Indians as required in paragraph (a) above, these employment openings may then be filled by other than Indians under the conditions set forth in the Equal Opportunity clause of this contract.

(c) The Contractor agrees to include this clause or one similar thereto in all subcontracts issued under the contract.

[FR Doc.76-29480 Filed 10-6-76;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 52a—NATIONAL HEART, LUNG, AND BLOOD INSTITUTE GRANTS FOR NATIONAL RESEARCH AND DEMONSTRATION CENTERS

On August 2, 1974, final regulations were published in the FEDERAL REGISTER (39 FR 27902) governing the award of grants by the National Heart and Lung Institute under section 415(b) of the Public Health Service Act (42 U.S.C. 287d(b)) to plan, establish, strengthen, and support the basic operation of national research and demonstration centers. These regulations are codified in 42 CFR Part 52a.

The Health Research and Health Services Amendments of 1976 (Pub. L. 94-278), which were enacted on April 22, 1976, amended section 415(b) by: (1) Adding "management of blood resources" to the listed activities for which grant support may be provided, and (2) raising the yearly ceiling on non-construction payments to any center from a total of $5,000,000, to $5,000,000 plus indirect costs and increases attributable to rises during said year in the Consumer Price Index. In addition, Pub. L. 94-278 changed the name of the Institute to "National Heart, Lung, and Blood Institute" and the National Heart, Blood Vessel, Lung, and Blood Diseases Program to "National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program."

The Department of Health, Education, and Welfare hereby amends Part 52a to reflect the foregoing changes. Also, § 52a.9 of said Part is amended by addition of a standard paragraph calling attention to the requirements of section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), which bars discrimination against handicapped individuals in programs or activities receiving Federal financial assistance. Since these amendments are intended simply to conform to statutory changes or are just informational in nature, no purpose would be served by publishing them as a notice of proposed rulemaking, and the Department therefore finds that good cause exists for dispensing with this step.

These amendments shall become effective on October 7, 1976.

Dated: August 26, 1976.

JAMES F. DICKSON,
Acting Assistant Secretary for Health.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary.

Accordingly, Part 52a of 42 CFR is amended by:

1. Deleting "National Heart and Lung Institute" wherever it appears and substituting therefor "National Heart, Lung, and Blood Institute."

2. Deleting "NHLI" wherever it appears and substituting therefor "NHLBI".

3. Deleting "National Heart and Lung Advisory Council" from § 52a.2(d) and substituting therefor "National Heart, Lung, and Blood Advisory Council."

4. Deleting "National Heart, Blood Vessel, Lung, and Blood Disease Program" from § 52a.2(e) and substituting therefor "National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program".

5. Revising § 52a.1 to read as follows:

The regulations in this part apply to grants (other than for construction) to plan, establish, strengthen, and support the basic operation of national research and demonstration centers for basic or clinical research into, training in, and demonstration of the management of blood resources and advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, and blood diseases, as authorized by section 415(b) of the Public Health Service Act (42 U.S.C. 287d(b)).

6. Revising § 52a.4(c)(2), § 52a.4(c)(3), and § 52a.4(c)(9) to read as follows:

(2) Any basic or clinical research, training, or demonstration activities in which the applicant is currently engaged relating to the management of blood resources or advanced diagnostic, prevention, or treatment methods for heart, blood vessel, lung, or blood diseases; the sources of funding for such activities; and the relevance of these activities to the National Program;

• • • • • •

(3) The major area or areas (i.e., heart disease, blood vessel disease, lung disease, blood disease, or management of blood resources) on which the applicant would concentrate if awarded a grant under this part;

• • • • •

(9) The proposed support period (not to exceed five years); a detailed budget including a list of other anticipated sources of support; and a justification for the amount of grant funds (not exceeding $5,000,000 in the aggregate for costs other than indirect costs in any year, plus any added amounts attributable to increases in such year in appropriate costs as reflected in the Consumer Price Index published by the Bureau of Labor Statistics);

7. Delete the word "disease" wherever it appears in § 52a.5(a).

8. Revise § 52a.6(b) to read as follows:

(b) All grant awards shall be in writing and shall specify the period of support (not to exceed five years), the total recommended amount of funds for the entire period of support, the approved budget for the initial budget period, and the amount awarded (not in excess of $5,00,000 in the aggregate for costs other than indirect costs in any year, plus any added amounts attributable to increases in such year in appropriate costs as reflected in the Consumer Price Index published by the Bureau of Labor Statistics) for the initial budget period.

9. Add the following new paragraph (d) to § 52a.9:

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

Part 52a of Title 42 CFR is revised to read as follows:

Sec.
52a.1 Applicability.
52a.2 Definitions.
52a.3 Eligibility.
52a.4 Application.
52a.5 Program requirements.
52a.6 Grant Awards.
52a.7 Payment.
52a.8 Expenditure of grant funds.
52a.9 Nondiscrimination.
52a.10 Human subjects; animal welfare.
52a.11 Applicability of 43 CFR Part 74.
52a.12 Progress and fiscal records and reports.
52a.13 Grantee accountability.
52a.14 Publications and copyright.
52a.15 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 415(b), 86 Stat. 683 (42 U.S.C. 287d(b)).

§ 52a.1 Applicability.

The regulations in this part apply to grants (other than for construction) to plan, establish, strengthen, and support the basic operation of National research and demonstration centers for basic or clinical research into, training in, and demonstration of the management of blood resources and advanced diagnostic, prevention, and treatment methods for heart, blood vessel, lung, and blood diseases, as authorized by section 415(b) of the Public Health Service Act (42 U.S.C. 287d(b)).

§ 52a.2 Definitions.

(a) "Act" means the Public Health Service Act, as amended.

(b) "Director, NHLBI," means the Director of the National Heart, Lung, and Blood Institute and any other officer or employee of said Institute to whom the authority involved has been delegated.

(c) "Nonprofit" as applied to any agency or institution means an agency or institution which is a corporation or an association no part of the net earnings

VOL 41 NO 196 OCT 7 76 UM

of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(d) "Council means the National Heart, Lung, and Blood Advisory Council established by section 417(a) of the Act (42 U.S.C. 287f(a)).

(e) "National Program" means the National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program referred to in section 413 of the Act (42 U.S.C. 287b).[1]

§ 52a.3 Eligibility.

To be eligible for a grant under this part, an applicant must be:

(a) a public or nonprofit private hospital or school of medicine, or other public or nonprofit private agency or institution; and

(b) located in a State, the District of Columbia, Puerto Rico, the Virgin Islands, the Canal Zone, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 52a.4 Application.

(a) Each agency or institution desiring a grant under this part shall submit an application in such form and manner and on or before such dates as the Director, NHLBI, may from time to time require.[2] Such application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of the award, including the regulations of this part.

(b) In accordance with section 1–00–30 of the Department of Health, Education, and Welfare Grants Administration Manual,[3] each private institution which does not already have on file with the National Institutes of Health evidence of nonprofit status, must submit with its application acceptable proof of such status.

(c) In addition to any other pertinent information that the Director, NHLBI, may require, each application shall set forth in detail:

(1) The personnel, facilities, and other resources currently available to the applicant with which to initiate and maintain the proposed center program;

(2) Any basic or clinical research, training, or demonstration activities in which the applicant is currently engaged relating to the management of blood resources of advanced diagnostic, prevention, or treatment methods for heart, blood vessel, lung, or blood diseases; the sources of funding for such activities; and the relevance of these activities to the National Program;

(3) The major area or areas (i.e., heart disease, blood vessel disease, lung disease, blood disease, or management of blood resources) on which the applicant would concentrate if awarded a grant under this part;

(4) The names and qualifications of the center director and key staff members who would be responsible for conducting proposed activities of the center;

(5) The proposed center program, including proposed research and demonstration projects and information and education activities, and the relevance of each to the National Program;

(6) The opportunities that would be available for training of professional personnel, including allied health professions personnel;

(7) The availability of community resources necessary to carry out the proposed activities;

(8) The organizational structure of the applicant;

(9) The proposed support period (not to exceed five years); a detailed budget including a list of other anticipated sources of support; and a justification for the amount of grant funds (not exceeding $5,000,000 in the aggregate for costs other than indirect costs in any year, plus any added amounts attributable to increases in such year in appropriate costs as reflected in the Consumer Price Index published by the Bureau of Labor Statistics);

(10) Proposed methods for monitoring and evaluating individual activities and the overall program; and

(11) Proposed methods for coordination of center activities with the National Heart, Lung, and Blood Institute and the National Program.

§ 52a.5 Program requirements.

An approvable application must provide assurances that:

(a) The proposed program will include all of the following components: basic and clinical research relating to the major areas on which the applicant would concentrate; plans for demonstrating the applicability of clinical research findings in such areas; information and education activities pertaining to such areas; and opportunities for training, including training of allied health professions personnel;

(b) The center will be an identifiable organizational unit of the applicant headed by a center director responsible for the center program;

(c) The applicant will have staff, facilities, and other resources available with which to initiate the proposed program; and

(d) Any significant changes in the center's scientific or other activities will be made only with the prior approval of the Director, NHLBI.

§ 52a.6 Grant awards.

(a) Within the limits of funds available, after consultation with the Council, the Director, NHLBI, may award grants to applicants with proposed programs which in his judgment best promote the purposes of section 415(b) of the Act, taking into consideration among other pertinent factors:

(1) The scientific and technical merit of the overall proposed program and its individual components;

(2) The significance of said program in relation to the goals of the National Program;

(3) The qualifications and experience of the center director and other key personnel;

(4) The extent to which the center activities would be coordinated with the National Heart, Lung, and Blood Institute and the National Program;

(5) The extent to which the various components of the proposed program would be coordinated into one multidisciplinary effort within the center;

(6) The administrative and managerial capability of the applicant;

(7) The reasonableness of the proposed budget in relation to the proposed program;

(8) The adequacy of the methods for monitoring and evaluating the overall program and its components; and

(9) The degree to which the application adequately provides for the requirements set forth in § 52a.5.

(b) All grant awards shall be in writing and shall specify the period of support (not to exceed five years), the total recommended amount of funds for the entire period of support, the approved budget for the initial budget period, and the amount awarded (not in excess of $5,000,000 in the aggregate for costs other than indirect costs in any year, plus any added amounts attributable to increases in such year in appropriate costs as reflected in the Consumer Price Index published by the Bureau of Labor Statistics) for the initial budget period.

(c) Neither the approval of any application nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion thereof.

(d) The amount of any grant award shall be determined by the Director, NHLBI, on the basis of his estimate of the sum necessary to pay all or part of the allowable costs for the budget period covered by the award.

(e) An initial period of support may be extended by the Director, NHLBI, for additional periods not in excess of five years each, after review of the operations of the grantee by an appropriate scientific review group established by the Director, NHLBI, and consultation with the Council, except that if an additional period of support involves only the expenditure of funds previously awarded, consultation with the Council is not required.

§ 52a.7 Payment.

The Director, NHLBI, shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement, for expenses incurred or to be incurred in accordance with its approved application.

§ 52a.8 Expenditure of grant funds.

(a) Any funds granted pursuant to this part shall be expended solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may, with prior approval by the Director, NHLBI, be carried forward and remain available for obligation during the remainder of the period of support and any extensions thereof (approved in accordance with § 52a.6(e)), subject to such limitations as the Director, NHLBI, may prescribe. The amount of any subsequent award will take into consideration unobligated grant funds remaining in the grant account. At the end of the final period of support any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 52a.9 Nondiscrimination.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

(b) Attention is also called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(c) Grant funds used for alterations and renovations shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

§ 52a.10 Human subjects; animal welfare.

No award may be made under this part unless the applicant has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1–43 of the Department of Health, Education, and Welfare Grants Administration Manual and any other applicable requirements concerning animal welfare.

§ 52a.11 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
- A General
- B Cash Depositories
- C Bonding and Insurance
- D Retention and Custodial Requirements for Records
- F Grant-Related Income
- G Matching and Cost Sharing
- K Grant Payment Requirements
- M Grant Closeout, Suspension, and Termination
- O Property
- Q Cost Principles

§ 52a.12 Progress and fiscal records and reports.

Each grant award shall require that the grantee maintain such progress and fiscal records and file with the Director, NHLBI, such progress and fiscal reports relating to the conduct and results of the approved grant and the use of grant funds as the Director, NHLBI, may find necessary to carry out the purposes of section 415(b) of the Act and the regulations.

§ 52a.13 Grantee accountability.

(a) All payments made by the Director, NHLBI, shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved center the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available to the Director, NHLBI, satisfactory evidence of expenditures for direct and indirect cost meeting the requirements of this part.

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant, shall be accounted for as follows:

(1) *State and local governments.* Where the grantee is a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, royalties shall be accounted for as provided in 45 CFR 74.44.

(2) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, royalties shall be accounted for as follows:

(a) Patent royalties, whether received during or after the grant period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(b) Copyright royalties, whether received during or after the grant period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 52a.14 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from an activity supported by a grant under this part.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from an activity supported by a grant under this part, subject to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 52a.15 Additional conditions.

The Director, NHLBI, may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved program, the interests of the public health, or the conservation of grant funds.

VOL 41 1976 OCT 7 76 UM

PART 52e—NATIONAL HEART, LUNG, AND BLOOD INSTITUTE GRANTS FOR PREVENTION AND CONTROL PROJECTS

On October 21, 1975, final regulations were published in the FEDERAL REGISTER (40 FR 49090) governing the award of grants by the National Heart and Lung Institute under section 414 of the Public Health Service Act (42 U.S.C. 287c) for prevention and control projects. These regulations are codified in 42 CFR Part 52e.

The Health Research and Health Services Amendments of 1976 (Pub. L. 94–278), which were enacted on April 22, 1976, changed the name of the Institute to "National Heart, Lung, and Blood Institute" and the title of the National Heart, Blood Vessel, Lung, and Blood Disease Program to "National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program."

The Department of Health, Education, and Welfare hereby amends Part 52e to reflect the foregoing changes. Since these changes were made by legislation and are technical in nature, no purpose would be served by publishing such amendments as a notice of proposed rulemaking, and the Department therefore finds that good cause exists for dispensing with this step.

These amendments shall become effective on October 7, 1976.

Dated: August 26, 1976.

JAMES P. DICKSON,
Acting Assistant Secretary for Health.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary.

Accordingly, Part 52e of 42 CFR is amended by:

1. Deleting "National Heart and Lung Institute" wherever it appears and substituting therefor "National Heart, Lung, and Blood Institute".

2. Deleting "NHLI" wherever it appears and substituting therefor "NHLBI".

3. Deleting "National Heart and Lung Advisory Council" from § 52e.2(d) and substituting therefor "National Heart, Lung, and Blood Advisory Council".

4. Deleting "National Heart, Blood Vessel, Lung, and Blood Disease Program" from § 52.2(e) and substituting therefor "National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program".

Part 52e of Title 42 CFR is revised to read as follows:

Sec.
52e.1 Applicability.
52e.2 Definitions.
52e.3 Eligibility.
52e.4 Application.
52e.5 Project requirements.
52e.6 Grant awards.
52e.7 Payment.
52e.8 Expenditure of grant funds.
52e.9 Nondiscrimination.
52e.10 Human subjects; animal welfare.
52e.11 Applicability of 45 CFR Part 74.
52e.12 Progress and fiscal records and reports.
52e.13 Grantee accountability.
52e.14 Publications and copyright.
52e.15 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 414, 86 Stat. 682 (42 U.S.C. 287c).

§ 52e.1 Applicability.

(a) The regulations in this part apply to grants under section 414 of the Public Health Service Act (42 U.S.C. 287c) for projects: (1) to demonstrate and evaluate the effectiveness of new techniques or procedures for the prevention, diagnosis, or treatment of heart, blood vessel, lung, and blood diseases, (2) to develop and evaluate methods of educating health practitioners concerning the prevention and control of these diseases, and (3) to develop and evaluate methods of educating the public concerning the prevention and control of these diseases.

(b) For purposes of this part, treatment may include emergency medical services.

§ 52e.2 Definitions.

As used in this part:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Director, NHLBI," means the Director of the National Heart, Lung, and Blood Institute and any other officer or employee of said Institute to whom the authority involved has been delegated.

(c) "Nonprofit" as applied to any agency or institution means an agency or institution which is a corporation or an association no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(d) "Council" means the National Heart, Lung, and Blood Advisory Council, established by section 417(a) of the Act (42 U.S.C. 287f(a)).

(e) "National Program" means the National Heart, Blood Vessel, Lung, and Blood Diseases and Blood Resources Program referred to in section 413 of the Act (42 U.S.C. 287b).[1]

(f) "Emergency medical services means the services utilized in responding to the perceived individual need for immediate medical care in order to prevent loss of life or aggravation of physiological or psychological illness or injury.

§ 52e.3 Eligibility.

To be eligible for a grant under this part, an applicant must be a public or nonprofit private agency or institution.

§ 52e.4 Application.

(a) Each agency or institution desiring a grant under this part shall submit an application in such form and manner and on or before such dates as the Director, NHLBI, may from time to time require.[2] Such an application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the terms and conditions of the award, including the regulations of this part.

(b) In accordance with section 1–00–30 of the Department of Health, Education, and Welfare Grants Administration Manual,[3] each private institution which does not already have on file with the National Institutes of Health evidence of nonprofit status, must submit with its application acceptable proof of such status.

(c) In addition to any other pertinent information that the Director, NHLBI, may require, each application shall set forth in detail:

(1) The nature and purpose of the proposed project and the methods to be employed in carrying it out;

(2) The relevance of the proposed project to the National Program;

(3) The defined population to participate in the proposed project and the rationale for its selection;

(4) With respect to applications relating to projects covered by § 52e.1(a)(1), prior research findings on which the proposed project is based;

(5) The personnel, facilities, and other resources, including community resources, available to carry out the proposed project;

(6) Current activities of the applicant involving prevention or control of heart, blood vessel, lung, and blood diseases, the sources of funding for such activities, and the anticipated relationship of these activities to the proposed project;

(7) The names and qualifications of the project director and key staff members who would be responsible for conducting the proposed project;

(8) Proposed methods for monitoring and evaluating the project; and

(9) The proposed project period; a detailed budget, including a list of other anticipated sources of support; and a justification for the amount of grant funds requested.

§ 52e.5 Project requirements.

(a) An approvable application must demonstrate to the satisfaction of the Director, NHLBI, that:

(1) With respect to applications relating to projects covered by § 52e.1(a)(1), the techniques or procedures to be demonstrated and evaluated have been found safe and effective in the research setting and, based upon research findings, appear to have the potential for general applicability to the prevention, diagnosis, or treatment of heart, blood vessel, lung, or blood diseases;

(2) With respect to applications relating to projects covered by §§ 52e.1(a)(2) and 52e.1(a)(3), the project will include development and evaluation of one or more methods for educating health practitioners or the public concerning advances in the prevention, diagnosis, or treatment of such diseases; and

(3) The nature of the project is such that its completion may be anticipated within the project period, or such other period as may be specified in the application.

(b) The project must, in the judgment of the Director, NHLBI, be necessary for cooperation by the National Heart, Lung, and Blood Institute with one or more other Federal health agencies, State, local, or regional public health agencies, or nonprofit private health agencies in the diagnosis, prevention, or treatment of heart, blood vessel, lung or blood diseases.

(c) In order for an agency or institution to receive support under this part, the project must be carried out in substantial conformity with the proposal set forth in the approved application.

§ 52e.6 Grant awards.

(a) Within the limits of funds available, after consultation with the Council, the Director, NHLBI, may award grants to applicants with proposed projects which in his judgment best promote the purposes of section 414 of the Act, taking into consideration among other pertinent factors:

(1) The scientific and technical merit of the proposed project;

(2) The significance of the project in relation to the goals of the National Program;

(3) Whether the project appropriately emphasizes the prevention, diagnosis, or treatment of heart, blood vessel, lung, or blood diseases of children;

(4) The qualifications and experience of the project director and other key personnel;

(5) The administrative and managerial capability and fiscal responsibility of the applicant;

(6) The reasonableness of the proposed budget in relation to the proposed project;

(7) The adequacy of the methods proposed for monitoring and evaluating the proposed project; and

(8) The degree to which the application adequately provides for the requirements set forth in §§ 52e.5(a) and 52e.5(b).

(b) All grant awards shall be in writing and shall specify the project period, the total recommended amount of funds for the entire project period; the approved budget for the initial budget period; and the amount awarded for the initial budget period.

(c) Neither the approval of any application nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion thereof.

(d) The amount of any grant award shall be determined by the Director, NHLBI, on the basis of his estimate of the sum necessary to pay all or part of the allowable costs for the budget period covered by the award.

§ 52e.7 Payment.

The Director, NHLBI, shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement, for expenses incurred or to be incurred in accordance with its approved application.

§ 52e.8 Expenditure of grant funds.

(a) Any funds granted pursuant to this part shall be expended solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, and the applicable cost principles prescribed by Subpart Q of 45 CFR Part 74.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may, with prior approval by the Director, NHLBI, be carried forward and remain available for obligation during the remainder of the project period, subject to such limitations as the Director, NHLBI, may prescribe. The amount of any subsequent award will take into consideration unobligated grant funds remaining in the grant account. At the end of the last budget period of the project period, any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 52e.9 Nondiscrimination.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d *et seq.*) which provides that no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

(b) Attention is also called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act (20 U.S.C. 1681) which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(c) Grant funds used for alterations and renovations shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

(d) Attention is called to the requirements of section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), which provides that no otherwise qualified handicapped individual in the United States shall, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

§ 52e.10 Human subjects; animal welfare.

No award may be made under this part unless the applicant has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1–43 of the Department of Health, Education, and Welfare Grants Administration Manual and any other applicable requirements concerning animal welfare.

§ 52e.11 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

Subpart:	*45 CFR Part 74*
A	General.
B	Cash depositories.
C	Bonding and insurance.
D	Retention and custodial requirements for records.
F	Grant-related income.
G	Matching and cost sharing.
K	Grant payment requirements.
L	Budget revision procedures.
M	Grant closeout, suspension, and termination.
O	Property.
Q	Cost principles.

§ 52e.12 Progress and fiscal records and reports.

Each grant award shall require that the grantee maintain such progress and fiscal records and file with the Director, NHLBI, such progress and fiscal reports relating to the conduct and results of the approved grant and the use of grant funds as the Director, NHLBI, may find necessary to carry out the purposes of section 414 of the Act and the regulations.

§ 52.13 Grantee accountability.

(a) All payments made by the Director, NHLBI, shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the

[1] Single copies of the National Program are available upon request from the Division of Extramural Affairs, National Heart, Lung, and Blood Institute, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

[2] Applications and instructions are available from the Division of Extramural Affairs, National Heart, Lung, and Blood Institute, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

[3] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR 5.31 and may be purchased from the Superintendent of Documents, U.S. Printing Office, Washington, D.C. 20402.

V41N196 OCT 7 76 UM

sum total of all amounts paid by presenting or otherwise making available to the Director, NHLBI, satisfactory evidence of expenditures for direct and indirect costs meeting the requirements of this part.

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant, shall be accounted for as follows:

(1) *State and local governments.* Where the grantee is a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, royalties shall be accounted for as provided in 45 CFR 74.44.

(2) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, royalties shall be accounted for as follows:

(A) Patent royalties, whether received during or after the project period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

(B) Copyright royalties, whether received during or after the project period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 52e.14 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from a project supported by a grant under this part.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in Subpart A of 45 CFR Part 74, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this part, subject to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate and dispose of such materials, and to authorize others to do so.

§ 52e.15 Additional conditions.

The Director, NHLBI, may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of the public health, or the conservation of grant funds.

[FR Doc.76–29479 Filed 10–6–76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 76–914]

REREGULATION OF RADIO AND TELEVISION BROADCASTING

Order

Adopted: September 28, 1976.

Released: October 8, 1976.

By the Commission: Commissioners Fogarty and White not participating.

1. As a result of its continuing study concerning the reregulation of radio and TV, the Commission has under consideration the matter of amending certain provisions in Parts 1, 13 and 73 of its rules. These amendments will update certain rules, delete parts of others which are no longer necessary and make corrections and revisions where indicated.

2. The following rule changes are made for the reasons shown:

(a) One of the changes which is considered a "major change" in the facilities of an FM or NCE–FM station is that which would result in a change of 50% or more in the area within the station's predicted 1 mV/m field strength contour. This is stated in § 1.573(a)(1)(ii). Note 2, in § 1.573, defines changes in area as the sum of the area gained and the area lost as a percentage of the original area.

The Commission has found that many major-change applicants do not associate Note 2 with subparagraph (a)(1)(ii) of § 1.573. Some applicants have implied that they didn't even know of the Note's existence. This has brought about needless discussion and correspondence in defining an application as major or minor in accordance with the change-in-area definition. To emphasize the complementary relationship between Note 2 and paragraph (a)(1)(ii), we will insert a direct reference to "see Note 2" immediately following these words in (a)(1)(ii): "any change in power, antenna location or height above average terrain (or combination thereof) which would result in a change of 50 percent or more in the area within the station's predicted 1 mV/m field strength contour."

A further correction is made in § 1.573 in paragraph (c) by changing the opening sentence to read, "Except as provided in Note 1 to this section. . . .". Currently, this sentence reads, "Except as provided in the note to this section * * *".

One other modification of this section will move both Notes 1 and 2 to the end of the section following paragraph (e). Paragraphs (d) and (e) were added to the section effective August 8, 1975, and the Notes were left at the former end of the section, following paragraph (c).

(1) Amendments, to accomplish the above changes, are made accordingly.

(b) Section 73.56, Modulation monitors, presently requires, in paragraph (d), that remotely controlled AM stations have a modulation monitor in operation. The rule states that AM stations, operated by remote control, must have a continuous indication, at the control point, of the modulation level, except when taking other meter readings. As an alternative, the licensee may install an "automatic device to limit percent of modulation on negative peaks to 100." Paragraph (d) of § 73.56 is herein amended to conform to § 73.55, Modulation. § 73.55, which was revised earlier, limits the percentage of modulation to no more than "100 percent on negative peaks *of frequent recurrence*, or 125 percent on positive peaks at any time."

Further, paragraph (d) is herein deleted from § 73.56 and moved to the rule section to which it more properly belongs, § 73.67, Remote control operations, as new subparagraph (a)(8). Similar changes are made in the remote control rules for FM and NCE–FM by adding a subparagraph in those services to conform to the new § 73.67(a)(8). It may appear that this addition in FM and NCE–FM is a new and additional requirement, but since it would require no additional equipment for remotely controlled FM and NCE–FM stations, and since the existing rules in the two FM services at present require that remote control systems provide or include all required control and monitoring functions, we conclude there are no new operational or equipment needs or requirements. This FM and NCE–FM amendment would specify only that the total modulation percentage should be observed, except when other meter readings are being made, and that the percentage of modulation shall be limited to the peak levels specified in the modulation sections, § 73.268 and § 73.568, respectively.

Two other refurbishing measures are taken here pertaining to remote control operation. The paragraphs pertaining to calibration of indicating instruments in the remote control rules of AM, FM and NCE–FM, are changed to conform to the specifications for the calibration of instruments as stated in the extension meter rules of those services. (§ 73.70 for AM; § 73.276 for FM; and § 73.574 for NCE–FM.) Lastly, in the AM remote control rules, subparagraph (c)(4) states, in part, "* * * that during the period the tone is being transmitted the total modulation of the carrier does not exceed 100 percent on negative peaks." To conform to § 73.55, Modulation, and new (via this *Order*, see above), § 73.67(a)(8), we change the wording in § 73.67(c)(4) from "* * * the total modulation of the carrier does not exceed 100 percent on negative peaks.", to "* * * the total modulation of the carrier must comply with the requirements of § 73.55."

(1) The rules described above are amended accordingly.

(c) Section 73.186 (Field intensity measurements in allocation; establishment of effective field at one mile.), in paragraph (a)(3), prescribes the method to be used in analyzing field intensity measurement data. This method of analysis, however, has serious deficiencies when applied to data obtained from a *partial* proof of performance (as defined in § 73.154), where the number of measured points per radial is quite insufficient for independent graphical analysis. The method of employing an arithmetic or logarithmic average of the ratios of the partial proof data to the corresponding data from the last *complete* proof is widely used throughout the industry, and has been accepted, even encouraged, by the Commission for years.

In order to reflect this widely used practice in our rules, new subparagraph (a)(5) is added to § 73.186 (and present (a)(5) becomes (a)(6)).

The section headnote of § 73.186 is also changed herein to substitute the designation "strength" instead of "intensity" in describing field measurements. At present, both terms are being used in describing the measurement of electromagnetic fields, but field "strength" is the more acceptable term (IEEE, American National Standard). So, with this revision will begin a change in the term intensity to strength whenever rule revisions are made. Nine changes of intensity to strength are made in the text of this rule section, in addition to the change in the section head.

(1) Amendments to accomplish the above are made accordingly.

(d) Sections 73.10, 73.262, 73.562 and 73.666 provide for "experimental operation" in the AM, FM, NCE–FM and TV services. Experimental operation has two functions: routine testing and maintenance of equipment and special experimentation designed to improve the broadcast technology (which may, at times, require the use of other than standard test transmissions). Although the basic purpose of experimental operation is essentially the same in all three services, the rules pertaining thereto are considerably different in their wording. For example: the AM and FM rules specifically mention use of the experimental operation for tests and maintenance, but the TV rule does not. We know that TV stations *do* on-air testing for maintenance purposes even though the rules, as written, may be construed as *not* permitting it, since they are silent on any reference to it.

The AM, FM and NCE–FM rules define the experimental period as the hours between midnight and 6:00 a.m. The TV rule does not specify an experimental period. There is, of course, a valid reason for restricting AM stations to the prescribed hours for testing, because of the potential interference that could be caused to other licensees, and to allow daytime stations to conduct on-air testing as necessary. These same *technical* problems of possible interference do not occur in the testing of FM and NCE–FM (and TV) stations, and therefore there is no reason why the Commission should restrict routine testing of FM or NCE–FM stations to a specified experimental period. There is no useful need to require that permittees, constructing FM and NCE–FM stations, obtain special authority to conduct equipment tests during daytime and evening hours. Deleting the requirement that equipment tests during construction and tests for routine maintenance be conducted between midnight and 6:00 a.m. would be of particular benefit to small market and educational broadcasters. The requirement allowing FM and TV stations "upon informal application" to conduct experimental testing with other than standard type signals at any hour (so long as their minimum operating schedule is maintained) would remain unchanged. However, the requirement is removed to render "prior notification" of testing for maintenance purposes to the Commission and the Engineer in Charge of the radio district in which the station is located. In so doing, we relieve both the licensee and the Commission staff of an unnecessary administrative workload.

(1) Amendments in §§ 73.262, 73.562 and 73.666 are made accordingly.

(e) In § 73.265, Operator requirements, the rule requires fulltime employment of a first-class radiotelephone operator at FM stations with transmitter output power in excess of 25 kilowatts. For a station with transmitter output power of 25 kilowatts or less, the rule allows first-class radiotelephone operators in full-time or *part-time* employment. The rule is herein revised to allow part-time first-class radiotelephone operators at FM stations regardless of transmitter output power, because: no problems have arisen, pursuant to field inspections, in stations with part-time first-class radiotelephone operators vis-a-vis stations with full-time operators; the licensee's inability, in certain cases, to hire full-time operators has apparently caused these licensees to defer upgrading transmitters, thereby delaying optimal service to the public (e.g., reception improvement, via conversion to circular polarization which can increase transmitter output power to over 25 kilowatts); there are relatively few FM stations broadcasting with a single transmitter operating in excess of 25 kilowatts (the License Division estimates "100 to 200" out of 3655 licensed FM stations); and in so doing we will rectify a contradiction between the letter and the spirit of the rule, wherein the Commission follows the letter of the rule in requiring a full-time first-class radiotelephone operator for any transmitter over 25 kilowatts of transmitter output power, but approves supervision by a part-time operator or contract operator in the operation of dual transmitters, in parallel, whose *separate* transmitter output power is 25 kilowatts or less, but whose total radio frequency power output is in excess of 25 kilowatts.

(1) Amendments are made herein to modify § 73.265(d) to allow licensees of FM broadcast stations with transmitter output power in excess of 25 kilowatts to operate with part-time, as well as full-time first-class radiotelephone operators. (See paragraph (2)(f) of this *Order* for parallel amendments in the noncommercial educational FM rules.)

Changes are also made in § 1.547, Application for permission to use lesser grade operators, to conform the changes made in §§ 73.265(d) and 73.565(d).

(f) The operator requirements in Subpart C, Noncommercial educational FM broadcast stations (§ 73.565), are amended to conform to the revisions pertaining to commercial FM stations described in paragraph (2)(e) herein.

Also, we add to the noncommercial educational FM rules, via this *Order*, the permission, as a further relaxation, to use operators holding third-class permits without broadcast endorsement or holding restricted radiotelephone operator permits, to be employed at noncommercial educational FM stations of 10 watts or less subject to these restrictions: (1) such operators may make adjustments only of external controls necessary to turn the transmitter on and off and maintain the modulation to a normal level; and (2) the transmission system must be equipped with an automatic device to prevent modulation peaks in excess of 100%.

(1) Amendments are made accordingly in Part 73 (§ 73.565, Operator requirements); and in Part 13 (§ 13.62, Special privileges).

3. We conclude that, for the reasons set forth above, adoption of these amendments will serve the public interest. Prior notice of rule making, effective date provisions, and public procedure thereon are unnecessary, pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B), inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose.

4. Therefore, it is ordered, That, pursuant to section 4 and 303 of the Communications Act of 1934, as amended, Parts 1 and 73 of the Commission's Rules and Regulations are amended as set forth below, effective October 13, 1976.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

PART 1—PRACTICE AND PROCEDURE

1. In § 1.547, subparagraph (c)(4) is amended to read as follows:

§ 1.547 Application for permission to use lesser grade operators.

* * * * *

(c) * * *

* * * * *

(4) A showing that at least one operator of the class required pursuant to §§ 73.93(b), 73.265(b) or 73.565(b)(1), (2) and (3) will be employed full-time or on a contract basis for those stations using contract operators, and that such operator will be available on call at all times in the event of equipment failure. If this operator is incapacitated temporarily, appointment of a qualified operator on a pro-tem basis is allowed. He must be available on call at all times in the event of equipment failure.

* * * * *

V41 I196 OCT 7 76 UMI

2. In Section 1.573, reference to Note 2 is added to subparagraph (a)(1)(ii); reference to Note 1 is added to paragraph (c); and Notes 1 and 2 are moved to follow paragraph (e), instead of paragraph (c).

§ 1.573 Processing of FM and noncommercial educational FM broadcast applications.

(a) • • •

(1) In the first group are applications for new stations or for major changes in the facilities of authorized stations. A major change is, in the case of stations authorized under Part 73 of this chapter, (i) any change in frequency, station location or class of station, or (ii) any change in power, antenna location or height above average terrain (or combination thereof) which would result in a change of 50 percent or more in the area within the station's predicted 1 mV/m field strength contour. (See Note 2 to this section.) In the case of FM translator stations authorized under Part 74 of this chapter, it is any change in frequency (output channel), primary stations, or authorized principal community or area: *Provided, however,* That the Commission may, within 15 days after the acceptance for filing of any other application for modification of facilities, advise the applicant that such application is considered to be one for a major change and therefore is subject to the provisions of §§ 1.580 and 1.1111 pertaining to major changes.

• • • • • •

(c) Except as provided in Note 1 to this section, if, upon examination, the Commission finds that the public interest, convenience and necessity will be served by the granting of an application for FM broadcasting facilities (Class A, Class B, Class C or noncommercial educational), the same will be granted. If, on the other hand, the Commission is unable to make such a finding and it appears that a hearing may be required, the procedure set forth in § 1.593 will be followed.

PART 13—COMMERCIAL RADIO OPERATORS

3. In § 13.62, present paragraph (d) is redesignated paragraph (e) and a new paragraph (d) is added as follows:

§ 13.62 Special privileges.

• • • • • •

(d) The holder of a third-class operator permit, without broadcast endorsement, or a restricted radiotelephone operator permit may operate a noncommercial educational FM broadcast station with a transmitter output power of 10 watts or less under the following conditions:

(1) That adjustments of the transmitting equipment, except when under the immediate supervision of a radiotelephone first or second class operator shall be limited to those necessary to turn the transmitter on and off and to maintain the modulation at a normal level.

(2) The transmission system is equipped with an automatic device to prevent modulation peaks in excess of 100%.

(e) When an emergency action condition is declared, a person holding any class of radio operator license or permit, who is authorized thereunder to perform limited operation of a broadcast station, may make any adjustments necessary to effect operation in the emergency broadcast system in accordance with the station's National Defense Emergency Authorization: *Provided,* That the station's responsible first-class radiotelephone operator(s) (or second-class radiotelephone operator(s), for noncommercial educational FM broadcast stations with transmitter output power not exceeding 1 kilowatt), shall have previously instructed such person(s) in the adjustments to the transmitting system which are necessary to accomplish operation in the Emergency Broadcast System.

PART 73—RADIO BROADCAST SERVICES

§ 73.56 [Amended]

4. Section 73.56 is amended by deleting paragraph (d).

5. In Section 73.67, Remote control operation, subparagraph (a)(5) is revised, subparagraph (a)(8) is added, and subparagraph (c)(4) is revised as follows:

§ 73.67 Remote control operation.

(a) • • •

• • • • • •

(5) Calibration of required indicating instruments at each remote control point shall be made against their corresponding instruments at the transmitter site as often as necessary to insure their accuracy, but in no event less than once a week, and:

(i) The results of such calibrations shall be entered in the station's maintenance log;

(ii) In no event shall a remote control meter be calibrated against another remote control meter;

(iii) Each remote control meter shall be accurate within 2 percent of the value read on its corresponding meter at the transmitter site.

• • • • • •

(8) The modulation percentage shall be continuously monitored at the remote control point, except when the readings are being taken, or the transmission system shall be equipped with an automatic device to limit the modulation to peak levels as specified in § 73.55.

• • • • • •

(c) • • •

• • • • • •

(4) Measures shall be employed to insure that during the periods the tone is being transmitted, the total modulation of the carrier must conform with the requirements of § 73.55.

• • • • • •

6. In Section 73.186, the headnote and paragraphs (a), (a)(1), (a)(5), (b)(1), (b)(3), (b)(5) and (b)(7) are amended and a new subparagraph (a)(6) is added to read as follows:

§ 73.186 Field strength measurements in allocation; establishment of effective field at one mile.

(a) Section 73.45 provides that certain minimum field strengths are acceptable in lieu of the required minimum physical vertical heights of the antennas proper. Also, in other allocation problems, it is necessary to determine the effective field at 1 mile. The following requirements shall govern the taking and submission of data on the field strength produced:

(1) Beginning as near to the antenna as possible without including the induction field and to provide for the fact that a broadcast antenna is not a point source of radiation (not less than one wave length or 5 times the vertical height in the case of a single element, i.e., nondirectional antenna or 10 times the spacing between the elements of a directional antenna), measurements shall be made on eight or more radials, at intervals of approximately one-tenth mile up to 2 miles from the antenna, at intervals of approximately one-half mile from 2 miles to 6 miles from the antenna, at intervals of approximately 2 miles from 6 miles to 15 or 20 miles from the antenna, and a few additional measurements if needed at greater distances from the antenna. Where the antenna is rurally located and unobstructed measurements can be made, these shall be as many as 18 or 20 measurements on each radial. However, where the antenna is located in a city where unobstructed measurements are difficult to make, measurements shall be made on each radial at as many unobstructed locations as possible, even though the intervals are considerably less than stated above, particularly within 2 miles of the antenna. In cases where it is not possible to obtain accurate measurements at the closer distances (even out to 5 or 6 miles due to the character of the intervening terrain), the measurements at greater distances should be made at closer intervals. (It is suggested that "wave tilt" measurements may be made to determine and compare locations for taking field strength measurements, particularly to determine that there are no abrupt changes in ground conductivity or that reflected waves are not causing abnormal field strengths.

• • • • • •

(5) In analyzing the results of a partial proof of performance as defined in § 73.154 when the data are insufficient for independent graphical analysis, either of two analysis methods may be used. In such cases, either the arithmetic average or logarithmic average of the ratios of field strength at each measurement point along each radial to the corresponding field strength in the latest complete proof of performance may be utilized to establish the inverse distance fields. (The logarithmic average for each radial is the antilogarithm of the mean of the logarithms of the ratios of field strength (new to old) for each measurement location along a given radial.)

(6) The antenna power of the station shall be maintained at the authorized level during all field strength measurements. The power determination requires a knowledge of the antenna or common point resistance which must be accurately measured in accordance with § 73.54, and the current, measured with a ammeter of acceptable accuracy (see §§ 73.58 and 73.1215).

(b) • • •

(1) Tabulation by number of each point of measurement to agree with the map required in (2) below, the date and time of each measurement, the field strength (E), the distance from the antenna (D) and the product of the field strength and distance (ED) (if data for each radial are plotted on semilogarithmic paper, see above) for each point of measurement.

(2) • • •

(3) Description of method used to take field strength measurements.

(4) • • •

(5) The curves drawn for each radial and the field strength pattern.

• • • • • •

(7) Antenna current or currents maintained during field strength measurements.

• • • • • •

7. In Section 73.262, paragraphs (a) and (b) are amended to read as follows:

§ 73.262 Experimental operation.

(a) FM broadcast stations may be used for experimental purposes in testing and maintaining apparatus on their assigned frequencies and not in excess of their authorized power at any time, without specific authorization from the Commission.

(b) FM broadcast stations may obtain, upon informal application, authority to conduct technical experimentation directed to the improvement of technical phases of operation, and for such purposes may utilize a signal other than the standard FM signal, subject to the following conditions:

• • • • • •

8. In § 73.265, paragraph (d) and (d)(1) are amended to read as follows:

§ 73.265 Operator requirements.

• • • • • •

(d) A station with authorized total transmitter output power in excess of 25 kilowatts may employ first-class radiotelegraph operators, second-class radiotelegraph and radiotelephone operators, or operators with third-class radiotelegraph or radiotelephone permits endorsed for broadcast station operation, for routine operation of the transmitting system, if the station has in full-time employment at least one first-class radiotelephone operator, or as an alternative, the licensee may contract in writing for the services, on a part-time basis, of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission. The licensee must comply with the following:

(1) One first-class radiotelephone operator shall be designated as the chief operator who, together with the licensee, shall be responsible for the technical operation of the station. The licensee may also designate another first-class radiotelephone operator as assistant chief operator, who shall assume all responsibilities of the chief operator during periods of his absence. The station licensee shall notify the engineer in charge of the radio district in which the station is located of the name(s) and license number(s) of the operator(s) so designated. Such notification shall be made within 3 days of the date of such designation. A copy of the notification shall be posted with the license(s) of the designated operator(s).

• • • • • •

9. In Section 73.275, subparagraph (a)(5) is revised and new (a)(8) is added as follows:

§ 73.275 Remote control operation.

(a) • • •

• • • • • •

(5) Calibration of required indicating instruments at each remote control point shall be made against their corresponding instruments at the transmitter site as often as necessary to insure their accuracy, but in no event less than once a week, and:

(i) The results of such calibrations shall be entered in the station's maintenance log;

(ii) In no event shall a remote control meter be calibrated against another remote control meter;

(iii) Each remote control meter shall be accurate within 2 percent of the value read on its corresponding meter at the transmitter site.

• • • • • •

(8) The total modulation percentage shall be continuously monitored at the remote control point, except when the readings are being taken, or the transmission system shall be equipped with an automatic device to limit the modulation to peak levels as specified in § 73.268.

• • • • • •

10. In Section 73.562, paragraphs (a) and (b) are amended as follows:

§ 73.562 Experimental operation.

(a) Noncommercial educational FM broadcast stations may be used for experimental purposes in testing and maintaining apparatus on their assigned frequencies and not in excess of their authorized power at any time, without specific authorization from the Commission.

(b) Noncommercial educational FM broadcast stations may (upon informal application) conduct technical experimentation directed to the improvement of technical phases of operation, and for such purposes may utilize a signal other than the standard FM signal, subject to the following conditions:

• • • • • •

11. In § 73.565, paragraphs (b) and (d) and subparagraph (d)(1) are amended; new paragraph (e) is added and present paragraphs (e) through (h) are redesignated (f) through (i):

§ 73.565 Operator requirements.

• • • • • •

(b) With the exceptions set forth in paragraph (f) of this section, adjustments of the transmitting system and inspection, maintenance, and required equipment performance measurements shall be performed only by an operator holding the class of license specified below, or during periods of operation when the transmitter is in the charge of an operator of the specified class, by or under the direction of a broadcast consultant regularly engaged in the practice of broadcast station engineering.

• • • • • •

(d) A noncommercial educational FM station with authorized total transmitter output power in excess of 25 kilowatts may employ first-class radiotelegraph operators, second-class radiotelegraph or radiotelephone operators, or operators with third-class radiotelegraph or radiotelephone permits endorsed for broadcast station operation for routine operation of the transmitting system if the station has in full-time employment at least one first-class radiotelephone operator or, as an alternative, the licensee may contract in writing for the services, on a part-time basis, of one or more such operators. Signed contracts with part-time operators shall be kept in the files of the station and shall be made available for inspection upon request by an authorized representative of the Commission. The licensee must comply with the following:

(1) One first-class radiotelephone operator shall be designated as the chief operator who, together with the licensee, shall be responsible for the technical operation of the station. The licensee may also designate another first-class radiotelephone operator as assistant chief operator, who shall assume all responsibilities of the chief operator during periods of his absence. The station licensee shall notify the engineer in charge of the radio district in which the station is located of the name(s) and license number(s) of the operator(s) so designated. Such notification shall be made within 3 days of the date of such designation. A copy of the notification shall be posted with the license(s) of the designated operator(s).

• • • • • •

(e) A noncommercial educational FM broadcast station with authorized transmitter output power of 10 watts or less may employ operators holding third-class radio operator permits (without endorsement for broadcast station opera-

V 41 1976 OCT 7 76 UM

tion) or restricted radiotelephone operator permits in addition to, and under the same conditions as, the employment of the operators specified in paragraph (c): *Provided*, That (1) such operators may make adjustments only of external controls necessary to turn the transmitter on and off and maintain the modulation to a normal level and (2) the transmission system is equipped with an automatic device to prevent modulation peaks exceeding 100%.

. . . . . .

12. In Section 73.573, subparagraph (a)(5) is revised and new (a)(8) is added as follows:

§ 73.573 Remote control operation.

(a) . . .

. . . . . .

(5) Calibration of required indicating instruments at each remote control point shall be made against their corresponding instruments at the transmitter site as often as necessary to insure their accuracy, but in no event less than once a week, and:

(i) The results of such calibration shall be entered in the station's maintenance log;

(ii) In no event shall a remote control meter be calibrated against another remote control meter;

(iii) Each remote control meter shall be accurate within 2 percent of the value read on its corresponding meter at the transmitter site.

. . . . . .

(8) The total modulation percentage shall be continuously monitored at the remote control point, except when the readings are being taken, or the transmission system shall be equipped with an automatic device to limit the modulation to peak levels as specified in § 73.568.

. . . . . .

13. Section 73.666 is revised to read as follows:

§ 73.666 Experimental operation.

(a) Television broadcast stations may be used for experimental purposes in testing and maintaining apparatus on their assigned frequencies and not in excess of the authorized power at any time, without specific authorization from the Commission.

(b) Television broadcast stations may obtain, upon informal application, authority to conduct technical experimentation directed to the improvement of technical phases of operation, and for such purposes may utilize a signal other than the standard television signal, subject to the following conditions:

(1) That the licensee complies with the provisions of § 73.651 with regard to the minimum number of hours of transmission with a standard television signal.

(2) That no transmissions are radiated outside of the authorized channel and subject to the condition that no interference is caused to the transmission of a standard television signal by other television broadcast stations.

(3) No charges either direct or indirect shall be made by the licensee of a television broadcast station for the production or transmission of programs when conducting technical experimentation.

[Docket No. 20815; FCC 76-898]

COMMISSION'S RULES TO EXPAND THE SECONDARY FIXED USE OF BASE/MOBILE FREQUENCIES IN THE 450–470 MHz BAND

Report and Order

Adopted: September 28, 1976.

Released: October 8, 1976.

By the Commission: Commissioners Fogarty and White not participating.

Amendment of Parts 89, 91, and 93 of the Commission's Rules to expand the secondary fixed use of base/mobile frequencies in the 450–470 MHz band.

1. On May 25, 1976, the Commission released a notice of inquiry and Notice of Proposed Rulemaking in the above entitled matter (41 FR 22096). Comments were filed by the City of Pompano Beach; Land Mobile Section of the Communications Division of the Electronics Industries Association (EIA); GTE Service Corporation (GTE); Central Committee on Telecommunications of the American Petroleum Institute (API); Utilities Telecommunications Council (UTC); Indianapolis Power and Light Company; Special Industrial Radio Service Association, Inc. (SIRSA), Tillamook People's Utility District; Ark Valley Electric Cooperative Association, Inc.; and Northwest National Gas Company. Reply comments were filed by Puget Sound Power and Light Company, International Municipal Signal Association (IMSA), and the California Mobile Radio Association (CMRA).

2. The Notice of Proposed Rulemaking sought comments on the Commission's proposal to expand the availability of the frequencies allocated in the Public Safety, Industrial and Land Transportation Radio Services in the 450–470 MHz band for secondary point-to-point (fixed) operations. This was to be done by expanding the areas where point-to-point communications in this band would be authorized. The rules now permit such operations in areas located 100 miles or more miles (75 miles or more with reduced power) from the center of the largest 87 urbanized areas (200,000 population, 1960 census). Our proposal would expand this area to include areas located 100 miles (75 miles with reduced power) beyond the center of the largest 40 urbanized centers (1970 census). We also asked for comments as to whether the 100 or 75 mile radius protection circles could be reduced.

3. The response to our proposal varied. EIA, API, UTC, SIRSA, and IMSA supported our basic proposal. They generally cited the absence of problems or interference in the shared use of frequencies by fixed and mobile systems in areas beyond the largest 87 urban centers, and pointed out the secondary nature of fixed operations in that band. On the other hand, the comments filed on behalf of the Police Department of the City of Pompano Beach, Florida, opposed the proposal, arguing that "licensing secondary users in areas of light population density may serve to inhibit future primary use in those areas, when such primary use is mandated by population growth". CMRA, in reply comments, expressed concern over possible interference problems in the Business Radio Service in California from fixed systems located at high elevations and argued that the need for such additional point-to-point usage in the Business Radio Service has not been demonstrated. CMRA urged that the proposed relaxation should not be applied in the Business Radio Service in California. Finally, GTE recommended that the proposal should not be adopted until "guidelines are developed on the allowable degree of impact of secondary use on the primary use . . ."

4. We have considered the comments carefully and we have concluded that the public interest would be served by expanding the opportunity to use the 450–470 MHz frequencies for secondary point-to-point operations, as proposed. This would allow many licensees to accommodate important communications requirements but without substantial impact on the availability of these frequencies for present or future land mobile communications systems.

5. Our proposal to relax the restrictions against fixed operations in the 450–470 MHz band was based largely on our experience in licensing radio systems in this band and on a limited study of frequency assignments in a number of the 87 urbanized areas. With some exceptions not pertinent here, the frequencies in the 450–470 MHz band are used more heavily in the larger urban centers. Their use decreases almost proportionately with the size of the urban areas involved. It appeared to us that beyond the 40th largest urban area (600,000 or more population) the current usage of these frequencies in mobile systems and the growth pattern of such systems indicate that a reasonable number of point-to-point operations can be accommodated there without significantly depleting the frequency resource that will be needed for the anticipated mobile system growth in the foreseeable future. It should also be noted that point-to-point operations will be authorized only on a secondary basis. This means at least two things. First, should a point-to-point station cause interference to a mobile station operated in accordance with the rules, the licensee of the fixed station will either have to eliminate the interference promptly or will have to discontinue operations. Secondly, should the frequencies occupied by fixed stations be needed for mobile stations, the licensees of fixed stations will be required to vacate the needed frequencies, also promptly. Therefore, if we have underestimated the future need for mobile communication systems in urban areas of less than 600,000 population, the provision for secondary fixed use, would provide the needed safeguard.

6. In reaching this conclusion, we have considered carefully the request of CMRA that we exempt the Business Radio Service in the State of California from the proposed new rule. However, while we recognize the topography in that state, we do not believe that a more restrictive rule should be applied there. The prohibition against the use of 450–470 MHz frequencies for point-to-point operations will continue to apply in most of the state. Also, to the extent there will be some relexation, the need to coordinate point-to-point assignments and the protection of mobile systems against any harmful interference from fixed systems would prevent any serious adverse impact (of our proposal) on mobile radio systems in that state. Therefore, CMRA's request has been denied.

7. There were also differences of opinions as to whether the 100/75 mileage restrictions should be reduced. SIRSA proposed reducing the mileage restrictions to 75 and 50 miles, respectively. API recommended that secondary fixed operations be permitted beyond 30 miles from the center of the 40 protected urbanized areas where the proposed fixed station would not produce a signal exceeding one microvolt at a typical mobile unit's antenna at a 30 mile radius from the center of the protected area. IMSA in its reply comments agreed with API's suggestion but also stated if the Commission did not consider API's proposal feasible, then the SIRSA proposal should be adopted. UTC, EIA, GTE, and the City of Pompano Beach all opposed any reduction in the mileage protection criteria at this time.

8. We have considered these comments carefully also. We must note, however, that neither those who suggested changing the mileage restrictions nor those who urged that we retain the present ones supported their position with engineering analyses or with technical data. Therefore, significant changes cannot be made on the basis of the comments. But we have decided to reduce those mileage restrictions somewhat; namely, to 85 and 65 miles, respectively. We believe that at these distances and with the facilities usually expected to be employed at fixed stations, we can provide reasonable protection to the normal land mobile radio operating environment in each urban area, or to 25 to 35 miles from the center. This will assure co-existence between fixed and mobile systems in the vast majority of situations, although these separations would not apply to all cases. Our aim here is not to provide criteria for engineering specific assignments on a case-by-case basis, but to protect an area where land mobile systems are expected to grow. API's and SIRSA's suggestions therefore would be inconsistent with this objective and, consequently are denied.

9. In the Notice, we stated that we did not plan to allow non-conforming point-to-point systems beyond the present November 1, 1976, cut-off date. The comments filed by the public utility entities mentioned above, asked that we permit them to continue their own non-complying operations and, in the case of Indianapolis Power and Light Company, that its operation be allowed to continue for a period of nine months following a decision in this proceeding. We will deny these requests. This, of course, is not an appropriate proceeding to consider specific waiver requests. In any event, our purpose here was to establish new, less restrictive rules to apply across the board so as to avoid having to consider the large number of individual cases. We followed this approach in granting an extension in this matter previously, and we have allowed sufficient time for amortization of the equipment involved.[1] We are not persuaded that a further substantial extension should be granted. However, in order to avoid abrupt disruptions, we will grant an across-the-board extension until May 31, 1977, by which date all non-complying point-to-point operations now authorized under Rule Parts 89, 91, and 93 in the 450–470 MHz will be discontinued.

10. Finally, as requested by SIRSA, we want to urge full and complete cooperation among the various industry frequency advisory committees which must (except for Business) coordinate, on an interservice basis the selection of frequencies in the 450–470 MHz for point-to-point systems. In addition, it seems to us that responses to coordination requests should be made as promptly as possible, and that the absence of a reply with specific objections within a reasonable period of time, such as three weeks, may be taken to be an affirmative response.

11. In view of the foregoing, the Commission concludes that the public interest will be served by adopting the rule amendments as set forth in Appendix B. Authority for these amendments is contained in Sections 4(i) and 303 of the Communications Act of 1934, as amended.

12. Under the authority of 5 U.S.C. 553(d) and Section 1.427(b) of the Commission's Rules for good cause found we are reducing the required effective date provisions in order to make the new rules become effective before the November 1, 1976 cutoff date.

13. Accordingly, it is ordered, That Parts 89, 91, and 93 of the Commission's Rules and Regulations are amended effective October 29, 1976, as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[1] The original cut-off date, established in 1968, was November 1, 1971. This was extended to November 1, 1976. Thus, licensees of non-complying fixed systems have had at least eight years during which to amortize their facilities.

APPENDIX A.—Urbanized areas protected

Rank:	*Urbanized area*
1	New York, N.Y.-Northeastern New Jersey.
2	Los Angeles-Long Beach, Calif.
3	Chicago, Ill.-Northwestern Indiana.
4	Philadelphia, Pa.-New Jersey.
5	Detroit, Mich.
6	San Francisco-Oakland, Calif.
7	Boston, Mass.
8	Washington, D.C.-Maryland-Virginia.
9	Cleveland, Ohio.
10	St. Louis, Mo.-Illinois.
11	Pittsburgh, Pa.
12	Minneapolis-St. Paul, Minn.
13	Houston, Tex.
14	Baltimore, Md.
15	Dallas, Tex.

38	Sacramento, Calif.
39	Fort Lauderdale - Hollywood, Fla.
40	Rochester, N.Y.

Parts 89, 91, and 93 of the Commission's Rules and Regulations are amended as follows:

PART 89—PUBLIC SAFETY RADIO SERVICES

I. Part 89 is amended as follows:

1. Section 89.101(p) is amended as follows:

§ 89.101 Frequencies.

. . . . . .

(p) The following frequencies may be assigned to fixed stations in the Public Safety Radio Services on a secondary non-interference basis to land mobile operations in the Industrial (except Business) and Land Transportation Radio Services. All such use of these frequencies for fixed systems is limited to locations 35 or more miles from the center of any urbanized area of 600,000 or more population, except that the distance may be 65 miles if the output power does not exceed 20 watts. All such fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems the separation between transmit-receive frequencies is 5 MHz. The centers of urbanized areas of 600,000 or more population are determined from the Appendix, Page 226, of the U.S. Commerce publication "Air Line Distance Between

Cities in the United States." Urbanized areas of 600,000 or more population are defined in the U.S. Census of Population, 1970, Vol. 1, Table 20, Page 1–74.

• • • • • •

PART 91—INDUSTRIAL RADIO SERVICES

II. Part 91 is amended as follows:

1. Section 91.254(b)(26) is amended as follows:

§ 91.254 Frequencies available.

• • • • • •

(b) • • •

(26) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations on the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 85 or more miles from the center of any urbanized area of 600,000 or more population, except that the distance may be 65 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems, separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 600,000 or more population are defined in the U.S. Census of population, 1970, Vol. 1, Table 20, Page 1–74. The centers of urbanized areas are determined from the Appendix, Page 226, of the U.S. Commerce publication "Air Line Distances Between Cities in the United States."

• • • • • •

2. Section 91.304(b)(29) is amended as follows:

§ 91.304 Frequencies available.

• • • • • •

(b) • • •

(29) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 85 or more miles from the center of any urbanized area of 600,000 or more population, except that the distance may be 65 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems, separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 600,000 or more population are defined in the U.S. Census of population, 1970, Vol. 1, Table 20, Page 1–74. The centers of urbanized areas are determined from the Appendix, Page 226, of the U.S. Commerce publication "Air Line Distances Between Cities in the United States."

• • • • • •

3. Section 91.354(b)(29) is amended as follows:

§ 91.354 Frequencies available.

• • • • • •

(b) • • •

(29) This frequency may be assigned to fixed stations on a secondary non-interference basis to land mobile stations in the Public Safety and Land Transportation Radio Services. All use of these frequencies by fixed stations is limited to locations 85 or more miles from the center of any urbanized area of 600,000 or more population, except that the distance may be 65 miles if the output power does not exceed 20 watts. All fixed systems are limited to a maximum of two frequencies and must employ directional antennas with a front-to-back ratio of at least 15 dB. For two-frequency systems, separation between transmit-receive frequencies is 5 MHz. Urbanized areas of 600,000 or more population are defined in the U.S. Census of population, 1970, Vol. 1, Table 20, Page 1–74. The centers of urbanized areas are determined from the Appendix, Page 226, of the U.S. Commerce publication "Air Line Distances Between Cities in the United States."

PART 97—AMATEUR RADIO SERVICE

List of Emission Types; Correction

Order. In the matter of editorial Amendment of § 97.61 of the Commission's rules to correct the list of emission types authorized in the Amateur Radio Service.

Adopted: September 30, 1976.

Released: October 4, 1976.

1. On April 2, 1974, the Commission adopted an Order which was published in the FEDERAL REGISTER on April 10, 1974 (39 FR 12995), which amended the information contained in § 97.61(a) of the Commission's Rules for the Amateur Radio Service to conform with the Table of Frequency Allocations in Part 2 of the rules.

2. Through an error, type F2 emission was unintentionally omitted from the list of emission types authorized in the 50.1–54.0 MHz band. This Order is issued to correct that error and to appropriately amend the table contained in § 97.61(a) of the rules.

3. Because this amendment relates to editorial revisions to correct a previous error, prior notice of rule making public procedure and effective date provisions are unnecessary, pursuant to the Administrative Procedure and Judicial Review provisions of 5 U.S.C. 553.

4. *Accordingly, it is ordered,* Pursuant to sections 4(i), 5(d) and 303 of the Communications Act of 1934, as amended, and § 0.231(d) of the Commission's rules and regulations, that effective October 15, 1976, § 97.61 of the Commission's rules is amended as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082 (47 U.S.C. 154, 155, 303).)

FEDERAL COMMUNICATIONS COMMISSION,
RICHARD D. LICHTWARDT,
Executive Director.

Part 97 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. In § 97.61(a) the table is amended to read as follows:

§ 97.61 Authorized frequencies and emissions.

(a) • • •

Frequency band	Emissions	Limitations (see par. (b))
•	•	•
megahertz		
•	•	•
50.1–54.0	A2, A3, A4, A5, F1, F2, F3, F5	
•	•	•

Title 49—Transportation

CHAPTER XI—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte No. 320]

PART 1109—REQUIREMENTS AND PROCEDURES RELATING TO RAILROAD REVITALIZATION AND REGULATORY REFORM ACT OF 1976

Special Procedures for Making Findings of Market Dominance as Required by Railroad Revitalization and Regulatory Reform Act of 1976

At a general session of the Interstate Commerce Commission, held at its Office in Washington, D.C., on the 30th day of September 1976.

It appearing, that the Commission, by notice and order served March 10, 1976, instituted this rulemaking proceeding under authority of section 202 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94–210) to establish standards and procedures for determining whether and when a rail carrier possesses market dominance over a service rendered or to be rendered at a particular rate or rates;

It further appearing, that by said notice of proposed rulemaking all interested parties were invited to make representations with regard to the proposed rules; and that notice to all interested parties was given through publication in the FEDERAL REGISTER of March 16, 1976;

It further appearing, that various parties submitted their views and suggestions regarding the proposed regulations, that the Commission has considered all representations filed, and, on August 23, 1976, served its interim report setting forth its conclusions, findings, reasons therefor, and its decision that the regulations set forth therein should be adopted, pending further comment of the parties;

It further appearing, that the Commission, upon consideration of all the comments filed, has, on the date hereof, made and filed its report setting forth its conclusions, findings, reasons therefor, and its decision that the regulations set forth below should be adopted, which report is hereby referred to and made a part hereof;

It further appearing, That, except to the extent modified herein, the conclusions, findings, and reasons therefor set forth in the interim report served August 23, 1976, are hereby adopted and made a part hereof;

Wherefore, and for good cause:

It is ordered, That the Commission hereby adopts the regulations as set forth below.

It is further ordered, That Part 1109 of Title 49 of the Code of Federal Regulations be, and it is hereby, amended by adding the regulations as set forth below.

It is further ordered, That this order shall become effective forthwith.

It is further ordered, that this proceeding shall remain open, so that refinements and modifications of adopted standards and procedures may be made in the light of actual experience.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

ROBERT L. OSWALD,
Secretary.

§ 1109.1 Requirements and procedures relating to a determination of market dominance with regard to rates challenged as unreasonably high.[1]

(a) In order that the Commission may determine whether a rail carrier proposing a rate increase possesses market dominance over the service to be rendered under a proposed rate, there shall be included in the carrier's statement notifying the Commission that it wishes to have the proposed rate considered pursuant to section 15(8)(c) of the Interstate Commerce Act, evidence upon which the Commission may base a determination with regard to market dominance, to the extent available, and including but not limited to the following information:

(1) Descriptions of involved commodities and full seven-digit STCC number(s);

(2) Descriptions of involved points or areas and mileage(s), stated in terms of short line mileage by rail;

[1] As used in this section, the term rates includes fares and charges.

V41N196 OCT 7 76 UM

(3) The variable cost of the service to which the rate applies;

(4) Whether and to what extent the rate in issue has been docketed, discussed, considered, or approved before a rate bureau acting under an agreement filed with and approved by the Commission pursuant to section 5a or 5b of the Interstate Commerce Act; application number(s), date proposal docketed with rate bureau, and final disposition of proposal and date thereof; and the share of the market, or an estimate thereof, presently held by such participating carriers;

(5) Tonnage of the involved traffic transported between the involved points or areas by the proponent carrier and its affiliates during the preceding year, and the rates charged therefor during the same time period;

(6) Names of any known originating for-hire carriers of any mode offering interchangeable service between the involved points or areas, the tonnage transported, and the rates charged therefor during the preceding year;

(7) The extent to which the proponent rail carrier has taken general increases approved by the Commission in the preceding two years.

(8) Any other relevant information.

(b) In all proceedings involving a request for suspension of a proposed rate on the ground that it is unreasonably high there shall be included in the verified complaint seeking suspension of the schedule containing the proposed rate,[a] evidence upon which the Commission may base a determination with regard to market dominance, including the information outlined in paragraphs (a)(1)–(7) of this section, to the extent available and not previously furnished by the rail carrier, and including but not limited to the following information:

(1) Characteristics of the involved traffic or movement affecting the ease or difficulty with which transportation services of other carriers or modes may be substituted for the service to be performed under the rate in issue;

(2) Tonnage of the involved traffic transported between the involved points or areas by any known for-hire carriers, other than those in paragraph (a)(5) of this section, during the preceding year, and the rates charged therefor during the same time period;

(3) Any other relevant information.

(c) Any reply to a verified complaint seeking suspension should contain any information required by § 1109.1(a) and (b), to the extent not previously furnished by complainant. Whether or not a reply to a verified complaint seeking suspension is filed, the proponent rail carrier on or before the due date for filing a reply, must provide the Commission with the information required by § 1109.1(a) to the extent available and not previously submitted by another party.

(d) A formal complaint containing an allegation that an existing rail rate is unreasonably high shall contain verified evidence upon which the Commission may base a determination with regard to market dominance, including, to the extent available, the information outlined in § 1109.1 (a) and (b). The answer to a formal complaint shall be verified and shall contain the information outlined in § 1109.1(a) to the extent not previously furnished. Replies limited to the issues of market dominance raised by any verified answer, may be filed within 10 days of the due date for the filing of such answer.

(e) Upon notification of a proceeding instituted upon the Commission's own initiative to investigate whether an existing or proposed rate is unreasonably high, the interested carrier or carriers shall file, within 20 days from the service date of the order instituting said investigation, a verified statement containing, to the extent available and if not previously furnished by the carrier(s), evidence upon which a market dominance determination may be based, including but not limited to the information outlined in § 1109.1 (a) and (b). Replies, if any, directed to the issue of market dominance, should be filed within 20 days of the due date for the filing of the carrier statement.

(f) In a proceeding involving a determination as to market dominance wherein the evidence adduced establishes that the rate in issue has been discussed, considered or approved under a rate bureau agreement filed with the Commission pursuant to section 5a or 5b of the Interstate Commerce Act, a rebuttable presumption will arise that a carrier participating in the rate or in such discussion or consideration does not provide effective competition to the proponent rail carrier for the involved traffic or movement.

(g) In a proceeding involving a determination as to market dominance wherein the evidence adduced establishes one of the following situations, a rebuttable presumption that the carrier whose rate is in issue has market dominance over the involved traffic or movement will arise:

(1) Where the proponent carrier has handled 70 percent or more of the involved traffic or movement during the preceding year; the market share of the proponent will be deemed to include the share of any affiliates, and of any carrier participating in the rate or with whom the proponent carrier has discussed, considered, or approved the rate in issue;

(2) Where the rate in issue exceeds the variable cost of providing the service by 60 percent or more; and,

(3) Where affected shippers or consignees have made a substantial investment in rail-related equipment or facilities which prevents or makes impractical the use of another carrier or mode.

[FR Doc.76-29518 Filed 10-6-76;8:45 am]

[a] Section 15(8)(d) of the Interstate Commerce Act as amended requires that complainants seeking suspension of a proposed rate be verified. See 49 CFR 1100.42(f).

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Bombay Hook National Wildlife Refuge, Del.

The following special regulation is issued and is effective during the period October 15, 1976 through October 16, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

DELAWARE

BOMBAY HOOK NATIONAL WILDLIFE REFUGE

Public hunting of deer with primitive firearms on the Bombay Hook National Wildlife Refuge, Delaware, is permitted only on the Deer Hunting Area and South Upland Hunting Area. These open deer hunting areas are delineated on maps available at refuge headquarters, Smyrna, Delaware 19977, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer with firearms subject to the following special conditions:

(1) Hunting with primitive firearms on the Deer Hunting Area is permitted only on October 15 through October 16.

(2) The number of hunters admitted to the Deer Hunting Area at any one time will be restricted to 50.

(3) Permits are required for the Deer Hunting Area and will be issued on a first-come, first-served basis one hour before shooting time.

(4) Hunters using the Deer Hunting Area and the South Upland Hunting Area must possess a valid firearms qualification card. This qualification test will consist of placing three consecutive rounds in a 12-inch circle at 50 yards, firing from the offhand position. The type of firearm used for the qualification test must be the same type that is to be used for the hunt—percussion or flintlock.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through October 16, 1976.

HARRY BISHOP,
Acting Regional Director,
U.S. Fish and Wildlife Service.

OCTOBER 1, 1976.

[FR Doc.76-29402 Filed 10-6-76;8:45 am]

PART 32—HUNTING

Bombay Hook National Wildlife Refuge, Del.

The following special regulation is issued and is effective during the period November 12, 1976 through November 17, 1976.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

DELAWARE

BOMBAY HOOK NATIONAL WILDLIFE REFUGE

Public hunting of deer with shotguns on the Bombay Hook National Wildlife Refuge, Delaware, is permitted only on the Deer Hunting Area and South Upland Hunting Area designated by signs as open to hunting. These open deer hunting areas are delineated on maps available at refuge headquarters, Smyrna, Delaware 19977, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of deer with firearms subject to the following special conditions.

(1) Hunting with shotguns on the deer hunting area is permitted only on November 12, 13, 15 and 17, 1976.

(2) A Federal permit is required to hunt on the Deer Hunting Area and may be obtained by applying to the refuge manager in writing for an advance reservation. An individual with an advance reservation will forfeit his permit if he is not present one hour prior to the start of legal shooting time on the date of the reservation. These forfeited permits and permits not reserved by advance reservations will be awarded to standby hunters by lottery one-half hour before the start of legal shooting time. Permits must be surrendered prior to departure from the refuge.

(3) The number of hunters admitted to the open area at one time will be restricted to 50.

(4) Hunters using the Deer Hunting Area and the South Upland Hunting Area must possess a valid firearms qualification card. The qualification test consists of placing three consecutive slugs in a six-inch bullseye at 30 yards from the offhand position.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through November 17, 1976.

HARRY BISHOP,
Acting Regional Director,
U.S. Fish and Wildlife Service.

OCTOBER 1, 1976.

[FR Doc.76-29404 Filed 10-6-76;8:45 am]

PART 32—HUNTING

Prime Hook National Wildlife Refuge, Del.

The following special regulation is issued and is effective during the period October 15, 1976 through January 31, 1977.

§ 32.32 Special regulations; big game; for individual wildlife refuge areas.

DELAWARE

PRIME HOOK NATIONAL WILDLIFE REFUGE

Public hunting of deer by means of primitive firearms and shotgun on Prime Hook National Wildlife Refuge, Delaware, is permitted only on the North Hunting Area. This open deer hunting area, comprising approximately 2,320 acres, is delineated on a map available at refuge headquarters, Milton, Delaware 19968, and from the Regional Director, U.S. Fish and Wildlife Service, John W. McCormack Post Office and Courthouse, Boston, Massachusetts 02109.

Hunting shall be in accordance with all applicable State regulations covering the hunting of deer subject to the following conditions:

(1) Primitive firearm and shotgun hunters must possess a valid firearms qualification card. The test for muzzleloaders will consist of placing three consecutive rounds in a 12-inch bullseye at 50 yards, firing from the offhand position. The test for shotgun hunters will consist of placing three consecutive slugs in a 6-inch bullseye at 30 yards, firing from the offhand position.

(2) Permits are required for all deer hunting. These permits are available free of charge at refuge headquarters.

(3) The number of shotgun hunters admitted to the open area will be restricted to 25 preselected hunters per day.

(4) Permits must be returned to the refuge office by the end of the deer hunting seasons.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1977.

HARRY BISHOP,
Acting Regional Director,
U.S. Fish and Wildlife Service.

OCTOBER 1, 1976.

[FR Doc.76-29403 Filed 10-6-76;8:45 am]

PART 32—HUNTING

Tamarac National Wildlife Refuge, Minn.; Correction

In FR Doc. 76-25650, appearing on page 37106 of the issue for Thursday, September 2, 1976, §§ 26.34 is in error and should read § 32.22.

OMER N. SWENSON,
Refuge Manager, Tamarac National Wildlife Refuge, Rochert, Minnesota.

SEPTEMBER 23, 1976.

[FR Doc.76-29405 Filed 10-6-76;8:45 am]

PART 32—HUNTING

Tamarac National Wildlife Refuge, Minnesota; Correction

In FR Doc. 76-27915, appearing on page 41704 of the issue for Thursday, September 23, 1976, § 26.34 is in error and should read § 32.32. Special regulations; big game; for individual wildlife refuge areas.

Subparagraph (1) should read as follows:

(1) The open season for hunting deer with legal firearms is from sunrise to sunset, November 1 through November 14, both dates inclusive. No taking of black bear or bow hunting is permitted on any portion of the Refuge.

OMER N. SWENSON,
Refuge Manager, Tamarac National Wildlife Refuge, Rochert, Minnesota.

SEPTEMBER 30, 1976.

[FR Doc.76-29474 Filed 10-6-76;8:45 am]

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Beef Research and Information Act

Part 2, Subtitle A, Title 7, Code of Federal Regulations, is amended to add delegations of authority to the Assistant Secretary for Marketing and Consumer Services and to the Assistant Secretary for International Affairs and Commodity Programs, to redelegate said functions to the Administrators of the Agricultural Marketing Service, the Agricultural Stabilization and Conservation Service, and the Foreign Agricultural Service, and to make miscellaneous corrections as follows:

Subpart C—Delegations of Authority to the Under Secretary, Assistant Secretaries, and the Director of Agricultural Economics

1. Section 2.17 is amended by adding a new paragraph (a)(3)(xxxi) to read as follows:

§ 2.17 Delegations of Authority to the Assistant Secretary for Marketing and Consumer Services.

* * * * * * *

(a) *Related to agricultural marketing.* * * *

(3) * * *

(xxxi) Beef Research and Information Act (7 U.S.C. 2901–2918), except as delegated to the Assistant Secretary for International Affairs and Commodity Programs in § 2.21(a)(33) and § 2.21(d)(10).

* * * * * * *

2. Section 2.21 is amended by adding a new paragraph (a)(33) and by revising paragraph (d)(10) to read as follows:

§ 2.21 Delegations of Authority to the Assistant Secretary for International Affairs and Commodity Programs.

* * * * * * *

(a) *Related to agricultural stabilization and conservation.* * * *

(33) Conduct producer referendums required under Section 9 of the Beef Research and Information Act (7 U.S.C. 2908).

* * * * * * *

(d) *Related to foreign agriculture.* * * *

(10) Plan and carry out programs and activities under the foreign market promotion authority of the Wheat Research and Promotion Act (7 U.S.C. 1292 note); the Cotton Research and Promotion Act (7 U.S.C. 2101–2118); Section 610 of the Agricultural Act of 1970 (7 U.S.C. 2119); the Potato Research and Promotion Act (7 U.S.C. 2611–2627); the Egg Research and Consumer Information Act of 1974 (7 U.S.C. 2701–2718); the National Wool Act of 1954, as amended (7 U.S.C. 1781–

VOL 41 NO 196 OCT 7 1976 UM

1787); and the Beef Research and Information Act (7 U.S.C. 2901–2918). This authority includes determining the programs and activities to be undertaken and assuring that they are coordinated with the overall departmental programs to develop foreign markets for U.S. agricultural products.

• • • • •

Subpart F—Delegations of Authority by the Assistant Secretary for Marketing and Consumer Services

3. Section 2.50 is amended by renumbering paragraph (a)(3)(xxx) as (a)(3)(xxxi), by adding paragraph (a)(3)(xxx) which was erroneously omitted upon codification and by adding paragraph (a)(3)(xxxii) to read as follows:

§ 2.50 Administrator, Agricultural Marketing Service.

(a) *Delegations* • • •

(3) • • •

(xxx) Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), and the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2251 et seq.), relating to inspection of eggs and egg products.

(xxxi) Egg Research and Consumer Information Act (7 U.S.C. 2701–2718), except as delegated in § 2.68(a)(10).

(xxxii) Beef Research and Information Act (7 U.S.C. 2901–2918), except as delegated in § 2.65(a)(33) and § 2.68(a)(10).

• • • • •

Subpart H—Delegations of Authority by the Assistant Secretary for International Affairs and Commodity Programs

4. Section 2.65 is amended by adding a new paragraph (a)(33) to read as follows:

§ 2.65 Administrator, Agricultural Stabilization and Conservation Service.

(a) Delegations • • •

(33) Conduct producer referendums required under Section 9 of the Beef Research and Information Act (7 U.S.C. 2908).

• • • • •

5. Section 2.68(a)(10) is amended to read as follows:

§ 2.68 Administrator, Foreign Agricultural Service.

(a) Delegations • • •

(10) Plan and carry out programs and activities under the foreign market promotion authority of the Wheat Research and Promotion Act (7 U.S.C. 1292 note); the Cotton Research and Promotion Act (7 U.S.C. 2101–2118); Section 610 of the Agricultural Act of 1970 (7 U.S.C. 2119); the Potato Research and Promotion Act (7 U.S.C. 2611–2627); the Egg Research and Consumer Information Act of 1974 (7 U.S.C. 2701–2718); the National Wool Act of 1954, as amended, (7 U.S.C. 1781–1787); and the Beef Research and Information Act (7 U.S.C. 2901–2918). This authority includes determining the programs and activities to be undertaken and assuring that they are coordinated with the overall departmental programs to develop foreign markets for U.S. agricultural products.

• • • • •

(5 U.S.C. 301 and Reorganization Plan No. 2 of 1953)

Effective date:

For Subpart C:

Dated: September 27, 1976.

EARL L. BUTZ,
Secretary of Agriculture.

For Subpart F:

Dated: September 30, 1976.

JOHN DAMGARD,
Assistant Secretary for Marketing and Consumer Services.

For Subpart H:

Dated: September 27, 1976.

RICHARD E. BELL,
Assistant Secretary for International Affairs and Commodity Programs.

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Delegations of Authority Regarding Hearing Clerk

Part 2, Subtitle A, Title 7, Code of Federal Regulations, is amended to revise the reporting procedures of Th. Hearing Clerk from the Judicial Officer to the Chief Administrative Law Judge.

Subpart C—Delegations of Authority to the Under Secretary, Assistant Secretaries and Director of Agricultural Economics

1. Section 2.25(a) is amended to authorize the Assistant Secretary for Administration to exercise responsibility with regard to the Hearing Clerk, as follows:

§ 2.25 Delegations of Authority to the Assistant Secretary for Administration.

• • • • •

(a) *Related to administrative law judges.* • • •

(3) Maintain overall responsibility and control over the Hearing Clerk's activities which include the custody of and responsibility for the control, maintenance, and servicing of the original and permanent records of all USDA administrative proceedings conducted under the provisions of Sections 7 and 8 of the Administrative Procedures Act:

(i) Receiving, filing and acknowledging the receipt of complaints, petitions, answers, briefs, arguments, and all other documents that may be submitted to the Secretary or the Department of Agriculture in such proceedings.

(ii) Receiving and filing complaints, notices of inquiry, orders to show cause, notices of hearing, designations of Administrative Law Judges or presiding officers, answers, briefs, arguments, orders, and all other documents that may be promulgated or issued by the Secretary or other duly authorized officials of the Department of Agriculture in such proceedings.

(iii) Supervising the service upon the parties concerned of any documents that are required to be served, and where required, preserving proof of service.

(iv) Keeping a docket record of all such documents and proceedings.

(v) Filing a stenographic record of each administrative hearing.

(vi) Preparing for certification and certifying under the Secretary's facsimile signature, material on file in the Hearing Clerk's office.

(vii) Performing any other clerical duties with respect to the documents relative to such proceedings as may be required to be performed.

(viii) Cooperating with the Office of Operations in the letting of contracts for stenographic and reporting services; and forwarding vouchers to appropriate agencies for payment.

(ix) Receiving and compiling data, views or comments filed in response to notices of proposed standards or rules or regulations.

(x) Performing upon request the following services with respect to any hearings in such proceedings:

(*a*) Arranging for suitable hearing place.

(*b*) Arranging for stenographic reporting of hearings and handling details in connection therewith.

(xi) Preparation of Agricultural Decisions.

Subpart D—Delegations of Authority to Other General Officers and Agency Heads

§ 2.32 [Amended]

2. Section 2.32 is amended by deleting paragraph (k).

3. Section 2.35 is amended by revoking and reserving paragraph (b) as follows:

§ 2.35 Delegations of Authority to the Judicial Officer.

• • • • •

(b) [Reserved]

• • • • •

4. Section 2.41 is amended to include delegations to the Chief Administrative Law Judge as follows:

§ 2.41 Designation and Delegations of Authority to the Office of Administrative Law Judges.

The following designations and delegations of authority are made by the Secretary of Agriculture to the Office of Administrative Law Judges:

• • • • •

(b) The Chief Administrative Law Judge is delegated the following administrative responsibilities subject to the guidance and control of the Assistant Secretary for Administration (See 2.25(a)):

(1) Exercise general responsibility and authority for all matters related to the administrative activities of the Office of Administrative Law Judges.

(2) Direct the functions of the Hearing Clerk as set out in § 2.25(a)(3).

Since these amendments involve an organizational realignment within the Office of the Secretary, it is not believed that public comment would afford the Department any additional information. Accordingly, pursuant to 5 U.S.C. 553, good cause is found that notice and public procedure is unnecessary, and good cause is found to make the amendment effective less than 30 days after publication.

Effective date. These amendments shall become effective on October 7, 1976.

Dated: October 1, 1976.

EARL L. BUTZ,
Secretary of Agriculture.

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES)

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

United States Standards for Grades of Walnuts (Juglans Regia) in the Shell [1]

On page 30026 of the FEDERAL REGISTER of July 21, 1976, there was published a notice of proposed rulemaking to amend these grade standards by lowering the total tolerance for kernel defects in the U.S. No. 2 grade from 20 to 15 percent. Serious damage tolerance would be reduced from 10 to 8 percent.

These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug and Cosmetic Act or with applicable State Laws and regulations.

Interested persons were given until September 15, 1976, to submit written data, views, or arguments regarding the proposal. No objections have been received and the proposed revised standards are hereby adopted without change and are set forth below.

TOLERANCES FOR GRADE DEFECTS

§ 51.2954 Tolerances for grade defects.

In order to allow for variations incident to proper grading and handling, the following tolerances shall be permitted for nuts which fail to meet the requirements of the respective grades as indicated. Terms in quotation marks refer to color classifications illustrated on the color chart.

Tolerances for grade defects

Grade	External (shell) defects	Internal (kernel) defects	Color of kernel
U.S. No. 1...	10 pct, by count for splits, 5 pct, by count, for other shell defects, including not more than 3 pct seriously damaged.	10-pct total by count, including not more than 6 pct which are damaged by mold or insects or seriously damaged by other means, of which not more than 2½ or 5 pct may be damaged by insects, but no part of any tolerance shall be allowed for walnuts containing live insects.	No tolerance to reduce the required 70 pct of "light amber" kernels or the required 40 pct of "light" kernels or any larger percentage of "light amber" or "light" kernels specified.
U.S. No. 2...	10 pct, by count, for splits, 10 pct, by count, for other shell defects, including not more than 5 pct serious damage by adhering hulls.	15 pct total, by count, including not more than 8 pct which are damaged by mold or insects or seriously damaged by other means, of which not more than 5½ or 5 pct may be damaged by insects, but no part of any tolerance shall be allowed for walnuts containing live insects.	No tolerance to reduce the required 60 pct or any specified larger percentage of "light amber" kernels, or any specified percentage of "light" kernels.
U.S. No. 3..	Same as above tolerance for U.S. No. 2.	Same as above tolerance for U.S. No. 2.	No tolerance to reduce any percentage of "light amber" or "light" kernel specified.

(Secs. 203, 205, 60 Stat. 1087, as amended, 1090, as amended; 7 U.S.C. 1622, 1624)

Dated: October 1, 1976.

DONALD E. WILKINSON,
Administrator.

[FR Doc.76-29380 Filed 10-6-76;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 548]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period October 8–14, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.848 Valencia Orange Regulation 548.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues good. Prices f.o.b. for the week ending September 30, were $3.93 per carton on 765 cars as compared with $3.85 per carton on 819 cars during the prior week. Track and rolling supplies at 463 cars were up 96 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this

V41 I196 OCT 7 76 UMI

section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 5, 1976.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period October 8, 1976, through October 14, 1976, are hereby fixed as follows: (i) District 1: 360,000 cartons; (ii) District 2: 440,000 cartons; (iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated: October 6, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–29794 Filed 10–6–76;12:35 pm]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 907]

HANDLING OF NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Effective Administrative and Functioning of Marketing Program

The proposed amendment would revise rules and regulations issued under the order to provide for more effective administration and functioning of the marketing program.

Notice is hereby given that the Department is considering an amendment, as hereinafter set forth, to the rules and regulations (Subpart—Rules and Regulations; 7 CFR 907.100–907.142) currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The amendment of the rules and regulations was proposed by the Navel Orange Administrative Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposal may file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 15, 1976. All written submissions made pursuant to this notice will be available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposed amendment would: (1) Simplify the definition of carload and define regular meeting day; (2) delete nonessential reference to the nomination of initial committee members; (3) require that handlers furnish more information relating to the growers' oranges under their control, when applying for a prorate base and allotment; (4) revise the procedure for computing the weekly shipment allocation schedules for the districts; (5) require that handlers furnish additional information relating to oranges shipped in containers other than cartons or bags to enable the committee to accurately determine the amount of oranges shipped; (6) provide a schedule for filing for early maturity and freeze damage allotments when the committee meets on days other than the regular meeting day, and change the method of computing early maturity allotments to afford handlers among districts equal shipping opportunity; (7) tighten the safeguards relating to the issuance of exemptions under § 907.67, and delete reference to "district" in § 907.130; (8) require exporters to furnish additional proof indicating that oranges for export are actually exported, and stipulate that only exporters approved by the committee may export oranges exempt from allotment to Mexico; and (9) require producers who apply for exemption to sell their oranges direct to the consumer, furnish to the committee additional information relating to their marketing plans, and exempt oranges furnished as gifts or for exhibits from regulations.

The proposed amendments are as follows:

1. In § 907.100 *Definitions* revise paragraph (e) and add a new paragraph (h) reading as follows:

§ 907.100 Definitions.

• • • • • •

(e) Pursuant to § 907.17, the quantity of oranges comprising a carload, as such term is therein defined, means a quantity of oranges equivalent to 1,000 cartons of oranges.

• • • • • •

(h) The regular weekly meeting of the committee is held on Tuesday at the headquarters in Los Angeles. Whenever the committee determines that its meeting should be at another place or on a day other than the regular weekly meeting day, it shall advise handlers by notice mailed not less than five days before such meeting.

2. Revise the first two sentences of paragraph (a) in § 907.102 *Nomination procedure* to read as follows:

§ 907.102 Nomination procedure.

(a) The time of nominating grower and handler members and alternate members of the committee shall be not later than 20 days preceding the date of expiration of the terms of the members and alternate members of the committee. The manner of nominating members and alternate members of said committee shall be as follows:

• • • • • •

3. Revise paragraph (a) of § 907.108 *Prorate bases and allotments* to read as follows:

§ 907.108 Prorate bases and allotments.

(a) *Application to be filed.* Each person who has oranges available for current shipment and desires to handle such oranges shall submit to the committee upon request, on N.O.A.C. Form No. 1, an application for a prorate base and allotments. Such application shall contain the information required pursuant to § 907.53(b) and a certification to the U.S. Department of Agriculture and the Navel Orange Administration Committee by the handler that the information in the application is true and that he has control, for all purposes relating to this part, of the oranges described in the application. Such application shall be supported by a list of growers, on N.O.A.C. Form No. 1–A, whose oranges the applicant controls for all purposes relating to the marketing order showing for each listed grower's oranges, the name and address of the grower and the location, acreage, tree count, year in which trees were planted for trees less than eight years in the ground, and estimated yield of each grove or portion thereof as may be designated by the committee.

• • • • • •

4. In § 907.110 *Equity of marketing opportunity* revise paragraphs (c), (d), (e) and subparagraph (2) of paragraph (f) to read as follows:

§ 907.110 Equity of marketing opportunity.

• • • • • •

(c) Following any or all marketing policy meetings for the districts, the committee may review and make equitable modifications, as it deems advisable in the equity factor and weekly shipping schedules.

(d) The committee shall develop a weekly shipment allocation schedule for each district commencing the week that regulation other than early maturity allotment is first recommended for the district and continuing through the remainder of the season. The quantities of oranges shown for each week shall be the cars appearing on the then effective shipping schedule for that week for the district, plus a proportionate amount of the quantities appearing on such weekly shipping schedule during weeks when no regulation or early maturity allotment was in effect for such district. Whenever two or more districts are shown on such weekly shipment allocation schedule, the committee shall combine into a weekly total the quantity of oranges shown thereon for each week and the weekly quantity for a district shall be converted into a percentage of the said weekly total. The percentage shall be known as the percentage allocation to such district.

(e) Insofar as practicable, the committee shall, pursuant to § 907.51(a), base its weekly recomendations for the

V41196 OCT 7 76 UMI

allocation of general maturity allotments and of freeze damage allotments among the prorate districts upon the percentage allocations for the districts provided for in § 907.110(d) of this subpart.

(f) * * *

* * * * *

(2) Adjust the weekly shipment allocation schedules for all districts by adding thereto the difference between the aggregate quantity of oranges listed on the weekly shipment allocation schedule of each district during all of the preceding weeks and the sum of the aggregate quantity of oranges fixed by the Secretary for handling under general maturity and freeze damage allotment.

* * * * *

5. Add the following sentence to the end of § 907.112.

§ 907.112 Assignment of allotment certificates.

* * * If the shipment contained oranges not packed in cartons or in bags, the handler shall file with the committee, no later than 10 days following the shipment, information satisfactory to the committee which substantiates, and which shows the derivation of the amount of equivalent cartons, by sizes, contained in the shipment and reported on the assignment of allotment certificate.

6. Revise paragraphs (a) and (c) of § 907.113 *Early maturity allotments* to read as follows:

§ 907.113 Early maturity allotments.

(a) *Applications to be filed.* On or before 12 o'clock noon of the day preceding the regular weekly meeting day of the committee, or at another time and day which may be prescribed by the committee whenever it determines that its meeting should be on a day other than the regular weekly meeting day or whenever a holiday precedes the meeting day, any handler controlling early maturity oranges who desires to receive allotment therefor for use during the following week must request such allotment from the committee by telephone or telegram, or by an application on N.O.A.C. Form No. 9 delivered to the committee at any of its designated offices. Telephone and telegram requests shall be confirmed either by (1) delivering to the committee not later than the meeting day a duly executed N.O.A.C. Form 9 or (2) by mailing to the committee such N.O.A.C. Form No. 9 postmarked not later than the meeting day. Requests for early maturity allotment, or for changes in requests previously made, shall not be considered by the committee if received subsequent to 12 o'clock noon of the day preceding the regular weekly meeting day of the committee, or if received subsequent to the time prescribed by the committee whenever the weekly meeting is held other than on the regular meeting day or is preceded by a holiday. Each application, and each confirmation, on N.O.A.C. Form No. 9 shall indicate the name and address of the applicant, the general location of early maturity oranges for which allotment is desired, the number of cartons of allotment desired, and such other pertinent information as the committee may from time to time request.

* * * * *

(c) Early maturity allotments shall be allocated to handlers on the basis of requests whenever the committee deems it advisable to grant the full amount of such requests. Whenever the committee deems it inadvisable to grant the full amount of early maturity allotments requested by all handlers, the requests of each handler shall be granted in the same proportion as the handler's tree crop is to the tree crop of all requesting handlers without regard to districts, but not in excess of the amount requested, and any allotment then remaining shall be granted in successive increments, as necessary, to handlers filing requests in the same proportion as aforesaid, but not in excess of the amount requested. District allotments shall be the sum of allotments allocated to handlers within each district as determined according to the foregoing procedure.

7. Revise paragraph (c) of § 907.117 *Freeze damage allotments* to read as follows:

§ 907.117 Freeze damage allotments.

* * * * *

(c) Any handler who desires to receive freeze damage allotment shall request such allotment in person, or by telephone, telegram, or by filing N.O.A.C. Form No. 35 on or before 12 o'clock noon of the day preceding the regular weekly meeting of the committee, or at another time and day which may be prescribed by the committee whenever it determines that its meeting should be on a day other than the regular weekly meeting day or whenever a holiday precedes the meeting day. Such request may be made at any of the offices of the committee. N.O.A.C. Form No. 35 shall contain (1) the name and address of the handler, (2) the week for which the application is made, (3) the amount of freeze damage allotment requested, and (4) the signature of the handler or authorized representative. All requests not made by a properly completed N.O.A.C. Form No. 35 shall be confirmed by delivery to the committee at any of the offices, not later than the meeting day, a properly completed N.O.A.C. Form No. 35 or by mailing a properly completed form to the committee not later than the meeting day.

* * * * * *

8. Revise § 907.130 *Exemptions under § 907.67* to read as follows:

§ 907.130 Exemptions under § 907.67.

The exemptions authorized by § 907.67 apply only to oranges handled by the initial handler direct for the purpose stated. Except as specifically provided in this subpart, any transaction wherein the oranges are handled by a third party, such party is not entitled to exemption thereunder.

9. Revise § 907.132 *Oranges for export to Mexico* to read as follows:

§ 907.132 Export of oranges.

(a) *Oranges exported.* Except for the handling of oranges to an exporter for export to Mexico as provided in this section, any person who packs oranges and forwards such oranges directly to the destination for export, and who shows proof of export by submitting to the committee a copy of a signed dock receipt, a signed car bill of lading or other documents acceptable to the committee covering the shipment of such oranges to export, no later than 48 hours following such shipment, shall be deemed to have exported such oranges within the meaning of § 907.67.

(b) *Handling oranges to an exporter for export to Mexico.* No person shall be eligible for an exemption under § 907.67 for handling oranges to an exporter for export to Mexico unless the exporter is approved as prescribed in paragraph (c) of this section.

(c) *Approved exporter to Mexico.* Any person who desires to become an approved exporter eligible to handle exempt oranges to Mexico shall submit to the committee an application on N.O.A.C. Form No. 36 which shall contain the following information: (1) The name and home address of the applicant; (2) the applicant's business address; (3) the applicant's permit, identification, or border crossing number; (4) the approximate quantity of oranges to be handled each week for export to Mexico; (5) a certification to the United States and to the Navel Orange Administrative Committee that the oranges obtained for export to Mexico will not be placed in the current of commerce in the Continental United States, Canada, or Alaska; and (6) an agreement that the applicant will deposit with the U.S. Customs Inspector at the Mexican border within 36 hours after handling oranges for export to Mexico by purchase or otherwise, a copy of N.O.A.C. Form No. 16, Certificate of Purchase of Oranges For Export to Mexico, or file such certificate with the committee as provided in paragraph (d) of this section; and based upon information provided in the application, the investigation thereof by the committee and its staff, and other available information, the committee shall approve or disapprove the application and notify the applicant accordingly. If the application is approved, the applicant's name shall be placed on the approved list of exporters to Mexico. Should the applicant at any time fail to abide by the terms of his agreement with the committee, his name shall be removed from the list of approved exporters to Mexico.

(d) *Mexican export certificate.* With respect to each export shipment of oranges to Mexico, the handler shall obtain from the purchaser at time of delivery of such oranges, a certification on N.O.A.C. Form No. 16 to the United States Department of Agriculture and the Navel Orange Administrative Committee that such oranges are to be exported to Mexico and will not re-enter the Continental United States or be re-

shipped to Canada or Alaska. Such certificate shall state the date of shipment, the quantity of oranges included in such shipment, the truck license number or other identification of the carrier of such oranges, the purchaser's permit, identification, or border crossing number, the name of the packinghouse from which the oranges were purchased, the destination of such oranges, and the signature and address of the purchaser. The certificate shall also be signed by the handler or his authorized representative and the original shall be forwarded by the handler to the committee at the close of each day's business. The duplicate and triplicate copy shall accompany such oranges, and within 36 hours of the time they were purchased, the purchaser shall deposit the duplicate copy with the U.S. Customs Inspector at the Mexican Border, or, in lieu thereof, shall mail the duplicate copy to the committee in an envelope mailed from Mexico.

10. Revise the title of and paragraphs (a) and (c) in § 907.133 *Minimum quantities and types of shipments* to read as follows:

§ 907.133 Other exemptions.

(a) Any producer whose principal occupation is not that of food distribution may apply to the committee on its N.O.A.C. Form No. 18 for an exemption to sell oranges produced by him direct to consumers without regard to volume or size regulation. Such application shall show: (1) The name and address of the producer; (2) the location of the producer's grove, the acreage in such grove, and the estimated production thereon; (3) the estimated quantity of oranges which producer desires to sell to consumers under the exemption; (4) the location at which producer will sell his oranges to consumers, and the name of the facility employed therein, if any; (5) the name of the person or persons who will sell the oranges, and, if the oranges are to be sold by a person other than the applicant, the nature of the selling agreement between such person and the applicant including information as to the extent to which applicant has control over the sale of the oranges; and (6) evidence that his principal occupation is not that of food distribution. The committee shall determine the extent to which the application should be granted on the basis of its evalution of the information provided therein, other available information, and its judgment as to the manner in which granting the application will effect the purposes of the marketing order. In making such determination, the committee shall consider: (i) The extent to which other handlers will be adversely affected in the marketing of their oranges in regular channels, if the exemption is granted; and (ii) the degree of risk that the oranges covered by the exemption will re-enter non-exempted channels of trade, if the exemption is granted. The producer shall be notified in writing of the action taken by the committee on his application. Upon approval of the application, the producer may sell oranges produced by him direct to a consumer without regard to the restrictions of volume or size prescribed pursuant to Order No. 907. This exemption shall not apply to sales of oranges made at a packinghouse.

* * * * *

(c) Any handler who desires to furnish, at his own expense, oranges for gifts, exhibits, or for experimental or research work by a university or other similar research institution, which does not involve the sale of such oranges in fresh fruit channels, may do so without regard to volume and size regulations then in effect. Any such oranges shall be reported to the committee on N.O.A.C. Form No. 4, Report of Weekly Orange Movement, and shall show the quantity of oranges furnished, and the name and address of the university or other research institution.

11. Add the following sentence to the end of § 907.141.

§ 907.141 Manifest reports.

* * * If the shipment was by rail and contained oranges not packed in cartons or in bags, the handler shall file with the committee, no later than 10 days following the shipment, information satisfactory to the committee which substantiates, and which shows the derivation of the amount of equivalent cartons, by sizes, contained in the shipment and reported on the manifest report.

Dated: October 4, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76-29441 Filed 10-6-76;8:45 am]

[7 CFR Part 981]

[Docket No. AO-214-A6]

ALMONDS GROWN IN CALIFORNIA

Hearing on Proposed Amendment of the Marketing Agreement, as Amended, and Order, as Amended

Notice is hereby given of a public hearing to be held October 13, 1976, in Room 3410, Federal Building—U.S. Court House, 650 Capitol Mall, Sacramento, California, beginning at 10:00 a.m. (local time) with respect to proposed amendment of the marketing agreement, as amended, and Order No. 981, as amended, regulating the handling of almonds grown in California.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendment, hereinafter set forth, and any appropriate modifications thereof, of the marketing agreement, as amended, and the order, as amended.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR Part 900.12(d)) with respect to the proposals.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY THE INEDIBLE CONTROL COMMITTEE OF THE ALMOND BOARD OF CALIFORNIA

PROPOSAL NO. 1

Revise § 981.42(a) to read as follows:

§ 981.42 Quality control.

(a) *Incoming.* Except as provided in this paragraph, each handler shall cause to be determined, through the inspection agency, and at handler expense, the percent of inedible kernels in each variety received by him, and shall report the determination to the Board. The quantity of inedible kernels in each variety in excess of two percent of the kernel weight received, shall constitute a weight obligation to be accumulated in the course of processing and shall be delivered to the Board, or Board accepted crushers, feed manufacturers, or feeders. The Board, with the approval of the Secretary, may change this percentage for any crop year, may authorize additional outlets, may exempt bleaching stock from inedible kernel determination or obligation and may establish rules and regulations necessary and incidental to the administration of this provision, including the method of determining inedible kernel content and satisfaction of the disposition obligation. The Board for good cause may waive portions of obligations for those handlers not generating inedible material from such source as blanching or manufacturing.

* * * * *

PROPOSAL 2

Further clarify rule making authority provided for in § 981.42(a).

Proposed by the Fruit and Vegetable Division, Agricultural Marketing Service.

PROPOSAL 3

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Sacramento Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, P.O. Box 255507, Sacramento, CA 95825, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on October 1, 1976.

IRVING W. THOMAS,
Acting Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 416]

[Regulations No. 16]

SUPPLEMENTAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Proposed Exclusions From Countable Income of State Payments Under Pub. L. 94–202

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553), that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security with approval of the Secretary of Health, Education, and Welfare. The proposed amendments to Subpart K, Income and Exclusions, which have been in process since February 1976 and do not have major program significance, concern the treatment as exclusions from countable income of certain State payments under sec. 9 of P.L. 94–202. Interested parties are given 45 days from the date of publication of this notice in which to submit any data, views or arguments to the Social Security Administration, Department of Health, Education, and Welfare.

Sec. 9 of Public Law 94–202 amends sec. 1612(b)(2) of the Social Security Act (42 U.S.C. 1382a(b)(2)) by providing an additional exclusion in determining countable income for individuals claiming benefits under the supplemental security income program. The amending legislation and the proposed regulations provide for the exclusion from income but not resources of monthly (or other periodic) payments received by any individual, under a program established prior to July 1, 1973, if such payments are made by the State and if eligibility of any individual for such payments is not based on need and is based solely on attainment of age 65 and duration of residence in such State and not on need. The regulations also provide that these payments will not be considered income for the purpose of deeming under §§ 416.1185 and 416.1190.

Currently, only the State of Alaska makes payments of this nature under a program established prior to July 1, 1973, which are commonly referred to as the Alaska Longevity Bonus Payments.

An exclusion from income and resources of the Alaska Longevity Bonus Payments under a three-year demonstration project was granted under the authority of sec. 1115(a) of the Social Security Act, effective January 1973, the first month of the bonus payment. On effectuation of the Supplemental Security Income program in January 1974, a new waiver of certain provisions under title XVI of the Social Security Act (and related regulations) became necessary. This was granted in May 1974 under the authority of sec. 11 of Public Law 93–233, and was given retroactive effect to January 1, 1974. As this waiver was terminable on December 31, 1975, it was renewed for a period of six months, expiring June 30, 1976, to provide time to capture data that had been lost on account of the delay in approving the renewal of the original waiver. The waiver provides for exclusion of income and resources (if payments are retained into a subsequent quarter) and remains in effect through June 30, 1976, unless terminated sooner.

The effective date for this proposed regulation is January 2, 1976, the effective date of section 9 of P.L. 94–202.

In keeping with the spirit and intent of the Secretary's regulation development policies announced on July 25, 1976, publication of this notice will provide ample and adequate notice to all interested individuals and organizations.

If there are any questions concerning these regulations, you may contact Henry D. Lerner, Legal Assistant, 6401 Security Boulevard, Baltimore, Maryland 21235, telephone—(301) 594–7336. Mr. Lerner will respond to questions but will not accept comments on these regulations.

Prior to final adoption of these proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203, on or before November 8, 1976.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue, SW., Washington, D.C. 20201.

(Secs. 1102, 1612, and 1631 of the Social Security Act, 49 Stat. 647, as amended, 86 Stat. 1468 and 1475; 42 U.S.C. 1302, 1382a and 1383; sec. 9 of P.L. 94–202, 89 stat. 1140)

(Catalog of Federal Domestic Assistance Program No. 13.807, Supplemental Security Income Program.)

It is hereby certified that these proposals have been screened pursuant to Executive Order No. 11821, and do not require an Inflation Impact Evaluation.

Dated: August 26, 1976.

THOMAS C. PARROTT,
Acting Commissioner of Social Security.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Part 416 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 416.1145 is amended by adding paragraph (b)(5–a) to read as follows:

§ 416.1145 Exclusions from income; order of application.

• • • • • •

(b) • • •

• • • • • •

(5–a) Periodic payments made by a State to any individual under a program where such payments are based solely on attainment of age 65 and duration of residence in such State and not on need (§ 416.1158).

• • • • • •

2. Section 416.1158 is added to read as follows:

§ 416.1158 State payments based on age and residence.

Monthly (or other periodic) payments received by any individual under a program established prior to July 1, 1973, shall not be considered in determining countable income under § 416.1115 or in determining income to be deemed under §§ 416.1185 and 416.1190 if: (a) Such payments are made by the State of which the individual receiving such payments is a resident, and (b) eligibility of any individual for such payments is not based on need and is based solely on attainment of age 65 and duration of residence in such State by such individual.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 76–CE–2–AD]

BEECH MODELS 99, 99A, A99A, B99, 100, A100 & 200 SERIES AIRPLANES

Proposed Airworthiness Directive; Withdrawal

A proposal to amend Part 39 of the Federal Aviation Regulations to include an Airworthiness Directive (AD) applicable to Beech Models 99, 99A, A99A, B99, 100, A100 and 200 series airplanes, was published in the FEDERAL REGISTER on January 27, 1976 (41 FR 3878). The proposed AD would have required initial and repetitive inspections of the landing gear motor controller on these aircraft.

Subsequent to the issuance of this proposal the FAA has been advised of endurance testing accomplished by the motor controller manufacturer which establishes that this part should operate satisfactorily on the affected airplanes. These testing results coupled with in-service performance records leads the FAA to conclude that the one failure which prompted the notice of proposed rulemaking was an isolated case. Accordingly, based on the foregoing the agency has determined that the proposed AD is not required at this time.

Withdrawal of this notice of proposed rulemaking constitutes only such action, and does not preclude the agency from taking future rule making action regarding this matter, or commit the agency to any future course of action.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 FR 13697), the proposed AD published in the FEDERAL REGISTER January 27, 1976 (41 FR 3878), is hereby withdrawn.

Issued in Kansas City, Mo., on September 24, 1976.

C. R. MELUGIN, Jr.,
Director, Central Region.

[Airspace Docket No. 76–EA–64]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Manahawkin, N.J., transition area.

A new VOR instrument approach procedure developed for Manahawkin Airport, Manahawkin, N.J., requires designation of a transition area to provide controlled airspace for IFR arrivals and departures at that airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before November 8, 1976, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures, Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Manahawkin, N.J., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Manahawkin, New Jersey Transition Area as follows:

MANAHAWKIN, N.J.

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the center, 39°42'00" N., 74°16'36" W. of Manahawkin Airport, Manahawkin, N.J.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on September 21, 1976.

L. J. CARDINALI,
Acting Director, Eastern Region.

[FR Doc.76–29139 Filed 10–6–76;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 76–WE–26]

TEMPORARY CONTROL ZONE

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a new temporary control zone at Anaheim, California.

To provide controlled airspace for the handling of large numbers of helicopters participating in a convention at Disneyland, a part-time temporary control zone is proposed for the Disneyland Heliport, Anaheim, California. The control zone would be effective during the time period of February 3 through 12, 1977. A temporary tower will be in operation during the convention and will be staffed during peak operational hours.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before November 8, 1976, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.171 (41 FR 355) the following temporary control zone is added:

ANAHEIM, CALIFORNIA (DISNEYLAND HELIPORT)

Within a 3-mile radius of Disneyland Heliport (latitude 33°48'40" North, longitude 117°55'30" West), excluding that airspace within the Fullerton and Long Beach, California airport control zones. This control zone is effective during the time period of February 3, 1977 through February 12, 1977.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on September 24, 1976.

LYNN L. HINK,
Acting Director, Western Region.

[FR Doc.76–29140 Filed 10–6–76;8:45 am]

[14 CFR Parts 71, 73]

[Airspace Docket No. 76–WA–13]

RESTRICTED AREA AND FEDERAL AIRWAYS

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would reduce the airway width and realign a portion of V–2 Hawaii and V–21 Hawaii and reduce Restricted Area R–3104 A/B/C, Island of Kahoolawe, Hawaii.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Pacific Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 4009, Honolulu, Hawaii 96813. All communications received on or before November 22, 1976, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Request for copies of this Notice of Proposed Rule Making should be addressed to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–320, 800 Independence Avenue, S.W., Washington, D.C. 20591.

The proposed amendments would: (1) Align V–2 Hawaii and V–21 Hawaii via the Lanai, Hawaii, 095° M (106° T) radial in lieu of the Lanai, Hawaii, 096° M (107° T) radial. This proposed action would increase the minimum enroute altitude from 10,000 feet MSL to 12,000 feet MSL; (2) Reduce the segment of V–2 Hawaii and V–21 Hawaii between the 22 NM fix on the south side of the Lanai, Hawaii, 095° M (106° T) radial and the 28NM fix from a standard width of 4 nautical miles to an authorized nonstandard width of 3 nautical miles; (3) Redefine the northern boundary of Restricted Area R–3104 A/B/C via the Kahoolawe shore line. This proposed action

V 41 196 OCT 7 76 UMI

would allow simultaneous use of both areas by providing sufficient distance between V–2/21 Hawaii and Restricted Area R–3104 A/B/C.

The proximity of the two areas is cited in a petition for rule making filed by Mayor Elmer F. Carvalho, for revocation of Restricted Area R–3104, Kahoolawe, Hawaii, as one of the reasons for his petition. That petition is still under review. The actions proposed herein will not prejudice, or in any way affect the FAA's review of, or response to, that petition.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on September 29, 1976.

WILLIAM E. BROADWATER,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.76–29141 Filed 10–6–76;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 83]

[Docket No. 20936; FCC 76–899]

SSB EQUIPPED VESSELS OPERATING SOLELY IN ALASKA WATERS

Proposed Exemption From Mandatory VHF Capabilities

Adopted: September 28, 1976.

Released: October 6, 1976.

1. Notice of Proposed Rule Making in the above-entitled matter is hereby given.

2. It has been brought to the attention of the Commission that the VHF coverage by public coast and U.S. Coast Guard stations along the more than 33,000 miles of Alaska coastline is extremely sparse. A study by the Commission's staff of the Alaska VHF coverage verifies this information and indicates that only a small per cent of the Alaska coastline is adequately covered by these classes of stations.

3. In its Report and Order in Docket 18307, the Commission required that all single sideband (SSB) equipped vessels have the capability to operate on the VHF frequencies by January 1, 1977. It was anticipated that by this time, there would practically be total coverage on all U.S. waterways and coastlines, and that mandatory VHF capability would greatly enhance marine communications and safety. While this type of VHF coverage has in fact occurred in the contiguous 48 states, the installation of VHF land stations in Alaska has been slow in developing and as a result such coverage is sparse at best. The terrain in Alaska makes the installation of complete VHF coverage very difficult.

4. Since Alaska boat users are faced with a January 1, 1977, date for VHF, and the benefits to be derived are extremely limited due to the sparse VHF land station coverage, it is proposed to extend the mandatory VHF capability date to January 1, 1982, for all Alaska registered vessels which operate solely in Alaska waters. It is anticipated that this five year period will see the establishment of additional public coast and U.S. Coast Guard stations.

5. The proposed amendment, as set forth below is issued pursuant to the authority contained in Sections 4(i) and 303 (b), (e), (f), and (r) of the Communications Act of 1934, as amended.

6. Pursuant to the applicable procedures set forth in Section 1.415 of the rules, interested persons may file comments on or before October 15, 1976, and reply comments on or before October 26, 1976. Section 1.419 of the rules requires the original and 11 copies of comments or reply comments to be filed. Comments and reply comments received in response to this Notice of Proposed Rule Making will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Part 83 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 83.351(c)(3)(i) is amended to read as follows and the note deleted.

§ 83.351 Frequencies available.

* * * * * * *

(c) * * *

(3) * * *

(i) The ship station is equipped for use of F3 emissions on frequencies in the band 156–162 MHz, except for vessels bearing Alaska registration or documented vessels with a home port in Alaska and operating solely in waters off Alaska until January 1, 1982.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 626–7]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Alabama: Emergency Level, Photochemical Oxidants

On May 31, 1972 (37 FR 10842), the Administrator approved the Alabama plan to attain and maintain the national ambient air quality standards in that State. The original Alabama implementation plan provided for the prevention of air pollution emergency episodes in accordance with the provisions of Appendix L of 40 CFR Part 51. On August 20, 1975 (40 FR 36330), the Administrator revised 40 CFR Part 51 by changing the emergency level for photochemical oxidants from 1200 micrograms/m³ to 1000 micrograms/m³, one-hour average.

The Alabama Air Pollution Control Commission on March 30, 1976, amended its regulation to reflect this change, and the amendment was submitted to EPA on April 23, 1976. Copies of the information submitted by the State are available for public inspection during normal business hours at the following locations:

Air Programs Branch, Air & Hazardous Materials Division, Environmental Protection Agency, Region IV, 1421 Peachtree Street, Atlanta, Georgia 30309.

Alabama Air Pollution Control Commission, 645 South McDonough Street, Montgomery, Alabama 36104.

Public Information Reference Unit, Library Systems Branch, PM 213, Environmental Protection Agency, 401 M Street SW., Washington, DC 20460.

Interested persons are encouraged to participate in this rulemaking by submitting written comments on the proposed Alabama plan revision on or before November 8, 1976. After relevant comments have been weighed, along with other available information, the Administrator will act on the proposal.

Dated: September 29, 1976.

JOHN A. LITTLE,
Deputy Regional Administrator.

[FR Doc.76–29387 Filed 10–6–76;8:45 am]

[40 CFR Part 408]

[FRL 626–6]

CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY

Steamed and Canned Oyster Processing

Notice is hereby given that the Environmental Protection Agency (EPA) is proposing to amend 40 CFR Part 408, Canned and Preserved Seafood Processing Point Source Category; Subpart AA—Steamed and Canned Oyster Processing Subcategory, § 408.273 as set forth below.

40 CFR Part 408 was promulgated on December 1, 1975, (40 FR 55770) pursuant to sections 301, 304(b) and (c), 306(b) and (c) and 307(b) and (c) of the Federal Water Pollution Control Act as amended, 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317(c); 86 Stat. 816 et. seq.; Pub. L. 92–500.

The American Shrimp Canners Association and the National Canners Association contend that the Agency did not fully evaluate the effect of the 1983 regulations for the steamed and canned (mechanically shucked) oyster processing subcategory (Subpart AA) on those multiproduct shrimp canning processing facilities which also mechanically shuck oysters. The 1983 effluent limitations are based on dissolved air flotation treatment systems for shrimp processing effluents and aerated lagoons for mechanized oyster shucking effluents. The industry maintains that the facilities which install air flotation systems to meet the 1983 shrimp processing effluent limitations will suffer an undue economic burden if aerated lagoons also must be installed to meet the 1983 effluent limitations for steamed and canned oyster processing.

The Agency assessed the economic impact of the 1983 regulations for the steamed and canned oyster processing subcategory for those plants which are primarily engaged in oyster processing. The analysis did not specifically evaluate the effects of the regulation for mechanized oyster processing on those shrimp processing facilities which also process oysters as a secondary product during the off season for shrimp.

In order to mitigate the potential adverse economic impact, the proposed amendment modifies the applicability of the 1983 steamed and canned oyster processing limitations so that any shrimp processing facility which utilizes an air flotation treatment system to meet the 1983 shrimp processing effluent limitations shall be exempt from the 1983 steamed and canned oyster processing limitations. Effluent limitations for such facilites are to be determined on a case-by-case basis.

The economic impact for the steamed and canned oyster processing subcategory was presented with the promulgation of the regulations on December 1, 1975. The "Economic Analysis of Effluent Guidelines—Seafood Processing Industry: Fish Meal, Salmon, Bottom Fish, Clam, Oyster, Sardine, Scallop, Herring, and Abalone" (October, 1975; NTIS PB# 247–307/AS), contains the complete results of the study and is available at a cost of $7.50 from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161. However, the multiproduct shrimp and oyster processing plants were not included in the Economic Impact Analysis for the promulgated regulations. Therefore, the proposed exemption does not affect the previously estimated cost of achieving the effluent limitations. Consequently, the economic impact is the same as previously estimated.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, Attention: Distribution Officer, WH–552.

Comments on all aspects of the proposed amendment are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation.

A copy of all public comments will be available for inspection and copying at the EPA Public Information Reference Unit, Room 2922 (EPA Library), Waterside Mall, 401 M Street, SW., Washington, D.C. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying. All comments received on or before November 8, 1976, will be considered.

RUSSELL E. TRAIN,
Administrator.

Dated: September 30, 1976.

Subpart AA—Steamed and Canned Oyster Processing Subcategory

Subpart AA is proposed to be amended by adding an additional phrase to the first sentence of § 408.273, as follows: * * * Except for those steamed and canned oyster processing facilities which utilize air flotation treatment systems to meet the shrimp processing effluent limitations guidelines under §§ 408.113, 408.123, or § 408.133 and for which effluent limitations should be derived on a case-by-case basis, the following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Customs Service

CERTAIN FISH FROM CANADA

Prelimiary Countervailing Duty Determination

On July 27, 1976, a "Notice of Receipt of Countervailing Duty Petition and Initiation of Investigation" was published in the FEDERAL REGISTER (41 FR 31240). The notice indicated that a petition had been received alleging that payments, bestowals, rebates or refunds, granted by the Government of Canada upon the manufacture, production, or exportation of certain fish from Canada constitute the payment or bestowal of a bounty or grant, directly or indirectly, within the meaning of section 303 of the Tariff Act of 1930, as amended (19 U.S.C. 1303) (referred to in this notice as "the Act").

Fish imports covered by this investigation are classifiable under items 110.3560, 110.3565, and 110.5545, Tariff Schedules of the United States (TSUS).

On the basis of an investigation conducted pursuant to § 159.47(c), Customs Regulations (19 CFR 159.47(c)), it tentatively has been determined that benefits have been received by Canadian exporters of certain fish which may constitute bounties or grants within the meaning of the Act. These benefits include payments to fishermen and processors for catches and production of first quality fish and fish products under the Groundfish Temporary Assistance Program. A program for financial assistance toward the construction of certain fishing vessels built and registered in Canada has been preliminary determined not to constitute a bounty or grant within the meaning of § 303 based on the information presently available. It is noted that payments to fishermen and processors are not made on unprocessed fish which are exported and on fresh fillets which are exported. A final decision in this case is required on or before April 1, 1977.

Before a final determination is made, consideration will be given to any relevant data, views or arguments, submitted in writing with respect to the preliminary determination. Submissions should be addressed to the Commissioner of Customs, 1301 Constitution Avenue, NW, Washington, DC 20229, in time to be received by his office not later than November 8, 1976.

This preliminary determination is published pursuant to § 303(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1303 (a)).

OCTOBER 1, 1976.

LEONARD LEHMAN,
Acting Commissioner of Customs.

[Dept. Circ. 570, 1976 Rev., Supp. No. 4]

DRAKE INSURANCE CO. OF NEW YORK

Surety Companies Acceptable on Federal Bonds

A Certificate of Authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $461,000 has been established for the company.

NAME OF COMPANY, LOCATION OF PRINCIPAL EXECUTIVE OFFICE, AND STATE IN WHICH INCORPORATED

DRAKE INSURANCE COMPANY OF NEW YORK
NEW YORK, NEW YORK
NEW YORK

Certificates of Authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remains qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact surety business and other information. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: September 28, 1976.

DAVID MOSSO,
Fiscal Assistant Secretary.

PRIVACY ACT OF 1974

Proposed Establishment of a New System of Records

Correction

In FR Doc. 76-27992 appearing at page 42680 in the FEDERAL REGISTER of Tuesday, September 28, 1976 the following correction should be made:

On page 42680, in the middle column, fourth paragraph, the eighth and ninth lines should read "ington, D.C. on or before October 28, 1976. All written comments".

Office of the Secretary

METAL-WALLED ABOVE-GROUND SWIMMING POOLS FROM JAPAN

Antidumping; Extension of Investigatory Period

On March 16, 1976, information was received in proper form that metal-walled above-ground swimming pools from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 *et seq.*) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of April 21, 1976 (41 FR 16667).

The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to, or the likelihood of injury to, or prevention of establishment of an industry in the United States.

Notice is hereby given that the Secretary concludes that the determination provided for in section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)) cannot reasonably be made within 6 months. The determination under section 201(b)(1) of the Act (19 U.S.C. 160(b)(1)), will, therefore be made within no more than 8 months.

The reasons and basis for the above conclusion are as follows:

The need for the collection of additional data and the verification of supplemental submissions, along with the need for analysis of all submissions and the need for resolution of technical issues that have arisen in connection therewith, makes it inadvisable to take tentative action at this time.

This notice is published pursuant to section 201(b)(2) of the Act (19 U.S.C. 160(b)(2)).

JERRY THOMAS,
Under Secretary of the Treasury.

OCTOBER 1, 1976.

PARTS FOR SELF-PROPELLED BITUMINOUS PAVING EQUIPMENT FROM CANADA

Antidumping Proceeding Notice

On September 3, 1976, information was received in acceptable form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), from counsel for Blaw-Knox Construction Equipment, Inc., Mattoon, Ill., a domestic manufacturer of construction equipment, and the Colwell Equipment Co., Inc., Canton, Mich., a distributor of Blaw-Knox' products, indicating that parts for self-propelled bituminous paving equipment from Canada are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States. This evidence indicates substantial margins of underselling by the subject imports from Canada, the extent of which underselling is made possible by the alleged sales at less than fair value. That underselling has apparently contributed to declining sales and market share which the petitioners have suffered in recent years. In addition, by reason of the alleged less than fair value sales, Blaw-Knox may have experienced a declining return on investment, increased excess plant capacity and increased unemployment.

Having conducted a preliminary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29), and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows:

The information received tends to indicate that the prices of the merchandise sold or offered for sale, for exportation to the United States are, or are likely to be, less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

PETER O. SUCHMAN,
Acting Assistant Secretary of the Treasury.

The pipeline will convey natural gas from a point near the town of Rio Blanco, Colorado to a point near Fraser, Colorado. Its purpose is in meeting present and future needs of current users.

Public meetings regarding this proposed line will be held at times and locations to be anounced in the near future.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of an Environmental Analysis Report (EAR) pursuant to the National Environmental Policy Act of 1969 for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right-of-way to file their objections in this office. Any person asserting a claim to the lands or filing an objection must include evidence that a copy thereof has been served on the applicant. Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, on or before November 8, 1976.

MERRILL G. ANDERSON,
Acting Chief, Branch of Land Operations.

Notice of Application

SEPTEMBER 28, 1976.

Notice is hereby given that pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Phillips Petroleum Co. of Denver Colorado filed an application for a right-of-way to construct a 6 inch pipeline for the purpose of transporting natural gas across the following described National Resource Lands:

SIXTH PRINCIPLE MERIDIAN, WYOMING

T. 49 N., R. 76 W.,
Sec. 8, N½SW¼;
Sec. 9, NE¼NE¼ and SW¼NW¼;
Sec. 10, NW¼NE¼ and N½NW¼.

The pipeline will transport natural gas from a point in the N½S½ of section 36, T. 46 N., R. 77 W., Johnson County, Wyoming to a point in the NE¼SE¼ of section 5, T. 44 N., R. 73 W., Campbell County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their views should do so promptly. Pre- to the District Manager, Bureau of Land Management, 100 East "B" Street, PO Box 2834, Casper, Wyoming 82601.

HAROLD G. STINCHCOMB,
Chief, Branch of Lands and Minerals Operations.

[N-13238]

SANDY VALLEY LAND CO.

Nevada

Airport Lease Application

SEPTEMBER 29, 1976.

1. Notice is hereby given that pursuant to the Act of May 24, 1928 (49 U.S.C. 211-214), Sandy Valley Land Co. has applied for an airport lease for the following lands:

MOUNT DIABLO MERIDIAN, NEVADA

A strip of land lying within:
T. 25 S., R. 56 E.,
Sec. 1, lot 5;
T. 25 S., R. 57 E.,
Sec. 6, lots 5, 6, 7, 8 and 9;
Sec. 7, lots 1, 2 and 3;
Sec. 8, lot 1.

2. The purpose of this notice is to inform the public that the filing of this application segregates the described lands from all other forms of appropriation under the public land laws.

3. Interested persons desiring to express their views should promptly send their names and addresses to the District Manager, Bureau of Land Management, 4765 Vegas Drive, Las Vegas, Nevada 89108.

CHARLES E. HANCOCK,
Acting Chief, Division of Technical Services.

[Docket No. M 76-318]

ARKANSAS ENTERPRISES

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Arkansas Enterprises has filed a petition to modify the application of 30 CFR 75.1710 to its No. 1 Mine, located in Floyd County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710-1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. The coal seam is 36 to 48 inches in height.

2. The seam has a rolling bottom and uses half headers and roof bolts to support the roof.

3. The equipment operator is in a cramped position if canopies are installed.

4. Installation of canopies creates a hazard and is unsafe.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 8, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

[Docket No. M 76-284]

FRED BANKS COAL CO., INC.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Fred Banks Coal Company, Inc., has filed a petition to modify the application of 30 CFR 75.1710 to its No. 1 Mine located in Letcher County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710-1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner feels that installing canopies on the haulage equipment in this mine would create a hazard to the equipment operators.

2. Petitioner's haulage equipment consists of one Paul's roof bolting machine which is 26 inches in height and one Elkhorn scoop which is 28 inches in height.

3. The No. 1 Mine is in the No. 7 seam which ranges from 34 to 47 inches in height. Petitioner is constantly running into ascending and descending grades in this seam, resulting in dips in the coalbed. Installation of canopies on the equipment limits the vision of the operators of the equipment, creating a hazard to them as well as to the other employees in the mine.

4. Petitioner feels that since the equipment operators' vision is limited and since their position in the decks is cramped with the canopies installed, that canopy installation could be a contributing factor in any accidents that may arise.

5. The Kentucky Department of Mines and Minerals has advised Petitioner not to use canopies.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 8, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

HELLIER FUEL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Hellier Fuel Company has filed a petition to modify the application of 30 CFR 75.1710 to its No. 2 Mine, located in Pike County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710-1 which in pertinent part provides:

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner feels that installing canopies on the haulage equipment in this mine would create a hazard to the equipment operators.

2. Petitioner's haulage equipment consists of one Paul's roof bolting machine which is 26 inches in height and one Elkhorn scoop which is 28 inches in height.

3. The No. 1 Mine is in the No. 7 seam which ranges from 34 to 47 inches in height. Petitioner is constantly running into ascending and descending grades in this seam, resulting in dips in the coalbed. Installation of canopies on the equipment limits the vision of the operators of the equipment, creating a hazard to them as well as to the other employees in the mine.

4. Petitioner feels that since the equipment operators' vision is limited and since their position in the decks is cramped with the canopies installed, that canopy installation could be a contributing factor in any accidents that may arise.

5. The Kentucky Department of Mines and Minerals has advised Petitioner not to use canopies.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 8, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

[Docket No. M 76-252]

LOGAN LUCAS COAL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Logan Lucas Coal Corp., has filed a petition to modify the application of 30 CFR 75.1710 to its No. 5 Mine located in Pike County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.1710 is 30 CFR 75.1710-1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner feels that installing canopies on the haulage equipment in this mine would create a hazard to the equipment operators.

2. Petitioner's haulage equipment consists of two Mescher tractors, one Kersey tractor, two Acme roof bolting machines, and Long-Airdox loading machine, and one 12 BU Joy loading machine.

3. The No. 5 Mine is in the No. 3 Elkhorn seam which ranges from 34 to 72 inches in height. Petitioner is constantly running into ascending and descending grades in this seam, resulting in dips in the coalbed. As a result of these dips, the canopies have to be installed in such a manner as to prevent the canopies from striking the roof and possibly destroying roof support. Installation of canopies on the equipment allows only a 23-inch ver-

V41196 OCT 76 UMI

tical operating compartment which limits the vision of the operators of the equipment, creating a hazard to them as well as to the other employees in the mine.

4. Petitioner feels that since the equipment operators' vision is limited and since their position in the decks is cramped with the canopies installed, that canopy installation could be a contributing factor in any accidents that may arise.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 8, 1976. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

SEPTEMBER 29, 1976.

[FR Doc.76-29409 Filed 10-6-76;8:45 am]

[Docket No. M 76-324]

WRIGHT COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Wright Coal Co. has filed a petition to modify the application of 30 CFR 75.1710 to its Nos. 1 and 2 Mines, both located in Pike County, Kentucky.

30 CFR 75.1710 provides:

An authorized representative of the Secretary may require in any coal mine where the height of the coalbed permits that electric face equipment, including shuttle cars, be provided with substantially constructed canopies, or cabs, to protect the miners operating such equipment from roof falls and from rib and face rolls.

To be read in conjunction with § 75.-1710 is 30 CFR 75.1710–1 which in pertinent part provides:

• • • Except as provided in paragraph (f) of this section, all self-propelled electric face equipment, including shuttle cars, which is employed in the active workings of each underground coal mine on and after January 1, 1973, shall, in accordance with the schedule of time specified in subparagraphs (1), (2), (3), (4), (5), and (6) of this paragraph (a), be equipped with substantially constructed canopies or cabs, located and installed in such a manner that when the operator is at the operating controls of such equipment he shall be protected from falls of roof, face, or rib, or from rib and face rolls. The requirements of this paragraph (a) shall be met as follows:

(1) On and after January 1, 1974, in coal mines having mining heights of 72 inches or more;

(2) On and after July 1, 1974, in coal mines having mining heights of 60 inches or more, but less than 72 inches;

(3) On and after January 1, 1975, in coal mines having mining heights of 48 inches or more, but less than 60 inches;

(4) On and after July 1, 1975, in coal mines having mining heights of 36 inches or more, but less than 48 inches;

(5) On and after January 1, 1976, in coal mines having mining heights of 24 inches or more, but less than 36 inches; and

(6) On and after July 1, 1976, in coal mines having mining heights of less than 24 inches. • • •

The substance of Petitioner's statement is as follows:

1. Petitioner feels that installing canopies on the equipment in its mines would create a hazard to the equipment operators.

2. This petition is in reference to canopies on haulage equipment, a mining machine, and a roof bolting machine at the No. 1 Mine and to identical equipment at the No. 2 Mine.

3. The No. 1 Mine is in the Lower Elkhorn seam which ranges from 37 to 44 inches in height. The No. 2 Mine is also in the Lower Elkhorn seam and ranges from 37 to 45 inches in height. Petitioner is constantly running into ascending and descending grades in this seam, resulting in dips in the coalbed. As a result of these dips, the canopies have to be installed in such a manner as to prevent the canopies from striking the roof and possibly destroying roof support. Installation of canopies on the equipment allows only a 23-inch vertical operating compartment which limits the vision of the operators of the equipment, creating a hazard to them as well as to the other employees in the mines.

4. Petitioner feels that since the equipment operators' vision is limited and since their position in the decks is cramped with the canopies installed, that canopy installation could be a contributing factor in any accidents that may arise.

REQUEST FOR HEARING OR COMMENTS

Persons interested in this petition may request a hearing on the petition or furnish comments on or before November 8, 1976. Such request or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director, Office of Hearings and Appeals.

COMMITTEE ON FUTURE ENERGY PROSPECTS NATIONAL PETROLEUM COUNCIL

Meeting

Notice is hereby given for the following meeting:

The National Petroleum Council's Committee on Future Energy Prospects will meet on October 26, 1976, at 10:00 a.m., in the Arlington Room of the Madison Hotel, 15th and M Streets, N.W., Washington, D.C.

The agenda includes the following items for review and discussion:

1. Progress of development of assigned analytical papers.

2. Timetable for completion of assigned analytical papers.

3. Any other matters pertinent to the overall assignment of the Committee on Future Energy Prospects.

The purpose of the National Petroleum Council is to provide to the Secretary of the Interior, upon request, advice, information, and recommendations upon any matter relating to petroleum or the petroleum industry.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

Further information about the meeting may be obtained from Ben Tafoya, Office of the Assistant Secretary-Energy and Minerals, Department of the Interior, Washington, D.C. (telephone: 343-6226).

Dated: October 1, 1976.

ROBERT L. PRESLEY,
Staff Assistant-Emergency Preparedness Office of the Assistant Secretary-Energy and Minerals.

INDUSTRY ADVISORY COMMITTEE TO THE DEFENSE ELECTRIC POWER ADMINISTRATION

Meeting

Notice is hereby given in accordance with Pub. L. 92–463 that a meeting of the Industry Advisory Committee to the Defense Electric Power Administration will be held between 8:30 am and 12 noon, on Wednesday, November 10, 1976, in Room 5160, U.S. Department of the Interior, 18th & C Streets, NW., Washington, D.C.

The Committee was established by the Secretary of the Interior to advise and assist the Secretary and the Administrator of the Defense Electric Power Administration in planning for continuing supplies of power during attack emergencies as well as major natural disasters and other peacetime catastrophies.

Frank H. King (Chairman), Holyoke, Massachusetts
W. Reid Thompson (Vice-Chairman), Washington, D.C.
T. Louis Austin, Jr., Dallas, Texas
John F. Bonner, San Francisco, California
Albert Carlsen, Boise, Idaho
David M. Heskett, Bismarck, North Dakota
Donald P. Hodel, Portland, Oregon
E. Allan Hunter, Salt Lake City, Utah
Donald C. Lutken, Jackson, Mississippi
John P. Madgett, LaCrosse, Wisconsin
Marshall McDonald, Miami, Florida
Charles S. McNeer, Milwaukee, Wisconsin
William G. Meese, Detroit, Michigan
Richard O. Newman, Tulsa, Oklahoma
Robert T. Person, Denver, Colorado
James D. Phillips, Colorado Springs, Colorado
Lelan F. Sillin, Jr., West Springfield, Massachusetts
T. Graham Wells, Jr., Chattanooga, Tennessee
G. W. Penebaker (Co-Chairman), Washington, D.C.

The purpose of the meeting is to discuss the following items:

(1) FBI report on assistance to power companies in terrorist attacks; (2) proposed deletion of the electric power facilities from the Key Facilities List; (3) powerplant productivity and national energy policy as viewed by FEA; (4) progress of research and development affecting the electric power industry.

The meeting will be open to the public, commencing at 8:30 a.m. through 12 noon. Facilities and space are limited to accommodate 30 people at the meeting.

Further information concerning this meeting may be obtained from G. W. Penebaker, Administrator of the Defense Electric Power Administration, at AC 202–343–7521. Minutes of the meeting will be available for public inspection two weeks after the meeting at the office of the Defense Electric Power Administration, U.S. Department of the Interior, Room 3620, 18th & C Streets, NW., Washington, D.C.

Dated: September 29, 1976.

RAYMOND A. PECK, Jr.,
Deputy Assistant Secretary of the Interior.

Office of the Secretary

INTERIOR COAL ADVISORY COMMITTEE

Notice of Establishment

This notice is published in accordance with the provisions of 5 U.S.C. 552(a)(1), and section 9(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C. App. 1). Following consultation with the Office of Management and Budget Secretariat, notice is hereby given that the Secretary of the Interior is establishing an Interior Coal Advisory Committee. The committee's objective is to render advice and recommend positions for policy formulation and implementation leading to increase the domestic production and use of coal, consistent with national energy, economic and environmental goals. The committee will advise the Secretary and make recommendations to him concerning appropriate means whereby domestic coal production and use can be increased efficiently, safely, and without undue environmental harm in order to help the Nation achieve energy self-sufficiency. Major areas of concern are public lands, coal extraction research and development, and health and safety research. Such advice is consistent with enhancing the missions of the Department of the Interior. The certification of establishment is published below.

CERTIFICATION

I hereby certify that the Interior Coal Advisory Committee is in the public interest in connection with the performance of duties imposed on the Department of the Interior in the conservation and development of the Nation's natural resources by the Mining and Minerals Policy Act of 1970 (30 U.S.C. 21a); the Organic Act of May 16, 1910 (30 U.S.C. 1, 3, 5–7), as amended, which established the Bureau of Mines; the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742; 30 U.S.C. 801); the Mineral Leasing Act of 1920 (41 Stat. 438; 30 U.S.C. 201–209), as amended; and the Acquired Land Act (61 Stat. 913; 30 U.S.C. 351–359)

THOMAS S. KLEPPE,
Secretary of the Interior.

August 23, 1976.

DEPARTMENT OF STATE

[CM–6/109]

ADVISORY COMMITTEE ON TRANSNATIONAL ENTERPRISES

Meeting

The Department of State Advisory Committee on Transnational Enterprises will hold its sixth meeting on Thursday, October 28 at 9:30 a.m. in Room 7516 of the Deparment of State, 2201 C Street, N.W., Washington, D.C. The meeting will be open to the public.

The purpose of the meeting will be to discuss the ongoing work in international fora in regard to questionable payments, and codes of conduct relating to transfer of technology and transnational enterprises.

Requests for further information on the meeting should be directed to Stephen Bond, Department of State, 2201 C Street, N.W., Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632–0349.

Members of the public wishing to attend the meeting must contact Mr. Bond's office in order to arrange entrance to the State Department building.

The Chairman will, as time permits, entertain oral comments from members of the public attending the meeting.

Dated: October 1, 1976.

STEPHEN R. BOND,
Executive Secretary.

DEPARTMENT OF AGRICULTURE

Forest Service

BLACKTAIL PLANNING UNIT LAND USE PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Blacktail Planning Unit, Forest Service Report Number USDA–FS–R1(04)–FES–Adm–76–13.

The environmental statement concerns a proposed land use plan for Blacktail Planning Unit, Bonner County, Idaho. Approximately 88,010 acres are included in the planning unit of which 21,890 acres are National Forest land. This plan allocates resources and specifies land use prescriptions for National Forest land only. Resource information for lands in other ownership is also included for owners/managers to use as they wish.

Consisting of higher elevations and more inaccessible areas, much of the National Forest ownership is broken and scattered with one major exception: a continuous portion of the rugged west shore line of Lake Pend Oreille. The proposed plan emphasizes recreation, wildlife habitat, and high scenic quality on key areas. Timber, forage, and water uses would also be provided to the extent possible without deterioration of the emphasized values. Fisheries habitat and most wildlife habitat would be maintained or (in some cases) improved. There would be a decrease in the small amount of lands that could be managed for primitive or back country recreation. No lands in the Blacktail Planning Unit meet the Region One (U.S. Forest Service) criteria for roadless and undeveloped areas.

This final environmental statement was filed with CEQ on September 27, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW, Washington, DC 20250.
USDA, Forest Service, Northern Region, Federal Building, Missoula, MT 59801.
USDA, Forest Service, Idaho National Forest, 218 North 23rd Street, Coeur d'Alene, ID 83814.
USDA, Forest Service, Sandpoint Ranger District, Federal Building, Sandpoint, ID 83864.

A limited number of single copies are available upon request to:

USDA, Forest Service, Sandpoint Zone Planning, P.O. Box 490, Sandpoint, ID 83864.

Copies of this final environmental impact statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

RALPH W. KIZER,
Forest Supervisor Idaho Panhandle National Forests Northern Region, Forest Service.

Pursuant to section 102(2)(c) of the National Environmental Policy Act of

V41196 OCT 7 76 UMI

1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the East Deer Creek Planning Unit Land Use Plan, USDA–FS–R–6–FES(Adm.)75–20.

The environmental statement concerns a proposed land use plan for the East Deer Creek Watershed which provides municipal water for the unincorporated town of Orient, Ferry County, Washington. The land use plan identifies eight management areas and outlines broad management guidelines for each area. General policies and guidelines for water quality protection are proposed that permit limited development and logging within the unit.

This final environmental statement was transmitted to CEQ on September 29, 1976.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th & Independence Ave., SW., Washington, DC 20250.
USDA, Forest Service, Pacific Northwest Region, 319 S.W. Pine Street, Portland, Oregon 97204.
Colville National Forest, 695 S. Main, Colville, Washington 99114.

A limited number of single copies are available upon request to: Robert B. Terrill, Forest Supervisor, Colville National Forest, Federal Building, Colville, Washington 99114.

Copies of the environmental statement have been sent to various Federal, State and local agencies as outlined in the CEQ guidelines.

ROBERT B. TERRILL,
Forest Supervisor.

SEPTEMBER 29, 1976.

OCHOCO NATIONAL FOREST GRAZING ADVISORY BOARD

Meeting

The Ochoco National Forest Grazing Advisory Board will meet at 10:00 a.m., November 4, 1976 in the Forest Supervisor's Office, Federal Building, Prineville, Oregon.

The purpose of this meeting is to select officers, discuss bylaws, rules for public participation, and subjects concerning management and administration presented by board members, permittees, and the general public.

The meeting will be open to the public. Persons who wish to attend should notify Jack Royle, P.O. Box 490, Prineville, Oregon 97754; phone 447–6247. Written statements may be filed with the committee before or after the meeting.

JACK H. ROYLE,
Acting Forest Supervisor.

OCTOBER 1, 1976.

TWISP-WINTHROP-CONCONULLY PLANNING UNIT

Land Use Plan

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Twisp-Winthrop-Conconully Planning Unit Land Use Plan, USDA–FS–R6–FES(Adm.)–76–5.

The environmental statement concerns a proposed land use plan for the National Forest lands administered by the Twisp, Winthrop and Conconully Districts of the Okanogan National Forest.

This Final environmental statement was transmitted to CEQ on October 1, 1976.

Copies are available for inspection during regular work hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3210, 12th St. & Independence Ave., SW., Washington, DC 20250.
U.S. Forest Service, Multnomah Bldg., 319 S.W. Pine St., Portland, Oregon 97204.
Okanogan National Forest Supervisor's Office, 219 Second Avenue South, Okanogan, Washington 98840.
Ranger District Offices in: Okanogan, Washington 98840; Tonasket, Washington 98855; Twisp, Washington 98856; Winthrop, Washington 98862.
Mt. Baker-Snoqualmie National Forest Supervisor's Office, 1601 Second Avenue Building, Seattle, Washington 98101.

A limited number of single copies are available upon request to:

Forest Supervisor, Okanogan National Forest, P.O. Box 950, Okanogan, Washington 98840.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

CURTIS L. SWANSON,
Regional Environmental Coordinator Planning, Programing and Budgeting.

SOUTH SLOPE UNIT PLAN

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the South Slope Unit Plan, Chattahoochee-Oconee National Forest, USDA–FS–R8–DES (Adm.) 76–14.

This unit contains 129,000 acres of National Forest land located in Dawson, Fannin, Habersham, Lumpkin, Towns, Union, and White Counties, Georgia. Major actions are harvesting timber products, development and maintenance of wildlife improvements, development of recreation facilities for dispersed recreation and construction and reconstruction of roads.

This draft environmental statement was transmitted to CEQ September 30, 1976. Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Rm. 3230, 12th St. & Independence Ave., SW, Washington, DC 20250.
USDA, Forest Service, 1720 Peachtree Street, NW., Rm. 804, Atlanta, Georgia 30309.

A limited number of single copies are available upon request to Forest Supervisor, Chattahoochee-Oconee National Forests, PO Box 1437, Gainesville, Georgia 30501.

Comments are invited from the public, and from State and Local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Chattahoochee-Oconee National Forests, PO Box 1437, Gainesville, Georgia 30501. Comments must be received by December 6, 1976 in order to be considered in the preparation of the final environmental statement.

THOMAS W. SEARS,
Acting Regional Environmental Coordinator.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

SUBCOMMITTEE ON EXPORT ADMINISTRATION OF THE PRESIDENT'S EXPORT COUNCIL

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that a meeting of the Subcommittee on Export Administration of the President's Export Council will be held on Tuesday, October 26, 1976, at 9:30 am, in Room 4832, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC

The Subcommittee advises the Secretary of Commerce on ways to enable the Government to deal realistically and effectively with the problems of the business community regarding export licensing as affected by national security and foreign policy considerations.

The Subcommittee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.
(2) Report on legislation and plans for implementation.
(3) Discussion of Implementation of the Recommendations of the President's Task Force to Improve Export Administration Licensing Procedures.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and CoCom export control program.

The General Session, at which a limited number of seats will be available, is open to the public. To the extent time permits, members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to Agenda item 4, the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 9, 1976, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. Materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under the Executive Order. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the General Session will be available upon written request addressed to the Freedom of Information Officer, Domestic and International Business Administration, Room 3100, U.S. Department of Commerce, Washington, DC 20230.

The Complete Notice of Determination to close portions of the series of meetings of the Subcommittee on Export Administration of the President's Export Council is printed below.

For further information, contact Edward P. Kemp, Confidential Assistant to the Director, Bureau of East-West Trade, Domestic and International Business Administration, U.S. Department of Commerce, Washington, DC 20230, telephone (202) 377–5334.

EDWARD H. STROH,
Acting Deputy Assistant Secretary for East-West Trade.

OCTOBER 1, 1976.

DEPARTMENT OF COMMERCE

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

SUBCOMMITTEE ON EXPORT ADMINISTRATION PRESIDENT'S EXPORT COUNCIL

Notice of Determination

The Subcommittee on Export Administration was established by the Secretary of Commerce as a subordinate committee of the President's Export Council, pursuant to Section 3 of Executive Order 11753, to advise the Department of Commerce on matters pertinent to those portions of the Export Administration Act of 1969, as amended (50 U.S.C. App. 2401 *et seq.*), that deal with United States policy of encouraging trade with all countries with which the United States has diplomatic or trading relations and of controlling trade for national security and foreign policy reasons.

The Subcommittee, which currently has seventeen members representative of U.S. industry engaged in export trade, will terminate no later than January 5, 1977, unless extended by proper authority by appropriate action. All members of the Subcommittee have the appropriate security clearances for access to classified information.

The Subcommittee's activities are conducted in accordance with the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I (Supp. V, 1975)), and Office of Management and Budget Circular A–63 (Revised), "Advisory Committee Management", effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in 5 U.S.C. 552(b), which provides, *inter alia*, that information may be withheld from public disclosure if it concerns matters that are "specifically authorized under criteria established by an Executive order to be kept secret in the interest of the national defense or foreign policy and are in fact properly classified pursuant to such Executive order."

On order to provide advice to the Department under the terms of its charter, the Subcommittee will hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the commodities and technical data subject to the CoCom control list, of the foreign availability of controlled commodities and technical data, and of other specific matters regarding export administration, much of the information relating to which is now or will be properly classified for national security or foreign policy reasons, pursuant to Executive Order 11652, 3 C.F.R. 339 (1974). In order for the Subcommittee to provide required advice to the U.S. Government, it will be necessary to provide the Subcommittee with such classified material. Therefore, the portions of the series of meetings of the Subcommittee that will involve discussions of matters specifically authorized under criteria established by Executive Order 11652 to be kept secret in the interest of national security or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to Section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Subcommittee dealing with the aforementioned classified materials shall be exempt, for the period September 15, 1976, to January 5, 1977, from the provisions of Section 10 (a)(1) and (a)(3) of that Act, relating to open meetings and public participation therein, because the Subcommittee discussions will be concerned with matters listed in 5 U.S.C. 552(b)(1). The remaining portions of the meetings will be open to the public.

JOSEPH E. KASPUTYS,
Assistant Secretary for Administration.

SEPTEMBER 9, 1976.

ALFED MEISUER,
Assistant General Counsel for Administration.

SEPTEMBER 3, 1976.

National Oceanic and Atmospheric Administration

DRAFT ENVIRONMENTAL IMPACT STATEMENT; COASTAL ZONE MANAGEMENT PROGRAM OF THE STATE OF CALIFORNIA

Postponement of Public Hearing

Notice is hereby given that the Office of Coastal Zone Management, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, is postponing the two public hearings which were to be held October 26 and 27, 1976, in Los Angeles and San Francisco, respectively, for the purpose of receiving comments on the Draft Environmental Impact Statement (DEIS) for the Coastal Zone Management Program of the State of California, published in the FEDERAL REGISTER, Vol. 41, No. 187—Friday, September 24, 1976.

The Office of Coastal Zone Management (OCZM) has reevaluated its DEIS on the State of California Coastal Zone Management Program. In light of the recent passage of SB 1277, The California Coastal Act of 1976, it has been determined a revision to the DEIS is now required to clarify the California Coastal Zone Management Program which now differs in part from the California Coastal Plan as described in the DEIS.

Therefore, OCZM is hereby postponing the public hearings on the California DEIS until at least 30 days after this revised DEIS can be circulated. Further notice of the rescheduled dates for these hearings will be published in the FEDERAL REGISTER and the California news media, and individual notices will be mailed to all agencies and parties from which comments have been requested on the DEIS.

T. P. GLEITER,
Assistant Administrator for Administration.

CTAB PANEL ON ENERGY POLICY

Open Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that the next meeting of the Department of Commerce Technical Advisory Board (CTAB) Panel on Energy Policy will be held on Wednesday, October 20, from 9:00 A.M. to 6:00 P.M., and Thursday, October 21, from 8:30 A.M. to 5:00 P.M. in Room 7000 A and B, of the Department of Interior Building,

V41 I196 OCT 7 76 UMI

18th and C Streets, NW., Washington, D.C.

The Panel has been established to assess the current energy situation from a private sector point of view and to provide an experienced and independent voice to assist the further development of a national energy program.

The entire two-day meeting will be devoted to the following business:

(1) Presentation and review of the following Ad Hoc Policy Development Reports:

Conservation
Fuel Substitution
Coal
Oil and Natural Gas
Nuclear
Electric Utilities
Synthetic Fuels and Shale Oil
New Energy Sources
National Energy Goals

(2) Development by the Panel of preliminary policy positions.

The meeting will be open to public observation. The public may submit written statements or inquiries on agenda items with the Chairman before or after the meeting. Comments shall be directly relevant to the above agenda items. Questions at the meeting may be propounded only by members of CTAB, DOC officials and invited participants. A limited number of seats will be available for the public and to the press on a first-come first-serve basis.

Copies of minutes will be made available for copying, 30 days after the meeting, following their certification by the Chairman, in accordance with the Federal Advisory Committee Act, at the U.S. Department of Commerce, Central Reference and Inspection Facility, Washington, D.C. 20230.

Persons desiring further information on the Panel or on individual meetings should contact Mr. William Dorn, Room 3877, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230; telephone (202) 377–3668.

BETSY ANKER-JOHNSON,
Assistant Secretary for Science and Technology.

OCTOBER 1, 1976.

COMMERCE TECHNICAL ADVISORY BOARD

Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. V, 1975), notice is hereby given that the Commerce Technical Advisory Board will hold a meeting on Wednesday, October 27, 1976, from 9:00 A.M. to 5:00 P.M. and Thursday, October 28, 1976, from 8:30 A.M. to 12:00 Noon, in Room 4833 of the Main Department of Commerce Building, 14th and E Streets, NW., Washington, D.C.

The Board was established to study and evaluate the technical activities of the Department of Commerce and recommend measures to increase their value to the business community. The agenda for the meeting is as follows:

The entire first day of the meeting will be devoted to the following topic: "The Role of Technological Innovation in U.S. Productivity, Foreign Trade, and General Welfare of Society." Resource speakers and panelists will include Betsy Ancker-Johnson, Michael Boretsky, Paul Samuelson, Peggy Musgrave, Fred Bergstrom, and John W. Kendrick. The entire second day will be devoted to a discussion of the Implementation of the Defense Science Board Task Force Report on Export Controls. The discussion will be initiated with a briefing by J. Fred Bucy, Chairman of the DSB Task Force on Export of U.S. Technology.

The meeting will be conducted in a manner to facilitate the orderly flow of business. Practical considerations may dictate alterations in the above agenda or schedule.

The meeting will be open to public observation. The public may submit written statements or inquiries to the Chairman before or after the meeting. Such communications shall be directly relevant to the above agenda items. Only comments and questions from members of the Board, DOC officials and invited participants will be entertained at the meeting. A limited number of seats will be available to the public and to the press on a first-come first-serve basis.

Copies of minutes or tape and materials distributed will be made available for reproduction, following certification by the Chairman, in accordance with the Federal Advisory Committee Act, at the U.S. Department of Commerce Central Reference and Inspection Facility, Washington, D.C. 20230.

Further information may be obtained from Mrs. Florence S. Feinberg, Administrator, Room 3865, U.S. Department of Commerce, Washington, D.C. 20230; telephone (202) 377–5065 after October 11, 1976.

BETSY ANKER-JOHNSON,
Assistant-Secretary for Science and Technology.

Office of Pipeline Safety Operations

[Docket No. 76–12W; Notice 4]

TRANS-ALASKA CRUDE OIL PIPELINE

Petition for Waiver for Girth Welds; Public Hearing

The purpose of this notice is to announce that:

(1) There has been placed in Docket No. 76–12W for public inspection a preliminary report on the National Bureau of Standards (NBS) analysis and assessment of (i) fracture mechanics as that analytical technique may be applicable for determining the effects of defects in girth welds on the structural integrity of the trans-Alaska pipeline system and the alternative maximum allowable weld defect sizes proposed by Alyeska Pipeline Service Company, (ii) weld defect and arc burn sizes submitted by Alyeska in support of its petition for exemptions from certain welding requirements of 49 CFR Part 195 for individual welds in the main line pipe of the trans-Alaska pipeline system, and (iii) methodologies for measuring the depth of those defects and arc burns;

(2) The docket has been reopened to receive additional written comments until the close of business on October 28, 1976; and

(3) The Deputy Secretary of Transportation will conduct a public hearing in this matter commencing at 8:30 a.m., Thursday, October 28, 1976, in the third floor auditorium of Federal Building 10A at 800 Independence Avenue SW., Washington, D.C.

As stated in the initial notice in this proceeding (41 FR 34375; October 13, 1976), the NBS is serving as technical consultant to the OPSO with the specific task of preparing an analysis of test procedures and methodology and an assessment of the adequacy of the statistical base upon which Alyeska has based its petition. On October 1, 1976, the NBS briefed the Deputy Secretary and other concerned Department of Transportation officials describing the information obtained and the status of the NBS analysis and assessment through September 30, 1976. A final report is expected about mid-October at which time it will be placed in the docket for public inspection and review. When that occurs, the OPSO will so announce in the FEDERAL REGISTER. Meanwhile, to assist those who may be interested in commenting on the NBS final report, the NBS has prepared a written preliminary report which is a summary of its October 1 briefing. A copy of that preliminary report has been placed in the docket and copies are being sent to each of those persons who has requested to be placed on the notice mailing list for the docket.

The hearing on October 28 will be for the purpose of receiving the views of interested persons as to (1) whether a fracture mechanics analysis can properly serve as an alternative to the standards set forth in Subpart D of 49 CFR Part 195 for determining the integrity of girth welds in the main line of the trans-Alaska crude oil pipeline system and (2) if so, whether the docketed technical information provides a valid basis for applying a fracture mechanics analysis to the particular girth welds for which Alyeska seeks waivers of the 49 CFR standard.

The hearing will be informal. It will not be an adversary or evidentiary-type hearing. Public participants will be permitted a maximum of 15 minutes for each presentation. Written copies of presentations are requested but not required. The docket will remain open until the close of business on the day of the hearing for the benefit of those who may wish to supplement their oral presentations.

Persons desiring to make presentations at the hearing should write to or telephone the Docket Clerk (Ms. Peggy Hammond), Office of Pipeline Safety Operations (Alyeska Docket No. 76–12 W), 2100 Second Street SW., Washington, D.C. 20590 (telephone 202–426–0135) to be received not later than noon, Tuesday, October 26, 1976, giving the following information:

(1) Name.
(2) Address.
(3) Phone number during normal working hours.
(4) Capacity in which presentation will be made (e.g. private citizen, public interest group, public official, standard-setting group, private business firm together with the name of group, firm or particular interest concerned).
(5) Position—pro or con on each of the two issues stated above.
(6) Time (maximum 15 minutes) desired for presentation.

A schedule will be prepared listing the participants in the order in which their presentations will be made. If more requests to testify are made than the time allotted will permit, we will attempt to obtain prior agreement on time allotments, or will allot time through the drawing of names by lot. The public and the press are invited to the hearing. The hearing will be transcribed electronically. The transcription and all written submissions will become a part of the record in this proceeding.

(18 U.S.C. 831–835, 49 CFR 1.53(g).)

Issued in Washington, D.C., on October 6, 1976.

CESAR DELEON,
Acting Director, Office of Pipeline Safety Operations.

RECREATION FOR HANDICAPPED PERSONS

Public Hearing

Notice is hereby given, under section 502 of the Rehabilitation Act of 1973 (Pub. L. 93–112, 29 U.S.C. 792, as amended), that a National Hearing on Recreation for Handicapped Persons will be held on October 21–22, 9:00 a.m., at the Sheraton Boston Hotel, Prudential Center, Boston, Massachusetts.

The hearing will be open to the public. On each day, testimony will be given by witnesses invited from state and federal agencies, advocacy groups, industry, and consumers. Each testimony will be followed by questions from a board of examiners consisting of Mr. Stanley B. Thomas, Jr., Assistant Secretary for Human Development, Department of Health, Education, and Welfare and Chairman of the Architectural and Transportation Barriers Compliance Board; Mr. Albert C. Zapanta, Assistant Secretary for Management, Department of Interior and member of the Architectural and Transportation Barriers Compliance Board; Mr. James S. Jeffers, Executive Director, Architectural and Transportation Barriers Compliance Board; Ms. Helen Hillman, Director, Programs for the Mentally Retarded and Physically Handicapped, District of Columbia Department of Recreation; and Mr. David Park, Coordinator for Therapeutic Recreation, George Washington University.

Oral testimony may be given only by invited witnesses, however written testimony will be welcomed from all interested parties. Persons and organizations interested in attending the hearing or submitting written testimony should contact Mr. Larry Allison, Architectural and Transportation Barriers Compliance Board, Room 1010, Mary E. Switzer Building, 330 C Street, SW, Washington, D.C. 20201, telephone (202) 245–1591.

Dated: October 4, 1976.

STANLEY B. THOMAS, JR.,
Chairman.

CIVIL AERONAUTICS BOARD

[Docket No. 28173; Order 76–9–171]

ALLEGHENY AIRLINES, INC.

Order Setting Application for Hearing

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 30th day of September, 1976.

On August 13, 1975, Allegheny Airlines filed an application under Subpart M of Part 302 of the Board's Procedural Regulations seeking nonstop authority between Buffalo and St. Louis. Currently, these cities are on Allegheny's single segment Route 97. Condition 4 of the applicant's certificate provides that the carrier must make at least one stop between the two points.

On March 16, 1976, by Order 76–3–109, the Board set Allegheny's application for further proceedings under Subpart M rules and directed that revised exhibits be submitted within 25 days. In addition, normal Subpart M procedures were suspended until receipt of the requested information. On April 12, 1976, Allegheny submitted revised exhibits.

Answers in support of Allegheny's updated application were filed by the City of St. Louis and jointly by the Niagara Frontier Transportation Authority, the City of Buffalo and the Buffalo Area Chamber of Commerce. An answer opposing and requesting that the application be denied on the grounds that Allegheny's proposal is not economically viable was filed by American.

Upon consideration of the pleadings and all the relevant facts, the Board has determined that Allegheny's application should be set for hearing under procedures prescribed by Subpart M. By a Notice of Environmental Rejection, contemporaneously issued with this order, the Chief, Legal Division, Bureau of Operating Rights, after an analysis of the environmental evaluation provided with Allegheny's application, has found, pursuant to section 312.13 of the Board's Procedural Regulations, that the proceeding instituted herein is not one which could lead to a "major Federal action significantly affecting the quality of the environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA). However, that conclusion is not intended to foreclose any party from presenting evidence (subject to the usual evidentiary rules in force in C.A.B. proceedings) or from making arguments with respect to relevant environmental issues. Nor are we foreclosed from consideration of environmental facts resulting from the possible licensing actions in issue in this proceeding, which, although of a lesser magnitude than those required to trigger further procedures under the requirements of NEPA and Part 312 of the Board's Rules, might nonetheless be relevant to our decision.

Accordingly, it is ordered, That:

1. The application of Allegheny Airlines, Docket 28173, be and it hereby is set for hearing before an administrative law judge of the Board at a time and place hereinafter designated, as the orderly administration of the Board's docket permits.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.76–29529 Filed 10–6–76;8:45 am]

[Docket No. 28173]

ALLEGHENY AIRLINES, INC.

Notice of Environmental Rejection

By Order 76–3–109, March 16, 1976, the Board directed the applicant in the above-captioned proceeding to file an environmental evaluation in conformance with section 312 of the Board's Procedural Regulations.

Allegheny's calculations are based upon the assumption that one additional Buffalo-St. Louis nonstop round trip would be operated. In addition, the calculations assume that all operations would be conducted with BAC–1–11's.

The operations statistics used by Allegheny appear accurate for the airports involved. In analyzing the evaluation, we compared the base period with the forecast period for each city, in order to judge the potential impact of new services.

Pursuant to §§ 312.8 and 312.13 of the Board's Procedural Regulations, the undersigned—having reviewed the environmental evaluation and other available information with respect to the application described above and having been duly designated by the Director, Bureau of Operating Rights, pursuant to § 312.8—hereby finds that any subsequent Board action approving, denying, or otherwise acting upon such application would not constitute a "major Federal action significantly affecting the quality of the environment" within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969.

Dated at Washington, D.C., September 30, 1976.

BARBARA A. CLARK,
Chief, Legal Division,
Bureau of Operating Rights.

COMMISSION ON CIVIL RIGHTS

MAINE ADVISORY COMMITTEE

Meeting; Amendment

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that the meeting of the Maine Advisory Committee (SAC) of the Commission published in the FEDERAL REGISTER on Friday, September 3, 1976, on page 37392 (FR Doc. 76–25927) is hereby amended to show change of meeting dates. The meeting will be held on October 8–9, 1976. The meeting place and time will remain the same.

Dated at Washington, D.C., October 5, 1976.

ISAIAH T. CRESWELL, JR.,
Advisory Committee
Management Officer.

[FR Doc.76–29666 Filed 10–6–76;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

CALIFORNIA STATE MOTOR VEHICLE POLLUTION CONTROL STANDARDS

Waiver of Federal Preemption

I. INTRODUCTION

On March 22, 1976, the Environmental Protection Agency (EPA), by notice published in the FEDERAL REGISTER (41 FR 11876), announced a public hearing pursuant to section 209(b) of the Clean Air Act, as amended (hereinafter the "Act") (42 U.S.C. 1857f–6a(b)). That hearing was called to consider a request by the State of California that the Administrator waive application of section 209(a) of the Act with respect to the California hydrocarbon emission standards and accompanying enforcement procedures applicable to 1978 and subsequent production year motorcycles. Section 209(b) of the Act requires the Administrator to grant such waiver, after opportunity for a public hearing, unless he finds that the State of California does not require standards more stringent than applicable Federal standards to meet compelling and extraordinary conditions, or that such State standards and accompanying enforcement procedures are not consistent with section 202(a) of the Act. State standards and enforcement procedures are deemed to be consistent with section 202(a) if adequate technology exists with which to meet them and adequate lead time is, or appears to be, available in which to implement that technology, or if technology does not exist but there is, or appears to be, adequate lead time to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within that time frame.

The public hearing was held in Los Angeles California, on May 27, 1976. The record was kept open until June 11, 1976, for the submission of written material, data or arguments by interested persons. I have determined that I cannot make the findings required for denial of the waiver under section 209(b), and therefore that I am compelled to grant the requested waiver of Federal preemption for 1978 and subsequent production years. If more stringent Federal standards are subsequently promulgated for any such model year, at that time I may have to reconsider the question of whether this California waiver will remain in effect. The record of the hearing and the other evidence available to me clearly reveal that compelling and extraordinary conditions exist in the State of California, and that adequate technology will be available, when considered in the context of the available lead time, to meet the California hydrocarbon standards for 1978 and subsequent production years.

II. BACKGROUND

It has long been recognized by the EPA that motorcycles contribute significantly to the hydrocarbon and carbon monoxide pollution in certain Air Quality Control Regions. In fact, certain limitations on the operation and registration of motorcycles were proposed as part of the rule making for the Approval and Promulgation of Implementation Plans for the States of Arizona and New Jersey, and promulgated as part of the rule making for the Approval and Promulgation of the Implementation Plan for the State of California. As a result of these proposed limitations, the motorcycle industry met with representatives of the EPA and expressed their desire for the promulgation of emission standards for motorcycles as a means of eliminating the need for the proposed restrictions. As a general proposition the industry stated that motorcycle emission control technology was available and could be implemented, with allowance for reasonable production lead time.

On January 17, 1974, the EPA published an advance notice of proposed rulemaking (39 FR 2108) for the control of emissions from motorcycles. This was published to provide notice of EPA's intention to promulgate emission standards for motorcycles, and to seek comments from any interested persons regarding the issues involved. The comments received by the EPA were carefully analyzed, and on October 22, 1975, a notice of proposed rulemaking was published (40 FR 49496). In this notice the EPA proposed both exhaust and crankcase emission standards for motorcycles produced on or after January 1, 1978. At the present time these proposed regulations have not yet been promulgated in final form.

Against this background, on July 15, 1975, the California Air Resources Board (CARB) adopted hydrocarbon (HC) emission standards and tests procedures for 1978 and subsequent production year motorcycles. The California standards are to be implemented in three stages of increasing stringency. The standards are:

10 grams HC per kilometre for 1978 and 1979 production years (motorcycles manufactured after January 1, 1978),
5 grams HC per kilometre for 1980 and 1981 production years (motorcycles manufactured after January 1, 1980),
1 gram HC per kilometre for 1982 and subsequent production years (motorcycles manufactured after January 1, 1982).

On September 2, 1975, California requested a waiver of Federal preemption for these standards and accompanying enforcement procedures. It is that waiver request which is the subject of this decision.

III. DISCUSSION

Legal Criteria and Legislative History. Section 209 was added to the Clean Air Act by the Air Quality Act of 1967, Pub. L. 90–148, 81 Stat. 501, and has been preserved in the Clean Air Act essentially unamended since then. It prohibits any State from adopting or enforcing emission standards for new motor vehicles, unless such State had adopted emission standards (other than crankcase emission standards) prior to March 30, 1966. Only California meets this test. California may seek a waiver from the prohibitions of section 209(a) and may thereby adopt or enforce emission standards unless the Administrator of the EPA, after notice and opportunity for a hearing, finds either that California does not require standards more stringent than applicable Federal standards to meet compelling and extraordinary conditions, or that California's standards and accompanying enforcement procedures are not consistent with section 202(a) of the Act.

These provisions must be read in the light of their unusually detailed and explicit legislative history in order to understand the intent of Congress in enacting section 209(b). The legislative history is discussed at some length in the prior waiver decision of May 28, 1975 (40 FR 23102, 23103). The major points that emerged are summarized below.

At the time the California waiver provision was adopted, Congress believed that "compelling and extraordinary conditions" existed in California, and the waiver provision was specially tailored to meet this situation. Congress meant to ensure by the language it adopted that the Federal government would not second-guess the wisdom of State policy in the area of emission standards. Congress intended to preserve the California emission control program and allow California to continue to act as a pioneer in this field. Even in the two areas of section 209(b) which specifically allow for Federal judgment, Congress intended that the standard of EPA review of the State decision be a narrow one.

This Congressional intent has shaped EPA's approach to all California waiver decisions. As stated by (then) Administrator Ruckelshaus in the waiver decision of August 31, 1971 (36 FR 17458):

V41 I196 OCT 7 76 UMI

The law makes it clear that the waiver request cannot be denied unless the specific findings designated in the statute can properly be made. The isue of whether a proposed California requirement is likely to result in only marginal improvement in California air quality not commensurate with its cost or is otherwise an arguably unwise exercise of regulatory power is not legally pertinent to my decision under section 209, so long as the California requirement is consistent with section 202(a) and is more stringent than applicable Federal requirements in the sense that it may result in some further reduction in air pollution in California.

Accordingly, I do not subscribe to certain arguments that were advanced with regard to this waiver decision as reasons for denying the California waiver. Arguments concerning the wisdom of California's actions with regard to motorcycles, the cost effectiveness of the motorcycle standards, the marginal improvements in air quality that will allegedly result, and the question of whether these particular standards are actually required by California all fall within the broad area of public policy. The EPA practice of leaving the decision on such controversial matters of public policy to California's judgment is entirely consistent with the Congressional intent behind the California waiver provision.

Technology and lead time. This issue has traditionally been the key issue in previous waiver decisions, and once again technology and lead time are the crucial questions in the motorcycle situation. This issue arises from the fact that section 209(b) of the Act refers to whether the California standards and accompanying enforcement procedures are "consistent with section 202(a)." Section 202(a)(2) states that the standards "shall take effect after usch period as the Administrator finds necessary to permit the development and application of the requisite technology, giving appropriate consideration to the cost of compliance within such period." It should be pointed out that in order to be consistent with section 202(a), it is not required that the requisite technology be developed at present, but rather that the available lead time appears to be sufficient to permit the development and application of that technology.

While section 209(b) requires consideration of whether the adoption of standards by California is consistent with section 202(a), nevertheless, my discretion in determining whether to deny the waiver is considerably narrower than my discretion to act or not to act in the context promulgating Federal standards under section 202(a). 113 Cong. Rec. H 14405 (Cong. Holifield) (daily ed. Nov. 2, 1967); see also 40 FR 23104 (May 28, 1975). I would therefore feel compelled to approve a California approach to the regulation of motorcycle emissions which I might choose not to adopt at the Federal level.

In that connection I should state that, although I have concluded from today's state of information that achievement of the 1978, 1980 and 1982 California hydrocarbon standards is technologically feasible, I interpret the statute such that I could have drawn conclusions of technological feasibility on the basis of less information when the deadline for compliance is farther away. This is inherent in the whole approach of the Clean Air Act which, as I said in last year's waiver decision, "is to force the development of new types of emission control technology where that is needed." 40 FR 23104 (May 28, 1975). As Mr. Justice Frankfurter said two decades ago, "Especially when the incentive is great, invention can rapidly upset prevailing opinions of feasibility." "Radio Corp. of America v. United States," 341 U.S. 412, 427 (1951). There may well be new technology developed for motorcycle emission control which we cannot foresee at the present and which, in the absence of firm deadlines, will not be developed. As Senator Cooper said during debate on the adoption of section 202 of the Clean Air Act of 1970, without the stimulation of deadlines and strict standards, "such innovation is not likely to be forthcoming." 116 Cong. Rec. 33317 (1970).

With regard to the 1978 standard of 10 grams per kilometre (g/km), only two stroke motorcycles with engine sizes greater than approximately 170 cc will require reductions in HC emissions. Of these two stroke motorcycles, those of 500 cc and greater are expected to have the most difficulty in meeting the 10 g/km HC standard. Essentially all four stroke motorcycles already meet the 10 g/km standard in their present uncontrolled state, and so do most of the smaller two stroke motorcycles.

As for those two stroke motorcycles of 170 cc or larger, the information available to EPA leads to the conclusion that these models will be able to meet the 1978 California standard with the application of emission control technology. Kawasaki testified that they are aware of technology that would allow these two stroke motorcycles to meet the standard, but they contend that the resulting motorcycles would be unsafe and unreliable and would therefore not be offered to the public. See Transcript of Public Hearing on California's Request for Waiver of Federal Preemption with Respect to 1978 and Subsequent Production Motorcycle Exhaust Emission Standards and Test Procedures, May 27, 1976, at 152 (hereinafter "Transcript"). The EPA has tested a controlled 250 cc two stroke which emitted only 3.92 g/km HC, a 73 percent reduction from the current uncontrolled production model. See Whitmeyer, A., "Exhaust Emissions and Fuel Economy of Three Prototype Honda Motorcycles," EPA Technical Report, April, 1976. Data presented in Honda's comments to the EPA Notice of Proposed Rule Making for motorcycles (40 FR 49496) (hereinafter NPRM) showed HC reductions of 21 to 32 percent for a 550 cc and a 750 cc two stroke. These reductions were obtained using only carburetor recalibration. While this percentage reduction may not result in some of the largest two stroke models achieving the standard, my technical staff believes that additional modifications such as port timing, improved ignition, and possibly the use of a partial catalyst will provide the necessary reductions to meet a 10 g/km standard without the safety and reliability problems Kawasaki alluded to. See Whitmeyer, *supra*; "Summary Technical Report on Honda Motorcycle Emission Control (Phase 1 Level)," Prepared by Honda Motor Co., Ltd. for EPA, March, 1976. The partial catalyst uses the oxygen from the short circuited fuel mixture to oxidize approximately twenty percent of the total uncontrolled HC emissions. The cost of this device is estimated to be approximately five dollars, as was related by representatives of members of my technical staff.

An alternative to the emission control technology approach for the manufacturers of the larger two stroke motorcycles, however, is conversion to four stroke technology. Four stroke technology is a technology that is available to meet the California standards. As noted earlier, essentially all four stroke motorcycles already meet the 10 g/km standard in their present uncontrolled state. The major manufacturers of large two stroke motorcycles (Kawasaki, Suzuki, and Yamaha) are aware of this option of converting to four stroke engines, and they have already initiated the implementation of this approach. In fact, for 1976 Kawasaki has replaced their 750 cc two stroke with a 750 cc four stroke motorcycle, and their largest two stroke motorcycle currently offered is 500 cc. Suzuki testified at the public hearing that it has decided to convert some models to four stroke engines, and in fact has already introduced its first four stroke motorcycle, a 750 cc model.

Assuming, in the worst case, that all two stroke motorcycles above 500 cc will not be able to meet the 10 g/km standard, that they would therefore not be offered for sale in California in 1978, and that no four stroke motorcycles would take their place, this would restrict total California sales by less than five percent. See "New Motorcycle Registrations, 1975", R. L. Polk & Co. I believe that the basic demand for motorcycles would be satisfied in 1978 even in that worst case. As noted, however, some models of four stroke motorcycles being offered as replacements by those manufacturers currently producing the larger two stroke models will alleviate even this slight effect on the market.

In addition to the issue of the technological feasibility of the 1978 California standard, various witnesses testified that there were lead time problems associated with the California test procedures for certification, especially the durability testing requirement. Some manufacturers further argued that the California test procedures were not specific enough to allow them to perform certification tests. Although the manufacturers claim that the test procedures are not sufficiently specific, California stated its belief that these procedures are sufficient to satisfy their own needs with respect to being able to issue certificates to the manufacturers. In addition, the California test procedures are similar in degree of specification to the procedures currently in effect for light duty vehicles. The CARB has also indicated to motorcycle manufacturers that they will handle any requests for clarification of particular items on a case by case basis. See Letter of March 15, 1976, from Thomas Austin of CARB to Alan Isley of the Motorcycle Industry Council. Furthermore, my technical staff has concluded that the dynamometers and related emission testing equipment currently in the possession of the manufacturers will in general be sufficient for purposes of the California testing requirements. See also Transcript at 50–51.

In order to properly discuss the question of available lead time associated with certification testing, use should be made of the knowledge gained by EPA in the process of attempting to develop Federal certification procedures for motorcycles. The primary differences between the California and EPA procedures (those which the EPA technical staff has developed in connection with the EPA rulemaking for motorcycles) which affect lead time or distance (mileage) accumulation for durability testing, and the California requirement of separate data and durability motorcycles. For the EPA procedure it was estimated that the minimum time required for distance accumulation would be nine to twenty-one days depending on the engine displacement class. See Analysis of Issues for "Exhaust Emission Regulations for New Motorcycles," Volume 1, Appendix E, "Summary and Analysis of NPRM Comments" at E–85 (hereinafter "Analysis of Comments"). Since the California procedure requires a longer soak time and twice the distance accumulation of this EPA procedure, the estimate of the minimum time required for the California distance accumulation is twenty-one to fifty-one days. In the lead time schedule developed for EPA's procedure, two months were allotted for distance accumulation since all models produced by large manufacturers would be required to accumulate distance. California, however, only requires distance accumulation from one fourth of the durability motorcycles, and therefore the pressure on the use of dynamometers and test track facilities should be reduced. As a result, a conservative estimate of the time required for California distance accumulation is three months, or one month longer than EPA's estimate of the lead time required under the EPA procedure. As for the remainder of the certification process, EPA's analysis concluded that an allowance of twelve months would be sufficient to permit a manufacturer to complete the requirements. See "Analysis of Comments" at E–19. Based upon the similarity of the California and EPA procedures in these remaining aspects, the same twelve month period is a reasonable estimate for the time required under California's certification procedure. Using this estimate, the total time required for California certification, including distance accumulation, is fifteen months. Therefore, in order for a manufacturer to complete the certification process by January 1, 1978, the process could begin as late as October 1, 1976. As a result of this analysis, I have concluded that there is sufficient lead time available for manufacturers to complete the California certification process.

Looking at the estimated cost of complying with the 1978 California requirements, the only cost increase for the four stroke and smaller two stroke motorcycles (below 170 cc) will be the cost of certification, which will be discussed below. The larger two stroke motorcycles offered for sale in 1978 will require the use of some emission control technology, and the corresponding average retail price increase per motorcycle (based upon data supplied to EPA by the manufacturers) is estimated to be forty-three dollars for the medium (170 to 279 cc) and ninety dollars for the larger (greater than 279 cc) two strokes. These cost increases include hardware, research and development, quality control, production equipment, warranty, taxes, and dealer and distributor mark-up cost, but they do not include costs associated with certification. Competitive pressure from the medium size four strokes may force a reduction in the amount of the price increase for medium size two strokes. The large two stroke motorcycles currently retail for seventy-five to one hundred dollars less than a comparable four stroke, and so the price increase may tend to eliminate the present price advantage. Offsetting this price increase, however, are improvements in fuel economy which are likely to result from the use of emission control technology (e.g., leaner fuel-air mixtures, and minimization of intake-exhaust port short circuiting). The discounted lifetime fuel savings are estimated by EPA to range from seventeen dollars to fifty-seven dollars, depending upon engine size. These fuel savings are based on fuel economy improvements reported by the manufacturers in their comments to the NPRM. For further discussion of costs, see Analysis of Issues for "Exhaust Emission Regulations for New Motorcycles," Volume 1, Appendix D, "Economic Impact Analysis" (hereinafter "EPA Cost Analysis").

The cost per motorcycle of certification depends largely on the sales volume of a manufacturer (manufacturers with less than 10,000 annual nationwide sales are entitled to reduced testing). Certification costs per motorcycle have been estimated by my technical staff at ten dollars to fifty-seven dollars for the large manufacturers. These values assume that the total certification cost is solely written off against California sales. Estimated certification costs for a manufacturer with three models, California sales of 1000, and nationwide sales of less than 10,000 would be forty to fifty dollars per unit. Certification costs for smaller manufacturers would be proportionately higher. The greatest amount of uncertainty in these estimates is related to the personnel required to support the manufacturer's certification effort. As a result of the estimated certification costs, manufacturers with extremely low sales might have to drop California as a market, or might have to distribute the certification cost over nationwide sales.

Using the above estimates, complying with the 1978 California standard will result in a price increase of approximately five to ten percent of the retail price for the large manufacturers' models which require controls, and less for those without controls. These large manufacturers account for over 90 percent of total California sales. As for the smaller manufacturers, the certification costs per motorcycle will be higher unless the cost is distributed over nationwide sales.

With regard to the technological feasibility of the 1980 California standards of 5 g/km, most uncontrolled four stroke motorcycles already meet this standard. Thus, as mentioned earlier, the obvious technology required to meet this standard is four stroke technology. In addition, however, most two stroke motorcycles with engine sizes of 250 cc or less can meet a 5 g/km HC standard using engine modifications and possibly using partial catalysts. This has been verified by a 250 cc two stroke motorcycle tested by EPA. See Whitmeyer, A., "Exhaust Emissions and Fuel Economy of Three Prototype Honda Motorcycles," EPA Technical Report, April, 1976. The driveability of this vehicle was acceptable, and data submitted by the manufacturer indicate no durability problems. See "Summary Technical Report on Honda Motorcycle Emission Control (Phase I Level)," Report Prepared by Honda Motor Company, Ltd. for EPA, March, 1976. The only problems in meeting the 5 g/km standard in 1980 should be experienced by two stroke motorcycles with engine sizes greater than 250 cc (those motorcyles which did not require conversion in order to meet the 1978 standard). An obvious option for the manufacturers of these models is to convert to four stroke technology.

In the past few years, a significant number of new large four stroke models have been introduced. A review of the 1976 product lines of the three major two stroke manufacturers (Yamaha, Kawasaki, and Suzuki) plus the reported introduction of some new four strokes shows that by 1978 none of these manufacturers will have more than two large two stroke models for which there is not a similar size and function four stroke also offered. Thus at most two conversions to four stroke engines would be required, assuming this technology is utilized. Lead time estimates for conversion to four strokes provided by Yamaha indicate 3.5 years are required for conversion of two models. See Yamaha Additional Comments to ANPRM, May 14, 1974, at 27. Using 1976 as a base, the conversion could therefore be completed by the 1980 production year. In addition, since the United States is only a small part of the total sales of the major manufacturers (10 to 15 percent for Suzuki, for example), we do not expect the existing two stroke designs to be abandoned.

V41196 OCT 7 76 UMI

I therefore conclude from the above the technology does exist with which to meet the 1980 standard within the available lead time. This can be accomplished by using demonstrated engine modifications for two strokes of 250 cc or less, and by converting the remaining two stroke models to four stroke engines.

Looking at the costs associated with meeting the 1980 standard (costs above those associated with meeting the 1978 standard), four stroke motorcycles will probably not require any control devices and therefore will not involve any additional price increase. The small two strokes (less than 170 cc) will require controls estimated to cost forty-two dollars at the retail level (this is the first stage of control; no control was required for this class for the 10 g/km standard). Based upon data submitted by manufacturers in response to the EPA NPRM, the medium size two strokes (170 to 279 cc) will require additional controls estimated to have an incremental cost of approximately ten dollars, and which consist primarily of the use of partial catalysts. To meet 5 g/km standard, most large two strokes (those which have not previously been converted) are expected to convert to four stroke designs at an incremental cost increase of about one hundred dollars. See "EPA Cost Analysis" at D–9.

Finally, with regard to the technological feasibility of the 1982 California standard of 1 g/km, the situation is somewhat different. Yamaha stated that it was too early to accurately assess the technological feasibility of the 1982 standard. Honda, however, presented data on a 360 cc four stroke using after-treatment devices that showed HC levels of less than 0.2 g/km. A 250 cc two stroke had HC emissions of 0.89 g/km. It was emphasized that these were only prototype models and that durability and driveability problems had yet to be solved. Catalyst manufacturers have been working on motorcycle aftertreatment devices for several years. I believe it is reasonable to conclude that given five years of development time, after-treatment devices for four stroke motorcycles can be further developed which will allow certification at the 1 g/km level for HC.

The more difficult question is whether the large majority of two stroke models will be able to meet the 1 g/km standard. Most manufacturers testified that this will not be possible. If the manufacturers are correct, the technology available to meet a standard of 1 g/km is conversion to four stroke engines. Based upon the estimates provided by Yamaha concerning the time required for conversion, and based upon a total of seven models requiring conversion, the shift to four stroke designs for the complete product line could be completed by January 1, 1982. See Yamaha Additional Comments to ANPRM, May 14, 1974, at 27. (Analysis of the current model lines indicate that with a small amount of consolidation of motorcycles with similar engine displacements, the major manufacturers would have to convert between five and seven models each; this includes conversion of one or two large two strokes required to meet the 1980 standard.) Although some of the manufacturers have claimed additional time would be required, it can be concluded that, at a minimum, most of the models could be converted by 1982 (see *id.*), and that with model consolidation, a full line of motorcycles satisfying the basic market demand and meeting the 1 g/km standard could be offered. Small manufacturers, lacking the capital required for conversion to new four stroke designs, may have difficulty complying with a 1 g/km standard, and it is therefore likely that some small manufacturers would not sell on-road motorcycles in California in 1982. However, since these manufacturers account for less than 10 percent of total California sales, the basic demand could be met by the larger manufacturers. (The approximate percentages of 1975 new California motorcycle registrations for the five largest manufacturers, based on data compiled by R.L. Polk & Co., are: Honda–50, Kawasaki–15, Yamaha–15, Suzuki–7, and AMF–5.)

Based upon this analysis, I have concluded that four stroke technology (including the use of aftertreatment devices) can be developed and applied within the available lead time to permit four stroke motorcycles to meet a HC standard of 1 g/km by January 1, 1982. The lead time required to develop new small and medium size four strokes to replace two stroke models is such that most, if not all current models could be converted by January 1, 1982.

Concerning the cost of complying with a standard of 1 g/km by 1982, since little or no control will be required for the small and medium size four strokes, the associated costs are expected to be small. The large four strokes will probably require some after-treatment device. Based on manufacturers' data, the EPA technical staff estimates the retail cost increase to be sixty to one hundred dollars per unit. The estimated cost of converting from a two stroke model to a four stroke model is one hundred dollars per production motorcycle.

Objections to granting the waiver. One of the arguments raised by various manufacturers at the hearing (both through oral testimony and written submissions) was that the "total life" concept being used by California is inconsistent with section 202(a). The manufacturers took the position that since section 202(a) states that the emission standards "shall be applicable to * * * vehicles and engines for their useful life (as determined under subsection (d))," then in order to be consistent with section 202(a) any emission standard set by California must be related to a vehicle's "useful life." The manufacturers further contended that "useful life" in the meaning of section 202(a) must equal half of the vehicle's expected total life. As a result, the manufacturers contended that the California waiver request must either be denied or appropriately limited.

I have determined, however, that the manufacturers' position is not a correct interpretation of the Clean Air Act. It is not at all clear from the legislative history of section 202 that the 5-year/50,000 mile requirement for light duty vehicles was based simply on a half-total-life concept, that motorcycles are necessarily light duty vehicles, or that standards for vehicles other than light duty vehicles must be applicable for half the total life. However, even if these were the case, I am not persuaded that Congress meant to require California to adopt the same period of applicability. In effect, the length of time a vehicle must meet the standard is merely one way of affecting the stringency of the standard. The longer the amount of time or distance for which the manufacturers will have to comply with the standard, the lower will have to be the motorcycle's designed initial emission level (if it is assumed that emission performance deteriorates with time and use). I therefore consider this issue to be really one of determining the stringency of the California standard. Allowing California to adopt their total life concept is fully in keeping with the Congressional intent behind section 209, which is to permit California to pursue its own stringent emission control program.

Furthermore, the total life concept is not in violation of the requirement in section 209(b) that the California standards and accompanying enforcement procedures be consistent with section 202(a). The concept of being "consistent with section 202(a)" relates in this case to whether the standards are technologically feasible within the available lead time, giving appropriate consideration to the cost of compliance within this time frame. It is, therefore, in the framework of technology and lead time that California's use of total life has entered into the waiver decision, especially in analyzing durability data supplied by the manufacturers and in determining the lead time requirements for distance accumulation during certification.

An additional argument against granting the waiver was raised by the Motorcycle Industry Council and Yamaha, who contended that the CARB had violated due process when adopting their standards, by not allowing the manufacturers a fair and full opportunity to present their views at a State hearing. If this argument has any validity, the EPA waiver hearing is not the proper forum in which to raise it. Section 209(b) does not require that EPA insist on any particular procedures at the State level. Furthermore, a complete opportunity was provided at the EPA waiver hearing for the presentation of views.

A further objection to granting the waiver was raised by Suzuki, who claimed that if the California standards resulted in the elimination of two stroke motorcycles from the California market, this would be contrary to the result in "International Harvester v. Ruckelshaus," 478 F.2d 615 (D.C. Cir. 1973). I cannot agree. While California's emission standards may severely limit the number of two stroke motorcycles which may be sold in California in the future, this will not result in the unavailability of motorcycles which are substantially similar in size and function to the current two strokes. Two stroke and four stroke engines merely represent two different types of engines for the same general class of motorcycles.

I am not deciding here that the "basic demand" test of "International Harvester" is applicable in the context of a California waiver. However, as I stated in the May 28, 1975, (40 FR 23102) California waiver decision, I do believe that if the test were to be applied, it would not be applicable to its fullest stringency due to the degree of discretion given to California in dealing with its mobile source pollution problems. In addition, the court's approach in "International Harvester" is fully consistent with the potential outcome of eliminating some or all two stroke engines from the California motorcycle market. As the court stated:

> We are inclined to agree with the Administrator that as long as feasible technology permits the demand for new passanger automobiles to be generally met, the basic requirements of the Act would be satisfied, even though this might occasion fewer models and a more limited choice of engine types. The driving preferences of hot rodders are not to outweigh the goal of a clean environment. (478 F.2d at 640)

Findings. Having given due consideration to the record of the public hearing, all material submitted for that record, and other relevant information, I hereby make the following findings.

1. The State of California had, prior to March 30, 1966, adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles.

2. The California State emission standards applicable to 1978 and subsequent production year motorcycles are more stringent than applicable Federal standards, of which none are currently in effect.

3. Compelling and extraordinary conditions continue to exist in the State of California. The testimony of the representatives of the CARB revealed that the State oxidant pollution problem continues to be the worst in the nation. This situation exists in spite of the fact that the latest available data reveal that there has been a decrease in the frequency with which the one-hour oxidant standard has been exceeded in Los Angeles and San Francisco. California continues to struggle with an air pollution problem of unique proportions, and the recently indicated improvement in air quality is only a small step in the right direction.

4. I cannot find that the California hydrocarbon standards applicable to 1978 and subsequent production year motorcycles, and accompanying enforcement procedures, are not consistent with section 202(a) of the Clean Air Act, since, taking into account the cost of compliance, sufficient lead time to permit the development and application of the requisite technology is clearly available for the 1978 and 1980 standards, and appears to be available to meet the 1982 standard.

IV. Decision

Based upon the above discussion and findings, I hereby waive the application of section 209(a) to the State of California with respect to Section 1958 of Title 13, California Administrative Code, and "California Exhaust Emission Standards and Test Procedures for 1978 and Subsequent Production Motorcycles," adopted July 15, 1975, as amended February 20, 1976. If more stringent Federal standards are hereafter promulgated for 1978 or any subsequent model year, at that time I may have to reconsider the question of whether this California waiver will remain in effect.

A copy of the above standards and procedures, as well as the record of the hearing and those documents used in arriving at this decision, is available for public inspection during normal working hours (8:00 a.m. to 4:30 p.m.) at the U.S. Environmental Protection Agency, Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, SW., Washington, D.C. 20460. Copies of the standards and test procedures are also available upon request from the California Air Resources Board, 1120 Q Street, Sacramento, California 95814.

Dated: October 1, 1976.

RUSSELL E. TRAIN,
Administrator.

FISONS CORP. AND MONSANTO

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 10065–EUP–5 and No. 10065–EUP–8. Fisons Corporation, Bedford, Massachusetts 01730. These experimenal use permits allow the use of the herbicide 2-ethoxy-2,3-dihydro-3,3-dimethyl-5-benzofuranyl methanesulfonate to evaluate control of weeds in grass seed crops. Permit No. 10065–EUP–5 will use 3,000 pounds of the herbicide; Permit No. 10065–EUP–8 will use 1,040 pounds. A total of 3,040 acres are involved; both programs are authorized only in the States of Idaho, Oregon, and Washington. The experimental use permits are effective from September 10, 1976, to September 10, 1977. These permits are being issued with the limitation that all the treated grasses will be used for seed production only. None of the treated grass will be used for forage, feed, or grazing of livestock.

No. 524–EUP–24. Monsanto Company, St. Louis, Missouri 63166. This experimental use permit allows the use of 737.5 pounds of the herbicide isopropylamine salt of glyphosate on cotton and soybeans to evaluate control or destruction of most herbaceous plants; the herbicide will be applied only through recirculating spray system applicators. A total of 2,950 acres is involved; the program is authorized only in the States of Alabama, Arkansas, North Carolina, South Carolina, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Iowa, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, Virginia, Arizona, California, and New Mexico. The experimental use permit is effective from September 9, 1976, to September 9, 1977. Temporary tolerances for residues of the active ingredient in or on cotton forage, cottonseed, soybean grain, forage and hay, liver, kidney of cattle, goats, hogs, horses, poultry, and sheep have been established; a food additive tolerance for residues of the active ingredient in soybean hulls has also been established.

Interested parties wishing to review the experimental use permits are referred to Room E–315, Registration Division (WH–567), Office of Pesticide Programs, EPA 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755–4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Dated: September 30, 1976.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

MOBAY CHEMICAL CO. ET AL.

Pesticide Petition; Notice of Filing

Pursuant to the provisions of section 408(d)(1) of the Federal Food, Drug, and Cosmetic Act, the Environmental Protection Agency gives notice that the following petitions have been submitted to the Agency for consideration.

PP6F1835. Chemagro Agricultural Div., Mobay Chemical Co., Kansas City MO 64120. Proposes that 40 CFR 180.183 be amended by establishing a tolerance for residues of the insecticide *O,O*-diethyl *S*-[2(ethylthio)ethyl] phosphorodithioate in or on the raw agricultural commodities grass, grass chaff, and grass straw at 35 parts per million (ppm). Proposed analytical method for determining residues is a thermionic emission gas chromatographic procedure. PM15 (202/426–9425)

PP6F1859. Elanco Products Co., Division of Eli Lilly and Co., Indianapolis IN 46206. Proposes that 40 CFR 180.304 be amended by the establishment of a tolerance for combined residues of the herbicide oryzalin (3,5-dinitro-N⁴,N⁴-dipropylsulfanilamide) at 0.05 ppm in or on the raw agricultural commodity groups citrus fruits, pome fruits, small fruits, and stone fruits, and in or on the raw agricultural commodities avocados, kiwi fruit,

V41196 OCT 7 76 UMI

olives, pomegranates, pistachios, figs, and almond hulls. The proposed analytical method for determining residues involves formation of the dimethyl derivative of oryzalin and analysis of the derivative by a gas-liquid chromatographic technique using an electron capture detector. PM25 (202/755–7012)

PP6F1860. Merck and Co. Inc., Rahway NJ 07965. Proposes that 40 CFR 180.242 be amended by the establishment of a tolerance for residues of the fungicide thiabendazole (2-(4-thiazolyl)-benzimidazole) in or on the raw agricultural commodity sugar beets at 4.0 ppm. Proposed analytical method for determining residues is a spectrophotofluorometric procedure in which the excitation wave length is 300 nm and the emission wave length is 360 nm. PM21 (202/426–2454)

Interested persons are invited to submit written comments on any petitions referred to in this notice to the Federal Register Section, Technical Services Division (WH–569) Office of Pesticide Programs, Room 401, East Tower, 401 M St. SW., Washington, DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and of others interested in inspecting them. Inquiries concerning specific petitions referred to in this notice may be directed to the designated Product Manager (PM), Registration Division (WH–567), Office of Pesticide Programs, at the above address, or by telephone at the numbers cited. Written comments should bear a notation indicating the number of the petition to which the comments pertain.

Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: September 30, 1976.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

[OPP–50260; FRL 627–5]

NOR-AM AGRICULTURAL PRODUCTS, INC. AND ELANCO PRODUCTS CO.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751, 7 U.S.C. 136(a) et seq.) experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 2139–EUP–23. Nor-Am Agricultural Products, Inc., Woodstock, Illinois 60098. This experimental use permit allows the use of 7.5 pounds of the plant regulator *N*-phenyl-*N'*-1,2,3-thiadiazol-5-ylurea to defoliate cotton. A total of 36 acres is involved; the program is authorized only in the States of California, Georgia, Mississippi, South Carolina, and Texas. The experimental use permit is effective from September 14, 1976, to September 14, 1977. This permit is being issued with the limitation that all treatd cottonseed will be used for seed purposes only.

No. 1471–EUP–59. Elanco Products Company, Indianapolis, Indiana 46206. This experimental use permit allows the use of 112.5 pounds of the herbicide oryzalin on transplant burley and dark tobacco to evaluate control of annual grasses and broadleaf weeds. A total of 150 acres is involved; the program is authorized only in the States of Kentucky, Maryland, Ohio, and Wisconsin. The experimental use permit is effective from September 10, 1976, to September 10, 1977.

Interested parties wishing to review the experimental use permits are referred to Room E–315, Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755–4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. These files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

PPG INDUSTRIES INC., AND ZOECON CORP.

Issuance of Experimental Use Permits

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), experimental use permits have been issued to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 748–EUP–14. PPG Industries, Inc., Pittsburgh, Pennsylvania 15222. This experimental use permit allows the use of 750 pounds of the fungicide sodium azide on chrysanthemums to evaluate control of Fusarium, Phizoctona, and Pythium. A total of 10 acres in involved; the program is authorized only in the State of Florida. The experimental use permit is effective from September 21, 1976, to September 21, 1977.

No. 20954–EUP–7. Zoecon Corporation, Palo Alto, California 94304. This experimental use permit allows the use of 36 pounds of the insecticide methoprene on stored tobacco to evaluate control of tobacco moth and cigarette beetle. Approximately 3,600 hogshead of stored tobacco will be treated; the program is authorized only in the States of California, Connecticut, Kentucky, North Carolina, Pennsylvania, South Carolina, Virginia, and Wisconsin. The experimental use permit is effective from September 21, 1976, to September 21, 1977.

Interested parties wishing to review the experimental use permits are referred to Room E–315, Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/775–4851 before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

PROPOSED AIRCRAFT NOISE ABATEMENT REGULATIONS

Submittal to FAA

Section 611(c)(1) of the Federal Aviation Act (the Act) of 1958, 49 U.S.C. 1431, as amended by section 7(b) of the Noise Control Act of 1972, 86 Stat. 1239, requires that the Administrator of the Environmental Protection Agency submit to the Federal Aviation Administration (FAA) proposed regulations to provide such control and abatement of aircraft noise and sonic boom including control and abatement through the exercise of any of the FAA's regulatory authority over air commerce or transportation or over aircraft or airport operations as EPA determines is necessary to protect the public health and welfare.

In compliance with the Act, the EPA submitted to the Administrator of the FAA on October 1, 1976, the proposed regulation on "Noise Levels for Turbojet Powered Airplanes and Large Propeller Driven Airplanes".

This proposed regulation has been submitted to the Federal Aviation Administration under the authority of 49 U.S.C. 1431.

ROGER STRELOW,
Assistant Administrator for
Air and Waste Management.

UNIROYAL CHEMICAL

Issuance of an Experimental Use Permit

Pursuant to section 5 of the Federal Insecticide, Fungicide, Rodenticide Act (FIFRA), as amended (86 Stat. 973; 89 Stat. 751; 7 U.S.C. 136(a) et seq.), an experimental use permit has been issued to the following applicant. Such permit is in accordance with, and subject to, the provisions of 40 CFR Part 172; Part 172 was published in the FEDERAL REGISTER on April 30, 1975 (40 FR 18780), and defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 400–EUP–53. Uniroyal Chemical, Bethany, Connecticut 06525. This experimental use permit allows the use of 15 pounds of the defoliant 2,3-Dihydro-5,6-dimethyl-1,4-dithiin 1,1,4,4-tetraoxide on cotton as a harvest aid. A total of 30 acres is involved; the program is authorized only in the States of Arkansas, California, Georgia, and Mississippi. The experimental use permit is effective from September 14, 1976 to September 14, 1977. This permit is issued with the limitation that all treated cottonseed be destroyed.

Interested parties wishing to review the experimental use permit are referred to Room E–315, Registration Division (WH–567), Office of Pesticide Programs, EPA, 401 M St., S.W., Washington, D.C. 20460. It is suggested that such interested persons call 202/755–4851 before visiting the EPA Headquarters Office, so that the appropriate permit may be made conveniently available for review purposes. This file will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

RECEIPT OF APPLICATION FOR PESTICIDE REGISTRATION

Data To Be Considered In Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (39 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended ["Interim Policy Statement"]. On January 22, 1976, EPA published in the FEDERAL REGISTER a document entitled "Registration of a Pesticide Product—Consideration of Data by the Administrator in Support of an Application" [41 FR 3339]. This document described the changes in the Agency's procedures for implementing Section 3(c)(1)(D) of FIFRA, as set out in the Interim Policy Statement, which were effectuated by the enactment of the recent amendments to FIFRA on November 28, 1975 [Pub. L. 94–140], and the new regulations governing the registration and re-registration of pesticides which became effective on August 4, 1975 [40 CFR Part 162].

Pursuant to the procedures set forth in these FEDERAL REGISTER documents, EPA hereby gives notice of the applications for pesticide registration listed below. In some cases these applications have recently been received; in other cases, applications have been amended by the submission of additional supporting data, the election of a new method of support, or the submission of a new "offer to pay" statements.

In the case of all applications, the labeling furnished by the applicant for the product will be available for inspection at the Environmental Protection Agency, Room 209, East Tower, 401 M Street, S.W., Washington DC 20460. In the case of applications subject to the new Section 3 regulations, and applications not subject to the new Section 3 regulations which utilize either the 2(a) or 2(b) method of support specified in the Interim Policy Statement, all data citations submitted or referenced by the applicant in support of the application will be made available for inspection at the above address. This information (proposed labeling and, where applicable, data citations) will also be supplied by mail, upon request. However, such a request should be made only when circumstances make it inconvenient for the inspection to be made at the Agency offices.

Any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after January 1, 1970, is being used to support an application described in this notice, (c) desires to assert a claim under Section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data or the status of such data under Section 10 must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Product Control Branch, Registration Division (WH–567), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., S.W., Washington, DC 20460. Every such claimant must include, at a minimum, the information listed in the Interim Policy Statement of November 19, 1973.

Specific questions concerning applications made to the Agency should be addressed to the designated Product Manager (PM), Registration Division (WH–567), Office of Pesticide Programs, at the above address, or by telephone as follows:

PM 11, 12, & 13—202/755–9315
PM 21 & 22—202/426–2454
PM 24—202/755–2196
PM 31—202/426–2635
PM 33—202/755–9041
PM 15, 16, & 17—202/426–9425
PM 23—202/755–1397
PM 25—202/755–7012
PM 32—202/426–9486
PM 34—202/426–9490

The Interim Policy Statement requires that claims for compensation be filed within 60 days of publication of this notice. With the exception of 2(c) applications not subject to the new Section 3 regulations, and for which a sixty-day hold period for claims is provided, EPA will not delay any registration pending the assertion of claims for compensation or the determination of reasonable compensation. Inquiries and assertions that data relied upon are subject to protection under Section 10 of FIFRA, as amended, should be made within 30 days subsequent to publication of this notice.

Dated: September 30, 1976.

JOHN B. RITCH, Jr.,
Director, Registration Division.

SCIENCE ADVISORY BOARD; ENVIRONMENTAL POLLUTANT MOVEMENT AND TRANSFORMATION ADVISORY COMMITTEE

Open Meeting

Pursuant to Pub. L. 92–463, notice is hereby given that a meeting of the Environmental Pollutant Movement and Transformation Advisory Committee of the Science Advisory Board will be held on October 28, 1976 at 2:00 p.m. to 4:30 p.m. at the Environmental Research Laboratory of the United States Environmental Protection Agency at Research Triangle Park, North Carolina. The address is located at the intersection of Highway N.C. 54 and T. W. Alexander Drive. The meeting is in conjunction with a visit of the Committee to laboratories studying problems in air chemistry, physics and meteorology.

The agenda includes status of upcoming Science Advisory Board activities with regard to lead, catalytic converters, and problems of sulfates research; future committee activities with regard to the evaluation of data from large scale atmospheric and oceanographic studies; and topics on ecological modeling strategies within the Office of Health and Ecological Effects related to future joint activities of the Ecology Advisory Committee and the Environmental Pollutant Movement and Transformation Advisory Committee; and items of Member interest.

The meeting is open to the public. Any member of the public wishing to attend or obtain information should contact Dr. Joel L. Fisher, Executive Secretary of the Environmental Pollutant Movement and Transformation Advisory Committee by close of business October 20, 1976 at (703)–557–7710.

THOMAS D. BATH,
Staff Director,
Science Advisory Board (A–101).

OCTOBER 1, 1976.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 76–897]

ESTABLISHING A BOARD OF COMMISSIONERS

Order

Adopted: September 28, 1976.

Released: October 6, 1976.

By the Commission: Commissioners Fogarty and White not participating.

1. To assure the continuity of Commission operations during pre-election period until November 3, 1976, and to enable the Commission to handle political broadcasting matters, in an expedited manner, we are hereby establishing a Board of Commissioners, to function during that period whenever a quorum of the Commission is not present and able to act.

2. Authority for this action is contained in section 5(d) of the Communications Act, 47 U.S.C. 155(d). Subject to the provisions of section 5(d), the Board shall have the authority of a Board established under § 0.212 of the Rules and Regulations, 47 CFR 0.212.

3. In view of the foregoing, it is hereby Ordered, effective September 29, 1976, that a Board of Commissioners composed of all Commissioners present and able to act, is established to function during the pre-election period in accordance with the provisions of this Order when a quorum of Commissioners is not present.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

FEDERAL MARITIME COMMISSION

[Independent ocean freight forwarder license No. 1030–R]

ADVANCE SHIPPING CO.

Order of Revocation

By letter dated September 1, 1976, Mr. Lorenzo Rodriguez, Advance Shipping Company, 7251 Clinton, Houston, TX 77020 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1030–R would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before October 1, 1976.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Advance Shipping Company has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(c) dated June 30, 1975;

It is ordered, that Independent Ocean Freight Forwarder License No. 1030–R issued to Advance Shipping Company be returned to the Commission for cancellation.

It is further ordered, that Independent Ocean Freight Forwarder License No. 1030–R be and is hereby revoked effective October 1, 1976.

It is further ordered, that a copy of this Order be published in the FEDERAL REGISTER and served upon Advance Shipping Company.

LEROY F. FULLER,
Director, Bureau of Certification & Licensing.

[FR Doc.76–29484 Filed 10–6–76;8:45 am]

[Independent ocean freight forwarder license No. 559]

P & R FORWARDING CO.

Revocation Notice

By certified letter dated December 5, 1973, Mrs. Angelea J. Ryan, P & R Forwarding Co., 127 Pollak Place, Hicksville, New York 11801, was notified that pursuant to Section 44(c), Shipping Act, 1916, and Section 510.9 of the Commission's General Order 4, License No. 559 issued to P & R Forwarding Co., would be automatically revoked January 3, 1974 unless a valid surety bond was filed with the Commission on or before that date.

P & R Forwarding Co. failed to file a surety bond with the Federal Maritime Commission and therefore, in accordance with said notice, revocation of License No. 559 became effective January 3, 1974. Through inadvertence, however, notice of such revocation of P & R Forwarding Co.'s License No. 559 was not published in the FEDERAL REGISTER pursuant to Section 510.9 of the Commission's General Order 4 (46 C.F.R. 510.9).

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(c) dated June 20, 1975, notice is hereby given that License No. 559, issued to P & R Forwarding Co., was revoked effective January 3, 1974 for failure to maintain a valid surety bond required under Section 44(c), Shipping Act, 1916.

LEROY F. FULLER,
Director, Bureau of Certification & Licensing.

[Docket No. RP72–110 (PGA76–6)]

ALGONQUIN GAS TRANSMISSION CO.

Rate Change Pursuant to Purchased Gas Cost Adjustment Provision

SEPTEMBER 30, 1976.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on September 27, 1976, tendered for filing Twenty-First Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

Algonquin Gas states that this sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. Al-

V 41 1976 OCT 7 76 UMI

gonquin Gas states that the rate change is being filed to reflect a change in purchased gas costs under revised tariff sheets proposed to be put into effect by Algonquin Gas' supplier, Texas Eastern Transmission Corporation (Texas Eastern), on October 27, 1976, pursuant to the Commission's Opinion No. 770 issued July 27, 1976.

The proposed effective date of Twenty-First Revised Sheet No. 10 is October 27, 1976, in order to coincide with the effective date of the change in Algonquin Gas' cost of purchased gas under Texas Eastern's underlying rates.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. AR61-2 etc.]

AREA RATE PROCEEDINGS ET AL.

Proposed Plan of Refund

SEPTEMBER 29, 1976.

Area Rate Proceedings, et al., (Southern Louisiana Area), Docket Nos. AR61-2 and AR69-1, et al.; United Gas Pipe Line Company, Docket Nos. G-9547, et al., RP61-18, RP63-1, RP65-1, RP70-13 and RP71-41.

Take notice that United Gas Pipe Line Company (United), on April 6, 1976, tendered for filing, in accordance with the Commission's Order Directing Disbursement and Flow Through of Refunds issued on August 19, 1975, its proposed plan of refund to flow through monies received from producers pursuant to Opinion No. 598.

United proposes to flow through to its jurisdictional customers the jurisdictional portion of producer refunds received totaling $1,323,291, including interest.

A copy of this filing has been served upon each interested State commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 22, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ER76-913]

BOSTON EDISON CO.

Termination of Rate Schedule

OCTOBER 1, 1976.

Take notice that on September 22, 1976, Boston Edison Company tendered for filing a Notice of Termination of its Rate Schedule FPC No. 109 with New England Power Company. The termination is proposed to be effective as of November 1, 1976, which Boston Edison states is the termination date established by the terms of the contract.

Boston Edison states that a copy of the notice has been sent to New England Power Company.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

CAROLINA POWER & LIGHT CO.

Certification of Settlement Agreement

OCTOBER 1, 1976.

Take notice that on September 20, 1976, Presiding Administrative Law Judge Samuel Kanell certified to the Commission a proposed settlement of the rate in the above-captioned docket.

Any person wishing to do so may file comments concerning the proposed settlement agreement. All such comments should be submitted in writing to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, on or before October 15, 1976. The Commission will consider all comments in determining the proper action to be taken.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP 72-142 (PGA76-8)]

CITIES SERVICE GAS CO.

Proposed Changes in Gas Tariff; Amendment

SEPTEMBER 30, 1976.

The "Notice of Proposed Changes In FPC Gas Tariff", issued September 23, 1976 in the above-referenced docket, is hereby supplemented so as to give public notice of the fact that the proposed changes filed herein by Cities Service Gas Company will result in an annual increase in jurisdictional revenues of $28,081,649, based on sales volumes for the twelve month period ended July 22, 1976. In light of this supplemental information, the time for filing of all petitions to intervene or protests will be extended from October 6, 1976 to October 15, 1976.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Acting Secretary.

[FR Doc.76-29491 Filed 10-6-76;8:45 am]

[Docket No. ER76-887]

DAYTON POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Tariff Sheets and Establishing Procedure

SEPTEMBER 30, 1976.

On September 1, 1976, Dayton Power and Light Company (Dayton) submitted for filing revised tariff sheets to its FPC Electric Tariff under which fourteen municipal customers are served. The proposed rate change would increase revenues by approximately $988,273 (12.41%) for the twelve-month period following the proposed effective date of October 1, 1976.

Dayton presently serves its tariff customers under settlement rates which were filed in Docket No. E-9216 and approved by Commission order issued August 30, 1976. The rate contains a two-step kVa demand charge and three-step energy charge. It is subject to a fuel adjustment clause, a tax adjustment clause, minimum monthly charge provisions, and a high voltage discount.

The new rate design is considerably simplified and contains a demand charge based on kW and a reactive demand charge. The number of demand blocks are reduced from two to one and the energy blocks from three to one. The proposed rates also contain a revised high voltage discount provision.

The company's case-in-chief is based on a test period consisting of the 12-months ended April 30, 1976. The proposed rates would increase revenues for this period by approximately $993,603 (12.3%) based on a comparison with the proposed settlement rates in Docket No. E-9216 which were certified to the Commission by the presiding Administrative Law Judge on January 23, 1976. The company's Statement N for this period indicates that the proposed rate increase will result in an earned rate of return of 9.93 percent.

Public notice of the filing was issued on September 10, 1976, with comments, protests or petitions to intervene due on or before September 30, 1976. Although this order is issued prior to expiration of the period for comment, protest or petition to intervene, any such comments, protests or petitions timely filed will be given due consideration.

The Commission's review of Dayton's proposed rate charges indicates that Dayton's proposed rate increases have not been shown to be just and reasonable and therefore may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. Accordingly, the proposed rate increase should be accepted for filing and suspended for one month.

The Commission finds. Dayton's proposed rate increase should be accepted for filing and suspended for one month.

The Commission orders. (A) Dayton's proposed rate increase is hereby accepted for filing and use thereof suspended for one month, or until November 2, 1976, at which time it may become effective, subject to refund, pending the outcome of the litigation thereon.

(B) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held concerning the justness and reasonableness of the rates, charges, terms, and conditions of service included in Dayton's FPC Electric Tariff MRS as proposed to be revised by the subject filings.

(C) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before April 1, 1977. (See Administrative Order No. 157).

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose. (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the rules of practice and procedure.

(E) Dayton shall file monthly with the Commission the report on billing determinants and revenues collected under the presently effective rates and the proposed increased rates filed herein, as required by § 35.19a of the Commission regulations, 18 CFR 35.19a.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER and shall serve a copy thereof on the wholesale customers of Dayton.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP71-15 (PGA76-5)]

EAST TENNESSEE NATURAL GAS CO.

Proposed PGA Rate Adjustment

SEPTEMBER 30, 1976.

Take notice that on September 27, 1976, East Tennessee Natural Gas Company (East Tennessee) tendered for filing Seventeenth Revised Sheet No. 4 to Sixth Revised Volume No. 1 of its FPC Gas Tariff to be effective on October 27, 1976.

East Tennessee states that the purpose of this revised tariff sheet is to adjust East Tennessee's rates pursuant to the PGA provision of section 22 of the general terms and conditions to reflect increased purchased gas costs resulting from a rate increase filed September 27, 1976, by its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) which is based solely on producer filings made pursuant to Opinion No. 770. The annualized amount of claimed purchased gas cost increases is $21,157,621 or 36.54 cents per Mcf.

East Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene: *Provided, however,* That any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. CS66-126, *et al.*]

FIRST NATIONAL BANK IN DALLAS, EXECUTOR OF THE ESTATE OF ROSS R. BICKEL

Notice of Applications for "Small Producer" Certificates [1]

SEPTEMBER 28, 1976.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before October 27, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein in the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

V41196 OCT 7 76 UMI

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ER76-585]

MISSOURI PUBLIC SERVICE CO.

Order Accepting in Part and Rejecting in Part Proposed Rate Changes

SEPTEMBER 30, 1976.

On March 30, 1976, Missouri Public Service Company (MPSC) tendered for filing revised rate schedules for service to seven wholesale municipal customers.[1] In its filing MPSC requested waiver of Section 35.13(b)(4)(iii) of the Commission's Regulations under the Federal Power Act, in order to permit the Company's use of Period I data ending 11 months prior to the March 30, 1976, filing date. By letter dated April 30, 1976, the Commission Secretary denied MPSC's waiver request and required MPSC to submit revised Period I data ending not more than seven months prior to the March 30, 1976, filing date, together with testimony and exhibits and other data required by the Commission's Regulations. In addition, the Secretary noted that preliminary review also revealed that certain of the Company's contracts incorporated specific rate review procedures, and therefore requested that MPSC show it had obtained all requisite agreement by the Cities of Odessa, El Dorado Springs, and Harrisonville for the proposed rate schedules, pursuant to Section 35.13(a) of the Regulations.

On August 2, 1976, MPSC tendered for filing the requested information including updated Period I data for a test year ended December 31, 1975. The filing also included an executed contract under the same rate schedule for an additional municipal customer not previously served.[2] The proposed revised rates would increase jurisdictional revenues by $203,908 (25%) annually. MPSC requests an effective date of October 1, 1976.

Public notice of MPSC's filings[3] were issued on April 5 and August 20, 1976, with comments, protests, or petitions to intervene due on or before April 26 and September 1, 1976, respectively. On May 3, 1976, the Board of Aldermen and the Mayor of Galt, Missouri, filed an "objection" and "informal protest" to the proposed rate increase.

In its original filing of March 30, 1976, MPSC noted that the filing was accompanied by newly executed contracts with the Cities of Liberal and Rich Hill. MPSC stated further that it expected to sign new contracts with El Dorado Springs[4] and Harrisonville within the next two weeks and that negotiations were still underway to obtain newly executed contracts with the Cities of Odessa, Galt and Gilman City. MPSC thereby requested that the proposed rates be permited to become effective to all current contracts or to new contracts that may have been finalized in the few weeks that followed. MPSC claimed that new contracts were not necessary to effectuate the proposed increased rates inasmuch as "all of our existing contracts with municipalities for wholesale power are subject to rates effectively approved (permitted to become effective) by the Federal Power Commission."

Our review indicates that all of the existing contracts provide for fixed rates over fixed terms, with no reservation of power to change unilaterally the existing rates. We find that all references to the rates being subject to "approval" of the Federal Power Commission do not establish rights to change unilaterally the rates but merely recognize our regulatory jurisdiction over such wholesale rate schedules. Pursuant to the *Mobile-Sierra* doctrine,[5] we must therefore re-

[1] Cities of El Dorado Springs, Galt, Gilman City, Harrisonville, Liberal, Odessa, and Rich Hill, Missouri.

[2] City of Pleasant Hill, Missouri.

[3] The assigned filing date of the instant docket is August 2, 1976, on which date the deficiencies in the March 30, 1976, filing were cured.

[4] On April 13, 1976, MPSC supplemented its filing by tendering a new contract executed by the City of El Dorado Springs.

[5] *United Gas Pipe Line Co. v. Mobile Gas Service Corp.*, 350 U.S. 332 (1956); *F.P.C. v. Sierra Pacific Power Co.*, 350 U.S. 348 (1956).

ject MPSC's filing as it applies to those customers[6] who have not executed new contracts consenting to the change in rates. As to those customers[7] who have executed new contracts and to the new customer, Pleasant Hill, we shall accept the proposed rate schedule for filing and permit them to become effective October 1, 1976. We note that all of the proposed contracts contain the following restrictive language:

Energy delivered hereunder shall be used by Customer solely for the purpose of resale to its customers. The Customer shall not sell or deliver the electricity purchased from the Company to any customer, company, or person to be used outside of Customer's city limits, without written consent of Company.

Accordingly, we shall direct MPSC to revise its rate schedules so as to remove this restrictive language.

The Commission finds: (1) Good cause exists to reject MPSC's filing with respect to the Cities of Galt, Gilman City, Harrisonville and Odessa.

(2) Good cause exists to accept for filing as designated in the attached Appendix, the proposed rate schedules for the Cities of Liberal, Rich Hill, El Dorado Springs and Pleasant Hill and to permit them to become effective October 1, 1976.

(3) Good cause exists to require MPSC to omit the resale restriction provisions discussed hereinabove.

The Commission orders: (A) With respect to the Cities of Galt, Gilman City, Harrisonville and Odessa, MPSC's filing is hereby rejected.

(B) With respect to the Cities of Liberal, Rich Hill, El Dorado Springs and Pleasant Hill, the proposed rate schedules are hereby accepted for filing as designated in the attached Appendix, to become effective October 1, 1976.

(C) Within 30 days of the issuance of this order, MPSC shall file revised rate schedule sheets omitting the resale restriction provisions discussed hereinabove.

(D) The Secretary shall cause the prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

MISSOURI PUBLIC SERVICE COMPANY

RATE SCHEDULE DESIGNATIONS AND DESCRIPTIONS DOCKET NO. ER76-585

Filed: August 2, 1976 (Date of Completion of Filing).
Dated: July 27, 1976 (completed filing).
Effective: October 1, 1976.

Designations	*Descriptions*
(1) FPC electric rate schedule No. 34 (Pleasant Hill).	Initial wholesale service agreement.
(2) Supplement No. 1 to electric rate schedule FPC No. 34 (municipalities - resale).	Initial rate schedule for the city of Pleasant Hill.
(3) FPC electric rate schedule No. 35 (Eldorado Springs — supersedes FPC Electric rate schedule No. 27).	Eldorado Springs signed new wholesale service agreement to replace fixed-rate contract.
(4) Supplement No. 1 to FPC electric rate schedule No. 35 (municipalities - resale).	Eldorado Springs new service agreement includes a rate increase over that of superseded contract.
(5) Supplement No. 5 to FPC electric rate schedule No. 30 (municipalities - resale — supersedes supplements Nos. 1, 3, and 4 to FPC electric rate schedule No. 30).	Wholesale rate increase for the city of Liberal.
(6) Supplement No. 5 to FPC electric rate schedule No. 32 (municipalities - resale—supersedes supplements No. 1, 3, and 4 to FPC electric rate schedule No. 32).	Wholesale rate increase for the city of Rich Hill.

[Docket No. RP72-149 (PGA 76-14, 76-15, 76-16)]

MISSISSIPPI RIVER TRANSMISSION CORP.

Tariff Change

OCTOBER 1, 1976.

Take notice that Mississippi River Transmission Corporation (MRT) on September 27, 1976, tendered for filing the following Revised Sheet Nos. 3A to its FPC Gas Tariff, First Revised Volume No. 1, to become effective on the dates indicated below:

Tariff Sheet No.	*Effective date*
Forty-Seventh Revised Sheet No. 3A	Oct. 9, 1976
Forty-Eighth Revised Sheet No. 3A	Oct. 27, 1976
Forty-Ninth Revised Sheet No. 3A	Nov. 1, 1976

MRT states that the instant filing is being made pursuant to the provisions of Mississippi's purchased gas cost adjustment clause to track the increased cost of gas associated with (1) a general rate increase application of United Gas Pipe Line Co. (United) at Docket No. RP76-84, proposed to become effective October 9, 1976, (2) increases in the cost of gas purchased from producers, United and Natural Gas Pipeline Co. of America associated with increases in the national rate as a result of Opinion No. 770, which are to become effective October 27, 1976, and (3) an increase in the cost of gas purchased from Trunkline Gas Company (Trunkline) which is also associated with increases resulting from Opinion No. 770, and which Trunkline has proposed to become effective November 1, 1976.

MRT states that it submitted schedules containing computations supporting such various rate changes. MRT states that copies of its filings were served on Mississippi's jurisdictional customers and the State Commissions of Arkansas, Illinois and Missouri.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP-74-96]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Proposed Settlement

SEPTEMBER 30, 1976.

Take notice that on September 22, 1976, Natural Gas Pipeline Company of America (Natural) filed with the Commission in the referenced docket a "Motion for Approval of Settlement Agreement" together with a "Settlement Agreement" which constitutes a proposal of settlement.

The Motion recites that the proposed settlement was prepared by Natural and circulated to the participants herein. The proposed settlement would dispose of all issues herein relating to advance payments made to Mesa Petroleum Co. and Mobil Oil Corporation.

Any person wishing to do so may submit written comments concerning the proposed settlement agreement. All such comments should be delivered or mailed to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 on or before October 29, 1976.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RP71-107 (PGA76-3)]

NORTHERN NATURAL GAS CO.

Amendment of Purchased Gas Cost Adjustment Rate Change

SEPTEMBER 30, 1976.

On September 23, 1976, the Acting Secretary issued notice of a purchased gas cost adjustment rate increase tendered by Northern Natural Gas Company (Northern) on August 27, 1976. That notice stated that the purchased gas cost adjustment rate increase would increase annual jurisdictional market area gas

[6] Cities of Galt, Gilman City, Harrisonville, and Odessa.

[7] Cities of Liberal, Rich Hill and El Dorado Springs.

V41 I196 OCT 7 76 UMI

sales revenues by approximately $4,270,215 for the last two months of 1976 and $142,634 for field area sales. Northern further states that total annual net increase in cost of purchased gas attributable to Opinion Nos. 770 and 742-A is $48,659,629 based on producers increases to be effective July 27, 1976 and October 1, 1976 (one cent escalation).

[Docket No. RP72-154 (PGA76-6)]

NORTHWEST PIPELINE CORP.

Change in Rates

OCTOBER 1, 1976.

Take notice that Northwest Pipeline Corporation, on September 27, 1976, tendered for filing a proposed change in rates applicable to service rendered under rate schedules affected by and subject to Article 16, Purchased Gas Cost Adjustment Provision ("PGAC"), contained in its FPC Gas Tariff, Original Volume No. 1. Such change in rates is for the purpose of tracking producer and leasehold production gas cost increases to the national base rate levels prescribed in the Commission's Opinion No. 770 and Order in Docket No. RM75-14 issued on July 27, 1976.

The current PGAC adjustment, for which notice is given herein, aggregates an increase of .802¢ per therm in all rate schedules affected by and subject to the PGAC. As shown in Enclosure No. 1, Schedule A, such current adjustment is comprised of an annualized increase in purchased gas costs and leasehold production costs of .630¢ per therm and a surcharge adjustment of .172¢ per therm representing producer increases and leasehold production cost increases for the period of July 27, 1976 through October 26, 1976, plus a nine percent (9%) carrying charge during the duration of the surcharge. The annualized amount of claimed purchased gas cost increases under Opinion No. 770 is $25,515,779. The proposed surcharge to recover unrecovered purchased gas costs attributable to Opinion No. 770 is $6,507,763. Carrying charges on the unrecovered purchased gas costs are $306,968. The total amount claimed is $32,330,510, of which $32,041,858 is applicable to jurisdictional sales and services.

Northwest is requesting that waiver be granted of Northwest's PGAC provisions and applicable Commission Regulations, as necessary, to permit recovery of the increased leasehold production gas costs from wells commenced on or after January 1, 1973, on leases acquired prior to October 7, 1969, as proposed herein, and to permit the acceptance and effectiveness of the proposed change in rates as of October 27, 1976, as specified in Opinion No. 770.

Northwest states that a copy of this filing is being served upon all parties of record in Docket No. RP72-154 and otherwise, upon all jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ER76-826]

PENNSYLVANIA POWER & LIGHT CO.

Order Accepting for Filing and Suspending Proposed Tariff Sheets, Granting Intervention and Establishing Procedure

SEPTEMBER 30, 1976.

On July 30, 1976, Pennsylvania Power & Light Company (PP&L) submitted for filing a proposed increase in rates for firm power service to its fifteen wholesale customers.[1] The proposed rates result in an estimated increase of $930,598 (9.1%) for the twelve-month period following the proposed effective date of October 1, 1976.

[1] See table below:

The Company's case-in-chief is based on a test period consisting of the 12 months ended December 31, 1975. The proposed rates would increase revenues for this period by approximately $964,890 (11.4%). The Company's Statement N for this period indicates that the proposed rate increase will result in an earned rate of return of 7.73% for customers served at transmission level and 8.64% for customers served at primary distribution.

Public notice of the filing was issued on August 12, 1976, with comments, protests or petitions to intervene due on or before September 10, 1976. Timely petitions to intervene were filed by the Boroughs of Ephrata, Quakerstown, Watsontown, Perkasie, Saint Clair, Hatfield, Catawissa, Lehighton, Weatherly and Schuylkill Haven and by Citizens Electric Company of Lewisburg, Pa. (Citizens' Electric).

Citizens' Electric states that the rates and charges proposed by PP&L are unjust and unreasonable, would subject petitioner and its customers to undue prejudice or disadvantage and therefore would be unlawful if permitted to become effective. Citizens' Electric therefore requests to intervene in this proceeding. In particular, Citizens' Electric contends that (1) PP&L's allocations methods and procedures are incorrect, (2) the Pennsylvania gross receipts tax is improperly allocated to transmission resale customers, including Citizens' Electric, and (3) a five month suspension is warranted to more fully protect Citizens' Electric's 3,900 residential customers where refund might be difficult.

Designations	Other party
Supp. No. 5 to rate schedule FPC No. 58 (supersedes supp. No. 2).	Borough of Ephrata.
Supp. No. 6 to rate schedule FPC No. 58 (supersedes supp. No. 4).	Do.
Supp. No. 5 to rate schedule FPC No. 59 (supersedes supp. No. 2).	Borough of Hatfield.
Supp. No. 6 to rate schedule FPC No. 59 (supersedes supp. No. 4).	Do.
Supp. No. 5 to rate schedule FPC No. 60 (supersedes supp. No. 2).	Borough of Quakertown.
Supp. No. 6 to rate schedule FPC No. 60 (supersedes supp. No. 4).	Do.
Supp. No. 5 to rate schedule FPC No. 61 (supersedes supp. No. 2).	Citizens Electric Co. of Lewisburg.
Supp. No. 6 to rate schedule FPC No. 61 (supersedes supp. No. 4).	Do.
Supp. No. 6 to rate schedule FPC No. 63 (supersedes supp. No. 3).	Borough of Lehighton.
Supp. No. 7 to rate schedule FPC No. 63 (supersedes supp. No. 5).	Do.
Supp. No. 2 to rate schedule FPC No. 65 (supersedes supp. No. 1).	Borough of Olyphant.
Supp. No. 3 to rate schedule FPC No. 65 (supersedes supp. No. 1 to supp. No. 1).	Do.

The Boroughs of Ephrata, Quakertown, Watsontown, Perksie, Saint Clair, Hatfield, Catawissa, Lehighton, Weatherly and Schuylkill Haven contend that (1) the proposed increase is anti-competitive, (2) PP&L's allocation methods and procedures are incorrect, (3) the Pennsylvania gross receipts tax applies only to sales outside borough limits and PP&L has charged gross receipts tax for sales within the city, (4) the fuel clause is improper in that it purports to establish a fuel cost of June 30, 1970, which is not the current fuel cost, and (5) if the fuel clause revenues are excluded, the proposed increase is 18% and not 11.4%, as represented by the Company.

The Commission's review of PP&L's proposed rate charges indicates that PP&L's proposed rate increases have not been shown to be just and reasonable and, therefore, they may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful. The proposed rate increase will produce only 1.75% of PP&L's total revenues, however each rate schedule subject to such increase represents the total electric requirements of the various wholesale customers. The relative impact of the rate schedule on the parties concerned, together with the arguments advanced have been given due consideration. Accordingly, the proposed rate increases should be accepted for filing and suspended for one month, or until November 2, 1976.

The Commission finds: (1) PP&L's proposed rate increases should be accepted for filing and suspended for one month.

(2) Good cause exists to allow Citizens' Electric and the Boroughs of Ephrata, Quakertown, Watsontown, Perkasie, Saint Clair, Hatfield, Catawissa, Lehighton, Weatherly and Schuylkill Haven (Boroughs) to intervene in this proceeding.

The Commission orders: (A) Supplement Nos. 9 and 10 to Rate Sohedule FPC No. 28, Supplement Nos. 9 and 10 to Rate Schedule FPC No. 32, Supplement Nos. 7 and 8 to Rate Schedule FPC No. 45, Supplement Nos. 7 and 8 to Rate Schedule FPC No. 50, Supplement Nos. 7 and 8 to Rate Schedule FPC No. 51, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 54, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 55, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 56, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 57, Supplement Nos. 5 & 6 to Rate Schedule FPC No. 58, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 59, Supplement Nos. 5 and 6 to Rate Schedule FPC No. 60, Supplement Nos. 5 & 6 to Rate Schedule FPC No. 61, Supplement Nos. 6 and 7 to Rate Schedule FPC No. 63 and Supplement Nos. 2 and 3 to Rate Schedule FPC No. 65 are hereby accepted for filing and use thereof suspended for one month, or until November 2, 1976, at which time they may become effective, subject to refund, pending the outcome of the litigation thereon.

(B) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held concerning the justness and reasonableness of the rates, charges, terms, and conditions of service included in PP&L's FPC Electric Tariff MRS as proposed to be revised by the subject filings.

(C) The Staff shall prepare and serve top sheets on all parties for settlement purposes on or before April 1, 1977. (See Administrative Order No. 157).

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a settlement conference in this proceeding on a date certain within 10 days after the service of top sheets by the Staff, in a hearing or conference room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the Rules of Practice and Procedure.

(E) PP&L shall file monthly with the Commission the report on billing determinants and revenues collected under the presently effective rates and the proposed increase rates filed herein, as required by Section 35.19a of the Commission Regulations, 18 CFR Section 35.19a.

(F) Citizens' Electric and the Boroughs are hereby permitted to intervene in this proceeding, *Provided, however*, that participation by them shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene; and *Provided, further*, that the admission of these parties shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(G) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER and shall serve a copy thereof on the wholesale customers of PP&L.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. CP76-533]

PEOPLES NATURAL GAS AND NORTHERN NATURAL GAS CO.

Application

SEPTEMBER 30, 1976.

Take notice that on September 22, 1976, Peoples Natural Gas Division of Northern Natural Gas Company (Applicant), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP76-533 an application pursuant to section 1(c) of the Natural Gas Act for an order declaring exempt from the provisions of the Natural Gas Act and the Regulations of the Commission pertaining thereto certain intrastate facilities of Applicant and natural gas transported in such facilities and distributed therefrom, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that Applicant owns, operates and maintains an extensive intrastate natural gas distribution system in Southeast Colorado which provides retail natural gas service to urban customers in several communities including Lamar, Springfield, Holly, Walsh, and Granada, and to rural customers in the countries of Prowers, Bent, Baca, and Kiowa. It is said that Applicant obtains the gas sold to its customers in Southeast Colorado from three supply sources: Colorado gas wells in the same area, which are owned and operated by others; Colorado Interstate Gas Company's (CIG) pipeline through delivery points located in Bent County and Baca County, Colorado; and a part of the Hugoton field in Western Kansas. Further, it is stated that the gas furnished by CIG is provided under an exchange agreement between CIG and Applicant, with Applicant delivering the exchange gas into CIG's system in Kearny County, Kansas.

V41 1976 OCT 7 76 UMI

The application shows that the Hugoton field will, at times during the year, flow into Applicant's Southeast Colorado gas distribution system through three segments of pipeline connecting that system with Applicant's gathering facilities in Western Kansas. Applicant asserts, however, that none of the gas from Applicant's Colorado supply sources does flow or can flow into Kansas because Applicant has installed equipment consisting of check values to prevent any such flows; thus, all gas received into Applicant's Southeast Colorado facilities is consumed in Colorado. A certificate from the Colorado Public Utilities Commission which is attached to the application shows that the facilities of Applicant and the rates charged for gas sold and services rendered by Applicant in connection with sales of gas are subject to the regulatory jurisdiction of the Colorado Public Utilities Commission and that the Colorado Commission is exercising such jurisdiction.

Accordingly, Applicant requests an order declaring exempt from the provisions of the Natural Gas Act the facilities, transportation, delivery, and sale of natural gas involved in the above-described operations of its Southeast Colorado facilities located within Prowers, Baca, Bent, and Kiowa Counties, Colorado.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 22, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. RI76-136]

PETROLEUM CORP. OF TEXAS

Order Granting Special Relief

Issued September 29, 1976.

On July 6, 1976, Petroleum Corporation of Texas (Petitioner) filed a petition for special relief pursuant to Section 2.76[1] of the Commission's General Policy and Interpretations for sales of gas to Northern Natural Gas Company (Northern) from the Thonhoff "A" and "C" units Meade County, Kansas. Petitioner is a small producer and was granted a small producer certificate in Docket No. CS70-37.

[1] 18 C.F.R. § 2.76.

Petitioner states that at the present contract rate of 18.00 cents per Mcf, the capital expenditures necessary to continue to obtain additional production from the subject wells would be uneconomical. Petitioner avers that an acidizing treatment and the installation of a compressor are needed in order to prevent abandonment of the Thornhoff units.

Petroleum Corporation seeks a rate of 67.00 cents per Mcf at 14.65 psia. By contract amendment dated May 14, 1976, Northern agrees that it will purchase the subject gas at the requested price level.

Notice of the petition was issued July 29, 1976. A timely petition to intervene in support of the petition for special relief was filed by Northern on August 19, 1976.

Staff has reviewed the cost data submitted by petitioner.[2] Based thereon Staff life of the well. After a careful review of the costs to be incurred and the reserves to be recovered, we conclude that it is in the public interest to grant Petroleum Corporation's petition.

The Commission finds: The petition for special relief filed by Petroleum Corporation meets the criteria set forth in Section 2.76 of the Commission's General Policy and Interpretations.

The Commission orders: (A) For the above-stated reasons, the petition for special relief of Petroleum Corporation is hereby granted. Petroleum Corporation is authorized to collect a total rate of 67.00 cents per Mcf at 14.65 psia for all gas produced from the subject wells effective on the date that the proposed compressor is installed and made operative and the remedial work is completed, or the date of issuance of this Commission order, whichever is later, subjective to the following conditions: (1) Petroleum Corporation must file, in Docket No. RI76-136, a statement signed by Northern, setting forth the date that the proposed work has been completed and 2) said statement is to be filed within 30 days of the date the equipment is made operative.

(B) Petroleum Corporation's May 14, 1976, contract amendment with Northern and the related rate increase filing are hereby accepted as Supplement Nos. 4 and 5, respectively, to Petroleum Corporation's FPC Gas Rate Schedule No. 44, effective as of the date of issuance of this order.

(C) Northern is permitted to intervene in this proceeding for relief subject to the Rules and Regulations of the Commission; *Provided, however,* that the participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in its petition for leave to intervene; and *Provided, further,* that the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in these proceedings, and that the intervenor agrees to accept the record as it now stands.

By the Commission.

[SEAL] LOIS D. CASHELL,
Acting Secretary.

[2] Staff's cost of service is attached hereto. has estimated that 187,309 Mcf of reserves remain to be produced over the

APPENDIX A.—*Petroleum Corp. of Texas, Docket No. RI76-136, Thonhoff A and C units, Meade County, Kans.*

CALCULATION OF UNIT COST OF GAS

Line No.	Description (a)	Volume (b)	Total cost (c)
1	Volumes (n.w.i.):		
2	Gas—1,000 ft³ at 14.65 lb/in²a	158,774	
3	Liquids—Barrels	0	
4	Average rate base:		
5	Average net investment		$20,350
6	Average working capital allowance		866
7	Average rate base		21,216
8	Cost of production:		
9	Return on rate base		$33,415
10	Production expense		72,716
11	D.D. & A. expense		39,452
12	Total cost of production		145,583
13	Unit cost of gas (cents):		
14	Cost of production (per 1,000 ft³)		91.69
15	Production tax		.09
16	Total cost of gas (per 1,000 ft³)		91.78

NOTE.—The above costs are based on representations of the applicant contained in his filing. The volumes are based on staff's recoverable reserves estimate of 187,309 Mcf[3] of gas and no liquids (at 14.65 lb/in²a). The production curve shown on sheet 3 is expected.

Line 1: Gross working interest is 84.765620 pct.
Line 5: From sheet 2, line 5.
Line 6: (Sheet 2, line 9×12.5 pct) divided by 10.5 yr production life.
Line 9: (Line 7×15 pct) times 10.5 yr production life.
Line 10: From sheet 2, line 9.
Line 11: From sheet 2, line 4, minus $4,384 expected salvage value.
Line 14: Line 12 divided by line 2.

SUMMARY OF APPLICANT'S FILED DATA

Line No.	Description (a)	Total cost (b)
1	Investment (Petroleum Corp.'s n.w.i.):

[FR Doc.76-29359 Filed 10-6-76;8:45 am]

[Docket No. E-7795, E-7989]

PHILADELPHIA ELECTRIC CO.

Order Denying Petition To Reopen Record and Setting Procedural Dates for Filing Briefs on Exceptions

SEPTEMBER 30, 1976.

On June 4, 1974, the Commission issued an order,[1] pursuant to court remand,[2] which instituted an investigation under Section 206(a) of the Federal Power Act, 16 U.S.C. 824e(a), concerning the question whether the fixed-rate contract[3] between Philadelphia Electric Company (PE) and the Borough of Lansdale, Pennsylvania, (Lansdale) was "so low as to adversely affect the public interest." "FPC v. Sierra Pacific Power Co.", 350 U.S. 348, 355 (1956). Said investigation resulted in the issuance of an initial decision by the Presiding Administrative Law Judge on June 28, 1976. The Presiding Judge found that the subject contract and the rates therein "are so low as to conflict with and adversely affect the public interest."[4] Based upon this conclusion, the Presiding Judge then "determine[d] the just and reasonable rate * * * to be thereafter observed and in force * * * fix[ing] the same by order." 16 U.S.C. 824e(a). The parties to this proceeding were permitted under the Commission's regulations to file exceptions to this initial decision on or before July 28, 1976. It is expected that substantive objections to any initial decision be voiced through the exceptions procedure.

However, on July 7, 1976, Lansdale petitioned the Commission to reopen the instant investigation, inter alia, for the receipt of evidence and further hearings on "the Conway issue."[5] In support of its petition, Lansdale complains that it "has not been afforded a reasonable opportunity to initiate discovery and/or to make a comprehensive and complete 'price squeeze' presentation." Petition, pg. 3. Lansdale further requested by concurrent motion that the procedural dates for filing exceptions to the initial decision be deferred pending the Commission's disposition of its petition to reopen.[6] On July 21, 1976, PE answered Lansdale's petition, contending that the recent decision by the Supreme Court in "FPC v. Conway Corp.", —— U.S. ——, (June 7, 1976), does not represent a change in the law such as is required under the Commission's regulations, 18 CFR 1.33(d), to support the reopening of the record in a proceeding.[7] PE, moreover, contends that the instant record contains ample material of an evidentiary nature to support the conclusions of the Presiding Judge. Answer, pg. 2-3. Lansdale filed a reply to PE's answer on July 26, 1976, which reasserts the validity of its grounds for requesting a reopening of this record.[8]

I. A brief review of the initial decision is necessary and critical to an understanding of Lansdale's petition. The Presiding Judge was charged with the investigation of the PE-Lansdale fixed rate contract to determine whether the public interest requires an abrogation of such contract and the rates incorporated therein. The Presiding Judge starts from the premise that:

> In a business affected with a public interest, such as Philadelphia's [footnote omitted] it would seem self evident that any contract rate so low as not to cover the utility's out-of-pocket cost of service is in conflict with that interest. (Initial Decision, pg. 28)

After analyzing the evidence and concluding that "Philadelphia sales to Lansdale under existing rates do not meet Philadelphia's out-of-pocket costs," Initial Decision, pg. 27, the Presiding Judge proceeded to detail the financial position of PE, ultimately concluding that "Philadelphia's financial status is not such that the Lansdale out-of-pocket loss operation can be countenanced as consistent with the public interest." Initial Decision, pg. 31; See also, Id. at 35.

The Presiding Judge also found that "[t]he Lansdale rate is unduly discriminatory and preferential * * * as appears from the most superficial comparison of the average rate paid by Lansdale with that paid by similar sized direct retail (HT) industrial customers." Initial Decision, pg. 37. The Presiding Judge found support for the propriety of a comparison between jurisdictional wholesale rates and direct industrial

[3] Philadelphia Electric Co. FPC Rate Schedule No. 41, dated November 12, 1971. This contract is effective for an initial term of five years. By its own terms this fixed-rate contract will expire on July 26, 1977, if requisite notice is tendered.

[4] "Initial Decision In Section 206(a) Proceeding To Determine Whether Or Not Rate Schedule Contained In Agreement Is In The Public Interest," Philadelphia Elec. Co., Docket Nos. E-7795 and E-7989, June 28, 1976, mimeo, pg. 46. (Initial Decision).

[5] "Petition To Reopen Record and Motion For Stay of Procedural Dates Pending Commission Disposition * * *" Philadelphia Elec. Co., Docket Nos. E-7795 and E-7989, July 7, 1976. (Petition)

[6] See n. 5, *supra*. The procedural dates for filing exceptions were deferred by notice of the Commission's Secretary, issued July 28, 1976, pending Commission action on Lansdale's petition. On August 27, 1976, PE filed a petition for rehearing or reconsideration of the deferral of procedural dates. Our disposition herein effectively moots PE's petition of August 27, 1976, and it is, therefore, dismissed.

[7] "Answer of Philadelphia Electric Company to Lansdale Petition To Reopen Record And Motion For Stay Of Procedural Dates Pending Commission Disposition," Philadelphia Elec. Co., Docket Nos. E-7795 and E-7989, July 21, 1976 (Answer).

V41 I196 OCT 7 76 UMI

rates for purposes of proving a discriminatory effect in the recent Conway decision by the Supreme Court. FPC v. Conway Corp., —— U.S. —— (1976), 44 U.S.L.W. 4777 (Decided June 7, 1976). Apparently, upon evidence showing an unduly discriminatory rate differential between that rate charged Lansdale and those charged similarly-situated companies, the Presiding Judge found further support for the necessity to abrogate the subject fixed-rate contract in the interest of the public.

II. We are not at this time called upon to rule on the merits of the Presiding Judge's analysis or the sufficiency of the evidentiary record for purposes of Lansdale's instant petition and we do not do so. Lansdale argues that the record in this proceeding must be reopened because the Presiding Judge "based his conclusion" in this section 206(a) investigation on the Conway decision. Petition, pg. 2. Lansdale contends that there is no evidence in this record to support the Presiding Judge's reliance on the so-called Conway principle. Our reading of the initial decision does not indicate that the Presiding Judge based his conclusion on the Conway decision; rather, it appears that Conway was merely relied upon to support the propriety of a particular evidentiary comparison. To the extent that Lansdale argues that the Presiding Judge's legal conclusion is not supported by the evidentiary record, it is proper under the Commission's regulations, 18 C.F.R. 1.31, that this substantive objection be presented to the Commission via the exceptions procedure.

Our regulations require that petitions seeking to reopen proceedings "shall set forth clearly the facts claimed to constitute grounds requiring reopening * * *, including material changes of fact or of law alleged to have occurred since the conclusion of the hearing." 18 CFR 1.33(a). Lansdale presents no material change of fact which would compel further receipt of evidence in this proceeding. As far as the evidentiary record discloses, the opportunity was available at hearing in this case for any party to submit material and relevant evidence on the issue of discrimination. If certain evidentiary submittals were erroneously excluded by the Presiding Judge, the opportunity is available on exceptions to object to the initial decision on this ground. Lansdale does not contend that a material change of fact has occurred with respect to evidence introduced into, incorporated within, and, presumably, considered by the Presiding Judge as part of the evidentiary record. Consequently, Lansdale's petition proffers insufficient reasons to indicate that the public interest would be served by a reopening of this record for further receipt of evidence.

Furthermore, the Supreme Court's decision in Conway, supra, cannot be considered a material change in the law which might support further evidentiary presentations. Conway held that:

> The Commission must arrive at a rate level deemed by it to be just and reasonable, but in doing so it must consider the *tendered allegations* that the proposed rates are discriminatory and anticompetitive in effect. (Conway, Slip Op. at 7, emphasis supplied)

It appears that Lansdale alleges in its instant petition for the first time that "the new rate adopted by [the Presiding Judge] under cost of service principles creates a price squeeze against Lansdale vis-a-vis the Company's large industrial HT rate." Petition, pg. 3. At hearing Lansdale was bound to anticipate that PE might sustain its burden on the threshold Sierra question and that the Presiding Judge would be obligated to "determine the just and reasonable rate * * * to be thereafter observed and in force." 16 U.S.C. 824e(a). Both PE and Commission staff presented evidence related to a "just and reasonable" rate for service to Lansdale. The opportunity was available for Lansdale to test such evidence and introduce rebuttal evidence tending to support a different "just and reasonable" remedial rate from the recommended by the other parties. If Lansdale failed to offer evidence of PE's industrial rates at hearing, it cannot now cure this defect through reopening this proceeding for the receipt of further evidence. On the other hand, if an offer of proof by Lansdale was erroneously ruled in admissible by the Presiding Judge—and, hence, not considered by the Judge in determining the appropriate remedial rate—Lansdale may except to the decision in this regard. The Conway case, in our view, does not undermine the validity of Commission decisions supported by evidentiary records where all parties were provided a full and complete opportunity to introduce all material evidence. Lansdale, insofar as we are able to determine at this time, has not preserved a right to introduce further evidence of PE's industrial rates because such opportunity was denied during hearing by the Presiding Judge or the Commission. It cannot now complain, therefore, that the Presiding Judge failed to consider evidence which was not at least offered during the hearing. In any event, the latter argument would run to the merits of the initial decision, and accordingly would properly be presented through the exceptions procedure.

III. We conclude that Lansdale's instant petition does not present good cause to reopen this proceeding for further hearing or receipt of evidence. Accordingly, it is necessary to establish new procedural dates for excepting to the initial decision in this proceeding. Briefs on exceptions to the Initial Decision shall be filed with the Commission on or before October 15, 1976, and shall conform in all respects to the Commission's regulations. Briefs opposing exceptions shall be filed on or before November 4, 1976. PE has argued that any delay in the resolution of this proceeding is prejudicial to its interest because it is in the nature of any section 206(a) proceeding that a remedy is prospective only. Answer, pg. 3–4. The lengthy record in this proceeding and the repeated delays which are evinced on the face of the record is of concern to this Commission. Therefore, no further delay in the expeditious resolution of this proceeding will be tolerated. All parties are expected to proceed in accordance with the procedural schedule set forth herein.

The Commission finds. The Borough of Lansdale, Pennsylvania, has failed to demonstrate material changes of fact or law sufficient to warrant a reopening of this proceeding for further hearings or receipt of evidence.

The Commission orders. (A) The Petition to Reopen Record, filed by the Borough of Lansdale, Pennsylvania, is denied.

(B) Briefs on exceptions, if any, to the Initial Decision in this proceeding shall be filed on or before October 15, 1976, with the Commission's Secretary and in conformance with the Commission's applicable regulations.

(C) Briefs opposing exceptions, if any, to the Initial Decision in this proceeding shall be filed on or before November 4, 1976, with the Commission's Secretary and in conformance with the Commission's applicable regulations.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29512 Filed 10-6-76;8:45 am]

[Docket No. ER76-221]

POTOMAC EDISON CO.

Order on Petitions for Rehearing

SEPTEMBER 30, 1976.

By order issued June 1, 1976, the Commission held that the Town of Williamsport, Maryland's contract with Potomac Edison Company (Edison) is a fixed rate contract and established an investigation pursuant to section 206 of the Federal Power Act to determine the appropriate rate to be applied prospectively. The June 1, 1976, order also found that Edison's contracts with the Cities of Hagerstown and Thurmont, Maryland, and Mont Alto, Pennsylvania, permitted the proposed rate increase to become effective as to those customers under section 205 of the Act. In addition, Edison's proposed increase was permitted to become effective for service over 15,000 kw to the Borough of Chambersburg, Pennsylvania.

On July 1, 1976, petitions for rehearing were filed by Edison and by Chambersburg, Mont Alto, Hagerstown and Thurmont. For the reasons stated below, the Commission will grant Edison's petition for rehearing and will grant in part and deny in part the petition for rehearing filed by Cities.

In its petition for rehearing, Edison states that the Electric Service Agreement between Edison and Williamsport dated July 1, 1964, contains language which permits unilateral rate increase

filings.[2] Edison relies upon the holding in Memphis[3] for the authority that the seller (Edison) had expressly reserved its right to make a unilateral change in the contract. Moreover, Edison adds that the Commission's determination with respect to Williamsport is inconsistent with Commission interpretation of similar language in other contracts as not requiring Commission action prior to placing rates into effect.[4]

Edison's point is well taken. The existing service agrement between Edison and Williamsport filed August 9, 1965, the pertinent language of which appears in footnote[1] *supra*, permits unilateral rate filings by the Company. Williamsport relies upon its refusal to sign a proposed contract amendment in 1972, which it alleges would have removed the fixed rate feature of its 1964 contract, as probative evidence of the intent of the parties not to construe the existing 1964 contract provision regarding regulatory change as permitting a unilateral rate increase.[5] For that reason, Cities urge that the Williamsport agreement with Edison has the status of a Mobile-Sierra contract. Edison's reason for proposing the 1972 revision to the Williamsport contract, however, is not the proper focus of attention. We find no ambiguity in the contract. Edison's reason for proposing examine the conduct of the parties. Even assuming, *arguendo*, that we were permitted to look to the conduct of the parties in construing their agreement, Edison's tender of the contract amendment in 1972 is not *prima facie* evidence that the Company under the existing agreement could not file unilaterally to increase its rates. Accordingly, we shall grant Edison's request on rehearing and modify the June 1, 1976, order herein to accept for filing and permit the rate increase to become effective as to Williamsport, subject to refund, as of April 14, 1976.

The Cities seek rehearing of that portion of the June 1, 1976, order which permits Edison's rate increase to Chambersburg to take effect subject to refund for deliveries over 15,000 kw. Cities argue that the Commission's determination is based upon misleading statements of Edison in its petition for rehearing of the March 12, 1976, order. Specifically, Cities disavow Edison's interpretation of a resolution adopted by the town council of Chambersburg on May 10, 1972,[6] which suggests that Chambersburg intended to abandon its Mobile-Sierra rights. Chambersburg states the resolution was adopted only for the purpose of permitting Edison to reflect the increase in rates it was seeking to become effective June 1, 1972, without undergoing a proceeding pursuant to section 206 of the Federal Power Act. Moreover, Cities object to Edison's "attempt to bootstrap itself based on the City's internal resolution * * *". Finally, Cities point to Edison's amendment providing for additional capacity which was prepared and executed but not filed with the Commission. Cities question Edison's execution of that amendment if acceptance by Chambersburg of a new regulatory change provision was an essential condition for the provision of additional power. Chambersburg provided consideration, they argue, by voluntarily not contesting the higher rates to avoid a Section 206 proceeding and by paying the higher rates. Cities contend that Edison may not now disavow the executed agreement providing for additional power up to 25,000 kw, notwithstanding the fact that the amendment is not on file with the Commission.[8]

The resolution of Chambersburg's town council limits the scope of Chambersburg's agreement to the particular rate increase Edison was seeking in May of 1972. Chambersburg could submit to a specific rate increase without thereby abrogating its protection from subsequent unilateral rate filings by Edison or amending the terms of its contract with Edison. However, irrespective of the resolution of the Chambersburg town council, Edison and Chambersburg executed an agreement to increase the capacity limit of the service rendered by Edison to Chambersburg from 15,000 kw to 25,000 kw. That amendment provided that Edison would make available to Chambersburg the additional 10,000 kw for which Chambersburg would of course pay Edison. There is no reason to look beyond the agreement for additional, implied consideration. The amendment effectuated simply an increase in the ceiling capacity to which Chambersburg would be entitled. The remainder of the contract has remained in effect and unaffected by the change in volume. The fixed-rate[7] nature of the contract governs the entire capacity to Chambersburg up to 25,000 kw.[9] Edison's failure to file the executed agreement for the additional power is not relevant to the binding contractual effect of the agreement between the parties.[9] The fixed-rate contract[10] between Edison and Chambersburg prevents the proposed rate increase from becoming effective as to any of the capacity taken by Chambersburg up to 25,000 kw. Accordingly, Cities' request for rehearing of the June 1, 1976, order will be granted in that respect.

The Cities' second basis for rehearing is that the service to Hagerstown, Thurmont, Chambersburg (over 15,000 kw), and Mont Alto should be afforded the same treatment as the service to customers with fixed-rate contracts. Cities argue that the Supreme Court's decision in the Conway[11] proceeding supports the elimination of the alleged discrimination which those customers experience as the result of the difference between their contractual arrangements with Edison vis-a-vis Chambersburg, Williamsport and Front Royal. Cities contend it would be discriminatory to permit Edison to increase its rates to certain members of its municipal wholesale customers' class when other members of the same class have long term, fixed-rate contracts. Section 205(b) of the Federal Power Act prohibits such discrimination, Cities argue, as was described in the *Otter Tail*[12] case. Because all the contract terms among Edison's wholesale customers were executed at approximately the same time and because Edison has treated all of the municipals in the same class, it would be a violation of section 205(b), Cities argue, for the Commission to permit Edison to charge some members of the class a higher rate at an earlier date than others.

The discrimination which Cities allege to exist among the members of the mu-

---

[1] Fourth:—That the Customer agrees to receive, and use the electric energy of the Company, for its own general use and for resale at the hereinbefore mentioned location, and to pay for the same under terms and conditions similar to those set forth in the Company's Rate Schedule "WS–LV", a copy of which is attached to and made a part of this Agreement, or any other rate that is applicable to the Customer's electric load, and such revisions and reissues thereof that the Company may file with the Commission having jurisdiction over public service corporations, or which the said commission may from time to time publish or approve; anything herein to the contrary notwithstanding. [Emphasis added]

[2] United Gas Pipe Line Co. v. Memphis Light, Gas and Water Division, 358 U.S. 103 (1958).

[3] See Order on Rehearing issued May 7, 1976, in Illinois Power Company, Docket No. E–9520; Order Denying Rehearing issued June 25, 1976.

[4] See Cities' petition for rehearing filed on April 12, 1976.

[5] "Now, be it *resolved*, That Borough does hereby indicate its willingness to execute the amendments to its Electric Service Agreements with Edison to reflect the increase in rates proposed to become effective June 1, 1972 and does hereby authorize the proper officers of the Borough to execute such agreements upon approval of the increase in rates by the Federal Power Commission, and does further indicate that it will not interpose any objection to such increases before the Federal Power Commission; and

"Be it further *resolved*, that Borough does hereby agree to amend its present Electric Service Agreements so as to increase the amount of electric current which Borough may purchase from Edison to 25 MVA and does hereby authorize its officers to join with Edison in obtaining the approval of the Federal Power Commission to such electric current, and to execute amendments to the Electric Service Agreements accordingly."

[6] Borough of Lansdale v. FPC, 494 F. 2d 1104 (D.C. Cir. 1975).

[7] The phrase "fixed-rate contract" used herein means one which permits applications pursuant to section 206 of the Federal Power Act to set the just and reasonable rate prospectively, without the need to meet the Sierra test, which requires as a prerequisite to any change in rate a showing that the utility's existing rates are so low as to affect adversely the public interest.

[8] Gulf States Utilities Company, 518 F. 2d 450, (D.C. Cir. 1975).

[9] Borough of Lansdale, supra.

[10] Paragraph 9 of the agreement states as follows:

"9. *Regulatory Jurisdiction.* This agreement is subject to the jurisdiction of any governmental authority or authorities having the jurisdiction in the premises and may be changed from time to time upon duly authorized order entered by said authority or authorities."

[11] F.P.C. v. Conway Corp., — U.S. —, 44 U.S.L.W. 4777 (1976).

[12] Otter Tail Power Company, 2 F.P.C. 134 (1940).

V41196 OCT 7 76 UMI

nicipal wholesale customer class is simply a rate difference which arises from the fact that certain municipalities (Hagerstown, Thurmont and Mont Alto) executed amendments to their contracts to permit unilateral filings by Edison, thereby relinquishing their former status under the Mobile-Sierra doctrine. It cannot be concluded from these facts alone that such differences constitute undue discrimination. Therefore, Cities' petition for rehearing will be denied in this regard.

The Commission finds. (1) Good cause exists to grant Edison's petition for rehearing of the June 1, 1976, order in this proceeding.

(2) Good cause exists to grant in part and to deny in part Cities' petition for rehearing of the June 1, 1976, order in this proceeding.

The Commission orders. (A) Edison's petition for rehearing of the Commission's order of June 1, 1976, is hereby granted. Accordingly, the June 1, 1976, order is modified to recognize the legality of Edison's filing of the proposed rate increase pursuant to Section 205 of the Act. The rate increase filed by Edison as to Williamsport is accpted for filing and made effective as prescribed by the Commission's order of March 12, 1976.

(B) Cities' petition for rehearing of the Commission's order of June 1, 1976, is hereby granted in part. The June 1 order is modified to recognize that a fixed-rate contract exists between Edison and Chambersburg as to the latter's entire capacity requirement to 25,000 kw. Accordingly, a section 206 investigation is hereby initiated to determine the just and reasonable rate for prospective application to Chambersburg for service to 25,000 kw, irrespective of the 15,000 kw limitation. Moreover, within thirty days of the date of issuance of this order, Edison shall refund to Chambersburg any revenues collected heretofore for service between 15,000 kw and 25,000 kw above the amount which Edison is entitled to collect under the existing service agreement, with interest at 9 percent per annum.

(C) In all other respects, Cities' petition for rehearing is denied.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[Docket No. ID-1634]

ROBERT J. HURSTAK

Amendment to Application

SEPTEMBER 30, 1976.

On August 30, 1976, Robert J. Hurstak filed an application pursuant to section 305(b) of the Federal Power Act seeking authorization to hold interlocking positions on the boards of Orange and Rockland Utilities, Inc., Rockland Electric Company and Pike County Light and Power Company. Notice of this application was issued on September 7, 1976, indicating that responses or protests were due on or before September 28, 1976.

On September 9, 1976, Applicant filed a letter amending its application to include the information that Applicant presently serves as Director of Clove Development Corporation, a wholly-owned subsidiary of Orange and Rockland. Clove Development is neither a public utility, bank, trust company, banking association or firm authorized by law to underwrite or participate in the marketing of securities, nor is it a supplier of electrical equipment.

Response or protest to Mr. Hurstak's amended application is extended as follows:

Any person desiring to be heard or to make any protest with reference to said application should on or before October 21, 1976, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[Docket Nos. RP74-6, RP72-74]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

SEPTEMBER 30, 1976.

Take notice that Southern Natural Gas Company (Southern), on August 23, 1976, tendered for filing substitute revised sheets to its FPC Gas Tariff, Sixth Revised Volume No. 1.

Southern states that the substitute tariff sheets reflect a minor shift in its Index of Requirement between Priority-of-Service Categories for two customers with no resulting net change in total requirements.

The proposed effective date of the enclosed tariff sheets is September 1, 1976.

Copies of the filing were served upon the company's jurisdictional customers, interested state commissions, and the parties of record in Docket Nos. RP74-6 and RP72-74.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E. Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before October 21, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29492 Filed 10-6-76;8:45 am]

[Docket No. RP72-98 (PGA76-8)]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Changes in Gas Tariff

SEPTEMBER 30, 1976.

Take notice that Texas Eastern Transmission Corporation on September 27, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

Twenty-third Revised Sheet No. 14.
Twenty-third Revised Sheet No. 14A.
Twenty-third Revised Sheet No. 14B.
Twenty-third Revised Sheet No. 14C.
Twenty-third Revised Sheet No. 14D.

These sheets are being issued pursuant to Ordering Paragraph (D) of the Commission's Opinion No. 770 issued July 27, 1976 in Docket No. RM75-14 and Order Modifying Opinion No. 770 increases in Texas Eastern's cost of purchased gas from producer and pipeline suppliers including a special surcharge designed to recover over the twelve-month period, October 27, 1976—October 26, 1977, the cost associated with Opinion No. 770 increases from producers prior to October 27, 1976 with carrying charges at nine percent. The proposed effective date of the above tariff sheets is Octoebr 27, 1976. The annual increase in jurisdictional revenues under the revised PGA adjustment amounts to approximately $236 million and the surcharge increase amounts to approximately $40 million.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 14, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29494 Filed 10-6-76;8:45 am]

[Docket Nos. RP72-156, etc. (PGA76-3b)]

TEXAS GAS TRANSMISSION CORP.

PGA Filing

SEPTEMBER 30, 1976.

Take notice that on September 20, 1976, Texas Gas Transmission Corporation (Texas Gas) tendered for filing Substitute Fifteenth Revised Sheet No. 7 to Texas Gas' FPC Gas Tariff, Third Revised Volume No. 1. Texas Gas states that Substitute Revised Sheet No. 7 as filed on September 20, 1976 reflects the level of rates prescribed for small producers in Opinion No. 742-A.

Texas Gas requests that Substitute Fifteenth Revised Sheet No. 7 be permitted to become effective on August 1, 1976. South Texas states that copies of its filing have been served upon Texas Gas' jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 15, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Acting Secretary.

[FR Doc.76-29499 Filed 10-6-76;8:45 am]

[Docket No. RP75-75 (AP No. 76-11)]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Order Accepting Filing Subject to Refund

SEPTEMBER 30, 1976.

On August 13, 1976, Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing certain revised tariff sheets[1] containing an increase in rates reflecting increases in the level of advance payments[2] made by Transco to producers of natural gas. The proposed effective date is October 1, 1976. The filing is made pursuant to the terms of the settlement agreement approved by the Commission in Docket No. RP75-75. Because the advances may not be reasonable and appropriate, procedures will be established to undertake their review. In accordance with the terms of the settlement agreement the increase will be accepted for filing and the rates made effective without suspension but subject to refund.

Transco filed a 0.5¢ per Mcf rate increase, amounting to $3,338,286 annually. Transco's proposed increase reflects an increase of $24,246,586 in the advance payments amount over the level imbedded in Transco's rates which became effective September 1, 1976, subject to refund. This entire amount reflects additional advances less repayments received under agreements reflected in the presently effective rates. During July 1976 Transco had additions of $24,751,182, less repayments of $504,596, for an outstanding account balance as of July 31, 1976, of $312,128,120.

Public notice of Transco's filing was issued September 1, 1976, with protests and petitions to intervene due on or before September 13, 1976.

Based on its review of the proposed advance payments, the Commission believes that the advances may not be reasonable and appropriate for rate base treatment, in that they may be in excess of the costs for exploration, development and production incurred by the producer within a reasonable time as required by Order Nos. 465 and 499. In addition, the advance payment agreements may not comply with Order Nos. 529 and 529-A, as well as Order Nos. 410, 410-A, 441, 465 and 499. Accordingly, the Commission shall accept the sheets to become effective October 1, 1976, subject to refund, and shall establish hearing procedures to determine their lawfulness.

The Commission finds. (1) Transco's rate increase, filed August 13, 1976, has not been shown to be just and reasonable, in that the advance payments upon which it is based have not been shown to be reasonable and appropriate.

(2) The Commission should convene a hearing concerning the lawfulness of the advances contained in the instant filing.

The Commission orders. (A) Transco's filing is accepted for filing to become effective October 1, 1976, subject to refund.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, a public hearing shall be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 to determine the lawfulness of Transco's proposed rate increase attributable to additional advance payments.

(C) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall convene a prehearing conference in this proceeding on October 14, 1976, at 9:30 a.m. Said Presiding Administrative Law Judge is hereby authorized to establish all procedural dates and to rule upon all motions (with the exceptions of petitions to intervene, motions to consolidate and sever, and motions to dismiss), as provided for in the rules of practice and procedure.

(D) Nothing contained herein shall be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29494 Filed 10-6-76;8:45 am]

[Docket No. CP76-530]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Application

SEPTEMBER 30, 1976.

Take notice that on September 20, 1976, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP76-530 an application pursuant to section 7(c) of the Natural Gas Act and § 2.79 of the Commission's General Policy and Interpretations (18 CFR 2.79) for a certificate of public convenience and necessity authorizing the transportation of natural gas for Philip Morris Incorporated (Philip Morris), an existing industrial customer of Commonwealth Natural Gas Corporation (Commonwealth), one of Applicant's resale customers served under rate schedule CD-2, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to transport on an interruptible basis for a two-year period up to 1,320 Mcf of gas per day that Philip Morris has purchased from Tribal Oil Corporation and six other sellers to be produced from the North Starks Field, Calcasieu Parish, Louisiana. The gas would be delivered to a mutually agreeable point on Applicant's main line system in Calcasieu Parish and Applicant would redeliver the gas to the existing points of delivery to Commonwealth for the account of Philip Morris, it is said.

Applicant proposes to charge 22 cents per Mcf of gas at 14.7 psia for the transportation service, and would retain 3.8 percent of the volumes transported as make-up for compressor fuel and line loss.

Applicant asserts that since the volumes to be transported under this and any similar transportation arrangements with customers of the distributors, when added to any volumes being transported for the distributors themselves and the distribution customers' scheduled daily deliveries, would not exceed the contract entitlement of the distributors from Applicant, there exists sufficient pipeline capacity to perform the service on a peak day, average day and an annual basis. Further, it is said that the proposed transportation service would have no impact on Applicant's ability to provide system-wide deliveries for Priority 1 markets.

[1] Thirtieth Revised Sheet No. 5 and Twenty-Fifth Revised Sheet No. 6 to First Revised Volume No. 1 and Second Alternate Twenty-Third Revised Sheet No. 52, Second Alternate Eleventh Revised Sheet No. 121, Second Alternate Nineteenth Revised Sheet No. 321, Second Alternate Fifteenth Revised Sheet No. 416 and Second Alternate Fourteenth Revised Sheet No. 495 to Original Volume No. 2.

[2] 18 C.F.R., Chapter 1, Part 201, Acc't 166.

V41 1976 OCT 7 76 UMI

Applicant maintains that the subject natural gas supply was not secured as part of Applicant's system gas supply because of the producers' unwillingness to sell such gas for resale in interstate commerce.

The application indicates that the gas to be transported would be used for Priority 2 process in Philip Morris' Blended Leaf Plant located in Richmond, Virginia, and that no alternate fuel can be used for that process.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 19, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

LOIS D. CASHELL,
Acting Secretary.

[FR Doc.76-29498 Filed 10-6-76;8:45 am]

[Docket No. ES76-66]

UTAH POWER & LIGHT CO.

Order Authorizing the Issuance of Short-Term Promissory Notes

SEPTEMBER 30, 1976.

Utah Power & Light Company (Applicant) on August 20, 1976, filed an Application with the Commission seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance and sale of promissory notes to commercial banks and dealers in commercial paper during the period October 1, 1976, through September 30, 1977, in an amount aggregating not more than $125,000,000.

Applicant is incorporated under the laws of State of Utah, with its principal business office at Salt Lake City, Utah, and is qualified to do business as a foreign corporation in the states of Colorado, Idaho, New Mexico and Wyoming. Applicant is engaged principally in the business of generating and selling electric energy in southeastern Idaho, Utah and southwestern Wyoming.

The net proceeds from the issuance and sale of the promissory notes will be applied to the construction program of Applicant.

Notes issued to commercial banks will be payable not more than nine months after the day thereof or September 30, 1977, whichever shall be earlier, and may be paid in whole or in part at any time prior to maturity. Notes maturing prior to September 30, 1977, will be renewable at the option of the Applicant. Each note will bear interest from the date thereof until paid at the rate per annum which shall be the prime commercial rate in effect from time to time for unsecured loans at the bank to which the note is issued. The rate of interest of each note shall change on the date of each change in the prime commercial rate at the bank to which the note is issued.

The Applicant also proposes, during the period October 1, 1976 through September 30, 1977, to issue and sell an aggregate principal amount of commercial paper which, in combination with the above-described bank borrowings; will not exceed $125 million at any one time outstanding and in such amounts that the principal amount of commercial paper outstanding at any time does not exceed 25 percent of the total revenues of the Company during the twelve calendar months preceding the date of issue thereof. Such commercial papers will be sold by the Applicant directly to A. G. Becker & Company, Incorporated, a dealer in commercial paper, in denominations of not less than $100,000. The commercial paper will have varying maturities of not exceeding 270 days and will not be repayable prior to maturity. No commission will be payable in connection with the issuance and sale of the commercial paper. However, the commercial paper Dealer will offer and sell the commercial paper at a discount rate of ⅛ of 1 percent per annum less than the prevailing discount rate to the Company.

Written notice of the application has been given to the Wyoming Public Service Commission, the Utah Public Service Commission, the Idaho Public Utilities Commission and to the Governor of each of those States. Notice was also given by publication in the FEDERAL REGISTER, stating that any person with reference to said application should on or before September 21, 1976, file petitions or protests with the Federal Power Commission, Washington, D.C. 20426. No petition, protest or request to be heard in opposition to the granting of the application has been received.

The Commission finds. (1) The Applicant, a corporation, is a public utility within the meaning of Section 204 of the Federal Power Act, subject to the jurisdiction of the Commission.

(2) The proposed issuance and sale of not to exceed $125 million of short term promissory notes, as described above, will constitute an issuance of securities within the purview of section 204 of the Federal Power Act.

(3) Applicant is not organized and operating in a State under the laws of which the security issue here involved is regulated by a State Commission within the meaning of section 204(f) of the Act; and the proposed issuance of securities is, therefore, not exempt by virtue of that Section from the requirements of section 204 of the Act.

(4) The proposed issuance of short-term promissory notes not exceeding $125 million aggregate principal amount, all as described, will be in excess of 5 percent of the par value of the other securities of the Applicant now outstanding, and therefore, will not be exempt by virtue of section 204(e) from the requirements of 204(a).

(5) The proposed issuance of promissory notes will be exempt from the competitive bidding requirements of § 34.1a of the Commission's regulations under the Federal Power Act by reason of § 34.1a(2) thereof.

(6) The proposed issuance of securities, as hereinafter authorized, will be for a lawful object within the corporate purposes of the Applicant and compatible with the public interest, which is appropriate for and consistent with the proper performance of service by Applicant as a public utility, and which will not impair its ability to perform that service, and is reasonably necessary and appropriate for such purposes.

(7) The period of public notice given in this matter is reasonable.

The Commission orders. (A) The proposed issuance and sale of short-term promissory notes to commercial banks and dealers in commercial paper during the period October 1, 1976, through September 30, 1977, in an amount aggregating not more than $125 million outstanding at any one time, upon the terms and conditions and for the purposes set forth in the application, all as described above, is hereby authorized, subject to the provisions of this order.

(B) This authorization is expressly conditioned upon all promissory notes maturing not later than September 30, 1977.

(C) This authorization is expressly conditioned upon the aggregate principal amount of short-term promissory notes outstanding at any one time not exceeding $125 million.

(D) The foregoing authorization is without prejudice to the authority of this Commission or any other regulatory body with respect to rates, service, accounts, valuation, estimates or determinations of cost or any other matter whatsoever now pending or which may come before his Commission.

(E) Nothing in this order shall be construed to imply any guarantee or obligation on the part of the United States in respect to any security to which this order relates.

By the Commission.

LOUIS D. CASHELL,
Acting Secretary.

[Docket No. RP72-41 (PGA76-2)]

WESTERN TRANSMISSION CORP.

Proposed Changes in Gas Tariff

OCTOBER 1, 1976.

Take notice that Western Transmission Corporation (Western) on September 27, 1976, tendered for filing as part of its FPC Gas Tariff, Original Volume No. 1, the following sheet:

Second Revised Sheet No. 3A, superseding First Revised Sheet No. 3A.

This sheet is issued pursuant to Western's Purchased Gas Cost Adjustment provision as set forth in section 18 of its FPC Gas Tariff, Original Volume No. 1 and FPC Opinion No. 770. This change in Western's rates reflects a Cost of Gas Adjustment to track increased purchased gas costs and appropriate estimated surcharge (including a 9 percent carrying charge) due to FPC Opinion No. 770.

The proposed effective date of the above tariff sheet is October 27, 1976.

Copies of the filing were served upon the company's sole jurisdictional customer, Colorado Interstate Gas Company.

The proposed purchased gas cost adjustment provides for increased annual jurisdictional revenues of approximately $1.7 million and the surcharge provides for revenues of approximately $312,000.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before October 14, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

LOIS D. CASHELL,
Acting Secretary.

FEDERAL TRADE COMMISSION

ENERGY EFFICIENCY LABELING RULES

Opportunity To Provide Comments Concerning the Range of Comparability for Certain Appliances

Correction

In FR Doc. 76-28388 appearing in the FEDERAL REGISTER of Thursday, September 30, 1976 on page 43250, the following corrections should be made:

1. On page 43251 the table should read as follows:

(1) *Refrigerators:*

Manufacturer's rated total refrigerated volume in cubic feet	*Ranges of comparability of total refrigerated volume in cubic feet*
Less than 2.5	3.5 and less.
2.5 to 3.4	1.5 to 4.5.
3.5 to 4.4	2.5 to 5.5.
4.5 to 5.4	3.5 to 6.5.
5.5 to 6.4	4.5 to 7.5.
6.5 to 7.4	5.5 to 8.5.
7.5 to 8.4	6.5 to 9.5.
8.5 to 9.4	7.5 to 10.5.
9.5 to 10.4	8.5 to 11.5.
10.5 to 11.4	9.5 to 12.5.
11.5 to 12.4	10.5 to 13.5.
12.5 to 13.4	11.5 to 14.5.
13.5 to 14.4	12.5 to 15.5.
14.5 to 15.4	13.5 to 16.5.
15.5 to 16.4	14.5 to 17.5.
16.5 and over	15.5 and over.

SOURCE: Department of Commerce, Voluntary Energy Conservation Specification for Refrigerators, 40 FEDERAL REGISTER 32426, August 1, 1975.

2. On page 43252, the table in the 3rd column should be corrected to read as follows:

(7) *Room air conditioners:*

Manufacturer's rated cooling capacity of model to be labeled Btu per hour	*Comparability range of cooling capacity for use on label Btu per hour*
Up to 4,799	Up to 5,100.
4,800 to 5,299	4,500 to 5,600.
5,300 to 5,799	5,000 to 6,100.
5,800 to 6,299	5,800 to 6,600.
6,300 to 6,799	6,000 to 7,100.
6,800 to 7,299	6,500 to 7,600.
7,300 to 7,799	7,000 to 8,100.
7,800 to 8,299	7,500 to 8,600.
8,300 to 8,799	8,000 to 9,100.
8,800 to 9,299	8,500 to 9,600.
9,300 to 9,799	9,000 to 10,100.
9,800 to 10,299	9,500 to 10,600.
10,300 to 10,799	10,000 to 11,100.
10,800 to 11,299	10,500 to 11,600.
11,300 to 11,799	11,000 to 12,100.
11,800 to 12,299	11,500 to 12,600.
12,300 to 12,799	12,000 to 13,100.
12,800 to 13,299	12,500 to 13,600.
13,300 to 13,799	13,000 to 14,100.
13,800 to 14,299	13,500 to 14,600.
14,300 to 14,799	14,000 to 15,100.
14,800 to 15,299	14,500 to 15,600.
15,300 to 15,799	15,000 to 16,100.
15,800 to 16,499	15,500 to 16,800.
16,500 to 17,499	16,200 to 17,800.
17,500 to 18,499	17,200 to 18,800.
18,500 to 19,499	18,200 to 19,800.
19,500 to 20,499	19,200 to 20,800.
20,500 to 21,499	20,200 to 21,800.
21,500 to 22,499	21,200 to 22,800.
22,500 to 24,499	22,000 to 25,000.
24,500 to 26,499	24,000 to 27,000.
26,500 to 28,499	26,000 to 29,000.
28,500 to 30,499	28,000 to 31,000.
30,500 to 33,499	30,000 to 34,000.
33,500 to 36,000	32,500 to 36,000.

STOCKPILE GOAL ACTION 77-1

Pursuant to Section 2(a) of Public Law 520 (79th Congress), Reorganization Plan No. 1 of 1958, as amended, Executive Ordcr 11051, Executive Order 11725, and GSA Delegation of Authority Manual, ADM P 5450.39A dated November 5, 1974, I have this date determined the following stockpile goals:

Materials and units:	*Quantities*
Aluminum oxide, fused crude—ST	147, 615
Aluminum oxide, abrasive grain—ST	75, 000
Antimony—ST	20, 130
Asbestos, amosite—ST	26, 291
Asbestos, chrysotile—ST	0
Bauxite, metal Jamaica—TH LDT	523
Bauxite, metal Surinam—TH LDT	0
Alumina—TH ST	11, 532
Aluminum—TH ST	0
Bauxite, refractory—TH LCT	2, 083
Beryl ore—ST—11-percent BEO concentrates	0
Beryllium copper master alloy—ST	16, 710
Beryllium metal—ST	895
Bismuth—TH LBS	771
Cadmium—TH LBS	24, 701
Castor oil, sebacic, acid—TH LBS	0
Chromite, chemical—TH ST	734
Chromite, metallurgical, ORE—TH ST gross weight	2, 550
Chromium, ferro, high carbon—TH ST	236
Chromium, ferro, low carbon—TH ST	124
Chromium, ferro, silicon—TH ST	69
Chromium, metal—TH ST	10
Chromite, refractory—TH ST gross weight	642
Cobalt—TH LBS contained	85, 415
Columbium concentrates, contained CB—TH LBS	3, 131
Columbium carbide powder, contained CB—TH LBS	0
Columbium, ferro, contained CB—TH LBS	0
Columbium, metal, contained CB—TH LBS	0
Copper—TH ST	1, 299
Cordage fibers, abaca—MIL LBS	24
Cordage fibers, sisal—MIL LBS	114
Diamond dies, small—number	0
Diamond, industrial bort—TH KT	14, 974
Diamond, industrial stone—TH KT	5, 559
Feathers and down—TH LBS	6, 494
Fluorspar, acid grade—TH ST	1, 594
Fluorspar, metallurgical—TH ST	1, 914
Graphite, natural, Ceylon—ST	6, 271
Graphite, natural, Malagasy—ST	20, 472
Graphite, other—ST	34, 748
Iodine—TH LBS	3, 333
Jewel bearings—TH of units	224, 623
Lead—TH ST	865
Manganese, battery natural—ST	12, 736
Manganese, battery, synthetic dioxide—ST	19, 105
Manganese ore, chemical—SH tons	247, 136
Manganese ore, metallurgical—TH ST	2, 052
Manganese, ferro, high carbon—TH ST	439

V 41 1976 OCT 7 76 UMI

Materials and units:	Quantities
Manganese, ferro, low carbon—TH ST	0
Manganese, ferro, medium carbon—TH ST	99
Manganese, ferro silicon—TH ST	81
Manganese metal, electrolytic—TH ST	15
Mercury—76 LBS/flask	54,004
Mica, muscovite block—TH LBS	6,188
Mica, muscovite film, 1 and 2 quality—TH LBS	90
Mica, muscovite splittings—TH LBS	12,631
Mica, phlogopite block—LBS	206,064
Mica, phlogopite splittings—TH LBS	932
Molybdenum disulphide—TH LBS contained molybdenum	0
Molybdenum ferro—TH LBS contained molybdenum	0
Nickel—ST contained	204,335
Opium, gum—LBS	0
Opium, salt—LBS	75,000
Platinum group, iridium—TR OZ	97,761

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

COMMITTEE ON ADOLESCENCE AND COMMITTEE ON LEGISLATION

Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the Committee on Adolescence and the Committee on Legislation of the National Advisory Council on the Education of Disadvantaged Children will meet on Friday, October 29, 1976. The Committee on Adolescence will hold a Seminar from 9:30 a.m.-4:00 p.m. at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C. 20004; and, the Committee on Legislation will me from 10:00 a.m. to 4:00 p.m. in New York City at the LaGuardia Airport, UIP Room, Allegheny Airlines.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to adverse the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of disadvantaged children.

The purpose of the Seminar of the Committee on Adolescence is to hear from various representatives of organizations and agencies involved in issues relating to serving the disadvantaged population.

The Committee on Legislation is meeting to review the preliminary draft of legislative issues and to further develop issues to be used in their section of the 1977 Annual Report.

Because of limited space, all persons wishing to attend should call for reservations by October 22, 1976, Area Code 202/382-6945.

Records shall be kept of all Committee proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 Thirteenth Street, N.W., Suite 1012, Washington, D.C.

Signed at Washington, D.C. on October 1, 1976.

ROBERTA LOVENHEIM,
Executive Director.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR MEMORY AND COGNITIVE PROCESSES

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Memory and Cognitive Processes.
Date & time: October 27 and 28, 1976, 9:00 a.m. each day.
Place: Rm. 421, National Science Foundation, 1800 G St. NW., Washington, D.C.
Type of meeting: Part Open—Open—9 a.m. to 12 noon on Oct. 27, Closed—Balance of the meeting.
Contact person: Dr. Joseph L. Young, Program Director for Memory and Cognitive Processes, Rm 320, National Science Foundation, Washington, D.C. 20550, telephone (202) 634-1583.
Summary Minutes (Open Portion): May be obtained from the Committee Management Coordination Staff, Division of Personnel and Management, Rm. 248 National Science Foundation, Washington, D.C. 20550.
Purpose of panel: To provide advice and recommendations concerning support for research in Memory and Cognitive Processes.
Agenda: October 27, 9 a.m.-12 noon—Open. General discussion of the current status and future plans of the Memory and Cognitive Processes Program. October 27—12 noon-5 p.m. and October 28—9 a.m.-5 p.m.—Closed.

The panel will be reviewing and evaluating research proposals and projects as part of the selection process for awards.

Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee Management Officer pursuant to provisions of Section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determination by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

OCTOBER 4, 1976.

ADVISORY PANEL FOR SOCIAL AND DEVELOPMENTAL PSYCHOLOGY

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Panel for Social and Developmental Psychology.
Date and time: October 25 and 26, 1976; 9:00 am-5:00 pm each day.
Place: National Science Foundation, 1800 G Street N.W., Washington, D.C., Room 511.
Type of meeting: Closed.
Contact person: Dr. Allen I. Teger, Program Director for Social and Developmental Psychology, Room 320, National Science Foundation, Washington, D.C., Telephone: (202) 632-5714.
Purpose of panel: To provide advice and recommendations concerning support for research in social and developmental psychology.
Agenda: To review and evaluate research proposals and projects as part of the selection process for awards.
Reason for closing: The proposals and projects being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals and projects. These matters are within exemptions (4) and (6) of 5 U.S.C. 552(b), Freedom of Information Act. The rendering of advice by the panel is considered to be a part of the Foundation's deliberative process and is thus subject to exemption (5) of the Act.
Authority to close meeting: This determination was made by the Committee pursuant to provisions of section 10(d) of P.L. 92-463. The Committee Management Officer was delegated the authority to make determinations by the Director, NSF, on February 11, 1976.

M. REBECCA WINKLER,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-471]

BOSTON EDISON CO., ET AL., (PILGRIM NUCLEAR GENERATING STATION, UNIT NO. 2)

Order Regarding Evidentiary Hearing

It is ordered, That: The evidentiary hearing will resume to consider MWF contentions on October 18, 1976, at 1 p.m. at the Blue Room, Memorial Hall, 83 Court Street, Plymouth, Massachusetts, and will continue at that location through October 20, 1976; the place of hearing will be at the Middlesex County Bar Association Meeting Room, Middlesex County Superior Courthouse, 40 Thorndike Street, East Cambridge Massachusetts, on October 21 and 22, 1976.

Dated at Bethesda, Md., this 30th day of September 1976.

THE ATOMIC SAFETY AND LICENSING BOARD,
FREDERIC J. COUFAL,
Chairman.

[FR Doc.76-29549 Filed 10-6-76;8:45 am]

[Docket No. PRM-50-16A]

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Filing of Petition for Rule Making

Notice is hereby given that Edward J. Morris, Esq., and William G. Cohen, Esq., by letter dated September 8, 1976, have filed with the Nuclear Regulatory Commission a petition for rule making on behalf of the Pennsylvania Public Utility Commission, Room 118, North Office Building, Harrisburg, Pennsylvania, requesting amendment of the Commission's regulations "Licensing of Production and Utilization Facilities," 10 CFR Part 50 and "Physical Protection of Plants and Materials," 10 CFR Part 73.

The petitioner requests the Commission to amend 10 CFR Part 50 by adding the following at the end of § 50.34(c), *Physical security plan.:*

At multi-unit stations, each application to construct a production or utilization facility shall include a physical security plan for portions of the facility under construction from which access to an operating facility can be gained. The physical security plan for such facilities under construction shall consist of the same Parts I and II as the physical security plans for operational units.

The petitioner also requests the Commission to amend 10 CFR Part 73 by adding the following at the end of § 73.40, *Physical protection: General requirements at fixed sites.:*

At multi-unit stations, each production or utilization facility under construction shall provide physical protection against industrial sabotage and against theft of special nuclear material, if applicable, for those portions of the facility contiguous to an operational facility or from which access to an operational facility can be gained.

The petitioner also requests the Commission to issue a regulation under which the Commission would exercise discretion to conduct investigations of labor disputes which threaten security.

The petitioner states that the requested amendments would apply to production and utilization facilities under construction at multiple unit nuclear power plant sites, where a unit under construction is adjacent to, or shares common facilities with, an operational unit. The petitioner states that at various sites around the nation, nuclear reactors are being constructed so as to share fuel-handling and storage areas with nuclear power plants already in operation; access to the operational plants may be gained more readily via the shared area than would otherwise be the case; and the proposed amendments would require physical security for the plants under construction to the same degree as for the plants under operation.

The petitioner states that the requested rule pertaining to investigations of labor disputes which threaten security would set forth the policy that in any labor dispute which threatens or tends to threaten the security of an operational nuclear power plant the Commission could in its discretion convene an investigation for the purpose of enabling it better to exercise its authority. The petitioner states also that at such an investigation the Commission would be authorized to take testimony under oath or affirmation and to require the attendance of persons and the production of documents; the investigation would not interfere with the jurisdiction of the National Labor Relations Board.

A copy of the petition for rulemaking is available for public inspection in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555.

A copy of the petition may be obtained by writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch, by December 6, 1976.

Dated at Washington, D.C., this 1st day of October 1976.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
Secretary of the Commission.

[FR Doc.76-29551 Filed 10-6-76;8:45 am]

[Docket Nos. STN 50-546, STN 50-547]

PUBLIC SERVICE COMPANY OF INDIANA, INC., (MARBLE HILL NUCLEAR GENERATING STATION, UNITS 1 AND 2)

Order Relative to a Second Prehearing Conference

The Board stated at the prehearing conference in January 1976 that other prehearing conferences would be scheduled prior to the evidentiary hearing. It now appears appropriate to the Board to have a prehearing conference to consider consolidation of parties, to plan for future scheduling and to resolve other matters the parties may bring to the attention of the Board.

A prehearing conference will be held in the auditorium of the Madison-Jefferson Public Library, 420 West Main Street, Madison, Indiana commencing at 9:30 a.m. (local time) on October 21, 1976. Since all matters may not conclude in one day, the parties should make themselves available for the 21st and 22nd.

The public is invited to attend. No limited appearance statements will be accepted at this segment of the proceeding but will be called for at the evidentiary hearing to be scheduled at a later date.

Dated at Bethesda, Md., this 30th day of September 1976.

It is so ordered.

For the Atomic Safety and Licensing Board.

ELIZABETH S. BOWERS,
Chairman.

[FR Doc.76-29553 Filed 10-6-76;8:45 am]

SECURITY AGENCY STUDY

Availability of the Report

In furtherance of the provisions of section 204(b)(2)(C) of the Energy Reorganization Act of 1974 (Pub. L. 93-438), notice is hereby given that the Security Agency Study Report (NUREG-0015) to the Congress, prepared by the U.S. Nuclear Regulatory Commission's Office of Nuclear Material Safety and Safeguards, is available for inspection in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. 20555, and the NRC's five Regional Offices. The Regional Offices' addresses are as follows: U.S. Nuclear Regulatory Commission, Office of Inspection and Enforcement, Region I, 631 Park Avenue, King of Prussia, Pennsylvania 19406; U.S. Nuclear Regulatory Commission, Office of Inspection and Enforcement, Region II, 230 Peachtree Street, NW., Suite 818, Atlanta, Georgia 30303; U.S. Nuclear Regulatory Commission, Office of Inspection and Enforcement, Region III, 799 Roosevelt Road, Glen Ellyn, Illinois 60137; U.S. Nuclear Regulatory Commission, Office of Inspection and Enforcement, Region IV, 611 Ryan Plaza Drive, Suite 1000, Arlington, Texas 76012; and U.S. Nuclear Regulatory Commission, Office of Inspection and Enforcement, Region V, Suite 202, 1990 N. California Boulevard, Walnut Creek, California 94596.

The Energy Reorganization Act of 1974 (the Act), established within the United States Nuclear Regulatory Commission an Office of Nuclear Material Safety and Safeguards. Section 204(b)(2)(C) of the Act directed the Director of the Office of Nuclear Material Safety and Safeguards to assess the need for

V 41 1 196 0 OCT 7 76 UMI

and the feasibility of establishing a security agency within that office for the performance of safeguards functions. This requirement had its genesis in several earlier studies and in subsequent Congressional hearings in which substantive questions about the adequacy of safeguards were raised, and in which it was suggested that the seriousness of the situation might dictate direct federal involvements in security forces. The Security Agency Study Report presents the results of the Assessment of the need for and feasibility of establishing a security agency within the Office of Nuclear Material Safety and Safeguards which the Congress mandated.

The Security Agency Study concluded that there is no need at this time to create a federal security agency within NRC to protect commercial nuclear facilities from sabotage and nuclear materials from theft or diversion. Furthermore, the Study concludes that creation of a special security force within NRC would not result in a higher degree of guard force effectiveness that can be achieved through the use of private guards who have been properly trained and certified. The Study identifies means by which guard forces could be upgraded through imposition of new requirements under current authority and identifies actions for which new legislative authority might be required.

The projected nuclear industry covered by the Security Agency Study consists of privately and publicly owned facilities, most of which are involved in the production and use of nuclear materials as fuel for electric generating plants. It also includes related transportation activities.

More than 300 persons contributed to the Congressionally-mandated Study. In additon to a survey of available literature, the Study group used special consultants and contractors to prepare reports on various aspects of the safeguards problem. Additional information was supplied by other Federal Agencies. Unclassified portions of the contractors' reports are publicly available at the NRC's Public Document Room at 1717 H Street, N.W., Washington, D.C. 20555.

A limited number of copies of the Executive Summary are presently available and can be obtained by writing to the U.S. Nuclear Regulatory Commission, Division of Document Control, Washington, D.C. 20555. When this limited supply is exhausted, copies may be purchased from the National Technical Information Service, Springfield, Virginia 22161.

Dated at Bethesda, Md., this 29th of September 1976

For the U.S. Nuclear Regulatory Commission.

KENNETH R. CHAPMAN,
Director, Office of Nuclear Material Safety and Safeguards.

[Docket Nos. STN-50-483, STN 50-486]

UNION ELECTRIC CO. (CALLAWAY PLANT, UNITS 1 AND 2)

Order Regarding Oral Argument

SEPTEMBER 30, 1976.

This Board will convene to hear oral argument at 9:00 a.m. on Wednesday, October 13, 1976, on Joint Intervenors' motion to suspend the Callaway construction permit and for other relief. The argument will be held in the Board Room (room 208), City Hall, 12th and Market Streets, St. Louis, Missouri.

Each party will be allowed one hour for argument, which will be heard in the following order: Applicant; Staff; Joint Intervenors. The Applicant and Staff may reserve a portion of their time for rebuttal.

In addition to points the respective parties deem significant, counsel are to be prepared to discuss the relevance for this case of the decision rendered today by another Appeal Board in Public Service Co. of New Hampshire (Seabrook Station, Units 1 and 2), ALAB-349, Docket Nos. 50-443 and 50-444.

It is so ordered.

For the Atomic Safety and Licensing Appeal Board.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.76-29552 Filed 10-6-76;8:45 am]

[Docket No. 50-271]

VERMONT YANKEE NUCLEAR POWER CORP., (VERMONT YANKEE NUCLEAR POWER STATION)

Order Convening Prehearing Conference

The Atomic Safety and Licensing Board has inquired of the parties active in this proceeding for their availability for a prehearing conference respecting the matters specified by the Nuclear Regulatory Commission in its Memorandum and Order (Order) dated August 16, 1976 in this proceeding. That Order referred to the Commission's General Statement of Policy on the environmental effects of the uranium fuel cycle. The precise issue to be considered as specified by the Commission is whether the full term license previously issued to the Vermont Yankee Nuclear Power Corporation "* * * should be continued, modified, or suspended until an interim fuel cycle rule has been made effective."

The Regulatory Staff of the Commission and the Intervenor New England Coalition on Nuclear Pollution have indicated their availability for a prehearing conference on October 14, 1976 in Brattleboro, Vermont. The Licensing Board assumes that the Licensee will be available in order to promptly consider the issue prescribed by the Commission.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Nuclear Regulatory Commission, particularly 10 CFR 2.752 thereof, that a prehearing conference shall convene at 9:00 a.m., (e.d.t.) on Thursday, October 14, 1976 in the Courtroom (which is room number 200) of the United States District Court Courthouse, 205 Main Street, Brattleboro, Vermont.

Issued: September 29, 1976, Bethesda, Maryland.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

[FR Doc.76-29554 Filed 10-6-76;8:45 am]

[Dockets 50-346A, 50-500A, 50-501A 50-440A and 50-441A.]

TOLEDO EDISON CO. AND CLEVELAND ELECTRIC ILLUMINATING CO. ET AL. (DAVIS-BESSE NUCLEAR POWER STATION, UNITS 1, 2 AND 3) (PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2)

Order

OCTOBER 5, 1976.

This Special Board has now received the brief of the City of Cleveland in opposition to the motion filed on August 26, 1976 by Squire, Sanders & Dempsey moving the Special Board to dismiss the disqualification proceedings pending in this matter.[1] Answers to the SS&D dismissal motion by the Applicants and by the NRC Staff have also been filed. Upon examination of the motion and the responses thereto we have concluded that oral argument is warranted.

Inquiry has been made of the attorneys respecting a convenient date for calendaring the argument and October 15, 1976 has been agreed upon as suitable by counsel for each of the parties.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Commission, that oral argument on the motion of Squire, Sanders & Dempsey to dismiss the disqualification proceedings pending in this matter, is calendared for 11:00 a.m. on Friday, October 15, 1976, in the NRC Public Hearing Room, 5th Floor, East-West Towers, 4350 East/West Highway, Bethesda, Maryland.

Issued at Bethesda, Maryland this 5th day of October, 1976.

For the Atomic Safety and Licensing Special Board.

ROBERT M. LAZO,
Chairman.

[FR Doc. 76-29760 Filed 10-6-76;10:03 am]

[1] By order of September 1, 1976, the time for the filing of the answer by the City of Cleveland to the SS&D dismissal motion was extended to September 15, 1976. The time for filing the answers by the NRC Staff and the Applicants was extended to September 24, 1976.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 76-41]

ACCIDENT REPORTS; SAFETY RECOMMENDATIONS AND RESPONSES

Availability and Receipt

Aircraft Accident Report. The fatal, emergency landing last February 8 of a Mercer Airlines Douglas DC-6 has been investigated by the National Transportation Safety Board. The aircraft crashed on a golf course 1 mile short of the Van Nuys (California) Airport. In its report No. NTSB-AAR-76-17, released September 28, the Board determined that the probable cause of the accident was the degraded performance of the aircraft after two engines failed. The dual failure was precipitated by the in-flight failure of the No. 1 blade of the No. 3 propeller assembly. The failure of the propeller blade resulted from a fatigue crack which originated in the leading edge under the deicer boot. The crack had not been detected during an improperly performed overhaul.

As a result of investigation of this accident, the Safety Board recommended on June 3 that the Federal Aviation Administration (1) review propeller overhaul manuals for requirements to insure detection of cracks beneath deicer boots, (2) remind air carriers of their responsibility for adequate maintenance even when it is performed by an outside repair station, and (3) review its procedures for surveillance of certificated repair stations. (Safety recommendations A-76-77 through A-76-79; see 41 FR 23487, June 10, 1976.)

In response to these three recommendations, FAA, by letter dated August 30, told the Board that during October it will issue a notice to emphasize the need for field inspectors to assure that repair stations and operators are using complete and current data in inspection, maintenance, and overhaul, placing special emphasis on data used for metal, sheath, or deicer equipped propeller blades. FAA further stated that a notice, N8320.196—Metal Propellers Used in Air Carrier Service, issued July 16, requires principal inspectors to review operators' maintenance and overhaul manuals to assure adequate instructions, to emphasize operator's responsibility for assuring airworthiness, to review certificated repair stations' technical data to determine that the manufacturers' manuals reflect the most recent information available, and to advise FAA Headquarters within 30 days of receipt of the notice whether the certificate holders' manuals are adequate.

Railroad/Highway Accident Report. Investigation of the collision of a Baltimore and Ohio freight train with a pickup truck last February 7 at Beckemeyer, Illinois, is now complete, and the Board has issued its report. The report, NTSB-RHR-76-3 released September 30, indicates that the probable cause of the accident was the failure of the truckdiver to see the approaching train and to stop his vehicle short of the tracks. The lack of active grade crossing signals at the crossing probably contributed to his failure to perceive the train. Of the 16 persons in the truck, 12 were killed and 3 were injured.

Also on September 30, by separate letter, the Safety Board recommended that the Federal Highway Administration: Develop models, formulae, and criteria to assess the hazard levels of grade crossings and to produce an output which indicates the need to consolidate and upgrade crossings or to close certain crossings (recommendation H-76-31); and publish these models, formulae, and criteria, make them available to each State and to the operating railroads, and urge their use in assessing grade crossings (H-76-32). Both recommendations are Class II, for priority followup.

Pipeline Safety Recommendations. Six Class I, urgent followup recommendations were issued by letter of October 2 to the Mayor of Phenix City, Alabama, following investigation of the explosion and fire which, last March 27, destroyed a two-story building in Phenix City and killed six persons.

The Board's investigation disclosed that natural gas at 20-psig pressure had leaked from a cracked, 3-inch cast iron main located 12 feet from the building under concrete steps leading from the street up to the sidewalk. The 3-inch pipe was cracked circumferentially, and gas leaked from this crack was trapped from above by the concrete steps. Consequently, gas seeped into a vaulted area under the sidewalk and into the basement of the building through holes in the wall, where it was ignited by an unknown source.

The Board recommended that the Utilities Board of Phenix City: Inspect its cast iron piping system through a random sampling program to determine whether other areas are covered sufficiently to prevent damage from external loads, if piping in other areas is graphitized to a degree that it should be removed from service, and to rectify any potentially hazardous conditions found (recommendation P-76-67); perform tests after repairing a leak to assure adequacy of repairs and to assure that no other source of gas was contributing to the leak area (P-76-68); assure that when a cast iron caulked bell and spigot joint is exposed, a leak clamp is installed as required by 49 CFR 192.753(b) (P-76-69); train gas system personnel in the use of available leak detection equipment to locate areas of gas leakage and to pinpoint the leakage source (P-76-70); test leak detection equipment and, if necessary, recalibrate it periodically to assure proper operation (P-76-71); and correct promptly all outstanding deficiencies documented by the Alabama Public Service Commission (P-76-72).

Also as a result of investigation of the Phenix City accident, the Board issued on October 2 a recommendation letter addressed jointly to the U.S. Department of Transportation and to DOT's State Agent, the Alabama Public Service Commission, asking that actions taken by officials of Phenix City be monitored to determine the degree of compliance and to institute necessary corrective action. Priority followup is requested for this Class II recommendation, No. P-76-73.

Responses to Safety Board Recommendations. Addressees of earlier recommendations have recently supplied the Board with letter responses as follows:

Federal Aviation Administration, on September 22, answered the Safety Board's letter of August 26, regarding recommendations A-76-59 through A-76-64, wherein the Board asked why FAA considers it unnecessary to apply Advisory Circular AC 33-1A bird ingestion tests on the General Electric CF6 engine. (See 41 FR 14954, April 8, 1976, for recommendations, and 41 FR 34125, August 12, 1976, for FAA's initial response dated July 26.) FAA's September 22 letter states, "Advisory circulars are not regulatory and only provide advisory information on what is considered an acceptable means of showing compliance with a specific regulation. Such means are often modified in order to be appropriate for a particular application." FAA also notes that it has accepted the test program proposed by General Electric which involved a volley of 20 small birds rather than 16, and 6 medium birds fired at 5 critical areas rather than random firing of 10 birds. The rationale for this, according to FAA, was covered in detail at the Safety Board's hearings held in New York last March and deposition given at Evendale, Ohio, in May. FAA concludes, "In view of the dynamic structural testing conducted by General Electric to demonstrate the effectiveness of the changes now being implemented by airworthiness directives, we do not believe that a requirement for further bird testing would be justified."

FAA's letter of September 24 concerns recommendations A-76-95 and A-76-96 directed to the use of the word "beacon" in the air traffic control system. (See 41 FR 31625, July 29, 1976.) FAA states that by Air Traffic Technical Bulletin 76-2 dated June 1976, it has alerted air traffic control personnel to the possibility that "beacon" could be misunderstood when used without a qualifying prefix. FAA further notes that the various meanings of the word "beacon" in the Pilot/Controller Glossary will appear in Handbooks 7110.65, Change 4, and 7110.10D, effective January 1977, and in the Airman's Information Manual, effective February 1977.

Federal Highway Administration, by letter of September 24, responds to recommendations H-76-12 through H-76-14 which were issued following investigation of the collapse of the Yadkin River Bridge near Siloam, North Carolina, February 23, 1975, after an automobile impacted a vital structural member of the bridge. (See 41 FR 20747, May 20, 1976.) FHWA states that actions proposed by recommendation H-76-12 are now partially covered by requirements of the National Bridge Inspection Standards, 23 CFR 650.311, which reads, "Newly completed structures or any modifica-

V41196 OCT 7 76 UMI

tion of existing structures which would alter previously recorded data on the inventory forms shall be entered in the State's records within 90 days." FHWA states that if requirements were expanded to require analysis and evaluation within a specified time period, it would be necessary to define within carefully prescribed limits the methods to be used and need for corrective action. FHWA adds that since issuance of the standards, the States have been using the information gained from the inspections and inspection reports in a most responsible manner, and that issuance of additional regulations are not warranted at this time.

Re recommendation H–76–13, FHWA indicates that the action proposed will require special legislation or the modification of the existing Federal-Aid Highway Act of 1968, 23 U.S.C. 116, to include the inspection of bridges off the Federal-aid highway system. Any proposed legislation for the inspection of off-system bridges will be ineffective and unimplementable if not adequately funded, according to FHWA. FHWA is reviewing proposed legislation which, if enacted, would consolidate all safety programs, both on and off the Federal-aid highway system. Administration of such a provision would permit inspection of off-system bridges before establishing replacement priorities, FHWA comments. FHWA considers that no further action is necessary in view of this proposed legislation.

Re H–76–14, FHWA comments that the various State highway departments are now investigating catastrophic bridge failures, and remarks that it would be "counterproductive and unjustifiable on a cost effective basis for the States and FHWA to organize multidisciplinary accident investigating teams for the limited number of bridge collapses occurring nationwide each year." According to FHWA, States experiencing bridge collapses are advised to retain the service of engineering firms nationally recognized in the field of bridge failure investigations. FHWA believes that the time to investigate a structure is prior to the collapse. FHWA is now organizing a multidisciplinary team that would be made available to the States on request to investigate primary bridge members that have fractured in order to document information helpful in preventing major failures.

U.S. Coast Guard, by letter of September 24, updates response to recommendation M–74–21, issued as a result of investigation of the explosion and fire on board the *M/V Venus* on the St. Lawrence River, May 4, 1972. Coast Guard notes completion of the recommended inspection of the *Venus* and similar tank vessels operating on the Great Lakes to correct inadequacies concerning the prevention of entry of flammable vapors into the deckhouses as revealed by investigation of the accident. Coast Guard states that the deficiencies have been corrected.

U.S. Department of Commerce, by letter of September 16, responds to recommendations I–76–7 and I–76–8 concerning the September 1, 1975, Rock Island tank car derailment near Des Moines, Iowa. (See 41 FR 37166, September 2, 1976.) The letter indicates that Commerce Department's National Fire Prevention and Control Administration is well aware of the problems faced by emergency forces in controlling transportation accidents involving hazardous materials but that very limited funds and numbers of personnel have prevented a more direct attack on the problem through research and development and delivery of training programs to the fire service. Commerce notes that NFPCA has, however, been working with the Department of Transportation, which also has responsibility in this area, and has assisted in formulating a project to develop and test a hazardous materials training course for the fire service and other emergency personnel. Work with DOT and its contractor for this project, the National Fire Protection Association, will continue. Through NFPCA's National Academy for Fire Prevention and Control, delivery of training courses to emergency service personnel will be provided, and other initiatives will be undertaken as soon as resources permit, according to the Commerce letter.

Bay Area Rapid Transit District (BART), by letter of September 24 concerning recommendations R–76–42 through R–76–44 (41 FR 34125, Aug. 12, 1976), indicates that current BART Operations Rules and Procedures prohibit the dispatch of a training with malfunctioning automatic train control (ATC from a yard or terminal zone into revenue service. Procedures also are in effect requiring removal of trains experiencing ATC malfunctions at the nearest yard or storage area. BART notes that in this circumstance, passengers are not immediately off-loaded but are allowed to remain on board until the train is removed from mainline operations. BART states that the train experiencing ATC malfunction can only be operated in the "manual mode" which limits the maximum speed of the train to 25 mph by an automatic feature of the on-board equipment. Additionally, all manual movement of trains is strictly enforced and controlled by the Central Train Controller, with issuance of formal movement instructions to the Train Operator specifying the track or tracks to be used, routes through interlocking as required, and the operating limits which shall not be exceeded.

BART considers its communication facilities to be adequate and dependable, and notes that procedures are in effect to govern Train Operators in the event of radio failure anywhere on the System.

Chicago Transit Authority (CTA) letter of September 21 concerns recommendations R–76–35 through R–76–41 which relate to the collision of two CTA trains in Chicago last January 9. (See 41 FR 37168, September 2, 1976.) Accompanying the letter are copies of CTA statements released to the public during August 1976. The release of August 23 reports steps taken by CTA to implement each of the subject recommendations.

Re recommendation R–76–35, CTA indicates that its procedures concerning the operation of trains with defective cab signals have been steadily improved and are now in compliance. Re R–76–36, CTA states that predeparture general checkout of cab signal and train telephone equipment has been instituted at all CTA rapid transit terminals, and that a CTA-developed comprehensive checkout system, which completely cycles the cab signal equipment, has been tested successfully at the Jefferson Park terminal. CTA is seeking Government funding to install comprehensive checkout equipment at all other appropriate locations. Re R–76–37, the CTA cab signaling maintenance program has been intensified, procedures have been improved where necessary to detect failures of nonvital functions, and components replaced on a preventive maintenance basis.

To implement R–76–38, CTA has intensified maintenance procedures for both carborne and wayside train phone equipment and has made a survey of train phone signal strength over all trackage, which has led to the installation of additional wayside equipment. Also, CTA states, a radio system is being designed to supplement the existing train phone system which operates over the electrified power rail. Re R–76–39, CTA notes that a thorough revision of the rail operating rule book is now underway to provide a better understanding of titles and functions. In accord with R–76–40, all training programs and the methods by which CTA measures their effectiveness are being strengthened. Topics for special emphasis include alertness, sensitivity to imperfect equipment, troubleshooting, and responsibilities when emergency procedures are in effect.

With reference to R–76–31, CTA notes that its safety department, which had reported below the division level, now reports directly to the general manager. Line safety functions within the operations division have been reorganized for greater effectiveness and to provide a more direct liaison with the staff safety function, according to CTA. Also, a safety and system assurance study is to be undertaken with funding from the U.S. Urban Mass Transportation Administration. CTA states that its safety department has been asked to participate in the development of the U.S. Department of Transportation's new safety and system assurance program for rapid transit nationwide.

The accident reports and the safety recommendation letters are available to the general public; single copies may be obtained without charge. Copies of the letters responding to recommendations, and Safety Board replies thereto, may be obtained at a cost of $4.00 for service and 10¢ per page for reproduction. All requests must be in writing, identified by recommendation number and date of publication of this FEDERAL REGISTER notice. Address inquiries to: Publications Unit, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of the accident reports may be purchased by mail from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93–633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

MARGARET L. FISHER,
Federal Register Liaison Officer.

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

CONTRACT PRICING AND PROFIT POLICIES

Public Meeting

The Notice of Public Meeting to consider major issues pertinent to the adoption of Government-wide profit policies on negotiated procurements published in the FEDERAL REGISTER of September 17, 1976, 40238 is revised as follows.

At the completion of the hearings on November 4, 1976, the public meeting will be recessed until 10:00 a.m. on November 8, 1976. Any interested person, organization, or Government agency desiring to make an oral presentation should indicate in their request to be heard which of these two dates their oral presentation will be made.

The Notice is further revised to substitute the word "explicit" for "implicit" in the third and fourth sentences of paragraph 5.

Dated: September 30, 1976.

HUGH E. WITT,
Administrator.

BASIC MAIL CLASSIFICATION REFORM SCHEDULE, 1976

Rescheduling of Prehearing Conference

SEPTEMBER 30, 1976.

Notice is hereby given that the Presiding Officer has rescheduled the prehearing conference previously scheduled in the above-designated proceeding for Tuesday, October 5, 1976, to Monday, October 18, 1976 at 9:30 a.m., in the Commission's Hearing Room, Suite 500, 2000 L Street, NW., Washington, D.C.

JAMES R. LINDSAY,
Secretary to the Commission.

[FR Doc.76–29411 Filed 10–6–76;8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–12836; File No. SR–Amex–76–20]

AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organizations; Proposed Rule Change

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94–29, 16 (June 4, 1975), notice is hereby given that on September 20, 1976, the American Stock Exchange, Inc. (the "Amex") filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The rescission of Rule 23 and the Commentary thereto will eliminate the requirement that any member or member organization who has purchased from off the Floor any security on the Exchange for personal or firm account, in order to establish or increase a position, at a price above the previous day's close on a "plus" or "0-plus" tick, except a "0-plus" tick on the bid, shall not sell such security until at least the same time as the time of execution on the following trading day. A copy of Rule 23 and the Commentary thereto is annexed hereto as Exhibit A.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

The purpose of this rule rescission is to permit off-Floor members and member organizations to liquidate positions in Amex traded stocks previously acquired pursuant to off-Floor orders at a price above the previous day's close on a "plus" or "zero plus" tick without the 24 hour limitation presently imposed on such sales.

This rule rescission will also eliminate the competitive discrimination currently existing against Amex members and member organizations since the restrictions embodied in Rule 23 and the Commentary thereto are not imposed upon members of any other exchange or market where Amex stocks are traded, and are no longer imposed upon New York Stock Exchange members or member organizations with regard to securities traded thereon (SR–NYSE–76–27, effective August 27, 1976).

The proposed rule change is authorized by section 6(b) and 11A of the Securities Exchange Act, as amended by the Securities Acts Amendments of 1975, and relates to subsection (a)(v)(D) of Item 4 hereof by promoting equal regulation and fair competition among brokers and dealers, and among exchange and non-exchange markets.

No comments were solicited or received with respect to the proposed rule change.

The Amex has determined that the proposed rescission of Rule 23 and the Commentary thereto will not impose any burden on competition. In addition, it will eliminate the competitive disadvantage presently imposed solely upon Amex members and member organizations.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the Amex. All submissions should refer to the file number referenced in the caption above and should be submitted on or before October 28, 1976.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and, in particular, the requirements of section 6 and the rules and regulations thereunder.

Further, the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof. The Commission has recently approved the rescission of a similar New York Stock Exchange rule (Securities Exchange Act Release No. 12739 (August 26, 1976), 41 FR 37863 (September 8, 1976)). Interested persons were given the opportunity to comment on the rescission of these types of restrictions on members' off-floor trading at that time.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SEPTEMBER 28, 1976.

EXHIBIT A.—AMERICAN STOCK EXCHANGE, INC.

The following Rule and Commentary are deleted in their entirety:

MEMBERS' OFF-FLOOR TRADING

Rule 23. (a) A regular or associate member or regular or associate member organization who shall purchase any security on the Exchange for his or its account to establish or increase a position, pursuant to an order entered from off the Floor, at or above the previous day's closing price on a "plus" or a "zero plus" tick, except a "zero plus" tick on the bid, shall not sell such security until at least the same time as the time of execution on the following trading day, unless such liquidating transaction is at a loss of not less than the minimum fraction of trading permitted in such security, calculated on a "first in, first out" (FIFO) basis.

(b) The provisions of this rule do not apply to:

(1) any bona fide arbitrage transaction or any transaction which is part of a purchase and sale or sale and purchase of securities of companies involved in a publicly announced merger, acquisition, tender offer, etc.;

(2) any transaction made with the prior approval of a Senior Floor Official to permit the member or member organization to contribute to the maintenance of a fair and orderly market in a security;

(3) any transaction which is on the opposite side of a block order being executed by the member or member organization for the account of its customer and the transaction is made to facilitate the execution of such order;

(4) any transaction to offset a transaction made in error;

(5) any transaction for the account of a member or member organization registered as a specialist on another securities exchange in a security in which the member or member organization is so registered, if such transaction is effected in connection with the performance by such member or member

V41 1976 OCT 7 76 UMI

organization of his or its function as a specialist on such other exchange;

(6) any purchase or sale of a security against which a member organization has sold a call and bought a put endorsed by such member organization (conversion account);

(7) any transaction for an individual member on which a commission is charged unless the member or member organization shall have been notified by the Exchange that this exemption shall not apply to it;

(8) "held" orders entered before the opening of the Exchange or prior to the establishment of the day's first quotation in a particular security.

COMMENTARY

.01 Rule 23 is applicable to regular and associate members and member organizations, provided, however, that the rule shall also be applicable to any allied member if the Exchange shall have determined that it is in the interest of the Exchange to make the rule applicable to such allied member and shall have so informed such allied member.

.02 Every order entered from off the Floor for the purchase or sale of a security for the account of a regular or associate member or a regular or associate member organization, and every such order entered for the account of an allied member who has been notified by the Exchange that he is subject to the provisions of Rule 23, shall be designated with the letters "OF."

.03 Every regular and associate member and every regular and associate member organization, and every allied member who has been notified by the Exchange that he is subject to the provisions of Rule 23, who shall effect purchases or sales on the Exchange for his or its account amounting to 500 shares or more of any security during any trading session shall report such transactions to the Exchange on a weekly basis on a form prescribed by the Exchange. Such reports shall be due not later than 10:00 a.m. on Tuesday of each week with respect to all such transactions effected during the previous week. No report need be filed with respect to a week in which no such transactions were effected or with respect to which all such transactions were exempt under the provisions of paragraph (b) of Rule 23.

.04 A broker executing a buy order which is marked pursuant to paragraph .02 of this Commentary must record any purchase of 500 shares or more which he effects with respect to such order on a card designated for such purpose if the purchase is on a "plus" or "zero plus" tick at or above the previous day's closing price, except for a "zero plus" tick on the bid. This card shall be posted in such place and according to such procedure as the Exchange shall direct.

.05 In order to avail himself or itself of the exemption provided in subparagraph (5) of paragraph (b) of Rule 23, a member or member organization must file with the Exchange a current schedule of the securities in which he is registered as a specialist on another securities exchange.

AXE-HOUGHTON FUND A, INC. ET AL.

Filing of Application for an Order of Exemption From Provisions

Notice is hereby given that Axe-Houghton Fund A, Inc., Axe-Houghton Fund B, Inc., and Axe-Houghton Stock Fund, Inc. (collectively referred to as the "Funds"), 400 Benedict Avenue, Tarrytown, New York 10591, open-end, diversified, management investment companies registered under the Investment Company Act of 1940 (the "Act"), and Axe Securities Corporation ("Axe Securities"), the principal underwriter of each of the Funds (collectively referred to with Funds as "Applicants"), filed an application on August 2, 1976, pursuant to section 6(c) of the Act, for an order of the Commission exempting Applicants from the provisions of section 22(d) of the Act and Rule 22d-1 thereunder to the extent specified therein. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to any person except at a current public offering price described in the prospectus. Shares of each of the Funds are currently offered to the public at a price based on net asset value plus a sales charge that varies with the quantity of securities purchased.

Each of the Funds proposes to offer to shareholders of each of the other Funds who have open accounts in the offering Fund, or who simultaneously establish such open accounts, the option of having the capital gain distributions or both the income dividends and capital gain distributions, paid to them by either or both of the other Funds, automatically reinvested on the payment date of such dividend or distribution in shares of the offering Fund at net asset value without the payment of a sales charge (the "Reinvestment Privilege"). In addition, shareholders of each of the other Funds who have open accounts in the offering Fund, or simultaneously establish such open accounts, would be permitted to return any cash dividend or distribution received by them from either or both of the other Funds within 30 days after the payment thereof for reinvestment in shares of the offering Fund at net asset value without a sales charge (the "Distribution Return Privilege"). Prospectuses of all the Funds will be available upon request from Axe Securities, and one will be sent to shareholders who notify Axe Securities of their desire to establish such an open account.

No sales commission would be received by Axe Securities or any dealer on any such reinvestment or return, and there will be no service charge. A shareholder will be permitted to cancel either privilege by written notice to the Funds' transfer agent. Axe Securities and the Funds' transfer agent reserve the right to cancel such privileges on thirty days written notice.

Pursuant to the Reinvestment Privilege distributions, or dividends and distributions, would be reinvested at the net asset value per share of the Fund whose shares were being acquired (the "offering Fund") on the payment date for the dividend or distribution of the Fund whose dividend or distribution is used to make the investment (the "paying Fund"). Pursuant to the Distribution Return Privilege, cash dividends or distributions would be reinvested at the net asset value per share of the offering Fund on the day the reinvestment is received by the Funds' transfer agent or on the next day the New York Stock Exchange is open for trading if such Exchange is closed on the day the money is received. None of the Funds would bear any expense pursuant to the proposed privileges other than transfer agency costs and the costs of furnishing prospectuses of the offering Funds.

Applicants assert that the purpose of the proposed privileges is to give Fund shareholders the oportunity to invest their dividends and distributions at no sales charge in the shares of any other Fund in which they have or simultaneously establish an open account; thus, each shareholder using the option will already have selected the shares of the offering Fund as an investment medium and may make additional investments in the shares of the offering Fund while maintaining his initial investment in the shares of the paying Fund.

Applicants state that the shareholders of each of the Funds could, in effect, accomplish the result proposed by this exemption request by electing to receive distributions, or dividends and distributions, in additional shares of the paying Fund and then exchanging such additional shares for shares of the offering Fund pursuant to the exchange privilege described in the Fund's current prospectuses. The proposed privilege would permit such reinvestment without the delay caused by the cumbersome procedure associated with such exchanges.

Applicants propose to make such privileges available to the shareholders of each Fund coincident with the first income dividend or capital gain distribution issued by each such Fund following receipt of the order requested hereby.

Section 6(c) of the Act provides, in pertinent part, that the Commission upon application may conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities or transactions, from any provisions of the Act or of any Rule or Regulation promulgated thereunder, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairiv intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than October 26, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally

or by mail upon Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued by the Commission as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

CHICAGO BOARD OPTIONS EXCHANGE

Order Approving Proposed Rule Change

On August 9, 1976, the Chicago Board Options Exchange, Inc. ("CBOE") LaSalle at Jackson, Chicago, Illinois 60604, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to amend a number of sections of the CBOE Constitution relating to the composition of the Exchange's Nominating Committee and Appeals Committee, and to an expansion of the number of subjects which may be considered at the Annual Election Meeting of the Exchange Membership.

Notice o fthe proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 12726, (August 23, 1976)) and by publication in the FEDERAL REGISTER (41 FR 36272 (August 27, 1976)).

On September 15, 1976 the CBOE filed an amendment to its rule filing which stated that the changes proposed to existing section 4.1 of the CBOE Constitution were withdrawn. The language of section 4.3 of the CBOE Constitution as proposed was amended through the deletion of reference to section 4.1. The CBOE Special Meeting of Members held on September 13 and 14, 1976 resulted in the approval of those changes relating to the conduct of business at the Annual Election Meeting and to the creation of the Appeals Committee as an elected body. The proposed changes to the sections of the CBOE Constitution dealing with the Nominating Committee were defeated.

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to registered national securities exchanges, and in particular, the requirements of section 6, the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on August 9, 1976, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[812-3961]

CONTINENTAL INDIVIDUAL RETIREMENT TRUST AND CONTINENTAL ILLINOIS NATIONAL BANK AND TRUST COMPANY OF CHICAGO, TRUSTEE

Filing of Application for an Order of Exemption From All Provisions

Notice is hereby given that Continental Individual Retirement Trust ("CIRT") and Continental Illinois National Bank and Trust Company of Chicago ("Continental Bank") (collectively referred to as "Applicants"), 231 South LaSalle Street, Chicago, Illinois 60693, have filed an application on June 1, 1976, and amendments thereto on August 16 and September 21, 1976, for an order of the Commission pursuant to section 6(c) of the Investment Company Act of 1940 ("Act") exempting CIRT from all provisions of the Act except sections 36(a) and 36(b) thereof. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

According to the application, CIRT is a collective investment trust, as described in Regulation 9.18(a)(2) of the regulations of the Comptroller of the Currency (the "Comptroller"), 12 CFR § 9.18(a)(2), for the investment of assets of self-employed retirement plans and trusts ("H.R. 10 Plans") meeting the requirements for qualification under section 401 of the Internal Revenue Code of 1954, as amended (the "Code"), established with Continental Bank as trustee. CIRT states that it has filed a registration statement with the Commission under the Securities Act of 1933 ("1933 Act"), but that it presently is exempt from the provisions of the Act by reason of section 3(c)(11) thereof, which, in part, excepts from the definition of "investment company" • • • "any collective trust fund maintained by a bank consisting solely of assets of (any employees' stock bonus, pension, or profit-sharing trust which meets the requirements for qualification under section 401 of the Code) • • •. Continental Bank states in the application that it maintains three funds within CIRT with separate investment policies, and that they are referred to as the Money Market Fund, the Equity Fund, and the Fixed Income Fund.

Continental Bank proposes to permit a person who establishes an individual retirement account ("IRA('s)") as described in section 408 of the Code, with Continental Bank as trustee, to direct the trustee to manage the assets contributed to his account in the funds of CIRT. Applicants state that IRA's are provided for by the Employee Retirement Income Security Act of 1974 ("ERISA"), and assert that the Conferance Report to ERISA reflects the intention of its drafters that banks be authorized to utilize collective investment trusts as a funding medium for IRA's and to pool assets of IRA's in such trusts with assets of other plans qualified under Code section 401(a), i.e., H.R. 10 plans and qualified corporate pension and profit-sharing plans. (H.R. Rep. No. 93-1280, 93d Cong., 2d Sess. 337-38 (1974)). Applicants further asset that diversification of investment of assets of employee benefit plans is a fundamental objective of ERISA which cannot be achieved by the trustee of an IRA without such pooling because of the generally small asset value of such accounts.

Although Applicants do not concede that the exception provided by section 3(c)(11) would no longer be applicable to CIRT under their proposal, it appears that CIRT would then no longer be comprised solely of assets of trusts qualified under Section 401 of the Code, and that the provisions of the Act might, therefore, be applicable to Applicants.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class of classes of persons, securities, or transactions, from any provisions of the Act or of any rule or regulation under the Act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Continental Bank states that it does not consider CIRT an appropriate subject of registration under the Act. In addition, the Applicants assert that the Commission's granting of the requested order will exempt CIRT from provisions of the Act with which it cannot, in any event, comply and from provisions with which compliance is possible but which, Applicants submit, merely duplicate requirements and restrictions to which they are already subject. Continental Bank submits that, for reasons set forth in the application and summarized below, it is appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act for the Commission to issue the requested order.

Applicants state that CIRT is managed by Continental Bank, as trustee, through its trust department, that CIRT has no board of directors, and that it does not have an "investment adviser," all investment advisory services being provided by Continental Bank as the trustee. Applicants contend that units in the funds of CIRT do not have the characteristics of

V 41 1196 OCT 7 76 UMI

shares of stock in a corporation or a mutual fund, since they are not transferable, are not evidenced by certificates, and do not entitle the holder to a vote or otherwise to participate in the management of the funds.

Coninental Bank states that it does not recognize separate interests, as such, in CIRT, but that, for convenience, the value of a participant's account in CIRT is computed as his pro-rata, portion, expressed in units, of the current market value of the investment portfolio of the fund of CIRT in which the assets of his account are managed, less any liabilities of such fund. Continental Bank states that it does not issue certificates or any other document evidencing a unit or other interest in a fund, nor does it permit a participant to transfer or pledge a unit or other interest in a fund to any person.

According to the application, Continental Bank, as trustee, retains exclusive management and investment discretion over the assets of CIRT, and, in exercising this authority, Continental Bank is subject to the requirements of ERISA, Regulation 9 of the Comptroller, the Illinois Common Trust Fund Act, and fiduciary obligations imposed under Illinois common law. In addition, Applicants state, Continental Bank's investment discretion is prescribed as to each fund of CIRT by the terms of the Declaration of Trust by which it was established, and the investment policies stated in the Declaration of Trust may be amended by Continental Bank only after a minimum of 30 days' notice to participants.

According to the application, Continental Bank's present fees for managing CIRT and participating H.R. 10 Plans are fully set forth in the prospectuses included as a part of CIRT's Registration Statement under the 1933 Act, which prospectuses are incorporated in and made a part of the Application. Continental Bank represents in the application that fees charged to establish and administer a participating IRA will be no greater than those charged to a participant in an H.R. 10 Plan established in the form of the prototype Continental Self-Employed Retirement Plan and Trust for creating and administering his separate account, but that a lesser fee structure may be adopted for IRA's established in the form of a prototype plan established by agreement with an employer or association of employees for use by its employees or members. Continental Bank states that it currently charges an annual fee of one-half of one percent of the net asset value of the funds of CIRT for its services as trustee.

Continental Bank states that, following its current practice with respect to persons covered by H.R. 10 plans participating in CIRT, it will provide each IRA participant, within 45 days after the close of each calendar quarter, with a statement of the value of his account showing the amount held in savings accounts, in certificates of deposit, and in a fund of CIRT, specifically identifying the number of units in a fund so held and the value of a unit. At the same time, except with respect to the fourth quarter, Continental Bank states that it will provide each participant with an unaudited quarterly financial report covering the results of Continental Bank's management of CIRT, and that it will also distribute to each participant by March 30 its annual report to the Comptroller on the investments and results of operations of CIRT. Applicants state that such report is audited and certified by an independent public accounting firm, currently Peat, Marwick, Mitchell and Co.

The Applicants assert that, if CIRT were required to register under the Act, it would require, at a minimum, exemptions from the following provisions of the Act: Sections 10(a), 10(b)(2), 10(b)(3), and 10(c), which in part, restrict the affiliations of directors, principal underwriters, and, by reason of section 10(h) of the Act, directors of depositors of registered investment companies; and sections 13(a), 15(a), 16(a), and 32(a) of the Act, which, in part, concern shareholder voting in the areas of investment policies, advisory contracts, and election of directors and independent public accountants.

With respect to the provisions of Section 10, Applicants assert that the abuses against which its restrictions are directed are regulated by provisions contained in ERISA, Regulation 9 of the Comptroller, and the Code, and that those statutes and regulations will therefore provide an adequate substitute for the protections afforded by section 10.

Regarding shareholder voting rights, Applicants assert that the nature of the relationship between the participant and the collective investment trust should make such rights unnecessary. In support of this assertion, Applicants state that a person who establishes an IRA with Continental Bank is, in effect, purchasing Continental Bank's fiduciary services, and that, should he become dissatisfied with Continental Bank's performance, he is free to remove it as trustee and to direct that the assets held for his account be withdrawn from the collective trust and transferred to a successor trustee. Furthermore, Applicants state, such a transfer is not a taxable event and continental Bank does not exact any charge for such withdrawal.

Applicants contend that interjecting voting rights into this relationship would do no more than permit the holders of a majority of the beneficial interests in CIRT to achieve what the individual participant can achieve on his own behalf by removing Continental Bank as trustee of his account. Furthermore, Continental Bank states that it cannot operate a collective investment trust under the federal banking laws unless it has "exclusive management" thereof, and that, if the holders of a majority of the beneficial interests in CIRT, through election of independent directors, or rejection of a change in investment policy proposed by the trustee, should interfere with its "exclusive management", Continental Bank would be forced to withdraw as trustee. Thus, it argues, imposition of the voting rights provisions of the Act on CIRT actually would lessen a participant's rights, since, absent the right to vote, he would have the continuing option of retaining or removing the trustee. With voting rights, the holders of a majority of the beneficial interests in CIRT could determine to remove Continental Bank as trustee over the objections of the minority. Applicants state that this is inappropriate, and that the trust relationship exists between the trustee and each participant, not between the trustee and the assembled body of participants.

Applicants contend that the difficulties encountered in applying the above-mentioned provisions of the Act which regulate the relationship between a registered investment company and its board of directors, investment adviser, underwriter and voting stockholders to a bank sponsored collective investment trust which has none of these features demonstrate the inappropriateness of any application of the Act to CIRT.

Applicants state further that other provisions of the Act, specifically section 17(a), which generally deals with purchases and sales of securities or other property between a registered investment company and its affiliates, section 17(d) which generally concerns joint transactions involving registered investment companies and their affiliates, or principal underwriters, and sections 30(a), (b) and (d), which generally concern periodic and other reporting by registered investment companies, might be applied to CIRT. However, Applicants assert, for reasons stated in the application and summarized below, that the application of these provisions to CIRT would not serve to increase materially the protections currently afforded participants in CIRT by other regulations and laws covering the same subject matter to which Continental Bank already is subject in its administration of CIRT.

Regarding section 17 of the Act, Applicants state that, if applied to CIRT, its visions of Regulation 9, ERISA, and Illinois common law fiduciary principals dealing with conflicts of interest and prohibited transactions. Applicants submit that the resulting tangle of sometimes conflicting regulation is unnecessary and would be adverse to the public interest, and that whatever incremental advantage may accrue to participants in CIRT from the application of section 17 would be inadequate to justify the burden of the imposition of additional regulatory control over a fund already subject to scrutiny under other regulations.

With respect to the reporting requirements of section 30 of the Act, applicants state that, in light of the reporting requirements of the Commission and the Comptroller, to which Continental Bank is already subject, the imposition of section 30 of the Act would result in little additional information to the Commission or to CIRT participants.

In addition, Continental Bank undertakes in the application to provide the Commission with information similar to

that which would be required by Item 1 (relating to changes in portfolio securities) and Item 3 (relating to changes in policies with respect to securities investments) of the Commission's Form N–1Q.

Section 36(a) of the Act generally authorizes the Commission to bring an action alleging that a person serving or acting as an officer or director of a registered investment company or as its investment advisor, depositor, or, with respect to certain types of companies, as its principal underwriter, has engaged or is about to engage in any practice constituting a breach of fiduciary duty involving personal misconduct in respect of such company.

Section 36(b) generally authorizes the Commission and each security holder of a registered investment company to bring an action on behalf of such company against the company's investment adviser, its affiliated persons, or any other person enumerated in section 36(a) of the Act who has a fiduciary duty with respect to the receipt of compensation for services or payments of a material nature made by such investment company or the security holders thereof, for breach of fiduciary duty with respect to such compensation or payments.

Continental Bank states that it presently is subject to the enforcement jurisdiction of the Secretary of Labor pursuant to ERISA and of the Comptroller pursuant to 12 USC § 1818 with respect to certain aspects of its fiduciary management of CIRT. Nonetheless, Applicants do not include sections 36(a) and 36(b) among the provisions of the Act from which exemption is sought.

According to the Applicants, the legislative history of ERISA supports the view that IRA's were regarded as substantially equivalent to H.R. 10 Plan trusts with a single owner-employee participant, and that the labor and tax-writing committees having jurisdiction over the bill envisioned that IRA's could be funded in collective trust funds on the same basis as H.R. 10 Plans.

Applicants further state that, in the Senate version of ERISA, IRA's would have been tax-exempt under section 501(a) of the Code as employee benefit plans described in section 401(a) of the Code, but that Section 401 is a complex provision, made even more so by ERISA, which covers corporate as well as H.R. 10 Plans. Many of its requirements, Applicants state, and those of other Code sections which refer to section 401, are inappropriate to the relatively simple IRA concept, and thus the House-Senate conferees on ERISA adopted the less complex approach of the House version of the bill, and created a new Code section 408 exclusively for IRA's. Nevertheless, Applicants argue, the conferees stated it to be their intention that assets of IRA's may be pooled with assets of qualified Code section 401(a) trusts and that a collective trust including the assets of both 408 and 401 plans should itself be tax-exempt.

Applicants further state that the Treasury Department has implemented that intent of the conferees by issuing Revenue Ruling 75–530, 1975–49 I.R.B. 7, which refers to this history and holds that a collective trust fund consisting of the assets of Code section 401 and 408 trusts shall continue to be exempt *pro tanto* under each section, and that the Comptroller has also recognized that assets of IRA's may be commingled with assets of Code section 401 trusts under the provisions of Regulation 9.

Applicants state that, prior to 1970 amendments to the Act, which gave specific recognition to an exemption for employee benefit plans and collective trusts therefor in section 3(c)(11), and which tied the exemption to section 401 of the Code, the Commission had nevertheless recognized the exemption for H.R. 10 Plans qualified under Code section 401, even though the Act, prior to such amendment, contained an outdated reference to section 165 of the Internal Revenue Code of 1939, under which section H.R. 10 trusts had never been tax-exempt.

Finally, Applicants contend that, in light of the above-mentioned legislative history of IRA's, and the Commission's administrative recognition of an exemption for H.R. 10 trusts prior to 1970 amendments to the Act, the Commission should issue the requested order under the authority of section 6(c) of the Act. In so doing, Applicants argue, the Commission would afford substantially the same exempt status to CIRT as is presently afforded by section 3(c)(11) of the Act to collective trusts consisting exclusively of assets of trusts meeting the requirements for qualification under Code section 401.

Notice is further given that any interested person may, not later than October 25, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in the matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[File No. 500–1]

KMS INDUSTRIES, INC.

Suspension of Trading

SEPTEMBER 28, 1976.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of KMS Industries, Inc. being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 2:00 p.m., (e.d.t.). on September 28, 1976 through October 7, 1976.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–29424 Filed 10–6–76;8:45 am]

[File No. 81–215]

KANSAS CITY STAR CO.

Notice of and Order for Hearing on Application for Exemption From Requirements

SEPTEMBER 28, 1976.

Notice is hereby given that The Kansas City Star Company (the "Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, (the "Exchange Act") for an order exempting the Applicant from the provisions of sections 12(g) and 15(d) of the Act. Exemption from such sections would have the effect of exempting the Applicant from sections 13 and 14 of the Exchange Act and any officer, director or ten percent beneficial owner of the Applicant's securities from section 16 thereof.

Section 12(g) of the Act requires the registration of the securities of every issuer which is engaged in interstate commerce or in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, and on the last day of the fiscal year has total assets exceeding $1 million and a class of equity securities held of record by 500 or more persons. Registration is terminated 90 days after the issuer files a certification with the Commission that the number of holders of the registered class of securities is fewer than 300 persons.

Section 15(d) provides that each issuer who has filed a registration statement which has become effective pursuant to the Securities Act of 1933, as amended, shall file with the Commission, in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents, and reports as may be required pursuant to section 13 of the Exchange Act in respect of a security registered pursuant to section 12 of the Exchange Act.

Section 12(h) empowers the Commission to exempt, in whole or in part, any

V41196 OCT 7 76 UMI

issuer or class of issuers from the registration, periodic reporting, proxy solicitation and other provisions of the Exchange Act, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issues, income or assets of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states in part:

1. The Applicant, a Missouri corporation, and its subsidiaries are primarily engaged in the publication of newspapers, the manufacture of fine paper, and the distribution of paper and paper products in several states, and as of December 31, 1975 owned total assets of approximately $78,000,000.

2. Beneficial ownership of the Applicant's common stock is represented by two classes of securities:

(a) Participating Certificates held only by Applicant's employees and retired employees which holders comprised in excess of 500 person as of December 31, 1975; and

(b) Beneficial Units held by Applicant's employees, retired employees and members of their immediate families which holders comprised less than 500 persons as of December 31, 1975.

Both classes of securities are restricted as to ownership and disposition.

3. The Applicant has been subject to the periodic reporting requirements of section 15(d) of the Exchange Act since 1968.

4. No public trading activity exists in either class of securities and none will develop.

5. The Participating Certificates, which unlike the Beneficial Units have full voting rights, are held by persons who are all knowledgeable of the Applicant's operations.

6. Compliance with the requirements of sections 13, 14 and 16 of the Exchange Act would involve significant and burdensome expenses and would not produce countervailing benefits for the protection of the public interest.

It is ordered, Pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, that a hearing on the application of The Kansas City Star Company be held on November 3, 1976 at 10:00 a.m. at the offices of the Securities and Exchange Commission, 500 North Capitol Street, Room 776, Washington, D.C.

The purpose of such hearing shall be to consider whether an exemption from the provisions of sections 12(g) and/or 15(d) of the Securities Exchange Act of 1934 should be granted *in toto*, should be granted subject to any specified conditions or should be denied. An Administrative Law Judge will be designated to preside at the hearing. Any person desiring to be heard is directed to file with the Secretary of the Commission his request as provided for by Rule 9(c) of the Commission's rules of practice, setting forth any issues of fact or law he desires to controvert and/or setting forth any additional issues which he feels should be considered.

The Division of Corporation Finance advises that it has made a preliminary examination of the application and that, on the basis thereof, the following matters and questions are to be presented for consideration in this proceeding:

1. Whether the number of public investors and the amount of trading interest, actual or potential, in the Applicant's securities, justify the requested exemption;

2. Whether the nature and extent of the Applicant's activities or the Applicant's income or assets are such to justify the requested exemption;

3. Whether the information concerning the Applicant which is or may be available to investors and/or the association of investors with the Applicant are adequate to justify the requested exemption;

4. Whether representations by the Applicant provide adequate protection to justify the requested exemption; and

5. Generally, whether the requested exemption is consistent with the public interest and with the protection of investors.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by certified mail to The Kansas City Star Company and its attorney and that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER, and that a general release of this Commission in respect to this notice and order be distributed to the press and mailed to those persons whose names appear on the mailing list for releases.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[SR-PSE-76-21]

PACIFIC STOCK EXCHANGE INC.

Order Approving Proposed Rule Change

On June 21, 1976, the Pacific Stock Exchange Incorporated ("PSE") 618 South Spring Street, Los Angeles, California 90014, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change to expand its option program by up to ten (10) additional classes of call options.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 12613 (July 9, 1976)) and by publication in the FEDERAL REGISTER (41 FR 29497 (July 16, 1976)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of Section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on July 21, 1976, be, and it hereby is, approved.

For the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[SR-PSE-76-27]

PACIFIC STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

On July 27, 1976, the Pacific Stock Exchange, 618 South Spring Street, Los Angeles, California 90014, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change which would accommodate proposed amendments to Rule 15c3-1(b)(2) within Exchange Rule V, Section 1.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 12701 (Aug. 12, 1976)) and by publication in the FEDERAL REGISTER (41 FR 33592 (Aug. 23, 1976)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6, and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on July 27, 1976, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[812-3923]

UNIVERSE TANKSHIPS, INC.

Filing of Application for Order of the Act Declaring Presumption of Control Created by That Section Rebutted by Evidence

Notice is hereby given that Universe Tankships, Inc. ("Applicant"), 30 Broad Street, Monrovia, Liberia, has filed an application on March 10, 1976, and amendments thereto on April 29, 1976, and June 28, 1976, pursuant to section 2(a)(9) of the Investment Company Act of 1940 ("Act") for an order of the Commission declaring that Applicant does not control St. John D'el Rey Mining Company, Limited ("St. John D'el Ray"), a closed-end, non-diversified management investment company registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

According to the application, St. John D'el Rey has two classes of voting shares, each of which is entitled to one vote per share: (1) "Ordinary Stock," of which there are 3,982,655 shares outstanding, and (2) "Preference Stock," of which there are 100,000 shares outstanding. Applicant states that it owns 28.25 percent of the outstanding Ordinary Stock and none of the Preference Stock, and that, accordingly, Applicant owns 27.60 percent of the outstanding voting securities of St. John D'el Rey. Applicant further states that the shares of Ordinary Stock owned by it do not have any special rights and that Applicant has no option to purchase additional shares.

It appears from the application that Hanna Mining Company ("Hanna"), through a wholly-owned subsidiary, owns 66.3 percent of the Ordinary Stock and none of the Preference Stock; that, accordingly, Hanna owns 64.7 percent of the outstanding voting securities of St. John D'el Rey; and that all of the directors of St. John D'el Rey are employees or nominees of Hanna.

Applicant states that the only asset of St. John D'el Rey is a 49 percent stock interest in Mineracoes Brasileiras Reunidas S.A. ("MBR"), and that the remaining 51 percent of MBR is owned by Emprendimentos Brasileiros de Mineracaosa ("EBM"), 19 percent of the outstanding stock of which, in turn, is owned by Applicant. Applicant further states that it does not control EBM, and that 51 percent of the stock of EBM is owned, either directly or through a subsidiary, by Companhia Auxiliar de Empresas de Mineracao.

Section 2(a)(9) of the Act (1) defines the term "control" to mean the power to exercise a controlling influence over the management or policies of a company (unless such power is solely the result of an official position with such company), and (2) provides further, in part, that any person who owns beneficially more than 25 percent of the voting securities of a company shall be presumed to control such company.

Applicant acknowledges that, by virtue of its ownership of 27.60 percent of the voting securities of St. John D'el Rey, it is presumed to control St. John D'el Rey by reason of the aforementioned provisions of section 2(a)(9). However, Applicant asserts that it does not in fact control St. John D'el Rey, and requests a declaratory order of the Commission to that effect in order to avoid any such question being raised in the future.

In support of the application, Applicant makes the following assertions: (1) That Hanna, through its ownership of 64.7 percent of the voting securities of St. John D'el Rey, effectively controls St. John D'el Rey; (2) that there is no written contract or oral understanding between Applicant and Hanna regarding the exercise of control over the business affairs or operations of St. John D'el Rey; and (3) that neither Applicant nor its officers and directors own any shares of Hanna and are not employed by Hanna in any capacity. Applicant asserts further that it purchased and holds its shares of St. John D'el Rey as an investment; that it was not a founder of St. John D'el Rey and has never nominated persons to sit on the latter's Board of Directors; and that it has no authority to elect any such members to that Board.

Section 2(a)(9) also provides, in part, that the presumption of control described above may be rebutted by evidence, but shall continue until a determination to the contrary has been made by order of the Commission, on application by an interested person.

Notice is further given that any interested person may, not later than October 25, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[Volume No. 51]

PERMANENT AUTHORITY PETITIONS AND APPLICATIONS; FINANCE MATTERS (INCLUDING TEMPORARY AUTHORITIES); RAILROAD ABANDONMENTS; ALTERNATE ROUTE DEVIATION LETTER-NOTICES; AND INTRASTATE APPLICATIONS CONCURRENTLY SEEKING AUTHORITY ON INTERSTATE OR FOREIGN COMMERCE

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

OCTOBER 1, 1976.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR 1100.247) [1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon petitioner's representative, or petitioner if no representative is named.

No. MC 12960 (Notice of filing of petition for modification of brokers license), filed September 20, 1976. Petitioner: AUTO CLUB SERVICES, INC., Thirteenth & LaSalle Ave., Minneapolis, Minn. 55403. Petitioner's representative: J. G. Dail, Jr., P.O. Box 567, McLean, Va. 22101. Petitioner holds a license to engage in operations as a *broker* in interstate or foreign commerce, at Minneapolis, Minn., in No. MC 12960, issued June 11, 1971, in arranging the transportation by motor vehicle of *passengers and their baggage*, in special and charter operations, beginning and ending at points in Minnesota, and extending to points in the United States, including Alaska, but excluding Hawaii. By the instant petition, petitioner seeks to add St. Louis Park, Minn. as an additional point at which it is authorized to engage in the above operations.

No. MC 65802 (Sub-Nos. 32 and 41) (Notice of filing of petition to renew explosives authority), filed August 10, 1976 and September 20, 1976, respectively. Petitioner: LYNDEN TRANSPORT, INC., P.O. Box 433, Lynden, Wash. 98264. Petitioner's representative: James T. Johnson, 1610 IBM Bldg., Seattle, Wash. 98101. Petitioner holds motor *common carrier* Certificates in No. MC 65802 (Sub-Nos. 32 and 41), issued December 18, 1975 and June 17, 1976, respectively, which with respect to its explosives authority, expired July 14, 1976 and September 11, 1976, respectively, authorizing transportation (1) in 65802 (Sub-No. 32) over irregular routes, as pertinent, of *classes A and B explosives*, between Seattle, Wash., on the one hand, and, on the other, points in Alaska, restricted to shipments moving to or from Alaska; and (2) in MC 65802 (Sub-No. 41) over irregular routes, as pertinent, of *classes A and B explosives*, between the port of entry on the United States-Canada (British Columbia) boundary line, located approximately 35 miles north of Prince Ruppert, B. C., on the one hand, and, on the other, points in Alaska, restricted to the transportation of traffic moving from, to or through Prince Ruppert, B.C. By the instant petition, petitioner seeks in both of the above Sub-Nos. to renew its authority to transport explosives for an additional five years.

No. MC 102616 (Sub-No. 875) (notice of filing of petition to modify restriction), filed September 13, 1976. Petitioner: COASTAL TANK LINES, INC., P.O. Box 5555, 250 Cleveland-Massillon Rd., Akron, Ohio 44313. Petitioner's representative: Donald B. Levine, 39 South LaSalle St., Chicago, Ill. 60603. Petitioner holds a motor *common carrier* certificate in No. MC 102616 (Sub-No. 875), issued November 29, 1973, authorizing transportation, over irregular routes, of *corn products*, in bulk (except corn oil, in bulk), from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to the transportation of traffic originating at the plantsite and warehouse facilities of Cargill, Incorporated located at Dayton, Ohio. By the instant petition, petitioner seeks to modify the above restriction to include Car-Mi, Inc. as an additional origin plantsite.

No. MC 110420 (Sub-No. 669) (notice of petition) (correction), filed August 27, 1976, published in the FEDERAL REGISTER issue of September 16, 1976, and republished as corrected this issue. Petitioner: QUALITY CARRIERS, INC., I–94 County Highway C, Bristol, Kenosha Co., Wis. 53104. Petitioner's representative: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th St., N.W., Washington, D.C. 20004. The purpose of this partial republication is to indicate the correct docket number assigned to this proceeding as MC 110420 Sub-No. 669), in lieu of MC 11040 (Sub-No. 669) as was previously published. The rest of the publication remains as previously published.

No. MC 115353 (Sub-No. 11) (notice of filing of petition to add additional plantsites), filed September 7, 1976. Petitioner: LOUIS J. KENNEDY TRUCKING COMPANY, 342 Schuyler Avenue, Kearny, N.J. 07032. Petitioner's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Petitioner holds a motor *contract carrier* Permit in No. MC 115353 (Sub-No. 11), issued August 3, 1976, authorizing transportation over irregular routes, of *building materials, gypsum* and *gypsum products, paint* and *paint products, lime* (except liquid in bulk), and such *materials and supplies* as are used in the manufacture, installation and distribution of the aforementioned commodities (except commodities in bulk), between Stony Point, N.Y., Lisbon Falls, Maine, Boston, Mass., Philadelphia, Pa., Baltimore, Md., Kearny, and Woodbridge Township (Middlesex County), N.J., on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, restricted against the transportation of cement, from and to Lisbon Falls, Maine, Boston, Mass., Philadelphia, Pa., and Baltimore, Md., and further restricted against the transportation of stone, gravel, slag, sand, lime, limestone, limestone products, fly ash, and bituminous concrete, in dump vehicles, from Philadelphia Pa., to points in Mercer County, N.J., and those points in that part of New Jersey on and south of New Jersey Highway 33, and to points in Delaware, Maryland, and the District of Columbia, under a continuing contract, or contracts, with United States Gypsum Company of Chicago, Ill. By the instant petition, petitioner seeks to modify its Permit by adding the additional base points of Genoa and Gypsum, Ohio and South Plainfield, N.J.

No. MC 124190 (Notice of filing of petition to change contract shippers), filed September 20, 1976. Petitioner: GRIFFIN MOBILE HOME TRANSPORTING CO., 9015 S.E. 29th St., Oklahoma City, Okla. 73130. Petitioner's representative: I. E. Chenoweth (same address as petitioner). Petitioner holds a motor *contract carrier* Permit in No. MC 124190, issued May 19, 1976, authorizing transportation over irregular routes, of *home trailers*, between points in Oklahoma, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, Wisconsin, and Wyoming, under a continuing contract, or contracts, with B & B Mobile Homes, Oklahoma City, Okla.; Baker Mobile Home Sales, Inc., Oklahoma City, Okla.; George Lane Mobile Homes, Oklahoma City, Okla.; Redman Industries, Inc., of Tulsa, Okla.; Atkinson Enterprises, Inc., of Midwest City, Okla.; and Chickasha Mobile Homes, Inc., of Chickasha, Okla. By the instant petition, petitioner seeks to eliminate B & B Mobile Homes, Inc. from the above Permit as a contract shipper and substitute in lieu thereof, Coach Sales, Inc., of Tulsa, Okla.

No. MC 135033 (notice of filing of petition for modification of permit), filed August 10, 1976. Petitioner: SILVEY RE-

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V41196 OCT 7 76 UMI

FRIGERATED CARRIERS, INC., Gifford Rd. & So. Omaha Bridge Rd., Council Bluffs, Iowa 51501. Petitioner's representative: Arlyn L. Westergren, Suite 530 Univac Bldg., 7100 West Center Rd., Omaha, Nebr. 68106. Petitioner holds a motor *contract carrier* Permit in No. MC 135033, issued August 18, 1976, authorizing transportation over irregular routes, of *such commodities* as are dealt in by retail department stores (except foodstuffs), (1) from points in Alabama, Connecticut, Georgia, Illinois, Kentucky, (except Louisville and points in its commercial zone as defined by the Commission), Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Ohio (except Cleveland, Cincinnati, and Toledo and points in their respective commercial zones as defined by the Commission), to Omaha, Nebr., under a continuing contract, or contracts, with the following shippers: J. L. Brandeis & Sons, Inc.; Pamida, Inc.; Brinn & Jensen Company; Westside Supply Company, and Richmand Gordman Stores, Inc., all of Omaha, Nebr.; and (2) from points in Alabama, Connecticut, Georgia, Illinois, Kentucky (except Louisville and points in its commercial zone), Maryland, Massachusetts, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee (except Loudon, Ripley, and Pulaski), Virginia, West Virginia, and Ohio (except Cincinnati, Cleveland, and Toledo and points in their respective commerical zones, as defined by the Commission), to Omaha, Nebr., restricted to the transportation of shipments destined to the facilities of J. L. Brandeis & Sons, Inc., Pamida, Inc., Brinn & Jensen Company, Westside Supply Company, Richmand Gordman Stores, Inc., Sidles Distributing Co., and Midlands Automotive Warehouse, Inc., all located at Omaha, Nebr., under a continuing contract, or contracts, with Sidles Distributing Co., and Midlands Automotive Warehouse, Inc., both of Omaha, Nebr., subject to the right of the Commission, to impose such terms, conditions, or limitations in the future as it may find necessary in order to insure that carrier's operations shall conform to the provisions of Section 210 of the Act. By the instant petition, petitioner seeks (a) to include Louisville, Ky., Cincinnati, Cleveland and Toledo, Ohio, and points in their four respective commercial zones as defined by the Commission, and points in Arkansas, Delaware, Indiana, Louisiana, Michigan, Mississippi, Missouri, Rhode Island, and Wisconsin, as origin points to the territorial descriptions stated in Parts (1) and (2) above; and (b) to add *"candy, confectioneries and nuts"* to the encompassing commodity description for Parts (1) and (2) above.

No. MC 139349 (Sub-No. 2) (notice of filing of petition to add contracting shipper and base points), filed September 9, 1976. Petitioner: JAYMAR TRUCKING CO., INC., 134 Garfield Avenue, Jersey City, N.J. 07305. Petitioner's representative: Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904. Petitioner holds a motor *contract carrier* Permit in No. MC 139349 (Sub-No. 2), issued November 8, 1974, authorizing transportation, as pertinent, over irregular routes of (1) *Lamps, lighting fixtures, and equipment, materials and supplies* used or sold by lighting fixture manufacturers, between Jersey City, N.J., on the one hand, and, on the other, points in Nassau, Suffolk, Westchester, Rockland, and Orange Counties, N.Y., Fairfield County, Conn., and Philadelphia, Pa., (2) *lighting fixtures and lamps*, and *equipment, materials, and supplies* used in their manufacture and sale (except commodities in bulk), between Jersey City and Kearney, N.J., on the one hand, and, on the other, points in Louisiana, Minnesota and Texas, and those points in the United States east of the Mississippi River, (1) and (2) above are under a continuing contract, or contracts, with Lightoller, Inc., of Jersey City, N.J. By the instant petition, petitioner seeks (I) to add Duro-Test Corporation, of North Bergen, N.J. as an additional contracting shipper; and (II) to add Clifton, North Bergen, and Secaucus, N.J., as additional base points to the authority in (2) above.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

NOTICE

The following grants of operating rights authorities are republished by Order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC-F-6487 (Reopened on Reconsideration) filed December 31, 1956. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo. 80223. Applicant's representative: Eldon E. Bresee (same address as applicant). By order dated August 1, 1963 and served September 9, 1963 in No. MC-C-3568, *Consolidated Copperstate Lines, Inc., et al.* v. *Navajo Freight Lines, Inc.*, 92 M.C.C. 516, the Commission in General Session, reopened for reconsideration the purchase in No. MC-F-6487, *Navajo Freight Lines, Inc.—Purchase—Arizona Nevada Express*, 75 M.C.C. 517, which rights are now embraced in Navajo's Certificate No. MC 76032 (Sub-No. 132), issued March 3, 1961. The Commission found therein that the prior report and order at 75 M.C.C. 517 should be modified to eliminate a restriction "to traffic moving to or from points north and west of Kingman, Ariz." on intermediate points service over U.S. Highways 89 and 66 between Phoenix and Kingman, Ariz., and that a modified certificate should be granted 30 days after publication in the FEDERAL REGISTER of a notice of the authority actually granted.

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

NOTICE

The following applications are governed by Special Rule 247 of the Commission's *General Rules of Practice* (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.*

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1 (Sub-No. 7), filed August 27, 1976. Applicant: ESCHENBACH & RODGERS TRUCKING, INC., 232 Division Street, Kingston, Pa. 18704. Applicant's representative: Russell S. Bernhard, 1625 K Street, NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Such commodities* as is dealt in by wholesale, retail and chain grocery and food business houses, and in connection therewith, *equipment, materials*, and *supplies* used in the conduct of such business, between points within the territory bounded by a line beginning at Port Jervis, N.Y., and extending in a northeasterly direction through Wurtsboro to Ellenville, N.Y., thence in a northwesterly direction through Margaretville to Davenport Center, N.Y., thence west through Oneonta to Ithaca, N.Y., thence in a southwesterly direction through Alpine, Painted Post, Addison, and Woodhull, to Troupsburg, N.Y., thence in a southwesterly direction to North Fork, Pa., thence in a southeasterly direction through Sabinsville, Gaines, Loganton, Livonia, Millerstown, and Newport, to Clarks Ferry, Pa., thence in a northeasterly direction through Lockdale, Fredericksburg, Bethel, Schubert, Shartlesville, Hamburg, New Tripoli, Neffs, Moorestown, Windgap, Bangor, and Mont Bethel, to Portland, Pa., thence along the west bank of the Delaware River to Matamoras, Pa., and thence across the river to Port Jervis, including the points named, and (b) between points in (a) above, on the one hand, and, on the other, New York, N.Y., Newark, Jersey City, Edgewater and Trenton, N.J., and Philadelphia, Pa.; and (2) *fruits vegetables, farm products, poultry, and seafood*, in the respective seasons of their production, from points in New York, New Jersey, Pennsylvania, and Delaware, to points in (1) (a) above.

NOTE.—Applicant states that the purpose of this filing is to convert its contract carrier authority to common carrier authority. If a hearing is deemed necessary, the applicant requests it be held at Wilkes-Barre, Pa.

No. MC 1328 (Sub-No. 22), filed Aug. 16, 1976. Applicant: MGS TRANSPORTATION, INC., P.O. Box 270, Alexandria, Ind. 46001. Applicant's representative: Charles Garrett (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rock wool and rock wool products*, from Rock Wool Industries, Inc., Missouri Division, at Cameron, Mo.; Rock Wool Industries, Pueblo, Colorado Division; and Rock Wool Industries, Belton, Texas Division, to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, West Virginia, Wisconsin, and the District of Columbia, under contract with Rock Wool Industries, Cameron, Missouri Division; Rock Wool Industries, Pueblo, Colorado, Division; and Rock Wool Industries, Belton, Texas Division.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Denver, Colo.

No. MC 1328 (Sub-No. 23), filed September 1, 1976. Applicant: MGS TRANSPORTATION, INC., P.O. Box 270, Alexandria, Ind. 46001. Applicant's representative: Charles Garrett, (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Clay*, in bags, from Drybranch and Savannah, Ga.; Mayfield, Ky.; and Sledge, Miss., to the plantsite of Johns-Manville Sales Corp., located at Alexandria, Ind., under a continuing contract, or contracts, with Johns-Manville Sales Corporation.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind. or Denver, Colo.

No. MC 4963 (Sub-No. 50), filed September 2, 1976. Applicant: ALLEGHANY CORPORATION, doing business as JONES MOTOR, Bridge Street and Schuylkill Rd., Spring City, Pa. 19475. Applicant's representative: Roland Rice, Suite 501 Perpetual Bldg., 1111 E Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), Regular: Serving the plantsite of Fairfield Graphics located at Fairfield, Pa., as an off-route point in connection with carriers presently authorize regular-route operations; Irregular: (2) between the plantsite of Fairfield Graphics located at Fairfield, Pa. and Kingsport, Tenn.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 29130 (Sub-No. 107), filed Aug. 9, 1976. Applicant: THE ROCK ISLAND MOTOR TRANSIT COMPANY, a Corporation, 2744 S.E. Market St., P.O. Box 1355, Des Moines, Iowa 50305. Applicant's representative: B. C. Spitzer, LaSalle Street Station, 139 West Van Buren Street, Chicago, Ill. 60605. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, nitroglycerine, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading). Between junction of Kansas Highway 9 and U.S. Highway 75, at or near Netawaka, Kans., on the one hand, and, on the other, Omaha, Nebr. From junction Kansas Highway 9 and U.S. Highway 75, thence over U.S. Highway 75 to Omaha and return over the same route, serving no intermediate points (except Fairview and Sabetha, Kans., which are authorized points of service on applicant's Route 14) as an alternate route for operating convenience only, in connection with applicant's regular-route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 30844 (Sub-No. 573), filed August 18, 1976. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial St., Waterloo, Iowa 50702. Applicant's representative: Larry Strickler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from the plantsite of Mid-Continent Underground Storage, located at or near Kansas City, Kans., to points in Georgia, Kentucky, Tennessee, Virginia, West Virginia, and Little Rock, Ark.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 33919 (Sub-No. 15), filed August 16, 1976. Applicant: FAIRCHILD GENERAL FREIGHT, INC., P.O. Box 1649, Yakima, Wash. 98907. Applicant's representative: George H. Hart, 1100 IBM Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Materials and supplies*, used in the manufacture of glass containers, corrugated fiber containers and corrugated fiber roll stock, from points in California, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming, to the plantsites of Owens-Illinois, Glass Container Division, at or near Oakland, Tracy, Los Angeles and San Jose, Calif., and at or near Portland, Oreg. and (b) *empty* pallets, on return, from the destination points to the origin points named in (1) (a) above; and (2) (a) *glass containers and plastic containers, and caps, tops and closures therefor*, from the aforementioned plantsites of Owens-Illinois, Glass Container Division, in California and Oregon, to points in California, Idaho, Montana, Nevada, Oregon, Washington, and Wyoming; and (b) *empty pallets*, on return, from the destination points to the origin points named in (2) (a) above; and (3) *glass containers* and *closures therefor, glass manufacturing molds and empty pallets*, between the aforementioned plantsites of Owens-Illinois, Glass Container Division, in California and Oregon.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 48958 (Sub-No. 130), filed August 23, 1976. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, P.O. Box 16404, Denver, Colo. 80216. Applicant's representative:

V41 1976 OCT 7 76 UMI

Morris G. Cobb, P.O. Box 9050, Amarillo, Tex. 79105. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, those of unusual value, and those requiring special equipment), Serving the plantsite and facilities of American Cotton Growers, located at or near Littlefield, Tex., as an off-route points in connection with applicant presently authorized regular route operations to and from Lubbock, Tex., and Clovis, N. Mex.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Denver, Colo. or Dallas, Tex.

No. MC 52869 (Sub-No. 96), filed September 8, 1976. Applicant: NORTHERN TANK LINE, a Corporation, P.O. Box 970, Miles City, Mont. 59301. Applicant's representative: Richard P. Anderson, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, from McKenzie County, N. Dak., to points in Montana, South Dakota and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Billings, Mont.

No. MC 52979 (Sub-No. 17), filed September 3, 1976. Applicant: HUNT TRUCK LINES, INC., West High Street, P.O. Box 72, Rockwell City, Iowa 50579. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Rockwell City, Iowa, and Chicago, Ill., serving all intermediate points in Calhoun, Greene and Boone Counties, Iowa, and the off-route points of Audubon, Armstrong, Buffalo Center, Cherokee, Danbury, Denison, Harlan, Holstein, Ida Grove, Le Mars, Mapleton, Marcus, Quimby, and Remsen, Iowa, and off-route points in Buena Vista, Calhoun, Carroll, Greene, Humboldt, Kossuth, Palo Alto, Pocahontas, Sac and Webster Counties, Iowa: From Rockwell City over U.S. Highway 20 to junction Iowa Highway 4, thence over Iowa Highway 4 to junction Iowa Highway 175, thence over Iowa Highway 175 to junction Iowa Highway 4, thence over Iowa Highway 4 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction Illinois Highway 56, thence over Illinois Highway 56 to Chicago, and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Des Moines, Iowa.

No. MC 53965 (Sub-No. 118), filed August 23, 1976. Applicant: GRAVES TRUCK LINE, INC., 2130 South Ohio, P.O. Box 1387, Salina, Kans. 67401. Applicant's representative: Larry E. Gregg, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), between Great Bend and Topeka, Kans., on the one hand, and, on the other, points in Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 59457 (Sub-No. 31), filed August 31, 1976. Applicant: SORENSEN TRANSPORTATION COMPANY, INC., Old Amity Road, Bethany, Conn. 06525. Applicant's representative: Thomas W. Murrett, 342 North Main Street, West Hartford, Conn. 06117. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies*, used in the manufacture and preparation of dated, printed publications and parts thereof, between Lancaster, Pa.; Albany and New York, N.Y.; Bridgeport, Bethan, and Old Saybrook, Conn., on the one hand, and, on the other, Albany, New York, Hauppauge and Carle Place, N.Y., and points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn.

No. MC 61592 (Sub-No. 394), filed August 30, 1976. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, R.R. #3, Jeffersonville, Ind. 47130. Applicant's representative: E. A. Devine, 101 First Avenue, P.O. Box 737, Moline, Ill. 61265. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and wood products* (except commodities in bulk), between points in California, Colorado, Idaho, Montana, Oregon and Washington, on the one hand, and, on the other, points in the United States on and east of a line beginning at the mouth of the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Seattle, Wash. or Chicago, Ill.

No. MC 74321 (Sub-No. 124), filed September 1, 1976. Applicant: B. F. WALKER, INC., P.O. Box 17-B, 1555 Tremont Place, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger, Cheery Creek Ctr., Suite 140, 360 South Monroe, Denver, Colo. 80209. Authority sought to operate as a *common carrier*, by vehicle, over irregular routes, transporting: *Aluminum, aluminum products, and supplies, materials, and equipment* used in the manufacture of aluminum and aluminum products (except in bulk) (1) between the plantsites of Alumax, Inc., located at Decatur, Ala., Casa Grande, Ariz.; Long Beach, Riverside, Visalia, Perris Valley and Woodland, Calif.; Loveland, Colo.; Ocala and Plant City, Fla.; Peachtree City and Jonesboro, Ga.; Chicago and Morris, Ill.; Lebanon, Bristol and Franklin, Ind.; McPherson, Kans.; Frederick, Md.; Montevidoe, Minn.; St. Louis, Mo.; Hernando, Miss.; Reidsville, N.C.; Cleveland, Ohio; Tulsa and Checotah, Okla.; Stayton, Oreg.; Bloomsburg, Pa.; Mansfield, Tex.; Harrisonburg, Va.; Spokane and Ferndale, Wash.; and Marshfield, Wis.; on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); and (2) between Twin Falls, Idaho, on the one hand, and, on the other, points in the United States (except Alaska, Hawaii, Arizona, California, Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah, Washington and Wyoming).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Denver, Colo. or Chicago, Ill.

No. MC 76032 (Sub-No. 320), filed August 2, 1976. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo. 80223. Applicant's representative: Eldon E. Bresee (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products and articles distributed by meat packinghouses* (except hides and commodities in bulk), as defined in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsite and warehouse facilities of Farmland Industries, Inc., located at Garden City, Kans., to points in Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia, restricted to the transportation of traffic originating at the above named origins and destined to the named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, Mo. or Denver, Colo.

No. MC 79267 (Sub-No. 1), filed August 30, 1976. Applicant: P & D WAREHOUSING & CARTAGE, INC., 7636 Canton Center Drive, Baltimore, Md. 21224. Applicant's representative: Charles E. Creager, 1329 Pennsylvania Avenue, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Molasses, syrup, cleaning, scouring and washing compounds, soap, soap powders and softeners, lard substitutes, drugs, chemicals, and toilet preparations*, from Baltimore, Md., to Jacksonville, Fla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Baltimore, Md.

No. MC 80430 (Sub-No. 158) (correction), filed July 27, 1976, published in the FEDERAL REGISTER issue of September 9, 1976, and republished as corrected this issue. Applicant: GATEWAY TRANSPORTATION CO., INC., 455 Park Plaza Drive, La Crosse, Wis. 54601. Applicant's representative: Drew L. Carraway, 501 Perpetual Bldg., 1111 E Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Iuka, Miss. and Memphis, Tenn. serving all intermediate points on U.S. Highway 72 from Iuka to junction Mississippi Highway 15: From Iuka, Miss. over U.S. Highway 72 to Memphis, Tenn., and return over the same route; (2) Between Columbus, Miss. and Corinth, Miss. serving all intermediate points: (a) From Columbus over U.S. Highway 45 to Corinth, Miss., and return over the same route; and (b) From Columbus over U.S. Highway 82 to junction U.S. Highway Alternate 45, thence over U.S. Highway Alternate 45 to junction U.S. Highway 45 and return over the same route: (3) Between Columbus, Miss. and Brownfield, Miss. serving all intermediate points: From Columbus, Miss. over U.S. Highway 82 to junction Mississippi Highway 15, thence over Mississippi Highway 15 to Brownfield, Miss., and return over the same route: (4) Between Columbus, Miss. and Iuka, Miss. serving all intermediate points: From Columbus, Miss. over U.S. Highway 45 to junction Mississippi Highway 25, thence over Mississippi Highway 25 to Iuka, Miss., and return over the same route.

(5) Between junction Mississippi Highway 15 with Mississippi Highway 32, and junction Mississippi Highway 32 with U.S. Highway Alternate 45, serving all intermediate points: From junction Mississippi Highway 15 and Mississippi Highway 32, thence over Mississippi Highway 32 to junction Mississippi Highway 32 and U.S. Highway Alternate 45, and return over the same route; and (6) Between Tremont, Miss. and Atlanta, Ga., serving no intermediate points: From Tremont, Miss. over U.S. Highway 78 to junction U.S. Highway 278 via Hamilton, Ala. thence over U.S. Highway 278 to junction Alabama Highway 5 via Natural Bridge, Ala., thence over Alabama Highway 5 to junction U.S. Highway 78 via Jasper, Ala., thence over U.S. Highway 78 to Atlanta, Ga., and return over the same route; serving as off-route points in connection with applicant's regular route operations requested in (1) through (6) above, all points in that part of Mississippi bounded on the east by the Mississippi-Alabama State line, on the north by the Mississippi-Tennessee State Line, on the west by Mississippi Highway 15, and on the south by U.S. Highway 82, including points on the indicated portions of Mississippi Highway 15 and U.S. Highway 82.

NOTE.—The purpose of this republication is to correct applicant's requested authority. Applicant presently holds authority to serve some of the requested points over irregular routes in its Sub-No. 152. Applicant indicates it does not seek duplicating authority. If a hearing is deemed necessary, the applicant requests it be held at Tupelo, Miss. and Orlando, Fla.

No. MC 82101 (Sub-No. 15), filed August 30, 1976. Applicant: WESTWOOD CARTAGE, INC., 62 Everett Street, Westwood, Mass. 02090. Applicant's representative: Harry J. Jordan, 1000 16th St., N.W., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail and chain grocery and general merchandise and food business houses, and in connection therewith, *equipment, materials and supplies*, used in the conduct of such businesses, from points in New York and Pennsylvania, to Readville, Mass., and New Haven, Conn., under contract or contracts, with Stop and Shop Companies, Inc.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 83539 (Sub-No. 439), filed August 27, 1976. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce St., P.O. Box 5976, Dallas, Tex. 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, wood products and millwork*, between points in California, Idaho, Montana, Nevada, Oregon, and Washington, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either San Francisco, Calif. or Seattle, Wash.

No. MC 94350 (Sub-No. 364), filed July 22, 1976. Applicant: TRANSIT HOMES, INC., P.O. Box 1628, Greenville, S.C. 29602. Applicant's representative: Mitchell King, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and *buildings*, in sections, mounted on wheeled undercarriages, from points in Hamilton, Merrick, and Scotts Bluff Counties, Nebr., to points west of the Mississippi River (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 95876 (Sub-No. 191), filed September 9, 1976. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Robert D. Gisvold, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay pipe, pipe fittings, pipe joints, and accessories, materials, and supplies* used in the installation thereof, from the plantsite and warehouse facilities of Clow Corporation located at or near Carol Stream, Ill., to points in Minnesota, North Dakota and South Dakota.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Minneapolis, Minn.

No. MC. 101075 (Sub-No. 122), filed September 3, 1976. Applicant: TRANSPORT, INC., P.O. Box 396, Moorhead, Minn. 56560. Applicant's representative: Ronald B. Pitsenbarger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer, liquid fertilizer ingredients, liquid fertilizer solutions and anhydrous ammonia*, in bulk, (1) from points in North Dakota, to points in Minnesota, North Dakota, South Dakota and Wisconsin; and (2) from points in Minnesota, on and west of U.S. Highway 71, to points in Iowa, Minnesota, Montana, North Dakota, South Dakota and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Minneapolis or St. Paul, Minn.

No. MC 103926 (Sub-No. 51), filed August 18, 1976. Applicant: W. T. MAYFIELD SONS TRUCKING CO., P.O. Box 947, Mableton, Ga. 30059. Applicant's representative: K. Edward Wolcott, Suite 1600, First Federal Bldg., Atlanta, Ga. 30303. No. MC 117119 (Sub-No. 597), filed September 3, 1976. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Deodorants, disinfectants, cleaning compounds, chemicals, packing materials and equipment* used in processing and packaging of above (except in bulk), in vehicles equipped with mechanical refrigeration, (1) from Carlstadt, N.J. to points in California, Texas, Colorado, Washington, and Oregon; and (2) from St. Peters, Mo. to points in California, Texas, Colorado, Washington and Oregon.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Philadelphia, Pa.

No. MC 118142 (Sub-No. 133), filed September 1, 1976. Applicant: M. BRUENGER & CO., INC., 6250 North Broadway, Wichita, Kans. 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foodstuffs* (except commodities in bulk, in tank vehicles); and (2) *frozen meats and meat byproducts* unfit for human consumption (except commodities in bulk, in tank vehicles), from the facilities of Wiscold, Inc., located at or near Beaver Dam, and Milwaukee, Wis., to points in Alabama, Arizona, Arkansas, California, Florida, Georgia, Louisiana, Mississippi, New Mexico, Oklahoma, South Carolina, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant request it be held at either Wichita, Kans. or Kansas City, Mo.

No. MC 118468 (Sub-No. 48), filed September 3, 1976. Applicant: UMTHUN TRUCKING CO., 910 South Jackson, P.O. Box 166, Eagle Grove, Iowa 50533. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Asbestos wallboard, insulation board, cement pipe and roofing materials* (except commodities in bulk and those which because of size or weight require the use of special equipment), from the facilities of Johns-Manville Sales Corporation, located at or near Waukegan, Ill., and Johns-Manville Perlite Corporation, located at or near Joliet, Ill., to points in Kansas and North Dakota, under a continuing contract, or contracts, with Johns-Manville Sales Corporation.

NOTE.—Applicant holds common carrier authority in No. MC 124813 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 119670 (Sub-No. 25), filed Aug. 16, 1976. Applicant: THE VICTOR TRANSIT CORPORATION, 5250 Este Avenue, P.O. Box 32115, Cincinnati, Ohio 45232. Applicant's representative: Robert H. Kinker, 711 McClure Bldg., P.O. Box 464, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from Cincinnati, Ohio, to points in Kentucky east and south of a line beginning at the Kentucky-Tennessee line over U.S. Highway 31-E to Bardstown, Ky., thence over U.S. Highway 150 to junction with Kentucky Highway 52 east of Danville, Ky., thence over Kentucky Highway 52 to Richmond, Ky., thence over Kentucky Highway 388 to junction with Kentucky Highway 627, thence over Kentucky Highway 627 to Winchester, Ky., thence over U.S. Highway 60, to Mt. Sterling, Ky., thence over Kentucky Highway 11 to the Kentucky-Ohio line at Maysville, Ky. (except points in Mason and Boyd Counties, Ky., and the Commercial Zones of Bardstown, Danville, Mt. Sterling, and Winchester, Ky.), and points in West Virginia (except points in Brooke, Cabill, Hancock, Kanawha, Ohio, and Wood Counties, W. Va.).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio.

No. MC 119789 (Sub-No. 299), filed August 30, 1976. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Newsprint paper and groundwood printing paper*, in rolls, from the plantsite and warehouse facilities of Kimberly-Clark Corporation located in Talledega County, Ala., to points in Arkansas, Kansas, Louisiana (except New Orleans and points in New Orleans Commercial zone), Missouri, Oklahoma and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Birmingham, Ala. or Dallas, Tex.

No. MC 119864 (Sub-No. 67), filed September 9, 1976. Applicant: CRAIG TRANSPORTATION CO., 26699 Eckel Road, Perrysburg, Ohio 43551. Applicant's representative: Dale K. Craig (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and metal container ends*, from the plant and warehouse facilities of Owens-Illinois located in Lucas and Wood Counties, Ohio, to points in Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Missouri, Pennsylvania, Tennessee and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich.

No. MC 119988 (Sub-No. 94) (Amendment) filed June 16, 1976, published in the FEDERAL REGISTER issue of July 8, 1976, and republished as amended this issue. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Hugh T. Matthews, 2340 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass products*, (1) from the Ford Motor Company Glass Plant, at or near Tulsa, Okla., to points in New Mexico, Texas, Arizona, Colorado, Utah, Nevada, Washington, Idaho, Montana, and Wyoming, restricted to the transportation of shipments originating at said plantsite; (2) from Seattle, Wash., to points in New Mexico, Texas, Oklahoma, Arizona, Colorado, Utah, Nevada, Idaho, Montana, and Wyoming; and (3) from Denver, Colo., to points in New Mexico, Texas, Oklahoma, Arizona, Utah, Nevada, Washington, Idaho, Montana, and Wyoming.

NOTE.—The purpose of this amendment is to indicate the modification of the territorial description, and to add Texas as a destination point. Applicant holds contract carrier authority in MC 140271, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Oklahoma City, Okla.

No. MC 119988 (Sub-No. 99), filed August 26, 1976. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Clayte Binion, 1108 Continental Life Bldg., Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Petroleum products and lubricating oils*, in containers, from the plantsite and warehouses of the Mobil Oil Corporation located at or near Beaumont, Tex., to points in Arkansas, Louisiana, Oklahoma and New Mexico; and (2), *empty containers*, from points in

V41196 OCT 76 UMI

Arkansas, Louisiana, Oklahoma, and New Mexico, to Port Arthur, Tex.

NOTE.—Applicant holds contract carrier authority in No. MC 140271 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Dallas or Houston, Tex.

No. MC 120098 (Sub-No. 29), filed August 30, 1976. Applicant: UINTAH FREIGHTWAYS, a corporation, 1030 South Redwood Road, Salt Lake City, Utah 84104. Applicant's representative: Thomas M. Zarr, P.O. Box 2465, Salt Lake City, Utah 84110. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Well drilling compounds*, between points in Colorado, Idaho, Nevada, Utah and Wyoming.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Salt Lake City, Utah.

No. MC 120761 (Sub-No. 15), filed August 27, 1976. Applicant: NEWMAN BROS. TRUCKING COMPANY, 6559 Midway Road, Fort Worth, Tex. 76118. Applicant's representative: Clint Oldham, 1108 Continental Life Bldg., Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Hardboard products and materials and supplies* used in connection with the installation thereof; and (2) *roofing materials and supplies*, from the warehouse distribution center and storage facilities of Masonite Corporation located at or near Grand Prairie, Tex., to points in Kansas, Louisiana, New Mexico and Oklahoma.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Dallas or Fort Worth, Tex.

No. MC 123255 (Sub-No. 82), filed September 9, 1976. Applicant: B & L MOTOR FREIGHT, INC., 140 Everett Ave., Newark, Ohio 43055. Applicant's representative: C. F. Schnee, Jr. (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Expanded plastic foam products*, from Latrobe, Pa., to points in Connecticut, Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Tennessee, Virginia, West Virginia, and the District of Columbia, restricted to shipments originating at the plantsite and warehouse facilities of Toyad Corporation located at or near Latrobe, Pa. and destined to the named destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio.

No. MC 123263 (Sub-No. 6), filed August 17, 1976. Applicant: FLOYD R. WANGERIN AND LORRAINE C. WANGERIN, a partnership, doing business as WANGERIN TRUCKING CO., Rural Route No. 2, Stephenson, Mich. 49887. Applicant's representative: Michael S. Varda, 121 South Pinckney St., Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed stone*, in bags, from points in Dickinson County, Mich., to points in Illinois, Indiana, Iowa, Minnesota, Missouri and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Green Bay, Wis. or Escanaba, Mich.

No. MC 123424 (Sub-No. 6), filed September 3, 1976. Applicant: POSA, INC., 122-24 Kingsland Avenue, Brooklyn, N.Y. 11222. Applicant's representative: Bruce J. Robbins, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, between the plantsite and storage facilities of Midland Glass Company, Inc., located at Cliffwood, N.J., and points in New York.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 124078 (Sub-No. 701), filed September 3, 1976. Applicant: SCHWERMAN TRUCKING CO., 611 South 28 Street, Milwaukee, Wis. 53215. Applicant's representative: Richard H. Prevette, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron ore dust compound*, from the facilities of Reiss Viking Corporation, located at or near Monongah, W. Va., to points in Kentucky, Ohio, Pennsylvania, Tennessee, Virginia and West Virginia.

NOTE.—Applicant holds contract carrier authority in No. MC 113832 (Sub-No. 68), therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Milwaukee, Wis.

No. MC 124078 (Sub-No. 702), filed September 2, 1976. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, Wis. 53215. Applicant's representative: James R. Ziperski, P.O. Box 1601, Milwaukee, Wis. 53201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ink and varnish*, in bulk in tank vehicles, from the plantsite of Flint Ink Corporation, at or near New Albany, Ind., to Glen Burnie, Md.

NOTE.—Applicant holds contract carrier authority in MC 113833 Sub 68, therefore dual operation may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Indianapolis, Ind.

No. MC 125950 (Sub-No. 11) (Correction), filed August 9, 1976, published in the FEDERAL REGISTER issue of September 23, 1976, republished as corrected this issue. Applicant: C.B.S. TRANSPORTATION, INC., 1207 Columbus Circle, Wilmington, N.C. 28401. Applicant's representative: Francis J. Ortman, 7101 Wisconsin Ave., Suite 605, Washington, D.C. 20014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit and vegetable containers*, from the facilities of Corbett Package Company, at Wilmington, N.C., and Pierpont-Corbett Box Company, at Savannah, Ga., to points in Tennessee on and east of U.S. Highway 231 (except points in Hamilton County, Tenn.).

NOTE.—The purpose of this republication is to indicate the points in Tennessee are located on and east of U.S. Highway 231. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C., or Washington, D.C.

No. MC 126899 (Sub-No. 104), filed September 3, 1976. Applicant: USHER TRANSPORT, INC., 3925 Old Benton Road, P.O. Box 3156, Paducah, Ky. 42001. Applicant's representative: George M. Catlett, 703-706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors*, in containers, from Paducah, Ky., to points in Alabama, Arkansas, Georgia, Indiana, Kansas, Louisiana, Mississippi, Missouri, Oklahoma, South Carolina, Tennessee, Texas and those in Illinois on and south of U.S. Highway 136.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Louisville or Paducah, Ky.

No. MC 126899 (Sub-No. 105), filed September 1, 1976. Applicant: USHER TRANSPORT, INC., 3925 Old Benton Road, P.O. Box 3051, Paducah, Ky. 42001. Applicant's representative: George M. Catlett, 703-706 McClure Bldg., Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcohol*, in bulk, in tank vehicles, from Muscatine and Clinton, Iowa, and Atchison, Kans., to Paducah, Ky.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Louisville or Paducah, Ky.

No. MC 126899 (Sub-No. 106), filed September 2, 1976. Applicant: USHER TRANSPORT, INC., 3925 Old Benton, Rd., P.O. Box 3051, Paducah, Ky. 42001. Applicant's representative: George M. Catlett, 703-706 McClure Bldg., Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages*, in containers, from Milwaukee, Wis., and Peoria, Ill., to Akron, Ohio; and (2) *empty malt beverage containers*, on return, from Akron, Ohio, to Milwaukee, Wis., and Peoria, Ill.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Akron or Columbus, Ohio.

No. MC 126904 (Sub-No. 18), filed August 19, 1976. Applicant: H. C. PARISH TRUCK SERVICE, INC., a corporation, RFD No. 2, Box 264, Freeburg, Ill. 62243. Applicant's representative: D. W. La Tourette, Jr., 11 S. Meramec, Suite 1400, Clayton, Ohio 63105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corrugated shipping containers*, from the plantsite of Weyerhaeuser Company, located at Omaha, Nebr. to Valmeyer, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either St. Louis, Mo.; Chicago, Ill. or Washington, D.C.

No. MC 127187 (Sub-No. 16), filed June 24, 1976. Applicant: FLOYD DUENOW, INC., 1728 Industrial Park Blvd., Fergus Falls, Minn. 56537. Applicant's representative: Gene P. Johnson, 425 Gate City Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed, feed ingredients and animal and poultry health products*, (1) between points in Minnesota, Montana, North Dakota and Wisconsin, on the one hand, and, on the other, points in Arkansas, Iowa, Illinois, Kansas, Minnesota, Missouri, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin and Wyoming and the upper peninsula of Michigan; and (2) between points in Iowa, Illinois, Indiana, Kansas, Minnesota, Missouri, Montana, Nebraska and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 133542 (Sub-No. 11), filed August 6, 1976. Applicant: FLOYD WILD, INC., P.O. Box 91, Route 2, Marshall, Minn. 56258. Applicant's representative: Samuel Rubenstein, 301 North Fifth Street, Minneapolis, Minn. 55403. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cabinets and vanity sets*, in shipper owned or leased trailers, from ports of entry on the International Boundary line between the United States and Canada, at or near Pembina or Portal, N. Dak., to Regina, Saskatchewan, Canada, under contract with Midcontinent Millwork, Inc., at Cottonwood, Minn.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Minneapolis or St. Paul, Minn.

No. MC 133689 (Sub-No. 81), filed September 8, 1976. Applicant: OVERLAND EXPRESS, INC., 719 First St., S.W., New Brighton, Minn. 55112. Applicant's representative: Robert P. Sack, P.O. Box 6010, West St. Paul, Minn. 55118. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foundry core compounds, adhesives and chemicals* (except in bulk), from Bainbridge, N.Y., to points in Illinois, Indiana, Michigan, Minnesota and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 133706 (Sub-No. 3), filed September 3, 1976. Applicant: ROBERT L. HARROLD, 215 West Adams Street, Taylorville, Ill. 62568. Applicant's representative: Robert T. Lawley, 300 Reisch Building, Springfield, Ill. 62701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Grain drying and storage equipment and component parts thereof, and harrows*, from Taylorville, Ill., to points in the United States (except Alaska, Georgia, Hawaii, Iowa, Missouri, Minnesota, North Dakota, South Carolina, and Tennessee), for the account of, and under a continuing contract, or contracts with, Baughman-Oster, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 134970 (Sub-No. 8), filed August 17, 1976. Applicant: UNZICKER TRUCKING, INC., P.O. Box 35, Highway 24 East, El Paso, Ill. 61738. Applicant's representative: Michael J. Ogborn, 605 South 14th St., P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Windows, doors, building woodwork and materials* used in the installation thereof, (1) from the Caradco Co., Division of Scovill, located at or near Rantoul, Ill., to points in Illinois; and (2) from points in Illinois, to the Caradco Co., located at or near Rantoul, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Des Moines, Iowa.

No. MC 135018 (Sub-No. 8), filed August 30, 1976. Applicant: SEAHORSE TRANSPORT, INC., P.O. Box 3707, Brownsville, Tex. 78520. Applicant's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies and equipment* utilized in the manufacture, production and distribution of electrical electromechanical, and electronic components (except commodities in bulk, in tank vehicles), from Cairo, Ga. and Selmer, Tenn. to Fayette, Miss. and Brownsville, Tex., restricted to the transportation of traffic either originating at, or destined to the facilities of ITT-Automotive Electrical Products Division and further restricted to service under a continuing contract, or contracts, with ITT-Automotive Electrical Products Division.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Detroit, Mich., or Houston, Tex.

No. MC 135052 (Sub-No. 10), filed August 19, 1976. Applicant: ASHCRAFT TRUCKING, INC., 875 Webster Street, Shelbyville, Ind. 46176. Applicant's representative: Warren C. Moberly, 777 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles*, other than expanded, and *materials, equipment and supplies* used in the manufacture and distribution thereof, between the facilities of PPG Industries, located at or near Columbus, Ind., and Newton, N.C., on the one hand, and, on the other, points in Arkansas, Delaware, Illinois, Iowa, Indiana, Kentucky, Maryland, Michigan, Minnesota, Missouri, New York, New Jersey, North Carolina, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Indianapolis, Ind. or Washington, D.C.

No. MC 135082 (Sub-No. 35), filed August 31, 1976. Applicant: BURSCH TRUCKING, INC., doing business as ROADRUNNER TRUCKING, INC., P.O. Box 26748, 415 Rankin Road, N.E., Albuquerque, N. Mex. 87125. Applicant's representative: D. F. Jones (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fire brick, fire clay, furnace or kiln, refractory products*, and *commodities* incidental to the installation thereof (except commodities in bulk moving in tank vehicles), between points in Audrain and Callaway Counties, Mo., on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming.

NOTE.—Dual operations and common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Albuquerque, N. Mex., or Phoenix, Ariz.

No. MC 135751 (Sub-No. 8), filed August 16, 1976. Applicant: ATLANTIC CARRIERS, INC., P.O. Box 284, Atlantic, Iowa 50022. Applicant's representative: A. L. Ross (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, from the facilities of Joseph Schlitz Brewing Co. located at Milwaukee, Wis., to Ace Distributing Co., Inc. located at Atlantic, Iowa, under a continuing contract, or contracts, with Ace Distributing Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Omaha, Nebr.; Kansas City, Kans.; Minneapolis, Minn. or Chicago, Ill.

No. MC 136321 (Sub-No. 2), filed August 30, 1976. Applicant: JK EQUIPMENT CORPORATION, 151 Fulton Avenue, White Plains, N.Y. 10606. Applicant's representative: Larsh B. Mewhinney, 235 Mamaroneck Avenue, White Plains, N.Y. 10605. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Nails, hardboard, ceiling tile, plywood, insulation board, reinforcing rods, reinforcing mesh, wire, aluminum rolls and sheets, copper rolls and sheets, construction hardware, and hardware cloth*, from points in the New York Commercial Zone, to White Plains and Kingston, N.Y., for the account of, and under a continuing contract, or contracts, with, Miller Supply Corp. and Guardian Purchasing Corp., restricted to the transportation of traffic having a prior movement by water.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either White Plains or New York, N.Y.

No. MC 138328 (Sub-No. 30), filed July 14, 1976. Applicant: CLARENCE L. WERNER, doing business as WERNER ENTERPRISES, 805 32nd Avenue, P.O. Box 831, Council Bluffs, Iowa 51501. Applicant's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Nebr.

V41 I196 OCT 7 76 UMI

68501. Authority sought to operate as *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed and feed ingredients* (except commodities in bulk, in tank vehicles), (1) between points in Kansas and Nebraska, on the one hand, and on the other, points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah and Washington; (2) between points in Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri and Wisconsin, on the one hand, and, on the other, points in Arizona, California, and Nevada; and (3) from points in Iowa and Minnesota, to points in Arkansas, Oklahoma and Texas: the service sought herein is restricted as follows: (a) against the transportation of soybean meal from Nebraska to points in Idaho and Utah; (b) against the transportation of di-calcium phosphate from Weeping Water, Nebr., to points in Idaho and Utah; and (c) against the transportation of dry feed and feed ingredients from Buhl, Idaho, to points in Nebraska.

NOTE.—Applicant holds contract carrier authority in No. MC 133233 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Omaha, Nebr. or Des Moines, Iowa.

No. MC 138328 (Sub-No. 31 (correction), filed August 11, 1976, published in the FEDERAL REGISTER issue of September 23, 1976, and republished as corrected this issue. Applicant: CLARENCE L. WERNER, doing business as WERNER ENTERPISES, P.O. Box 831, Council Bluffs, Iowa 51501. Applicant's representative: Michael J. Ogborn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferrous scrap metal*, from points in California, Colorado, Idaho, Iowa, Kansas, Minnesota, Missouri, Montana, Nevada, Oregon, South Dakota, Utah, Washington and Wyoming, to the Nucor Steel Mill, located at or near Norfolk, Nebr.

NOTE.—The purpose of this republication is to indicate the above named plantsite as applicant's destination point. Applicant holds contract carrier authority in No. MC 133233 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 138536 (Sub-No. 2), filed August 18, 1976. Applicant: METROPOLITAN VAN & STORAGE, INC., 635 Escobar Street, P.O. Box 829, Martinez, Calif. 94553. Applicant's representative: Keith V. Estates (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in California, restricted to the transportation of traffic having a prior or subsequent movement beyond said point in containers, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either San Francisco or Oakland, Calif.

No. MC 139017 (Sub-No. 3), filed September 2, 1976. Applicant: HEAD ENTERPRISES, INC., Route 2, Box 88, Adairsville, Ga. 30103. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Blvd., Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polyethylene plastic child resistant prescription bottles and plastic caps*, from the plantsite of M & M Plastics, Inc., at Chattanooga, Tenn., to Escondido and North Hollywood, Calif.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 139139 (Sub-No. 3), filed September 8, 1976. Applicant: LESTER GRAY, P.O. Box 372, Bemidji, Minn. 56601. Applicant's representative: Leseer Gray (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fencing and rails*, from Kelliher, Minn., to points in Illinois (except Chicago), Iowa (except Des Moines, Dubuque, Fort Madison, Mason City, and Waterloo), Nebraska, North Dakota (except Bismarck, Fargo and Grand Forks), South Dakota (except Aberdeen and Sioux Falls), and to Fort Smith and Little Rock, Ark.; Michigan City, Ind.; Kansas City, Mo.; Billings, Mont.; Oklahoma City and Tulsa, Okla.; Memphis, Tenn.; Dallas and Fort Worth, Tex.; and Eau Clair and La Crosse, Wis., restricted to traffic originating at the above named origin and destined to the above named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Duluth, Minn. or Grand Forks, N. Dak.

No. MC 139219 (Sub-No. 3), filed August 12, 1976. Applicant: LANE TRUCKING, INC., 2230 North Range, Dothan, Ala. 36301. Applicant's representative: William K. Martin, 57 Adams Avenue, Montgomery, Ala. 36104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer*, in bulk, in open dump trucks and dump trailers, (1) from the plant sites of Montevallo Limestone Sales, Inc. and Southern Stone Company, Inc., located at or near Maylene (Shelby County), Ala., to points in Calhoun, Jackson, Holmes, Okaloosa, and Santa Rosa Counties, Fla., and points in Calhoun, Decatur, Dougherty, Early, Grady, Miller, Mitchell, Quitman, Randolph, and Seminole Counties, Ga., (2) from points in Lee County, Ala., to points in Colhoun, Dougherty, Early, and Seminole Counties, Ga., and points in Jackson County, Fla.; and (3) from points in Jackson and Santa Rosa Counties, Fla., to points in Barbour, Bullock, Coffee, Covington, Crenshaw, Dale, Geneva, Henry, Houston, Pike, and Russell Counties, Ala., restricted against the transportation of ground dolomitic limestone and ground calcium limestone from Dixie Lime & Stone Company, Jackson County, Fla., to points in Alabama.

NOTE.—Applicant states it intends to tack the requested authority above with its existing irregular route authority in Sub No. (1). (A) at Albany, Ga. to transport the requested commodities above (a) from the plantsites of Montevallo Limestone Sales, Inc., and Southern Stone Company, Inc., located at or near Maylene (Shelby County), Ala., to points in Calhoun, Holmes, Jackson, Okaloosa, and Santa Rosa Counties, Fla., and Calhoun, Decatur, Dougherty, Early, Grady, Quitman, Mitchell, Miller, Randolph, and Seminole Counties, Ga.; and (b) from points in Lee County, Ala., to points in Calhoun, Dougherty, and Early Counties, Ga. and Jackson County, Fla.; and (B) at Dothan, Ala. to transport the requested commodities above, from Jackson and Santa Rosa Counties, Fla. to points in Barbour, Bullock, Coffee, Crenshaw, Covington, Dale, Geneva, Henry, Houston, Pike and Russell Counties, Ala. If a hearing is deemed necessary, the applicant requests it be held at either Dothan, Montgomery or Birmingham, Ala.

No. MC 139482 (Sub-No. 7), filed August 31, 1976. Applicant: NEW ULM FREIGHT LINES, INC., P.O. Box 347, County Rd. No. 29 West, New Ulm, Minn. 56073. Applicant's representative: James E. Ballenthin, 630 Osborn Bldg., St. Paul, Minn. 55102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Building board, wall board, insulating board, ceiling tile* and *accessories relating thereto, and materials and supplies, used in the installation thereof*, between Macon, Ga., on the one hand, and, on the other, points in Iowa, Minnesota, Nebraska, North Dakota, South Dakota and Wisconsin, restricted against the transportation of commodities in bulk.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 139495 (Sub-No. 165), filed August 30, 1976. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th St., P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Frederick J. Coffman, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe fittings, connectors and valves*, from Temple, Tex., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant holds contract carrier authority in No. MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Dallas, Tex. or Boston, Mass.

No. MC 139495 (Sub-No. 166), filed August 30, 1976. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th St., P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H St., N.W., Suite 1030, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay*, from the plantsite and storage facilities of Hartz Mountain Corporation

located at or near Wrens, Ga., to points in Illinois, Kansas, Kentucky, Michigan, Missouri, Texas, and Wisconsin.

NOTE.—Applicant holds contract carrier authority in No. MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 140389 (Sub-No. 9), filed August 31, 1976. Applicant: OSBORN TRANSPORTATION, INC., P.O. Box 1830, Gadsden, Ala. 35902. Applicant's representative: Jerome F. Marks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rugs, carpets and textile products*, from points in Georgia, to points in Arizona, California and New Mexico.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., San Francisco, Calif. or Washington, D.C.

No. MC 140421 (Sub-No. 8), filed August 5, 1976. Applicant: ACTION MOTOR EXPRESS, INC., 8303 Old Gentilly Road, P.O. Box 29102, New Orleans, La. 70189. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, La. 70130. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cans and can ends*, from New Orleans, La. and its Commercial Zone, to Memphis, Tenn. and its Commercial Zone, under a continuing contract or contracts with Continental Can Company, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New Orleans, La.

No. MC 140421 (Sub-No. 9), filed August 12, 1976. Applicant: ACTION MOTOR EXPRESS, INC., P.O. Box 29102, New Orleans, La. 70189. Applicant's representative: Harold R. Ainsworth, 2307 American Bank Building, New Orleans, La. 70130. NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Richmond or Norfolk, Va.

FINANCE APPLICATIONS

NOTICE

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control through ownership of stock, of rail carrier or motor carriers pursuant to Sections 5(2) or 210a(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rules 240(c) or 240(d) of the Commission's General Rules of Practice (49 CFR § 1100.240) and shall include a concise statement of protestant's interest in the proceeding. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

No. MC-F-12986. Authority sought for control and merger by ALL-AMERICAN, INC., 900 West Delaware, Sioux Falls, S.D., 57104, of the operating rights and properties of MID-CONTINENT FREIGHT LINES, INC., 2711 Fairview Avenue, North St. Paul, MN 55113. Applicants' attorneys: Carl L. Steiner, 39 S. LaSalle Street, Chicago, IL 60603 and William R. Busch, 803 Degree of Honor Bldg., St. Paul, MN 55101. Operating rights and properties sought to be controlled and merged: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, as a *common carrier* over regular routes serving Portage, Ind., as an off-route point in connection with carrier's regular-route operations to and from Chicago, Ill., *General commodities*, except those of unsual value, classes A and B Explosives and ammunition and component parts of ammunition, however classified, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between El Reno, Okla. and Tulsa, Okla., between Tulsa, Okla. and Kansas City, Mo., between Tulsa, Okla. and junction U.S. Highways 169 and 160, near Cherryvale, Kans., between junction U.S. Highway 66 and Alternate U.S. Highway 66, and Chicago, Ill., between Oklahoma City, Okla. and Kansas City, Mo., between El Reno, Okla. and Pond Creek, Okla., between Pond Creek, Okla. and Bartlesville, Okla.; between Lincoln, Ill. and Savanna Ordnance Depot or Proving Ground, Ill.; between Peoria, Ill. and Rock Island, Ill.; between Dallas, Tex. and Oklahoma City, Okla.; between Duncan, Okla. and El Reno, Okla.; between Kansas City, Mo. and junction U.S. Highway 69 and 65, near Albert Lea, Minn.; between junction U.S. Highways 69 and 65 at or near Albert Lea, Minn. and St. Paul, Minn.; between Chicago, Ill. and St. Paul, Minn.; between Green Bay, Wis. and St. Paul, Minn.; between Chicago, Ill. and Green Bay, Wis.; between junction U.S. Highways 66 and 24 near Cheno, Ill. and Kansas City, Mo.; between Cheno, Ill. and junction U.S. Highway 66 and Alternate U.S. Highway 66; between Rock Island, Ill. and St. Paul, Minn.; between Augusta, Kans. and Wichita, Kans. The service authorized over the above regular routes is as follows:

(a) Between Enid, Ponca City, Bartlesville, and Oklahoma City, Okla. on the one hand, and, on the other, Dallas, Tex., serving no other points, intermediate or terminal, except the intermediate points specified in (b) below. (b) Between points in Oklahoma on the above-described routes on the one hand, and, on the other, Kansas City, Mo., Wichita, and Augusta, Kans., Chicago, Joliet, Rock Island, and Peoria, Ill., St. Paul, Minn., Green Bay, Manitowoc, La Crosse, and Milwaukee, Wis., serving no other points intermediate or terminal. Serving on Route No. 10 is limited to service at Ardmore, Pauls Valley, and Norman, Okla. (c) The above-described rights shall be restricted to preclude the transportation of any traffic between the two terminal points of Dallas, Tex. and St. Louis, Mo., and between St. Louis and Dallas on the one hand, and, on the other, Tulsa and Oklahoma City, Oklahoma. Alternate routes for operating convenience only: *General commodities*, except those of unusual value, classes A and B explosives, and ammunities and component parts of ammunition, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between junction U.S. Highways 66 and 24, near Chenoa, Ill. and Dallas, Tex., in connection with carrier's regular-route operations, serving no intermediate points; between Minneapolis, Minn. and Tulsa, Okla., in connection with carrier's regular-route operations, serving no intermediate points; between Tulsa, Okla. and Dallas, Tex., in connection with carrier's regular-route operations, serving no intermediate points; between Minneapolis, Minn. and Dallas, Tex., in connection with Carrier's regular route operations, serving no intermediate points; between Rock Island, Ill. and junction U.S. Highways 61 and 24 at or near Taylor, Mo., in connection with carrier's regular-route operations, serving no intermediate points, and serving the junction U.S. Highways 61 and 24 near Taylor as a point of joinder only; between Rock Island, Ill. and Chicago, Ill., in connection with carrier's regular-route operations, serving no intermediate points; between Rock Island, Ill. and Milwaukee, Wis., in connection with Carrier's regular-route operations, serving no intermediate points with restrictions. *Glass containers* over irregular routes from Sand Springs, Okla., to points in Missouri (except Joplin, St. Louis, and Springfield, Mo.), and Illinois (Except Flora, Salem, Vandalia, and Effingham, Ill.) with no transportation for compensation on return except as otherwise authorized. Any repetition in the statement of the authority granted herein shall not be construed as conferring more than one operating right. *General commodities*, with exceptions between points in that part of Illinois on and north of U.S. Highway 36.

General commodities, with exceptions between Minneapolis, St. Paul, St. Louis Par, Hopkins, Robbinsdale, Columbia Heights, Golden Valley, Fort Snelling, Brooklyn Center, McCarron's Lake Richfield, New Brighton, Morningside, Fridley, Edina, Redrock, Browndale, North St. Paul, South St. Paul, West St. Paul, Invergrove Heights, St. Paul Park, Mendota, State Fair Grounds, Newport, and points in Rose Township, Ramsey County, Minn., with restrictions. *General commodities*, with exceptions over regular routes serving the facilities of Western Electric Company, Inc., at or near Goddard, Kans., as an off-route point in connection with carrier's authorized regular-route operations between Augusta and Wichita, Kans. Vendee is authorized to operate as a common carrier in Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Wisconsin, and Wyoming. Application has been filed for temporary authority under Section 210a(b).

No. MC-F-12983. Authority sought for purchase by TIMBER TRUCKING, INC., 4235 South 300 West, Salt Lake City, UT 84107, of a portion of the operating rights of F-B TRUCK LINE COMPANY, 1945 South Redwood Road, Salt Lake City, UT 84104, and for acquisition by DAVID R. DAVIDSON, JR., 4641 Holly Lane, Salt Lake City, UT 84117, of control of such rights through the purchase. Applicants' attorney: Miss Irene Warr, 430 Judge Bldg., Salt Lake City, UT 84111. Operating rights sought to be transferred: *Salt and Salt products*, as a *common carrier* over irregular routes from Flux, Lake Point, and Saltair, Utah, to points in Oregon and Washington, with no transportation for compensation on return except as otherwise authorized. Vendee is authorized to operate as a *contract carrier* in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. Application has not been filed for temporary authority under Section 210a(b).

No. MC-F-12982. Authority sought for control by JOHN SCHMITZ and JEFFREY MAYNARD, individuals, 338 South 17th Street, Milwaukee, WI 53233, of LANG CARTAGE CORP., 338 South 17th Street, Milwaukee, WI 53233. Applicants' attorney: John L. Bruemmer, 121 West Doty Street, Madison, WI 53703. Operating rights sought to be controlled: General commodities, with exceptions as a *contract carrier* over irregular routes from Milwaukee, Wis., to dealers of Stanley Home Products, Inc., located at points in Door, Oconto, Shawano, Brown, Dodge, Racine, Outagamie, Winnebago, Manitowoc, Calumet, Waukesha, Kewaunee, Fond du Lac, Sheboygan, Washington, Ozaukee, Milwaukee, Waupaca, Kenosha, Jefferson, Walworth, Rock Marquette, Waushara, Portage, Columbia, Green Lake, Menomonie, Marathon, Langlade, Dane, Green, and Sauk Counties, Wis., with no transportation for compensation on return except as otherwise authorized. *Such merchandise* as is dealt in by retail mail order houses, from La Crosse, Wis., to points in Winona, Wabasha, Goodhue, Dakota, Houston, Freeborn, Steele, Dodge, Mower, Olmsted, Fillmore, and Waseca Counties, Minn., and *Returned shipments* of the next above described commodities, from points in Winona, Wabasha, Goodhue, Dakota, Houston, Freeborn, Steele, Dodge, Mower, Olmsted, Fillmore, and Waseca Counties, Minn., to La Crosse, Wis., with restrictions. *Such merchandise* as is dealt in by wholesale business houses (except in bulk, in tank vehicles), from the plant site and storage facilities of McKesson & Robbins Drug Co., at West Allis, Wis., to points in Boone, De Kalb, Du Page, Kane, Lake, McHenry, Ogle, Stephenson, and Winnebago Counties, Ill., with no transportation for compensation on return except as otherwise authorized, with restrictions. John Schmitz and Jeffrey Maynard holds no authority from this Commission. However, John Schmitz is a controlling stockholder of Hennes Erecting Company, Inc., a Wisconsin Corporation, under certificate No. MC 141785, which is authorized to operate as a common carrier in Wisconsin and Illinois. John Schmitz also owns 25% interest in Hennes Trucking Co., an Ohio corporation under certificate No. MC 111862 and various subs which is authorized to operate as a contract carrier in Ohio, West Virginia, Indiana, Kentucky, Pennsylvania, Iowa, Arkansas, Illinois, Kansas, Michigan, Missouri, Oklahoma, Tennessee, Wisconsin, Nebraska, South Dakota, North Dakota, and Minnesota. Application has not been filed for temporary authority under Section 210a(b).

OPERATING RIGHTS APPLICATIONS DIRECTLY RELATED TO FINANCE PROCEEDINGS

NOTICE

The following operating rights applications are filed in connection with pending finance application under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with pending transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's *General Rules of Practice* (49 CFR § 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its applications.

V41 I196 OCT 7 76 UMI

No. MC 2229 (Sub-No. 196), filed August 20, 1976. Applicant: RED BALL MOTOR FREIGHT, INC., 3177 Irving Blvd., P.O. Box 47407, Dallas, Tex. 75247. Applicant's representative: Russell R. Sage, Suite 400, Overlook Bldg., 6121 Lincolnia Road, Alexandria, Va. 22312. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Bernalillo, Colfax, Curry, DeBaca, Guadalupe, Harding, Las Alamos, McKinley, Mora, Quay, Rio Arriba, Rossevelt, Sandoval, San Juan, San Miguel, Santa Fe, Scocorro, Taos, Torrance, Union, and Valencia Counties, N. Mex., restricted (a) against service between Albuquerque and Belen, N. Mex., and (b) to the transportation of packages or articles weighing 500 pounds or less.

NOTE.—The purpose of this filing is to join (by tacking) the separate paragraphs of the vendor's authority which is the subject of the directly related finance application in No. MC-F-12953 published in the FEDERAL REGISTER issue of September 16, 1976. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 69512 (Sub-No. 11), filed August 20, 1976. Applicant: THUNDERBIRD FREIGHT LINES, INC., 1515 South 22nd Avenue, Phoenix, Ariz. 85009. Applicant's representative: Russell R. Sage, Overlook Bldg., Suite 400, 6121 Lincolnia Road, Alexandria, Va. 22312. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). Between points in the Los Angeles, Calif. Commercial Zone and the Los Angeles Harbor, Calif. Commercial Zone, as defined by the Commission, and Indio, Calif. serving no intermediate points beyond the eastern boundary of the Los Angeles, Calif. Commercial Zone, and serving Indio for joinder only with applicant's existing authority between Indio, Calif. and Phoenix, Ariz.: From points in the Los Angeles, Calif. Commercial Zone and the Los Angeles Harbor, Calif. Commercial Zone, over Interstate Highway 10 to Indio, and return over the same route.

NOTE.—This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12953, published in the FEDERAL REGISTER issue of September 16, 1976. If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 142268 (Sub-No. 1), filed July 22, 1976. Applicant: GORSKI BULK TRANSPORT, INC., Box 700, Harrow, Ontario, Canada. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: (1) *Alcoholic beverages*, in bulk, in tank vehicles, from points on the United States-Canada boundary line at or near Champlain, Rouses Point and Trout River, N.Y.; and Derby Line and Newport, Vt.; and located on the Niagara and St. Lawrence Rivers, to Hartford, Conn.; (2) *alcoholic beverages*, in containers, from Allen Park, Mich., to points in Alabama, Arkansas, Kentucky (except Louisville, Ky. and points in its commercial zone, as defined by the Commission), Louisiana, Mississippi, Missouri and Tennessee; (3) *plastic resins* (except in bulk), from Washington, W. Va., and Ottawa, Ill., to ports of entry on the United States-Canada boundary line located at or near Rouses Point and Champlain, N.Y.; and Derby Line and Newport, Vt.; and points located on the St. Clair, Detroit, Niagara and St. Lawrence Rivers; (4) *methylene diphenyl diisocyanate*, in bulk, in tank vehicles, from Elizabethport, N.J. and Geismar, La., to ports of entry on the United States-Canada boundary line located on the Detroit, St. Clair, Niagara and St. Lawrence Rivers; and at Champlain, Rouses Point and Trout River, N.Y.; and Derby Line and Newport, Vt.; (5) *synthetic rubber*, from Buffalo, N.Y. and Geismar, La., to ports of entry on the United States-Canada boundary line located on the Detroit, St. Clair, Niagara and St. Lawrence Rivers; and at Champlain, Rouses Point and Trout River, N.Y.; and Derby Line and Newport, Vt.

(6) *Synthetic latex*, in bulk, in tank vehicles, from Naugatuck, Conn., to ports of entry on the United States-Canada boundary line located on the Detroit, St. Clair, Niagara and St. Lawrence Rivers; and at Champlain, Rouses Point and Trout River, N.Y.; and Derby Line and Newport, Vt.; (7) *plastic resins*, in bulk, from Detroit, Mich., to ports of entry on the United States-Canada boundary line located on the Detroit and St. Clair Rivers; (8) *plastic resins*, from Baton Rouge, La., to ports of entry on the United States-Canada boundary line located on the Detroit, St. Clair, Niagara and St. Lawrence Rivers; Champlain, Rouses Point and Trout River, N.Y. and Derby Line and Newport, Vt.; (9) *chemicals*, from Painesville, Ohio, to ports of entry on the United States-Canada boundary line located on the Detroit, St. Clair, Niagara and St. Lawrence Rivers; and at Champlain, Rouses Point and Trout River, N.Y.; and Derby Line and Newport, Vt.; (10) *chemicals* (except in bulk), from points on the United States-Canada boundary line at or near the Niagara, Detroit and St. Clair Rivers, to points in that part of the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana (except to Detroit, Mich., and points in its commercial zone, as defined by the Commission, and points in Wayne, Oakland, and Macomb Counties, Mich., within eight (8) miles of Detroit, Mich.); (11) *crude ammonia liquor*, in bulk, in tank vehicles, from the plantsite of the Semet-Solvay Division of the Allied Chemical and Die Corporation located at or near Buffalo (Harriet), N.Y., to the port of entry on the United States-Canada boundary line at or near Buffalo, N.Y.; and from Cleveland, Ohio to the port of entry on the United States-Canada boundary line at or near Detroit, Mich.; (12) *sodium bichromate*, in containers, from the plantsite of Allied Chemical Corporation located at Baltimore, Md., to the port of entry on the United States-Canada boundary line at Detroit, Mich.; (13) *sodium bisulphate waste*, in drums, and *scrubber liquor*, in bulk, in tank vehicles, from the port of entry on the United States-Canada boundary line at Detroit, Mich., to the plantsite of Allied Chemical Corporation located at Baltimore, Md.; (14) *ammonium sulfide solution*, in bulk, in tank vehicles, from Phillipsburg, N.J., to the port of entry on the United States-Canada boundary line at Detroit, Mich.; and

(15) *Alcoholic beverages* (except wines), in bulk, in tank vehicles, between the port of entry on the United States-Canada boundary line located at or near Detroit, Mich., and Peoria, Ill.; and *empty bottles and barrels*, between Hillsboro and Peoria, Ill., on the one hand, and, on the other, the port of entry on the United States-Canada boundary line located at or near Detroit, Mich.

NOTE.—The purpose of this application is to convert a Permit to a Certificate of Public Convenience and Necessity. This is a matter directly related to a Section 5(2) finance proceeding in MC-F-12898 published in the FEDERAL REGISTER issue of August 19, 1976. If a hearing is deemed necessary, the applicant requests it be held at either Detroit, or Lansing, Mich., or Washington, D.C.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Property (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this Federal Register notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PROPERTY

No. MC 48958 (Deviation No. 75), ILLINOIS-CALIFORNIA EXPRESS, INC., 510 E. 51st Ave., Denver, Colo. 80216, filed September 20, 1976. Carrier proposes to operate as a *common carrier* by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Amarillo, Tex., over U.S. Highway 287 to junction U.S. Highway 54 (near Stratford, Tex.), thence over U.S. Highway 54 to junction Interstate Highway 35 (near Wichita, Kans.), thence over Interstate Highway 35 to Topeka, Kans., thence over U.S. Highway 75 to junction Nebraska Highway 2 (Near Nebraska City, Nebr.), thence over

Nebraska Highway 2 to Lincoln, Nebr., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Amarillo, Tex., over U.S. Highway 66 to San Jon, N. Mex., thence over New Mexico Highway 39 to junction New Mexico Highway 58, thence over New Mexico Highway 58 to junction U.S. Highway 85, thence over U.S. Highway 85 to Denver, Colo., thence over U.S. Highway 6 to Sterling, Colo., thence over U.S. Highway 138 to junction U.S. Highway 30, thence over U.S. Highway 30 to junction U.S. Highway 34, thence over U.S. Highway 34 to Lincoln, Nebr., and return over the same route.

No. MC 76032 (Deviation No. 34), NAVAJO FREIGHT LINES, INC., 1205 S. Platte River Drive, Denver, Colo. 80223, filed September 20, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction New York Highway 5 and Interstate Highway 81 at Syracuse, N.Y., over Interstate Highway 81 to junction Interstate Highway 80 near Saint Johns, Pa., thence over Interstate Highway 80 to junction Interstate Highway 76 near Mineral Ridge, Ohio, thence over Interstate Highway 76 to junction Interstate Highway 71 near Wadsworth, Ohio, thence over Interstate Highway 71 to junction Interstate Highway 70 near Columbus, Ohio, thence over Interstate Highway 70 to Indianapolis, Ind., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From junction New York Highway 5 and Interstate Highway 81 at Syracuse, N.Y., over New York Highway 5 to Buffalo, N.Y., thence over U.S. Highway 62 to junction U.S. Highway 20, thence over U.S. Highway 20 to Cleveland, Ohio, thence over Ohio Highway 254 to junction Ohio Highway 57, thence over Ohio Highway 57 to Lorain, Ohio, thence over Ohio Highway 2 to junction unnumbered highway near Stryker, Ohio, thence over unnumbered highway to junction U.S. Highway 127 near Pulaski, Ohio, thence over U.S. Highway 127 to junction Ohio Highway 2 near Bryan, Ohio, thence over Ohio Highway 2 via Hicksville, Ohio to the Ohio-Indiana state line, thence over Indiana Highway 37 to Ft. Wayne, Ind., thence over U.S. Highway 24 to Huntington, Ind., thence over Indiana Highway 9 via Anderson, Ind., to junction U.S. Highway 36, thence over U.S. Highway 36 to Indianapolis, Ind., and return over the same route.

No. MC 112713 (Deviation No. 40), YELLOW FREIGHT SYSTEM, INC., P.O. Box 7270, 10990 Roe Ave., Shawnee Mission, Kans. 66207, filed September 27, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Amarillo, Tex., over U.S. Highway 287 to junction U.S. Highway 54 at Stratford, Tex., thence over U.S. Highway 54 to junction Kansas Highway 61 near Pratt, Kans., thence over Kansas Highway 61 to junction U.S. Highway 50 near Parridge, Kans., thence over U.S. Highway 50 to Ottawa, Kans., thence over Interstate Highway 35 to Kansas City, Mo., and return over the same route for operating convenience only. The notice indicates that the carrier is persently authorized to transport the same commodities, over a pertinent service route as follows: From Amarillo, Tex., over U.S. Highway 66 to Oklahoma City, Okla., thence over Oklahoma Highway 77 (formerly U.S. Highway 66) to Edmond, Okla., thence over Oklahoma Highway 66 (formerly U.S. Highway 66) to junction U.S. Highway 66, thence over U.S. Highway 66 to junction Kansas Highway 26, thence over Kansas Highway 26 to junction U.S. Highway 69, thence over U.S. Highway 69 to Kansas City, Mo., and return over the same route.

No. MC 30504 (Deviation No. 16), TUCKER FREIGHT LINES, P.O. Box 3144, South Bend, Ind. 46619, filed September 27, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Indianapolis, Ind., over Interstate Highway 74 to junction Interstate Highway 55, thence over Interstate Highway 55 to Springfield, Ill., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Indianapolis, Ind., over U.S. Highway 40 to junction U.S. Highway 66, thence over U.S. Highway 66 to Springfield, Ill., and return over the same route.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

NOTICE

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PASSENGERS

No. MC 1515 (Deviation No. 715), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed September 22, 1976. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction Interstate Highway 5 and Figueroa Street, over Interstate Highway 5 to junction California Highway 2, thence over California Highway 2 to junction California Highway 134, thence over California Highway 134 to Pasadena, Calif., and return over the same route for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over a pertinent service route as follows: From Los Angeles, Calif., over Figueroa Street to junction unnumbered highway (York Boulevard, Junction), thence over unnumbered highway to Pasadena, Calif., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATIONS

NOTICE

The following application for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's *General Rules of Practice* (49 CFR § 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall *not* be addressed to or filed with the Interstate Commerce Commission.

Florida Docket No. 760660–CCT, filed September 16, 1976. Applicant: BUCCANEER MOVING AND STORAGE CO., INC., 315 N. 2nd Street, Fernandina Beach, Fla. 32034. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *General commodities* (except commodities in bulk, heavy hauling, explosives, and commodities requiring special equipment), between points in Jacksonville, Fla. and its Commercial Zone as now defined and points in Nassau County, Fla. Intrastate, interstate and foreign commerce authority sought. Hearing: Date, time and place not yet fixed. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 Adams Street, Tallahassee, Fla. 32304 and should *not* be directed to the Interstate Commerce Commission.

Florida Docket No. 760666–CCT, filed September 17, 1976. Applicant: STEPHENS VAN TERMINAL, INC., 9500 N. W. 27th Avenue, Miami, Fla. 33147. Applicant's representative: John P. Bond, 2766 Douglas Road, Miami, Fla. 33133. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Transportation of *Motor Vehicles*, to, from, and between all points and places in the state of Florida, restricted however, that the applicant shall not transport more than three (3) motor vehicles at any one time. In-

■

STATEWIDE PROFESSIONAL STANDARDS REVIEW COUNCILS

Proposed Rulemaking

V 41 I 196 OCT 7 76 UMI

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 101]

STATEWIDE PROFESSIONAL STANDARDS REVIEW COUNCILS

Appointment and Performance of Functions

Notice is hereby given that the Assistant Secretary for Health of the Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposes to add a new Subpart S, entitled "Statewide Professional Standards Review Councils," to Part 101 of Title 42, Code of Federal Regulations.

The purpose of the present proposal is to implement section 1162 of the Social Security Act (42 U.S.C. 1320c–11), which provides for the appointment and performance of functions of Statewide Professional Standards Review Councils (Statewide Councils) in any State where three or more Professional Standards Review Organizations (PSROs) are established.

The proposal provides that the membership of each Statewide Council will be appointed by the Secretary. One representative designated by each PSRO in the State will be appointed. Four physicians will be appointed. The Secretary will request that the association representing the largest number of doctors of medicine in the State designate two members. However, since the statute gives specific recognition to doctors of osteopathy, in those States where the ratio of osteopathic physicians to total physician population is equal to or greater than the ratio of osteopathic physicians to total physician population in the United States, the Secretary will request that the membership association representing the largest number of doctors of medicine designate one physician, and that the membership association representing the largest number of doctors of osteopathy designate one physician. The Secretary will request that the association representing the largest number of hospitals in the State designate two physicians. Finally, four public members will be appointed from nominations of the Governor and the general public. At least two of the four public members must be chosen from the nominations of the Governor.

The proposal requires the Statewide Councils to perform a number of functions, including:

(1) Coordination of PSRO activities in the State;

(2) Dissemination of information;

(3) Assistance to the Secretary in the development of uniform data gathering and operating procedures;

(4) Assistance to the Secretary in the evaluation of PSROs;

(5) Assistance to the Secretary in replacing PSROs;

(6) Assistance in obtaining provider and practitioner compliance with obligations;

(7) Review of PSRO reconsiderations; and

(8) Review of PSRO reports and recommendations on sanctions.

The proposed regulations provide that in performing these functions the Statewide Council must maintain the confidentiality of the data which is confidential under section 1166 of the Act. Since Statewide Councils are required, under Title XI, Part B of the Act, to review PSRO decisions, sanction reports and other PSRO data and since the data so acquired by any Statewide Council will be, essentially, the data acquired by the PSRO, it must be protected as PSRO data, for purposes of section 1166 of the Act.

It should be noted that because Statewide Councils provide "professional counsel or services" to PSROs, within the meaning of section 1167(b) of the Act, it is the view of the Department that such Councils, their members and employees, would come within the protection of section 1167(b) of the Act limiting the liability of individuals who disclose information to PSROs.

In these proposed regulations, the section on review of PSRO reconsiderations (§ 101.1904(g)) makes reference to Subpart N rather than specifying how appeals are to be handled. Interim hearings and appeals regulations published in final form in the FEDERAL REGISTER on February 20, 1976, require review by the Statewide Council of adverse PSRO determinations where the matter in controversy is $100 or more. Public comment on this regulation has been received to the effect that the Statewide Council should review only cases where a party has requested a review, rather than reviewing every adverse PSRO determination. The issue is under consideration and will be addressed when the interim hearings and appeals regulations are amended.

Organizational and operational requirements for Statewide Councils are made under this proposal, and Statewide Councils are to enter into agreements with the Secretary under which they will be reimbursed for their reasonable expenses in performing their functions.

The new regulations policies of the Department issued July 25, 1976, require that this notice of proposed rulemaking (NPRM) have an implementation plan prepared prior to its issuance. In compliance with these requirements, an implementation plan was forwarded to the Secretary and he has authorized the issuance of this NPRM without the use of a Notice of Intent (NOI) which would otherwise be required by the new policies because:

1. There is an urgent requirement for these regulations.

2. Over an extended period of time there has been significant interaction between the Department and organizations and individuals in the development of this NPRM which has satisfied the spirit and intent of the NOI.

These proposed regulations, which have been under development for more than 2 years, have received extensive public exposure and discussion through several National Professional Standards Review Council meetings and through numerous meetings of interested parties which were held in individual States specifically to discuss developing regulations. Issues raised during this process have been thoroughly discussed and researchd and suggestions for change have been incorporated wherever possible.

Interested persons are invited to submit written comments, suggestions, or objections concerning the proposed regulations to the Director, Bureau of Quality Assurance, Health Services Administration, Room 16A–55, 5600 Fishers Lane, Rockville, Maryland 20852, on or before December 6, 1976. All comments received in timely response to this Notice will be considered and will be available for public inspection at the above-described office during regular business hours.

It is proposed to make this regulation effective upon republication in the FEDERAL REGISTER.

It is proposed to issue a new Subpart S of Part 101 of Title 42 as set out below.

Dated: August 20, 1976.

JAMES F. DICKSON,
Acting Assistant Secretary for Health.

Approved: September 29, 1976.

MARJORIE LYNCH,
Acting Secretary.

Subpart S—Statewide Professional Standards Review Councils

Sec.

101.1901 Scope.
101.1902 Definitions.
101.1903 Establishment and membership.
101.1904 Duties and functions.
101.1905 Organizational requirements.
101.1906 Operational requirements.
101.1907 Reporting requirements.
101.1908 Statewide council agreements.

AUTHORITY: Sec. 1162, Social Security Act, sec. 249F(b) of Pub. L. 92–603, 86 Stat. 1440–1441 (42 U.S.C. 1320c–11); sec. 1102 of the Social Security Act, 49 Stat. 647, as amended (42 U.S.C. 1302).

Subpart S—Statewide Professional Standards Review Council

§ 101.1901 Scope.

Section 1162(a) of the Social Security Act, 42 U.S.C. 1320c–11, provides that a Statewide Professional Standards Review Council shall be established in any State in which there are located three or more Professional Standards Review Organizations. This subpart establishes the requirements for such Statewide Professional Standards Review Councils.

§ 101.1902 Definitions.

As used in this subpart:

(a) "Act" means the Social Security Act, as amended (42 U.S.C. Chapter 7).

(b) "Secretary" means the Secretary of Health, Education, and Welfare or any other officer or employee to whom the authority involved has been delegated.

(c) "Physician" means an individual licensed to engage in the practice of medicine and surgery or in the practice of osteopathic medicine and surgery.

(d) "Statewide Council" means a Statewide Professional Standards Review Council.

(e) "PSRO" means a Professional Standards Review Organization, either conditionally or unconditionally designated.

§ 101.1903 Establishment and membership.

(a) *Establishment.* In each State in which there are located three or more PSROs, the Secretary will establish a Statewide Council.

(b) *Membership.* The membership of a Statewide Council shall consist of:

(1) One representative from each PSRO in the State;

(2) Four physician representatives; and

(3) Four persons knowledgeable in health care selected as representatives of the public in the State.

(c) *Selection and Qualifications of Statewide Council Members.* Statewide Council members will be appointed by the Secretary in the following manner:

(i) *PSRO representatives.* The Secretary will request that the governing body of each PSRO within the State designate a person as a representative to the Statewide Council, who is:

(A) A member of the designating PSRO; and

(B) Willing and able to discharge the responsibilities of membership in the Statewide Council. A person so designated will be appointed by the Secretary.

(2) *Physician representatives.* Four physician representatives of the Statewide Council will be designated in the following manner and appointed by the Secretary:

(i) *Designation by State medical society.*—The Secretary will request that the membership association or organization representing the largest number of doctors of medicine in the State designate two physicians performing professional activities within the State and willing and able to discharge the responsibilities of membership on the Statewide Council, to be members of the Statewide Council, except where the ratio of osteopathic physicians to total physician population in the State is equal to or greater than the ratio of osteopathic physicians to total physician population in the United States as determined by the Secretary. In such cases, the Secretary will request that the membership association or organization representing the largest number of doctors of osteopathy in the State designate one such physician to be a member of the Statewide Council and the membership association representing the largest number of doctors of medicine designate one such physician to be a member of the Statewide Council.

(ii) *Designation by State hospital association.*—The Secretary will request that the membership association or organization representing the largest number of hospitals in the State designate two physicians performing professional activities in the State and willing and able to discharge the responsibilities of membership on the Statewide Council to be members of the Statewide Council.

(iii) *Appointment of physician representatives.*—Physicians so designated in accordance with the preceding subparagraphs will be appointed to the Statewide Council by the Secretary.

(3) *Public representatives.* Four public representatives to the Statewide Council will be nominated in the following manner and appointed by the Secretary:

(i) *Nomination by the Governor of the State.*—The Secretary will request that the Governor of the State recommend persons qualified to be public representatives on the Statewide Council. At least two of such nominees will be appointed by the Secretary.

(ii) *Other nominations.*—The Secretary will solicit additional nominations for Statewide Council public representatives from other interested persons and organizations in the State by giving notice in the FEDERAL REGISTER as well as in other publications within the State, by informing those who are on a list of interested persons, and by other acceptable and practicable forms of notice.

(iii) *Qualifications of public representatives.*—Each public representative shall be:

(A) Knowledgeable by education and/or experience about health care in the State which is provided under Titles V, XVII, and/or XIX of the Act;

(B) Willing and able to represent the interest of the public; and

(C) Willing and able to discharge the responsibilities of membership in the Statewide Council.

The Governor shall, in nominating, and the Secretary will, in appointing, public representatives to the Statewide Council, give special consideration to qualified representatives of organizations and groups other than those whose representation on the Statewide Council is required by law (section 1162 (a) and (b) (1) and (2) of the Act; § 101.1903(b) (1) and (2) (PSRO Representatives and Physician Organization Representatives) of this Subpart) or which are represented on the Statewide Council Advisory Group (section 101.2202 of Subpart V of this part).

(d) Response to Secretary's Request for Designations and Nominations. Names of designees of PSROs, State medical societies, and State hospital associations and names of nominees from the Governor shall be forwarded to the Secretary within 60 days of the Secretary's official request for such nominees, unless an extension is granted by the Secretary for cause.

(e) *Terms.* In a Statewide Council's first year of operation, members shall be appointed for initial terms of 2 or 3 years and for terms of 3 years thereafter. There shall be an equal number of 2 and 3-year term positions in each of the three categories of representatives and, in the case of any category containing an odd number of representatives, there shall be an extra 3-year term position. Statewide Council members shall serve no more than two consecutive terms.

(f) *Termination of appointments.* (1) A Statewide Council member may resign his appointment at any time upon written notification to the Secretary.

(2) The Secretary may terminate the appointment of a Statewide Council member at any time for good cause.

(i) Good cause is defined for purposes of this section as failure to continue to meet membership qualifications specified in § 101.1903(c); serious professional and/or public misconduct, such as conviction for a felony offense; continued and substantial failure to perform the duties and functions required of Statewide Council members; and any breach of confidentiality, as defined in applicable regulations of this part.

(ii) Prior to termination of a Statewide Council member for good cause, the Secretary shall seek the advice and consider the recommendations of the Statewide Council.

(iii) Upon a determination that a Statewide Council member should be terminated for good cause, the Secretary will send written notification at least 30 days prior to the effective date of the termination, to the member, which will set forth the grounds for the termination, afford the member the right, prior to such effective date, to submit a statement and to request an informal meeting with an official designated by the Secretary. If no such statement or request is received prior to the effective date, the termination will be final on the effective date. If a request for a meeting with a designated official is timely made, the Secretary may postpone the effective date of the termination in order to enable the meeting to be held. Upon completion of the meeting, the designated official shall promptly recommend to the Secretary whether or not such termination should become effective. If the Secrtary, taking into consideration any information submitted and the recommendation of the designated official, if any, determines that good cause for termination does not exist, he will withdraw the notice of termination and notify the member of his decision.

(g) *Vacancy.* Where a vacancy on the Statewide Council occurs, whether by reason of expiration of membership term, death, resignation or removal, the Secretary will fill the vacancy in accordance with the applicable procedures specified in § 101.1903(c). If a vacancy occurs for reasons other than expiration of membership term, appointment will be made for the remainder of the unexpired term.

§ 101.1904 Duties and functions.

(a) *Coordination of PSRO activities.* Each Statewide Council shall coordinate the activities of the PSROs in its State to assure efficient PSRO operations and to support combined PSRO efforts in activities of mutual concern to the PSROs in the State. This activity shall involve identifying where cooperative efforts between or among PSROs are needed, determining with the PSROs the appropriate mechanisms for coordination, and assuring that the necessary support services for implementation are provided.

(b) *Dissemination of information.* Each Statewide Council shall disseminate information and data, with reason-

V41196 OCT 76 UMI

able frequency and in a reasonable form, among the PSROs in its State. Dissemination may include both data and information which is available from other agencies and organizations and is relevant to PSRO operations, and also data and information generated within the PSRO program, consistent with section 1166 of the Act and applicable confidentiality regulations of this part. This activity shall involve identifying the information and data desired by PSROs, the sources of such information and data, and the appropriate methods of making such information and data available, and assuring that the necessary support services are provided so that the dissemination occurs in an effective manner.

(c) *Data gathering procedures and operating procedures.* Each Statewide Council shall assist the Secretary at his request or the request of the PSROs in developing and coordinating effective uniform PSRO data collection and processing procedures among the PSROs in the State and in coordinating PSRO data activities in the State with other programs of the Department of Health, Education, and Welfare, including Cooperative Health Systems, Health Systems Agencies, and the programs under Title V, XVIII, and XIX of the Act.

(d) *Evaluation.* Each Statewide Council shall assist the Secretary at his request in evaluating the performance of the PSROs in its State according to criteria and procedures developed by the Secretary in consultation with the Statewide Council.

(e) *Replacement of a PSRO.* Where the Secretary finds it necessary to replace a PSRO in a State where a Statewide Council exists, the Statewide Council in such state shall assist in developing and arranging for a qualified replacment PSRO.

(f) *Assistance in compliance with obligations of practitioners and providers.* Each Statewide Council shall, in accordance with section 1160(c) of the Act, use such authority or influence as it may possess as a professional organization, and shall enlist the support of other professional or governmental organizations to assure that practitioners and providers who provide health care services in its State for which payment may be made in whole or in part under the Act comply with all obligations imposed under section 1160(a) of the Act. Each Statewide Council shall use educational and other appropriate means and shall work cooperatively with the PSROs in its State in carrying out these responsibilities.

(g) *Appeals.* Where an adverse PSRO determination has been reconsidered and reaffirmed pursuant to section 1159(a) of the Act and where the amount in controversy is $100 or more, the professional members of each Statewide Council shall review such determination pursuant to the requirements of Subpart N of this part.

(h) *Sanctions.* Each Statewide Council shall receive reports and recommendations from PSROs under section 1157 of the Act concerning violations of obligations under 1160(a) of the Act and shall promptly transmit such reports to the Secretary together with any comments or recommendations the Statewide Council deems appropriate in accord with applicable regulations of this part.

(i) *Confidentiality of data.* Any PSRO data or information acquired in the exercise of the PSRO duties and functions by a Statewide Council in the exercise of its duties and function under Title XI, Part B of the Act and this subpart which is confidential information under section 1166 of this Act, and sanction reports and recommendations of the Statewide Council made pursuant to sections 1157 and 1160(b) of the Act, shall be held in confidence and shall not be disclosed to any person except (1) to the extent that may be necessary to carry out the purposes of Title XI, Part B of the Act and this subpart, or (2) in such cases and under such circumstances as the Secretary shall, by applicable regulations on confidentiality of this part, provide to assure adequate protection of the rights and interest of patents, health care practitioners or providers of health care.

§ 101.1905 Organizational requirements.

(a) *Organization.* (1) Each Statewide Council shall be a private, nonprofit corporation established under applicable State law.

(2) Membership in the corporation shall be limited to members of the Statewide Council.

(3) The Board of Directors shall consist of all persons appointed by the Secretary as members of the Statewide Council.

(b) *Articles of incorporation.* The Articles of Incorporation of each Statewide Council and any subsequent amendments thereto, shall be approved by the Secretary prior to filing and shall be in conformance with State law, Title XI, Part B of the Act, and the requirements of this subpart.

(c) *Bylaws.* Bylaws of each Statewide Council shall be in conformance with the requirements of this subpart.

(d) *Purposes.* The purposes of the Statewide Council shall be limited to those duties and functions specified in § 101.1904, except where other functions related to such purposes shall be specifically approved by the Secretary.

(e) *Income.* The sole source of income of each Statewide Council shall be the funds received from the Secretary pursuant to the provisions of section 1162 (d) of Title XI of the Act, except as such other sources of funding may be approved by the Secretary. Neither the whole, nor any portion of the assets or income of the Statewide Council shall be used for objects or purposes other than those set forth in § 101.1904 or those specifically approved by the Secretary.

(f) *Officers.* Each Statewide Council shall elect a chairperson and such other officers from its membership as it deems necessary.

(g) *Committees.* (1) Each Statewide Council shall establish an Advisory Group Nominating Committee as provided for under § 101.2202(b) (1) of Subpart V of this part.

(2) A Statewide Council may establish an Executive Committee which shall consist of members of the Statewide Council including at least one PSRO representative, one physician representative, and one public representative.

(3) The composition, selection, powers, duties, and membership terms of each standing committee of a Statewide Council shall be defined in its bylaws. The bylaws shall specify a procedure for the establishment of ad hoc committees.

(4) A Statewide Council may appoint non-Statewide Council members to ad hoc committees, but non-Statewide Council members may not serve as members of Statewide Council standing committees.

(h) *Advisory Group.* Each Statewide Council shall actively seek advice from its Statewide Council Advisory Group, established pursuant to Subpart V of this part, with regard to the Statewide Council's activities.

(i) *Planning PSROs.* In States in which there are located organizations which have an agreement with the Secretary, pursuant to section 1169 of the Act, to prepare to meet the requirements of this part for designation as Professional Standards Review Organizations, the Statewide Council may seek advice and assistance from such organizations with regard to the Statewide Council's activities.

(j) *Executive Secretary.* The Statewide Council shall select and appoint an Executive Secretary to be employed upon either a full or part-time basis.

§ 101.1906 Operational requirements.

(a) *Calling of meetings.* (1) The Chairperson of each Statewide Council shall convene a meeting of its members as often as necessary in order to perform those functions specified in § 101.1904, and in any event, not less than four times a year.

(2) Each Statewide Council shall establish a method for the calling of a special meeting of the full Statewide Council.

(3) Meetings shall be held at a reasonable time and at a reasonable place with an adequate amount of space to allow for public access to, and participation in, said meetings to the extent not inconsistent with the provisions of paragraph (a) of this section.

(b) *Quorum and voting.* (1) Each Statewide Council shall determine quorum and voting requirements for meetings of the whole Statewide Council and for meetings of the committees consistent with the provisions of State law applicable to the corporation.

(2) There shall be no proxy voting, whereby the voting privilege of one member is exercised by another person, on Statewide Council matters.

(c) *Notice of meetings.* Each Statewide Council shall provide public notice of each regular meeting of the full Statewide Council and, to the extent practicable, for each special meeting. Such notices shall contain, at a minimum, the time and date of the meeting, the place of the meeting, the purpose of the meeting, and the extent to which the public will be permitted to attend or participate in the meeting. If the meeting or any portion thereof will be closed to the public, the notice shall state the reason for closing.

(d) *Public participation at meetings.* (1) Meetings, or any portion thereof, of a Statewide Council shall be open to the public, except when the meeting concerns review of: (i) Sanction reports or recommendations forwarded to the Statewide Council pursuant to section 1157 of the Act; (ii) review of PSRO reconsiderations pursuant to section 1159 (a) of the Act; (iii) internal administrative and personnel matters of the Statewide Council; (iv) information relating to commercial or proprietary matters; and (v) information the disclosure of which would constitute an invasion of personal privacy.

(2) Before or after a meeting, members of the public shall be permitted to file written statements with the Statewide Council.

(3) To the extent that the time available for an open meeting permits, and subject to the approval for such participation from the chairperson, members of the public may be permitted to make oral statements during the meeting.

(e) *Conflicts of interest.* (1) No Statewide Council director or committee member shall be permitted to review (i) health care services provided to a patient if the member was directly or indirectly involved in providing such services, or (ii) health care services provided in or by an institution, organization or agency, if the member or any member of the family of such member has, directly or indirectly, any financial interest in such institution, organization or agency as defined in applicable hospital review regulations of this part. The restrictions in this paragraph shall be construed in accord with the applicable regulations of this part concerning conflicts of interest for PSRO reviewers.

(2) A procedure for announcing and deciding upon conflicts of interest shall be specified in the bylaws.

(f) *Summaries of proceedings.* (1) Summaries of proceedings of all meetings of the Statewide Council and of meetings of its standing and ad hoc committees, shall be prepared promptly. Such summaries shall be available to the public for inspection and copying at the office of the Statewide Council during regular business hours consistent with the confidentiality requirements of section 1166 of the Act and the applicable regulations of this part.

(2) The completed summaries shall be certified by the chairperson of the Statewide Council or the chairperson of the committee, as appropriate, for accuracy within a reasonable time after each meeting.

§ 101.1907 Reporting requirements.

(a) Each Statewide Council shall prepare and submit to the Secretary annually a report containing the following information:

(1) Any changes in the organizational structure of the Statewide Council made during the year for which the report is made.

(2) The Statewide Council's activities for the year including a summary of meetings, a description of specific projects, and any recommendations.

(3) Description of goals and projects for the coming year.

(4) Other pertinent information which the Secretary may reasonably require.

(b) Each Statewide Council shall make such regular and special reports, in addition to the report required by paragraph (a) of this section, in such form and containing such information as the Secretary may reasonably require.

§ 101.1908 Statewide Council Agreements.

(a) The Secretary will enter into a Statewide Council agreement with each organization whose members have been appointed as Statewide Council members pursuant to § 101.1903, which is organized in accordance with § 101.1905 and which has offered assurances that it will perform the duties and functions of a Statewide Council under § 101.1904 in accordance with the operational requirements of § 101.1906.

(b) Each Statewide Council agreement shall provide that:

(1) The organization is designated by the Secretary as the Statewide Council for a particular State;

(2) The organization shall perform all the duties and functions of Statewide Council under Title XI, Part B of the Act and the applicable regulations of this part;

(3) The Secretary will make payments to such Statewide Council equal to the amount of expenses reasonably and necessarily incurred, as determined by the Secretary and under applicable reimbursement policies of the Secretary, by such Statewide Council in carrying out the duties and functions provided in this section;

(4) The organization shall establish an advisory group pursuant to Subpart V of this part; and

(5) The agreement may be terminated by the Secretary upon 90 days notice to the Statewide Council.[1]

[FR Doc.76-29267 Filed 10-6-76;8:45 am]

[1] Attention is called to the requirements of Executive Order 11246 (42 U.S.C. 2000e) which prohibits discriminating against any employee or applicant for employment because of race, color, religion, sex or national origin. Regulations implementing such Executive Order 11246, which are applicable to Statewide Councils under this subpart, have been issued by the Secretary of Labor (41 CFR Chapter 60).

PART III:

OFFICE OF MANAGEMENT AND BUDGET

■

PRIVACY ACT OF 1974

Systems of Records

V41 I196 OCT 7 76
UMI

OFFICE OF MANAGEMENT AND BUDGET

PRIVACY ACT OF 1974

Notice of Systems of Records

Pursuant to 5 U.S.C. 552a(e)(4), the Office of Management and Budget hereby publishes the Systems of Records as currently maintained by this agency. The Systems were originally published in the Federal Register on September 2, 1975, 40 F.R. 40493.

Additional changes not previously published are listed below:

1. A new system of records has been added—Clearance Office Information System—this system of records contains information concerning requests for clearance under the Federal Reports Act.

2. The "Routine Uses" has been changed to reflect the disclosure to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

3. Under categories of records for the system "Personnel Summary" the term occupational code was added to reflect additional information available on each employee.

These Systems of Records will be effective 30 days from the date of this publication (November 8, 1976). Written comments are invited within the 30 days, addressed to the Assistant to the Director for Administration, Office of Management and Budget, 17th and Pennsylvania Avenue, NW., Washington, D.C. 20503.

Velma N. Baldwin,
Assistant to the Director for Administration.

OMB/SPD/01

System name: Clearance Office Information System

Security classification: None

System location: Office of Management and Budget, Clearance Office, Statistical Policy Division, Room 10201 New Executive Office Building, 726 Jackson Place, N.W., Washington, DC 20503.

Categories of individuals covered by the system: Employees of the Executive Office of the President and employees of agencies subject to the provisions of the Federal Reports Act who are reviewing or who have submitted for review requests for clearence under the Federal Reports Act.

Categories of records in the system: These records contain a docket number for every request for clearance under the Federal Reports Act; all materials submitted by the agency requesting clearance, including the names of agency employees directly responsible for the request and the names of those authorized to submit it; all material received from interested persons, including the names of the persons; records of all consultations including names of persons consulted; minutes of any public meeting or hearings, including the names of persons attending; a worksheet containing OMB reviewer notes and recommended action; a copy of the OMB action signed by the Clearance Officer; and copies of the approved materials. They also include computer-generated records and reports which show the name of the OMB employee assigned to the review of each pending request for clearance; the name of the employee assigned to the review of each completed review; the name of each agency clearance officer; summary reports of the number of reviews assigned to and completed by each employee for the last completed month and for the year to date; and a record of each docket borrowed by an OMB employee with the name, room number and phone number of the borrower.

Authority for maintenance of the system: 44 U.S.C. 3501-3511.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored in three electric-powered rotary files, on a reference table within the Clearance Office, and in the OMB Records Depository. In addition, docket information is stored on computer disk for use in preparing inventory and control reports and listings. Materials stored on the reference table for immediate access consist of the current inventory of reporting and record-keeping requirements cleared by OMB under the Federal Reports Act, the inventory of requests for clearance under the Federal Reports Act presently under review, and the inventory of OMB completed clearance actions for the current and preceding months.

Retrievability: Records are filed by OMB docket number except for some computer generated records which may be retrieved by agency clearance officers or the OMB reviewer number. Access to materials in the Records Depository is limited to the staff of the OMB Records Unit. There are no restrictions on access to materials in the rotary files except that no docket may be withdrawn from the file except by a member of the Clearance Office staff or by a member of the OMB staff or a member of an agency staff working under the instruction of a member of the Clearance Office staff. Except as provided below (see Safeguards) there are no restrictions to access of the material that is stored on the reference table for immediate use. Material processed in the OMB computer center is released only to authorized Clearance Office staff.

Safeguards: All records are under the immediate surveillance of Clearance Office staff during working hours. The materials in the rotary files are locked at all other times. The Records Depository is locked during nonoffice hours. The Computer Center is in a secured area.

Retention and disposal: Active dockets are retained in the Clearance Office Information System until the period of time for which they have been cleared expires. They are then transferred to the OMB Records Depository for destruction or transfer to National Archives under existing regulations.

System manager(s) and address: Clearance Officer, Statistical Policy Division, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

Notification procedure: Requests to be notified whether the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th and Pennsylvania Avenue, N.W., (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations, (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information is obtained from material submitted by agency requesting clearance and internal OMB work plans.

Systems exempted from certain provisions of the act: Not applicable.

OMB/LIBRY/01

System name: Library Circulation System

Security classification: None

System location: Office of Management and Budget Library, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Employees of the Executive Office of the President.

Categories of records in the system: These records contain titles and other identifying data on materials borrowed from the OMB Library; name, room number, organization, and telephone number of borrower; and the return date for each item borrowed.

Authority for maintenance of the system: Federal Property and Administrative Services Act, Title II, Sec. 202(b)(1), 40 U.S.C. 483(b)(1).

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are stored at the circulation desk of the OMB Library.

Retrievability: Records are arranged alphabetically by last name of borrower, by title of item borrowed, by organization to which borrower belongs, and by order of input into the system.

Safeguards: Access to records is under constant surveillance by Head of Reference and Loan Section during normal working hours. Secured in locked room after work hours.

Retention and disposal: Records are retained on individual library loans only until the item is returned to the Library. Reports on the status of loans are generated daily; current and preceding day's reports are retained.

System manager(s) and address: Librarian, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Requests to be notified whether or not the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information obtained from individual to whom it pertains and from physical examination of materials borrowed.

Systems exempted from certain provisions of the act: Not applicable.

OMB/BUDGO/01

System name: Payroll and Leave Records

Security classification: None

System location: Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Former and current employees of the Office of Management and Budget, the Domestic Council, and the Council of Economic Advisers.

Categories of records in the system: These records contain information relating to the individuals name, Social Security number, age, sex, marital status, appointment, tenure, employment status, and occupation series. These records also contain data as of the year to date and the most recent pay period with regard to leave earned, used, and balances, withholdings, and allotments to financial institutions.

Authority for maintenance of the system: 5 U.S.C. 301, 31 U.S.C. 66a, 44 U.S.C. 3101, 3309.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are filed in a file cabinet in the Payroll Office or in Federal Records Center Boxes in the OMB Records Depository.

Retrievability: Records are filed in chronological order by calendar year and by name. Access is limited to the staff of the Budget and Management Office and the Records Unit, and the appropriate supervisory officials, the Assistant to the Director for Administration, the Deputy Director, and the Director.

Safeguards: Only Budget and Management Office staff and the Records Unit staff have access on a regular basis. Both the Budget and Management Office and the Records Depository are locked during nonworking hours and under visual surveillance during working hours.

Retention and disposal: Temporary records subject to General Accounting Office audit are retained until completion of the audit which generally occurs every 2-4 years. Permanent records, Comprehensive Listing of Employee Master File (Form TUS 404), are retired to National Archives after 6 years.

System manager(s) and address: Budget and Management Officer, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Requests to be notified whether or not the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information obtained from employees application for employment, and withholding statements prepared by the employee.

Systems exempted from certain provisions of the act: Not applicable.

OMB/BUDGO/03

System name: Personnel Summary

Security classification: None

System location: Budget and Management Office, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

Categories of individuals covered by the system: Current employees of the Office of Management and Budget, regardless of their type of appointment. A record of the employment as of the end of the preceding fiscal year is also maintained.

Categories of records in the system: These records contain the following information on each employee: (a) name, (b) date of birth, (c) sex, (d) minority status, (e) degree, (f) date employee entered on duty with OMB or BOB, (g) type of appointment, (h) status of employment, (i) division and branch where employed, (j) occupational classification, (k) professional or nonprofessional identification, (l) grade and step, (m) annual salary, (n) daily rate, (o) service computation date, (p) date of last promotion, (q) person years of employment, and (r) occupation code.

Authority for maintenance of the system: 5 U.S.C. 301 and 44 U.S.C. 3101

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Record is maintained on a computer from a commercial time-sharing firm under contract with OMB.

Retrievability: Access from the computer is restricted by an access code and is limited to two employees in the Budget and Management Office. The record, which is updated monthly is distributed to the Assistant to the Director for Administration and the staffs of the Budget and Management Office and the Personnel Office. Upon request a copy is made available to OMB's Equal Employment Opportunity Officer or his/her designee.

Safeguards: Access and distribution is limited as described above. In addition the terminals by which access can be obtained are located in the Budget and Management Office which is locked during nonworking hours. Copies of the record that are distributed internally as specified above are secured in a locked room or locked file cabinet during nonworking hours.

Retention and disposal: The record covering the most recent pay period and a record as of the end of the fiscal year are maintained. Prior copies are destroyed.

V41 I196 OCT 7 76 UMI

System manager(s) and address: Budget and Management Officer, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

Notification procedure: Requests to be notified whether or not the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. Must provide building pass or some other form of verification that the individual is current or former employee of OMB. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations, (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information is obtained from employees application (SF 171) and subsequent Notification of Personnel Actions (SF 50).

Systems exempted from certain provisions of the act: Not applicable.

OMB/LEGIS/01

System name: Private Relief Legislation

Security classification: Generally none.

System location: Legislative Information Center, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Individuals who are the subject of proposed or enacted private relief legislation.

Categories of records in the system: The information contained in these records consists of only those private relief bills requiring Office of Management and Budget review as specified in OMB Circular No. A-19, Revised. The information maintained may include copies of a draft bill proposed by an agency as defined in the Circular, copies of bills introduced in the Congress, and, if applicable, Congressional committee reports, agency memorandums and letters, OMB memorandums and letters, and other documents as may be needed in connection with the legislative coordination and clearance process. Certain individual records may also contain correspondence from and to the individual about whom the information is maintained.

Authority for maintenance of the system: Office of Management and Budget Circular No. A-19, Revised July 31, 1972.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: The records are stored in an electronically powered rotary file.

Retrievability: Information is retrieved by name of individual, bill number, or private law number. Access is limited to the Director, Deputy Director, General Counsel, staff of the Legislative Reference Division, OMB program analysts and their supervisors.

Safeguards: Rotary power file is locked during nonworking hours and under visual surveillance during working hours.

Retention and disposal: Permanent records are maintained on private relief bills introduced during the current and prior two sessions of Congress and then transferred to the National Archives.

System manager(s) and address: Supervisor, Legislative Information Center, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165). State name, date of birth, private relief bill number, if known, or the approximate date the bill was introduced and a general statement of the relief requested or granted.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: See item 06.

Systems exempted from certain provisions of the act: Not applicable.

OMB/PERSL/01

System name: Recruiting and Applicant Records.

Security classification: None

System location: Personnel Office, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Persons who have applied for employment consideration or otherwise seeking an association with the Office of Management and Budget; individuals referred for consideration by a variety of organizations and persons; and current and former college or university students exploring placement opportunities with the Office.

Categories of records in the system: These records contain information relating to the education and training; employment history and earnings; appraisal of past performance; convictions for offenses against the law; results of written tests; appraisal of potential; honors, awards, or fellowships; military service, veterans preference, birthplace; birth date; social security number; names of relatives who are employed in the Federal service; legal residence; and home address of persons who have applied for employment with the Office of Management and Budget or have been referred for employment consideration by the Office of Management and Budget.

Authority for maintenance of the system: Title 5 U.S.C., Section 3109, 3301, 3302, 3304, 3309, 3318, 3319, and Executive Orders 10577 and 11103.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Records are maintained in file folders and on cards, lists, and forms.

Retrievability: Records are indexed by the names of the individuals on whom they are maintained.

Safeguards: Access to and use of these records are limited to those persons whose official duties require such access. Personnel screening is employed to prevent unauthorized disclosure. Applications are located in metal file cabinets in a secured room.

Retention and disposal: The records are maintained in the Personnel Office up to two years and are retired to the Records Section for retention for three additional years and then disposed under the GSA general records schedule 1.

System manager(s) and address: Personnel Officer, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Individuals should contact the Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th and Pennsylvania Avenue, N.W., Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5 Code of Federal Regulations (40 F.R. 34165).) The request should be made in writing, giving full name, date of birth, social security number, the approximate date of most recent application, or when and where contact with an OMB representative was most recently made, if appropriate.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information in this system of records either comes from the individual to whom it applies or is derived from information he or she supplied, except reports from medical personnel on physical qualifications; results of examination which are made known to applicants and vouchers supplied by references.

Systems exempted from certain provisions of the act: None.

OMB/RECDS/01

System name: Researcher Request File

Security classification: None

System location: Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Persons who have requested to examine official records or reference materials prepared by the Bureau of the Budget or the Office of Management and Budget.

Categories of records in the system: This system of records contains the initial letter submitted by individuals asking to examine the official agency records, including a statement as to the nature and purposes of the research, their present occupation, home and/or place of employment. Brief descriptions and locations of the records reviewed, examined and copied are also maintained in the file.

Authority for maintenance of the system: 5 U.S.C. 301, Title 44, U.S.C. 3101-3103, 3105, 3106.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are maintained in file folders and on index cards located in the OMB Records Depository.

Retrievability: The records are indexed and alphabetically arranged by names of individuals and cross-referenced by record or research subject. Access is restricted to the Assistant to the Director for Administration and the Records Unit.

Safeguards: Records Depository is locked during nonworking hours and is under the visual surveillance of Records Unit staff during working hours.

Retention and disposal: Files are retained for a period of eight years and then destroyed.

System manager(s) and address: Records Officer, Office of Management and Budget, 726 Jackson Place, Washington, D.C. 20503.

Notification procedure: Requests to be notified whether or not the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165).

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Personal information is received only from the individual. No additional data concerning the individual is added to the file.

Systems exempted from certain provisions of the act: Not applicable.

OMB/ADSER/01

System name: Staff Directory Card

Security classification: None.

System location: Administrative Services, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Current OMB employees.

Categories of records in the system: This system of records contains information on each employee consisting of name, address, person to notify in an emergency, home address, residence telephone number, office room number, Division or unit symbol, and office telephone extension.

Authority for maintenance of the system: 5 U.S.C. 301, 44 U.S.C. 3101

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Forms are maintained in a metal file cabinet specially adapted for directory cards.

Retrievability: Records are filed in alphabetical order. Access to the record is restricted to Administrative Services Office and Budget and Management Office employees. In emergency situations, the records may be accessed by the employee's supervisor.

Safeguards: The Administrative Services Office is locked during nonoffice hours.

Retention and disposal: Record is destroyed when employee terminates employment with OMB.

System manager(s) and address: Administrative Services Officer, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165). Supply name and building pass.

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information contained in the system is obtained from the employee.

Systems exempted from certain provisions of the act: Not applicable.

OMB/ADSER/02

System name: Staff Parking Application File

Security classification: None

System location: Administrative Services, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: OMB employees who have applied for parking permits during the previous year and individuals employed by other agencies and private concerns who are riders in their carpools.

Categories of records in the system: The system contains completed OMB Forms 73 submitted by OMB employees who desire a parking permit. The form contains the following information on person making the application: name, GS grade, office or divison, room number, telephone extension, years of Federal service, home address, home telephone number, zip code, make of car and for each rider, name, home address, employer, and years of Federal service, if applicable.

Authority for maintenance of the system: General Services Administration Federal Management Circular 74-1, Suppl. 2 dated November 15, 1974 and Office of Management and Budget Office Memorandum No. 75-23.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Forms are maintained in a three-ring binder.

Retrievability: Records are kept in numerical order by parking permit number and by name. Access is limited to the Assistant to the Director for Administration, staff of the Administrative Services Office, and upon request, the individual to which the information pertains.

Safeguards: Administrative Services Office is locked during nonworking hours.

Retention and disposal: The file is maintained for one year following the close of the parking year (March 1).

System manager(s) and address: Administrative Services Officer, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C.

VOL 41 NO 196 OCT 7 76 UM

20503. (See also Chapter III, Part 1302 of Title 5 Code of Federal Regulations (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information contained in the system was obtained from the individual to whom record pertains.

Systems exempted from certain provisions of the act: Not applicable.

OMB/BUDGO/02

System name: Staff Travel Records

Security classification: None.

System location: Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Employees (current and former) of the Office of Management and Budget, the Domestic Council, and the Council of Economic Advisers regardless of type of appointment, and other individuals, who have performed travel at government expense on official business.

Categories of records in the system: These records contain the approved travel authorization, the travel vouchers submitted by the individual, memos of approval for special conveyance or actual subsistence, and receipts as may be required by the Federal Travel Regulations (FPMR 101-7).

Authority for maintenance of the system: 31 U.S.C. 66a, 44 U.S.C. 3101, 3102, 3301, 3309, and General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies, Title 8, Chapter 2, Sections 4 and 5.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: Current records are maintained in folders in metal file cabinets. Noncurrent records are filed in Federal Records Center Boxes in the OMB Records Depository.

Retrievability: Records are alphabetically arranged by name according to fiscal year. Access to the records described herein is restricted to staff of the Budget and Management Office, the appropriate supervisory officials, the Assistant to the Director for Administration, the General Counsel, or his designee, the Deputy Director, Director, Executive Director, Domestic Council, and Chairman, Council of Economic Advisers.

Safeguards: Only Budget and Management Office staff and the Records Unit staff have access on a regular basis. Both the Budget and Management Office and the Records Depository are locked during nonworking hours and under visual surveillance during working hours.

Retention and disposal: Current records are maintained in the Budget and Management Office until they have been audited by the General Accounting Office. Noncurrent records are maintained by the Records Unit for 6 years following which time they are disposed of in accordance with the Records Disposition Schedules established by the General Services Administration General Schedule No. 9.

System manager(s) and address: Budget and Management Officer, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Requests to be notified whether or not the system contains a record pertaining to an individual should be addressed to Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations, (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Content of records is obtained from the individual to whom the information pertains. Additional information may be added by the Budget and Management Office staff as a result of an internal audit.

Systems exempted from certain provisions of the act: Not applicable.

OMB/CAVAD/01

System name: Veterans Education and Training Load Model

Security classification: None

System location: Office of Management and Budget Computer Center, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Categories of individuals covered by the system: Veterans and other eligibles using VA GI Bill education benefits.

Categories of records in the system: These records contain beneficiary name, address, identification number, as well as the name and address of the training institution, type of training, amount of training, and number of dependents, date of separation from the armed forces, remaining eligibility, remaining entitlement, and other accounting data.

Authority for maintenance of the system: Budget and Accounting Act, 1921 (31 U.S.C. 1-24)

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual and to officers and employees of OMB in connection with the performance of their official duties for the agency (See 'Retrievability').

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage: These records are on magnetic tape, provided by the VA, and when not being used on the computer for the extract run, are in a tape storage area.

Retrievability: Records are arranged in numerical sequence by identification number, usually Social Security number.

Safeguards: Data is on tape, therefore there is no direct access. The tapes are locked in the computer room when not actually being used by the machine and are accessible only to one computer job. The tapes are removed from NEOB back to VA when the job is completed.

Retention and disposal: Upon completion of the extract run, the tapes are returned to the VA.

System manager(s) and address: Veterans Unit, CVA Division, Office of Management and Budget, New Executive Office Building, 726 Jackson Place, N.W., Washington, D.C. 20503.

Notification procedure: Since this file is only a duplicate of the VA Master Education File, no changes can be made at this site which will affect the utility of any of the records. For notification of whether the system contains data on a particular individual, inquiry should be made to the Assistant to the Director for Administration, Office of Management and Budget, Old Executive Office Building, 17th & Pennsylvania Avenue, N.W., Washington, D.C. 20503. (See also Chapter III, Part 1302 of Title 5, Code of Federal Regulations (40 F.R. 34165).)

Record access procedures: Same as above.

Contesting record procedures: Same as above.

Record source categories: Information obtained from individual applicant for training, the training institution, and the appropriate branch of the armed services.

Systems exempted from certain provisions of the act: Not applicable.

BUDGET DEFERRALS

V41 1976 OCT 7 76 UM

OFFICE OF MANAGEMENT AND BUDGET

BUDGET DEFERRALS

TO THE CONGRESS OF THE UNITED STATES:

In accordance with the Impoundment Control Act of 1974, I herewith report 33 deferrals of funds totalling $761.7 million. The deferrals are primarily routine in nature and do not, for the most part, affect program levels. The details of each deferral are contained in the attached reports.

Gerald R. Ford

THE WHITE HOUSE, October 1, 1976.

Summary of Proposed Deferrals
(in thousands of dollars)

Deferral #	Item	Budget Authority
	Funds Appropriated to the President:	
D77-1	Emergency refugee and migration assistance fund	8,640
	Agriculture:	
	Foreign Agricultural Service:	
D77-2	Salaries and expenses (special foreign currency program)	1,610
	Agricultural Stabilization and Conservation Service:	
D77-3	Commodity Credit Corporation	2,919

SUMMARY OF SPECIAL MESSAGES
FOR FY 1977
(amounts in thousands of dollars)

	Rescissions	Deferrals
Third special message:	---	761,697
Previous special messages:	134,100	---
Total amount proposed in special messages	134,100 (in 4 rescission proposals)	761,697 (in 33 deferrals)

NOTE: All amounts listed represent budget authority except for $123,731,858 consisting of two general revenue sharing deferrals (of outlays only).

Deferral No: D77-1

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Funds Appropriated to the President
Bureau:

Appropriation title & symbol:
Emergency Refugee and Migration Assistance Fund

11X0040

OMB identification code: 1/
11-0040-0-1-151

Grant program ☐ Yes ☒ No

Type of account or fund:
☐ Annual
☐ Multiple-year _____ (expiration date)
☒ No-year

New budget authority (P.L. _____) $ _____
Other budgetary resources 10,000,000
Total budgetary resources 10,000,000

Amount to be deferred:
Part of year $ 8,640,000
Entire year _____

Legal authority (in addition to sec. 1013):
☒ Antideficiency Act
☐ Other _____

Type of budget authority:
☒ Appropriation
☐ Contract authority
☐ Other _____

Justification Section 501(a) of the Foreign Relations Authorization Act, Fiscal Year, 1976, P.L. 94-141, amended section 2(c) of the Refugee and Migration Assistance Act by authorizing a fund not to exceed $25 million to enable the President to provide emergency assistance for unexpected, urgent refugee and migration needs. The fund was authorized in lieu of the President's previous authority under section 2(c) to transfer up to $10 million of foreign assistance funds in any fiscal year to meet similar needs.

All authorities of the amended section 2(c) are vested in the President. In Executive Order No. 11922, the President allocated all funds appropriated under authority of section 2(c) to the Secretary of State, but he retained the authority to determine which refugee and migration needs are to be provided assistance. The Second Supplemental Appropriation Act, 1976, (P.L. 94-303) provided $10 million, available until expended, to the fund. To date, the President has determined that of these funds $300,000 could be used to assist Soviet refugees going to countries other than Israel (P.D. TQ-2), $150,000 could be used to assist Kurdish refugees from Iraq (P.D. TQ-4) and $910,000 could be used to assist stateless Christian refugees from Lebanon (P.D. TQ-5). These funds have been released accordingly by reapportionment action. In keeping with the President's reservation of authority and to achieve the most economical use of appropriations (31 U.S.C. 665(c)(1)), the remaining availability of the fund is deferred. Reapportionments will be made case-by-case during 1977 as the President determines the refugee assistance needs to be financed by the fund.

Estimated Effects None

Outlay Effect No effect on outlays results from this deferral action.

1/ The OMB identification code that appeared in the FY 1977 budget was 04-30-0040-0-1-801.

Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification

Title I, Sec. 104 of P.L. 480, the Agricultural Trade Development and Assistance Act of 1954 authorizes the use of foreign currencies (acquired from the sale of U.S. farm products under Title I) to carry out programs for developing new markets for U.S. agricultural commodities. The funds appropriated are used to purchase excess foreign currencies necessary to carry out the program. The funds are available until expended, and the unused balance is carried over into the next year. The amount of funds used each year is dependent upon the availability of the U.S.-owned currencies and the availability of worthwhile market development projects in the foreign countries. Current indications are that no more than $500 thousand of the reserved balances brought forward can be utilized effectively in FY 1977. This deferral action is taken under provisions of the Antideficiency Act (31 USC 665) that authorize the establishment of reserves for contingencies.

Estimated Effects

No programmatic or budgetary impact results from this deferral action. Since the funds are used to purchase currencies already owned by the U.S., any outlays shown under this account would be offset by the receipt of a like amount in another account.

Outlay Effects

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB indentification code that appeared in the FY 1977 budget was 05-51-2901-0-1-352.

Deferral No: D77-3

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency U.S. Department of Agriculture	New budget authority (P.L. _____) $ _____
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources 41,220,000
Appropriation title & symbol Commodity Credit Corporation Administrative Expenses, 1977-1274336	Total budgetary resources 41,220,000
	Amount to be deferred: Part of year $ 2,919,000 Entire year _____
OMB identification code: 12-4336-0-3-351 1/	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☒ Other P.L. 94-351
Grant program ☐ Yes ☒ No	
Type of account or fund: ☒ Annual ☐ Multiple-year _____ (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification

The Agriculture Appropriation Act (Commodity Credit Corporation, Limitation on Administrative Expenses) provides that not less than 7 percent of the total authorization for administrative expenses of the CCC shall be placed in reserve and used only in such manner and at such time as may be necessary to carry out program operations.

Estimated Effects

This deferral will have no programmatic impact and its economic and budgetary impact will be negligible.

Outlay Effects

No effect on outlays results from this deferral action.

1/ The OMB identification code that appeared in the FY 1977 budget was 05-66-4336-0-3-999.

Deferral No: D77-4

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency **Department of Agriculture**	New budget authority (P.L. 16 USC 490) $33,000,000 Other budgetary resources 22,321,000 Total budgetary resources 55,321,000
Bureau **Forest Service**	
Appropriation title & symbol **Expenses, Brush Disposal** 12X5206	Amount to be deferred: Part of year $_____ Entire year 22,321,000
OMB identification code: 12-5206-0-2-302 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act [ ] Other
Grant program [ ] Yes [X] No	
Type of account or fund: [ ] Annual [ ] Multiple-year _____ (expiration date) [X] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other

Justification

Purchasers of National Forest timber deposit the estimated cost to the Forest Service of disposing of brush and other debris resulting from their cutting operations pursuant to 16 USC 490. The deposits becoming available in the current year are estimated and the related disposal operations are planned for the following year. Efficient program planning and accomplishment is facilitated by operating a stable program well within the funds available in any one year for this purpose. An apportionment of $33.0 million has been made to the Forest Service for this program in the current fiscal year compared with $32.0 million in 1976 and $25.9 million in 1975. The current fiscal year reserve of $22.3 million was established pursuant to the Antideficiency Act (31 USC 665) as a reserve for contingencies compared with reserves of $25.1 million in 1976 and $24.1 million in 1975.

Disposal operations related to deposits made during certain periods of the year cannot be initiated until weather conditions permit. Thus seasonal factors frequently require deferring use of deposits until the following fiscal year.

Estimated Effects

There are no programatic or budgetary effects that result from this deferral action. Rather, the reserve merely reflects the seasonal nature of program funding requirements.

1/ The OMB identification code that appeared in the FY 1977 budget was 05-96-9999-0-2-302.

Deferral No: D77-5

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Agriculture	New budget authority (P.L. 18 USC 711) $280,000
Bureau: Forest Service	Other budgetary resources 140,665
Appropriation title & symbol: Licensee Programs, Forest Service 12X5214	Total budgetary resources 420,665
	Amount to be deferred: Part of year $; Entire year 145,665
OMB identification code: 12-5214-0-2-302 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act; [ ] Other
Grant program: [ ] Yes [X] No	
Type of account or fund: [ ] Annual; [ ] Multiple-year (expiration date); [X] No-year	Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other

Justification:

Royalties collected under licenses for use of the characters "Smokey Bear" and "Woodsy Owl" are permanently appropriated and utilized for furthering the nationwide forest fire prevention campaign and promoting the wise use of the environment as provided by the Act of May 23, 1952 (18 USC 711), and for Woodsy Owl, 31 USC 488b-3--6. The total budgetary resources available in this program for fiscal year 1977 consist of $140,665 in estimated receipts earned in fiscal year 1976 and transition quarter and $280,000 in receipts anticipated for fiscal year 1977. In keeping with routine financial management practices maintained over the years, $145,665 of the total budgetary resources available has been reserved. The reserve is justified on two grounds.

First, the reserve contributes to a consistent, stable program level from year to year which, in turn, promotes more efficient operations. The fiscal year 1977 program is being funded, in part, from reserved balances carried forward from last year. The 1978 program will be partially funded by the estimated receipts being deferred in fiscal year 1977.

1/ The OMB identification code that appeared in the FY 1977 budget was 05-96-9999-0-2-302.

Second, reservation of funds is required to avoid the possibility of a violation of the Antideficiency Act (31 USC 665, (a), (b), (h)). A violation of the sections cited could occur if all the estimates of receipts now deferred were made available and obligated while estimated receipts were not fully realized.

This reserve action is taken under provisions of the Antideficiency Act that authorize the establishment of reserves for contingencies (31 USC 665(c) (2)).

Estimated Effects:

The funds made available are sufficient to carry out 1977 program objectives. If the deferred funds were made available for use and obligated in 1977, the 1978 program level would be below that conducted in the current year because some portion of 1977 receipts normally carried forward into the next fiscal year would not be available.

Release of deferred funds would necessitate development of a plan for an expanded 1977 program.

Outlay Effect

No effect on outlays results from this deferral action.

V 41 N 196 OCT 7 76 UMI

Deferral No: D77-6

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. 94-362) $ 7,990,000
Bureau National Oceanic and Atmospheric Administration	Other budgetary resources 2,349,716
Appropriation title & symbol: Promote and Develop Fishery Products and Research Pertaining to American Fisheries; 13X5139	Total budgetary resources 10,339,716
	Amount to be deferred: Part of year $ ____
	Entire year 1,770,716
OMB identification code: 13-5139-0-2-403 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program [ ] Yes [X] No	[ ] Other ____
Type of account or fund: [ ] Annual; [ ] Multiple-year ____ (expiration date); [X] No-year	Type of budget authority: [ ] Appropriation; [ ] Contract authority; [X] Other 7 U.S.C.612C

Justification:

An amount equal to 30% of the gross receipts from customs duties on fishery products is appropriated for fishery products resources research and assessment and American fisheries resource management and development. These funds supplement monies appropriated to National Oceanic and Atmospheric Administration for the same purposes under the appropriation "Operations, research, and facilities." The amount requested for deferral, $1,770,716 represents the excess amount of receipts over the cost of currently planned program activities in FY 1977. Because no plans have been developed for use of these funds, they are requested for deferral at this time.

Estimated Effects:

This deferral action has no effect on the program as currently planned in FY 1977.

Outlay Effects:

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB identification code that appeared in the FY 1977 budget was 06-48-5139-0-2-403.

Deferral No: D77-7

JUSTIFICATION

This fund was established pursuant to the Fish and Wildlife Act of 1956, as amended (16 U.S.C. 742c). Its purpose is to provide funds for loans to segments of the fishing industry unable to obtain commercial loans on reasonable terms for financing the cost of purchasing, constructing, equipping, maintaining, repairing, or operating new or used fishing vessels or gear.

In 1965, the Act was amended to require the National Oceanic and Atmospheric Administration (NOAA) to pay interest on the cumulative amount of appropriations available as capital to the fund less the average undisbursed cash balance in the fund during the year. The current program covers the estimated FY 1977 interest liability of $620,000 and $20,000 for care and preservation of collateral. Of the total budgetary resources in the fund, only these amounts are presently planned for expenditure in 1977.

On February 20, 1973, the Administrator of NOAA declared a moratorium on accepting further loan applications effective March 1, 1973, due to a level of loans outstanding and loan applications pending which exceeded the Fund's capital. Additionally, the General Accounting Office concluded in a report issued February 22, 1973, that loans made from the Fisheries Loan Fund (1) allowed the continued use of inefficient vessels rather than improving vessels and equipment for more efficient and profitable fishing, and (2) maintained or added vessels to segments of the fishing industry which were considered to have excess, but not necessarily efficient harvesting capacity. GAO recommended that the Secretary of Commerce develop criteria for evaluating vessel efficiency and priorities for directing these program funds.

The Department has determined that legislative clarification of the Act is needed to establish criteria for directing the Fund. Draft legislation is being prepared.

1/ The OMB identification code that appeared in the FY 1977 budget was 06-48-4317-0-4-403.

VOL 41 NO 196 OCT 7 76 UMI

D77-7

2

Estimated Effects:

The deferral will have no effect on planned Fisheries Loan Fund activities during FY 1977. Should revised legislation be enacted, the balance of the fund will be available to meet resulting needs.

Outlay Effect:

No outlay effect results from this deferral action.

Deferral No: D77-8

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Commerce Bureau: National Oceanic and Atmospheric Administration Appropriation title & symbol: Offshore Shrimp Fisheries Fund 13X4316	New budget authority (P.L. _____) $ _____ Other budgetary resources 59,250 Total budgetary resources 59,250 Amount to be deferred: Part of year $ _____ Entire year 59,250
OMB identification code: 13-4316-0-3-403 1/ Grant program ☐ Yes ☒ No	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☐ Contract authority ☒ Other P.L.93-242(Jan 2, 1974)

Justification:
On December 2, 1975 the President signed a new Shrimp Fisheries Agreement providing for U.S. Shrimp Fisheries off Brazil through December 1976. The agreement specifies that compensation to the Government of Brazil for enforcement expenses will be $361,000 for each of the calendar years 1975 and 1976. Payment for calendar 1975 has been made and the payment for calendar 1976 is in process. The $59,250 is the remaining balance of the account after the payments to Brazil for calendar years 1975 and 1976. The balance could be made available should further agreements be reached.

Estimated Effects:
No program is currently planned and the deferral will, therefore, have no effect on the program.

Outlay Effects:
No outlay effects result from this deferral action.

Grant program: [ ] Yes [x] No	Type of budget authority: [x] Appropriation; [ ] Contract authority; [ ] Other
Type of account or fund: [ ] Annual; [ ] Multiple-year (Expiration date); [x] No-Year	

Justification:

This fund, established pursuant to the Fishermen's Protective Act of 1967, as amended, provides compensation to vessel owners and crews for financial losses resulting from the seizure of United States fishing vessels by foreign governments on the high seas or on the basis of foreign rights or claims to territorial waters not recognized by the United States. Losses payable are generally limited to the market value of fish caught before seizure which were spoiled or confiscated and up to 50% of gross income lost as a direct result of such seizures. Capital for this fund is derived from fees paid by vessel owners at rates established by the Secretary of Commerce and appropriations from the general fund.

The current program will finance the administrative expenses of this fund and payment of all outstanding claims, leaving $355,550 that can be deferred, pending future seizures and resulting claims.

Estimated Effects:

Deferral of these funds will have no effect on the Fishermen's Guaranty Fund program as currently planned for the FY 1977.

1/ The OMB identification code that appeared in the FY 1977 budget was 06-48-4318-0-3-403.

Family Housing, Defense	9770700	97-0701-0-1-051	-0-
			$76,483,201

Justification

The above amounts in the listed no-year appropriations are currently deferred under provisions of the Antideficiency Act (31 U.S.C. 665) which authorizes the establishment of reserves for contingencies.

1/ Total budgetary resources exclude $2,018,292,000 due to lack of authorizing legislation.

2/ The OMB identification code that appeared in the 1977 budget for these accounts can be obtained by substituting "07-25" for the first two digits of the new codes listed here for all military construction accounts and "07-30" for the two family housing, defense accounts listed.

2

Due to the long period of time required to construct facilities, the Congress makes appropriations for this purpose available until expended. The above funds are deferred due to administrative delays, such as project designs not being completed and incomplete coordination of projects with either other Federal agencies or local government agencies. Funds will be apportioned for individual projects throughout the year upon completion of project design and/or coordination.

Estimated effects

These deferrals have no programmatic or budgetary effect because the funds could not be obligated at this time, even if they were made available.

Outlay Effect:

There is no outlay effect resulting from this deferral since the funds could not be used if made available.

V 41 N 196 OCT 7 76 UMI

Deferral No: D77-11

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Panama Canal	New budget authority (P.L. 94-387): $3,150,000
Bureau: Canal Zone Government	Other budgetary resources: 1,008,000
Appropriation title & symbol: Capital Outlay 38X0118	Total budgetary resources: 4,158,000
	Amount to be deferred: Part of year: $; Entire year: 146,000

Grant program: [ ] Yes [X] No	
Type of account or fund: [ ] Annual; [ ] Multiple-year (expiration date); [X] No-year	Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other

Justification:

This program is funded by appropriations made in the Department of Transportation and Related Agencies Appropriation Act of 1977 (P.L. 94-387) and those Acts of prior years. These appropriations are available until expended. This deferral action has been taken at the request of the Canal Zone Government until project inspection charges and certain other services to be performed by the Panama Canal Company are rendered. The reserve has been established under the provisions of the Antideficiency Act (31 USC 665) to insure fund availability for project inspection and certain other services provided by the Panama Canal Company which are essential for the completion of projects.

Estimated Effects:

The amount deferred could not be used if made available in the current year because of the scheduling of the planned construction program. Thus, the deferral action has no programmatic or budgetary effect.

Outlay Effect:

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB identification code that appeared in the FY 1977 budget was 08-25-0118-0-1-806.

Wildlife Conservation, etc., Military Reservations, Army	21X5095	$338,600
Wildlife Conservation, etc., Military Reservations, Navy	17X5095	15,000
Wildlife Conservation, etc., Military Reservations, Air Force	57X5095	9,000
		$362,600

Justification

These are permanent appropriations. The budgetary resources consist of anticipated receipts and unobligated balances generated from hunting and fishing fees collected on military reservations, pursuant to 16 U.S.C. 670. They may be used only in accordance with the purpose of the law - to carry out a program of natural resource conservation.

Since apportionments have been made for all known program requirements, prudent financial management requires the deferral of the balance of the funds, which could not be used effectively during the current year even if made available for obligation. These funds are being deferred under the provisions of the Antideficiency Act (31 U.S.C. 665). Full apportionment is not requested by the Services because (1) installations may be accumulating funds over a period of time to fund a major project, and (2) there is a seasonal relationship between the collection of fees and their subsequent expenditure. Most of the fees are collected during the

1/ The OMB identification code that appeared in the FY 1977 budget was 08-30-5095-0-2-303.

VOL 41 196 OCT 7 76 UMI

winter and spring months, while most of the program work is performed during the summer and fall months. This necessitates that funds collected in a prior year be deferred in order to be available to finance the program during the summer and fall months. Additional amounts will be apportioned if program requirements are identified.

Estimated Effects

These deferrals have no programmatic or budgetary effect because the funds could not be obligated if made available.

Outlay Effect

There is no outlay effect of this deferral because the funds could not be used if made available.

Grant program ☐ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification:

Appropriation Acts for the Department of Health, Education, and Welfare have provided funds for the Scientific Activities Overseas Program to "remain available until expended." Funding for this program comes from foreign currencies owned by the United States that have been determined by the Treasury Department to be in excess of normal U.S. needs in the countries concerned. There are now seven countries (Egypt, Burma, Guinea, India, Pakistan, Poland, and Tunisia) that the Treasury Department has designated "excess currency" countries in accord with its internal Treasury Department guidelines. The Treasury Department releases these funds to the Department of Health, Education, and Welfare (HEW) to use for scientific research projects in those countries; and the funds remain available to HEW until expended.

The amount of funds to be obligated during 1977 and the amount to be deferred to 1978 was determined after a careful review of the scientific merit of project proposals in the limited number of excess currency countries. HEW has decided which research projects in those countries will contribute to U.S. scientific needs and thus should be funded. The amount being deferred is in excess of current program requirements and is thus reserved for contingencies under provisions of the Antideficiency Act (31 U.S.C.,665).

1/ The OMB identification code that appeared in the FY 1977 budget was 09-37-1102-0-1-552.

OCT 7 76
UMI

D77-13

2

Estimated Effects:

No programmatic or outlay impact results from this action. This deferral reflects the budgetary resources that will remain available after meritorious scientific projects have been funded in fiscal year 1977.

Outlay Effect

There is no outlay effect of this deferral because the funds could not be used if made available.

Construction:

A. Annual interest grants--A change in method of accounting for subsidized construction loans caused a substantial amount of prior year appropriations to be de-obligated during fiscal year 1974. Obligations are not recorded now until payments are due. Funds on hand are more than adequate to cover anticipated obligations on annual interest grant contracts signed in prior years and no new starts are authorized or planned. Of the estimated $49,200,530 available on October 1, 1976, about $22,000,000 will be utilized in 1977. The remaining $27,200,530 in unobligated funds will be needed in 1978 to pay continuation costs on subsidized loans.

B. Graduate facilities--The amount shown as deferred resulted from adjustments of prior year obligations. As projects are completed the estimated obligations are adjusted to reflect actual experience. No new funds have been appropriated for this program since 1969, and there are no program plans to utilize the funds. It is possible that such funds may be needed to cover obligation adjustments.

Subsidized insured loans--Reserve fund advances--These funds were appropriated in 1969 to make advances to guarantee agencies that could not meet reserve requirements. It is estimated that no more than $750,000 will be needed during 1977.

Estimated Effects

This action has no program effect, since it only reflects an estimate that the funds cannot be legally obligated during 1977. It does not reflect a program constraint.

Outlay Effect

There is no outlay effect of this deferral because the funds could not be used if made available.

Deferral No: D 77-15

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Health, Education, and Welfare	New budget authority (P.L. _____) $ _____
Bureau: Social Security Administration	Other budgetary resources 26,210,304
Appropriation title & symbol: Limitation on Construction 75X8705	Total budgetary resources 26,210,304
	Amount to be deferred: Part of year $ _____
	Entire year 17,271,878

Grant program ☐ Yes ☒ No	☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

JUSTIFICATION

Funds provided under the Limitation on Construction of the Social Security Administration remain available until expended in recognition of the long lead time between the provision of funds and their use in carrying out authorized construction projects. A total of $17,271,878 is to be deferred for FY 1977. The amounts involved fall into two categories, discussed below.

Funds Reprogrammed for Headquarters Construction

The Social Security Administration, in the 1977 President's Budget Justification, requested approval of the Congress to use $2.1 million previously authorized for district office construction for the headquarters construction activity. This amount is needed to cover General Services Administration project management costs through completion of the two headquarters buildings--the computer building in Woodlawn and the Metro-West building in downtown Baltimore. These buildings are being constructed under the purchase contract method but purchase contract funds do not cover project management. Normally such costs are paid from GSA's Federal Buildings Fund and recovered by GSA through the Standard Level User Charge. Since the Congress has indicated that SSA should pay only actual costs--no SLUC, SSA is

V 41 N 196 OCT 7 76 UMI

D 77-15

2

billed directly for these charges. In FY 1977, $550,000 will be obligated. The remaining $1,608,945 will be obligated as needed, until the buildings are completed, and thus must be deferred for 1977.

Unused Balance of Funds Provided for District Office Construction

A total of $15,662,933 provided for district office construction is being proposed for obligation after 1977 and hence, is to be deferred. These funds are available from prior year appropriations that have produced an unobligated balance estimated to be available on September 30, 1976, of $21,075,416.

The district office construction program has been in a period of reevaluation since the offices constructed with funds appropriated prior to 1968 were started. New starts in the construction of district office buildings have lagged in recent years because the new Supplemental Security Income program changed the workload patterns and introduced a greater element of uncertainty in planning for district office space needs. Further, due to rapid expansion of field facilities to meet the immediate needs of the SSI program, SSA had to acquire space quickly through lease rather than the longer time frame required for construction. SSA now plans to resume the district office construction program and is working on procedures to shorten the time involved in site selection and construction.

The $15.7 million available for obligation after 1977 will be used to expand existing offices, for site acquisitions, and design and construction of new offices.

ESTIMATED EFFECTS

The funds intended to be apportioned for obligation in FY 1977 will permit SSA to carry out its authorized construction program in an orderly manner. No currently planned construction would be delayed by this deferral. Because of the time required to plan, authorize, and carry out construction activity, release of the funds at this time would be unlikely to affect the level of outlays in FY 1977.

OUTLAY EFFECT

There is no outlay effect of this deferral because the funds could not be used if made available.

Deferral No: D-77-16

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. 94-373): $41,250,000 1/
Bureau: Bureau of Land Management	Other budgetary resources: 8,176,000
Appropriation title & symbol: 14X5136 Oregon and California Grant Lands	Total budgetary resources: 49,426,000
	Amount to be deferred: Part of year: $ ____
	Entire year: 5,426,000
OMB identification code: 2/ 14-5136-0-2-302	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program: [ ] Yes [X] No	[ ] Other ____
Type of account or fund: [ ] Annual; [ ] Multiple-year ____ (expiration date); [X] No-year	Type of budget authority: [ ] Appropriation; [ ] Contract authority; [X] Other Appropriated receipts

Justification The Interior and Related Agencies Appropriation Act for 1977 includes an indefinite no-year appropriation equivalent to 25 percent of timber sale receipts from revested Oregon and California Railroad grant lands. The appropriated receipts provide for management, development, and protection of Federal Oregon and California grant lands including the construction and maintenance of roads. Because the appropriation is based on the receipts collected in the same period and the receipts are based on the timber harvested, the total amount which will be available for obligation can only be estimated. Not only may actual receipts vary from estimates, but receipts for the last two months of the fiscal period are not known in time to make programmatic adjustments to offset a possible shortfall between estimated and actual amounts. Deferral is planned not only to cushion fluctuating receipt levels but also because funds cannot be used effectively during the current fiscal year even if made available for obligation. This deferral is taken pursuant to the Anti-Deficiency Act (31 U.S.C. 665).

1/ Estimated. The appropriation is for "an amount equivalent to 25 percent centum of the aggregate of all receipts during the current fiscal year from the revested Oregon and California Railroad grants lands".

2/ The OMB identification code that appeared in the FY 1977 budget was 10-04-5136-0-2-302.

D-77-16
2

Receipts for FY 1977 are now estimated at $165 million , thus making $41,250,000 in new budget authority available under terms of the appropriation. The estimated unobligated balance to be carried into FY 1977 is $8,176,000. Total resources for this program are $49,426,000.

The current obligation program of $44 million is based on the current higher receipt estimate of $165 million. The deferral (required for prudent fiscal management) of $5,426,000 is within the range recommended by both the House and Senate Appropriations Committees in their reports on the FY 1976 appropriation bill.

Estimated Effects

There will be no programmatic impact in FY 1977 since the receipts will continue to accrue but will remain unobligated until such time as the amount available can be used more effectively.

Outlay Effect

There is no outlay effect of this deferral because the funds could not be used if made available.

Deferral No: D-77-17

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Interior	New budget authority (P.L. 16 USC 460L) $427,056,000
Bureau Bureau of Outdoor Recreation	Other budgetary resources 46,901,000
Appropriation title & symbol Land and Water Conservation Fund 14X5005	Total budgetary resources 473,957,000
	Amount to be deferred: Part of year $ ____ Entire year 30,000,000
OMB identification code: 1/ 14-5005-0-2-303	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other ____
Grant program ☐ Yes ☒ No	
Type of account or fund: ☒ Annual (The deferred funds have a one year availability) ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☐ Appropriation ☒ Contract authority ☐ Other ____

Justification Under the law (16 USC 460L (10a)) $30,000,000 of contract authority becomes available each fiscal year. This is in addition to the $397,056,000 appropriation enacted for FY 1977. Fund availability is limited to one fiscal year. This authority is made available by the Congress for use specifically as an anti-escalation measure in purchasing authorized Federal recreation land (P.L. 90-401 ; Senate Report 90-1071, to accompany S.1401). This authority was last used in 1969 and 1970. Thus, the contract authority has lapsed in fiscal year 1971-1976. The funds will be utilized in the future, as in the past, on a special case basis for emergency situations consistent with our understanding of congressional intent.

In accordance with provisions of the Anti-deficiency Act (31 USC 665), the $30,000,000 has been deferred. This contract authority lapses at the end of each fiscal year in which it is not used. An equal amount becomes available at the beginning of the next fiscal year.

The other funds in this account are the FY 1977 appropriation and estimated prior-year balances of direct appropriations (no-year funds) that have been made available for obligation.

Estimated Effects

This reserve for contingencies has no fiscal, economic or budgetary effect in the current year. The funds would be made available and obligated only in unforeseeable circumstances.

1/ The OMB identification code that appeared in the FY 1977 budget was 10-16-5005-0-2-303.

D77-17

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

Deferral No: D77-18

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. _____) $ _____
Bureau: National Park Service	Other budgetary resources 55,986,788*
Appropriation title & symbol: Road Construction 14X1037	Total budgetary resources 55,986,788
	Amount to be deferred: Part of year $ _____
	Entire year 3,245,397
OMB identification code: 1/ 14-1037-0-1-303	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program ☐ Yes ☒ No	☐ Other _____
Type of account or fund: ☐ Annual	Type of budget authority: ☐ Appropriation
☒ Multiple-year Sept. 30, 1978 (expiration date)	☒ Contract authority
☐ No-year	☐ Other _____

Justification

Contract authority (CA) is authorization to obligate Federal funds prior to their appropriation; however, subsequent payments to vendors and contractors cannot be made until after cash to liquidate CA has been appropriated. Appropriated funds are not being deferred by this action. What is being deferred is authority to obligate funds before appropriation.

Contract authority in this account results from multi-year authorization under the Federal-Aid Highway Act. The total amount of CA authorized under the Act is not based on a specific set of construction projects approved by the Congress or the Executive Branch, but represents an upper limit for an on-going road, trail, and parkway construction effort derived from long term estimates of future road building plans. The estimated total amount of CA available for 1977 is $55,986,788*, of which $52,741,391 is to be apportioned in 1977. The deferred balance of $3,245,397 is unprogrammed contract authority not needed for obligation in 1977.

Funds in this account are used for building new roads and trails, for rehabilitating existing roads and trails, and for advance planning of projects. The current system includes about 10,200 miles of roads including parkways, and about 9,700 miles of trails. The 1977 program ($52,741,391) includes elements reviewed and approved by the Congress in previous years ($36,123,391 estimated) and new proposals for 1977 ($16,618,000 Reserving CA not scheduled for use in the current fiscal year is consistent with the

*Excludes $118,995,000 which is rescinded as of October 1, 1976, in accordance with the Interior and Related Agencies Appropriations Act, 1977, (P.L. 94-373) approved July 31, 1976.

1/ The OMB identification code that appeared in the FY 1977 budget was 10-24-1037-0-1-303.

D77-18
2

current financial plan and the appropriation request currently before the Congress.

Estimated Effects

If all authorized CA were made available for obligation now there would be little, if any, program or outlay effect because it is not likely the funds would be obligated for projects without review by the Congress. This is because, in this account, the obligation program traditionally has been based on a project-by-project review by the appropriation committees.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

Deferral No: D77-19

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. 30 U.S.C. 229a): $ --
Bureau: Geological Survey	Other budgetary resources (Est.): 30,000
Appropriation title & symbol: Payments from Proceeds, Sale of Water, Mineral Leasing Act of 1920, Sec. 40(d) 14X5662	Total budgetary resources (Est.): 30,300
	Amount to be deferred: Part of year: $ --
	Entire year: 30,300
OMB identification code: 14-5662-0-2-301 1/	1/Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program: [ ] Yes [X] No	[ ] Other
Type of account or fund: [ ] Annual [ ] Multiple-year _____ (expiration date) [X] No-year	Type of budget authority: [ ] Appropriation [ ] Contract authority [X] Other permanent, indefinite, special

Justification

Section 40(d) of the Mineral Leasing Act of 1920 [30 U.S.C. 229(a)] provides that when lessees or operators drilling for oil or gas on public lands strike water, water wells may be developed by the Department from the proceeds from sale of water from existing wells. Receipts have been accruing to this permanent account at the rate of about $1,500 per year. At the start of fiscal year 1965, the account had an unobligated balance of $16,000. It is estimated that by the start of fiscal year 1977 the unobligated balance will be $30,300. None of these receipts have been obligated over the past ten years and none are planned for obligation in fiscal year 1977 because the total available is too small to be put to practical use for the purpose designated by law. Deferral is planned because funds could not be used effectively during the current period even if made available for obligation. This reserve action is taken pursuant to the Antideficiency Act (31 U.S.C. 665).

Estimated Effects

There will be no programmatic impact in fiscal year 1977 since the receipts will continue to accrue but will remain unobligated until such time as an amount is available which can be used for effective purposes.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB identification code that appeared in the FY 1977 budget was 10-28-5662-0-2-301.

Deferral No: D77-20

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Interior	New budget authority (P.L. ____): $ None
Bureau: Bureau of Mines	Other budgetary resources: 3,725,248
Appropriation title & symbol: Drainage of Anthracite Mines, Bureau of Mines 14X0956	Total budgetary resources: 3,725,248
	Amount to be deferred: Part of year: $ None
	Entire year: 3,525,248
OMB identification code: 14-9911-0-1-306 1/	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☒ Other Matching grant provision of PL 84-219 (69 Stat 460)
Grant program: ☒ Yes ☐ No	
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification -$200,000 has been apportioned for this account to match funds anticipated to be made available by the Commonwealth of Pennsylvania for water monitoring stations and for sealing and other public health and safety projects. The remaining unobligated balance has been deferred because the Commonwealth of Pennsylvania is not expected to provide further matched funding during the year.

Estimated Effects - No FY 77 program impact will result from deferral. A change in the matching provision of the original legislation would be required if the Congress desired to make available the funds currently being deferred. This is proposed for deferral through September 30, 1977.

Outlay Effect

There is no outlay effect of this deferral because the funds could not be used if made available.

1/ The OMB identification code that appeared in the FY 1977 budget was 10-32-9999-0-1-306.

Deferral No: D77-21

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Justice	New budget authority (P.L. 94-362): $ 56,980,000
Bureau: Bureau of Prisons	Other budgetary resources: 34,207,000
Appropriation title & symbol: Buildings and Facilities 15x1003 New Construction: Northeast Adult facility (Otisville, New York)	Total budgetary resources: 91,187,000
	Amount to be deferred: Part of year: $ 1,900,000
	Entire year: _____
OMB identification code: 1/ 15-1003-0-1-753	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other _____
Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification

The Bureau of Prisons has been offered the opportunity to lease (with option to purchase) from the State of New York, the former Narcotics Rehabilitation Center at Otisville, New York, located adjacent to the site for the Otisville Federal Correctional Institution. The President has requested supplemental appropriation language to transfer $1.9 million to "Salaries and expenses," to obtain, staff, and operate this facility as a 400-bed minimum security Federal prison camp. Because of the Center's proximity to the Otisville Federal Correctional Institution construction site, the existing sewage treatment plant, road networks and laundry at the Center would be available for co-use of both facilities. In addition, the availability of the Center make unnecessary the 100-bed adjoining facility which is included in the project costs for the Otisville, New York, Federal Correctional Institution. As a result, the construction project costs for the Otisville, New York, Federal Correctional Institution could be reduced by $1.9 million (the amount requested for transfer to the Salaries and expenses account), if the Bureau could obtain and operate the Center. In addition, $20 million that would be needed to construct a minimum-security facility in the Northeast would not be necessary. If the transfer to Salaries and expenses is disallowed, these savings, of course, will not be available.

1/ The OMB identification code that appeared in the FY 1977 budget was 11-20-1003-0-1-753.

D77-21

2

If the transfer to the Salaries and expenses account is enacted, the deferred funds will move out of the construction account. If, as mentioned earlier, the transfer request is disallowed, the deferred funds will be released and reapplied to the Otisville New York, Federal Correctional Institution required construction project costs.

Estimated Effects

The availability of the former Rehabilitation Center will provide immediate relief to the Bureau's institutional overcrowding in the northeast region. Moreover, it will reduce, by one, the planned number of new correctional facilities required in this region resulting in savings of approximately $20.7 million - the estimated cost (current dollars) of a medium security facility that the Bureau would otherwise plan to build within the next several years.

The deferral represents savings against the Otisville, New York, Federal Correctional Institution construction project costs, available only if the transfer to Salaries and expenses to obtain, staff and operate the Center is enacted. As previously mentioned, disallowance of the transfer must nullify the effect of the deferral. Otherwise, the Otisville, New York, Federal Correctional Institution construction project would be deficient in funding.

Outlay Effect

There are no outlay savings directly related to the amount deferred. Savings would result, however, from the substitution of the former Rehabilitation Center for new construction.

Deferral No: D77-22

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of State	New budget authority (P.L. 94-362) $67,200,000
Bureau	Other budgetary resources 54,840,000
Appropriation title & symbol: Acquisition, operation, and maintenance of buildings abroad 19X0535	Total budgetary resources 122,040,000
	Amount to be deferred: Part of year $ ____ Entire year 14,225,000
OMB identification code: 19-0535-0-1-152 1/	Legal authority (in addition to sec. 1013): ☐ Antideficiency Act ☐ Other ____
Grant program ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☐ Multiple-year ____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☒ Other (Sales proceeds)

Justification The Foreign Service Buildings Act of 1926, as amended (22 U.S.C. 292-301), empowers the Secretary of State to acquire by purchase, construction, long-term lease, or exchange buildings, residences, and grounds in foreign countries for the use of the U.S. Government and its employees and to operate and maintain such facilities. The Act also authorizes appropriations for these purposes and empowers the Secretary to apply the proceeds from the sale of property acquired under the Act toward the acquisition or construction of other overseas facilities or other purposes authorized by the Act.

The 1977 budget proposed an appropriation of $67,200,000 for this account. Of this amount, $30,000,000 was for the first phase of constructing a complex of office, residential, and service facilities in Moscow, and $37,200,000 was for operation and maintenance activities throughout the world. These funds were appropriated by the Congress as requested (Public Law 94-362, approved July 14, 1976) and have been apportioned for use during fiscal year 1977.

The January budget also estimated that $14,225,000, representing almost all of the proceeds from the sale of old properties in 1977, would not be used during fiscal 1977. These funds were planned for use in 1978 to meet part of that year's acquisition program. The deferral will hold 1977 program outlays down to minimum levels.

1/ The OMB identification code that appeared in the FY 1977 budget was 14-05-0535-0-1-152.

D77-22

2

Estimated Effects

Office and housing facilities that could be acquired in 1977 to replace properties now rented or owned by the Government will be acquired instead in 1978. However, the program will maintain the capability to meet priority program needs.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1977 Budget:

Grant program: ☐ Yes ☒ No	
Type of account or fund: ☐ Annual ☒ Multiple-year September 30, 1979 (expiration date) ☐ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification

The Fisheries Conservation and Management Act of 1976 (Public Law 94-265) extends U.S. fisheries jurisdiction on March 1, 1977, to 200 miles for all species except highly migratory fish such as tuna. Of the funds appropriated to this account for 1977, $70,000,000 was provided based on patrolling the known active fishing areas (about 500,000 square miles) to assure foreign compliance with the new law, plus random surveillance of the remaining portion (about 1.7 million square miles) of the 200 mile fisheries conservation zone, to detect changes in fishing fleet operations and elicit fisheries support activities. Historic fishing grounds in the active fishing areas are currently patrolled by Coast Guard under existing laws and treaties. The deferral of $20,676,000 will not affect the planned increase in Coast Guard activity in the active fishing areas, but will defer random surveillance patrols in the non-fishing areas pending actual experience with the foreign response to extended U.S. fisheries jurisdiction. Depending on foreign response, the deferred funds could be used to meet other fisheries enforcement requirements.

In addition to the deferral associated with the new 200 mile fisheries jurisdiction, funds totalling $1,905,000 are deferred to complete, outfit and furnish projects that will be completed after 1977. Funds in this account remain available through fiscal year 1979.

1/ The OMB identification code that appeared in the FY 1977 budget was 21-15-0240-0-1-406.

D77-23

2

Estimated Effects

The level of enforcement in the active fishing areas will be augmented with additional aircraft and ship patrols. Increased activity outside these areas will be deferred pending actual experience with foreign response to the 200 mile limit.

The routine deferral of $1,905,000 will have no programmatic, fiscal, or economic impact.

Outlay Effects (estimated in millions of dollars)

Comparison with President's 1977 Budget:	
1. Budget outlay estimate for 1977	129.1
2. Outlay savings, if any, included in the budget outlay estimate	0

Coverage	Total Budgetary Resources	Amount Deferred
Civil Supersonic Aircraft Development Termination	52,655	16,655
Civil Supersonic Aircraft Development	446,930	446,930
	499,585	463,585

Justification

This account finances the termination of the supersonic transport development program. The total cost of settlement of contractor claims and closeouts, airline refunds, completion of specifically designated technology programs, and necessary governmental administrative costs incidental to these activities is included. These funds were appropriated by the Department of Transportation and Related Agencies Appropriation Acts, 1971 and 1972. Because of the difficulty in ending such a complex and massive undertaking, termination has taken a number of years. Settlement is being accomplished as quickly as possible consistent with the legitimate claims of the contractors and the protection of government interests.

Estimated Effects

This deferral action has no programmatic effect.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB identification code that appeared on the 1977 budget was 21-20-0106-0-1-405.

Deferral No: D77-25

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of Transportation	New budget authority (P.L. 94-387): $200,000,000
Bureau: Federal Aviation Administration	Other budgetary resources: 283,501,000
Appropriation title & symbol: Facilities and equipment (Airport and airway trust fund) 69X8107 695/78107 696/88107 697/98109	Total budgetary resources: 483,501,000
	Amount to be deferred: Part of year: $; Entire year: 276,101,000
OMB identification code: 69-8107-0-7-405 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act; [ ] Other
Grant program: [ ] Yes [X] No	
Type of account or fund: [ ] Annual 695/78107 Sept 30, 1977 2/ 696/88107 Sept 30, 1978; [X] Multiple-year 697/98109 Sept 30, 1979 (expiration date); [X] No-year	Type of budget authority: [X] Appropriation; [ ] Contract authority; [ ] Other

Justification

Funds from this account are used to procure specific Congressionally-approved facilities and equipment for the expansion and modernization of the national airway system. Projects financed from this account include construction of buildings and purchase of new equipment for new or improved air traffic control towers, automation of the enroute airway control system, and expansion and improvement in the navigational and landing aid systems. These funds were appropriated in the Department of Transportation and Related Agencies Appropriation Acts of 1977 and prior years. The estimated total cost for each project is traditionally included in the budget submission and appropriation for the year in which it is requested. Because of the lengthy procurement and construction time for interrelated new facilities and complex equipment systems, it is not possible to obligate all funds necessary to complete each project in the year funds are appropriated. Therefore, it is necessary to apportion funds so that sufficient resources will be available in future periods to complete these projects. This deferral action is consistent with the Congressional intent to provide multi-year funding for the total costs of these projects and is taken under provisions of the Antideficiency Act (31 U.S.C. 665) which authorize the establishment of reserves for contingencies.

1/ The OMB identification code that appeared in the FY 1977 budget was 21-20-8107-0-7-405.

2/ None of these funds are deferred.

D77-25

2

Estimated Effects

This deferral action is consistent with normal operations for this program. The amount deferred could not be economically used if made available in fiscal 1977 because of the planned multi-year procurement, construction and installation cycle.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

Deferral No: D77-26

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Treasury	New budget authority (P.L. 92-512 ___): $1,619,695,000
Bureau: Office of the Secretary	Other budgetary resources: 81,500,000
Appropriation title & symbol: State and Local Government Fiscal Assistance Trust Fund 20X8111	Total budgetary resources: 1,701,195,000
	Amount to be deferred: 1/ Part of year: $113,731,858
	Entire year: - 0 -
OMB identification code: 2/ 20-8111-0-7-851	/Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☒ Other Civil Action No. 74-248
Type of account or fund: ☐ Annual ☒ Multiple-year Appropriation 12/31/76 (expiration date) ☒ No-year Fund	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification

The State and Local Government Fiscal Assistance Trust Fund is the vehicle for disbursement of general revenue sharing funds. Scheduled payments to State and local governments are made on a quarterly basis. In FY 1975 and FY 1976, six regularly scheduled payments to the city of Chicago have been deferred by the U.S. District Court, D. C. (Civil Action No. 74-248), for noncompliance with nondiscrimination requirements.

Estimated Effect

The U.S. District Court, Northern Illinois, issued an order which will release 25% of the withheld funds on October 5, 1976 ($28,332,958). The remainder of the funds will be released by July 1977. The release of the funds is contingent upon the city of Chicago adhering to the compliance timetable in the court order.

Outlay Effect

There is no outlay effect of this deferral because all the funds are expected to be released and outlayed this fiscal year.

1/ Outlays only.
2/ The OMB identification code that appeared in the FY 1977 budget was 15-70-8111-0-7-851.

Deferral No: D77-27

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Department of the Treasury	New budget authority (P.L. 92-512 ___): $1,619,695,00
Bureau: Office of the Secretary	Other budgetary resources: 81,500,00
Appropriation title & symbol: State and Local Government Fiscal Assistance Trust Fund 20X8111	Total budgetary resources: 1,701,195,00
	Amount to be deferred: Part of year 1/: $10,000,000
	Entire year: - 0 -
OMB identification code: 20-8111-0-7-851 2/	/Legal authority (in addition to sec. 1013): ☐ Antideficiency Act
Grant program ☒ Yes ☐ No	☒ Other Sec. 212 & Sec. 123, P.L. 92-51
Type of account or fund: ☐ Annual ☒ Multiple-year ____ (expiration date) ☒ No-year Fund	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ____

Justification

In FY 1977, it is estimated that scheduled quarterly payments to 2,800 local jurisdications will be deferred by the Secretary of the Treasury because local officials will have failed to submit required reports and assurances or certifications of compliance with provisions of the law.

Estimated Effect

If the local jurisdictions do not comply with the requirements of the law by December 31, 1976, each case will be analyzed to determine whether or not the payments are to be waived by the Office of Revenue Sharing. If they are waived, the funds will be allocated to the level of government required by the Act (usually the next higher level) during the third week of January 1977.

Outlay Effect

There is no outlay effect of this deferral because the funds will be made available this fiscal year.

1/ Outlays only.
2/ The OMB identification code that appeared in the FY 1977 budget was 15-70-8111-0-7-851.

Deferral No: D77-28

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Department of the Treasury	New budget authority (P.L. 95-512) $1,619,695,000
Bureau Office of the Secretary	Other budgetary resources 81,500,000
Appropriation title & symbol: State and Local Government Fiscal Assistance Trust Fund 20X8111	Total budgetary resources 1,701,195,000
	Amount to be deferred: Part of year $ 4,500,000
	Entire year 77,000,000
OMB identification code: 20-8111-0-7-851 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program [X] Yes [ ] No	[ ] Other
Type of account or fund: [ ] Annual	Type of budget authority: [X] Appropriation
[X] Multiple-year Appropriation 12/31/76	[ ] Contract authority
[X] No-year Fund	[ ] Other

Justification

The Secretary of the Treasury must hold a portion of this account in reserve to meet valid claims from State and local governments that past general revenue sharing payments to them were too small. Because the total amount appropriated for all governments is fixed, the alternative to such a reserve is recurring recomputations of entitlements of 39,000 governments for prior entitlement periods. Accordingly, the Office of Revenue Sharing has withheld from obligation an amount equal to one-half of one percent of the amounts appropriated for each entitlement period through FY 1975.

This cumulative unobligated reserve, totaling $81.5 million, is available to the Secretary of the Treasury to satisfy legitimate claims against the Trust Fund for prior entitlement periods. The unobligated amount retained in the Trust Fund will be reduced whenever the Secretary determines the amount is adequate to meet foreseeable liabilities against the Trust Fund. The reduction will be made by paying the additional amount to recipients as part of a regular distribution.

Estimated Effect

This action will postpone distribution of the amount of the reserve until necessary adjustments and corrections have been identified. It will also avoid substantial confusion and complexities in the administration of the program.

1/ The OMB identification code that appeared in the FY 1977 budget was 15-70-8111-0-7-851.

Outlay Effect (estimated in millions of dollars)

Comparison with President's 1977 Budget:

4. With deferral	6,581.9
5. Current outlay savings (line 3 - line 4)	+77.0
Outlay savings for FY 1978	-77.0

2/ Includes $3,405.3 M from current program under P.L. 92-512 and $3,143.2 M from proposed legislation to amend the State and Local Fiscal Assistance Act of 1972.

Deferral No: D77-29

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: General Services Administration	New budget authority (P.L. ____): $ ____
Bureau:	Other budgetary resources: 2,109,000
Appropriation title & symbol: Rare Silver Dollar Program 47X0701	Total budgetary resources: 2,109,000
	Amount to be deferred: Part of year: $ 1,709,000
	Entire year: ____
OMB identification code: 47-5255-0-2-999 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program: [ ] Yes [X] No	[ ] Other ____
Type of account or fund: [ ] Annual [ ] Multiple-year ____ (expiration date) [X] No-year	Type of budget authority: [X] Appropriation [ ] Contract authority [ ] Other ____

Justification

This deferral action is taken under the provisions of the Antideficiency Act (31 U.S.C. 655), which authorizes the establishment of reserves for contingencies. Funds were appropriated in 1972 and 1973, without fiscal year limitation, for operating costs for disposal of rare silver dollars. To date, roughly $60.4 million (gross receipts) of silver dollars have been sold, with approximately $26.5 million still available for sale. However, current sales procedures severely restrict the amount of remaining coins which may be sold under the existing appropriation.

The contingency of $1,709,000 reflects revised disposal plans suspending all coin sales until legislation is passed revising current sales methods. Sales using past procedures are no longer deemed economically feasible, and consideration is being given to the effects of alternative terms and conditions on future Government sales of the coins as well as on the coin market in general.

Estimated Effects

The deferral of funds for operating expenses will have no adverse effect on the silver dollar sales program since current sales procedures have limited the amount of marketable coins. New legislation has been proposed to provide revised sales methods.

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency: Foreign Claims Settlement Commission Bureau:	New budget authority (P.L. ___ ___ ___): $ ___ Other budgetary resources: 11,233,368 Total budgetary resources: 11,233,368
Appropriation title & symbol: Payment of Vietnam Prisoner of War Claims 79X0104	Amount to be deferred: Part of year: $ ___ Entire year: 10,833,000
OMB identification code: 79-0104-0-1-152 1/ Grant program: ☐ Yes ☒ No	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other ___
Type of account or fund: ☐ Annual ☐ Multiple-year ___ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other ___

Justification Public Law 91-289, approved June 24, 1970, authorizes the Foreign Claims Settlement Commission to adjudicate and certify for payment the claims of American military and civilian prisoners of war held during the Vietnam conflict, or their survivors. Before claims can be certified for payment by the Commission, the appropriate military services must determine the individual's POW status and, in the case of claims by the survivors of missing persons where evidence of captivity exists, it must also determine the date of death. By court order, however, the Secretaries of the respective military services cannot make a final status determination without affording the right of due process to MIA survivors, which requires considerable time and has significantly reduced the rate at which final determinations are being made.

A total of $16,565,000 was appropriated during 1971, 1972, and 1973 for the Vietnam POW claims program to remain available until expended. The Commission now has certified $5,331,632 of payments for the claims of returned POWs and of most survivors of other missing persons for whom evidence of captivity was found and a date of death has been established. Because approximately 900 Americans remain in a missing status in Southeast Asia and because of the difficulty in many cases in establishing evidence of captivity, only $400,368 of the $11,233,368 remaining available for obligation has been apportioned for obligation in 1977; the balance of $10,833,000 has been reserved. This deferral of 1977 budgetary resources is necessary to achieve the most economical use of appropriations (31 U.S.C. 665(c)(1)) and to provide for contingencies after 1977 (31 U.S.C. 665(c)(2)).

1/ The OMB identification code that appeared in the FY 1977 budget was 30-88-0104-0-1-152.

D77-30
2

Estimated Effects No savings result from the deferral, since claims cannot be adjudicated or certified for payment by the Commission until final status determinations are made by the military services.

Outlay Effect No effect on outlays results from this deferral action.

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency American Revolution Bicentennial Administration	New budget authority (P.L. 93-179) $4,100,000
Bureau c/o Department of Interior Office of the Secretary	Other budgetary resources 4,845,874
Appropriation title & symbol: Commemorative Activities Fund 76X5077-AR	Total budgetary resources 8,945,874
	Amount to be deferred: Part of year $1,345,874
	Entire year
OMB identification code: 76-5077-0-2-806 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program [X] Yes [ ] No	[ ] Other
Type of account or fund: [ ] Annual	Type of budget authority: [ ] Appropriation
[ ] Multiple-year (expiration date)	[ ] Contract authority
[X] No-year	[X] Other Permanent Indefinite, Special Fund

Justification

Funds are being deferred prior to an accounting of all outstanding debts of the American Revolution Bicentennial Administration (ARBA) which must be paid from this account before ARBA is dissolved in FY 1977. Such debts include the costs of production and distribution of ARBA medals, which will continue on sale in calendar 1976, and whose revenues will not be fully accounted for until after ARBA is dissolved. In addition, this fund will finance most closing out activities of ARBA in FY 1977, whose estimated costs are subject to change.

Estimated Effects

None; all funds not necessary to cover outstanding and future ARBA obligations, for commemorative sales activities and necessary salaries and expenses, will be available for grant purposes to the maximum extent possible prior to ARBA's dissolution.

Outlay Effect

There is no outlay effect of this deferral because the funds would not be used if made available.

1/ The OMB identification code that appeared in the FY 1977 budget was 31-03-5077-0-2-806.

Deferral No: D77-32

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency Interstate Commerce Commission	New budget authority (P.L.) $
Bureau	Other budgetary resources 14,610,000
Appropriation title & symbol: Directed Rail Service 30X0103	Total budgetary resources 14,610,000
	Amount to be deferred: Part of year $
	Entire year 13,700,000
OMB identification code: 30-0103-0-1-404 1/	Legal authority (in addition to sec. 1013): [X] Antideficiency Act
Grant program [ ] Yes [X] No	[ ] Other
Type of account or fund: [ ] Annual	Type of budget authority: [X] Appropriation
[ ] Multiple-year (expiration date)	[ ] Contract authority
[X] No-year	[ ] Other

Justification

The directed rail service program provides subsidy funds to maintain rail service for up to eight months over the lines of any carrier not able to provide service due to bankruptcy or other reasons. The funds to be deferred would be used for continuation of Rock Island rail service (or other railroads). Subsidy funds are payable 90 days following completion of the service; therefore, the funds are not expected to be needed until FY 1978 since the Rock Island remains operational at this time. (Section 1(16) (b) of the Interstate Commerce Act.)

Estimated Effects

There will be no programmatic, fiscal, budgetary or economic impact since the budget authority may only be utilized at the direction of the Commission when rail carriers discontinue service. No such discontinuations are anticipated at this time, but should the need arise, there would be a lead time of 11 months prior to required outlay of these funds. This budget authority was sought on a contingency basis to allow the Commission to enter into subsidy obligations when and if necessary.

Outlay Effect

There is no outlay effect of this deferral because the funds are not expected to be needed.

1/ The OMB identification code that appeared in the FY 1977 budget was 31-20-0103-0-1-404.

DEFERRAL OF BUDGET AUTHORITY

Report Pursuant to Section 1013 of P.L. 93-344

Agency National Commission on the Observance of International Women's Year, 1975 Bureau	New budget authority (P.L. _____) $ _____ Other budgetary resources 4,427,000 Total budgetary resources 4,427,000
Appropriation title & symbol Salaries and Expenses, National Commission on the Observance of International Women's Year, 1975. 48X2500	Amount to be deferred: Part of year $ _____ Entire year 680,500
OMB identification code: 1/ 48-2500-0-1-806 Grant program ☐ Yes ☒ No	Legal authority (in addition to sec. 1013): ☒ Antideficiency Act ☐ Other _____
Type of account or fund: ☐ Annual ☐ Multiple-year _____ (expiration date) ☒ No-year	Type of budget authority: ☒ Appropriation ☐ Contract authority ☐ Other _____

Justification The National Commission on the Observance of International Women's Year, 1975 was established by Executive Order No. 11832 on January 9, 1975, to promote the national observance in the United States of International Women's Year and "to focus attention on the need to encourage appropriate and relevant cooperative activity in the field of women's rights and responsibilities." The Executive Order authorized agencies of the Executive branch to provide the Commission with administrative services and funds necessary for its activities.

Public Law 94-167, approved December 23, 1975, extended the life of the Commission to March 31, 1978, and directed the Commission to organize and convene a National Women's Conference to be preceded by State or regional meetings conducted in preparation for the National conference. The statute authorized to be appropriated, without fiscal year limitation, such sums, but not to exceed $5,000,000, as may be necessary to carry out the provisions of the Act. The Second Supplemental Appropriations Act, 1976 (P.L. 94-303), approved June 1, 1976, appropriated $5,000,000, to remain available until expended, to carry out the activities of the Commission.

The Commission estimates that the total amount that can be utilized in fiscal 1977 from the $4,427,000 estimated to remain available on October, 1976, is $3,746,500. The remaining balance of $680,500 is reserved to achieve the most economical use of appropriations.. This amount will be released for obligation in fiscal year 1978 to

HIGHLIGHTS—Continued

NEW ANIMAL DRUGS
HEW/FDA approves safe and effective use of lasalocid sodium in manufacture of chicken feed; effective 10–8–76 44381

ANTIBIOTIC DRUGS
HEW/FDA provides for new amphotericin B master standard; effective 10–8–76; comments by 11–8–76 44381

FEDERAL AGENCY HOUSING AND COMMUNITY PLANNING
GSA issues notice soliciting comments by 12–8–76 on revised policy reflecting criteria on development of Federal building construction proposals 44474

VETERINARY ACCREDITATION
USDA/APHIS proposes to amend requirements and standards to allow use of Technicians; comments by 11–10–76 44407

PRIVACY ACT OF 1974
NCUA proposes revisions concerning specific exemptions of Systems of Records; comments by 11–12–76 44430

SOCIAL SECURITY
HEW/SSA adopts rule relating to computation of benefits and lump sums; effective 10–8–76 44362

FOOD ADDITIVES
HEW/FDA provides for safe use of pentaerythritol tetrabenzoate as a component of food-packaging adhesives; effective 10–8–76; objections by 11–8–76 44381

MERCURY VAPOR LAMPS
HEW/FDA issues proposed recommendations for radiation safety criteria and notice of intent to develop performance standard; comments by 12–7–76 44421

OCCUPATIONAL SAFETY AND HEALTH
HEW/PHS establishes rules for certification of industrial sound level meter sets; effective 10–8–76 44396

HANDICAPPED ASSISTANCE LOANS
SBA proposes to liberalize definition of "associate"; comments by 11–1–76 44430

DELIBERATE OVERBOOKING BY AIR CARRIERS
CAB extends comment period to 10–12–76 on proposed policies 44424

VESSEL FINANCING ASSISTANCE
Commerce/MA proposes comprehensive regulations relating to operation of obligation guarantees; comments by 11–30–76 44403

MEETINGS—
CSC: Advisory Committee on Administrative Law Judges, 10–29–76 44451
Commerce/NBS: Computer Networking Standards for Library and Information Science Community Task Force, 11–10 thru 11–12–76 44439
NOAA: Sea Grant Advisory Panel, 10–28 and 10–29–76 44439
DOD: Defense Intelligence Agency Scientific Advisory Committee, 12–2 and 12–3–76 44433
Defense Science Board Advisory Committee, 11–4 and 11–5–76 44433
Defense Science Board Task Force on Patriot Vulnerability Advisory Committee, 10–26 thru 10–28–76 44433
Army: Special Commission on the United States Military Academy; 10–27 thru 10–29–76 44432
Navy: Academic Advisory Board to the Superintendent, United States Naval Academy, 11–15–76 44432
Board of Visitors to the United States Naval Academy, 11–29 and 11–30–76 44432

V 41 1 1976 OCT 8 76 UMI

Chief of Naval Operations Executive Panel Advisory Committee, 10–27 and 10–28–76 44432
EPA: National Air Pollution Control Techniques Advisory Committee, 11–3 and 11–4–76 44457
National Drinking Water Advisory Council, 10–27 and 10–28–76 44457
Science Advisory Board, Ecology Advisory Committee, 10–28 and 10–29–76 44456
Science Advisory Board, Environmental Measurements Advisory Committee, 11–1 and 11–2–76 .. 44456
FHLBB: Federal Savings and Loan Advisory Council, 11–29 thru 12–1–76 44461
HEW/ADAMHA: Advisory Committee meetings, month of November, 1976 44440
HRA: Advisory Committee, Health Care Technology Study Section, 10–27 thru 10–29–76 44442
NIH: Advisory committees, 11–8, 11–9 and 11–11–76 44443
Influenza Vaccine Workshop, 10–22–76 44445
National Cancer Advisory Board, 11–15 and 11–16–76 44445
Review of Research Contract Proposals, Meetings for the month of November 44444
Review of Research Grant Applications, Meetings for the month of November 44445
National Heart, Lung, and Blood Institute; Clinical Applications and Prevention Advisory Committee, 11–8–76 44445
National Heart, Lung, and Blood Institute; Clinical Trials Review Committee, 11–22 and 11–23–76 44444
National Heart, Lung, and Blood Institute; Heart and Lung Research Review Committees A and B (2 documents), 11–12 and 11–13–76 ..... 44444, 44445
PHS: National Immunization Effort, 11–12 thru 11–14–76 44446
Interior: Outer Continental Shelf Advisory Board, 11–8–76 44433
National Commission on New Technological Uses of Copyrighted Works, 10–21 and 10–22–76 44460
NSF: Advisory Panel for Mathematical Sciences, 10–28 and 10–29–76 44477
Advisory Panel for Metabolic Biology, 10–28 and 10–29–76 44477
Subpanel on Undergraduate Research Participation Program, 10–28 thru 10–30–76 44478
SBA: Fargo District Advisory Council, 10–21–76 44478
USDA: Advisory Committee on Foreign Animal Diseases, 10–27–76 44434
AMS: Shippers Advisory Committee, 10–26–76 44434

AMENDED MEETING—

HEW/NIH: Experimental Therapeutics Study Section, 10–21 thru 10–23–76 44444

HEARING—

National Commission on Supplies and Shortages, 10–13–76 44459
FEA: Federal Policy on Liquified Natural Gas (LNG) Imports, 10–26 and 10–27–76; comments by 10–26–76 44460

PART II:

GRANTS ADMINISTRATION

HEW simplifies procurement standards; effective 10–8–76 44551

PART III:

PRIVACY ACT OF 1974

HUD issues interim rule on implementation; comments by 11–8–76; effective 10–8–76 44556
HUD issues notice of amendments to Systems of Records; comments by 11–8–76 44557

PART IV:

COMMODITY OPTIONS

CFTC issues comprehensive interim regulations; effective 11–22–76 and solicits comments by 11–8–76 on test program to obtain data concerning permanent regulatory program on trading 44559

PART V:

RAILROAD REVITALIZATION AND REGULATORY REFORM ACT

DOT/FRA sets forth application procedures and guarantees (2 documents); effective 10–8–76 ..... 44570, 44577

PART VI:

MINIMUM WAGES

Labor/ESA issues general wage determination decisions for Federal and federally-assisted construction 44587

contents

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 61]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period October 10–16, 1976. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.361 Lemon Regulation 61.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is improved this week. Average f.o.b. price was $5.90 per carton the week ended October 2, 1976, compared to $6.16 per carton the previous week. Track and rolling supplies at 75 cars were down 5 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regeffectuate the declared policy of the act effecuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on October 5, 1976.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period October 10, 1976, through October 16, 1976, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: October 8, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.76–29934 Filed 10–7–76;11:27 am]

PART 931—FRESH BARTLETT PEARS GROWN IN OREGON AND WASHINGTON

Expenses, Rate of Assessment and Carryover of Unexpended Funds

This document authorizes expenses of $25,930 by the Northwest Fresh Bartlett Pear Marketing Committee, under Marketing Order No. 931, for the 1976–77 fiscal period and fixes a rate of assessment of $0.01 per standard western pear box of Bartlett pears handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses. It also authorizes the carryover, as a committee reserve, of unexpended assessment income from fiscal 1975–76.

On September 14, 1976, notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 39043) regarding proposed expenses and the related rate of assessment for the fiscal period July 1, 1976, through June 30, 1977, and carryover of unexpended 1975–76 assessment income, pursuant to the marketing agreement and Order No. 931 (7 CFR Part 931) regulating the handling of fresh Bartlett pears grown in Oregon and Washington. This notice allowed interested persons until September 30, 1976, to submit written data, views, or arguments pertaining to these proposals. No such material was submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Northwest Fresh Bartlett Pear Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 931.211 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Northwest Fresh Bartlett Pear Marketing Committee during the fiscal period July 1, 1976, through June 30, 1977, will amount to $25,930.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 931.41, is fixed at $0.01 per standard western pear box of pears, or an equivalent quantity of pears in other containers or in bulk.

(c) *Reserve.* Unexpended assessment funds in excess of expenses incurred during the fiscal period ended June 30, 1976, be carried over as a reserve in accordance with the applicable provisions of § 931.42.

(d) *Terms.* Terms used in the marketing agreement and order shall, when

V 41 I 197 OCT 8 76 UMI

used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of Bartlett pears grown in Oregon and Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable pears handled during the aforesaid period; and (3) such period began on July 1, 1976, and said rate of assessment will automatically apply to all such pears beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).)

Dated: October 5, 1976.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of the Treasury

Section 213.3305 is amended to show that one position of Special Assistant to the Secretary (Public Affairs) is excepted under Schedule C.

Effective October 8, 1976, § 213.3305 (a) (69) is added as set forth below:

§ 213.3305 Department of the Treasury.

(a) *Office of the Secretary.* • • •

(69) One Special Assistant to the Special Assistant to the Secretary (Public Affairs).

• • • • • •

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-29255 Filed 10-7-76;8:45 am]

PART 213—EXCEPTED SERVICE

Federal Energy Administration

Section 213.3388 is amended to show that one position of Director of Intergovernmental Relations is excepted under Schedule C.

Effective on October 8, 1976, § 213.3388 (n) (1) is added as set out below:

§ 213.3388 Federal Energy Administration.

• • • • • •

(n) *Office of Intergovernmental Relations and Special Programs.* (1) Director of Intergovernmental Relations.

(5 U.S.C. 3301, 3302; EO 10577, 3 CFR 1954–1958 Comp., p. 218.)

UNITED STATES CIVIL SERVICE COMMISSION,
JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.76-29668 Filed 10-7-76;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS: ORGANISMS AND VECTORS

VETERINARY BIOLOGICS CONTROL PROGRAM

Deletion of Use of Special Licenses

• *Purpose.* To simplify the licensing procedures used in the veterinary biologics control program by deleting the use of special licenses. •

Statement of considerations. The term "special" license is presently used to designate a product about which the Deputy Administrator desires additional information, and over which the Deputy Administrator desires to exert periodic review until a regular license can be issued or the product is removed from the market.

The term "special" is deleted from the regulations because it has been found that it has led to confusion and misunderstandings among persons licensed under the regulations, as well as other affected members of the public. The use of the term has, among other things, created the mistaken belief that the term "special" refers to the quality of the product involved, rather than merely being an administrative term.

The deletion of this term from the regulations is administrative only and does not make any substantive changes in the requirements presently imposed by these regulations. Therefore, these amendments remove references to a special license by deletion or revision from § 101.2(m), § 101.2(u), § 102.1, § 102.2, § 102.4(c), § 102.4(f), § 102.6, § 105.1(a), § 105.1(b), § 105.4, § 112.2(a)(3), § 113.163(d)(2), and § 123.1(i). Section 102.2 is further revised for the purpose of clarifying its provisions.

All words in the heading for § 113.163 are to be capitalized.

Section 102.5 is amended by revising paragraph (b) to include items which are to appear on all product licenses.

Section 102.5 is further amended by adding a new paragraph (e) with subparagraphs (1), (2), (2)(i), and (2)(ii). The authority now given to the Deputy Administrator under § 102.5(b) to prescribe restrictive conditions on some product licenses at the time they are issued is restated in the new paragraph (e) of § 102.5. Some restrictions which have been imposed on products prepared under special licenses and will be imposed on some products under a regular product license are restated in the new paragraph (e) of § 102.5.

Pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151–158), Parts 101, 102, 105, 112, 113, and 123, Subchapter E, Chapter I of Title 9 of the Code of Federal Regulations are amended by making the following administrative changes:

PART 101—DEFINITIONS

1. Part 101 is amended by revising § 101.2(m) and (u) to read:

§ 101.2 Administrative terminology.

• • • • • •

(m) *Licensee.* A person to whom an establishment license and at least one product license has been issued.

• • • • • •

(u) [Reserved]

• • • • • •

PART 102—LICENSES FOR BIOLOGICAL PRODUCTS

2. Part 102 is amended as follows:

a. The Table of Contents is amended to read:

Sec.
102.1 Licenses issued by the Deputy Administrator.
102.2 Licenses required.
102.3 License applications.
102.4 U.S. Veterinary Biologics Establishment License.
102.5 U.S. Veterinary Biological Product License.
102.6 [Reserved]

AUTHORITY: 37 Stat. 832–833; (21 U.S.C. 151–158).

b. Section 102.1 is revised to read:

§ 102.1 Licenses issued by the Deputy Administrator.

The Deputy Administrator shall issue a U.S. Veterinary Biologics Establishment License for each qualified establishment maintained to produce biological products, and a U.S. Veterinary Biological Product License for each biological product authorized to be produced in a licensed establishment.

c. Section 102.2 is revised to read:

§ 102.2 Licenses required.

Every person who prepares biological products subject to the Virus-Serum-Toxin Act shall hold an unexpired, unsuspended, and unrevoked U.S. Veterinary Biologics Establishment License and at least one unexpired, unsuspended, and unrevoked U.S. Veterinary Biological Product License issued by the Deputy Administrator to prepare a biological product other than an autogenous biologic in such establishment: *Provided*, That, if the applicant for an establishment license wishes to prepare an autogenous biologic, then a nonautogenous biological product must be licensed for production in such establishment in order to meet the requirements of this section.

d. Paragraphs (c) and (f) of § 102.4 are revised to read:

§ 102.4 U.S. Veterinary Biologics Establishment License.

• • • • • •

(c) U.S. Veterinary Biologics Establishment Licenses shall be numbered and shall be in the following form:

U.S. VETERINARY BIOLOGICS ESTABLISHMENT LICENSE

No. ------,

Washington, D.C., ----------

This is to certify that, pursuant to the terms of the Act of Congress approved March 4, 1913 (37 Stat. 832) governing the preparation, sale, barter, exchange, shipment, and importation of viruses, serums, toxins, and analogous products intended for use in the treatment of domestic animals ---------- is hereby authorized to maintain at ---------- an establishment for the preparation of biological products specified in one or more unexpired, unsuspended, and unrevoked product licenses and designated to be produced in this establishment. This license is subject to termination as provided in the regulations made under the authority contained in said Act, and to suspension of revocation if the licensee violates or fails to comply with said Act or the regulations made thereunder.

Deputy Administrator, Veterinary Services Animal and Plant Health Inspection Service.

• • • • • •

(f) When a licensee no longer holds an unexpired, unsuspended, or unrevoked product license authorizing the preparation of a biological product other than an autogenous biologic, any establishment license and any product licenses for autogenous biologics shall be submitted to the Deputy Administrator for termination.

• • • • • •

e. Section 102.5 is amended by revising paragraph (b) and by adding a new paragraph (e) to read:

§ 102.5 U.S. Veterinary Biological Product License.

• • • • • •

(b) The U.S. Veterinary Biologics Establishment License Number for the establishment in which the product is packaged and labeled as required by the regulations and from which the product is released for marketing shall appear on the U.S. Veterinary Biological Product License with the true name of the product, the product code number, the date of issuance, and any restrictions designated by the Deputy Administrator under paragraph (e) of this section. When necessary to comply with paragraph (e)(2) of this section, the termination date shall also appear on the product license.

• • • • • •

(e) When the Deputy Administrator determines that the nature of a product necessitates the restriction of its use for the protection of domestic animals, or the public health, interest, or safety, or both, the product shall be subject to such additional restrictions as are prescribed on the license. Such restrictions may include, but not be limited to, those provided in this paragraph.

(1) The biological product may be restricted for use by veterinarians, or under the supervision of veterinarians, or both.

(2) Subject to the conditions in subparagraphs (2)(i) and (ii) of this paragraph, production of a licensed biological product may be restricted to a predetermined time period, in which case, the termination date for the license shall be established at the time of issuance.

(i) Immediately prior to the termination date, the licensee may request reissuance of the license. At that time, the licensee shall be given an opportunity to substantiate such request with all available data and information obtained since the license was issued.

(ii) After reviewing the matter with the licensee and considering all data and information obtained from any source, the Deputy Administrator shall either reissue the product license or allow it to terminate.

f. Section 102.6 is reserved as follows:

§ 102.6 [Reserved]

PART 105—SUSPENSION OF BIOLOGICS LICENSES OR PERMITS

3. Part 105 is amended by revising the introductory portion of § 105.1(a), and by revising paragraph 105.1(b) and § 105.4 to read:

§ 105.1 Suspension or revocation.

(a) An establishment license, product license, or permit issued under the Virus-Serum-Toxin Act may be formally suspended or revoked after opportunity for hearing has been accorded the licensee or permittee as provided in Part 123 of this subchapter if the Secretary is satisfied that the license or permit is being used to facilitate or effect the preparation, sale, barter, exchange, shipment, or importation contrary to said Act of any worthless, contaminated, dangerous, or harmful biological product. Such use may be found to exist if:

• • • • • •

(b) In case of willfulness or where the public health, interest, or safety so required the Secretary may, without hearing, informally suspend such establishment license, product license, or permit upon the grounds set forth in paragraph (a) of this section pending determination of formal proceedings under Part 123 of this subchapter for suspension or revocation of the license or permit.

• • • • • •

§ 105.4 Termination of licenses for inactivity.

If a licensed biological product has not been prepared by the licensee for a period of 5 years, the Deputy Administrator may require that the licensee show intent to resume production within 6 months or the product license be terminated.

PART 112—PACKAGING AND LABELING

4. Section 112.2 is amended by revising paragraph (a)(3) to read:

§ 112.2 Final container label, carton label, and enclosure.

(a) • • •

(3) The license or permit number assigned by the Department which shall be shown only in one of the following forms respectively: "U.S. Veterinary License No. ----," or "U.S. Vet. License No. ----," or "U.S. Vet Lic. No. ----," or "U.S. Veterinary Permit No. ----," or "U.S. Permit No. ----."

• • • • • •

PART 113—STANDARD REQUIREMENTS

5. Section 113.163 is amended by revising paragraph (d)(2) to read:

§ 113.163 Fowl Laryngotracheitis Vaccine.

• • • • • •

(d) • • •

(2) *Safety test.* Final container samples of completed product from each serial of modified live virus vaccine shall be tested for safety as provided in this paragraph. Live virus vaccine not prepared with modified live virus shall be tested for safety as provided in the filed Outline of Production.

• • • • • •

PART 123—RULES OF PRACTICE

6. Part 123 is amended by revising § 123.1(i) to read:

§ 123.1 Definitions.

• • • • • •

(i) *Licensee.* A person to whom an establishment license and at least one product license has been issued.

• • • • • •

(21 U.S.C. 151 and 154, FR 28477; 38 FR 19141)

These amendments provide administrative changes in the licensing procedures used in the veterinary biologics control program administered in accordance with the Virus-Serum-Toxin Act. In order to be of maximum benefit, they must be made effective immediately; except that label changes necessitated by these amendments shall be made by all licensees at their next printing of labels to which these changes apply following the effective date of these amendments, but in all cases not later than April 8th, 1977.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning these amendments are impracticable and unnecessary, and good cause is found for making these amendments effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective October 8th, 1976.

Done at Washington, DC, this 4th day of October 1976.

J. M. HEJL,
Deputy Administrator, Veterinary Services.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Emergency Amendment Increasing Permissible Inventory Accumulation of Propane and Butane by Industrial Users

The Federal Energy Administration (FEA) hereby amends, effective immediately, the Mandatory Petroleum Allocation Regulations concerning permissible inventory accumulation of propane and butane by industrial users.

On August 29, 1975, FEA issued amendments to the Mandatory Petroleum Allocation and Price Regulations concerning propane and butane imports other than from Canada (40 FR 40821; September 4, 1975). Two of the amendments changed §§ 211.86(g) and 211.96 (e) regarding inventory accumulation by industrial users of propane and butane, respectively. The changes adopted were designed primarily to permit industrial users to acquire non-Canadian imported propane and butane free of the inventory limitations imposed by those sections.

In adopting these amendments, FEA did not intend to modify the limitation on inventory accumulation of Canadian and domestic propane and butane, which was 120 percent of the volumes used for all industrial uses during the period April 1, 1972 through March 31, 1973. However, the language adopted altered the limitation to 120 percent of the volumes used for all industrial uses during the base period. Since the base period for propane and butane is a calendar quarter (10 CFR 211.82 and 211.92), these changes inadvertently resulted in a substantial lessening of the volumes of propane and butane industrial users could accumulate in inventory. The effect of these amendments was not appreciated at the time of their issuance because most industrial users had already filled their propane and butane inventories for use in the 1975–1976 heating season. The impact of these provisions, however, became apparent in mid-August of 1976.

The problems for industrial users presented by the changes in §§ 211.86 and 211.96 have been aggravated by increasing difficulties for some propane and butane suppliers to make deliveries during the winter months. In 1972, suppliers had relatively little problem in making deliveries during the winter. However, the growing number of natural gas curtailments has resulted in an increased demand for propane and butane during the heating season. This development makes it difficult and costly for suppliers to make deliveries throughout the winter heating season, especially in the southeastern United States. Suppliers have the ability to make large volume deliveries of propane and butane to industrial users during the summer and early fall, because there is relatively small demand placed on the distribution system at that time of year. Hence, it is desirable to allow industrial users to fill their inventories during this period. However, under the limitations imposed by the previous amendments to §§ 211.86 and 211.96, many industrial users could not purchase the large volumes of propane and butane when they were readily available for placement into inventory without exceeding the inventory accumulation limitations. By changing the reference period for inventory accumulation from the quarterly base period to the 12-month period April 1, 1972–March 31, 1973, most industrial users will be able to place sufficient volumes of propane and butane into inventory, without exceeding the inventory accumulation limitations, during the summer and early fall, when there is relatively little problem in suppliers' making deliveries.

In view of these considerations, FEA is amending 10 CFR 211.86 and 211.96, effective October 1, 1976, to correct its prior inadvertent change in those regulations as they affect inventory accumulations by industrial users of propane and butane. The amendments issued today limit inventory accumulation to 120 percent of the volumes used during the period April 1, 1972 through March 31, 1973.

It should be noted that the amendments adopted today only affect the permissible inventory accumulation of propane and butane by industrial users. Such users remain limited in the volume of propane and butane they may use during a base period. That limitation is 100 percent of base period use pursuant to 10 CFR 211.10(g) (8).

FEA has concluded that these amendments must be made effective immediately and prior to opportunity for comment, because under the previous limitations industrial users could not acquire sufficient inventories of propane and butane before the start of the 1976–1977 heating season (approximately November 1, 1976). Accordingly, the provisions of section 7(1)(B) of the Federal Energy Administration Act of 1974 (FEAA), as amended (Pub. L. 93–275), with respect to notice and opportunity for comment, are hereby waived upon a finding that strict compliance therewith would cause serious harm and injury to the public welfare.

As required by section 7(c)(2) of the FEAA, a copy of this notice was submitted to the Administrator of the Environmental Protection Agency for his comments concerning the impact of this proposal on the quality of the environment. The Administrator had no comments on this proposal.

The amendments adopted today have been reviewed in accordance with Executive Order 11821 and Office of Management and Budget Circular No. A–107 and have been determined not to require evaluation of their inflationary impact as provided for therein.

Because these amendments are being issued on an emergency basis, an opportunity for oral presentation of views is not possible prior to the implementation of these amendments. A public hearing, however, will be held beginning at 9:30 a.m., on October 28, 1976, in Room 2105, 2000 M Street, N.W., Washington, D.C., to receive comments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, 12th and Pennsylvania Avenue, N.W., Washington, D.C. 20461, and must be received before 4:30 p.m., e.s.t., October 22, 1976. Such a request may be hand delivered to Room 3309, Federal Building, 12th and Pennsylvania Avenue, NW, Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through October 27, 1976. Each person selected to be heard will be so notified by the FEA before 5:30 p.m., e.s.t., October 26, 1976, and must submit 50 copies of his or her statement to Office of Allocation Regulation Development, FEA, Room 2214, 2000 M Street, N.W., Washington, D.C. 20461, before 9:00 a.m., e.s.t., October 26, 1976.

The FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearing will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t., October 21, 1976. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answers.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by the FEA and made available for inspection at the FEA Freedom of Information Office, Room 2107, Federal Building, 12th and Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Anyone may buy a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to these emergency amendments to Executive Communications, Federal Energy Administration, Box JC, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Limitation on Inventory Accumulation of Propane and Butane." Fifteen copies should be submitted. All comments received by October 21, 1976, and all relevant information, will be considered by the Federal Energy Administration.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended Pub. L. 93–511, Pub. L. 94–99, Pub. L. 94–133; Pub. L. 94–163, Pub. L. 94–385; Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended, Pub. L. 94–332, Pub. L. 94–385; E.O. 11790 (39 FR 23185).)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective October 1, 1976.

Issued in Washington, D.C., October 5, 1976.

MICHAEL F. BUTLER,
General Counsel.

1. Section 211.86 is amended by revising subparagraph (3) of paragraph (g) to read as follows:

§ 211.86 Method of allocation.

• • • • •

(g) *Inventory accumulation.* • • •

(3) Industrial users (including petrochemical feedstock users and refinery fuel users) may accumulate propane in inventory pursuant to paragraph (g) (1) of this section but only up to an amount equal to one hundred twenty (120) percent of the volumes used for all industrial uses (including standby volumes) during the period April 1, 1972 through March 31, 1973, except that propane imported other than from Canada pursuant to § 211.12(g) shall not be subject to this limitation.

• • • • •

2. Section 211.96 is amended by revising subparagraph (3) of paragraph (e) to read as follows:

§ 211.96 Method of allocation.

• • • • •

(e) *Inventory accumulation.* • • •

(3) Industrial users (including petrochemical feedstock users and refinery fuel users) may accumulate butane in inventory pursuant to paragraph (e)(1) of this section but only up to an amount equal to one hundred twenty (120) percent of the volumes used for all industrial uses (including standby volumes) during the period April 1, 1972 through March 31, 1973, except that butane imported other than from Canada pursuant to § 211.12(g) shall not be subject to this limitation.

• • • • •

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. AA; Docket No. R–0056]

PART 227—UNFAIR OR DECEPTIVE ACTS OR PRACTICES

Consumer Complaint Procedure; State Member Banks

The Federal Trade Commission Act as amended (Pub. L. 93–637) requires each of the Federal bank supervisory agencies to establish a separate division of consumer affairs and to institute a procedure for handling consumer complaints regarding unfair or deceptive acts or practices of banks under their jurisdiction. Pursuant to section 18(f) of that Act, the Board of Governors has instituted a procedure for receiving and handling consumer complaints regarding State-chartered banks that are members of the Federal Reserve System.

In August 1974, in anticipation of the passage of Pub. L. 93–637, the Board established a separate Office of Saver and Consumer Affairs which administers the consumer legislation for which the Board has been given responsibility. Among these statutes are the Truth in Lending Act, the Fair Credit Reporting Act, the Fair Credit Billing Act, the Equal Credit Opportunity Act, the Federal Trade Commission Act as amended, and the Home Mortgage Disclosure Act.

The Board instituted a formal System-wide procedure for handling consumer complaints regarding State member banks in January 1976. The procedure is designed to serve two purposes. First, it assures consumers of prompt and responsive action on their complaints involving State member banks. Second, it provides a mechanism for identifying those acts or practices of commercial banks that may require further investigation and possible regulatory action by the Board. In order to provide the Board with comprehensive current information on complaints against commercial banks not under its direct supervision, the other two Federal bank supervisory agencies (the Comptroller of the Currency and the Federal Deposit Insurance Corporation) have established ongoing procedures by which the Board receives quarterly reports on the number and substance of complaints against national and insured nonmember State banks.

The Board's complaint procedure is not limited to those persons who are customers of the State member bank in question or to those acts or practices that are already the subject of Federal regulation. Any person with knowledge of an act or practice of a State member bank that the person considers unfair or deceptive may utilize the complaint procedure. Similiarly, while a consumer complaint may arise under an existing Federal statute or Board regulation, a complaint may also be directed at an act or practice that is either expressly authorized or not prohibited by current Federal or State laws or regulations. However, the complaint procedure does not apply to requests for general information or publications such as statistical data. Nor does it apply to complaints regarding such matters as monetary policy, fiscal agency functions, or Treasury issues.

Complaints regarding State member banks should be addressed to the Director, Office of Saver and Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551. Such complaints may also be addressed to the Federal Reserve Bank serving the district in which the State member bank is located. The locations of these Federal Reserve Banks and names and addresses to whom complaints may be addressed follow:

Mr. Luther M. Hoyle, Jr., Vice President, Federal Reserve Bank of Boston, 30 Pearl Street, Boston, Massachusetts 02106.
Mr. Edward F. Kipfstuhl, Manager, Bank Regulations Department, Federal Reserve Bank of New York, 33 Liberty Street, New York, New York 10045.
Mr. Lawrence C. Murdoch, Jr., Vice President and Secretary, Federal Reserve Bank of Philadelphia, 100 North 6th Street, Philadelphia, Pennsylvania 19105.
Mr. Harry Huning, Vice President, Federal Reserve Bank of Cleveland, 1455 East Sixth Street, Cleveland, Ohio 44101.
Mr. James Slate, Assistant Counsel, Federal Reserve Bank of Richmond, 100 North Ninth Street, Richmond, Virginia 23261.
Mr. Harris C. Buell, Jr., Assistant Vice President, Federal Reserve Bank of Chicago, 230 South La Salle Street, Chicago, Illinois 60690.
Mr. Harold E. Uthoff, Vice President, Federal Reserve Bank of St. Louis, 411 Locust Street, St. Louis, Missouri 63166.
Mr. Sheldon Azine, Assistant Counsel and Assistant Secretary, Federal Reserve Bank of Minneapolis, 250 Marquette Street, Minneapolis, Minnesota 55480.
Mr. Robert Scott, Chief Examiner, Federal Reserve Bank of Kansas City, 925 Grand Avenue, Kansas City, Missouri 64198.
Mr. George C. Cochran III, Vice President, Federal Reserve Bank of Dallas, 400 South Akard Street, Dallas, Texas 75222.
Mr. Jack Sicard, Assistant Vice President, Federal Reserve Bank of Atlanta, 104 Marietta Street, NW., Atlanta, Georgia 30303.
Mr. Oscar Celli, Credit and Consumer Affairs Officer, Federal Reserve Bank of San Francisco, 400 Sansome Street, San Francisco, California 94120.

Complaints regarding banks other than State member banks are not sub-

V 41 1976 OCT 8 76 UMI

ject to the Board's consumer complaint procedures. Such complaints should be addressed to the agency having jurisdiction with respect to that institution. Following is a list of the appropriate Federal agencies to which complaints should be addressed and the types of institutions for which the agencies are responsible:

NATIONAL BANKS

Comptroller of the Currency, Washington, D.C. 20219.

NONMEMBER INSURED BANKS

Federal Deposit Insurance Corporation Regional Director for the Region in which the nonmember insured bank is located.

The provisions of 5 U.S.C. 553 with respect to notice of proposed rulemaking, opportunity for comment, and delayed effective date are deemed inapplicable to this rule because it constitutes a rule of agency organization, procedure or practice, within the meaning of 5 U.S.C. 553 (b) (A). The rule is effective immediately.

Pursuant to section 18(f) of the Federal Trade Commission Act as amended by Pub. L. 93-637, the Board hereby amends 12 CFR Chapter II by adding a new Part 227, to read as follows:

Sec.
227.1 Definition.
227.2 Consumer complaint procedure.

AUTHORITY: Sec. 18(f), Federal Trade Commission Act, as amended by Pub. L. 93-637.

§ 227.1 Definitions.

For the purposes of this Part,[1] unless the context indicates otherwise, the following definitions apply:

(a) "Board" means the Board of Governors of the Federal Reserve System.

(b) "Consumer complaint" means an allegation by or on behalf of an individual, group of individuals, or other entity that a particular act or practice of a State member bank is unfair or deceptive, or in violation of a regulation issued by the Board pursuant to a Federal statute, or in violation of any other Act or regulation under which the bank must operate.

(c) "State member bank" means a bank that is chartered by a State and is a member of the Federal Reserve System.

(d) Unless the context indicates otherwise, "bank" shall be construed to mean a "State member bank," and "complaint" to mean a "consumer complaint."

§ 227.2 Consumer complaint procedure.

(a) *Submission of complaints.* (1) Any consumer having a complaint regarding a State member bank is invited to submit it to the Federal Reserve System. The complaint should be submitted in writing, if possible, and should include the following information:

(i) A description of the act or practice that is thought to be unfair or deceptive, or in violation of existing law or regulation, including all relevant facts;

(ii) The name and address of the bank that is the subject of the complaint; and

(iii) The name and address of the complainant.

(2) Consumer complaints should be made to:

(i) The Director, Office of Saver and Consumer Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551; or

(ii) The Federal Reserve Bank of the District in which the bank is located. The addresses of the Federal Reserve Banks are as follows:

Federal Reserve Bank of Boston, 30 Pearl Street, Boston, Massachusetts 02106.
Federal Reserve Bank of New York, 33 Liberty Street, New York, New York 10045.
Federal Reserve Bank of Philadelphia, 100 North 6th Street, Philadelphia, Pennsylvania 19105.
Federal Reserve Bank of Cleveland, 1455 East Sixth Street, Cleveland, Ohio 44101.
Federal Reserve Bank of Richmond, 100 North Ninth Street, Richmond, Virginia 23261.
Federal Reserve Bank of Chicago, 230 South La Salle Street, Chicago, Illinois 60690.
Federal Reserve Bank of St. Louis, 411 Locust Street, St. Louis, Missouri 63166.
Federal Reserve Bank of Minneapolis, 250 Marquette Street, Minneapolis, Minnesota 55480.
Federal Reserve Bank of Kansas City, 925 Grand Avenue, Kansas City, Missouri 64198.
Federal Reserve Bank of Dallas, 400 South Akard Street, Dallas, Texas 75222.
Federal Reserve Bank of Atlanta, 104 Marietta Street NW., Atlanta, Georgia 30303.
Federal Reserve Bank of San Francisco, 400 Sansome Street, San Francisco, California 94120.

(b) *Response to complaints.* Within 15 business days of receipt of a written complaint by the Board or a Federal Reserve Bank, a substantive response or an acknowledgment setting a reasonable time for a substantive response will be sent to the individual making the complaint.

(c) *Referrals to other agencies.* Complaints received by the Board or a Federal Reserve Bank regarding an act or practice of an institution other than a State member bank will be forwarded to the Federal agency having jurisdiction over that institution.

By order of the Board of Governors, September 27, 1976.

THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.76-29625 Filed 10-7-76;8:45 am]

[1] The words "this part," as used herein, mean Title 12, Chapter II, Part 227 of the Code of Federal Regulations, cited as 12 CFR Part 227 and designated as Regulation AA.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regulations No. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950.....)

Subpart C—Basic Computation of Benefits and Lump Sums

On March 23, 1976, there was published in the FEDERAL REGISTER (41 FR 12018) a notice of proposed rulemaking with a proposed revision of Subpart C of 20 CFR Part 404 (Regulations No. 4 of the Social Security Administration). The proposed amendments reflected current policies and procedures relating to computations and the amendments to the Social Security Act made by sections 201 and 202 of Pub. L. 92-336, which provide for cost-of-living increases in monthly benefit amounts; and by sections 101, 103, 104, 120, 134, and 142 of Pub. L. 92-603, which provide for additional types of benefit recomputations and recalculations. These proposed amendments provided the first comprehensive revision of Subpart C of Regulations No. 4 since 1955. For ease of reference, this subpart was organized into four divisions: Introduction, Current Methods of Computing Benefits, Current Methods of Recomputing Benefits, and Special Computations and Recomputations with Limited Current Applicability.

The major substantive changes in this subpart were as follows:

1. Definitions of the most common terms used throughout this subpart were provided in the introductory material.

2. An explanation was provided as to how an insured individual's basic benefit (called a "primary insurance amount") is determined from a table in section 215(a) of the Social Security Act based either upon: (a) the individual's average monthly wage over the years from 1951 through the year before he or she reaches retirement age (disregarding five low earnings years, years before age 22, and years of disability); or (b) the individual's basic benefit under a formula applied to the individual's average monthly wage over the years from 1937 through the year before he or she reaches retirement age (also disregarding five low earnings years, years before age 22, and years of disability).

3. A provision was added to reflect a provision of the 1972 Amendments to the Social Security Act, which permits a special minimum "primary insurance amount" of up to $180 to be computed without regard to an individual's average monthly wage. Under this provision an individual's "primary insurance amount" equals $9.00 times the number of years in which he or she earned at least one-fourth the yearly maximum amount creditable for social security purposes (but disregarding the first ten such years).

4. A provision was added to reflect provisions of the 1972 Amendments which reduced the retirement age for men who attained age 62 after 1974, and deemed men who attained age 62 in 1973 or 1974 to have attained retirement age in 1975 for such purposes.

5. A description was provided of how benefits are increased by the percentage rise in the cost-of-living over a base period when certain conditions are met.

6. A provision was added to explain how an individual's "primary insurance amount" is automatically recomputed to include in the computation of this amount earnings which were not included when the "primary insurance amount" was previously computed. Essentially, the individual's "primary insurance amount" is computed again as if he or she were filing for retirement insurance benefits in the year in which the recomputation is made. Instead of waiting for the automatic recomputation, an individual may request that the recomputation be made as soon as the year in which he or she had additional earnings ends.

7. A description was provided of certain special computations and recomputations which may apply when an individual has military service, compensation for railroad employment, or credits for internment during World War II in a United States facility for interning United States citizens of Japanese ancestry.

8. A description was provided of "delayed retirement credits" which individuals may qualify for, if they were eligible for retirement insurance benefits between age 65 and age 72, but were not paid such benefits because of continued work and earnings, or because of failure to file a timely application for the benefits. The "delayed retirement credit" equals ½ of 1 percent of the individual's primary insurance amount for each month in such a period for which the individual could have received a retirement insurance benefit but did not for one of these reasons.

Interested parties were given the opportunity to submit, within 60 days, data, views, and arguments with regard to the proposed changes. No adverse comments were received. Since these amendments were published with a Notice of Proposed Rule Making and there were no comments, the spirit and intent of the Secretary's policies regarding the development of regulations, announced July 25, 1976, have been complied with. Further participation by the public does not appear to be warranted. Therefore, the proposed amendments are hereby adopted except for changes to correct typographical errors and an editorial change in § 404.278(c)(1), and are set forth below.

Effective date. These amendments shall be effective October 8, 1976.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, Social Security-Disability Insurance and 13.803, Social Security-Retirement Insurance.)

Dated: August 26, 1976.

THOMAS C. PARROTT,
Acting Commissioner of Social Security.

Approved: October 1, 1976.

DAVID MATHEWS,
Secretary of Health, Education, and Welfare.

Subpart C of Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is revised to read as follows:

Subpart C—Basic Computation of Benefits and Lump Sums

INTRODUCTION

Sec.
404.201 Scope of this subpart.
404.203 Definition of terms.

CURRENT METHODS OF COMPUTING BENEFITS

404.205 General.
404.207 Use of table to determine primary insurance amounts.
404.209 Use of average monthly wage to determine primary insurance amounts.
404.211 Computing an individual's average monthly wage.
404.213 Computing an individual's primary insurance benefit.
404.215 Special rules for computing primary insurance benefits under prior law which may still apply.
404.217 Determining current primary insurance amount from primary insurance amount previously in effect.
404.219 Special minimum primary insurance amounts.
404.221 Cost-of-living benefit increases.
404.223 Table for determining primary insurance amounts and maximum family benefits after May 1975.
404.225 Table for determining primary insurance amounts and maximum family benefits for June 1974 through May 1975.
404.227 Table for determining primary insurance amounts and maximum family benefits for March 1974 through May 1974.

CURRENT METHODS OF RECOMPUTING BENEFITS

404.240 General.
404.242 When a recomputation applies.
404.244 "Automatic" recomputations.
404.246 Request for immediate recomputation.
404.248 Waiver of recomputation.
404.250 Continued applicability of certain recomputations in effect prior to the 1965 amendments.

SPECIAL COMPUTATIONS AND RECOMPUTATIONS WITH LIMITED CURRENT APPLICABILITY

404.270 General.
404.272 Recalculation of primary insurance amount.
404.274 Recalculations and recomputations to include compensation for railroad service.
404.276 Recalculations and recomputations to include military service credits.
404.278 Recalculation to include wage credits for individuals interned during World War II.
404.280 Special recomputations when certain old-age insurance beneficiaries die before age 65.
404.282 Increases in old-age insurance benefits due to delayed retirement credits.

AUTHORITY: Secs. 202, 205, 215, and 1102, Social Security Act, 49 Stat. 623, as amended; 53 Stat. 1368, as amended; 64 Stat. 506, as amended, 49 Stat. 647, as amended, 42 U.S.C. 402, 405, 415, and 1302.

INTRODUCTION

§ 404.201 Scope of this subpart.

This subpart describes how an insured individual's basic benefit amount, called the "primary insurance amount," is computed under current law. The primary insurance amount determines the amount of all monthly benefits payable on the earnings record of an insured individual—except for benefits for transitionally insured individuals (§ 404.113(a)) and payments for certain uninsured individuals age 72 or older (§ 404.374). Also described in this subpart is the way in which an individual's primary insurance amount is recomputed or recalculated to consider additional earnings not used in the previous computation or to make necessary corrections in that computation. In addition, an explanation of the way in which a primary insurance amount is increased due to rises in the cost of living is provided, as well as a description of how an individual's old-age insurance benefit is increased due to "delayed retirement credits" (which are increments for each month an individual was entitled to a full old-age insurance benefit between age 65 and 72, but was not paid the benefit because the individual's earnings were too high to permit payment under the retirement test described in Subpart E of this part or was eligible for such benefits in this period but did not file application for them).

§ 404.203 Definition of terms.

(a) *Primary insurance amount.* The primary insurance amount, which is an amount computed on the basis of a worker's "average monthly wage," is the measure for determining the amounts of all benefits payable under title II of the Act except for benefits for transitionally insured individuals (§ 404.113a) and special payments to certain uninsured individuals age 72 or over (§ 404.374). It is equal to the monthly old-age insurance benefit to which an eligible individual can be entitled when such benefit is not reduced because of entitlement before age 65 (§ 404.412) or increased because of delayed retirement credits (§ 404.282).

(b) *Primary insurance benefit.* The primary insurance benefit is the amount which is used to determine the primary insurance amount when earnings prior to 1951 are used in computing the "average monthly wage." Prior to September 1950 it was the direct measure for determining the amounts of benefits payable under title II of the Act. It is now used for purposes of conversion to a corresponding primary insurance amount.

(c) *Average monthly wage.* The average monthly wage is the monthly average determined by dividing the total creditable earnings in the "benefit computation years" by the total number of months in those years. (See §§ 404.209-404.211.)

(d) *Benefit computation years.* Benefit computation years are the actual years which must be used in computing the average monthly wage.

(e) *Computation base years.* Computation base years are the years from which benefit computation years can be selected.

(f) *Elapsed years.* Elapsed years are those years, determined on the basis of a worker's date of birth, date of disability, date of death, and "retirement age," which fix the number of benefit computation years which must be used in computing the average monthly wage.

(g) *Retirement age.* For purposes of this Subpart C, retirement age is 62 for all women and for men who attain age

V41N197 OCT 8 76 UMI

62 in 1975 or later. Men who attained age 62 in 1973 or 1974 are deemed to have attained retirement age in 1975 for such purposes. For men who attained age 62 before 1973, retirement age is 65.

(h) *Recomputation.* Recomputation is the computing of a primary insurance amount which was previously computed. It must be specifically authorized by statute, can only be used to increase the amount previously determined, and is made in accordance with the law and facts as applicable at the time of such recomputation.

(i) *Recalculation.* Recalculation is made to reopen and correct a previous computation or recomputation of a primary insurance amount. Unlike the recomputation, the recalculation may or may not be specifically provided for by law, can be used to either decrease or increase the previous primary insurance amount, and is made as though it were being made at the time of the initial computation or recomputation.

(j) *Years of coverage.* For purposes of computing the special minimum primary insurance amount (under § 404.219), an individual's "years of coverage" is the sum of:

(1) The individual's total credited wages before 1951 divided by $900, plus

(2) The number of the computation base years after 1950 in which the individual's earnings were at least one-fourth of the maximum amount creditable under § 404.209(c).

(k) *Cost-of-living increases.* Cost-of-living increases are the increases in primary insurance amounts and family maximum amounts payable on an individual's earnings record due to rises in the cost of living as measured by the Department of Labor's Consumer Price Index. (See § 404.221.)

(l) *Delayed retirement credits.* Delayed retirement credits (see § 4004.282) are increments, amounting to one-twelfth of one percent of the "primary insurance amount" for each month that the individual: (1) was entitled to a full old-age insurance benefit from age 65 to 72 but did not receive payment because the individual's earnings were too high to qualify for such payment under the retirement test described in Subpart E of this part; or (2) was eligible for such benefits for months in this period but did not file application for them.

CURRENT METHODS OF COMPUTING BENEFITS

§ 404.205 General.

Since the original Social Security Act was enacted in 1935 (Pub. L. 74–271), the methods of computing benefits have been substantially modified by: The Amendments of 1939 (Pub. L. 76–379); the Amendments of 1950 (Pub. L. 81–734); the Amendments of 1952 (Pub. L. 82–590); the Amendments of 1954 (Pub. L. 83–761); the Amendments of 1956 (Pub. L. 84–880); the Amendments of 1958 (Pub. L. 85–840); the Amendments of 1960 (Pub. L. 86–778); the Amendments of 1965 (Pub. L. 89–97); the Amendments of 1967 (Pub. L. 90–248); and the Amendments of 1972 (Pub. L. 92–603). In the following sections, only the methods of computing benefits which are currently applicable are described. Under these methods, an individual's primary insurance amount (the basic benefit amount from which all other benefits are derived) is determined from a table appearing (or deemed to appear) in section 215(a) of the Act, or by the individual's coverage years under the special minimum provision (§ 404.219). (In the case of certain transitionally insured individuals, see § 404.113(a).)

§ 404.207 Use of table to determine primary insurance amounts.

(a) *General.* Unless an insured individual's primary insurance amount computed under the special minimum provision (§ 404.219) would be higher, the individual's primary insurance amount is determined from the applicable table in section 215(a) of the Act (or deemed to appear in that section under the cost-of-living provision—see § 404.221). For purposes of determining primary insurance amounts for months beginning after May 1975, the "applicable" table is the table in § 404.223(a) and the extension of this table appearing in § 404.223(b); for primary insurance amounts beginning June 1974 and ending May 1975, the "applicable" table is the table in § 404.225; for primary insurance amounts for months beginning with March 1974 and ending with May 1974, the "applicable" table is the table in § 404.227. For the "applicable" table for months prior to March 1974, see the appropriate sections of the amendments to the Act referred to in § 404.205.

(b) *How the applicable table is used.* The primary insurance amount for an individual is determined from the "applicable" table (as defined in paragraph (a) of this section) by finding the largest of the following amounts:

(1) The amount in column IV of the applicable table (see paragraph (a) of this section) on the same line on which the individual's average monthly wage as computed under § 404.211 appears in column III;

(2) The amount in column IV of the applicable table (see paragraph (a) of this section) on the same line on which the individual's primary insurance amount as computed for the month immediately preceding the first month for which the new table is effective, appears in column II (see § 404.217);

(3) The amount in column IV of the applicable table (see paragraph (a) of this section) on the same line on which the individual's primary insurance benefit as computed under § 404.213 appears in column I.

§ 404.209 Use of average monthly wage to determine primary insurance amounts.

(a) *General.* The average monthly wage is converted directly to a primary insurance amount under the table provided in section 215(a) of the Act except when it is based, at least in part, upon earnings prior to 1951. In such a case, the average monthly wage is first used to determine the primary insurance benefit which is then converted to a primary insurance amount under the table provided in section 215(a) of the Act. For certain situations in which an average monthly wage is "deemed" for veterans of World War II, see paragraph (d) of this section.

(b) *Earnings considered in determining the average monthly wage.* In determining an individual's average monthly wage to establish the individual's primary insurance amount or primary insurance benefit, the following kinds of earnings may be considered, subject to the limitations in paragraph (c) of this section:

(1) All wages and self-employment income creditable under the provisions of Subparts I and K of this part;

(2) All compensation certified to the Social Security Administration by the Railroad Retirement Board under section 5(k)(3) of the Railroad Retirement Act of 1937 or section 7(b)(7) of the Railroad Retirement Act of 1974 if the compensation is otherwise creditable under Subpart O of this part;

(3) All wages deemed paid to an individual for the individual's service in the active military or naval service of the United States after September 15, 1940, if otherwise creditable under sections 217 and 229 of the Act and Subpart N of this part;

(4) All wages deemed paid to an individual who was interned within the United States in a U.S. Government facility for interning United States citizens of Japanese ancestry, for any period of time from December 7, 1941, through December 31, 1946, if otherwise creditable under section 231 of the Act;

(5) All wage credits which have become conclusive pursuant to section 205(c) of the Act (see § 404.804); *and*

(6) All wage credits established or preserved pursuant to section 2(b) of the Act of June 14, 1948 (62 Stat. 438—see § 404.813).

(c) *Limitations on earnings which may be considered in determining the average monthly wage.* In determining an individual's average monthly wage, the following earnings will not be considered:

(1) Any portion which is not within the individual's "computation base years" (see § 404.203(f)).

(2) Any portion which is entirely within a period of disability unless all periods of disability established for an individual are disregarded (see § 404.312).

(3) Any portion which is in excess of the statutorily-established annual earnings limitations referred to in §§ 404.1027(a) and 404.1068(b).

(d) *Deemed average monthly wage of certain World War II veterans.* If entitlement to any monthly insurance benefit or lump sum is based upon the guaranteed insured status granted a veteran of World War II under section 217(b) of the Act (see § 404.1315), the average monthly wage of the veteran is deemed to be $160.

(e) *Rounding the average monthly wage.* Effective September 1, 1950, an individual's average monthly wage is rounded to the next lower multiple of $1 if it is not already a multiple of $1. Prior to that date, the average monthly wage was not rounded.

§ 404.211 Computing an individual's average monthly wage.

(a) *General.* As explained in § 404.207, an insured individual's primary insurance amount may be determined directly from the individual's average monthly wage by use of a table. Generally, the average monthly wage is computed under the formula provided in section 215(b) of the Act as in effect at the time the insured individual died or became entitled to old-age or disability insurance benefits. However, if the necessary requirements are met for the use of a formula for computing an individual's average monthly wage under the Act as currently in effect and for the use of a formula which was previously in effect, the individual's primary insurance amount is computed under whichever of the two formulas yields the largest amount. The basic formula for computing the average monthly wage of an insured individual who becomes entitled to old-age or disability benefits after 1965 or who dies after 1965 without being so entitled provides than an individual's average monthly wage is the quotient obtained by dividing:

(1) The highest total earnings credited to such individual for the same number of "computation base years" (see paragraph (b) of this section) as that of "elapsed years" determined under paragraph (c) of this section less five (however, in no case may the number of "computation base years" be less than two); *by*

(2) The number of months in the number of all "computation base years" determined under paragraph (a)(1) of this section.

(b) *Determining the "computation base years."* (1) Except as provided in paragraph (b)(2) of this section, an individual's "computation base years," for purposes of computing an individual's average monthly wage under paragraph (a) of this section, includes any calendar year which is after 1950 and before the earlier of:

(i) The year containing the first month for which the individual was entitled to old-age insurance benefits; or

(ii) The year immediately following the year in which the individual died.

(2)(i) Any calendar year which is wholly within a period of disability may not be included as a computation year.

(ii) In determining an individual's primary insurance amount for months for which the individual is entitled to disability insurance benefits, the individual is considered to attain retirement age (as defined in § 404.203(g)) in:

(*a*) The first month of the individual's waiting period (see § 404.308(a)), or

(*b*) If no waiting period is involved (see § 404.308(c)), the first month for which the individual is entitled to disability insurance benefits.

(iii) Where such individual's retirement age is 62, the individual's period of disability ends on the last day of the 36th month following the month described in paragraph (b)(2)(ii) (*a*) or (*b*) of this section, because the individual is considered to attain age 65 in the month immediately following such 36th month. In the case of an individual whose retirement age is 65, since the month described in paragraph (b)(2)(ii) (*a*) or (*b*) of this section is the month in which the individual is considered to attain age 65, there is no period of disability excluded as a computation base year.

(c) *Determining the "elapsed years."* (1) For the purpose of determining an individual's average monthly wage under paragraph (a) of this section, "elapsed years" are years after 1950; or, if later, after the year the individual attains age 21; and before:

(i) The year in which the individual died, or

(ii) If it occurred earlier but after 1960, the year in which the individual attained or is deemed to have attained retirement age as defined in § 404.203(g).

(2) A year any part of which is within a period of disability is not considered an elapsed year unless all periods of disability established for the individual are being disregarded (see § 404.312).

(d) *Procedure for computing average monthly wages.* The following example shows how the rules in paragraphs (a)–(c) of this section for computing average monthly wages are applied:

Example. A, an insured worker, files application for old-age insurance benefits in June 1975, the month in which he attains age 62. His elapsed years are the years beginning with 1951 and ending with 1974 (the year before he attains retirement age). The total number of years in this period is 24; 5 years of low earnings are disregarded so that the actual number of elapsed years used in this computation is 19 (24 less 5). Since his elapsed years to be actually used number 19, only earnings in his 19 highest "computation base years" may be used to determine his "average monthly wage." The years thus selected are his "benefit computation years." Each year from 1951 through 1974 is reviewed and the 19 highest earnings years are determined to be 1953, 1955, and 1958 through 1974. The total earnings for these years is $40,000. To determine the average monthly wage, this total ($40,000) is divided by the number of months in the 19 years (228). This yields an average monthly wage of $175. Using the table in § 404.223(a), his primary insurance amount is found to be $174.10 (the amount in column IV on the same line as the $175 average monthly wage figure in column III of the table).

§ 404.213 Computing an individual's primary insurance benefit.

(a) *General.* As explained in § 404.207, an insured individual's primary insurance amount may be determined by first computing the individual's primary insurance benefit and then converting this benefit to a primary insurance amount by use of a table. Individuals who had substantially higher earnings before 1951 than afterward may be entitled to a higher primary insurance amount under this method of computation. The basic formula for computing the primary insurance benefit of an individual who becomes entitled to old-age or disability insurance benefits after January 1968, or who dies after that month without being so entitled, is explained in paragraphs (b), (c), and (d) of this section. When the requirements for use of this formula are met, the primary insurance benefit is equal to 45.6 percent of the first $50 of the individual's average monthly wage (as computed under paragraph (c) of this section) plus 11.4 percent of the next $200. When the requirements for use of this formula are not met, see § 404.215.

(b) *Requirements for use of basic formula.* (1) To compute an individual's average monthly wage for the purpose of determining his primary insurance benefit under paragraph (a) of this section, the formula in paragraph (c) of this section is used if the individual:

(i) Has at least one quarter of coverage (see § 404.103) before 1951; and

(ii)(*a*) Attained age 22 after 1950 and has less than 6 quarters of coverage after that year, or

(*b*) Attained such age before 1951; and

(iii)(*a*) Becomes entitled to old-age or disability insurance benefits after January 2, 1968, or

(*b*) Dies after such date without being so entitled, or

(c) Has a primary insurance amount required to be recomputed as an "automatic" recomputation (§ 404.244), a railroad survivor's recomputation (§ 404.274), or a recalculation to include wage credits for certain World War II internees (§ 404.278).

(2) If these requirements are not met, see § 404.215.

(c) *Computing the average monthly wage.* When the requirements in paragraph (b) of this section are met, an individual's average monthly wage for establishing the individual's primary insurance benefit under paragraph (a) of this section is the quotient obtained by dividing the individual's highest total earnings as determined under paragraph (d) of this section by the same number of "computation base years" as the number of "elapsed years" minus five (however, in no case totaling less than two). For purposes of this paragraph (c), "computation base years" are determined in the manner described in § 404.211(b) except that they are years after 1936 (instead of after 1950), or after the year in which the individual attains age 21 if later than 1936 but before 1951.

(d) *Earnings used under the basic formula.* An individual's creditable earnings (see § 404.209(b) for years prior to 1951) for purposes of the basic formula described in paragraph (c) of this section for computing the individual's average monthly wage are deemed to have been credited as follows:

(1) If the individual's total creditable earnings prior to 1951 are $27,000 or less, such total is deemed to have been credited in equal parts to 9 of the years after 1936 and prior to 1951.

V41I197 OCT 8 76 UMI

(2) If the individual's total creditable earnings prior to 1951 are more than $27,000 but less than $42,000, such total is deemed to have been credited for as many of the years after 1936 and prior to 1951 as such total permits at the rate of $3,000 per year. Any remainder which is not a multiple of $3,000 is deemed to have been credited to an additional year in such period.

(3) If the individual's total creditable earnings prior to 1951 are $42,000 or more, such total is deemed to have been credited at the rate of $3,000 for each of the 14 years after 1936, and prior to 1951.

(e) *Procedure for computing an individual's primary insurance benefit.* The following example shows how the rules in paragraph (a)–(d) of this section on computing an individual's primary insurance benefit are applied.

Example. A, an insured worker, files application for old-age insurance benefits in June 1975, when she attains age 62. Her earnings before 1951 total $30,000, but after 1950 total only $22,800 ($3,600 for each year 1951 through 1954 and $4,200 for each year 1955 through 1956). Depending upon which computation would be most favorable, her computation base years and elapsed years may be selected either from the years 1937 through 1974 or from the years 1951 through 1974. *If the computation base years and elapsed years are selected from 1951 through 1974,* her total earnings of $22,800 are divided by the number of months in her elapsed years (there are 24 years from 1951 through 1974; when 5 years of low earnings are subtracted, the result equals 19, and 19 years times 12 months per year equals 228). This result yields an average monthly wage of $100. (This total is low because, although 19 years of high earnings can be considered, she has earnings for only 6 years after 1950.) From the applicable table in section 215(a) of the Act, the $100 average monthly wage results in a primary insurance amount of $130.50. *If the computation base years and elapsed years are selected from 1937 through 1974,* her total earnings are $52,800 ($30,000 before 1951 plus $22,800 for years after 1950). There are only six possible computation base years after 1950 to be considered; to determine how many computation base years there are from 1937 through 1950, the total for this period ($30,000) is divided by $3,000 and yields 10 years. Although earnings for 19 years can be considered, she has earnings for only 16 years (10 years before 1951 and six thereafter). The total of $52,800 for these 16 years is then divided by the number of months in the elapsed years, which total is 396 months (i.e., there are 33 years in the period 1937 through 1974 and when 5 years of low earnings are disregarded, the result is 33 years; and 33 years times 12 months per year equals 396). The resulting total is an average monthly wage of $133. Applying 45.6 percent to the first $50 of this figure yields $22.80 which added to $9.46 (11.4 percent of the remainder of $83 ($133 less $50)) makes the total primary insurance benefit equal $32.26. When the applicable table in § 404.223 (a) is used, the primary insurance amount is found to be $165.50, the amount in column IV of the table which is on the same line as the $32.26 primary insurance benefit in column I.

§ 404.215 Special rules for computing primary insurance benefits under prior law which may still apply.

(a) *General.* When the requirements for computing an individual's primary insurance benefit under the basic formula described in § 404.213 are not met, the individual's primary insurance benefit may be computed under the formula provided by the 1965 amendments if the requirements specified in paragraph (b) of this section are met. Under such formula, the individual's actual earnings credited before 1951 (instead of the deemed earnings described in § 404.213 (d)) are used. The primary insurance benefit for purposes of the tables referred to in § 404.207 is obtained by adding 40 percent of the individual's average monthly wage (according to paragraph (c) of this section) to $20 (10 percent of the next $200) and adding to the resulting total 1 percent of such total for each "increment year." "Increment years" are years after 1936 and prior to 1951 in which the individual had at least $200 in creditable earnings.

(b) *Requirements for use of 1965 formula.* To compute an individual's average monthly wage for the purpose of determining the individual's primary insurance benefit under paragraph (a) of this section, the formula in paragraph (c) of this section is used if the individual:

(1) Does not meet the requirements for use of the basic formula for computing the individual's primary insurance amount described in § 404.213; and

(2) Has at least one quarter of coverage (see § 404.103) before 1951; and

(3) Has less than six quarters of coverage after 1950 if the individual attained age 21 after that year; and

(4) Becomes entitled to old-age or disability insurance benefits after 1965 or dies after 1965 without being so entitled.

(c) *Computing the average monthly wage.* When the requirements in paragraph (b) of this section are met, an individual's average monthly wage is determined in the same way as described in § 404.213 except that actual earnings credited to the individual's computation base years are used instead of the deemed earnings amounts provided for in that section.

§ 404.217 Determining current primary insurance amount from primary insurance amount previously in effect.

As explained in § 404.207, an insured individual's primary insurance amount may be determined by converting the individual's primary insurance amount computed under a table in the Act which was previously in effect. This is done by use of a table which supersedes such table. When an individual was entitled to benefits based upon a primary insurance amount in effect for the month immediately preceding the month for which the new table is effective, the new primary insurance amount is determined directly from the table since it appears on the same line with the prior primary insurance amount shown in column II of the table. In other cases, the prior primary insurance amount is determined from the individual's average monthly wage under the provisions of the Act which were in effect at whichever of the following is later: the time at which the individual died, or the time at which the individual became entitled to old-age or disability insurance benefits, or the time at which the individual's primary insurance amount was last computed or recomputed. The prior primary insurance amount is then converted by use of any tables provided in section 215(a) of the Act which were subsequently in effect, until the converted primary insurance amount is the amount which would have been in effect in the month immediately preceding the month for which the new table is effective (which amount appears in column II of that table).

§ 404.219 Special minimum primary insurance amounts.

(a) *General.* The 1972 amendments provided for a special computation of primary insurance amounts as an alternative to the method described in § 404.209 and § 404.213. Under such provision, for monthly benefits payable after December 1972 and for lump-sum payments for deaths occurring after such month, an insured individual's primary insurance amount is equal to $8.50 multiplied by the number of the individual's "years of coverage" (see paragraph (b) of this section) in excess of 10 but not more than 30. The 1973 amendments modified this provision so that for monthly benefits payable after February 1974 and for lump-sum payments for deaths occurring after that month, an insured individual's primary insurance amount is equal to $9.00 multiplied by the number of the individual's "years of coverage" (see paragraph (b) of this section) in excess of 10 but not more than 30. The maximum primary insurance amount under this special minimum computation is $180 for months after February 1974 ($170 for January 1973 through February 1974). These amendments did not provide any additional increase or change in this provision for months after May 1974. The special minimum PIA provision is applicable only when it produces a PIA which is greater than the PIA determined under §§ 404.209 and 404.213.

(b) *Years of coverage.* In computing an insured individual's primary insurance amount under the special minimum provision described in paragraph (a) of this section, the number of the individual's "years of coverage" is equal in number to the sum of the following, up to a maximum of 30:

(1) The number obtained by dividing the individual's total creditable earnings (see § 404.209(b)) for years after 1936 and before 1951 by $900 and disregarding any remainder which is not a multiple of $900; *plus*

(2) The number of "computation base years" after 1950 (see § 404.211(b)) in which the individual's creditable earnings for the year were not less than 25 percent of the maximum creditable amount for that year (see § 404.1027 and § 404.1068).

(c) *Procedure for computing the special minimum primary insurance amount.* The following example shows how the special minimum primary insurance amount is computed under the rules provided in paragraphs (a)–(b) of this section:

Example. A, an insured worker, attains age 62 in June, 1975, and files an application for old-age insurance benefits. He has earnings of $12,000 for the period 1937 through 1950. Each year from 1951 through 1962, he had earnings equal to one-fourth the maximum creditable amount for that year (i.e., for the period 1951 through 1954 when the maximum creditable amount was $3,600 per year, he had $900 earnings per year; for the period 1955 through 1958 when the maximum creditable amount was $4,200 per year, he had $1,050 earnings per year; for the period 1959 through 1962 when the maximum creditable amount was $4,800 per year, he had $1,200 earnings per year). He had no earnings after 1962.

Under the regular benefit computation methods described in § 404.209 and § 404.213, A's highest primary insurance amount would be $130.50. Under the special minimum primary insurance amount provision, A would be credited with 18 coverage years for the period 1937 through 1950 ($12,000 divided by $900, with any remainder disregarded) plus 12 coverage years for the period 1951 through 1962. Total coverage years thus equal 25. From the total of 25 coverage years, 10 years are subtracted. The balance of 15 years is then multiplied by $9 to yield a special minimum primary insurance amount of $135, which is higher than the primary insurance amount of $130.50 computed under the regular benefit computation methods.

§ 404.221 Cost-of-living benefit increases.

(a) *General.* (1) Section 215(i) of the Act (added by section 202 of Pub. L. 92–336) permits the Secretary to provide a cost-of-living increase in primary insurance amounts, benefits for the transitionally insured (§ 404.113(a)), and payments for certain uninsured individuals at age 72 (§ 404.374). However, no cost-of-living increase may be made in special minimum primary insurance amounts (see § 404.231). The 1973 amendments (Pub. L. 93–233) provided that the first increase could be effective no earlier than June 1975. Such cost-of-living increase shall be made by the Secretary when he determines that the first calendar quarter of a year is a "cost-of-living computation quarter."

(2) The first calendar quarter of a year is a "cost-of-living computation quarter" if:

(i) Such calendar quarter is in a year after 1974; and

(ii) Such calendar quarter is not in a year immediately following a year in which a general benefit increase was enacted or became effective; and

(iii) The Consumer Price Index prepared by the Department of Labor for such calendar quarter is at least 3 percent higher than the Index was for the later of: (a) the last "cost-of-living computation" quarter; or (b) the last calendar quarter in which a general benefit increase was effective. (The Index for any calendar quarter is deemed to be the arithmetical mean for the months in that quarter.)

(3) For purposes of paragraph (a)(2)(ii) of this section, the benefit increases provided by the 1973 amendments are not considered "general benefit increases." Accordingly, the first possible "cost-of-living computation quarter" under this provision is the quarter ending March 31, 1975.

(b) *Method of providing cost-of-living benefit increases.* When the Secretary determines that the first calendar quarter of any year is a "cost-of-living computation quarter" under paragraph (a) of this section, he computes the amount of the cost-of-living increase. The amount of increase is determined by applying to the appropriate benefits the same percentage (rounded to the nearest one-tenth of 1 percent) by which the Consumer Price Index for the "cost-of-living computation quarter" increased over the last "cost-of-living computation quarter" or, if later, the last calendar quarter in which a general benefit increase was effective. Such increase will be rounded to the next higher multiple of $0.10 if it is not a multiple of $0.10. The Secretary publishes in the FEDERAL REGISTER within 45 days of the close of the "cost-of-living computation quarter" the fact that such an increase is due, the amount of the increase, the increased benefit amount for the transitionally insured, and the increased payment amount for certain uninsured individuals at age 72 (which amounts shall be deemed to appear in sections 227 and 228 of the Act, respectively), and a revised table showing the increased primary insurance amounts which shall be deemed to appear in section 215(a) of the Act. The increased amounts shall be effective beginning with June of the year in which the "cost-of-living computation quarter" occurs.

Example. Assume that the calendar quarter ending March 31, 1977, was used in determining that a 4-percent cost-of-living benefit increase was due effective June 1977 (i.e., the March 31, 1977, calendar quarter was a "cost-of-living" computation quarter"). As a consequence of that increase, A's primary insurance amount of $200 was raised to $208 ($200 times 1.04 percent) effective June 1977. Following the March 31, 1978, calendar quarter, the Consumer Price Index shows that the average cost-of-living for that quarter was 5 percent higher than the average cost-of-living for the March 31, 1977, calendar quarter. Accordingly, A's primary insurance amount of $208 will be increased by 5 percent to $218.40 ($208 times 1.05 percent) effective June 1978.

§ 404.223 Table for determining primary insurance amounts and maximum family benefits after May 1975

(a) Beginning June 1975.

V 41 N 197 OCT 8 76 UMI

I		II	III		IV	V
Primary insurance benefit under 1939 act, as modified. If an individual's primary insurance benefit (as determined under sec. 404.213) is—		Primary insurance amount effective June 1974. Or the individual's primary insurance amount (as determined under sec. 404.207 for months after May 1974 and before June 1975) is—	Average monthly wage. Or the individual's average monthly wage (as determined under sec. 404.211) is—		Primary insurance amount. The amount referred to in sec. 404.207(b) shall be—	Maximum family benefits. And the maximum amount of benefits payable (as provided in sec. 203(a) of the act) on the basis of the individual's wages and self-employment income shall be—
At least—	But not more than—		At least—	But not more than—

CURRENT METHODS OF RECOMPUTING BENEFITS

§ 404.240 General.

Recomputation of an individual's primary insurance amount is the computing of such amount as if it were being established for the first time, although, in fact, it was determined previously. Recomputation is permitted only if it results in an increase in the primary insurance amount. That is, the recomputation is made as if the individual were first filing for and becoming entitled to monthly benefits in the year in which the recomputation is made. Recomputation of an individual's primary insurance amount was first provided for by the 1946 amendments. However, recomputations of an individual's primary insurance amount were made only upon application by the individual; or, if deceased, by someone entitled to monthly benefits based upon that primary insurance amount. The 1965 amendments eliminated the requirement that an application for recomputation be filed.

§ 404.242 When a recomputation applies.

A recomputation is usually effected to permit consideration of one or more of the following:

(a) Earnings which could not be included in the initial computation of the primary insurance amount because evidence of such earnings was then unavailable; or

(b) Earnings which were earned after the primary insurance amount was first determined; or

(c) A computation method or formula provided by an amendment to the Act which was not in effect when the primary insurance amount was first determined; or

(d) An earlier ending date for the computation period as where the ending date which was used in initially determining the individual's primary insurance amount was based upon attainment of retirement age in a future year and death occurs prior to such year.

§ 404.244 "Automatic" recomputations.

(a) *General.* (1) Since 1966, "automatic" recomputations are made by the Social Security Administration at times designated by the Secretary. An individual is no longer required to file an application requesting recomputation of his primary insurance amount. The Social Security Administration examines for each year the wage and self-employment records which it maintains for those who are entitled to monthly benefits (see Subpart I of this part for discussion of these records). When this examination indicates that recomputation of an individual's primary insurance amount is possible, the recomputation is made and any resulting increase in benefits paid (if otherwise due).

(2) The automatic recomputation provision is effective for recomputations of primary insurance amounts for individuals entitled to old-age insurance benefits for any month after December 31, 1964. However, the 1967 amendments provided that recomputation of the primary insurance amount for individuals entitled to old-age insurance benefits for months after 1965 may be made only if the individual has creditable wages or self-employment income for the year with respect to which such recomputation is made.

(b) *Method of recomputation.* (1) Under the 1965 amendments "automatic" recomputations were made as provided in § 404.211, as though the year for which the wage and self-employment records were examined was, in fact, the last "computation base year" (see § 404.211(b)) for purposes of computing the primary insurance amount. However, if such year was not the first year in which the individual was entitled to old-age insurance benefits or the year immediately preceding that year, only the method described in § 404.211 for establishing the primary insurance amount directly from the average monthly wage could be used (and not the methods described in § 404.213 or in § 404.215 for establishing the primary insurance amount from the primary insurance benefit). Increases in monthly benefits under this provision of the 1965 amendments were effective with January of the year immediately following the year considered to be the last "computation base year" under the preceding sentences of this section but: (i) no earlier than January 1966; or, (ii) if the individual died in the year considered to be the last "computation base year" under the preceding sentences, no earlier than the month in which the individual died.

(2) The 1967 amendments permitted the primary insurance amount to be recomputed under the methods described in § 404.213 or in § 404.215 when the conditions in paragraph (a) of this section were satisfied even though the year considered to be the last "computation base year" was later than the first year in which the individual was entitled to old-age insurance benefits. Such provision was effective for recomputations made after January 2, 1968. The 1972 amendments permit consideration of the special minimum primary insurance amount described in § 404.219 as an alternative computation when an individual's primary insurance amount is recomputed to increase benefits after December 1972.

(c) *Procedure for computing the recomputation.* The following example shows how the "automatic" recomputation is made under the rules in paragraphs (a) and (b) of this section.

Example. A, an insured worker, attains age 65 in June 1974, stops working, and files application for old-age insurance benefits in the same month. His primary insurance amount effective June 1974 is determined to be $304.90, based upon total earnings of $110,400 for the 18 "computation base years" (see § 404.211(b)) from 1956 through 1973. A's year with the lowest earnings which is included in this total is 1956 with $4,200. Although A's earnings for the first 5 months of 1974 total $13,200, these earnings may not be used in the initial computation since earnings in the year in which an individual is first entitled to old-age insurance benefits must be excluded from the initial computation. However, in 1975, A's earnings for 1974 may be used in recomputing his primary insurance amount. The number of "computation base years" used in the initial computation (18) remains unchanged for purposes of the recomputation. However, his 1974 earnings may be used in lieu of a "computation base year" which has lower earnings, such as the year 1956 in which he had only $4,200 in earnings. By making such a substitution in "computation base years", A's total earnings are increased to $119,400 ($110,400 minus $4,200 for 1956 plus $13,200 for 1974) and his primary insurance amount is increased to $320.20. This increased amount becomes effective with January 1975 (the first month of the year following the last "computation base year" used in the recomputation).

§ 404.246 Request for immediate recomputation.

As explained in § 404.244, an "automatic" recomputation of an individual's

V41I197 OCT 8 76 UMI

primary insurance amount is made, if applicable, after the individual's earnings are reviewed each year. However, if the individual requests in writing that a recomputation be made prior to the time when the annual examination of earnings records is made, the individual's request may be honored if acceptable evidence of any creditable earnings not considered in the initial computation of his primary insurance amount is provided and consideration of these earnings would increase this amount. If these conditions are met, the Social Security Administration recomputes the individual's primary insurance amount, based upon the individual's request, prior to the time for the "automatic" examination of its annual earnings records.

§ 404.248 Waiver of recomputation.

(a) If an individual requests that an "automatic" recomputation of the primary insurance amount *not* be made, the individual's request to waive recomputation is honored if:

(1) The request is made in writing; and

(2) One of the following conditions is satisfied:

(i) The recomputation would result in decreasing the total amount of benefits payable on the basis of the primary insurance amount; or

(ii) The recomputation would result in a disadvantage to each individual entitled to benefits payable based upon that primary insurance amount, other than the disadvantage specified in paragraph (a)(2)(i) of this section; or

(iii) All other individuals entitled to benefits payable based upon that primary insurance amount consent to waiver of such recomputation.

(b) Waiver of a recomputation as described in paragraph (a) of this section does not preclude any subsequent recomputation of the individual's primary insurance amount.

§ 404.250 Continued applicability of certain recomputations in effect prior to the 1965 Amendments.

To insure that an individual eligible for retroactive benefit increases under the recomputation methods in effect prior to the Social Security Amendments of 1965 will not be disadvantaged, any individual who would have been entitled to a recomputation if the individual had filed an application on or before January 1, 1966, is deemed to have filed such application on the earliest date that it could have been filed but no earlier, in any case, than July 30, 1965.

SPECIAL COMPUTATIONS AND RECOMPUTATIONS WITH LIMITED CURRENT APPLICABILITY

§ 404.270 General.

Sections 404.272 through 404.282 deal with special provisions of the Act which still apply to cases involving individuals:

(a) Whose primary insurance amount is recalculated to correct previous errors in a prior calculation; or

(b) Whose primary insurance amount is recalculated or recomputed to include special credits for military service, internment during World War II, or compensation for work covered under the Railroad Retirement Act; or

(c) Whose old-age insurance benefits are subject to increase because of delayed retirement credits.

§ 404.272 Recalculation of primary insurance amount.

(a) "Recalculation" with respect to an individual's primary insurance amount means the subsequent computation of such amount under the computation methods or formulas which were in effect at the time that the previous computation was made. "Recalculation" may result in either an increase or decrease in the primary insurance amount and need not be specifically provided for in the Act.

(b) Ordinarily, a "recalculation" is made to:

(1) Correct a previous computation of the primary insurance amount where correction is permitted under § 404.957; or

(2) Permit including in the computation of the primary insurance amount, earnings which could not be included when such amount was previously computed.

§ 404.274 Recalculations and recomputations to include compensation for railroad service.

(a) *Individual has railroad service but is ineligible for railroad annuity*—(1) *General.* The 1951 Amendments to the Railroad Retirement Act provided that an individual's compensation for railroad service could be credited for social security purposes if such service did not total 10 years or more. If an individual had at least 10 years of railroad service and met certain other requirements, the individual could qualify for an annuity under the Railroad Retirement Act as amended in 1951 (see Subpart O of this part). Formerly, all compensation for railroad service was disregarded for social security purposes.

(2) *Conditions for recalculation.* As a consequence of these amendments, the primary insurance amount of an individual entitled to old-age insurance benefits is recalculated if the individual:

(i) Became entitled to old-age insurance benefits before November 1951; and

(ii) Was alive throughout the month of November 1951; and

(iii) Was not a railroad annuitant; and

(iv) Had less than 10 years of railroad service; and

(v) Had a primary insurance amount which had been computed without consideration of the individual's compensation for railroad service.

(3) *Formula.* When the requirements in paragraphs (a)(2)(i)–(v) of this section are met, the individual's primary insurance amount shall be recalculated to include the individual's compensation for railroad service, using the same computation formula or method that was used in the last computation of the individual's primary insurance amount.

(4) *Effective date.* Any increase in old-age insurance benefits based upon such recalculation is effective November 1951.

(b) *Deceased individual had railroad service but survivor is ineligible for railroad survivor's annuity*—(1) *General.* The Social Security Amendments of 1951 provided that a deceased individual's compensation for railroad service could be credited for social security purposes if there was no person who would be entitled to an annuity under section 5, or a lump-sum payment under section 5(f)(1), of the Railroad Retirement Act. These amendments further provided that where an individual's railroad compensation became creditable for social security purposes upon the individual's death and the individual had been entitled to old-age insurance benefits, the individual's primary insurance amount could be recomputed to include the compensation. This permitted the use of an individual's compensation to increase benefits payable to the individual's survivors although such compensation could not be used in computing the individual's old-age insurance benefits because it was paid for 10 years or more of railroad service (see paragraph (a) of this section).

(2) *Conditions for recomputation.* An individual's primary insurance amount is recomputed according to this paragraph (b) if:

(i) The individual died after August 31, 1950; and

(ii) The individual was paid compensation for railroad service which could be credited under section 205(o) of the Act (because no person was entitled to a survivor's annuity or lump-sum payment under the Railroad Retirement Act); and

(iii) Following the individual's death, another individual becomes entitled to monthly benefits or a lump-sum death payment based upon the deceased individual's primary insurance amount.

(3) *Formula.* A recomputation under this paragraph is made by using the same computation formula or method that was used in the last computation of the individual's primary insurance amount except that the individual's compensation for railroad service is included in the computation.

(4) *Effective date.* Any increase in monthly benefits based upon this paragraph (b) is effective beginning with the month in which the individual died.

(5) *Recomputation for individuals who died after December 31, 1958, and before January 2, 1966*—(i) *General.* For individuals who died after December 31, 1958, and before January 2, 1966, the primary insurance amount is recomputed under the computation method which was in effect in the month of death, using railroad compensation and previously creditable earnings for the same years which were included in the last computation. Under the "automatic" recomputation provisions described in § 404.244, recomputations to include railroad compensation paid to the deceased individual are made under the computation method which is in effect in the month in which the individual dies.

(ii) *Effective date.* Any increase in monthly benefits based upon such recomputation is effective beginning with the month in which the individual died.

(6) *Recomputation for individuals who died after 1967*—(i) *Requirements.* The primary insurance amount of an individual is recomputed to give credit for the individual's railroad compensation even though the individual had no earnings after 1965, if:

(a) Such individual died after 1967;

(b) Such individual had been entitled to an old-age or disability insurance benefit;

(c) Such individual had railroad compensation; and

(d)(1) Another individual was entitled to survivors' benefits or a lump-sum death payment for October 1972 or later based on the wage record for the deceased individual; or

(2) A determination is made on or after October 30, 1972, that another individual is entitled to such benefits or a lump-sum death payment for a month prior to October 1972.

(ii) *Effective date.* Any increase in monthly benefits based upon such recomputation is effective beginning with the later of:

(a) The month in which the individual died; or

(b) The twelfth month prior to the month in which an application for such benefits was filed.

§ 404.276 Recalculations and recomputations to include military service credits.

(a) *"Deemed" military wage credits for years after 1956.* The Social Security Amendments of 1967 provided that wage amounts would be deemed to have been paid to members of the uniformed services (as defined in section 210(m) of the Act) for each calendar quarter after 1967 for which such persons were actually paid for their services. The amount of these "deemed" wage amounts was $100 for each calendar quarter if the wages actually paid such person for the quarter was $100 or less; $200 for each calendar quarter if the wages actually paid for the quarter was over $100 and less than $201; or $300 for each calendar quarter if the wages actually paid for the quarter exceeded $200. The Social Security Amendments of 1972 provided that the "deemed" wage amount is $300 per calendar quarter, regardless of the amount of wages actually paid in such quarter, and that such $300 is deemed to have been paid to members of the uniformed services for each quarter of service after 1956. Recalculation of an individual's primary insurance amount to include "deemed" wage amounts is made only upon the filing of a written request for the recalculation. The recalculation is performed using the computation methods or formulas which are in effect at the time that the request is filed. Increases in benefits based upon such recalculation can be effective no earlier than January 1973 or the twelfth month before the month in which the request is filed, whichever is later.

(b) *Recomputation and recalculation to provide military service credits for years before 1957.*—(1) *General.* The Social Security Amendments of 1946 provided for deeming a World War II veteran to have died fully insured for social security purposes with an average monthly wage of $160 if the individual died within 3 years after separation from the military or naval service after a period of service amounting to at least 90 days during the World War II period (September 16, 1940, through July 24, 1947) under the conditions described in §§ 404.1315—404.1321. Recomputation of an individual's primary insurance amount was permitted under such amendments if an application for recomputation was filed within 6 months of enactment (August 10, 1946) by any person who is or can be entitled to benefits based upon such individual's primary insurance amount. The Social Security Amendments of 1950 provided that, effective September 1, 1950, a World War II veteran was deemed to have been paid $160 in wages for each month the individual served in active military or naval service during World War II (September 16, 1940, through July 24, 1947—see § 404.1308). The period for which $160 per month wage credits could be deemed paid was extended from July 25, 1947, through December 31, 1956, by subsequent amendments to the Act. An individual's primary insurance amount can be recomputed when the individual's widow or child waives entitlement, after December 1956, to a survivor's Federal Civil Service annuity based upon the individual's military or naval service from July 25, 1947, through December 31, 1956. (See § 404.1310(c)(2).) The Social Security Amendments of 1958 broadened the definition of World War II veteran to include any individual who served in the active military or naval service of a country which was on September 16, 1940, at war with a country with which the United States was also at war during World War II (see § 404.1304(a)(4)).

(2) *Formula.* Recalculation or recomputation under the 1950 amendments and subsequent amendments are computed by reopening the last computation of the individual's primary insurance amount and recalculating the amount, including the military wage credits, under the computation method or formula in effect at the time of the last computation or recomputation.

(3) *Application.* An application for such a recomputation is not required unless:

(i) An individual was a commissioned officer of the Coast and Geodetic Survey or the Public Health Service; and became entitled to an old-age insurance benefit or died before January 1, 1957; or,

(ii) Such individual's widow or child waived a Federal Civil Service annuity based upon the individual's military or naval service from July 25, 1947, through December 31, 1956 (see § 404.1310(c)(2)); or

(iii) Such individual had active military or naval service during World War II for a country which was on September 16, 1940, at war with a country with which the United States was also at war during World War II; and became entitled to an old-age or disability insurance benefit before September 1, 1958, or died before September 1, 1958; or

(iv) Such individual or other person is entitled to benefits based upon such individual's primary insurance amount for August 1952. (However, the application for recomputation in such case must be filed before January 1, 1961.)

(4) *Effective date.* Benefit increases based upon such recomputation or recalculation are effective with the month of enactment of the pertinent amendments except that an individual is deemed to be insured under the 1946 amendments whether the individual died before, on, or after enactment; and in the case of an individual entitled to recomputation under paragraphs (b)(3)(i) and (ii) of this section, any increase is effective for a maximum of 12 months before an application is filed but not before January 1957; and in the case of an individual entitled to a recomputation under paragraph (b)(3)(iii) of this section, any increase is effective for a maximum of 12 months before an application is filed but not earlier than September 1958; and in the case of an individual who is entitled to a recomputation under paragraph (b)(3)(iv) of this section, an increase is effective no earlier than August 1952.

§ 404.278 Recalculation to include wage credits for individuals interned during World War II.

(a) *General.* The Social Security Amendments of 1972 provide for "deemed" wages for certain individuals who were interned within the United States during World War II.

(b) *Conditions for recalculation.* Recalculation of such an individual's primary insurance amount is made if:

(1) The individual was interned during any portion of the period from December 7, 1941, through December 31, 1946, at any place within the United States which was operated by the Government of the United States as a place of internment of United States citizens of Japanese ancestry; and

(2)(i) The individual files an application for recalculation and is entitled to an old-age or disability insurance benefit; or

(ii) The individual died without becoming entitled to old-age or disability insurance benefits and an application for benefits based upon the individual's primary insurance amount is filed on or after October 30, 1972; and

(3) No individual is entitled to another benefit payable by any agency or wholly-owned instrumentality of the United States which is based (in whole or in part) on the individual's internment as described in paragraph (b)(1) of this section, during any part of the period from December 7, 1941, through December 31, 1946. (However, a lump-sum payment made in commutation of, or a sub-

V41N197 OCT 8 76 UMI

stitute for, a periodic payment is not considered a "benefit" for this purpose.); and

(4) The inclusion of such "deemed" wages would result in higher monthly benefits or a higher lump-sum death payment becoming payable on the individual's earnings record.

(c) *Amount of deemed wages.* If the requirements in paragraphs (b)(1)—(4) of this section are met, an individual will be "deemed" to have been paid wages (in addition to wages actually paid the individual), for each full week during the period in which the individual was 18 or older and was an internee,

(1) At the weekly rate of 40 times the minimum hourly rate or rates in effect at such time under section 206(a)(1) of Title 29, United States Code; or

(2) If the individual was employed before that period, 40 times the highest hourly rate the individual received while employed before that period, if higher.

(d) *Effective date.* Any increase based upon a recalculation under this section shall be effective no earlier than January 1973.

§ 404.280 Special recomputations when certain old-age insurance beneficiaries die before age 65.

(a) *General.* Under the 1960 amendments, computations of an individual's primary insurance amount were based upon the number of "elapsed years," ending with the year in which the individual attained retirement age or died. At that time, "retirement age" was 62 for women and 65 for men. The 1961 amendments provided that men could become entitled to old-age insurance benefits as early as the month in which they attained age 62; however, primary insurance amounts for men were to be based upon "elapsed years" counted up to the year in which they became age 65 or died (if earlier).

(b) *Conditions for recomputation of a man's primary insurance amount.* The 1961 amendments provided for recomputation of a man's primary insurance amount if:

(1) He attained age 65 and was entitled to old-age insurance benefits before the month in which he attained age 65, or

(2) He died before the month in which he attained age 65 and was entitled to old-age insurance benefits before the month in which he died.

(c) *Effective dates.* See paragraphs (d)(1) and (d)(2) of this section for month in which the recomputations described in paragraphs (a) and (b) are first effective. Effective January 2, 1966, when the "automatic" recomputation provisions became effective, such recomputations were no longer provided for. However, effective on and after January 3, 1968, a recomputation is made when a man who has been entitled to old-age insurance benefits dies before age 65, but has had no earnings after 1965 (see § 404.244(b)), under the conditions described in paragraph (b)(2) of this section.

(d) *Method of recomputation.* (1) When the conditions described in paragraph (b)(1) of this section were met, prior to the 1965 amendments, an individual's primary insurance amount was recomputed as if he had become entitled to old-age insurance benefits in the month in which he attained age 65, except that the year in which he became 65 could be considered as a "computation base year" (see § 404.211(b)). Increases in benefits based upon such a recomputation were effective beginning with the month in which the individual attained age 65.

(2) When the conditions described in paragraph (b)(2) of this section are met on or before January 1, 1966, or on or after January 3, 1968, an individual's primary insurance amount is recomputed as if he became entitled to old-age insurance benefits in the month in which he died, except that the year in which he died and any later year is not considered to be an "elapsed" year (see § 404.211(c)). Increases in benefits based upon such a recomputation are effective beginning with the month in which the individual died.

§ 404.282 Increases in old-age insurance benefits due to delayed retirement credits.

(a) *General.* The 1972 amendments to the Act provided that beginning with months of entitlement after December 1972, an individual's old-age insurance benefit could be increased because of "delayed retirement credits." To qualify for these "credits," an individual must:

(1) Have become first entitled to old-age insurance benefits in the month in which the individual attained age 65 or a later month; or

(2) Have an old-age insurance benefit for the month in which the individual attains age 65, which is not reduced for months of entitlement before age 65 under §§ 404.410–404.413.

(b) *Amount of delayed retirement credit.* (1) If the requirements in (a)(1) and (2) of this section are met, an individual's old-age insurance benefit is increased (before any increase under this section) by 1/12 of 1 percent for each month after December 1970 in which the individual:

(i) Is age 65 but not age 72;

(ii) Is fully insured (§ 404.108); *and*

(iii) Is not entitled to old-age insurance benefits; or is so entitled but, pursuant to § 404.415, a full deduction is imposed against the individual's benefit.

(2) Such increases are added to the individual's old-age insurance benefit and rounded upward, if necessary, to the next higher multiple of $0.10 if such total is not a multiple of $0.10.

Example. A is an insured worker when he reaches age 65 in January 1974, but decides not to file application for old-age insurance benefits immediately because he is still working. When he becomes 66 years old in January 1975, he stops working and files application for these benefits beginning with the same month. Based upon his earnings, his primary insurance amount is $224.30 and his full monthly old-age insurance benefit amount would be the same without considering any delayed retirement credits. However, he is not entitled to old-age insurance benefits for 12 months from the month in which he became 65 until the first month in which he became entitled to benefits. Therefore, his monthly old-age insurance benefit is increased by 1 percent (1/12 of 1 percent times 12 months) to yield a total of $226.54, which is rounded upward to the next highest $0.10 to equal $226.60.

(c) *When determinations of delayed retirement credits are made.* The number of delayed retirement credits an individual is due is determined after the end of each calendar year. Any increase due to delayed retirement credits is effective with January of the year in which the determination is made—unless the individual attained age 72 in the year preceding the year the determination is made. In this latter case, the increase due to delayed retirement credits is effective with the month in which the individual attained age 72.

Example. A is entitled to old-age insurance benefits in the month in which she attains age 65, June 1974. However, no benefits are paid to her in 1974, because full deductions are imposed against her benefits due to her continued work and earnings. Effective January 1975, she is entitled to an increase in her benefits because of delayed retirement credits for months in 1974 for which she was entitled to benefits because she was age 65 or over but had full deductions imposed. There were 6 such months in 1974. Therefore, effective January 1975, her monthly old-age insurance benefit is increased one-half of 1 percent (i.e., 1/12 of 1 percent for 6 months).

[FR Doc.76-29482 Filed 10-7-76;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

[Docket No. 76N-0388]

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Combinations of Nutritive and Nonnutritive Sweeteners in Canned Fruits; Revocation

The Food and Drug Administration is revoking the statement of policy that no regulatory action would be recommended against canned fruits sweetened in part with saccharin and in part with nutritive sweeteners; effective October 8, 1976.

Specifically, § 3.78 *Combinations of nutritive and nonnutritive sweeteners in canned fruits* (21 CFR 3.78) is being revoked. This section was published in the FEDERAL REGISTER of July 21, 1970 (35 FR 11620), after the banning of the use of cyclamates in foods and pending the establishment of standards of identity for such canned fruits.

Section 3.78 was established to remain in effect for a period of 1 year after publication in the FEDERAL REGISTER, unless extended for good reason. No requests for an extension of this section have been received, and no good reason is evident for an extension.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 403, 701 (a), 52 Stat. 1047–1048, as amended, 1055 (21 U.S.C. 343, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)): *It is ordered,* That Chapter I of Title 21 of the Code of Federal Regulations be amended in Part 3 by revoking § 3.78 *Combinations of nutritive and nonnutritive sweeteners in canned fruits.*

Effective date: This revocation shall be effective October 8, 1976.

(Secs. 403, 701(a), 52 Stat. 1047–1048, as amended, 1055 (21 U.S.C. 343, 371(a)).)

Dated: September 30, 1976.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.76-29484 Filed 10-7-76;8:45 am]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

[Docket No. 76F-0220]

PART 121—FOOD ADDITIVES

Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food; Adhesives

The Food and Drug Administration is amending the food additive regulations to provide for the safe use of pentaerythritol tetrabenzoate as a component of food-packaging adhesives; effective October 8, 1976; objections by November 8, 1976.

Notice was given in the FEDERAL REGISTER of July 8, 1976 (41 FR 27995) that a petition (FAP 6B3211) had been filed by the Velsicol Chemical Corp., 341 E. Ohio St., Chicago, IL 60611, proposing that § 121.2520 (21 CFR 121.2520) be amended to provide for the safe use of pentaerythritol tetrabenzoate as a component of food-packaging adhesives.

The Commissioner of Food and Drugs, having evaluated data in the petition and other relevant material, concludes that § 121.2520 should be amended as set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1))) and under authority delegated to the Commissioner (21 CFR 5.1)) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), § 121.2520 is amended in paragraph (c)(5) by alphabetically adding a new item to the list of substances, to read as follows:

§ 121.2520 Adhesives.

* * * * * * *

(c) * * *

(5) * * *

Components of adhesives

Substances	*Limitations*
* * *	* * *
Pentaerythritol tetrabenzoate [CAS registry No. 4196-86-5].	

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before November 8, 1976, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the regulation, specify with particularity the provisions of the regulation deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Five copies of all documents shall be filed and should be identified with the Hearing Clerk docket number found in brackets in the heading of this regulation. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date: This amendment shall be effective October 8, 1976.

(Sec. 409(c)(1), 72 Stat. 1786 (21 U.S.C. 348(c)(1)).)

Dated: September 30, 1976.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

SUBCHAPTER D—DRUGS FOR HUMAN USE

[Docket No. 76N-0293]

PART 430—ANTIBIOTIC DRUGS: GENERAL

Amphotericin B

The Food and Drug Administration (FDA) is designating a new master standard for amphotericin B; effective October 8, 1976.

A study was conducted by FDA to evaluate the stability of the current master standard for amphotericin B. The data from the study demonstrated that the master standard is subpotent. A portion of the current working standard, which is the same lot as the U.S. Pharmacopeia standard, has been set aside and designated as the master standard for amphotericin B. The use of this different material requires a change in the factor to be used in calculating micrograms.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 430 is amended in § 430.6 by revising paragraph (b)(12) to read as follows:

§ 430.6 Definitions of the terms "unit" and "microgram" as applied to antibiotic substances.

* * * * *

(b) * * *

(12) *Amphotericin B.* The term "microgram" applied to amphotericin B means the amphotericin B activity (potency) contained in 1.014 micrograms of the amphotericin B master standard when dried for 3 hours at 60° C and a pressure of 5 millimeters or less.

* * * * * *

Since the amendment is merely technical, presents no significant points of controversy, and is necessary for accuracy in manufacturing and testing the drug, thus enhancing safety, notice and public procedure are unnecessary; interested persons may, on or before November 8, 1976, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments regarding this regulation. Comments should be filed in quintuplicate (except that individuals may submit single copies) and be identified with the Hearing Clerk docket number found in brackets in the heading of this document. Received comments may be seen in the above office during working hours Monday through Friday. Any changes in this order justified by such comments will be the subject of a further order amending the regulation.

(Sec. 507, 59 Stat. 463, as amended (21 U.S.C. 357))

Effective date: This amendment is effective October 8, 1976.

Dated: October 4, 1976.

MARY A. MCENIRY,
Assistant Director for Regulatory Affairs, Bureau of Drugs.

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 556—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Lasalocid Sodium

The Food and Drug Administration approves a new animal drug application (96-298V) filed by Hoffmann-La Roche, Inc., Nutley, NJ 07110, proposing safe and effective use of lasalocid sodium in the manufacture of a complete feed for broiler or fryer chickens for the prevention of coccidiosis and the establishment of an appropriate tolerance for residues of the drug in the edible products of treated animals. The approval is effective October 8, 1976.

The Commissioner is amending Parts 556 and 558 (21 CFR Parts 556 and 558) to reflect this approval.

Upon evaluation of the data before him, the Commissioner of Food and Drugs concludes that a tolerance limitation of 0.05 part per million (ppm) total lasalocid sodium residue is required to assure that edible tissues of chickens treated with the drug are safe for human consumption.

The application includes residue and metabolic data obtained by radiotracer and other studies permitting the deter-

V41 I197 OCT 8 1976 UM

mination of marker substances, target tissue, and residue depletion curves. From these data, the relationship of marker-substance persistence in target tissue to total residue depletion curves in edible tissues was established. Marker substance in the target tissues of skin and fat was measured by a bioautographic assay. Total residue depletion curves in edible tissues were obtained by a radiotracer method. The submitted toxicological data support a tolerance of 0.05 ppm for total residues in edible tissues. A tissue residue assay measuring microbiologically active residues in the target tissues, skin and fat, with a sensitivity of 0.01 ppm serves to monitor the total residue in edible tissues at the 0.05 ppm level.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action would not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. Copies of the Food and Drug Administration environmental impact assessment are on file with the Hearing Clerk, Food and Drug Administration.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

1. In Part 556 by adding new § 556.347 to read as follows:

§ 556.347 Lasalocid sodium.

A tolerance of 0.05 part per million is established for total residues of lasalocid sodium in the edible tissues of chickens. A tissue residue assay measuring microbiologically active residues in the target tissues, skin and fat, with a sensitivity of 0.01 ppm, serves to monitor the total residue in edible tissues at the 0.05 ppm level.

2. In Part 558 by adding new § 558.311 to read as follows:

§ 558.311 Lasalocid sodium.

(a) *Specifications.* Lasalocid sodium is the crystalline substance produced by the fermentation of *Streptomyces lasaliensis*. A minimum of 90 percent lasalocid sodium activity is derived from lasalocid A sodium.

(b) *Approvals.* Premix level of 68 grams per pound of lasalocid sodium activity is granted to No. 000004 in § 510.600(c) of this chapter.

(c) *Assay limits.* Finished feed, 75 to 125 percent of labeled amount.

(d) *Related tolerance.* See § 556.347 of this chapter.

(e) *Conditions of use.* It is used in feed for broiler or fryer chickens as follows:

(1) *Amount per ton.* 68 grams (0.0075 percent).

(2) *Indications for use.* For the prevention of coccidiosis caused by *Eimeria tenella, E. necatrix, E. acervulina, E. brunetti, E. mivati,* and *E. maxima.*

(3) *Limitations.* For broiler or fryer chickens only; feed continuously as the sole ration; withdraw 5 days before slaughter.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Effective date: This regulation shall be effective October 8, 1976.

Dated: October 5, 1976.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-2363]

PART 1914—COMMUNITIES ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

• The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).•

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at § 1912.5, 24 CFR Part 1912).

The Flood Disaster Protection Act of 1973 (Pub. L. 93–234) requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified for at least one year by the Secretary of Housing and Urban Development. The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction except as authorized by section 202(b) or the Act, as amended, unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.6 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. § 551. The entry reads as follows:

§ 1914.6 List of Eligible Communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	Community No.
Iowa	Fremont	Thurman, town of	Sept. 27, 1976, emergency	Apr. 16, 1976	190394
Pennsylvania	Clearfield	Ferguson, township of	do	Jan. 3, 1975	422380

[Docket No. FI-2032]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Calhoun, Ga.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Calhoun, Georgia under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Calhoun, Georgia 30701.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Oostanaula River	Georgia Rt. 143 (upstream side of route)	627	1,150	1,410
Oothcalooga Creek	Oak St. (extended)	627	410	1,620
Tributary No. 2	S. Industrial Blvd.	632	240	1 400

[1] To corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[Docket No. FI-1094]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Ray City, Ga.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Ray City, Georgia under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations.

V41 I197 OCT 8 76 UMI

Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Ray City, Georgia 31615.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Mill Race	Park St.	178	310	180

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Atlantic Beach, Fla.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Atlantic Beach, Florida under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Atlantic Beach, Florida 32233.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width approximate distance in feet from corporate limit to boundary of 100-yr flood, facing downstream from extended road locations to the west
Intracoastal Waterway	Atlantic Blvd.	6	540
	West 1st St.	6	240
	West 3d St.	6	880
	West Plaza	6	120
	West 14th St.	6	380

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Jacksonville Beach, Fla.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the city of Jacksonville Beach, Florida under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 11 North 3rd Street, Jacksonville Beach, Florida 32250.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Approximate width in feet of the boundary of the 100-yr flood
Atlantic Ocean	25th Ave. South	9	From State Road 203 to 1st St.
	16th Ave. South	9	From 540 ft west of State Road 203 to 520 ft east of State Road 203.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

[Docket No. FI-1095]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Neptune Beach, Fla.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the city of Neptune Beach Florida under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Neptune Beach, Florida 32233.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

V41197 OCT 8 76 UM

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Hopkins Creek	Florida Blvd	5	120	90
	Forest Ave	5	90	170
	Kings Rd	5	190	70

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[FR Doc.76-29344 Filed 10-7-76;8:45 am]

[Docket No. FI-1128]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Fort Walton Beach, Fla.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Fort Walton Beach under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Fort Walton Beach, Florida 32548.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary
Santa Rosa Sound	Robinswood Dr	7	Street section between points 460 ft and 900 ft south of intersection with Hollywood Blvd.
Choctawhatchee Bay	Ferry Rd	8	Street section between points 450 ft west and 280 ft east of the intersection with Hughes St., respectively.
Choctawhatchee Bay	Bay Dr	8	Entire street south of the point 80 ft north of the intersection with Brooks St.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 20, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Temple Terrace, Fla.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Temple Terrace, Florida under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 113 North Glenarven, Temple Terrace, Florida.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Hillsborough River	Flower Ave	36	640	
	Whiteway Dr	35	200	
	Temple Terrace Rd. (Bullard Parkway)	31	40	

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 20, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[Docket No. FI-1144]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of Valparaiso, Fla.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of Valparaiso, Florida under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Valparaiso, Florida 32580.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

V41 I197 O8 OCT 76 UM

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Boggy Bayou	Tennessee Ave	7	810	
	Mississippi Ave	7	50	
	Florida Ave	7	160	
Tom's Bayou	John Sims Parkway	6	150	40

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-2149]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation for the City of San Dimas, Calif.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of the final determinations of flood elevations for the City of San Dimas, California under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 245 East Bonita Avenue, San Dimas, California 91773.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
San Dimas Wash	San Dimas Canyon Rd	1,062	(1)	150
	Romola Rd	1,089	(2)	150
	San Dimas Canyon Rd	1,199	100	100

[1] Entire road to 350 ft. north of junction with Romola Road.
[2] Entire road to junction with San Dimas Canyon Road.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 23, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

[Docket No. FI-1123]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the City of Cumberland, Harlan County, Ky.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of Cumberland, Harlan County, Kentucky under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to Section 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review on the Bulletin Board at Cumberland City Hall, 414 West Main Street.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

[Docket No. FI-1104]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the City of Sheboygan, Sheboygan County, Wis.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of Sheboygan, Sheboygan County, Wisconsin under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the Lobby of City Hall, 828 Center Avenue, Sheboygan.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Sheboygan River	Lake Michigan shoreline	584	0	0
	Virginia Ave. (extended) east of 7th St.	584	0	0
	Pennsylvania Ave. east of 13th St.	584	0	0
	14th St.	585	0	0
	Pennsylvania Ave. (extended) west of 15th St.	587	300	0
	New Jersey Ave.	587	120	30
	South 22d St. (extended)	589	1,710	40
	Western corporate limits	598	0	220
Pigeon River	Northern corporate		0	540
	Calument Dr.		670	260
	Western corporate limits		1,730	850

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from shoreline to 100-yr flood boundary
Lake Michigan	Northern corporate limit	584	0
	Columbus Ave. (extended)	584	0
	Clement Ave. (extended)	584	0
	Vollrath Blvd. (extended)	584	0
	Superior Ave. (extended)	584	0
	Ontario Ave. (extended)	584	0
	Pennsylvania Ave. (extended)	584	0
	Alabama Ave. (extended)	584	0
	High Ave. (extended)	584	0
	Ashland Ave. (extended)	584	0
	Wilson Ave. (extended)	584	0
	Southern corporate limits	584	0

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: September 28, 1976.

J. ROBERT HUNTER,
Federal Insurance Administrator.

[Docket No. FI-1079]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevation Determinations for Howard County, Md.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for Howard County, Maryland under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the County must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at the County Executive Office, Room 206, 3450 Court House Drive, Ellicott City.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7438]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

War Veterans Organizations

This document finalizes amendments to the Income Tax Regulations (26 CFR Part 1) under sections 501(c)(19) and 512(a)(4) of the Internal Revenue Code of 1954, relating to war veterans organizations, which were published in proposed form in the FEDERAL REGISTER on June 16, 1975 (40 FR 25476).

The reason for these amendments is to make changes in the regulations under section 501(c)(19) and section 512(a)(4), so as to reflect the revision of sections 501 and 512 by the Act of August 29, 1972 (Pub. L. 92-418, 86 Stat. 656); exempting certain war veterans organizations from income tax; and exempting from the unrelated business income tax certain insurance set asides of such organizations.

ADOPTION OF AMENDMENTS TO THE REGULATIONS

In view of the foregoing, and after consideration of all such relevant material as was presented by interested persons regarding the proposed rules, the amendments so proposed are adopted subject to the changes set forth as follows:

PARAGRAPH 1. Paragraphs (b)(1) and (e)(1) of § 1.501(c)(19)-1 as set forth in paragraph (1) of the notice of proposed rulemaking are changed to read as set forth below.

PAR. 2. Section 1.1512(a)-4 as set forth in the notice of proposed rule making is changed by revising pargaraphs (a) and (b) (1) and (2) to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917 (26 U.S.C. 7805).)

WILLIAM E. WILLIAMS,
Acting Commissioner of Internal Revenue.

Approved: September 28, 1976.

CHARLES M. WALKER,
Assistant Secretary of the Treasury.

Part 1 of 26 CFR Chapter I, is amended as follows:

1. The following new sections are added immediately after § 1.501(c)(18)-1:

V 41 N 197 OCT 8 76 UM

§ 1.501(c)(19) Statutory provisions; exemption from tax on corporations, certain trusts, etc.; war veterans organizations.

Sec. 501. *Exemption from tax on corporations, certain trusts, etc.* • • •

(c) *List of exempt organizations.* The following organizations are referred to in subsection (a):

• • • • •

(19) A post or organization of war veterans, or an auxiliary unit or society of, or a trust or foundation for, any such post or organization—

(A) Organized in the United States or any of its possessions,

(B) At least 75 percent of the members of which are war veterans and substantially all of the other members of which are individuals who are veterans (but not war veterans) or are cadets, or are spouses, widows, or widowers of war veterans or such individuals and

(C) No part of the net earnings of which inures to the benefit of any private shareholder or individual.

[Sec. 501(c)(19) as added by the Act of August 29, 1972 (Pub. L. 92-418, 86 Stat. 656).]

§ 1.501(c)(19)-1 War veterans organizations.

(a) *In general.* (1) For taxable years beginning after December 31, 1969, a veterans post or organization which is organized in the United States or any of its possessions may be exempt as an organization described in section 501(c)(19) if the requirements of paragraphs (b) and (c) of this section are met and if no part of its net earnings inures to the benefit of any private shareholder or individual. Paragraph (b) of this section contains the membership requirements such a post or organization must meet in order to qualify under section 501(c)(19). Paragraph (c) of this section outlines the purposes, at least one of which such a post or organization must have in order to so qualify.

(2) In addition, an auxiliary unit or society described in paragraph (d) of this section of such a veterans post or organization and a trust or foundation described in paragraph (e) of this section for such post or organization may be exempt as an organization described in section 501(c)(19).

(b) *Membership requirements.* (1) In order to be described in section 501(c)(19) under paragraph (a)(1) of this section, an organization must meet the membership requirements of section 501(c)(19)(B) and this paragraph. There are two requirements that must be met under this paragraph. The first requirement is that at least 75 percent of the members of the organization must be war veterans. For purposes of this section the term "war veterans" means persons, whether or not present members of the United States Armed Forces, who have served in the Armed Forces of the United States during a period of war (including the Korean and Vietnam conflicts).

(2) The second requirement of this paragraph is that at least 97.5 percent of all members of the organization must be described in one or more of the following categories:

(i) War veterans,

(ii) Present or former members of the United States Armed Forces,

(iii) Cadets (including only students in college or university ROTC programs or at Armed Services academies), or

(iv) Spouses, widows, or widowers of individuals referred to in paragraph (b)(2)(i), (ii) or (iii) of this section.

(c) *Exempt purposes.* In addition to the requirements of paragraphs (a)(1) and (b) of this section, in order to be described in section 501(c)(19) under paragraph (a)(1) of this section an organization must be operated exclusively for one or more of the following purposes:

(1) To promote the social welfare of the community as defined in § 1.501(c)(4)-1(a)(2).

(2) To assist disabled and needy war veterans and members of the United States Armed Forces and their dependents, and the widows and orphans of deceased veterans,

(3) To provide entertainment, care, and assistance to hospitalized veterans or members of the Armed Forces of the United States,

(4) To carry on programs to perpetuate the memory of deceased veterans and members of the Armed Forces and to comfort their survivors,

(5) To conduct programs for religious, charitable, scientific, literary, or educational purposes,

(6) To sponsor or participate in activities of a patriotic nature.

(7) To provide insurance benefits for their members or dependents of their members or both, or

(8) To provide social and recreational activities for their members.

(d) *Auxiliary units or societies for war veterans organizations.* A unit or society may be exempt as an organization described in section 501(c)(19) and paragraph (a)(2) of this section if it is an auxiliary unit or society of a post or organization of war veterans described in paragraph (a)(1) of this section. A unit or society is an auxiliary unit or society or such a post or organization if it meets the following requirements:

(1) It is affiliated with, and organized in accordance with, the bylaws and regulations formulated by an organization described in paragraph (a)(1) of this section,

(2) At least 75 percent of its members are either war veterans, or spouses of war veterans, or are related to a war veteran within two degrees of consanguinity (i.e., grandparent, brother, sister, grandchild, represent the most distant allowable relationships),

(3) All of its members are either members of an organization described in paragraph (a)(1) of this section, or spouses of a member of such an organization or are related to a member of such an organization, within two degrees of consanguinity, and

(4) No part of its net earnings inures to the benefit of any private shareholder or individual.

(e) *Trusts or foundations.* A trust or foundation may be exempt as an organization described in section 501(c)(19) and paragraph (a)(2) of this section if it is a trust or foundation for a post or organization of war veterans described in paragraph (a)(1) of this section. A trust or foundation is a trust or foundation for such a post or organization if it meets the following requirements:

(1) The trust or foundation is in existence under local law and, if organized for charitable purposes, has a dissolution provision described in § 1.501(c)(3)-1(b)(4).

(2) The corpus or income cannot be diverted or used other than for the funding of a post or organization of war veterans described in paragraph (a)(1) of this section, for section 170(c)(4) purposes, or as an insurance set aside (as defined in § 1.512(a)-4(b)).

(3) The trust income is not unreasonably accumulated and, if the trust or foundation is not an insurance set aside, a substantial portion of the income is in fact distributed to such post or organization or for section 170(c)(4) charitable purposes, and

(4) It is organized exclusively for one or more of those purposes enumerated in paragraph (c) of this section.

2. Section 1.512(a)-1 is amended by revising paragraph (a) to read as follows:

§ 1.512(a)-1 Definition.

(a) *In general.* Except as otherwise provided in § 1.512(a)-3, § 1.512(a)-4, or paragraph (f) of this section, section 512(a)(1) defines "unrelated business taxable income" as the gross income derived from any unrelated trade or business regularly carried on, less those deductions allowed by chapter 1 of the Code which are directly connected with the carrying on of such trade or business, subject to certain modifications referred to in § 1.512(b)-1. To be deductible in computing unrelated business taxable income, therefore, expenses, depreciation, and similar items not only must qualify as deductions allowed by chapter 1 of the Code, but also must be directly connected with the carrying on of unrelated trade or business. Except as provided in paragraph (d)(2) of this section, to be "directly connected with" the conduct of unrelated business for purposes of section 512, an item of deduction must have proximate and primary relationship to the carrying on of that business. In the case of an organization which derives gross income from the regular conduct of two or more unrelated business activities, unrelated business taxable income is the aggregate of gross income from all such unrelated business activities less the aggregate of the deductions allowed with respect to all such unrelated business activities.

• • • • •

3. Section 1.512(a) is amended by adding a new paragraph (4) to section 512(a) and by revising the historical note. The new provisions read as follows:

§ 1.512(a) Statutory provisions; unrelated business taxable income; special rule applicable to organizations described in section 501(c)(19).

Sec. 512. *Unrelated business taxable income*—(a) For purposes of this title—

• • • • •

(4) *Special rule applicable to organizations described in section 501(c)(19). In the* case of an organization described in section 501(c)(19), the term "unrelated business taxable income" does not include any amount attributable to payments for life, sickness, accident, or health insurance with respect to members of such organization or their dependents which is set aside for the purpose of providing for the payment of insurance benefits or for a purpose specified in section 170(c)(4). If an amount set aside under the preceding sentence is used during the taxable year for a purpose other than a purpose described in the preceding sentence, such amount shall be included, under paragraph (1), in unrelated business taxable income for the taxable year.

(Sec. 512(a)(4) as added by the Act of August 29, 1972 (Pub. L. 92-418, 86 Stat. 656).)

4. A new § 1.512(a)-4 is added immediately before § 1.512(b) to read as follows:

§ 1.512(a)-4 Special rules applicable to war veterans organizations.

(a) *In general.* For taxable years beginning after December 31, 1969, this section provides special rules for the determination of the unrelated business taxable income of an organization described in section 501(c)(19). In general, the rules contained in sections 511 through 514 which are applicable to any organization listed in section 501(c) apply in determining the unrelated business taxable income of an organization described in section 501(c)(19). However, that amount which is paid by members to the organization for the purpose described in paragraph (b)(1) of this section, if set aside from other organizational monies and accounts in an insurance set aside, may be excluded from the unrelated business taxable income of the organization. The insurance set aside shall be used exclusively for providing insurance benefits, for the purposes specified in section 170(c)(4) of the Code, for the reasonable costs of administering the insurance program that are directly related to such set aside, or for the reasonable costs of distributing funds for section 170(c)(4) purposes. If an amount so set aside is used for any purposes other than those described in the preceding sentence, it shall be included in unrelated business taxable income without regard to any modifications provided by section 512(b), in the taxable year in which it is withdrawn from such set aside. Amounts will be considered to have been withdrawn from an insurance set aside if they are used in any manner inconsistent with providing insurance benefits, paying the reasonable costs of administering the insurance program for section 170(c)(4) purposes and for costs of distributing funds for section 170(c)(4) purposes. An example of a use of funds which would be considered a withdrawal would be the use of such funds as security for a loan.

(b) *Insurance set aside*—(1) *Purpose of payments by members.* Payments by members (including commissions on such payments earned by the set aside as agent for an insurance company) into an insurance set aside must be for the sole purpose of obtaining life, sick, accident or health insurance benefits from the organization or for the reasonable costs of administration of the insurance program, except that such purpose is not violated when excess funds from an experience gain are utilized for those purposes specified in section 170(c)(4) or the reasonable costs of distributing funds for such purposes. Funds for any other purpose may not be set aside in the insurance set aside.

(2) *Income from set aside.* In addition to the payments by members described in paragraph (b)(1) of this section, only income from amounts in the insurance set aside (including commissions earned as agent for an insurance company) may be so set aside. Moreover unless such income is used for providing insurance benefits, for those purposes specified in section 170(c)(4), or for reasonable costs of administration, such income must be set aside within the period described in paragraph (b)(3) of this section in order to avoid being included as an item of unrelated business taxable income under section 512(a)(4).

(3) *Time within which income must be set aside.* Income from amounts in the insurance set aside generally must be set aside in the taxable year in which it would be includible in gross income but for this section. However, income set aside on or before the date prescribed for filing the organization's return of unrelated business taxable income (whether or not it had such income) for the taxable year (including any extension of time) may, at the election of the organization, be treated as having been set aside in such taxable year.

(4) *Computation of income from set aside.* Income from amounts in the insurance set aside shall consist solely of items of investment income from, and other gains derived from dealings in, property in the set aside. The deductions allowed against such items of income or other gains are those amounts which are related to the production of such income or other gains. Only the amounts of income or other gain which are in excess of such deductions may be set aside in the insurance set aside.

(5) *Requirements for set aside.* An amount is not properly set aside if the organization commingles it with any amount which is not to be set aside. However, adequate records describing the amount set aside and indicating that it is to be used for the designated purpose are sufficient. Amounts that are set aside need not be permanently committed to such use either under state law or by contract. Thus, for example, it is not necessary that the organization place these funds in an irrevocable trust. Although set aside income may be accumulated, any accumulation which is unreasonable in amount or duration is evidence that the income was not accumulated for the purposes set forth. For purposes of the preceding sentence, accumulations which are reasonably necessary for the purpose of providing life, sick, health, or accident insurance benefits on the basis of recognized mortality or morbidity tables and assumed rates of interest under an actuarially acceptable method would not be unreasonable, even though such accumulations are quite large and the time between the receipt by the organization of such amounts and the date of payment of the benefits is quite long. For example, an accumulation of income for 20 years or longer which is determined to be reasonably necessary to pay life insurance benefits to members, their dependents or designated beneficiaries, generally would not be an unreasonable accumulation. Income which has been set aside may be invested, pending the action contemplated by the set aside, without being regarded as having been used for other purposes.

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY

PART 94—GENERAL PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

PART 98—ADMINISTRATIVE PROVISIONS FOR PROGRAMS UNDER THE COMPREHENSIVE EMPLOYMENT AND TRAINING ACT

Procedures for Purchase of Training and Services From Job Corps Centers

Notice is hereby given that the Department of Labor, Employment and Training Administration, is amending the regulations under the Comprehensive Employment and Training Act of 1973, as amended. The Department is amending the table of contents at 29 CFR 94.3 and is adding a new section at 29 CFR 98.29a in order to provide procedures for the purchase of training and services from Job Corps centers by grantees funded under Titles I, II, III, and VI of the Act.

The Department is providing for this Job Corps "buy-in" program by regulation in order to relieve Title I; II, III, and VI grantees of certain restrictions contained in the regulations at 29 CFR Parts 95, 96, 97 and 99. For example, under this regulation such grantees will be allowed to use grant money to transport program participants to and from Job Corps centers, even when such centers are outside the grantees' jurisdiction.

Since this regulation primarily involves the relaxation of prior restrictions, and since the Department believes that it is the public interest to allow grantees to make use of the buy-in procedures as soon as possible after the beginning of FY 1977, October 1, 1976. The regulation changes set forth in this document shall become effective 30 days after the publication of this document in the FEDERAL REGISTER.

Nevertheless in keeping with the spirit of the Administrative Procedure Act, interested persons are invited to submit comments, arguments and data on the regulation until November 8, 1976, to the Assistant Secretary for Employment and Training, U.S. Department of Labor, 6th and D Streets, NW., Washington, D.C. 20213, Attention: Pierce A. Quinlan, Director, Office of Comprehensive Employment Development.

Any comments received will be reviewed to determine whether the regulation should be amended in any way.

Accordingly, 29 CFR Parts 94 and 98 are amended as follows:

§ 94.3 [Amended]

1. In § 94.3 *Consolidated table of contents for Parts 94–99*, the table of contents for Part 98 is amended to add:

98.29a Job Corps training opportunities for CETA grantees.

Part 98 is amended by adding the following new section:

§ 98.29a Job Corps training opportunities for CETA grantees.

(a) Grantees under Titles I, II, III, and VI of the Act, including contractors under § 303 of the Act, may purchase services and training authorized under their titles of the Act from a Job Corps center; such a transaction shall be called a buy-in.

(b) In participating in the buy-in program, grantees shall make expenditures in accordance with the regulations under their appropriate titles of the Act except as otherwise permitted by paragraph (f) of this section. In participating in the buy-in program, Job Corps shall make expenditures in accordance with the provisions of Part 97a of this subtitle.

(c) A buy-in plan shall be established by a negotiated agreement between a grantee and a center operator. Prior to execution of the agreement by the Job Corps center operator, the center operator must obtain the written approval of the appropriate ETA office.

(d) Two types of buy-in plans may be negotiated:

(1) *Job Corps Enrollee (Residential and Nonresidential).* Participants who meet the eligibility criteria for Job Corps under Title IV of the Act, as well as the eligibility criteria of the grantee's title of the Act, may be fully enrolled in Job Corps as residents or nonresidents. Such enrollees shall be treated as and receive the same services, protections, allowances, etc., as regular corpsmembers except as otherwise provided in paragraph (f) of this section.

(2) *Trainees (Nonresidential).* Participants ("trainees") who are not eligible for, or who do not want or require residential services must meet the eligibility criteria of the grantee's title of the Act only, and may receive training from the Job Corps center operator under the following options:

(i) *Vocational Trainees.* These will be trained in the requisite entry-level skills for the vocation designated in the buy-in agreement.

(ii) *Basic Education and GED Trainees.* These will be individually assessed for reading, arithmetic, job-seeking skills and general education development and trained to meet entry-level requirements for specified job clusters and/or a GED certificate, as appropriate.

(iii) *Combined Basic Education-Vocational Trainees.* These will receive both specified vocational and education training.

(iv) Other options include:

(A) Grantee use of center facilities, including nights or weekends.

(B) Grantee use of centers for training youths during the summer with charges to the grantee based on the pro rata hourly costs.

(e) *Allocation of funds.* Slots available for purchase by grantees shall be over and above the current budgeted center capacity. Funds received by the Job Corps center operator through the buy-in agreement shall be allocated as specified in the Job Corps center contract or program operating plan.

(f) *Prime Sponsor Responsibility.* In addition to paying for training at Job Corps centers, grantees shall be responsible for spending funds received under their own titles of the Act to recruit enrollees and trainees, provide them with support services prior to their arrival at centers and following the completion of training, provide their transportation to and from the center, and provide job placement assistance. Grantees shall also supply associated administrative services in accordance with the regulations under this Part as agreed upon with the center. In addition, grantees are authorized to pay any transportation costs for buy-in enrollees and trainees in excess of that allowed by § 98.12(g)(6).

(g) The terms of a buy-in agreement involving trainees shall state the amount and system of payment, and shall include provisions that:

(1) Pay and allowances for trainees shall be borne by the grantee and paid in accordance with regulations under the grantee's title of the Act;

(2) The center will assure that its liability insurance covers the trainees;

(3) Trainees shall be covered by the workers' compensation required by the regulations under the grantee's title of the Act;

(4) As appropriate, the center shall provide trainees with first aid, emergency health care, and initial outpatient visits. First aid and emergency health care shall mean care provided by professionals or lay persons to prevent death or aggravation of serious illnesses or injury, including ambulance service. Initial outpatient visits shall mean single visits to the dispensary or sick call for the purpose of the initial evaluation of an acute health condition. Treatment will be limited to that which can be given by the center staff at the time of the visit. Any additional evaluation, diagnosis or treatment must be obtained through other arrangements by the prime sponsor or the trainee; and

(5) Every trainee under the age of majority shall furnish a statement from a parent or legal guardian agreeing to permit Job Corps to provide the health care set forth in the agreement. Trainees who are over the age of majority shall themselves sign a similar statement.

(h) *Accounting.* For buy-ins involving trainees, the center shall maintain separate accounts for funds received under each title of the Act. Contract centers shall report all buy-in funds received on the Job Corps Form MA 2–111, Center Financial Status Report, and on Form MA 2–223A, Center Financial Report under "Other Income (identify separately by source)." CCC's shall report funds on Form MA 2–223B, Center Financial Report. Grantees shall account for funds expended in support of a Job Corps buy-in in accordance with current CETA procedures and cost categories.

(i) *Reporting Credits.* Grantees participating in the buy-in plan will receive credit for the recruiting, training, placement, and support services provided trainees and enrollees and will report activity under the buy-in agreement in accordance with current CETA procedures on reporting and accountability provided in this part. The Job Corps centers will provide the data required by the grantee data system to allow the reports for credit to be completed. The Job Corps center will report on total center population as currently required and will, thus, receive credit for serving enrollees and trainees.

Signed at Washington, D.C., this 1st day of October 1976.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

Title 35—Panama Canal

CHAPTER I—CANAL ZONE REGULATIONS

PART 133—TOLLS FOR USE OF CANAL

Increase in Panama Canal Tolls

On May 14, 1976, the Panama Canal Company published in the FEDERAL REGISTER (41 FR 19981) a notice of proposed changes in the rates of tolls for use of the Panama Canal prescribed by 35 CFR 133.1. The proposed action was to increase the rates of tolls from $1.08 to $1.29 per Panama Canal net vessel ton for most laden vessels, from 86 cents to $1.03 per Panama Canal net ton on vessels in ballast, and from 60 cents to 72 cents per displacement ton for warships and certain other floating craft.

In the notice of May 14, 1976, interested parties were invited to submit written data, views or arguments regarding the proposal at any time not later than July 16, 1976 and to present supplementary data at a public hearing on the proposal in New York on August 23, 1976. Notices of the exact time and place of the August 23, hearing were published in the FEDERAL REGISTER on July 6, 1976 (41 FR 27978) and August 9, 1976 (41 FR 33307).

Written comments opposing the proposed increases in rates of tolls were received from two U.S. flag line operators (United States Lines and Sea-Land Services, Inc.), a steamship company based in India (Scindia), two associations representing U.S. flag shipping companies (American Institute of Merchant Shipping) and Japanese shipping companies (Japanese Shipowners' Association) using the canal, an association representing passenger line operators using the canal (International Committee of Passenger Lines), an association representing North Atlantic ports (North Atlantic Ports Association), an association representing employers in North Atlantic ports (Council of North Atlantic Shipping Association) and a labor union representing employees in those ports (International Longshoremen's Association, AFL–CIO).

At the hearing on August 23, supplementary comments and arguments in opposition to the proposed increase in rates of tolls were submitted by United States Lines and Sea-Land Services, Inc., the American Institute of Merchant Shipping, Japanese Shipowners' Association, and International Committee of Passenger Lines. All the parties appearing at the hearing submitted additional written data following the hearing in part in response to questions raised at the hearing.

Opposition to the proposed increase in rates of tolls was based on contentions that certain costs of operation of the Panama Canal should be extluded from costs recovered from tolls, that without an increase in the rates revenues from tolls would exceed the estimates used in calculating the proposed rates, and that the proposed increases would result in diversion of traffic from the Panama Canal, principally to the Far East Minilandbridge, with resulting losses in revenue to the Panama Canal, the ship operators using the canal, the North Atlantic ports and the employers and employees in those ports. It was contended that the proposed increases in rates of tolls would be detrimental to U.S. foreign and domestic commerce, and to the economies of the United States, Japan and the world.

No comment was received expressing disagreement with the conclusion of the Environmental Assessment, made available to interested parties along with the Proposal to Increase Tolls, that the proposed increases would not adversely affect the quality of the human environment.

A four-member panel appointed by the Board of Directors to conduct the hearing submitted a detailed report to the Board of Directors, transmitting all comments of interested parties along with the views and recommendations of the panel and recommending adoption of the proposed increase in rates.

After consideration of the proposal, the environmental assessment, the views and comments of interested parties submitted in the rulemaking proceeding, the report of the panel that conducted the hearing, and other relevant material, the Board of Directors voted to adopt the amendment of 35 CFR 133.1, increasing the rates of tolls for use of the Panama Canal as shown below, subject to approval by the President of the United States.

The basis for the increase in tolls is section 412 of title 2 of the Canal Zone Code (76A Stat. 27). The purpose of the increase is to establish tolls at rates sufficient to cover the costs of operation of the Panama Canal and related facilities and appurtenances as required by the statute.

The amended regulation becomes effective upon approval by the President of the United States but not earlier than November 15, 1976, the end of the statutory notice period prescribed by section 411 of title 2 of the Canal Zone Code.

The full text of 35 CFR 133.1, upon approval by the President, will be amended to read as follows:

§ 133.1 Rates of toll.

The following rates of toll shall be paid by vessels using the Panama Canal:

(a) On merchant vessels, yachts, army and navy transports, colliers, hospital ships, and supply ships, when carrying passengers or cargo, $1.29 per net vessel ton of 100 cubic feet each of actual earning capacity—that is, the net tonnage determined in accordance with Part 135 of this chapter.

(b) On vessels in ballast without passengers or cargo, $1.03 per net vessel ton.

(c) On other floating craft, including warships, other than transports, colliers, hospital ships, and supply ships, $.72 per ton of displacement.

Dated: October 2, 1976.

THOMAS M. CONSTANT,
Secretary.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 613–2]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revision to the Massachusetts Plan

On May 31, 1972 (38 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with exceptions, the Massachusetts Implement Plan for the attainment of national ambient air quality standards. Included in this approval were the Regulations for the Control of Air Pollution in the six Massachusetts Air Pollution Control Districts. Regulation 50—Variances was disapproved by EPA on July 16, 1973 (38 FR 18874) and EPA substituted a new regulation, 40 CFR 52.1131 (38 FR 18880). Since this disapproval, the United States Supreme Court in *"Train v. NRDC"* 421 U.S. 60 (1975) interpreted the Clean Air Act to allow EPA and the State agencies more flexibility in granting variances as revisions to the State Implementation Plan. The States may grant and submit individual source variances to EPA as plan revisions, if it can be demonstrated that the variances will not interfere with the attainment and maintenance of the national ambient air quality standards. Sources requesting variances are subject to existing requirements until such time as the variance is finally approved by both the State and EPA. This publication contains the Administrator's approval of a revision to specified portions of the plan previously disapproved and revocation of substitute regulations promulgated by him.

The proposed revision was submitted by the Governor on November 14, 1974. On February 26, 1975 (40 FR 8228), the revision was published as proposed rulemaking and opportunity was provided for the public to comment on the approvability of the revision. No comments were received.

After evaluation of the State's submittal, the Administrator has determined that the regulation, as modified, meets the substantive and procedural requirements of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation and Submittal of Implementation Plans. This regulation is approved as a revision to the Massachusetts Implementation Plan, and disapproval of Regulation 50 and the substitute regulation previously promulgated by EPA set forth in 40 CFR 52.1131(a), published in the FEDERAL REGISTER on July 16, 1973 are hereby revoked.

The revision becomes effective November 8, 1976.

(Sec. 110, Clean Air Act as amended (42 U.S.C. 1857c–5).)

Dated: October 4, 1976.

RUSSELL E. TRAIN,
Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended as follows:

Subpart W—Massachusetts

1. Section 52.1120 is amended by inserting the date "November 14, 1974" in proper chronological order.

[FR Doc.76–29706 Filed 10–7–76;8:45 am]

SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 628–5; PP6E1772/R113]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Sodium Chlorate

On August 6, 1976, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (41 FR 32899) a notice of proposed rulemaking pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, which proposed that 40 CFR 180.1020 be amended by exempting residues of the pesticide chemical sodium chlorate from the requirement of a tolerance in or on the raw agricultural commodities rice and rice straw, when it is used with urea as a fire retardant in accordance with good agricultural practice as a desiccant in rice production.

This notice of proposed rulemaking was issued in response to a pesticide

V41I197 OCT 8 76 UMI

petition (PP 6E1772) submitted to the Agency by Dr. C. C. Compton, Coordinator, Interregional Research Project No. 4, New Jersey State Agricultural Experiment Station, PO Box 231, Rutgers University, New Brunswick NJ 08903, on behalf of the IR-4 Technical Committee and the Agricultural Experiment Stations of Louisiana and Texas. No comments or requests for referral to an advisory committee were received with regard to this notice of proposed rulemaking.

It has been concluded, therefore, that the proposed amendment to 40 CFR 180.1020 should be adopted as proposed. This amendment to the regulations will protect the public health.

Any person adversely affected by this regulation may, on or before November 8, 1976, file written objections with the Hearing Clerk, Environmental Protection Agency, East Tower, Room 1019, 401 M St. SW, Washington DC 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on October 8, 1976 40 CFR 180.1020 is amended as set forth below.

Dated: October 5, 1976.

EDWIN L. JOHNSON,
Deputy Assistant Administrator for Pesticide Programs.

Part 180, Subpart D, § 180.1020 is amended by revising paragraph (b) to include the raw agricultural commodities rice and rice straw as follows:

§ 180.1020 Sodium chlorate; exemption from the requirement of a tolerance.

• • • • •

(b) Sodium chlorate is exempted from the requirement of a tolerance for residues in or on grain sorghum, fodder, and forage and rice and rice straw, when used with urea as a fire retardant, in accordance with good agricultural practice as a desiccant in the production of grain sorghum and rice.

• • • • •

Title 41—Public Contracts and Property Management

CHAPTER 7—AGENCY FOR INTERNATIONAL DEVELOPMENT, DEPARTMENT OF STATE

[AIDPR Notice 77-3]

PART 7-7—CONTRACT CLAUSES

Abortion-Related Activities

This notice contains the following amendments to the AID procurement regulations (41 CFR):

1. The amendment of § 7-7.5003-3, Abortion-related activities, to require that the clause "Abortion-Related Activities" shall be included in all subcontracts, subgrants, purchase orders, or other subordinate agreements.

2. The amendment of § 7-7.5202-2, Abortion-related activities, to effect a correction in the AIDPR reference there to § 7-7.5003-3.

Subpart 7-7.50—Clause for Cost Reimbursement Type Contracts

Section 7-7.5003-3, *Abortion-related activities.* The clause therein which commences after the opening paragraph, is amended to read as follows:

ABORTION-RELATED ACTIVITIES OCT. 1976

• • • • • •

(5) The Contractor shall insert all of the above provisions of this clause, and shall include this paragraph, in all subcontracts, subgrants, purchase orders, and any other subordinate agreements hereunder.

Subpart 7-7.52—Basic Ordering Agreement for Participant Training

Section 7-7.5202-2, Abortion-Related Activities, is amended by deleting the reference "AIDPR 7-7.5003-2" and substituting the reference "AIDPR 7-7.5003-3".

(41 CFR 7-1.104.4.)

Effective date: This AIDPR Notice is effective November 1, 1976.

Dated: September 28, 1976.

JOHN F. OWENS,
Deputy Assistant Administrator for Program and Management Services.

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER G—OCCUPATIONAL SAFETY AND HEALTH RESEARCH AND RELATED ACTIVITIES

PART 82—CERTIFICATION OF INDUSTRIAL SOUND LEVEL METER SETS

On April 16, 1975, a notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 17029) to amend Title 42, Code of Federal Regulations, by adding a new Part 82 to establish in the National Institute for Occupational Safety and Health (NIOSH) a program for the evaluation and certification of industrial sound level meter sets—instruments used for measuring noise levels in employee working environments.

Interested parties were invited to submit, within 30 days, written comments, suggestions, or objections regarding the proposed regulations. All public comments have been considered with the result that some changes have been made in the regulations which were proposed. The major comments and changes are discussed below:

1. *Fees.* As indicated by several submitted comments, there was some confusion concerning the fees to be rendered in accordance with §§ 82.20, 82.21, and 82.22 of the proposed rulemaking. Changes have been made in § 82.20 and § 82.21 to clarify this situation. These revisions obviate the need for § 82.22 of the proposed rule which has been deleted and § 82.23 has been redesignated as § 82.22.

It is to be noted that § 82.20 pertains to those industrial sound level meter sets which exhibit only the normal microphone configuration and to alternate acoustical calibrators submitted as part of an industrial sound level meter set. As stipulated in § 82.20(a), the indicated fees will be the maximum charged for the examination, inspection, and testing for certification of these devices. A new § 82.20(b) has been added which is pertinent only to submissions made in accordance with § 82.20(a). Specifically, § 82.20(b) provides that should the time required to complete the examination, inspection, and testing for certification be less than that estimated time upon which the fees of § 82.20(a) are based, a refund would be issued to the applicant based upon the computation rate designated.

Fees for submissions other than those specified in § 82.20(a) are governed by § 82.21. Further pertinent comments dealing with fee assessment, as outlined in § 82.22 of the original notice of proposed rulemaking, expressed concern that the computation rate of $50.00 per manday expended by the Institute staff could be construed as an "open-ended fee" amounting to a "blank check." The purpose of this provision was to permit a refund to the applicant should the time required to complete the evaluation be less than that normally anticipated—where a submission is made to modify a certificate—and also in anticipation of instances where unique problems might demand additional investment of personnel time. The Institute recognizes the concern of the commentators in this regard and a new § 82.21(c) has been added which provides that, for those submissions made in accordance with § 82.21 (a) and (b), only upon mutual consent of the applicant and the Institute will testing proceed beyond that point at which the submitted deposit will have been depleted based upon the indicated computation rate. Section 82.21(d) details the procedure for total cost assessment for submissions covered under § 82.21 (a), (b), and (c).

Finally, some users were under the erroneous impression that each purchased sound level meter must be submitted for certification, accompanied by the indicated fee. The NIOSH certification program is designed to pertain primarily to manufacturers of the instrument. Once a manufacturer has had a particular model certified, production of that model may be marketed with the certification seal attached so long as the devices are manufactured according to the drawings and specifications upon which the certificate is based. Under this procedure, users will be able to purchase a certified device.

2. *Uncertified instrumentation already marketed.* Of major concern to several persons was the disposition of those industrial sound level meters already marketed or in use at the time the NIOSH certification program is initiated. Since the NIOSH regulation has an integral mechanism for quality control, etc., it would be impossible to apply such controls to equipment already marketed.

3. *Trade secrets.* A number of comments were received in regard to possible dissemination of proprietary information submitted to the Institute upon application for certification. Section 82.14 of the regulations provides that information which is designated as and, on request, demonstrated to the Institute by the applicant to be a trade secret will be held confidential. The Freedom of Information Act exempts trade secrets from mandatory disclosure and HEW Departmental regulations prohibit disclosure of trade secrets.

4. *Quality control.* Comments were received indicating concern for the type of quality control program to be established by the applicant. It is not the intent of the regulations to force a given quality control plan on a manufacturer. Rather, § 82.41(b) as an alternative provides for the submission of a manufacturer's plan for NIOSH evaluation and approval. Concern has been expressed for the Institute's decision to interview the applicant's employees or agents. It is emphasized that such interviews will be with personnel responsible for quality control at the facility, and § 82.43 has been modified to reflect this intent.

5. *Private branded sets.* Another matter that elicited comment is the treatment accorded "private branded" industrial sound level meter sets. It is to be noted that the applicant, whether manufacturer, distributor, or other party, is responsible for fulfilling all requirements for certification including quality control in the manufacturing process. If the applicant is someone other than the manufacturer, the applicant must submit evidence that the manufacturer will conform with the certification requirements. Any modifications which the applicant should make to the manufactured device would necessarily be included in the submitted quality control plan. An alternative would be for the manufacturer to apply for certification of its device and subsequently, to apply for a modification of certificate (should its original device be certified) to embody the changes or modifications being made by the distributor. In either case, it is a cooperative effort of the parties involved, with either one serving as the applicant for certification.

6. *Pretesting by applicant.* In order not to impose any unnecessary restrictions in so far as exact duplication of NIOSH test equipment or facilities, § 82.52(a) has been modified to allow greater latitude for applicants in satisfying pretesting requirements. Also § 82.52(c), which provided for validation of an applicant's test results as a condition to certification, has been deleted as unnecessary; the conditions of satisfying testing requirements prior to issuance of certification are adequately covered in § 82.30 (a).

7. In the first sentence of § 82.64 the phrase, "submitted for certification," has been inserted to clarify that the tests which follow are those to be performed by the Institute on instruments submitted in accordance with the application for certification. This is to clarify the misconception that all of the following tests must be performed on each meter coming off the production line.

8. In § 82.64(b), the following sentence has been inserted: "Testing shall be performed with no observer present in the anechoic chamber."

9. Modification has been made to § 82.64(e) in order to accommodate wide range sound level meters.

Therefore, a new Part 82, as set forth below, is added to Title 42, Code of Federal Regulations, October 8, 1976.

Dated: January 20, 1976.

THEODORE COOPER,
Assistant Secretary for Health.

Approved: September 29, 1976.

MARJORIE LYNCH,
Acting Secretary.

Subpart A—General Provisions

Sec.
82.1 Purpose.
82.2 Lists of certified industrial sound level meter sets.
82.3 Definitions.
82.4 Incorporation by reference.

Subpart B—Application for Certification

82.10 Application procedures.
82.11 Contents of application.
82.12 Delivery of test material by applicant.
82.13 Withdrawal of application.
82.14 Public record.
82.15 Material required for record.

Subpart C—Fees and Deposits

82.20 Fees.
82.21 Deposits.
82.22 Settlement of fees upon withdrawal of application.

Subpart D—Certification and Denial of Certification

82.30 Issuance of certificates.
82.31 Certificate contents.
82.32 Notice of denial of certification.
82.33 Certification seals.
82.34 Withdrawal of certification.
82.35 Changes after certification.

Subpart E—Quality Control

82.40 Filing requirements for quality control plans.
82.41 Contents of quality control plans.
82.42 Approval of quality control plans.
82.43 Review of quality control records.

Subpart F—General Construction and Test Requirements

82.50 General construction requirements.
82.51 Minimum construction requirements for component parts.
82.52 Pretesting by applicant.
82.53 Assistance by applicant; observers; public demonstrations.

Subpart G—Detailed Certification Requirements and Tests for Industrial Sound Level Meter Sets

82.60 Compliance with ANSI S1.4-1971.
82.61 Requirements for industrial sound level meter sets.
82.62 Requirements for industrial sound level meter set instruction manuals.
82.63 Requirements and tests for acoustical calibrators.
82.64 Requirements and tests for industrial sound level meters.

AUTHORITY: Sec. 8(g), 84 Stat. 1600; 29 U.S.C. 657(g).

Subpart A—General Provisions

§ 82.1 Purpose.

The regulations in this part set forth the requirements and fees for the certification of industrial sound level meter sets which are used to measure the noise levels in employee working environments.

§ 82.2 Lists of certified industrial sound level meter sets.

The Institute will publish and otherwise make available lists of industrial sound level meter sets that have been tested and certified as meeting the minimum requirements of this part.

§ 82.3 Definitions.

Any term defined in the Occupational Safety and Health Act of 1970 and not defined below shall have the meaning given it in the Act. As used in this part:

(a) "Act" means the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.).

(b) "Institute" means the National Institute for Occupational Safety and Health, established under the Act.

(c) "Testing and Certification Laboratory" means the Testing and Certification Laboratory of the National Institute for Occupational Safety and Health, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505.

(d) An "Industrial Sound Level Meter" is a device designed to measure the noise levels to which employees are exposed in the working environment.

(e) An "Acoustical Calibrator" is a device compatible with the microphone of an industrial sound level meter which emits one or more pure tones at one or more sound pressure levels thus providing a check on the general operation and the means for maintaining the calibration of an industrial sound level meter.

(f) An "Industrial Sound Level Meter Set" consists of an industrial sound level meter, compatible acoustical calibrator(s), and instruction manual(s).

(g) "Applicant" means an individual, partnership, company, corporation, association, or other organization that designs, manufactures, assembles, or markets an industrial sound level meter set and which seeks a certificate therefor.

(h) A "Certificate" is a formal document, issued by the Institute, stating that an individual industrial sound level meter set has met the minimum requirements of this part, and that the applicant is authorized to use and attach a seal to any device manufactured or assembled in conformance with the plans and specifications upon which certification was based as evidence of such certification.

(i) "Incoming Inspection" means the manufacturer's activity of receiving, examining, and accepting only those components and materials whose quality conforms to specification requirements.

V41 I197 OCT 8 76 UMI

(j) "In Process Inspection" means the control of products at the source of production and at each step of the manufacturing process, so that departures from specifications can be corrected before defective components or materials are assembled into the finished product.

(k) "Final Inspection" means an inspection of a product after all manufacturing and assembly operations are completed to insure completeness and adherence to performance and other specifications, including satisfactory appearance.

(l) "Fully Graduated Scale" means that portion of the scale of the indicating instrument of an industrial sound level meter which is graduated in steps of one decibel.

(m) "Full Scale Deflection" means a setting of the indicating instrument pointer at the upper limit of the fully graduated scale.

(n) "Microphone Configuration" means the physical attachment and support for the microphone, as well as any environmental shield or screen used to cover the microphone during operation, and also includes the selection of a particular microphone if the sound level meter is designed to be used with an assortment of microphones.

(o) "Normal Microphone Configuration" means that the microphone is physically located on the industrial sound level meter body and is not covered by a windscreen or other environmental shield.

(p) "MIL-STD" means a specific military standards document approved by the U.S. Department of Defense.

§ 82.4 Incorporation by reference.

In accordance with 5 U.S.C. 552(a)(1), the following technical publications to which reference is made in this part are hereby incorporated by reference and made a part hereof:

ANSI Y14.5–1973, "Dimensioning and Tolerancing of Engineering Drawings (issued November 1, 1973).

ANSI S1.4–1971, "Specifications for Sound Level Meters (issued April 27, 1971).

ANSI S1.10–1966, "Methods for the Calibration of Microphones (issued March 14, 1966).

Military Standard 105–D, "Sampling Procedures and Tables for Inspection by Attributes (issued April 29, 1963).

Military Standard 414, Sampling Procedures and Tables for Inspection by Variables for Percent Defective (issued June 11, 1957).

The referenced American National Standards Institute (ANSI) documents can be purchased from ANSI, 1430 Broadway, New York, N.Y. 10018, and the referenced military standards are available to the public without charge from the U.S. Naval Publications and Forms Center, 1501 Tabor Avenue, Philadelphia, PA 19120. These documents are also available for examination at the Testing and Certification Laboratory and the Regulations Office, National Institute for Occupational Safety and Health, Rm 3–32 Park Bldg., 5600 Fishers Lane, Rockville, MD 20852. Incorporation by reference provisions approved by the Director of the Federal Register on October 29, 1975.

Subpart B—Application for Certification

§ 82.10 Application procedures.

(a) Inspection, examination, and testing leading to certification of industrial sound level meter sets shall be undertaken by the Institute only pursuant to a written application filed in accordance with the requirements of this subpart. Such application shall be in the English language except as provided in § 82.11(a).

(b) The application and all related materials and correspondence concerning it shall be sent to the Testing and Certification Laboratory and shall be accompanied by a check, bankdraft, or money order in the amount specified in Subpart C of this part, payable to the National Institute for Occupational Safety and Health.

(c) Except as provided in § 82.52, the examination, inspection, and testing of all industrial sound level meter sets shall be under the sole direction and control of the Institute.

(d) Applicants, manufacturers, or their representatives may visit or communicate with the Testing and Certification Laboratory in order to discuss the requirements for certification of any industrial sound level meter set or the proposed designs thereof. No charge shall be made for such consultation and no written report shall be issued to applicants, manufacturers, or their representatives by the Institute as a result of such consultation.

§ 82.11 Contents of application.

Each application for certification shall contain:

(a) A complete written description of the industrial sound level meter set for which certification is requested, together with classification of defects (as prescribed in § 82.41(d)), drawings, schematics (diagrams of electrical circuitry), and specifications (and indices of such drawings, schematics, and specifications) showing full details of construction and of the materials used. Classification of defects, drawings, schematics, and specifications (and indices thereof) shall be submitted in triplicate.

(1) Drawings and schematics shall be titled, numbered, and dated; any revision shall be shown on the drawings and schematics. The purpose of each revision shall be shown on the drawing or schematic or attachments thereto.

(2) Drawings may be dimensioned either in metric or English units. However, where non-English words are used on such drawings, the foreign language call-outs on drawings must be translated either directly on the drawings or on overlays. Drafting symbols not specified by American National Standards Institute standard drafting practices ANSI Y14.5–1973, "Dimensioning and Tolerancing of Engineering Drawings", must be interpreted in the English language.

(b) A plan for quality control which meets the minimum requirements set forth in Subpart E of this part. The quality control plan shall be submitted in triplicate.

(c) A statement that the industrial sound level meter set has been pretested by the applicant as prescribed in § 82.52, a description of the test methods employed, and the results of such tests together with a statement that, based on the test results, the industrial sound level meter set meets the applicable requirements of this part.

(d) A statement that the industrial sound level meter set submitted is either (1) a prototype, or (2) made on regular production tooling, with no operation, test, inspection, or calibration included which will not be incorporated in regular production processing.

(e) A sketch or description of the proposed location of the certification seal required by the Institute.

(f) A plot of the nominal free field relative response level of the industrial sound level meter, at an angle specified by the applicant, versus frequency. The frequency range shall be at least from 31.5 Hz to 8000 Hz and the specified angle shall be no greater than 90° relative to the forward axis of the microphone. This angle shall be chosen so that the response approximates random-incidence response. The applicant shall also indicate on this plot the manufacturer's tolerances which must be satisfied to ensure that the industrial sound level meter set complies with the requirements of paragraphs (a) and (b) of § 82.64. If the industrial sound level meter set for which certification is sought is provided with several optional microphone configurations, then similar plots shall be provided for each optional microphone configuration.

§ 82.12 Delivery of test material by applicant.

(a) Each applicant will, when an application is filed pursuant to § 82.10, be advised in writing by the Institute of the total number of industrial sound level meters, acoustical calibrators, instruction manuals, and accessories required for testing.

(b) The applicant shall deliver, at his own expense, the test material specified in paragraph (a) of this section to the Testing and Certification Laboratory within 90 days after being advised of the required test material.

(c) Industrial sound level meter sets submitted for certification must be made from materials specified in the application.

§ 82.13 Withdrawal of application.

Any applicant may, upon written request submitted to the Institute, withdraw any application for certification or modification of certificate for an industrial sound level meter set. Fees shall be in accordance with § 82.22.

§ 82.14 Public record.

After the testing of an industrial sound level meter set pursuant to application filed under this part, the application and matters relating to the industrial sound level meter set, including all test results, shall be public records and available for public inspection. However, any such information which is designated by the applicant as a trade secret will be held confidential, provided that the applicant demonstrates to the Institute, upon request, that the information is a trade secret.

§ 82.15 Material required for record.

(a) Only completely assembled industrial sound level meter set certified under the provisions of this part will be retained without cost by the Institute as a record of the performance investigation; material not required for the record will be returned to the applicant at his own expense, upon written request within 30 days after certification. If no such request is made, the test material will be disposed of by the Institute in such manner as it deems appropriate.

(b) When an industrial sound level meter set fails to meet the requirements for certification set forth in this part, or when an application for certification or for modification of certificate is withdrawn, all test material delivered by the applicant in accordance with § 82.12 will be returned to the applicant at his own expense, upon written request to the Institute within 30 days after notice of denial of certification or withdrawal of application. If no such request is made, the test material will be disposed of by the Institute in such manner as it deems appropriate.

Subpart C—Fees and Deposits

§ 82.20 Fees.

(a) The Institute will charge a maximum fee of $600 for the examination, inspection, and testing for certification of an industrial sound level meter set with the normal microphone configuration. An additional maximum fee of $200 will be charged for each alternate acoustical calibrator submitted as part of an industrial sound level meter set. These fees shall be submitted as part of an application for certification as prescribed in § 82.10(b).

(b) The fees stipulated in paragraph (a) of this section are based upon estimated man-hours necessary to complete certification. Upon completion of all examinations, inspections, and testing for certification of instruments submitted under this section, the Institute will compute the total man-hours expended by the Institute staff. If the total expenditure, computed at the rate of $50 per man-day, is less than the amount submitted under § 82.20(a), the balance will be refunded to the applicant.

§ 82.21 Deposits.

(a) An applicant shall submit a deposit of $600 to the Institute under the following circumstances:

(1) Upon applying for the certification of industrial sound level meter sets with microphone configurations other than the normal microphone configuration, or with several optional microphone configurations.

(2) Upon applying for examination, inspection, and testing of a prototype.

(3) Upon submitting an industrial sound level meter set made on regular production tooling subsequent to testing as a prototype.

(4) Upon applying for retesting of an industrial sound level meter set subsequent to denial of certification.

(b) The following deposits shall be submitted to the Institute for examination, inspection, and testing of component parts leading to a modification of certificate:

(1) Industrial sound level meter	$350
(2) Acoustical calibrator (each)	200
(3) Instruction manual	50

(c) Deposits stipulated in paragraphs (a) and (b) of this section shall be submitted as part of the application for certification as prescribed in § 82.10(b) and will be credited by the Institute toward actual certification costs based on a fee computation rate of $50 per man-day expended by the Institute staff. Only upon mutual consent of the applicant and the Institute will testing proceed beyond that point at which the deposit submitted under this section will have been depleted based on the fee computation rate.

(d) Upon completion of all examinations, inspections, and tests of industrial sound level meter sets or component parts, submitted under § 82.21 the Institute will compute the total fee using the computation rate in § 82.21(c). The Institute will then advise the applicant in writing of the total cost assessed and the additional amount, if any, which shall be paid to the Institute prior to the issuance of the certificate or other action by the Institute. If the total cost is less than the deposit, the Institute will refund the overpayment upon issuance of the certificate, modification of certificate, prototype testing results, or notice that the set or component fails to comply with the applicable requirements of this part.

§ 82.22 Settlement of fees upon withdrawal of application.

Upon receipt of a written request for the withdrawal of an application, the Institute will determine the total man-days expended and the amount due for services already performed during the course of any examinations, inspections, or tests conducted pursuant to such application. The total amount due shall be computed at a rate of $50 per man-day expended by the Institute staff and assessed against the deposits or fees submitted by the applicant. The Institute will then refund or request payment as appropriate.

Subpart D—Certification and Denial of Certification

§ 82.30 Issuance of certificates.

(a) The Institute will issue certificates pursuant to the provisions of this subpart only for individual, completely assembled industrial sound level meter sets which have been examined, inspected, and tested and which meet the requirements set forth in this part.

(b) The Institute will not issue certificates for any component part.

(c) The Institute will not issue informal certificates. However, if the application submitted in accordance with § 82.11 states that the submitted industrial sound level meter set is a prototype, the Institute will examine, inspect, and test the prototype in accordance with the provisions of this part. Upon completion of such examinations, inspections, and tests, the Institute will inform the applicant, in writing, of the results of the examinations, inspections, and tests. If it is found that the prototype meets the minimum requirements set forth in this part, the Institute will then require the applicant to submit industrial sound level meter sets made on regular production tooling, with no operations, tests, inspections, or calibrations included which will not be incorporated in regular production processing, for further examination, inspection and testing, prior to issuance of a certificate.

(d) Applicants required to submit industrial sound level meter sets made on regular production tooling, subsequent to testing as a prototype, shall be charged additional fees in accordance with § 82.21.

§ 82.31 Certificate contents.

Every certificate issued under this part will:

(a) Contain a description of the industrial sound level meter set for which it is issued.

(b) Specifically set forth any restrictions or limitations on the industrial sound level meter set's use in work places.

(c) Be accompanied by indices of drawings, schematics, and specifications submitted by the applicant in accordance with § 82.11. These listed drawings, schematics, and specifications shall be incorporated by reference in the certificate and shall be maintained by the applicant. The drawings, schematics, and specifications listed in each certificate shall set forth in detail the design and construction requirements which shall be met by the applicant in producing the industrial sound level meter set commercially.

(d) Be accompanied by a fullscale reproduction of the certification seal design as provided in § 82.33.

(e) Incorporate by reference the approved quality control plan as specified in Subpart E.

§ 82.32 Notice of denial of certification.

(a) If, upon completion of examinations, inspections, and tests required to be conducted in accordance with the provisions of this part, it is found that the industrial sound level meter set does not meet the minimum requirements set forth in this part, the Institute will issue a written notice so advising the applicant.

(b) Each such notice will be accompanied by all pertinent data or findings with respect to the deficiencies in performance of the industrial sound level meter set for which certification was

V41 I197 OCT 8 76 UMI

sought with a view to possible correction of such deficiencies.

(c) If, after receiving a notice of denial of certification, the applicant corrects the deficiencies, the applicant may submit the industrial sound level meter set for retesting. Application may be made for a certificate as specified by Subpart B of this part. Deposits and fee computation shall be in accordance with § 82.21.

§ 82.33 Certification seals.

(a) Each certified industrial sound level meter set shall be marked with a certification seal designed by the Institute. The seal shall appear on the industrial sound level meter, acoustical calibrator(s), and instruction manual(s) which comprise the set and shall bear the applicant's name, the Institute's name, the seal of the Department of Health, Education, and Welfare, and a certification number consisting of the letters TC, followed by the numeral 51, and a certificate number (e.g. TC–51–197).

(b) The seal required in paragraph (a) of this section shall be applied in a permanent manner such that it cannot be readily defaced or removed without leaving evidence of its presence. The seal shall not in any way interfere with the operation of the industrial sound level meter set.

(c) The Institute will where necessary, notify the applicant when modification or addition of seals, labels, markings, or instructions is required.

(d) Certification seals shall only be used by the applicant to whom they were issued.

(e) Use of the Institute's certification seals obligates the applicant to whom they are issued to maintain or cause to be maintained the approved quality control sampling schedule and the acceptable quality level for each characteristic tested, and to assure that the certified industrial sound level meter set is manufactured according to the drawings and specifications upon which the certificate is based.

(f) Each certified industrial sound level meter and acoustical calibrator(s) shall also be labeled to show the lot number, serial number, or approximate date of manufacture.

§ 82.34 Withdrawal of certification.

(a) The Institute may, after affording the certificate holder reasonable notice in writing and an opportunity to present his views or evidence, withdraw, for cause, any certificate which the Institute has issued under the provisions of this part. Such causes for withdrawal include, but are not limited to, misuse of certification markings, misleading advertising, and failure to maintain or cause to be maintained the quality control requirements of the certificate.

(1) The views and evidence of the holder of the certificate shall be presented in writing unless the Institute determines that an oral presentation is desirable.

(2) Such views and evidence shall be confined to matters relevant to whether cause exists for the withdrawal of the certificate.

(b) Effective upon receipt by the applicant of the Institute's written notice of intent to withdraw certification, the applicant shall cease to manufacture, market, or distribute for sale industrial sound level meter sets bearing the certification seal for those industrial sound level meter sets for which notice of intent to withdraw certification has been given.

§ 82.35 Changes after certification.

Prior to changing any feature of a certified industrial sound level meter set or of a component thereof, the applicant shall obtain the certification of the Institute pursuant to the following procedures:

(a) Application may be made at any time as for an original certificate as specified by Subpart B of this part. The application shall request that the existing certificate be extended to encompass the proposed change.

(b) The application and accompanying material will be examined by the Institute to determine whether testing of the modified industrial sound level meter set will be required. The Institute will inform the applicant whether such testing is required and, if so, when the modified device may be submitted for testing.

(c) The fees charged by the Institute for examination, inspection, and testing leading to a modification of the certificate shall be as specified by § 82.21 (b), (c), and (d).

(d) If the proposed modification meets the requirements of this part, a modified certificate will be issued, accompanied, where necessary, by a list of new and revised drawings, schematics, and specifications covering the change(s) and any revised certification markings.

Subpart E—Quality Control

§ 82.40 Filing requirement for quality control plans.

A quality control plan, written in the English language, shall be filed by the applicant as a part of each application submitted pursuant to § 82.10. The plan shall be designed to assure the accuracy of sound level measurement provided by the industrial sound level meter set for which certification is sought.

§ 82.41 Contents of quality control plans.

(a) Each quality control plan shall contain provisions for the management of quality, including: (1) Requirements for the production of quality data and the use of quality control records; (2) control of engineering drawings, documentations, and changes; (3) control and calibration of measuring and test equipment; (4) control of purchased material to include incoming inspection; (5) lot identification, control of processes, manufacturing, fabrication and assembly work conducted in the applicant's plant; (6) audit of final inspection of the completed product; and, (7) the organizational structure necessary to carry out these provisions.

(b) Each provision for incoming and final inspection in the quality control plan shall include a procedure for the selection of a sample of industrial sound level meters, acoustical calibrators, and the components thereof for testing and/or inspection, in accordance with procedures set forth in MIL–STD–105D, "Sampling Procedures and Tables for Inspection by Attributes", or MIL–STD–414, "Sampling Procedures and Tables for Inspection by Variables for Percent Defective", or an approved equivalent sampling procedure, or an approved combination of sampling procedures.

(c) The sampling procedure shall include a list of the characteristics to be tested and/or inspected by the applicant or his agent.

(d) The characteristics listed in accordance with paragraph (c) of this section shall be classified according to the potential effect of such defect and grouped into the following classes:

(1) *Major.* A defect that is likely to result in reduced performance; and

(2) *Minor.* A defect that (i) is not likely to reduce the usability of the industrial sound level meter set for its intended purpose, or (ii) is a departure from established manufacturer's specifications and has little bearing on the effective use of the industrial sound level meter set.

(e) The quality control inspection test method to be used by the applicant or his agent for each characteristic required to be tested and/or inspected shall be described in detail.

(f) Each complete industrial sound level meter set manufactured shall be 100 percent inspected for specific major defects to be selected by the manufacturer and all defective items shall be rejected.

(g) The Acceptable Quality Level (AQL) for each major or minor defect so classified by the applicant shall be:

(1) Major, 0.65 percent; and (2) Minor, 2.5 percent.

(h) Inspection level II as described in MIL–STD–105D, or inspection level IV as described in MIL–STD–414, shall be used for major and minor characteristics except that 100 percent inspection shall be used for specific major characteristics selected by the manufacturer.

§ 82.42 Approval of quality control plans.

(a) Each quality control plan submitted in accordance with this subpart will be reviewed by the Institute to determine its effectiveness in insuring the quality of performance of the industrial sound level meter set for which a certificate is sought.

(b) If the Institute determines that the quality control plan submitted by the applicant will not insure adequate quality control, the Institute will require the applicant to modify the procedures and testing requirements of the plan prior to approval of the plan and issuance of any certificate.

(c) Approved quality control plans shall constitute a part of and be considered incorporated into any certificate issued by the Institute, and compliance with such plans by the applicant shall be a condition of certification.

§ 82.43 Review of quality control records.

(a) The applicant shall maintain quality control inspection records sufficient to carry out the procedures required in MIL–STD–105D or MIL–STD–414, or an approved equivalent sampling procedure, for each batch or lot, for not less than 4 years following acceptance or rejection of the batch or lot.

(b) The Institute shall have the right, at reasonable times, to have its representatives enter the applicant's facilities to survey the applicant's quality control system, inspection and test methods, equipment, and records. The representatives may interview any of the applicant's employees or agents concerned with the quality control program regarding the quality control system and equipment.

Subpart F—General Construction and Test Requirements

§ 82.50 General construction requirements.

(a) Industrial sound level meter sets will not be accepted by the Institute for examination, inspection, and testing unless they are designed on sound engineering and scientific principles, constructed of suitable materials, and evidence good workmanship.

(b) Any industrial sound level meter set certified by the Institute for use in mines where "permissibility" is required shall meet the requirements for electric permissibility and intrinsic safety set forth in Part 18 of Title 30 CFR (Bureau of Mines Schedule 2G)—as tested and approved by the Mining Enforcement and Safety Administration.

§ 82.51 Minimum construction requirements for component parts.

The component parts of each industrial sound level meter set shall be:

(a) Designed and constructed to insure against creation of any hazard to the user.

(b) Assembled in a manner which permits access for inspection and repair of functional parts.

(c) Assembled in a manner which permits easy access to parts which require periodic maintenance.

§ 82.52 Pretesting by applicant.

(a) Prior to filing any application for certification or modification of a certificate, the applicant shall conduct sufficient tests and evaluations which in the judgment of the applicant would verify that the sound level meter set meets the performance requirements of this part.

(b) The Institute may, upon written request by the applicant, provide drawings and descriptions of its test equipment and otherwise render technical assistance to the applicant in establishing a test laboratory or securing the services of a testing agency.

§ 82.53 Assistance by applicant; observers; public demonstrations.

(a) The Institute may, as a condition of certification, require the assistance of the applicant or agents of the applicant during the assembly, disassembly, preparation or operation of any industrial sound level meter set prior to or during testing.

(b) Only Institute personnel, persons assisting the Institute pursuant to paragraph (a) of this section and such other persons as are requested by the Institute or the applicant to be observers, shall be present during any examination, inspection, or test conducted prior to the issuance of a certificate by the Institute for the equipment under consideration.

(c) Following the issuance of a certificate for an industrial sound level meter set, the Institute shall have the right to conduct such public tests and demonstrations of the certified device as are deemed appropriate.

Subpart G—Detailed Certification Requirements and Tests for Industrial Sound Level Meter Sets

§ 82.60 Compliance with ANSI S1.4–1971.

Except as otherwise required by this subpart, the requirements and tests set forth in § 82.61–§ 82.64 shall be in accordance with the indicated sections of American National Standards Specification for Sound Level Meters, S1.4–1971.

§ 82.61 Requirements for industrial sound level meter sets.

Each industrial sound level meter set shall, at a minimum, have the following features:

(a) An A-weighting network.

(b) A "SLOW" response meter characteristic.

(c) The capability of measuring, on the fully graduated scale, a sound level from at least 80 dBA to 115 dBA.

(d) An indicating instrument graduated in steps of one decibel over a range of at least 15 decibels.

(e) A means of checking battery voltage for both the industrial sound level meter and its associated acoustical calibrator(s).

(f) An instruction manual(s) detailing the operation, intended use, and limitations of the industrial sound level meter set.

(g) A compatible acoustical calibrator of the coupler type.

§ 82.62 Requirements for industrial sound level meter set instruction manuals.

(a) An industrial sound level meter set submitted to the Institute for certification shall contain an instruction manual which meets the requirements of this section. If the instruction manuals for the sound level meter and acoustical calibrator are separate, they will be considered as one for certification inspection.

(b) The instruction manual submitted for certification as part of an industrial sound level meter set shall at a minimum contain the following information:

(1) A general description of the industrial sound level meter, including its construction, principles of operation, and intended use.

(2) An explanation of the calibration procedure necessary to maintain the industrial sound level meter accuracy specified in § 82.64 of this subpart and the information required in section 9.2 (3) and 9.2(7) of ANSI S1.4–1971 to the extent that such information relates to acoustical calibrators of the coupler type. The sound pressure level(s) generated by the acoustical calibrator shall be stated.

(3) The reference sound pressure required by section 9.2(1) of ANSI S1.4–1971.

(4) A description of the A-weighting curve and its effect on sound pressure level measurements.

(5) The information relating to thermal sensitivity required by section 9.2(8) of ANSI S1.4–1971. Also included shall be the effect of temperature on the acoustical calibrator.

(6) The information required in section 9.2(9) of ANSI S1.4–1971 relating to battery life.

(7) The information required in section 9.2(10) of ANSI S1.4–1971. As used in ANSI S1.4–1971, the word "instrument" means both the industrial sound level meter and the acoustical calibrator.

(8) The information required in section 9.2(11) of ANSI S1.4–1971 relating to relative humidity range including the range of relative humidity over which there is less than 0.5 decibel variation in sensitivity.

(9) The information required in section 9.2(12) of ANSI S1.4–1971. As used in ANSI S1.4–1971 the phrase "complete apparatus" shall mean the industrial sound level meter.

(10) The effect of variations in the atmospheric pressure on the acoustical calibrator and the industrial sound level meter and corrections, if any, necessary to compensate for these variations.

(11) The information required in section 9.2(20) and section 3.3.4 of ANSI S1.4–1971 as applies to A-weighting.

(12) The information required in section 9.2(4) of ANSI S1.4–1971 including a discussion of the effects of background noise on measurements.

(13) A listing of the microphone configurations of the industrial sound level meter which have been certified under this part (e.g. (1) industrial sound level meter with normal microphone configuration, (2) industrial sound level meter with microphone extension cable, (3) industrial sound level meter with windscreen, (4) industrial sound level meter with windscreen and extension cable, etc.). The manual shall also state if some alternate microphone configurations have not been certified.

(14) The information relating to the microphone extension cable required in section 9.2(18) of ANSI S1.4–1971, if applicable.

V41N197 OCT 8 76 UMI

(15) The information relating to directional response required in section 9.2 (19) of ANSI S1.4–1971.

(16) A description of any periodic maintenance that is expected to be performed by the user to maintain the effectiveness of the industrial sound level meter set.

(17) The information relating to stability precautions required in section 6.1 of ANSI S1.4–1971.

(18) The information required in section 9.2(6) of ANSI S1.4–1971 as applies to "SLOW" response, including the nominal undershoot and overshoot in decibels when tested as described in § 82.64 (1) of this part.

(19) The information relating to output connections required in section 8.2 of ANSI S1.4–1971, if applicable.

(20) The information relating to the microphone required in section 9.2(17) of ANSI S1.4–1971.

(21) The information relating to internal noise required in section 3.3.1 of ANSI S1.4–1971.

(22) The date of the most recent revision of the instruction manual.

§ 82.63 Requirements and tests for acoustical calibrators.

(a) Each acoustical calibrator intended for use as part of an industrial sound level meter set shall meet the requirements of section 6.2.5 of ANSI S1.4–1971. The acoustical calibrator shall be of the pure-tone, coupler type and be compatible with the industrial sound level meter with which it is to be certified as a set.

(b) If the acoustical calibrator operates at more than one frequency, means shall be provided to indicate which frequency is in use. The accuracy of the calibration frequency of the acoustical calibrator shall be within ±5 percent of the frequency stated by the applicant.

(c) If the acoustical calibrator operates at more than one sound pressure level, means shall be provided to indicate which sound pressure level is in use. The accuracy of the calibration sound pressure level of the acoustical calibrator shall be accurate to within ±1 dB, utilizing any corrections for atmospheric pressure specified by the instruction manual.

(d) If the acoustical calibrator is battery operated, means shall be provided to indicate whether battery voltage is adequate to maintain the performance specified for the acoustical calibrator. The requirements described in paragraphs (b) and (c) of this section shall be tested under minimally adequate battery voltage (i.e., the minimum battery voltage necessary to ensure adequate operation).

(e) The tests of frequency and sound pressure level shall be made with a compatible microphone whose calibration has been transferred from a laboratory standard microphone calibrated by the reciprocity technique described in ANSI S1.10–1966, "Method for the Calibration of Microphones".

(f) If the acoustical calibrator operates at multiple sound pressure levels or frequencies, then the preferred frequency and sound pressure level, if any, shall be specified by the applicant for use in calibrating the industrial sound level meter for testing for compliance with the requirements of § 82.64.

§ 82.64 Requirements and tests for industrial sound level meters.

Each industrial sound level meter submitted for certification shall meet the following requirements and tests. All tests shall be performed with the industrial sound level meter set to A-weighted, "SLOW" response unless otherwise specified.

(a) The industrial sound level meter shall have an A-weighting-network with the frequency characteristics and design specified for Type 2 sound level meters in sections 3.1, 3.1.1, and 3.1.3. of ANSI S1.4–1971. The A-weighted response of the sound level meter shall be verified by the tests described in paragraph (b) of this section.

(b) The total tolerance limits of the industrial sound level meter for sound at random incidence shall be as specified for Type S2A sound level meters in section 3.2.1 of ANSI S1.4–1971. Testing shall be performed in an anechoic chamber to determine if the industrial sound level meter meets the required frequency response characteristics and total tolerance limits. The method of test shall be as described in sections 4.1 and 4.2.1 of ANSI S1.4–1971. Testing shall be performed with no observer present in the anechoic chamber. Tests to determine that the industrial sound level meter meets acoustic low frequency response tolerances will be performed using a low frequency calibration chamber at the Testing and Certification Laboratory. Supplementary diffuse field or free-field tests will be performed by the Testing and Certification Laboratory as required to verify overall random incidence response tolerance limits.

(c) The maximum deviation of the free-field relative response level as a function of angle of incidence with respect to the random-incidence relative response level shall be as specified for Type S2A sound level meters in section 4.2.2 of ANSI S1.4–1971. Testing shall be performed in an anechoic chamber with no observer present in the chamber.

(d) The sensitivity range attenuator of the industrial sound level meter, if provided, shall meet the requirements specified for Type 2 sound level meters in section 3.2.2 of ANSI S1.4–1971. The accuracy of the settings of the sensitivity range attenuator shall be determined by inserting a sinusoidal voltage of adjustable amplitude in series with the microphone of the industrial sound level meter. The microphone shall be acoustically shielded to make the acoustic pickup negligible. The test shall be performed at least at the frequencies 63 Hz, 1000 Hz, and 8000 Hz.

(e) The internal noise of those industrial sound level meters supplied with amplifier output connections shall meet the Type 2 sound level meter requirements specified in section 3.3.1 of ANSI S1.4–1971. However, in order to properly test sound level meters having very wide scale spans, the last sentence of section 3.3.1 of ANSI S1.4–1971 shall be modified and interpreted as follows: "In addition, the internal noise equivalent sound level, when measured in octave bands for all range attenuator settings that include any portion of the range 80 dBA to 115 dBA, shall not exceed either of the following: (i) 40 decibels below full scale, (ii) 20 decibels below the lower limit of the fully graduated scale. Each octave band level shall be expressed relative to a sinusoidal signal, centered in the octave band, having full scale level."

(f) In an acoustic environment in which the sound level is less than 30 dBA, the industrial sound level meter reading shall not exceed 55 dBA if the industrial sound level meter has a sensitivity range attenuator setting to allow such a measurement within the fully graduated scale. If such a sensitivity range attenuator setting is not provided, the industrial sound level meter, when placed on its most sensitive range attenuator setting, shall indicate a reading less than 1 dBA above the lower limit of the fully graduated scale.

(g) The amplified distortion of the industrial sound level meter shall meet the requirements for Type 2 sound level meters specified in section 3.3.3 of ANSI S1.4–1971. The response to electrical sine waves shall be determined by inserting a sinusoidal voltage in series with the microphone of the industrial sound level meter to produce a full scale deflection reading. The microphone shall be acoustically shielded to make the acoustic pickup negligible. The signal shall then be increased until the electrical signal is 10 dBA above the voltage equivalent of full scale deflection. Any deviation from linearity in the response of the industrial sound level meter shall be noted. The test shall be performed at least at the frequencies 63 Hz, 1000 Hz, and 8000 Hz.

(h) The amplifier overload distortion of the industrial sound level meter shall meet the requirements of section 3.3.4 of ANSI S1.4–1971 except that the specified data shall be required only for the A-weighting mode.

(i) The industrial sound level meter scale marking and accuracy shall meet the requirements specified for Type 2 sound level meters in Section 5.1 of ANSI S1.4–1971. In section 5.1.3 of ANSI S1.4–1971 the phrase "full scale" shall mean the upper limit of the fully graduated scale. Table I below provides the permitted error for scales graduated from −5 decibels to +10 decibels as required by section 5.1.3 of ANSI S1.4–1971. If the scale is graduated otherwise, the formula specified for Type 2 sound level meters in section 5.1.3 of ANSI S1.4–1971 is to be applied to obtain a similar table. The accuracy of the indicating instrument scale shall be determined by inserting a sinusoidal voltage in series with the microphone of the industrial sound level meter. The microphone shall be acoustically shielded to make the acoustic pickup negligible. The amplitude of the inserted signal shall be adjusted so that the indicating instrument reads full scale deflection. Then the signal shall be attenuated so as to reduce the indicated sound level in one decibel steps. The required attenuation shall be precisely measured and used to determine the accuracy of the indicating instrument. The test shall be performed at least at the frequency of 1000 Hz.

TABLE I.—*Permitted scale error*

Scale marking:	Permitted error (dBA)
+10	Reference
+9	±0.23
+8	±0.26
+7	±0.29
+6	±0.32
+5	±0.35
+4	±0.38
+3	±0.41
+2	±0.44
+1	±0.47
0	±0.50
−1	±0.53
−2	±0.56
−3	±0.59
−4	±0.62
−5	±0.65

(j) The indicating instrument of the industrial sound level meter shall meet the requirements for Type 2 sound level meters specified in Section 5.2 of ANSI S1.4–1971. The requirement of section 5.2 shall be verified by the Rule of Combination Measurement Procedure described in Appendix B of ANSI S1.4–1971 but with the following modifications:

(1) One-third octave bands of noise shall be used. Octave bands of noise shall not be used.

(2) The voltage developed across the resistor shall be applied as an electrical input to the industrial sound level meter in series with the microphone, with the acoustic pickup made negligible.

(3) Only A-weighting shall be used in the measurement procedure.

(4) Only the "SLOW" meter characteristic of the industrial sound level meter shall be used in the measurement procedure.

(k) The industrial sound level meter shall employ an indicating system equally responsive to instantaneous sound pressures both above and below ambient static pressure (i.e., full-wave or true square law rectification shall be employed).

(l) The industrial sound level meter shall have the slow dynamic characteristic specified for Type 2 sound level meters in Section 5.4 of ANSI S1.4–1971, with the exception of section 5.4.4 which need not apply. The phrase "full-scale reading" in section 5.4.3 of ANSI S1.4–1971 means the upper limit of the fully graduated scale. If the scale of the meter is not graduated from −5 decibels to +10 decibels, suitable testing levels other than that specified in section 5.4.3 of ANSI S1.4–1971 may be chosen by the Institute. The test described in section 5.4.2 of ANSI S1.4–1971 shall be performed at least at the frequencies 63 Hz, 1000 Hz, and 8000 Hz.

(m) The industrial sound level meter shall have a battery indicator, if battery operated, as specified in section 5.5 of ANSI S1.4–1971. The accuracy of the industrial sound level meter with minimally adequate battery voltage shall be checked by first inserting a sinusoidal signal in series with the microphone with normal battery voltage and then with the minimally adequate voltage. The microphone shall be acoustically shielded to make the acoustic pickup negligible. The variation in the meter reading shall not exceed ±.5 dBA. If the industrial sound level meter has more than one battery, the various combinations of minimally adequate battery voltages will be used to perform the above test.

(n) Each industrial sound level meter shall meet the requirements specified in section 6.2.2 of ANSI S1.4–1971 except that the industrial sound level meter, as part of a set, shall be designed so that its sensitivity can be checked with an acoustical calibrator of the coupler type.

(o) The industrial sound level meter shall meet the temperature requirements specified in section 7.1 of ANSI S1.4–1971. The effect of temperature on the electronic circuitry of the industrial sound level meter shall be determined by placing the industrial sound level meter in a temperature controlled chamber and then inserting a sinusoidal voltage in series with the microphone to produce a steady meter reading 6 decibels down from full scale deflection. If the scale of the indicating instrument is not graduated from −5 decibels to +10 decibels, other suitable testing levels may be chosen by the Institute. The microphone shall be acoustically shielded to make the acoustic pickup negligible. The temperature shall then be varied and the deviation in reading noted. The test shall be performed at least at the temperatures −10° C, 10° C, 30° C, and 50° C. The effect of temperature upon the entire instrument including the microphone shall also be determined. The test just described shall be repeated, utilizing an acoustical tone in place of electrical insertion. If the industrial sound level meter is battery operated, the tests shall be performed under battery power.

(p) The industrial sound level meter shall meet the humidity requirements for Type 1 sound level meters specified in section 7.2 of ANSI S1.4–1971 except that the range of relative humidity over which there is less than 0.5 decibel variation in sensitivity shall be that stated by the applicant. The effect of humidity on the industrial sound level meter operation shall be determined by using an acoustical tone to produce an indicated sound level 6 decibels down from full scale deflection. If the scale of the indicating instrument is not graduated from −5 decibels to +10 decibels, other suitable testing levels may be chosen by the Institute. The relative humidity shall then be varied and the deviation in reading noted.

(q) The industrial sound level meter shall meet the vibration requirements for Type 1 sound level meters specified in section 7.3 of ANSI S1.4–1971 except that the tests shall be performed and the manufacturer shall be required to state readings for the A-weighting network only. The symbol "0.1g," in ANSI S1.4–1971 means that the root-mean-square acceleration shall be 0.1g where g=9.80 m/sec². The tests shall be performed by placing the industrial sound level meter in contact with a vibrating surface. The surface shall be vibrated at least at the frequencies 63 Hz, 250 Hz, and 1000 Hz.

(r) The industrial sound level meter shall meet the requirements for magnetic fields specified in section 7.5 of ANSI S1.4–1971 except that:

(1) Tests shall be performed and the manufacturer shall be required to state the magnetic field sensitivity for the A-weighting network only.

(2) Testing shall be performed using 60 Hz and 400 Hz magnetic fields.

(3) The A-weighted levels (in decibels) for 1 oersted, 60 Hz and 400 Hz magnetic fields shall be stated for each sensitivity range attenuator setting, if provided. If no sensitivity range attenuator is provided, the indicated reading under these test conditions shall be stated.

(s) The industrial sound level meter shall, if provided with output connections, meet the requirements for output connections specified in Section 8.2 of ANSI S1.4–1971. The test shall be performed at least at the frequencies 63 Hz, 1000 Hz, and 8000 Hz.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER D—VESSEL FINANCING ASSISTANCE

PART 297—TRANSACTIONS AND OPERATIONS IN FEDERAL SHIP MORTGAGE INSURANCE FUND DEBENTURES

Revocation of Part

The heading of Subchapter D of Title 46, Code of Federal Regulations, is hereby amended to read as shown above, and Part 297 thereunder is hereby revoked.

Dated: September 30, 1976.

By order of the Assistant Secretary for Maritime Affairs, Maritime Administration.

JAMES S. DAWSON, JR.,
Secretary,
Maritime Subsidy Board.

[FR Doc.76-29687 Filed 10-7-76;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Oologah, Oklahoma

Report and order—Proceeding Terminated. In the matter of amendment of § 73.202(b), *Table of assignments,* FM Broadcast Stations (Oologah, Oklahoma), Docket No. 20830, RM–2630.

Adopted: October 1, 1976.

Released: October 5, 1976.

1. The Commission has under consideration its notice of proposed rulemaking, adopted May 27, 1976, 41 FR 23209, inviting comments on a proposal to assign FM Channel 291 (Class C) to

V41N197 OCT 8 76 UMI

Oologah, Oklahoma. This proceeding was instituted on the basis of a petition filed by William L. Wright (petitioner). Supporting comments were filed by petitioner. No oppositions were filed.

2. Oologah, a community of 458 [1] population, in Rodgers County (pop. 28,425), is located approximately 48 kilometers (30 miles) northeast of Tulsa, Oklahoma. Oologah has no local broadcast transmission service.

3. Petitioner asserts that Oologah's population has almost doubled in the last five years. In supporting comments, he states that the President of the Lakeside Bank of Oologah informed him that the bank which opened recently was projected to reach $2 million in assets by the end of the first year, and that the Public Service Company power station, located one mile south of Oologah is presently undergoing a $300 million expansion which will result in the employment of additional workers. Petitioner states that he fully intends to apply for the channel, if assigned, and to build a station if authorized.

4. The Notice requested the petitioner to submit showings as to whether or not alternate channels were available for assignment to the communities in the precluded areas which had a population of 1,000 or greater. Responding to the Notice, petitioner noted numerous alternate Class A channels that were available for assignment to the communities in question, with populations varying from 1,414 to 6,811 persons. The petitioner claimed that an FM station operating as proposed would provide a first FM service to 4,271 persons in an area of approximately 453 square kilometers (175 square miles) and a second FM service to 31,204 persons in an area of approximately 2,629 square kilometers (1,015 square miles). It would also provide a second aural service to 6,570 persons in an area of approximately 531 square kilometers (205 square miles).

5. Ordinarily a Class A channel would be assigned to a community the size of Oologah. However, since Channel 291 is the only FM channel that can be assigned to that community without making other changes in the FM Table, thereby providing Oologah with its first local FM service, and since alternate Class A channels are available for assignment to communities located in the precluded area, and an FM station would provide significant first and second FM services, the public interest would be served by assigning Channel 291 to Oologah, Oklahoma.

6. Authority for the action taken herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules and regulations.

7. *Accordingly, it is ordered,* That effective November 15, 1976, the Table of Assignments (§ 73.202(b) of the rules) is amended with respect to the city listed below:

City:	Channel No.
Oologah, Okla.	[2] 291

[2] Any application for this channel must specify at least an effective radiated power of 100 kW and antenna height of 122 meters (400 ft) above average terrain or equivalent.

8. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.76-29656 Filed 10-7-76;8:45 am]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Certain Cities in Pennsylvania, California and Minnesota

Report and order—Proceeding Terminated. In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Saegertown, Pennsylvania; Carpinteria, California; Two Harbors, Minnesota; Grass Valley, California), Docket No. 20812, RM-2647, RM-2660, RM-2671, RM-2672.

Adopted: September 28, 1976.

Released: September 30, 1976.

1. The Commission has before it the notice of proposed rulemaking, adopted May 13, 1976 (41 FR 21365), inviting comments on a number of changes in the FM Table of Assignments § 73.202(b) of the rules). The communities, channel assignments proposed, and petitioning parties are as follows:

RM-2647—Channel 232A to Saegertown, Pennsylvania (Corry Broadcasting, Inc.).
RM-2660—Channel 269A to Carpinteria, California (Israel Sinofsky).
RM-2671—Channel 269A to Two Harbors, Minnesota (FM Station Atlas).
RM-2672—Channel 221A to Grass Valley, California (Mother Lode Broadcasting Co.).

2. In each of the above cases, the petitioner seeks the assignment of a first Class A FM channel without requiring any additional changes in the FM Table of Assignments. The petitioning parties for the proposed assignments to Seagertown, Pennsylvania, and Grass Valley, California, filed supporting statements reiterating their intention to apply for the channels, if assigned, and to build stations if authorized. All population data are taken from the 1970 U.S. Census. Petitioners for the proposed assignments to Two Harbors, Minnesota, and Carpinteria, California, filed no supporting comments or statements. All proposals were unopposed except that concerning Seagertown, Pennsylvania, which was opposed by Regional Broadcasters, Inc., licensee of AM Station WMGW and FM Station WZPR (Channel 262), Meadville, Pennsylvania. The merits of the Grass Valley, California, and Seagertown, Pennsylvania, proposals will be discussed below. In the absence of any interest in a channel for the other two communities, no further discussion of these proposals is required. Both will be denied.

3. Saegertown, Pennsylvania (RM-2647). Corry Broadcasting, Inc. (petitioner) filed a petition proposing the assignment of Channel 232A to Saegertown, Pennsylvania. Saegertown (pop. 1,348) is located in Crawford County (pop. 81,342) and is situated in the northwestern part of Pennsylvania.

4. Petitioner states that Saegertown's principal industries are component parts for radio and television, electrical components, soft drinks, bolt and screw parts, molding and equipment, manufacturing of bonded adhesives, and tool and die operations. It points out that the community has no broadcast station or newspaper so the residents of Saegertown have to rely on the Meadville Tribune, published in Meadville, eight miles away. In supporting comments, petitioner reaffirmed his intention to make application for the channel if it is assigned and to construct a station expeditiously following a grant of a construction permit.

5. In response to the Notice, Regional Broadcasters, Inc. (Regional), licensee of AM Station WMGW (Class IV), and WZPR(FM) (Channel 262), filed an opposition contending that both Stations WMGW and WZPR(FM) provide Saegertown and its environs with a strong signal. Regional submitted an engineering statement to show that both of its stations render primary service to not only Meadville, but also to the adjacent areas including Saegertown. It asserts that Saegertown has no unsatisfied needs or problems which justify the assignment of an FM channel to it. It contends that various programs on its stations provide coverage of Saegertown's needs and problems. It states that the facilities of both stations are readily made available to Saegertown organizations of every character and are utilized by these organizations. Regional further contends that the public interest would not be served by the assignment of an FM channel to Saegertown which, in its view, is neither of sufficient size or importance nor has sufficient advertisers to support an FM station and whose transmission and reception needs are being satisfied by the Meadville stations.

6. In reply comments, petitioner states that Regional submitted engineering support to show that the signal of Station WMGW reaches Saegertown during daytime hours of operation, but that no showing was made of the nighttime service that might be provided to Saegertown by Station WMGW. Petitioner contends that the obvious answer is that WMGW does not provide nighttime service to Saegertown.

7. Regional reiterates in its reply comments that its stations in Meadville serve the transmission and reception needs of Saegertown. As further evidence of the absence of any need or demand for an FM station in Saegertown, Regional attached to its reply comments a letter from the Administrator of the Crawford County Home and Hospital certifying complete satisfaction with the signal and service provided by the Meadville stations and affirming the belief that no need exists for the establishment of a radio station in Saegertown.

8. Even if nearby stations do provide coverage of Saegertown and even if they offer some programming directed to Saegertown, this is not a basis for refusing to provide a community with an opportunity to acquire a first broadcast outlet for local expression. An FM channel assignment here would provide for a local station which could broadcast programs directed to meeting the special needs, interests and problems of Saegertown and the surrounding area. No station, owing its primary obligation to another locality, could be expected to provide the equivalent of such local service.

9. Grass Valley, California (RM-2647). Mother Lode Broadcasting Co. filed a petition on March 16, 1976, proposing the assignment of Channel 221A to Grass Valley, California. Grass Valley (pop. 5,149) is located in Nevada County (pop. 26,346) and situated about 80 kilometers (50 miles) northeast of Sacramento. There is no local broadcast transmission service in Grass Valley or Nevada County.

10. In the Notice, we set out economic and other information pertaining to the need for a first assignment in Grass Valley. Based on that information, we believe the public interest would be served by assigning Channel 221A to Grass Valley, California, to provide a first local broadcast service in this community. It would also represent the first service in Nevada County in which it is located.

11. Based on the foregoing considerations, we are of the view that the public interest would be served by assigning FM channels to the communities listed below.

12. *Accordingly, it is ordered,* That effective November 11, 1976, the FM Table of Assignments (§ 73.202(b) of the rules) is amended with respect to the cities listed below as follows:

City:	Channel No.
California, Grass Valley	221A
Pennsylvania, Saegertown	232A

13. Authority for the amendments adopted herein is found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules and regulations.

14. *It is further ordered,* That the petition (RM-2660) filed by Israel Sinofsky, for assignment of Channel 269A to Carpinteria, California, is denied.

15. *It is further ordered,* That the petition (RM-2671) filed by FM Station Atlas for assignment of Channel 269A to Two Harbors, Minnesota, is denied.

16. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307).)

FEDERAL COMMUNICATIONS COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte No. MC-7 (Sub-No. 1)]

PART 1048—COMMERCIAL ZONES

Washington, D.C.; Order on Reconsideration

At a session of the Interstate Commerce Commission, Division 1, Acting as an Appellate Division, held at its office in Washington, D.C., on the 28th day of September 1976.

It appearing, that on August 2, 1976, the Commission, Review Board Number 2, made and filed its report and order on petition in 125 M.C.C. 276, in this proceeding, denying in whole the relief sought (inclusion of an area .49 square miles into the Washington, D.C., commercial zone) as contemplated by section 203(b)(8) of the Interstate Commerce Act (49 U.S.C. 303(b)(8) and 49 CFR 1048.4);

It further appearing, that by petition for reconsideration, filed September 13, 1976, Montgomery County, Md., seeks reconsideration of the prior report and order at 125 M.C.C. 276, so as to have included within the present commercial zone boundaries of Washington, D.C., and, in addition, an area encompassing the new Montgomery County Service Park (comprising a total of .49 square miles);

It further appearing, that the facts as enumerated by the review board in its report and order at 125 M.C.C. 276 are correct in all material respects and are affirmed and adopted as our own;

It further appearing, that the area sought to be included within the present zone boundaries comprises a new facility (the Montgomery County Service Park) intended to house a number of area facilities (the Montgomery County Department of Liquor Control Warehouse, the Montgomery County Department of Transportation Maintenance Yard, the Maryland-National Capital Park and Planning Commission Maintenance Yard, the Montgomery County Board of Education Maintenance Yard, and the Shady Grove METRO facility, among others) which had previously been located within the present commercial zone boundaries; that the area sought to be included is immediately adjacent to the present zone boundaries, comprises but .49 square miles, and is presently connected to the present zone boundaries by a private access road; that there presently exists a substantial daily traffic flow between the new liquor warehouse, presently in operation, and points within the District of Columbia; that electric power and telephone service are supplied to both the new facility and the Washington, D.C., metropolitan area by the same companies; that the area sought to be included herein is part of the Washington Metropolitan Area Transit Authority which provides public transportation between Washington, D.C., and the new county facility (and to points beyond); that the special circumstances presented by the petition and evidence in support thereof (the fact that: The area sought to be included is small, the relocated county facilities were previously within the zone, the area sought to be included is presently connected to the existing zone by a private road, and the redefinition will clarify and correct certain presently existing ambiguities in the presently defined zone), in their totality, demonstrates a nexus between the area sought to be included and Washington, D.C., itself; and that the area described in the notice accompanying this order is, in fact, economically and commercially a part of Washington, D.C.:

Wherefore, and good cause appearing therefor:

It is ordered, That this proceeding be, and it is hereby, reopened for reconsideration.

It is further ordered, That the report and order entered in Ex Parte No. MC-7 (Sub-No. 1) on August 2, 1976, be, and it is hereby, vacated and set aside to the extent it is inconsistent herewith, and the revision in the notice accompanying this order, which revision is subject to prior publication in the FEDERAL REGISTER of the accompanying notice of the limits of the commercial zone, shall be substituted in lieu of the present commercial zone limits as defined in 49 CFR 1048.4.

It is further ordered, That this order shall become effective on November 1, 1976, and shall continue in effect until further order of the Commission.

It is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission, at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

ROBERT L. OSWALD,[1]
Secretary.

The Interstate Commerce Commission has modified § 1048.4 of the Code of Federal Regulations by the redefinition of the commercial zone limits of Washington, D.C. This action stems from a petition filed by Montgomery County, Md., on June 1, 1976, requesting that the commercial zone limits of Washington, D.C., be redefined to include the Montgomery County Service Park, an area of .49 square miles, which area would be exempt from the Commission's economic regulation under section 203(b)(8) of the Interstate Commerce Act.

This rule is issued under authority of 49 Stat. 543, as amended 544, as amended 546, as amended 49 U.S.C. 302, 303, and 304.

Issued in Washington, D.C., this 28th day of September 1976.

Accordingly, this action revises 49 CFR 1048.4 as follows:

§ 1048.4 Washington, D.C.

The zone adjacent to and commercially a part of Washington, D.C., within which

[1] By the Commission, Division 1, Acting as an Appellate Division, Commissioners Murphy, Gresham, and Christian, Commissioner Murphy dissenting. Dissenting statement filed as part of the original document.

V41I197 OCT 8 76 UM

transportation by motor vehicle, in interstate or foreign commerce, not under a common control, management, or arrangement for a continuous carriage to or from a point beyond the zone is partially exempt from regulation under section 203(b)(8) of the Interstate Commerce Act (49 U.S.C. 303(b)(8)) includes and it is comprised of all as follows:

Beginning at the intersection of MacArthur Boulevard and Falls Road (Maryland Highway 189) and extending northeasterly along Falls Road to its junction with Scott Drive, thence west on Scott Drive to its junction with Viers Drive, thence west on Viers Drive to its junction with Glen Mill Road, thence northeast on Glen Mill Road to its junction with Maryland Highway 28, thence west on Maryland Highway 28 to its junction with Shady Grove Road, thence northeasterly on Shady Grove Road to its junction with Briardale Road, thence southeasterly on Briardale Road to its junction with Redland Road, thence southwesterly on Redland Road to Crabbs Branch, thence southeasterly along the course of Crabbs Branch to Rock Creek, thence southerly along the course of Rock Creek to Viers Mill Road (Maryland Highway 586), thence southeasterly along Viers Mill Road approximately 0.3 mile to its junction with Aspen Hill Road, thence northeasterly along Aspen Hill Road to its junction with Brookeville Road (Maryland Highway 97), thence southeasterly along Brookeville Road to its junction with Maryland Highway 183, thence northeasterly along Maryland Highway 183 to Colesville, Md., thence southeasterly along Beltsville Road to its junction with Powder Mill Road (Maryland Highway 212), thence easterly over Powder Mill Road to its junction with Montgomery Road, thence northeasterly along Montgomery Road, approximately 0.2 mile, to its junction with an unnumbered highway extending northeasterly to the north of Ammendale Normal Institute, thence along such unnumbered highway for a distance of about 2.2 miles to its junction somewhat north of Virginia Manor, Md., with an unnumbered highway extending easterly through Muirkirk, Md., thence along such unnumbered highway through Muirkirk to its junction, approximately 1.8 miles east of the Baltimore and Ohio Railroad, with an unnumbered highway, thence southwesterly along such unnumbered highway for a distance of about 0.5 mile to its junction with an unnumbered highway, thence southeasterly along such unnumbered highway through Springfield and Hillmeade, Md., to its junction with Defense Highway (U.S. Highway 50), thence southwesterly along Defense Highway approximately 0.8 mile to its junction with Enterprise Road (Maryland Highway 556), thence southerly over Enterprise Road to its junction with Central Avenue (Maryland Highway 214), thence westerly over Central Avenue about 0.5 mile to its crossing of Western Branch, thence southerly down the course of Western Branch to Maryland Highway 202, thence westerly approximately 0.3 mile along Maryland Highway 202 to its junction with White House Road, thence southwesterly along White House Road to its junction with Maryland Highway 221, thence southeasterly along Maryland Highway 221 to its junction with Maryland Highway 4, thence westerly along Maryland Highway 4 to the boundary of Andrews Air Force Base, thence south and west along said boundary to Brandywine Road (Maryland Highway 5), thence northwesterly along Maryland Highway 5 to its junction with Maryland Highway 337, thence southwesterly along Maryland Highway 337 to its junction with Maryland Highway 224, thence southerly along Maryland Highway 224 to a point opposite the mouth of Broad Creek, thence due west across the Potomac River to the west bank thereof, thence southerly along the west bank of the Potomac River to Gunston Cove, thence up the course of Gunston Cove to Pohick Creek, thence up the course of Pohick Creek to Virginia Highway 611, thence southwesterly along Virginia Highway 611 to the Fairfax-Prince William County line, thence along said county line to Virginia Highway 123, thence northerly along Virginia Highway 123 to its junction with Virginia Highway 636, thence northeasterly along Virginia Highway 636 to its junction with Virginia Highway 638, thence northwesterly along Virginia Highway 638 to its junction with Virginia Highway 620, thence westerly along Virginia Highway 620 to its junction with Virginia Highway 655, thence northeasterly along Virginia Highway 655 to its junction with U.S. Highway 211, thence westerly along U.S. Highway 211 to its junction with Virginia Highway 608, thence northerly along Virginia Highway 608 to its junction with U.S. Highway 50, thence westerly along U.S. Highway 50 to the Fairfax-Loudoun County line, thence northeasterly along said county line to its intersection with Dulles International Airport, thence along the southern, western, and northern boundaries of said airport to the Fairfax-Loudoun County line (at or near Dulles Airport Access Road) thence northeasterly along said county line to its junction with Virginia Highway 7, thence southeasterly along Virginia Highway 7 to its junction with Virginia Highway 193, thence along Virginia Highway 193 to its junction with Scott Run Creek, thence northerly down the course of Scott Run Creek to the Potomac River, thence due north across the river to MacArthur Boulevard to its junction with Maryland Highway 189, the point of beginning.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 32—HUNTING

Horicon National Wildlife Refuge; Wis.

The following special regulation is issued and is effective October 8, 1976.

§ 32.22 Special regulations; upland game; for individual wildlife refuge areas.

WISCONSIN

HORICON NATIONAL WILDLIFE REFUGE

The public hunting of pheasants and rabbits on the Horicon National Wildlife Refuge, Wisconsin, is permitted only on the area designated by signs as open to hunting, during the period November 20 through November 28, 1976, with designated firearms, and during the period December 4 through December 31, 1976 with bow and arrow. The open area, comprising 20,700 acres, is delineated on maps available at refuge headquarters, Mayville, Wisconsin, and from the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 31, 1976.

JACK TOLL,
Refuge Manager,
Horicon National Wildlife Refuge.

OCTOBER 1, 1976.

[FR Doc.76-29674 Filed 10-7-76;8:45 am]

PART 32—HUNTING

Horicon National Wildlife Refuge; Wis.

The following special regulation is issued and is effective October 8, 1976.

§ 32.32 Special regulations; big game, for individual wildlife refuge areas.

WISCONSIN

HORICON NATIONAL WILDLIFE REFUGE

The public hunting of deer on the Horicon National Wildlife Refuge, Wisconsin, is permitted only on the area designated by signs as open to hunting, during the period October 20 through November 28, 1976, with designated firearms, and during the period December 4 through December 31, 1976 with bow and arrow. The open area, comprising 20,700 acres, is delineated on maps available at refuge headquarters, Mayville, Wisconsin, and from the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Hunting shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 12, 1976.

JACK TOLL,
Refuge Manager,
Horicon National Wildlife Refuge.

OCTOBER 1, 1976.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 982]

FILBERTS GROWN IN OREGON AND WASHINGTON

Proposed Expenses of the Filbert Control Board and Rate of Assessment for the 1976–77 Fiscal Year

Notice is given of a proposal regarding expenses of the Filbert Control Board, and rate of assessment, for the 1976–77 fiscal year, under §§ 982.60 and 982.61 of the marketing agreement, as amended, and Order No. 982, as amended (7 CFR Part 982), regulating the handling of filberts grown in Oregon and Washington. The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The Board has recommended for the 1976–77 fiscal year beginning August 1, 1976, a budget of expenses in the total amount of $41,014. Based on the volume of filberts estimated to be subject to this regulatory program during the 1976–77 fiscal year, an assessment rate of 0.226 cent per pound of assessable filberts is expected to provide sufficient funds to meet the estimated expenses of the Board.

Consideration will be given to any written data, views, or arguments pertaining to the proposal which are received by the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than October 26, 1976. All written submissions made regarding this notice should be in quadruplicate and will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposal is as follows:

§ 982.321 Expenses of the Filbert Control Board and rate of assessment for the 1976–77 fiscal year.

(a) *Expenses.* Expenses in the amount of $41,014 are reasonable and likely to be incurred by the Filbert Control Board during the fiscal year beginning August 1, 1976, for its maintenance and functioning and for such purposes as the Secretary may, under this part, determine to be appropriate.

(b) *Rate of assessment.* The rate of assessment for this fiscal year, payable by each handler under § 982.61, is fixed at 0.226 cent per pound of filberts.

Dated: October 5, 1976.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

Animal and Plant Health Inspection Service

[9 CFR Parts 160, 161]

VETERINARY TECHNICIANS BY ACCREDITED VETERINARIANS

Proposed Requirements and Standards for Use

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to sections 3, 4, 5, 11, and 13 of the Act of May 29, 1884, as amended, section 10 of the Act of August 30, 1890, sections 1 and 2 of the Act of February 2, 1903, as amended, section 3 of the Act of March 3, 1905, as amended, the Act of May 31, 1920, sections 3 and 11 of the Act of July 2, 1962, sections 12–19 and 21 of the Federal Meat Inspection Act (21 U.S.C. 105, 111–113, 114, 114a, 114a–1, 116, 120, 121, 125, 134b, 134f, 612–619 and 621), and section 9 of the Horse Protection Act of 1970 (15 U.S.C. 1828), the Animal and Plant Health Inspection Service, is considering amending Parts 160 and 161, Title 9, Code of Federal Regulations, to provide for accredited veterinarians, in States which authorize such procedures, to employ and utilize the services of veterinary technicians in carrying out certain functions required by regulations and cooperative State-Federal program standards.

Statement of considerations. Current regulations which set forth the standards for accredited veterinarians require that all official functions be performed by an accredited veterinarian personally. With the increased traffic in livestock, and the decline in the number of veterinarians available for service relating to cooperative disease eradication programs in recent years, it has become virtually impossible for an accredited veterinarian to personally perform all of the tasks required.

Recently, the utilization of veterinary technicians to perform certain tasks under the supervision of veterinarians has gained wide acceptance, by State and Federal animal health regulatory agencies and within the veterinary profession. Several States have adjusted, or are considering adjusting, their veterinary practice acts or similar authorities to provide for the employment and use of technicians by veterinarians in private practice.

Specific tasks such as drawing blood samples for brucellosis testing, vaccinating for brucellosis, preparation of test charts and vaccination reports, and identifying animals as required by regulations and cooperative program standards can be performed properly by technicians under the supervision and guidance of an accredited veterinarian. Such utilization of technicians in States where it is authorized would greatly benefit cooperative program needs, and free accredited veterinarians to perform those tasks which require the personal attention of an accredited veterinarian.

This proposal is not intended to lessen the responsibilities of an accredited veterinarian in regard to compliance with the standards for either the accredited veterinarian or for the technicians employed and supervised by him. Further, this proposal would not relieve the accredited veterinarian of his responsibility for any of the functions performed by the veterinary technician under his supervision.

Therefore, Parts 160 and 161 would be amended in the following respects:

1. In § 160.1, a new paragraph (h) would be added to read:

§ 160.1 Definitions.

* * * * * *

(h) *"Veterinary technician."* A person licensed or otherwise authorized by the State in which the functions set forth in § 161.2(1) are to be performed, and who is employed and supervised by an accredited veterinarian who takes full responsibility for the performance of such functions.

2. § 161.2, a new paragraph (l) would be added to read:

§ 161.2 Standards for accredited veterinarians.

* * * * * *

(l) Notwithstanding the provisions of this section, an accredited veterinarian may, when such procedure is authorized by the State in which the veterinarian is accredited, employ veterinary technicians for the purposes of drawing blood samples for brucellosis testing, administering brucella vaccine (Strain 19), branding of reactors and exposed animals, and preparing related records and reports. The accredited veterinarian shall personally sign all such records and reports and he shall assume full responsibility, and his accreditation shall be subject to suspension or revocation under § 161.3, for any failure of a veterinary technician in his employ to comply with any provisions of the standards for veterinary accreditation as set forth in this section.

Any person who wishes to submit written data, views or arguments concerning the proposed amendments may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, Maryland 20782 before November 10, 1976.

All written submissions made pursuant to this notice will be made available for

V 41 1976 OCT 8 76 UM

public inspection at the Federal Building, 6505 Belcrest Road, Room 870, Hyattsville, Maryland, during regular hours of business (8:00 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., this 29th day of September 1976.

R. P. JONES,
Acting Deputy Administrator,
Veterinary Services.

[FR Doc.76-29526 Filed 10-7-76;8:45 am]

DEPARTMENT OF COMMERCE

Maritime Administration

[46 CFR Part 298]

VESSEL FINANCING ASSISTANCE

Proposed Rulemaking Regarding Obligation Guarantees

Notice is hereby given that the Maritime Administration, Department of Commerce proposes to revise Part 298, Title 46, Code of Federal Regulations.

The revision proposed herein provides comprehensive regulations relating to the operation of the program of Obligation Guarantees (Title XI program) authorized by Title XI of the Merchant Marine Act, 1936, as amended (the Act), 46 U.S.C. 1271–1279. The proposed revision implements the extensive technical changes in the form of vessel financing assistance effected by the Federal Ship Financing Act of 1972, Pub. L. 92–507 (86 Stat. 909). These regulations are not applicable to the Title XI program for commercial fishing vessels, which is administered by the National Oceanic and Atmospheric Administration (NOAA) of the Department of Commerce. Regulations relating to the Fishing Vessel Obligation Guarantee Program Procedures promulgated by NOAA, appear at 50 CFR Part 255.

Under the Title XI program as it existed prior to the 1972 amendment, the Government insured a loan or mortgage agreement. This procedure required each purchased of ship financing bonds (or a trustee), the borrower, and the Government to be party to numerous security agreements, including the mortgage. The 1972 amendment to Title XI was enacted to simplify the form of Government assistance in the financing of vessel construction, reconstruction and reconditioning. After approval of an application for assistance, the United States, represented by the Secretary of Commerce (Secretary), guarantees the payment of the principal of, and interest on one or multiple debt instruments (obligations) issued by the legal owner of the vessel (obligor), who is or will become the mortgagor of one or more vessels, which are to be the principal security to the Secretary for issuing and continuing the guarantees. The guarantee of the United States is endorsed on the face of each obligation by an authorized agent of the Secretary (authenticating agent). All security for the guarantees runs directly to the Secretary, and is provided for in the mortgage, security agreement and other agreements. Holders of the obligations (obligees) rely only on the guarantees as security for their loans to the obligor.

Some of the most significant provisions of these regulations are the following:

(1) Unique terms relating to the identity, duties, rights and responsibilities of the various participants in a vessel financing under the Title XI program are defined (§ 298.2). There are also financial definitions (§ 298.13(b)). Other terms of importance appear in parentheses, with headings in capital letters, after being described in the text. "Depreciated actual cost" is explained in the context of the limitation on the amount of guarantees (§ 298.21(g)).

(2) A procedure is set forth for an applicant to claim, at the time of application, that certain information contained in the application is exempt from production pursuant to a request based on provision of the Freedom of Information Act (5 U.S.C. 552). Unless the applicant makes such a timely claim and receives a favorable determination, the Maritime Administration will not oppose a subsequent request for production of any information contained in the application. This procedure allows the Maritime Administration to carry out the mandate of the Freedom of Information Act by giving consideration to the applicant's assertion of exemption at the time of application, prior to an actual request for public disclosure. The proposed provisions afford guidance to applicants who might be concerned about the possible public disclosure of sensitive information required to be included in the application (§ 298.3).

(3) An applicant for guarantees must pay a non-refundable filing fee of $1,000 at the time of application for a commitment by the Secretary to execute guarantees (§ 298.3).

Within 30 days after a conditional commitment is issued by the Secretary (letter commitment), the applicant must pay an additional fee for the investigation of the project described in the application (§ 298.15). The base fee is $1,000 for the first $300,000 of obligations, plus one-eighth of one percent of the balance of obligations, if guarantees are to be issued after completion of the project. An additional 10 percent of this sum is charged if the guarantees are to be issued prior to completion of the project. If, for any reason the Secretary disapproves the application, one half of the investigation fee is due and payable. An additional investigation fee is imposed for any amendment to an application representing a "substantial change", examples of which are given. The additional investigation fee is $3,000, if the application amendment occurs prior to review of the documentation, and one-half of the base investigation fee, with a maximum of $50,000, if the amendment is made after review of the documentation. The filing fee of $1,000 is credited against the investigation fee.

(4) The applicant and any other person who is or will be the legal or beneficial owner of a vessel financed under the Title XI program, or who will have any interest in the vessel, must be United States citizens, within the meaning of section 2 of the Shipping Act, 1916, as amended, (46 U.S.C. 801–842), unless the Secretary approves a non-citizen participation under authority of section 9, 37 and 41 of that Act. Persons required to be United States citizens must submit proof of citizenship to the Secretary, in the form and manner prescribed in 46 CFR Part 355 (§ 298.10).

(5) Each vessel which is to be security for guarantees must satisfy numerous specified criteria, including domestic origin of materials and components, where practicable. Guarantees will not be executed for the purpose of financing the reconstruction or reconditioning of a vessel unless, in the opinion of the Secretary, the reconstruction or reconditioning will increase the useful life of the vessel by at least five years (§ 298.11).

(6) The applicant for a commitment to execute guarantees must demonstrate to the satisfaction of the Secretary that the owner of a vessel to be security for guarantees will meet either primary or alternative working capital and equity requirements at the date of the initial closing (defined). If the vessel owner is not to be the operator, at the initial closing the vessel operator must satisfy the working capital requirements, while the owner and the operator must satisfy different equity requirements. The vessel owner or operator is also the party (company) required to enter into a Title XI Reserve Fund and Financial Agreement to provide further security to the Secretary for the guarantees. It establishes continuous and additional restrictions (covenants) placed on the company's activities and its responsibility to make reserve fund deposits under the agreement, which vary, depending on whether the company is subject to and is in compliance with the primary or alternative financial requirements at closing (§ 298.35).

(7) The Secretary may approve guarantees for obligations issued to refinance existing debt (whether or not receiving assistance under Title XI), so long as the existing debt was issued for one of the purposes specified in section 1104(a)(1)–(3) of the Act, within the time limitation prescribed in section 1104(a)(1). The Secretary will allow refinancing of such debt which is not receiving Title XI assistance only if satisfied, by information furnished by the applicant, that the average annual payment of interest on the obligations to be issued for purposes of refinancing will be at least 20 percent less than the average annual payment of interest on the debt to be refinanced (§ 298.21).
